FROM PROVINCIAL POINTS

INJUNCTION APPLICATION WILL BE HEARD TODAY.

Star Mining Company vs. Byron N. White Company---News Items of Surrounding Camps.

SANDON, August 12.—[Special to The Tribune.]—The Star Mining and Milling Company's application for an injunction against the Byron N. White Company will come up in the Victoria court on Tuesday. The Star Mining and Milling Company have a force at work stripping a ledge which they claim to be the Slocan Star ledge on the Rabbit Paw and Heber ground. The Byron N. White Company is opening a ledge on the Silversmith which they claim as the apex of the Slocan Star ledge. The question of ownership of the Slocan Star ledge where it dips into Rabbit Paw and Heber ground hinges on the correctness of these contentions. It will probably be the hardest fought mining case ever brought into the British Columbian courts. John M. Harris of Sandon and Drumheller of Spokane are back of the Rabbit Paw.

A bridge burned on the Nakusp and Slocan road between Nakusp and Roseberry last night. Traffic is tied up on the line today.

A dangerous bush fire nearly took out the Payne terminals and office Sunday. Men were fighting fire all day.

The bond of the Mountain Con. group was thrown up today. The property belongs to W. W. Warner and was bonded by A. H. Riehle for an Old Country company.

Ymir's Quota of News.

YMIR, August 12.—[Special to The Tribune.]—The Presbyterian manse will be completed in about 10 days. It is rumored ,and true, too, that Rev. Mr. Young, the pastor, has a good prospect in Nelson, which he intends to locate in the manse next month.

P. V. Loth, representing Cincinnati capital, is looking over the camp. He is visiting all the good properties. The company Mr. Loth represents is already heavily interested around here.

William McGhie, at one time connected with C. Hillyer in the Nelson sawmill, was in Ymir yesterday. He inspected the old Ymir sawmill.

There are over 200 men at present employed at the Ymir mill and mine. With the starting up of the Dundee and other properties shortly, just watch Ymir's smoke.

There was a fall in glass early Saturday morning. Some one evidently full of the cup that cheers, but inebriates, while wending his weary feet homeward, fell through the DesBrisay Jobbing Company's plate glass window, completely demolishing it.

Plenty of backcaps, abundance of red raspberries, but halo huckleberries—on account of the backward spring.

Prospectors are coming in every day with their pockets full of good specimens. One of the "gold seekers" informed a Tribune representative that he discovered an enormous ledge on his claim on the mountain near Hall siding. When asked how large, he replied that the corner stakes did not take it in (over 1500 feet), running onto another claim. A man that would tell a yarn like the above has a breath like a blizzard and a record of a convict.

Jim Graham, the pioneer prospector, was in yesterday from the Yankee Girl, and is very jubilant over prospects. The Yankee Girl lies between the Evening Star and the Dundee mine, and is one of the most promising in the camp. The ledge on the Yankee Girl is a continuation of the Dundee. They have an open cut of about 22 feet and are now running a shallow tunnel.

W. M. Coffee, the tonsorial architect, returned Saturday after spending a couple of months visiting his old home in Wisconsin. He surprised the boys by returning home by his lonesome, as he gave it out cold before leaving that he would return with the best girl the Badger state could produce; but probably he didn't look good to her.

William F. Edgar leaves Monday morning with a crew of men for the Big Horn. They will continue work on the tunnel to the footwall. When this property is further developed it will be as rich as any in the camp. The group comprises the Big Horn, Green Horn and Sophia and is owned by the Simcoe Mining Company.

A crew of men leaves tomorrow (Monday) for the Big Four, owned by the British Lion Gold Mining Company, to commence contract work on that property. Mr. Manson has the contract.

Good assays have been taken from the Copperopolis, adjoining the Happy Thought, on Big Horn mountain. The property is owned by Messrs. Edgar, Woods and Frank Grantham. The Copperopolis has two distinct leads, but there has been nothing done on the property except assessment work. Assays have gone from $4 to $36 in gold and 24 per cent in copper. The surface showings are excellent, and the leads can be traced through two claims. The Big Horn mountain and Porcupine creek are bound to come to the front, as better indications are not to be found in the country.

Fruit and vegetable truck is drying up for lack of water. A good shower of rain would make the gardeners and fruitmen in this camp laugh.

The public school will open in about 10 days, much to the joy of the parents.

Vancouver Notes.

VANCOUVER, August 12.—[Special to The Tribune.]—Large numbers of Indians and Chinamen are crossing the boundary line from Steveston to Blaine to work in the canneries on the other side of the line. There is a great shortage in the labor market there and much higher prices for workmen in canneries are being paid than on the Fraser.

It is reported here among Canadian Pacific trackmen that the strike will probably be settled this week at Montreal. The western delegation will arrive in the east in a few days. The sole trouble now is recognition of unions, the matter of wages being a subject that can be easily adjusted.

The fish run was greater than ever last night. Fishing for three hours, from 6 to 9, a limit of 200 per boat was reached, and the canneries have more than they can handle today.

News From the Boundary.

GRAND FORKS, August 12.—[Special to The Tribune.]—Grand Forks will send its hose team to Greenwood to compete in the hose races there on Labor day.

Several local clergymen are waging a crusade against the proposed music hall.

The lead on the Alabama group near Nelson, Washington, owned by the Lucille Dreyfus Mining Company, has been proven to be 24 feet wide. It is a copper-gold proposition and a shipment will be made to the Granby smelter shortly.

Bob Lockhart has returned from Franklin camp. He says he uncovered a lead of rich looking ore 30 feet wide on his Maple Leaf claim.

A by-law to raise $9000 for the purpose of providing additional school accommodation will be submitted to the ratepayers on the 23d inst.

James H. McKechnie of Granby, Quebec, a leading shareholder of the Miner-Graves syndicate, is here on a visit, the guest of A. C. Flumerfelt, the assistant general manager.

Owing to the railway construction freight traffic between here and Republic is active. On Saturday 40 four-horse teams left the depot here for points on the reservation.

Judge Leamy sentenced Dan Grady to three years' imprisonment in the provincial penitentiary for stealing a horse, the property of Mrs. Thornton, near Midway.

The appeals of six local Chinamen, who had been fined for gambling, were disallowed.

Andrew Johnson, a miner, died here rather suddenly about two months ago, and as several suspicious circumstances were disclosed at the inquest it was decided to send the stomach to the provincial analyst. Dr. Fagan failed to find any evidence of poisoning.

SOME 60,000 ARE NOW OUT

Battle Is Now Fairly On.

PITTSBURG, August 12.—The struggle for the mastery between the manufacturers and men in the steel industry is now fairly launched and on the first show of strength advantage is with the former. The general strike order issued by president Shaffer of the Amalgamated Association has so far been obeyed by only about 14,000 men, according to the best figures obtainable here. The first two preliminary calls were answered by about 45,000 men, so that the total number out is now in the neighborhood of 60,000. The strikers made gains here today over the showing of last night, and their prospects for further accessions at both McKeesport and Wheeling during the week are very favorable. The action of the Amalgamated men at Chicago, Joliet and Bayview in refusing to come out and the failure to secure any recruits in the Carnegie group throughout the Kiskeminetas valley and the big plants at Youngstown and Columbus, Ohio, have been markedly disappointing to them. They are keeping up the fight, however, in a spirited manner and claim that they have strength in reserve which will surprise their opponents. They are pressing their advantage at McKeesport and Wheeling and their organizers are still at work in those two cities.

Boys Join the Strike.

PITTSBURG, August 12.—Two hundred and fifty welding helpers came out tonight and crippled the great butt welding department of the National Tube Works at McKeesport. The strikers are nearly all boys under 18 and comprise half of the force of helpers in this department. Fully 2000 men will be forced to quit work and the entire department, consisting of 4800 men, is expected to be idle. The boys came out against the wishes of the Amalgamated officers. The young fellows are turbulent and it was their strike that began the great steel strike and riots of 1894.

Government Suffers a Defeat.

LONDON, August 12.—The government was defeated in the house of commons tonight in the course of debate on the factory bill. The house supported by 163 to 141 a proposal, opposed by the government, that textile factories should close at noon instead of at 1 o'clock as now. The opposition and the Irish members cheered wildly. Mr. Ritchie, the home secretary, announced that the government would accept the decision. Timothy Healy, amid laughter, remarked that the home secretary has shown great resignation, but not the sort of resignation the house wanted. The house passed to a second reading the Pacific cable bill by a vote of 183 to 59.

THE CHALLENGER IN PORT

ENTHUSIASTIC WELCOME GIVEN LIPTON'S NEW YACHT.

Experts Admire Her Lines and Finish and Think She Shows Every Indication of Speed.

NEW YORK, August 12.—The new American cup challenger, Shamrock II, lay at anchor off Sandy Hook lightship last night and early this morning she was towed up the bay to Tompkinsville, Staten Island. She will be taken at once to Erie basin, where she will be stripped and her racing mast stepped. Her spars are ready and there will be no delay in getting her into racing trim. Whether she will go into dry dock to have her underbody cleaned before her trials outside is not yet known. The challenger of 1901 received a lively and enthusiastic welcome from every craft in the harbor as she came up the bay in tow of the tug Robert Haddon. She had her first taste of the enthusiasm with which she was to be greeted when two tugs filled with newspaper men and the steam pilot boat New York reached her anchorage near Sandy Hook lightship at daylight. The skippers of the tugs loosed their whistles and the New York wafted a salute with her siren. The Erin acknowledged the salute with three deep blasts. It was at her anchorage overlooking the field where she is to give battle in September to the defender of the cup that the yachting sharps had their first glimpse of the new challenger by daylight. The grace and beautiful lines of her slender body were marred by her cumbrous cruising rig, but one glance, however, was sufficient to convince the experts that Watson had built a much handsomer boat than the old Shamrock. She had none of that aggressiveness characteristic of the bulldog muzzle of the old boat. Slender as a girl, every delicate line indicated speed. She looks the fastest boat ever turned out in British waters. One of her beauties is Watson's peculiar tilt of the counter. There is no flat dish or tumble home along the topsides, and her great overhang gives her the appearance of speed. She was painted green, like Lipton's first challenger. She raised her anchor and took the tow line from the Haddon at 5:30. She flew sir Thomas Lipton's private signal, a green shamrock in yellow field, from her masthead, while her consort, the Erin, carried the same pennant at her mainpeak. The American flag flew at her fore and the British naval reserve flag, in which were worked the colors of the Royal Ulster Yacht Club, astern. No statement was offered as to the distance the yacht was towed by the Erin, but it is believed she was towed fully two-thirds of the way, although the articles of agreement provide that the challenger shall only be towed "during calms, at intervals between breezes." She sailed from Gourock July 27 at 10:30 a. m. The total length of the voyage was 3769 miles and the actual running time was 14 days 9 hours and 45 minutes. She anchored in the Azores from 3 p. m. August 2d to 6:30 p. m. August 3d. Her day's runs were: 16 miles, 260, 267, 287, 284, 276, 52, 186, 281, 250, 151, 267, 259, 247, 235, 241.

Every marine glass in the harbor seemed leveled at the challenger as she came on with streams of signal flags from her yards, painting her international code name "R M C B" against the green and dripping sky. As she passed Forts Wadsworth and Hamilton at the narrows the Shamrock courteously displayed her ensign three times. Hardly had her anchor hit the bottom off Tompkinsville before throngs appeared on hill and pier-head to study her lines with their glasses. A driving, pelting rain did not seem to dampen the ardor of those who desired an early glimpse of the new challenger. The people aboard the steamer Sandy Hook from Navesink Highlands crowded the rail and gave three rousing cheers as she swept by on her way to New York, cheers that were answered with a will by the crew of the Shamrock II.

C P R. Earnings and Expenses.

MONTREAL, August 12.—At a meeting of the directors of the Canadian Pacific railroad today the usual dividend of 2 per cent on the preferred stock for the half year ended June 30th last was decuared. A dividend of 2 1-2 per cent for the same period was also declared on the common stock. The results for the fiscal year to June 30th last were: Gross earnings, $30,855,203; working expenses, $18,745,828; net earnings, $12,109,375; income from other sources, $933,425; total net income, $13,042,800; less fixed charges, including interest on land bonds, $7,305,835; less amount applied against ocean steamships, $150,000; net revenue available for dividends, $5,586,965. After payment of all dividends declared, the surplus for the year carried forward is $1,114,458.

Typos in Session.

BIRMINGHAM, Ala., August 12.—The annual convention of the International Typographical Union met in this city today, president James M. Lynch of Syracuse in the chair. The report of secretary Bramwood giving the credential list was adopted. President Lynch then announced the standing committees. Delegate Govan of New York offered a resolution to consider the relation of taxation to wages, which was referred. The sympathy and moral support of the union was extended to the Amalgamated Association of Iron, Tin and Steel Workers in their difficulty with the United States Steel Corporation by a rising vote. The convention then adjourned for the day.

Eastern Baseball

American—Boston 6, Philadelphia 0; second game, Boston 1, Philadelphia 7; Milwaukee 6, Detroit 4; Chicago 17, Cleveland 2.

Eastern—Worcester 8, Buffalo 5; Toronto 0, Hartford 2; second game, Toronto 4, Hartford 6.

ANOTHER MINE HORROR.

NANAIMO, August 12.—[Special to The Tribune.]—A frightful explosion which, it is feared, has been attended with great loss of life has been reported from the Extension mines near Ladysmith. As near as can be learned the explosion occurred shortly after the morning shift had gone down into the mine, and although there are all sorts of wild rumors afloat as to the loss of life, nothing authentic has as yet been received. Reports so far received are to the effect that one body has been recovered and that there are upwards of 50 miners yet to be accounted for. With the recollection of the Cumberland horror still fresh in the public mind, there is apparently no limit set to the disaster wrought by the explosion, but there is as yet very little news from which to gather anything but a very hazy idea as to the cause or effect of the disaster. Latest reports from Ladysmith are to the effect that relief parties were at work endeavoring to reach the imprisoned miners. The officials of the mine are responsible for the report that great damage has been done to the property, but at present all interest centers upon the efforts being made to get at the miners. The Extension mines are owned by premier Dunsmuir.

TWO SENSATIONS SPRUNG

SUPERINTENDENT KADESH ARRESTED AT NORTHPORT.

Non-Union Smelter Workers Walk Out. Claim They Were Deceived in the Matter of Wages.

ROSSLAND, August 12.—[Special to The Tribune.]—There were two sensations at Northport today, the arrest of Kadesh and a new strike among the smelter men. Upon the arrival of attorney Murphy of Butte, who is the standing attorney for the Western Federation of Miners, it was decided to at once proceed with the cases against the smelter authorities for carrying arms and superintendent Kadesh was arrested shortly after high noon today. The charge against him is for unlawfully maintaining armed guards and appearing in public brandishing deadly weapons and threatening to do grievous bodily harm. Kadesh was put under $1500 bonds to appear at the next county court session. The arrest has caused a sensation, as it was thought the injunction proceedings would act as a bar to all others.

Twenty-five workers at the smelter walked out today on strike. They were promised $3 per day and did not get it. Fifteen of the men had been brought all the way from Leadville two weeks ago. The strikers are jubilant and say other workers are coming out.

The assault case against Calistro was adjourned until tomorrow at Daly's request. The union is taking no action in the matter, but Calistro's fellow countrymen are looking after him and got him out on bail today.

Anthony J. McMillan, who assisted in successfully floating the Snow Shoe company in London, has returned after several months' in England.

A Slight Error.

CHICAGO, August 12.—The Record-Herald says: The George H. Phillips Company has found itself better off by $134,000 than it thought by the discovery of two errors in the books, found since the firm suspended business. One was an error of an even $100,000. The firm deposited in the bank $133,000 in cash, for which it received credit by the bank, but which appeared on the books of the firm as a deposit of $33,000. Another mistake of the bookkeeper was the failure to credit the firm with $34,000 of warehouse receipts deposited in the bank early in April. The deposit of these receipts was the same as a deposit of cash, and the failure to account for them caused a reduction in the working capital of the firm by that amount. A statement will be made today by Mr. Phillips of the assets of the firm and it is probable that the firm, reorganized, will resume business Tuesday.

SEATTLE, August 12.—A detachment of signal corps men destined for Fort Egbert, Alaska, and other lower river posts, arrived in Seattle today and will go north on the next steamer.

TELEGRAMS IN BRIEF FORM

FROM VARIOUS QUARTERS OF THE GLOBE.

Interesting Occurrences of Yesterday Condensed and Printed in a General Way.

MONTREAL, August 12.—An effort is being made to organize the servant girls in Montreal into a union.

LONDON, August 13.—It is understood that Mr. Croker has booked passage to reach New York September 5th.

HULL, Quebec, August 12.—Germaine Gratton, three years old, fell into a tub of boiling water and was badly scalded. She died soon after.

HALIFAX, August 12.—The Philadelphia cricketers beat the all-Halifax team in the match which concluded the series Saturday night by 35 runs.

ANTIGONISH, N. S., August 12.—MacDonald's lumber mills and factory were destroyed by fire Saturday night. Loss about $10,000; no insurance.

PARIS, August 12.—Almost the whole Parisian press referring to the death of signor Crispi judge severely the political work and private life of the dead statesman.

BERLIN, August 12.—Edmund Z. Brodewsky, United States consul at Solingen, died suddenly yesterday morning at the house of a friend, a surveyor named Kubicki, in Eberswald.

MADRID, August 12.—The general feeling of discontent prevailing here has reached the royal kitchen and the principal chef and five cooks at the king's palace have gone out on strike.

POTSDAM, August 12.—Emperor William and the other members of the imperial party have arrived at the new palace. King Edward and queen Alexandra left Homberg this morning for this place.

TORONTO, August 12.—The harvesters' excursion this morning indicated that by Tuesday evening as many men will have left for the harvest fields of the west as last year. At noon today 500 boarded the train.

WASHINGTON, August 12.—Rear admiral Mortimer Johnson, commandant at the Portland navy station, has been selected to succeed rear admiral Sampson as commandant of the Boston navy yard on account of the latter's ill health.

HARTFORD, Conn., August 12.—Bobby Walthour of Atlanta, Ga., easily defeated Benny Monroe in a 20-mile motor-paced race at the Velodrome track tonight. Walthour established a new track record, covering the distance in 30:03 2-5.

MONTREAL, August 12.—The civic authorities this morning received a communication from the governor-general's secretary that the civic reception to be tendered the duke and duchess of Cornwall must be a very select affair or their royal highnesses will not attend.

LONDON, August 12.—Lord Kitchener has cabled a confirmation of the report of the release of the peace envoy, Ries Wessels, who was said to have been shot. Wessels was a prisoner in general Celloer's laager, near Kaalfontein, which the British recently surprised and captured.

NEW YORK, August 12.—George E. Bissert, the policeman who was convicted recently on an indictment charging that he had accepted a bribe as protection money from the keepers of a disorderly house, was sentenced to five and a half years' imprisonement and to pay a fine of $1000.

CRONBERG, August 12.—The body of the dowager empress was removed by torchlight tonight from the church to the railway station with a ceremony similar to that of Saturday. The coffin was deposited in a car specially prepared and draped for its reception and the funeral train started for Potsdam at 9:50 p. m.

ROME, August 12.—The pope was only informed of the death of signor Crispi this morning. He exclaimed: "Providence has evidently really decreed that I shall be the last of my generation to go. Well, Crispi was a good fighter." A few moments later the pope was on his knees at his prie dieu praying for the soul of his ancient enemy.

CONSTANTINOPLE, August 12.—As a result of the firm attitude adopted by the French ambassador, M. Constans, in an audience with the sultan Friday, the situation in regard to the French claims is clearing, and it is understood that it is practically settled that the quay company shall enjoy the rights under the concession as demanded by France.

Terms Agreed Upon

WASHINGTON, August 12.—The state department has received a cablegram from Mr. Rockhill at Pekin reporting that a draft of the final protocol has been agreed upon. A tariff of 5 per cent ad valorem will be put in force two months after the signing of the protocol, excepting on goods shipped within 10 days after signing and will continue until the conversion of specific rates has been affected by the export commission. The Chinese free list will include rice, foreign cereals, and flour, gold and silver bullion and coin. This inclusion of flour in the free list is of much importance; particularly to Pacific Coast shipping.

Over the Rapids to Death

OGDENSBURG, N. Y. August 12.—Charles White, James Whitney and Edgar Lane were drowned in the Galoup rapids this afternoon by the sinking of the private yacht Rhea. Whitney, who was the owner of the yacht, had as guests on board the boat White, Hughes, Raney, the Misses Whitney and Misses McPherson. The ladies and Mr. Raney got out at the head lock to walk to the foot of the rapids. The other three men remained on board the yacht, which, after passing the first swell of the rapids, entered what is known as "the cellar" and disappeared, carrying the three men down with her. The bodies have not yet been recovered. All of the parties reside at Prescott, Ontario.

Halfbreed on the Warpath.

HELENA, Mont., August 12.—Full to the brim with Helena firewater and in a nude condition, Antone Pasco, a halfbreed Flathead Indian, went on the warpath at the Montana Central depot last evening, and, pursued by a score of male and female enemies, fought bravely until he was captured and placed in the city jail by palefaces. Pasco was released August 3d from the county jail, where he had been under sentence for selling whisky to the Flathead Indians. Early yesterday afternoon Pasco commenced to imbibe freely and by 5 o'clock had about as much as he could hold and still navigate. Then, imagining that he was being surrounded, he rushed up to the top of one of the largest rock piles near the depot and began to whoop and howl and call his enemies to the attack. Entirely divesting himself of his clothing, with the exception of his shoes, and using rocks for ammunition, he fought long and hard. He then went to Capitol hill, where, however, his foes were not imaginary, for a pitched battle ensued. The women in the neighborhood united for mutual protection and, arming themselves with a good supply of rocks, commenced an assault upon the daring warrior. It is said that there were at least 20 women in the detachment and the missiles flew thickly. The police were telephoned for and upon their arrival the battle was renewed with vigor to the end that the red man was captured. A piece of breech-cloth was quickly fitted around him and tied with a huge piece of baling wire and he was taken to the city jail.

Crispi's Funeral.

NAPLES, August 12.—The funeral of signor Crispi will take place August 15th and the interment will probably be in the Pantheon of San Dominican in Palermo. In his will Crispi requests that he be buried without a religious ceremony and he declares that his patrimony and savings were lost during the campaign for liberation in Sicily and in the service of his country. He names signora Crispi as his sole heiress, subject to a small annuity to Rosalie Montmasson, to whom he is said to have been married in 1854. He leaves two volumes of memoirs, the first of which is complete and he appoints senator Damani to examine his papers and to supervise their publication.

SHOT WHILE OUT RIDING

Mysterious Affair Near Newburgh

NEWBURG, N. Y., August 12.—Samuel Verplanck, a wealthy retired resident of Fishkill Landing, was seriously and mysteriously shot this afternoon while out driving with a party of friends. The Rev. J. Howard Suydam of Rheimbeck was in Fishkill Landing yesterday to fill the pulpit of the Reformed Church during the absence of its pastor, the Rev. E. A. McCullom. With Mrs. Suydam they were invited to be the guests of Mr. and Mrs. Samuel Verplanck. Mrs. Verplanck's cousin, Miss Laura Rankin of Newburg, called during the afternoon and the five formed a riding party. They set out to visit Mr. Verplanck's farm at Stonecykill. On their return, when near the Brinchoff estate, half a mile above Fishkill Landing, the occupants of the carriage heard a loud report. In another moment Miss Rankin said there was a tingling sensation on her neck. Placing her hand to the spot she noticed it bleeding. As the party were commenting on the strangeness of the incident, there was a second loud report. In a moment Mr. Verplanck, who was driving, shouted "I have been shot." The party hurried the horses home. Dr. George T. Williams was summoned and rendered medical aid to Mr. Verplanck. He probed in the left shoulder for the bullet, but without success. Mr. Verplanck's condition is critical. The police are investigating the matter.

The Ubiquitious Blondin.

UTICA, N. Y., August 12.—The tramp arrested at Richfield Springs this morning bears a striking resemblance to the much-wanted Blondin. He is very bowlegged, swarthy complexion, has high cheek bones and tattoo marks on the left arm. He lacks, however, the emblem of a schooner tattooed on the left arm which the Boston police say was a distinguishing mark on Blondin. The tattooed figures on the arm of the arrested man represent an anchor and the initial of the name Blondin. Should there be some error in the rendering of the word "schooner" in the telegram received from Boston, the man may yet prove to be the much-wanted slayer of his wife.

New Freight Carrier.

SYRACUSE, N. Y., August 12.—The scheme of organizing a company to carry freight over the great lakes was completed today in this city and it will be at once incorporated in New Jersey. The new company will be a $2,500,000 corporation and will be known as the National Transportation Company. Contracts for the fleet of vessels have been let to the American Shipbuilding Company and they are to have a capacity of 27,000 tons. The contract calls for their completion on March 15, 1902.

INVADER AGAIN A WINNER

BEATS THE CADILLAC BY ALMOST SIX MINUTES.

Ruling of the Judges in Reference to Changes in the Detroit Boat's Rig Causes Consternation.

CHICAGO, August 12.—Today's international yacht race between the Detroit Boat Club's Cadillac and the Royal Canadian Yacht Club's Invader is to be sailed nine miles to windward and return. Owing to the change in the wind during Saturday's triangular race, which thwarted the judges' wishes to have one leg sailed to windward, they announced this morning that if such a change should come during the beat to windward today, the judges' boat would signal the racing yachts accordingly of the change of the course. Yachtsmen do not understand how this can be done if the rival boats should have split tacks without doing an injury to one or the other. The judges announced that the Cadillac might increase its jib by nearly 100 square feet and lengthen its spinnaker nearly four and a half feet. This caused quite a commotion. It is argued that the advantages thus gained make it almost certain the Cadillac will win three races, and though commodore Gooderham merely expressed surprise when told of the decision, some of the other Canadian yachtsmen are more free of speech and criticize the work of measurer Cothroll. The officials have given out a set of measurements making each boat exactly 35-foot racing lengths. The time of starting today's race, the starting and finishing point and all the preparatory signals will be the same as on Saturday.

CHICAGO, August 12.—In a slight weather run, a reach out and back, the Canadian Invader today won the second of the races for the Canada's cup. She had the Cadillac beaten at every point of the compass. On the run out with a four to seven knot east northeast breeze sweeping their port quarters the Invader led from one to two miles at times, rounding the buoy, nine miles out, a mile ahead of her pursuer. Both broke out their balloon jibs on the home stretch and the sturdy Detroiter gained for a time. During the last four miles the Cadillac took in her balloon and broke out the spinnaker. The special effect of this change was shown in the faster footing, but the race was already won and the Cadillac came in nearly a mile to the bad. Following were the bulletins issued:

11:15 a. m.—The breeze is 2 1-2 knots. The Invader has increased about 60 yards.

11:20 a. m.—The Cadillac is footing a trifle speedier. The Invader's preeminent ability to run into the wind is taking and she is 100 yards to windward of the defender.

12:15 p. m.—The Invader is footing like a greyhound and leading the defender by three-quarters of a mile.

12:30 p. m.—The Invader has increased her lead to a good mile or more. The wind is blowing 7 or 8 knots.

12:50 p. m.—The Invader is now leading by two miles and intends to make a short reach to round the turning buoy. Barring accidents she will turn the buoy with a comfortable lead.

12:55 p. m.—The Cadillac has gained a little, possibly half a mile.

12:58 p. m.—The Invader is within a mile and a half of the finish.

The Invader turned the buoy at 12:59 and broke out her spinnaker and balloon jib for the home run. The Cadillac turned at 1:04 p. m.

The Invader won, crossing the line at 2:08:30. The Cadillac crossed 5 minutes and 50 seconds later.

The official time of rounding the outer mark was: Invader, 12:58:35; Cadillac, 1:03:02; finish, Invader, 2:08:05; Cadillac 2:14:22.

Columbia Wins in Time Allowance.

BATEMAN'S POINT, R. I., August 12.—The Constitution and Columbia started today on another 60-mile race over the racing course of this point. The Constitution got the better of the start, crossing nearly half a minute ahead of the Columbia. The start as seen from the shore was as follows: Constitution, 12:00:10; Columbia, 12:00:25.

The Columbia crossed the finish line at 4:26:38, less than a minute behind the Constitution, and has won the race on time allowance. The Constitution crossed the finish line at 4:25:40. As the yachts have not been measured recently, the time which the Constitution allows the Columbia is not known, but it is probably something over a minute.

NEWPORT, R. I., August 12.—The Constitution covered the triangular course of 30 miles today in 33 seconds less time than the Columbia. The champion of '99, however, wins the race on time allowance by about 30 seconds. No corrected time can be given, as the boats have not yet been remeasured, as required. In previous races the Constitution had allowed the Columbia 1 minute and 17 seconds. What the change in measurement the new rig of the Constitution has made is unknown, but it is estimated that she now allows the old boat only a few seconds less time, if any. The finish today was a noteworthy and exciting feature of the contest. When within a mile of the line the Constitution made a short tack that undoubtedly lost her the race. The winners in the other classes were: Class G, yawls, Navahoe; class H, sloops, Virginia.

THE HUDSON'S BAY COMPANY

BAKER STREET, NELSON, B. C.

The Tribune

Display advertisements run regularly will be changed as often as required and will be inserted in the Daily Tribune for $4 per inch per month; if inserted for less than a month, 25 cents per inch each insertion.

J. Pierpont Morgan, the money king of the United States, is riding for a fall. His reply to the president of the Amalgamated Association of Iron and Steel Workers is the most autocratic declaration yet made by an employer. One of these fine mornings Mr. Morgan will be crushed as a fly is that lights on a steel rail in front of a mogul engine, and the world will miss him as little as it does the loss of a fly. He says: "The only proposition we will now consider is that you will return to work "under the scale and conditions existing prior to the strike. That the mills "in which lodges have been organized "since the strike be again non-union. "I do not want them unionized, and "will not recognize men in those mills "as union men. This is final, and the "only basis on which a settlement will "be discussed. No further negotiations "of any character will be entered into. "No more intermediaries will be received. You have your answer. You "may take it or leave it; and, furthermore, you may have until 4 o'clock to "decide. If you accept, declare the "strike off. And if you do not accept, "no answer is necessary. This is positively my final word upon the subject."

A government whose heads of departments are unable to satisfy the public in matters of ordinary detail would make a nice mess of operating lead smelters and refineries, a business that requires expert knowledge and the best of management. Suppose the lead smelting and refining business of the province was turned over to the department of mines, where would the province be at in a year? It would be so involved in debt that premier Dunsmuir's private fortune would not be sufficient to pay it out of the hole. There is no more reason why the government should go into the smelting and refining of lead ores than into the sawing and manufacture of fir timber.

Progressive towns, like Grand Forks and Nelson, willingly take upon themselves the burdens imposed by local self-government. Grand Forks is raising $8000, by the sale of debentures, to be expended in erecting a public school building. Nelson cheerfully met the government half way in the cost of a new school building. Neither of these towns asked to be wet-nursed by the government after they began paddling their own canoes. An over-worked minister of education is not compelled to make a long trip in hot weather in order to give the people of these two towns the teat.

Nation of Debaters.

Ontario stopped exporting saw logs and decided to manufacture lumber, and thus utilized her own resources in such a way as to add thousands to her population and millions to her wealth. Too much political economy is responsible for any disappointment as to the results of the census of 1901. A nation of debaters over the maxims of the late lamented Adam Smith can never achieve the results which could have been worked out by the prompt application to all our resources of that measure of tardy common sense which has wrought such a miracle in the Ontario lumber industry. Canada has been wrangling over the fine points of political economy when her statesmen should have been utilizing her wealth of raw material in the way best calculated to provide the most profitable employment to the greatest number of workers.—Toronto Telegram.

The Right Policy for Canada.

Being no longer able to get American logs for its sawing plant, the Saginaw

CLEAR OUT

This week we are making clearance sales of a few special lines of goods. We are offering BABY CARRIAGES AND GO-CARTS at exceptionally low prices to clear. This is a line of goods that we do not intend to replace, so we have cut the regular prices in half; but even at that we do not stick, because we want the room they occupy. We also have some choice literature, just the thing for summer reading, light, breezy and refreshing. A few 50 cent numbers are offered at 10 cents to clear out. We find our store wretchedly small for the large stock we carry. That is why we have to make these sacrifices.

THOMSON STATIONERY CO. Ltd

PIANOS TO RENT. NELSON, B. C.

Lumber & Salt Company. is about to pull up stakes and transfer its activities from the Valley city to the Canadian shore, in order to avoid the effects of retaliatory laws established across the border. From Cheboygan south, all along the Huron shore, there are silent mills, abandoned mill sites and empty lumber yards, to say nothing of vacant houses and diminishing or stationary town populations. Now one of the largest of the remaining lumber firms has been compelled, by failing supply of raw material, to follow others across the lake, where it must employ Canadian labor, buy Canadian supplies, and contribute to Canadian development.—Detroit Tribune.

Forest Fires.

TACOMA, August 12.—The most severe forest fires known in years are raging in several parts of the great timber belt west of the Cascade mountains. They are especially fierce between Lake Samish and the Snoqualmie river, and the lumber camps there are in great danger. Halley's camp on the Snoqualmie river was saved yesterday by the strenuous efforts of 50 men. Thousands of dollars' worth of timber has already been destroyed and lumbermen say that unless rain shall come soon immense damage is inevitable. Another tremendous fire is raging between Woodinville and Grace, on the Seattle division of the Northern Pacific. Several farm dwellings in that vicinity have been burned. Similar damage is being caused to timber in Chehalis and Mason counties. Passengers on the Great Northern overland trai, which arrived last night several hours late, report that terrible forest fires are raging on both sides of the track in the Cascade mountains west of Wellington. Four bridges caught fire yesterday, but were kept from burning by fire apparatus.

A TALK ON BASEBALL RULES

Clark Griffith Discusses Them.

Professional baseball as played at the present time has reached its acme of scientific development. Never since I have played the game has there been a time when I regarded the playing rules so fair to batters, fielders and pitchers as now, and if there was a legitimate "kick coming" I probably would be there, telling the magnates what I thought they ought to do.

Of course, I refer to the playing code of the American League and not to the modified rules of the National League. For under its system I do object, and strongly, to the foul-strike rule. Perhaps this is unusual for a pitcher, and I was formerly loudest in my protest against the practice of fouling-off, in which McGraw is generally regarded the greatest general in the country. But, while we do not have a foul-strike rule in the American League, fouling-off is dying away. This is because the umpires, backed up by president Johnson, are not afraid of losing their jobs, and do their duty in this respect. Far be it from my intention to shower any praise upon the American League umpires—except Cantillon and one other—for there is one on the staff, whose name I would not like to mention in a printed article, who would be guessing if a baseball, a football and a pumpkin were placed side by side and he was told to pick out the baseball—but they have the nerve to back up their decisions.

The calling of a strike for every foul imposes too much of a handicap upon the batsman. It detracts from the interest of the game. What justice is there in calling a strike on a man who hits a ball just a few inches outside the foul line? The object of the rule to prevent fouling-off can be accomplished by the umpire. Our umpires use judgment, and they have effectually stopped the practice. Most anyone who understands baseball can tell when a batsman is trying this trick.

If a clever batsman has three balls and no strikes, or even three balls and one strike and the next ball is good but goes foul, it's a pretty safe wager he does it purposely. If it is a bad ball he probably is trying to hit it. But if a poor batsman does the same trick the chances are his intention is good. That's where the umpire's judgment comes in. And as a matter of fact there are few batsmen who can foul-off a ball, McGraw can do so. So can one or two on our team, but it is the exception rather than the rule. Good umpiring will dispose of the fouling-off proposition, and the reason for the rule is thus taken away. That is the one objection I would make to the National League rules, which have not been adopted by college teams or by many minor leagues.

There is one rule in the National League list, but not in the American, except by personal order of president Johnson, of which I heartily approve. That is playing the catcher up behind the bat all the time. It brings the play right up to the plate for the spectators, and the time lost in a game with the catcher playing back in considerable. Concentrating the game before the eyes of the spectator is desirable. Moreover, it steadies the pitchers, especially the younger fellows who are just breaking into fast company.

There was some talk last winter of abolishing the bunt. I think that would be the greatest mistake that could possibly happen. I once played under such rules. Before I poined the Chicago club, in 1893, the California League played with the bunt tabooed. The league there was not under the National agreement and could play any way they chose. As a result the games were lacking in spice and excitement. The laying down of a bunt either with the intention of beating it out or of advancing a runner is one of the prettiest features of the game. It would not be fair to take away this skill from men who have practiced six or seven years in perfecting this feat. It would place the mechanical batters at a premium—the fellows who just stand up at the plate and slug at the ball. Scientific hitters like Willie Keeler, Jones, and others, the most popular fellows in the game, would be outshadowed by those who could clout the ball and nothing else. Bunt hits hurry the opposing fielders, keep the play close to the spectators, and give the opposing team chances to make errors from the very fact that they must be fielded fast—and have you ever noticed that a crowd really enjoys errors by an opposing team more than hits by its own men? It gives them a chance to jeer and roast the other fellows—and is withal a pretty feature of the game, with science and brains paramount to mere mechanical ability.

The abolition of the bunt hit would probably affect, too, those hits which are really pushes past the pitcher or into an opening. With a man on first or second, the scientific batsman will try to find out which baseman is intending to cover the second bag. Then he endeavors to push the ball toward that opening rather than swing and take a chance. This is scientific play. It would be affected by a bunt rule.

Three strikes and four balls appears about the proper ratio as between the batsmen and the pitchers. Other schemes have been tried and abandoned. Six balls and three strikes was once the rule. After five balls and three strikes held sway, but the three strikes and four balls seems the nearest right.

Digressing from the subject of rules, perhaps the fans will be interested in knowing that the members of the White Stockings team believe Chicago will win the championship this year. We have not a strong batting team, but a team which scores a great many runs on a few hits.—Clark Griffith (formerly of Tacoma) in the New York World.

GRANGE V. HOLT,
Manager Nelson Branch.

Another Negro Philosopher.

CIRCLEVILLE, O., August 11.—The Rev. J. Allen Viney, colored pastor of the A. M. E. church here, declared in a sermon tonight that the temperature of heaven is 826 degrees above zero, quoting the bible to support his assertion. Here are some of the things said by Mr. Viney, who may be regarded as the successor of the Rev. Mr. Jasper, the noted "The Sun Do Move" pulpit orator of Richmond, Va.

"The millennium does not begin until the second coming of Christ. He will be on earth 1000 years and will find no opposition in preaching the gospel. During this period Satan will be chained in the bottomless pit. People, good men or women, working in the fields or in the mill, will be caught up and taken from sight. Your wife may be sitting at the table with you, or sweeping a room, or washing, but as quickly as you could wink she will be gone and nothing left except her clothes. When the devil is bound in the bottomless pit a host of good workers will pass over the earth preaching the gospel. Then McKinley will be put down, emperor William will be ousted, king Edward will be thrown from his throne, warships will be destroyed, swords hammered into ploughshares, theatres closed and all shops burst up. "When the millennium ends a short season is to begin, inaugurated by the advent of Satan and terminate by the judgment day. This is really the afterglow of the millenium, because even then the world will still be at peace. Yet there remain the good and the evil, or rather the sanctified and those not justified. All men will be tempted, but the sons of Ham, who is the father of the negroes, will be tempted first. Of Noah's three sons, Shem, Ham and Japhet, Ham was the servant by the heavenly will, and his descendants will always be servants as long as he wills. Negroes needn't kick about cleaning spittoons. They'll have to do it. But when satan tries to drag them into his works they won't have any use for him. Then he will go to the children of Shem, who are the Mongolians, American Indians and Esquimaux. They have always rebelled against chains and tyranny, and will tell him they don't believe in chains. Finally, satan will tempt the white men, Japhet's children, who were made to be the nobility of the earth, to have the highest things, lands, wealth, ruling, arts, sciences and power.. They will throw down religion, fight and wage wars. Fire will fall on the armies of satan, killing them. It will take the white men seven months to bury these armies. Then will commence the heavenly age, after the day of judgment, when satan's followers are all destroyed. There will be no night. The moon will equal the sun. The sun will be sevenfold as the light of seven days. You cannot separate light and heat. Therefore the heat will be seven times as great. The other day the thermometer registered 118 degrees. Seven times this is 826. In the heavenly age men who are sanctified will live in the spirit. Angels are flames of fire and saints will be made living fire so that they can live in the great heat. Take a sinner and throw him over the battlements of heaven and he wouldn't touch the ground, but would be consumed. After the judgment day the sanctified will be baptized with fire and prepared to endure the flames of heaven—an elevating, purifying fire."

Mountain May Topple Over.

High up in the Swiss Alps the mountain called the Rocher de Clusette is about to topple over into the busy valley of Travers. The valley of Travers lies in the Jura mountains, and through it runs the Jura Simplon railway. Down its narrow gorge also rushes the river le Reuse, a small stream in winter, but a swollen torrent when the warm spring sunshine begins to melt the mountain snows. The valley is just about wide enough for the river and the railroad in some places, and in others it opens out so that small cities lie in the embrace of the hills and straggle up their sides. Here and there are hotels much patronized by tourists, and many schools for girls are scattered through the valley. Into this valley may fall at any time a great mass of the mountain, estimated at 500,000 cubic yards of rock. Close to the foot of the mountain lie the quaint little cities of Noirague, Le Feuil, Clusette and Champ du Moulin, which will be buried deep when the mountain falls, and it is only a question of time when it does fall. Experts who have examined the mountain declare that it cannot remain much longer in the present "state of unstable equilibrium." Just when the mountain will fall the scientists are unable to say. Dry weather will tend to retard the catastrophe; wet weather will hasten it. It will probably go down soon—perhaps while these lines are being read the great landslide may be taking place. When it does not only will the valley be filled with the debris and much valuable property be destroyed—and probably lives lost—but the river Reuse choked up. The river, being in its spring fullness, will spread out its waters, flooding the upper part of the valley and causing much damage. The stopping of the flow of the Reuse will also cause much hardship to the cities of Neufchatel and La Chaux de Fonds, for from this stream these cities draw a portion of their water supply, and it supplies the power which runs the electric light plants for these cities, as it also does for the lighting of the villages of the valley. There is much uneasiness throughout the valley, and the mothers of daughters at the schools for girls, mostly patronized by the Germans, have been writing in a panic, directing that their children be sent home at once. On the other hand, the hotels of Noirague and Champ du Moulin are filled with tourists, who want to be on the spot when the catastrophe takes place, so that they can get a good view of it.

Does not contain any harmful ingredients. Ironbrew.

ANNOUNCEMENT

R. A. Elliott, who for some time has handled the Hazelwood Company's business in this city, has decided to open a store on his own account on Ward street, near Victoria. He will make a specialty of home made baking and pastry, as well as pickles and preserves.

Established in Nelson 1890.

"ADVANTAGE YOU CAN PROVE"

The more you have to do with Jacob Dover, the Jeweler, the more you will understand how the absolute success of a specialty house like his depends on having the right things at the right prices, and having them all the time. This is what has won for us a growing business since our beginning ten years ago. Then our methods and our treatment of customers speak plainly for themselves as soon as you investigate. Jacob Dover, the Jeweler, is equipped to help you meet all requirements necessary. Make us your Nelson representatives in watches, precious stones, jewelry, etc., and let us fill your mail orders. The responsibility is then with us to keep you supplied with the right things at the right time and at the right prices.

OUR WATCHMAKING AND JEWELRY DEPARTMENT HAS NO EQUAL IN B. C.

SEE MY LATEST INVENTION . . . — Head Office: Vancouver, B. C.

RUPTURE

Four years in British Columbia, during which time a great many ruptured people have been cured by my patented appliances. Send for testimonials.

TO WHOM IT MAY CONCERN:

My Hernia support has cured a much larger percentage of ruptured people than any other Truss or injection in America. I can prove it. Every appliance I adjust I keep in good repair, free of charge while it is necessarily in use. Every appliance is constructed and adjusted especially to suit each case. I have been granted more patents for improvements upon trusses than any man in Canada.

No matter how hard the rupture or how hard to hold, I will pay your fare both ways if you can force it down in any position with my new Retainer on. Size or age immaterial. Infants, children and adults.

FOR LADIES ONLY.

I have the privilege of referring you to some most reliable ladies who have been cured by my appliances, resident in Victoria, Vancouver and Nanaimo.

Numbers of my Canadian patents: January 10, 18,387, 23,799, 24,968, 26,214; July 5, 1895, 49,887.

NOTICE.

CANCELLATION OF RESERVATION KOOTENAY DISTRICT.

Notice is hereby given that the reservation placed on that particular parcel of land, which may be described as commencing at the northeast corner of Township (—) Eight A, Kootenay district, which is also the northeast corner of block 12, granted to the Nelson & Fort Sheppard Railway Company by crown grant dated 8th March, 1895; thence due east 16 miles; thence due south to the international boundary; thence due west along said boundary 16 miles; thence north to the place of commencement, notice whereof was published in the British Columbia Gazette, and dated 7th May, 1896, is hereby rescinded.

W. S. GORE,
Deputy Commissioner of Lands & Works.
Lands and Works Department,
Victoria, B. C., 23rd May, 1901.

NOTICE OF ASSIGNMENT.

Pursuant to the "Creditor's Trust Deeds Act" and amending acts.

Notice is hereby given that Henry Ferguson McLean, heretofore carrying on business at the city of Nelson, in the province of British Columbia, as a druggist, has by deed of assignment, made in pursuance of the "Creditor's Trust Deeds Act," and amending acts, and bearing date the 6th day of August, 1901, assigned all his real and personal property to David Morris, of the said city of Nelson, gentleman, in trust for the purpose of paying and satisfying ratably or proportionately and without preference or priority, the creditors of the said Henry Ferguson McLean their just debts.

The said deed was executed by the said Henry Ferguson McLean on the 6th day of August, 1901 and afterwards by the said David Morris on the 6th day of August, 1901, and the said David Morris has undertaken the said trusts created by the said deed.

All persons having claims against the said Henry Ferguson McLean are required to forward particulars of the same, duly verified, together with particulars of all securities, if any, held by them therefor, to the said trustee David Morris, on or before the 16th day of September, 1901. All persons indebted to the said Henry Ferguson McLean are required to pay the amounts due by them to the said trustee forthwith. After the said 16th day of September, 1901, the trustee will proceed to distribute the assets of the said estate among the parties entitled thereto, having regard only to the claims of which he shall then have notice.

Notice is also given that a meeting of the creditors of the said Henry Ferguson McLean will be held at the office of R. M. Macdonald, Baker street, Nelson, on Tuesday the 20th day of August, 1901, at the hour of 4 o'clock in the afternoon.

DAVID MORRIS, Trustee.
R. M. MACDONALD, Solicitor for the Trustee.
Dated at Nelson this 7th day of August, 1901.

NOTICE TO DELINQUENT CO-OWNER.

To Herbert Cuthbert or to any person or persons to whom he may have transferred his interest in the Blend mineral claim, situate on the west fork of Rover creek, in the Nelson mining division of West Kootenay district, and recorded in the recorder's office for the Nelson mining division.

You and each of you are hereby notified that we have expended four hundred and eleven dollars in labor and improvements upon the above mentioned mineral claim in order to hold said mineral claim under the provisions of the Mineral Act, and if within ninety days of the date of this notice you fail or refuse to contribute your portion of such expenditures together with all costs of advertising your interest in said claims will become the property of the subscribers, under section 4 of an act entitled "An Act to Amend the Mineral Act, 1900."

FRANK FLETCHER,
J. J. MALONE.
H. G. NEELANDS.
E. T. H. SIMPKINS.
Dated at Nelson this 3rd day of June, 1901.

LIQUOR LICENCE TRANSFER.

NOTICE OF APPLICATION FOR TRANSFER OF RETAIL LIQUOR LICENSE.—Notice is hereby given that we intend to apply at the next sitting of the board of license commissioners for the City of Nelson for the transfer of the retail liquor license now held by us for the premises known as the "Office" saloon, situate on lot 7 in block 9, sub-division of lot 95, Ward street, in the said City of Nelson, to William Robertson Thomson and Charles C. Clark of the said city.

JAMES NEELANDS,
S. E. EMERSON.
Witness: CHAS. R. McDONALD.
Dated at Nelson, B. C., this 2nd day of August, 1901.

(No. 178.)

CERTIFICATE

OF THE REGISTRATION OF AN EXTRA PROVINCIAL COMPANY, COMPANIES ACT, 1897.

I hereby certify that the "German Mining and Milling Company" has this day been registered as an Extra Provincial Company, under the "Companies Act, 1897," to carry out or effect all or any of the objects hereinafter set forth to which the legislative authority of the Legislature of British Columbia extends.

The head office of the Company is situate in the City of Tacoma, State of Washington, U. S. A.

The amount of the capital of the Company is one hundred thousand dollars, divided into one hundred thousand shares of one dollar each.

The head office of the Company in this Province is situate at Nelson, and Richard Pape, Labourer, whose address is Nelson aforesaid, is the attorney for the Company.

The time of the existence of the Company is fifty years.

Given under my hand and seal of office at Victoria, Province of British Columbia, this 10th day of June, one thousand nine hundred and one.

[L. S.] S. Y. WOOTTON
Registrar of Joint Companies.

The objects for which the Company has been established are those set out in the Certificate of Registration granted to the Company on the 18th February, 1899, and which appears in the British Columbia Gazette on the 18th February, 1897.

CITY AND DISTRICT.

Born in Nelson on the 12th instant, to the wife of Will J. Hatch of Water street, a daughter.

• • •

The members of the fire company are requested to meet in the fire hall tonight at 8 o'clock to consider the question of sending a hose team to Greenwood on Labor Day.

• • •

Maxwell Stevenson, junior, who received a broken leg on Saturday by the fall of some rock in the Highlander mine at Ainsworth, was brought to the Kootenay lake hospital yesterday.

• • •

Thomas Cottrell Collins, trader, historian, prospector, and claim developer, is back in Nelson from a trip to Ten-mile creek, Slocan lake district, where he was doing assessment work on the Mattawa. He reports a good deal of activity in that section at present.

• • •

Fred Elliot has withdrawn from the firm of Elliot & Lennie, of which he was the junior member, and has gone to Grand Forks, where he will open a law office on his own account. Mr. Elliot is credited with being a well posted lawyer, is thoroughly reliable, and should do well in the Boundary.

• • •

In the case of Thurston vs. Weyl, the application of R. S. Lennie, for a commission to take the evidence of the defendant and another material witness in Paris, was enlarged until the next chamber day. This is a dispute over a commission of several thousand dollars upon the purchase of an addition to the city of Rossland.

• • •

The appointment of captain H. E. Macdonnell, lieutenant T. Brown and second lieutenant Phillips to commands in the local company of the R. M. R. has been gazetted in the Canada Gazette. These men have been acting for some time but have not felt free to do much until their appointment was confirmed.

• • •

In the mechanic's lien case of Lawr vs. Byers judgment was given yesterday for the plaintiff conditional upon the filing of certain documents. This was a suit to recover $336 for labor in plastering a house. The work was done for Webster Trayes, who sold the house to the defendant Byers, and the plaintiff followed the house with a lien.

• • •

Theodore Madson yesterday received an order from Porter & Carlson, the contractors for the Lardeau branch to supply 24 tents for their railway camps. It is a hurry up order and came to Nelson because the Nelson tent factory can turn work of this kind out quicker than any other house in the province. The order represents over $1000 worth of canvas.

• • •

Jacob Dover has on exhibition in one of his show windows an elegant loving cup, manufactured by Henry Rogers & Sons of Wolverhampton, England, and donated by them for a Dominion Day Celebration prize. The cup is of oak and silver, gold lined and has a capacity of half a gallon. It will be given as a prize at the next regatta.

• • •

An effort is being made to arrange a match between Nelson and Kaslo rifle teams. The Kaslo men have a good team of five men, and upon the occasion of the fall meeting held here last year got away with the Nelson men. If the match can be pulled off the Nelson association will send two teams to Kaslo. A reply is expected from Kaslo in a day or so.

• • •

Hamilton Byers, who returned last week from Yarmouth, Nova Scotia, where he was called by the death of his mother, says that times are good in the Maritime provinces. Mackenzie & Mann have secured a contract for building a line of railway from Halifax to Yarmouth, a distance of 217 miles. About 40 miles of the road, from Yarmouth to Barrington, has been constructed and is in operation.

• • •

There is trouble among the city barbers. For some time it has been suspicioned that the city by-law which prohibits the shaving of patrons on Sunday was not being lived up to by all the artists and a watch was kept on the barber shop run by Robert McMahon. As a result of this watch word was passed to the city police that if they would call at the shop in question they would probably find that the by-law was being violated. The police called and as a result McMahon will appear in the police court this morning in order to determine whether he was violating the by-law or not. Appearances are said to be against him, but this in itself does not prove that he is guilty, and it is hard to say what might happen to this particular by-law if it is attacked, but it would differ from most city by-laws if it were not knocked out.

• • •

Two marriage-licenses were issued from the Nelson office yesterday. By the one William Northgraves of Trail and Libbie Hoover were authorized to wed, and by the second the same privilege was conferred upon George Ayer and Maud Carkett of Slocan.

• • •

W. A. Galliher applied to judge Forin yesterday for an order dismissing the case of Kennedy vs. McDougall for lack of prosecution. This is an old action in which the pre-emption of the defendant to some land in the vicinity of Nakusp was attacked. R. S. Lennie for the plaintiff applied for an enlargement of the application but it was refused and an order dismissing the case was made.

• • •

Daniel L. Barret, of Howser, who is in jail awaiting trial upon the charge of forging a time check for a small amount upon the contractors for the Lardeau branch, has retained W. A. Galliher to conduct his defence. The prisoner's counsel was not ready for arraignment yesterday morning and nothing further will be done in the case until he has had an opportunity of looking over the depositions taken at the preliminary hearing of the case before stipendiary magistrate Carney of Kaslo.

• • •

W. H. Bullock-Webster, of the provincial police department, will leave for Rossland today to complete the inquest into the circumstances connected with the death of Mrs. Maggie Angus. There were so many rumors afloat that the deceased woman had been poisoned that the attorney-general's department had the body exhumed some time ago, when the stomach was sent to Victoria for analysis. A coroner's jury was impaneled, but pending the result of the analysis nothing was done. The move which is now being made to complete the inquest indicates that the result of the analysis is now known.

• • •

The members of the Nelson Rifle Association completed the last of their series of matches on Sunday in the Dominion Rifle League series. The scores were all made up yesterday and forwarded to the militia authorities. The local men are not very well satisfied with their showing, as the scores made in the league matches were not up to those made by the same men in their several practice shoots. At the outset the local men figured in getting up pretty well in the list with the other teams in the league matches, but it looks now as if they will have to be content with beating the Rossland teams. The full scores of the outside teams have not yet been published.

• • •

S. P. Tuck, sheriff of South Kootenay, had a lively experience at Fernie Saturday, where he went to execute a judgment against a firm of Chinese merchants doing business as Tai Ching, who were in debt to the firm of Wilson Brothers of Victoria. When the sheriff got into the premises there were upwards of a dozen of Chinamen there, and they sought to discuss the matter with him jointly and severally. The excitement ran high for a time, but the sheriff finally brought matters to a head by seizing the judgment debtor's stock. When the Chinamen realized that it was up to them to produce they lost no time in finding the necessary money and the entire judgment was satisfied within a few hours of the seizure.

• • •

The work of raising the level of Cottonwood lake has been suspended owing to the failure of the lumber company to get the necessary lumber on the ground. The area of Cottonwood lake is 15 acres and the city engineer estimates that for every foot the level of the lake is raised its storage capacity will be increased by five million gallons. In addition to its natural feed the lake receives the water which is flumed from Whitewater creek. This stream at its lowest stage carries 350 miners' inches of water, which in the 24 hours is said to be equal to six million gallons. It is the purpose of the city to raise the level of the lake about five inches, which shold result in securing an adequate water supply for all purposes for some time. The present flume to Whitewater creek has a carrying capacity of 1000 miners' inches, and as the city has a water right to the waters of Clearwater creek as well as Whitewater creek, it will not be difficult to divert all that may be necessary should the present supply prove inadequate.

Mining Records.

Five new locations were recorded at the Nelson record office yesterday. Freemont, on the divide between Sheep and Summit creeks, by William Sacher; North Star, on Fern mountain, about five miles west of Hall siding, by L. E. Macdonald. Northwest, on Procter mountain, north side of Pend d'Oreille river, joining the Bunker Hill, by N. Hartman; E. S., on Procter mountain, about 1500 feet south of the Bunker Hill, by Fred Adie; W. S., adjoining Bunker Hill on south, being relocation of Yankee Girl, by M. E. Adie.

Certificates of work were issued to Harry Housen on the Granite Mountain, Wide West and Blue Bird; Charles E. Desrolsiers et al, on the Lendor and Arizona; John Phillips, on the Union Jack and St. Ola; and John Johnson, on the Overman.

One bill of sale was recorded, in which Jerry Demars transferred a half interest in the Buffalo and Chicago mineral claims on Grohman creek to Peter Sylvester, in consideration of the sum of $250.

Morrisey Druggist Arrested.

Provincial constable Barnes is in very bad odor with the people of Fernie at present by reason of the steps which he and his associate police officers took on Friday to stamp out the illegal selling of liquor. The police assert that there has been more or less illegal selling of liquor in the neighborhood and on Friday they decided to set a trap for J. W. Livers, a druggist who is opening up a drug store at Morrissey. One of the police officers approached Livers and told him he was in a bad way on account of a spree and would like to get something which would fix hom up. The druggist gave him a dose of a preparation known as Wambole's laxative compound in a six ounce bottle of whisky. The result that he was arrested upon a warrant, handcuffed and brought into Fernie, where he was locked up. Livers was formerly in the drug business at Kaslo and it happened that a couple of men whom he knew were at Fernie when he was brought in. The result was that they succeeded in having the prisoner arraigned at once before W. R. Ross, stipendiary magistrate. He entered a plea of not guilty, and was at once admitted to bail, W. W. Tuttle being accepted as surety in the sum of $100 and the prisoner in the sum of $100. Livers is a certificated member of the pharmaceutical asociation of the province ans as such claims that he was within the law in selling the six ounce preparation which he did to the officer, as it was represented to him that it was for medicinal purposes, and in view of the prisoner's age and the fact that he was established in business the general opoinion is that the police officers were unnecessarily severe in the measures which they adopted to bring him to justice. It is likely that more will be heard of the matter when the case against Livers is disposed of.

A Warning to Trespassers.

KOKANEE CREEK RANCH, August 9. —To the Editor of The Tribune: Would you kindly allow me, through your columns, to inform the public generally, and more especially that portion of it which patronizes the frequent excursions to the Knights of Pythias grounds at the mouth of Kokanee creek, that neither my grounds nor my house are public property; for there seems to be an impression to the contrary. It is not many weeks since I requested some would-be sportsmen, whom I caught in the act, not to climb my fences, nor cross my orchard or ploughed land, but to confine themselves to the roads and trails which are fairly numerous, and to shut the gates after them; They first began to argue the point and ended by becoming abusive. Yesterday (Thursday, the 8th) there was another excursion, and during the afternoon while we were all absent from home, two females (I am sorry I cannot write "ladies") came over to this place, and imposing upon the Chinaman in charge, and upon one of my employees, by passing themselves off as friends of mine, gained admittance to my house, where they satisfied their proverbial female curiosity by poking about into all the rooms, upstairs as well as down, and then regaled themselves with a little music. On inquiry I have learned their names, and I assure you, sir, they are perfect strangers to me. I have the pleasure of being acquainted I have the pleasure of being acquainted with a lady of the same name, but I happened to be enjoying her society elsewhere at the time. It may be just as well to state here that any repitition of this most unladylike and most grossly impertinent conduct, by enther sex, will be reported to the police and the offending parties handed over to them to be dealt with as common vagabonds and suspicious characters, or worse. Yours truly, CHARLES W. BUSK.

Victoria Notes.

VICTORIA, August 12.—Miss Amos, night nurse at St. Joseph's hospital, died this morning from taking morphine by mistake.

An offer has been sent by the N. A. T. and T. Co. of Dawson to the provincial government to market all their gold here and make this their first and last port of call for their St. Michael steamers if they are allowed a rebate of 1 per cent of the royalty paid on gold in the Yukon as offered to individual miners. The offer will be forwarded to the Dominion government.

Day of Rest in San Francisco.

SAN FRANCISCO, August 12.—To all appearances yesterday was one of rest by both sides to the great strike that is just now attracting attention in San Francisco. Beyond a few minor disturbances there was nothing to bring to mind that an industrial war was in progress, except a meeting of the Federation of Improvement Clubs, which is trying to devise ways and means to bring the trouble to an end, and which took no action except to increase the membership of its conciliation committee from 50 to 100. The sand teamsters remain firm in their determination not to remove the street sweepings, and the labor leaders say that important developments may be expected during the week. Shipping is still badly tied up and ship owners declare that they are determined to move their vessels if they have to import men to do it.

No Gold Recovered Sunday.

SAN FRANCISCO, August 12.—The robber of the Selby smelting works, John Winters, passed a quiet Sunday in the city prison. He had little to say and was glad that the ordeal he has been subjected to was over. Today he was turned over to sheriff Veale of Contra Costa county and taken to Martinez to await trial. No gold was taken from the waters at Vallejo Junction today. An examination by a diver proved that the remaining bars were buried in the soft mud and can not easily be brought to the surface without the use of a dredger.

SEATTLE, August 12.—The United States steamship Iowa sails from the Puget Sound navy yard today for San Francisco, and it is thought that from that point she will sail for Panama.
