The Nelson Tribune

Saturday Afternoon, March 28, 1903

EXAMINATION FOR ASSAYERS FOR LICENSE TO PRACTISE IN BRITISH COLUMBIA.

IN accordance with section 12 of the "Bureau of Mines Act," examinations for efficiency in the practice of assaying will be held at Nelson, B.C., on 27th April, 1903, and on such following days as may be found necessary.

Entrance for any examination must be made in writing to the Secretary of the Board of Examiners, at least seven days before the date set for beginning of examination, and must be accompanied by the prescribed fee ($15.)

The examination will consist chiefly of the practical assaying of samples, and while the Department of Mines will provide all the apparatus and chemicals usually necessary, it will not undertake to provide any special or unusual appliances or chemicals which might be called for, and if a candidate should require such he will have to provide them at his own expense.

Candidates must provide themselves with such platinum ware and sets of weights as they may require.

The Department of Mines will make no charge for the use of chemicals or apparatus, but a candidate will be charged for all breakages or unnecessary loss caused by him.

Any additional information desired may be obtained from H. Carmichael, Secretary, Board of Examiners, Victoria.

E. G. PRIOR,
Minister of Mines.

Department of Mines,
Victoria, B.C., 17th March, 1903.

NOTICE.

TENDERS FOR TIMBER LIMITS.

SEALED TENDERS will be received by the undersigned up to noon of Wednesday, 22nd April, from any person who may desire to obtain a lease, under the provisions of section 42 of the "Land Act," for the purpose of cutting timber therefrom, of a timber limit situated on the South Fork of Evans Creek, and south of Evans Lake, known as Lots 4,159 and 4,160, Group One, West Kootenay District, containing in the aggregate 1,503 acres.

The competitor offering the highest cash bonus will be entitled to a lease of the limits for a term of 21 years.

Each tender must be accompanied by a certified cheque, made payable to the undersigned, to cover the amount of the first year's rental ($230.50), and the amount of bonus tendered. The cheques will be at once returned to unsuccessful competitors.

W. S. GORE
Deputy Commissioner of Lands and Works.

Lands and Works Department,
Victoria, B.C., 18th March, 1903.

SHERIFF'S SALE.

Province of British Columbia,
Nelson, West Kootenay. } To Wit:

BY virtue of a Warrant of Execution issued out of the County Court of Kootenay, holden at Nelson, at the suit of

MIKE SCULLY, Plaintiff,

and to me directed against the goods and chattels of JAMES HUBBARD and RUTH HANNAH HUBBARD, Defendants,

I have seized and taken into execution all the right, title and interest of the said defendants, James Hubbard and Ruth Hannah Hubbard in the mineral claims known as and called "Cloudy Day" and "Rainy Day," situate about three and one-half miles southeast of the City of Nelson, and about one-half mile west of the "Lizzie C." mineral claim, on Evening Mountain, and recorded in the office of the Mining Recorder for the Nelson Mining Division of the West Kootenay District on the 2nd day of April, 1901; to recover the sum of $123.45 and also interest on $121.45 at the rate of five per centum per annum from the 13th day of March, 1903, until payment, besides sheriff's poundage, officer's fees, and all other legal incidental expenses; all of which I shall exposr for sale or sufficient thereof to satisfy said judgment debt and costs, at my office, next to the Court House, in the City of Nelson, B.C., on Saturday, the 28th day of March, 1903, at the hour of eleven o'clock in the forenoon.

NOTE.—Intending purchasers will satisfy themselves as to interest and title of the said defendants.

Dated at Nelson, B.C., 14th March, 1903.

S. P. TUCK,
Sheriff of South Kootenay.

TIMBER NOTICE.

NOTICE is hereby given that 30 days after date I intend to apply to the Honorable the Chief Commissioner of Lands and Works for a special license to cut and carry away timber from the following described lands, situate in West Kootenay District, British Columbia: commencing at a post planted on south bank of Six-Mile Creek, about 6 miles northwest of Kootenay Lake, and about 12 miles from Nelson, thence east 80 chains, thence south 80 chains, thence west 80 chains, thence north 80 chains to the place of beginning, and containing 640 acres.

ROSS THOMPSON, Locator.
J. FRED RITCHIE, Agent.

25th March, 1903.

25th March, 1903.

TIMBER NOTICE.

NOTICE is hereby given that 30 days after date I intend to apply to the Honorable the Chief Commissioner of Lands and Works for a special license to cut and carry away timber from the following described lands, situate in West Kootenay District, British Columbia: commencing at a post planted on east bank of Six-Mile Creek, about 5 miles northwest of Kootenay Lake, and about 12 miles from Nelson, thence east 80 chains, thence south 90 chains, thence west 80 chains, thence north 80 chains to the place of beginning, and containing 640 acres.

WILLIAM ASTLEY, Locator.
J. FRED RITCHIE, Agent.

25th March, 1903.

FOR SALE.

AT a genuine bargain, a 27-ft. gasoline launch, with simplest and most reliable engine on the market, excellent speed; also a number of row boats and canoes. For particulars write or come and see boats at

H. L. LINDSAY'S BOAT LIVERY,
Kaslo, B.C.

THE C. P. R. FREIGHT RATES

Shippers in Northwest Cities Get Better Rates than Those in Nelson.

The proposal of the wholesale grocers of Vancouver to sidetrack the C.P.R. unless their request for a fair adjustment of rates from the Coast to points in Alberta in competition with Winnipeg, which request F. W. Peters has tried to pigeonhole but without success, calls up the question of our position as regards territory adjacent to and legitimately belonging to Nelson as a wholesale centre.

While we are only barely able to compete as a wholesale distributing point with Winnipeg and the Coast as regards the Boundary and Slocan, we are practically shut out of the Crow's Nest district. That the company should discriminate in favor of Winnipeg or even Calgary might be passable, but when it comes to a small town like Lethbridge it is time to raise the question with no uncertain sound. As an illustration, we find that the rate on third class freight from Nelson to Fernie (203 miles) is 85 cents; from Calgary to Fernie (210 miles), 72 cents. Again, Nelson to Cranbrook (120 miles) the rate is 65 cents, while from Lethbridge to Fernie (142 miles) it is but 51 cents.

There is unquestionably a decided inclination on the part of the C.P.R. to favor Northwest Territory cities and towns. The new rate sheet for points on the Columbia & Western gives a through rate on third class, Winnipeg to Grand Forks, of $2.17; deducting from this the proportionate freight rate from Winnipeg to Nelson, $1.82, we have 35 cents, while the local from this city to the Boundary one is 54 cents. It goes without saying that these rates are applicable only to Winnipeg wholesale houses to bona fide traders and show a glaring favoritism in favor of the prairie city.

Experience has abundantly shown that the only hope of redress for these discriminations is in agitation. It will be remembered that in the fall of 1901 the board of trade made an effort to bring the matter to an issue, which was unfortunately frustrated by the ill-advised action of the late Retail Grocers' Association. This action gave the railroad company a good excuse to pigeonhole the application, and the matter has remained in this state ever since, and it need scarcely be said that it will continue to do so until some decided action is taken by the board of trade which will leave no doubt as to the views of the citizens of Nelson thereon.

While the board of trade personnel has been exceptionally active in matters relating particularly to mining, it does not appear to have given attention to the commercial aspect which a city, located as Nelson is, deserves. We are all of us thoroughly actuated in the belief that the mining industry should receive possibly the first attention at the hands of the board and of delegates appointed to the associated boards, but the commercial interests are, as regards the city, of even more vital importance and should at any rate rank evenly with mining, lumbering, etc. It is quite possible that the matter has been neglected by the wholesalers and merchants generally, and now is a fitting moment for them to be up and doing.

The question should be taken up at once and correspondence opened with Mr. Peters. The fact that he is now engaged with the Vancouver people on the same subject is opportune and may lead to the general adjustment of rates in the West. There is no mistake about the feeling of the wholesalers at the Coast on this question. They are thoroughly in earnest over the matter, and there is no reason why some of their enthusiasm should not be caught up by the board here and assist in carrying the agitation to a successful issue.

The Great and Only Jim.

The great and only "Jim" Wardner is again in the city. He has just returned from a hard trip which he made whilst on a tour of inspection to the property of the Cherry Creek Mining Company, of which he is the vice-president. This property, originally owned by Fred Williamson and his brother, has been steadily worked since the company acquired it, and a force of 17 men are regularly employed. Mr. Wardner reports that everything is looking well and recommends in the near future the erection of a 10-stamp mill. The ore, which is free milling, is said to be very rich, and the average value will leave a good profit for the company. Many Nelson capitalists are interested, and all "Jim's" friends, and they are many, wish the company a very profitable future. The property is situated near the head waters of Kettle river, about 30 miles in a direct line from Fire Valley landing.

Special Meeting.

A special meeting of the Trades and Labor Council will be held on Sunday afternoon at 3 o'clock in Miners' Union hall. All delegates are requested to attend; important business. John Burns, president; E. Kilby, secretary-treasurer.

C.P.R. STRIKE SITUATION.

The C.P.R. strike has been at a deadlock during the past week, neither party making any move towards a settlement. President Geo. Estes of the U.B.R.E. is now being prosecuted at Victoria at the instance of the C.P.R. on a charge of conspiring to delay His Majesty's mails. Although the case against him is apparently a very flimsy one, innumerable witnesses for the prosecution are being summoned from Vancouver. They are a mixed crowd, including newspaper reporters, members of the strikers' executive committee, C.P.R. officials, steamboat men, etc., most of whom are at a loss to understand why they have been put to this inconvenience, as they have absolutely no knowledge of any circumstances connected with the case. This is obviously a move on the part of the company to keep president Estes away from the men in the hope that they will become disheartened and weaken during his absence. Vice-president Massey is now taking the place of the president at Vancouver, and as he is an extremely capable man there is no reason to suppose that the cause will suffer through any underhand tactics which the C.P.R. may adopt during the enforced absence of the U.B.R.E. leader.

On the 24th instant some eight of the strikers who had returned to work at Vancouver issued a tearful and wonderful document, to wit, the "strike secessionists' manifesto," by which they sought to justify their dishonorable action on the ground that the strike was unconstitutional. Those signing it are styled departmental heads, although before the strike most of them occupied very subordinate positions. It seems strange that these unscrupulous individuals should not have inquired into the status of the strike until the C.P.R. offered them promotion and increased rates of pay to desert their comrades. It is evident they are no loss to the U.B.R.E. The theory that the strike is an unconstitutional one is easily exploded, as the action of the Vancouver division in calling a strike was confirmed by President Estes the day following, which at once raised it to a constitutional basis. In addition, the outside divisions unanimously approved and supported the step taken.

The Empress of India sailed from Vancouver for the Orient on the 24th instant with only 450 tons of bunker coal, in place of 900, and 800 tons of cargo in place of 3,000.

Great congestion of freight is reported at Winnipeg, and over one hundred loaded cars are standing in Moosejaw and Rat Portage yards. A wire was received yesterday stating that five men who returned to work in the morning came out again in the afternoon.

The Nelson strikers' pay is still being withheld, although the men at Revelstoke were paid promptly. The company has evidently made this stand to induce the men to return to work but it appears to be scarcely worthy of a corporation of the wealth and standing of the C. P. R.

A few men at Greenwood, Eholt and Grand Forks have returned to work, and it has been suggested that the local men will shortly follow their example, but this is a mistake, as the Nelson men are out to win. The five Boundary men who returned to work with one exception had not been initated, although desirous of membership.

Agent Horstead of the local division left for Revelstoke yesterday evening to confer with President Estey who is paying a flying visit there.

J. F. Massey of San Francisco, second vice-president of the U.B.R.E., now in Vancouver, states that the strikers have the fight practically won, and they are going to stay with it until the finish.

PRESS COMMITTEE,
Local Branch U.B.R.E.

Nelson, March 28, 1903.

The Fernie Strike Still Unsettled.

The strike at Fernie still goes on, notwithstanding the efforts of the conciliatory committee, which it is said have succeeded in adding two clauses to the agreement which were formally verbally understood. It is quite easy to understand, after the way Manager Tonkin has treated the union, that the men are not taking any stock in verbal understandings. They have still a lively recollection of the way their late secretary was worked, and nothing but written agreements go now. The real reasons for the turning down by the union of the arrangements agreed on before the conciliation committee are hard to arrive at, but it is contrary to reason to suppose that the men were getting the wages, the company would like us to think they are, that they would so persistently vote to continue fighting. Although little of the real cause of the stand now taken by the men has been allowed to reach outsiders, they have no doubt very great and valid reasons for the strong stand they are taking, and when their demands are satisfied, it is to be hoped there will be such a satisfactory settlement reached that the future prosperity of those interested in coal and kindred industries will be secured against disputes and strikes for many years.

TOWN AND DISTRICT NEWS

The Week's Happenings at the Hub of the Kootenays Briefly Told.

J. A. Mills, deputy registrar, is receiving the congratulations of his friends. It is a fine boy, born March 26th.

R. W. Day and Mrs. Day expect to leave Nelson for Vancouver, where they will reside in future, in about two weeks.

Harry Wright, mining recorder is at home suffering from a severe attack of typhoid fever. His many friends wish him a speedy recovery.

Alderman Bird is now able to get about on crutches, and expects that without accident he will be all right again in a couple of weeks.

Jacob Dover, the premier jeweler of Kootenay, who has been in business in Nelson since 1890, is arranging to dispose of his business. Mr. Dover has many friends in Nelson — more than some of the men who are crowding him have.

Shackleton & Simpson will this week complete the marble cutting for the "Father Pat" memorial fountain to be erected in Rossland. This marble comes from their own quarries near Nelson and is of a quality which dispels the idea that the only good marble comes from the Atlantic seaboard. The granite for the monument is to be quarried and cut in Rossland.

The surplices and cassocks for the choir of St. Saviour's church have been received from England, and the choir will be vested for the first time on Easter day. A contract for the new seats for the choir has been given to Mr. Hepburn. The 5 o'clock daily services during Lent continue to be well attended. There are vacancies for two tenors, and anyone wishing to join the choir will apply to the rector.

What might have been a serious accident, but which only resulted in a laughable incident, happened to Mr. Sullivan's class at the Nelson school yesterday. The class was nicely arranged on the school steps, teacher looking his prettiest in the middle, and the photographer all ready, when the steps gave way—and great was the fall thereof. As there were eight or nine steps, the result might have been serious, but fortunately no one was hurt. The class adjourned to the other side of the building and the picture was taken without further trouble.

H. McLeod, secretary of the Alberta Coal & Coke Company, Limited, has received a report from Wm. Blakemore, mining and consulting engineer, Montreal, upon the property of the company, which is situated near Cowley, Alberta, and consists of 6,400 acres. Mr. Blakemore says that six seams have been fully uncovered as follows: No. 1, 14 feet thick; No. 2, 21 feet thick; No. 3, 31 feet thick; No. 4, 8 feet thick; No. 5, 7½ feet thick; No. 6, 14 feet thick. The coal is all bitumenous and cokes well. Some of the seams are exceptionally good for blacksmith's purposes, and others yield good steam and domestic coal.

NELSON SUCCESS CLUB.

During the past week devotees of the royal game of chess have had an opportunity of establishing their reputations as exponents of a game which is known to have captivated the greater minds of both the present and the past. Following upon the steps of the great chess masters, who recently met at Monte Carle, a tournament has been arranged at the Success Club in which about twenty members are taking part. Rev. F. H. Graham and S. M. Brydges have kindly offered first and second prizes. The final games will be played some time during the coming week.

Fraternity hall has been engaged for the dance to be given on the 16th of April. The committee has arrangements well under way, and a most enjoyable time is anticipated.

Preparations are being made for the installing of the gymnasium. The apparatus was shipped from Toronto on the 27th of last month, and is expected to arrive at Nelson before the end of next week.

The mock parliament will hold its weekly session on Monday evening next. The debate on the taxation of mines will be resumed and a division on the compulsory arbitration bill is expected. There will be an open meeting of the house on the 6th of April, to which the public is cordially invited.

The affairs of the club are reported to be in a satisfactory condition. Over 150 names are now on the membership roll. It is hoped to increase this number to 200 before the first of May.

Major-general Sir Hector Macdonald, commanding the British forces in Ceylon, committed suicide in Paris on March 25th. He was on his way to England to answer charges based on alleged immoral acts.

Whittaker Wright, the man who wrecked the London & Globe Corporation, and incidentally did great harm to the mining industry of British Columbia, is in jail in New York awaiting extradition papers from London.

NELSON CITY COUNCIL.

The mayor and aldermen Kirkpatrick, Irving, Gilker, and Selous were present at the council meeting on Monday last. Alderman Bird was absent owing to a badly sprained leg, and press of business in the freight department of the C.P.R. prevented alderman Hamilton attending.

Letters were read regarding the city's issue of debentures, and it was decided Drummond & Co. of Montreal should have the option of the whole issue until the end of June at 98 per cent.

Mayor Rose brought up the question of leasing land on the lake front to squatters until the city wanted to use the land.

Alderman Selous opposed. He said the land in question had always been thought of as suitable for lead works or other industries coming to the city. The people living in the shacks had been given notice to leave long ago, and should move into the city and pay for their privilege like other citizens.

The general opinion was expressed by other aldermen that no leases should be given, but that care should be taken not to inflict any unnecessary hardship in enforcing the vacation of the land.

Moved by alderman Kirkpatrick, seconded by alderman Gilker, that E. MacGregor's services as city scavenger be dispensed with, and that H. J. Symes be requested to drive one of the scavenger wagons and act as sanitary inspector.

Alderman Selous opposed. He said it was a mistake to reduce the sanitary force at this time of the year, as owing to the heavy snowfall much rubbish had accumulated in the alleyways.

Alderman Irving said three men were at present doing work which could be easily managed by two.

After a warm discussion, in which all the council took part, the motion was carried, alderman Selous voting against.

On motion it was carried unanimously that water and light should be cut off after six weeks' payments were due.

There was a long discussion on the city assessment question, in which all members of the council took part. Alderman Irving wanted the appointment of an assessor who would carefully go over the rolls and make necessary alterations. Alderman Selous thought the assessments were too high, and wanted a reduction of 25 per cent. Mayor Rose was opposed to this, and the matter ended by alderman Irving suggesting that the motion be held over until the next council meeting, which was agreed to.

U. S. COAL COMMISSIONERS' REPORT.

The following are the practical results of the labors of the coal commissioners:

Ten per cent increase for miners, pumpmen, engineers, and firemen.

Increase to apply for all work done after Nov. 1, 1902.

Positions manned continuously to be provided with three shifts of eight hours each.

Men to be relieved on Sunday by relief provided by operators.

Nine hours to constitute a day's work for miners.

Establishment of a permanent board of conciliation to consist of six members to settle disagreements.

Circuit judge of third judicial district to appoint umpire when board of conciliation is unable to settle a difficulty.

No suspensions or lockouts to be ordered pending decisions of the board of conciliation.

Check weighmen to be appointed upon the request of the majority of miners in a colliery.

Miners to receive an increase of 1 per cent in wages for each increase of 5 cents in price of coal to consumers.

No person to be discriminated against because of membership or non-membership in any labor organization.

Awards made shall continue in force until March 31, 1906.

Discontinuance of "coal and iron police."

Stricter enforcement of laws relating to child labor.

Federal and state governments should provide for compulsory investigation of difficulties between miner and operator.

Losses because of last strike: Operators, $46,000,000; mine operators in wages, $25,000,000; transportation companies, $28,000,000.

Messrs. Busk and Heathcote have established an emporium for the production and encouragement of pheasants, Mr. Heathcote being general manager and superintendent. Mr. Busk lately brought from the Coast a cock and two Mongolian hen pheasants, and it is expected in the near future that they will be enabled to supply any number of these dainty birds to Kootenay connoiseurs. A number of the sportsmen of Nelson, Mr. J. H. Vanstone acting as secretary, have subscribed sufficient funds, and purchased wild rice seed, which will be sown all along the water front on the north shore of the lake. They are also negotiating for a supply of pheasants and quails which will be placed out under the care of ranchers who are willing to assist in looking after the birds until such time as they get acclimatized.

JOHN HOUSTON, Editor.

SATURDAY, MARCH 28, 1903

It may not be pleasing to Conservative politicians, but it should be to the rank and file of the Conservative party, to know that nominations for members of the legislative assembly in the different districts in the province are not at the disposal of any one man or any set of men. The Conservatives of the different districts will have the opportunity of selecting the candidates for their respective districts, and the method of making the selections will be uniform throughout the province. The Conservatives of Nelson will select the candidate when the proper time comes, and the men who are Conservatives will see to it that the candidate selected will be elected. It is needless to say that men who profess to be Conservatives, but who state that they will vote for the Liberal party nominee if everything done is not done the way they want it done, will probably find that their influence is of little account. There are probably twenty such men in Nelson. The one other district in which the people of Nelson are interested is Ymir. In the district are the towns of Kitchener, Creston, Sirdar, Ymir, Salmo, Erie, Waneta, and the City of Trail. It also includes the Bogustown and Hume additions to the City of Nelson and all that part of Slocan riding on the north side of Kootenay river from Balfour to Robson, as well as all of the Rossland riding in West Kootenay west of the Columbia river between the international boundary line and a line two miles north of Nakusp. It is the most important district in Kootenay, and the largest in area. Its voting strength will be about 1,200, one-half of which will be in Trail and Ymir and the towns and mines adjacent to these two places. The other half will be on the line of the Crow's Nest railway, on the north side of Kootenay river, in Fire Valley, in the additions to Nelson, and in the mines adjacent to Nelson. The man who gets the nomination in Ymir riding of the Conservative party will not only need to be a good man, but a hustler. He will have to show that he can be fair to all sections of the district in the expenditure of appropriations; and what man carries the nomination in his vest pocket? The Conservative rank and file resident in Ymir district will nominate the man, and the nomination will not be dictated by the small bunch of politicians who meet in a card-room in the Nelson Club.

There is an element in Nelson—and the element is represented in the city council by alderman Selous—who want to make it appear that Nelson is not worth what its assessment roll says it is worth. They want to cut down the assessed value of real estate, but they do not publicly give their reasons for so doing. This element is very "sore" because Nelson has been able to borrow $150,000, to be expended in erecting a civic power plant, without in any way decreasing the limit of the city's borrowing power. Had the $150,000 been borrowed on a basis of taxation on real estate, the city would have been pretty near up to the limit of its borrowing capacity. But if the assessed value of real estate is reduced 25 per cent, as alderman Selous advocates, the end aimed at by the element alderman Selous represents in the council will have been gained. The limit of the city's borrowing capacity will have been reached, and the people who want to see Nelson go ahead will have their hands tied. The Beer Party thus hope to gain by indirect methods what they cannot gain by direct methods. Property in Nelson should be assessed at a fair value and no favors shown anyone. In order to get such an assessment, the city council will have to appoint some one as assessor who knows something about real estate values and the value of improvements. Such a man should be selected and appointed as soon as possible. There has been altogether too much shilly-shallying and wabbling over the matter, and the shilly-shallying and wabbling has been done by four men the people of Nelson expected better things from. Last year thousands of dollars in real estate taxes were not paid because of the needless delays in preparing the assessment and tax rolls. This should not happen again this year, and it will not happen if mayor Rose and aldermen Gilker and Irving and Kirkpatrick get down to business on Monday night next and appoint an assessor, and then see to it that he does his duty. If the Beer Party element do not like the valuation placed on their property by the assessor, then let them appeal to the courts as they threaten to do. It is up to mayor Rose and the three aldermen above named to do their duty, leaving the three Beer Party aldermen to do the "kicking."

The Trout Lake Topic says The Tribune did not make out a case against the Provisional Provincial Mining Association. The Tribune did not try to make out a case against the association. It merely indicated what the creators of the association would attempt to do were they given a free hand. The men responsible for the creation of the mining association want to work Chinese and Japanese in hydraulic mines. If crown grants can be obtained for hydraulic ground they will be able to do so. Others, again, want to repeal the penalty clause of the eight-hour law. They did not dare to show their hand in the convention, however. The Rossland pessimistic mine-manager failures, aided by the few remnants of what is left of that notorious but dead Kootenay organization, the Mine Owners' Association, had much to say about the unfairness of the 2 per cent tax, but the convention could not see where the tax was either burdensome or unfair. It is claimed that politicians were not allowed to control the convention. John Keen of Kaslo is president. Keen may not be a politician, but has he not hankered after the fleshpots? D. W. Higgins of Victoria is the second vice-president. Has David never held a political office in his life? A. L. Belyea of Victoria is the secretary. He may not be a politician, but has he not been a standing candidate for office in Victoria? Mr. Hobson of Cariboo, the first vice-president, and Mr. Fraser of Victoria, the treasurer, are not politicians in the sense that they have been office-seekers. The Tribune will accord the Provincial Mining Association a full measure of credit when it has done something deserving of praise; but, until then, it reserves to itself entire liberty of conscience.

A TEMPERANCE STORY

Many years ago one of Washington's old and most respected citizens, named George Savage, became an ardent enthusiast on the subject of temperance, and unquestionably accomplished a great deal of good. He organized outdoor meetings, and generally located them at the plaza fronting the bank buildings at Seventh street and Pennsylvania avenue or on the steps of the interior department. He had a small corps of "spellbinders" to entertain the gathering crowd. Among these was an Irish shoemaker named Donovan, and his part in the programme was to relate his experiences with the flowing bowl, and the funny incidents connected with his debauches, says the Washington (D. C.) Post. He was an entertaining fellow, with the gift of gab. It was a difficult contract on the part of Savage to keep the Irish orator sober for the night's performances; oftentimes he would wind up behind the bars at the station house.

One night strolling along the avenue in company with several friends, including Charles F. Brown, the merry delineator and lecturer, known to the world as "Artemus Ward," we halted to listen to the sledge-hammer arguments of our Irish orator on the evils of intemperance, addressed to a good-sized crowd.

Ward, in his persuasive way, and quaint mannerism, inquired of the speaker whether he might be permitted to make an inquiry, for your subject commands my most profound attention. Consent was readily given. Mr. Ward commenced:

"While on the subject of monumental jags, imported and domestic, can you inform us what the atmospheric pressure on the brain is, from a scientific standpoint? What controls the physical equilibrium from a perpendicular attitude to a longitudinal condition? The ablest philosophers of the known world stand aghast in their efforts to fathom this exasperating problem. In fact, some of them are still standing on one foot yet. Can such things be and overcome us like a summer's cloud without our special wonder? Well, I should say not. Therefore, if this be thus as a student of the frailties of mankind, I ask you if why is which, wherefore dost it?"

The speaker, who had listened attentively seemed nonplussed for a moment and finally said: "I fail to catch the drift of the gentleman's question."

"Pardon me," said Mr. Ward, "if I fail to make myself understood. The signers of the Declaration of Independence contemplated this important subject with a fixed gaze. Why the front and side walls of our goals and insane asylums are bulging out in providing for the jags who are afflicted with the prevailing epidemic of bending the elbow, or drinking between drinks. This is an undisputed fact, evidenced by the preponderating testimony of unborn generations, who have been there themselves. Conclusively speaking, the question of equilibrium and ground and lofty tumbling is agitating the most profound thinkers when they discover that they do not know which side of the street they reside on. Therefore, we pause for a reply."

The temperance speaker winked at Ward, and, turning to his audience, said: "You will please excuse me," and dismounting from his perch, extended his hand to Ward, and said: "Young fellow, what the devil is the use of your and my casting pearls before swine" "True, true, my old Castilian," said Ward, and taking him by the arm and leading him by the arm and lead him toward the Metropolitan Hotel bar, "we will lubricate and drive dull care away." George Savage's lieutenant had cut another starter.

SHERIFF'S SALE.

Province of British Columbia, Nelson, West Kootenay. To Wit:

BY virtue of a Writ of Fieri Facias issued out of the Supreme Court of British Columbia at the suit of

ELMER J. FELT, Plaintiff,
and
PERCY DICKINSON, WARNER MILLER, W. E. SPIER, THE SLOCAN-KILO MINING COMPANY, LIMITED, and R. WILSON SMITH, in his own right and as trustee for F. L. BIRQUE, ANDREW G. BLAIR, and WILLIAM STRACHAN, Defendants,

And to me directed against the goods and chattels of the said defendant, Percy Dickinson, I have seized and taken in execution all the right, title and interes of the said defendant, Percy Dickinson, in the mineral claims known as and called "Skylark" and "Ranger," situate on the first North Fork of Lemon Creek, located on the 29th day of July, 1895, and the 26th day of July, 1895, respectively, and recorded in the office of the Mining Recorder for the Slocan City Mining Division of the West Kootenay District; to recover the sum of $628.30, and also interest on $624.80 at 5 per centum per annum from the 17th day of May, 1902, until payment, besides sheriff's poundage officer's fees, and all other legal incidental expenses; all of which I shall expose for sale, or sufficient thereof to satisfy said judgment debt and costs, at my office next to the Court House, in the City of Nelson, B.C., on Saturday, the 28th day of February, 1903, at the hour of eleven o'clock in the forenoon.

NOTE.—Intending purchasers will satisfy themselves as to interest and title of the said defendant, Percy Dickinson.

Dated at Nelson, B.C., 19th February, 1903.

Dated the 7th day of March, 1903.
D. LABAU.

TIMOTHY HAY'S REMARKS

James Dunsmuir has assumed a new role, that of a valiant gladiator who intends to free British Columbia from the thraldom of unionism. He is going to wipe out the miners' unions at his collieries, as a beginning. When that is accomplished, he will likely look for more worlds (or rather unions) to conquer, as most gladiators do. The trouble with Mr. Dunsmuir is that he has untaken a very large contract and will not be able to deliver the goods. Men who have been more unscrupulous and were possessed of a greater so-called shrewdness in business than Mr. Dunsmuir has, have tried to annihilate labor unions before, but their finish was not such as they expected. Their curves fell a little short of the home plate. Even Bernard Macdonald, the erstwhile manager of the LeRoi at Rossland and a great fighter, found that out after it had cost the LeRoi company $100,000.

÷ ÷ ÷

That angel of peace who represents the department of labor, W. L. Mackenzie King, after a vain endeavor to extend the olive branch at Fernie, has come and gone. Not that there is anything strange in his coming and going, because that is about all the government wishes him to do, about all he expects to do, and about all he does do. Mr. King is one of those college-bred labor freaks who have as much influence in settling a labor dispute as a tomcat would have in settling a dogfight. To the western mind he seems to be as much out of place in his present billet as the proverbial bull in the china shop. Neither employers nor employees regard him very seriously; besides, he is about as indiscreet, in regard to his own importance and also that of the department of labor, as the latter could wish to avoid. In other words, he talks too much. Mr. King's time might be more profitably employed in the preparation of government blue books, which are of great service for wrappers for country newspapers, and if issued in large quantities might go a long way towards relieving the coal famine. They are dry and burn well.

÷ ÷ ÷

Any person addicted to the habit of reading the Daily News would think the Crow's Nest miners had been making too much money and wanted a vacation, and therefore did not wish to settle the strike. An old saw says: "Every day will be Sunday bye and bye." Perhaps the News thinks that period has now arrived. In view of the decisive result of the vote taken by the miners on the question of returning to work, it might be well to hear what the miners say before dconemning them.

÷ ÷ ÷

For being a grand political fraud and would-be vote-catcher, let me commend the department of labor at Ottawa. In its efforts to be dramatic the department is ably assisted by its jack-in-the-box deputy, William Lyon Mackenzie King, whose official doings seem to be be most remarkable for what he does not do. The members of the Liberal government take great pride in informing trade unionists as to the great things the department of labor is doing for them. It is a fraud on the unionists and a greater fraud on the public, in that it takes a lot of good money to continue the farce. The only feature in the entire department calling for commendation is the "fair wage" provisions caused to be inserted in all government contracts, whether it is making mail bags or building post-offices. This provides for the payment of the prevailing rate of wages in each locality where there are government contracts. The alien labor law cannot even be said to mean well, in that eminent prestidigitators of the law declare it is not workable and never was intended to be. It is quite true that a man named Geiser, an Oregan strike-breaker, was fined on two counts by the police magistrate for violations of the act at Rossland a year and a half ago. On appeal these fines were affirmed, not on the question of the validity of the law, but on technical grounds. Until the Liberal government pass a few labor measures of merit, such as will be a real benefit to those whom they endeavor to cajole, the less the Liberals say about the department of labor the better. If the government is really sincere in friendship for unionists, it might show it in a different manner to what it has done in regard to amendments to the trade marks and designs act.

÷ ÷ ÷

The Province will next week be treated to another act in the operatic tragedy in many scenes entitled "The Legislative Assembly." Joe Martin as usual will take the heavy villain leads, aided y Sig. McBride and a host of lesser tar performers. With several members of the chorus who have not been able to find themselves since premier Prior started to lead the show, those who have been looking forward to a summer trip to Newport or Long Branch at the expense of an aspiring and willing candidate are somewhat in doubt. Will the legislative solons please decide quickly as to who is "on shift."

C. W. MISENER.

NOTICE is hereby given that I, C. Clark, intend within the time prescribed by law to apply to the Chief Commissioner of Lands and Works of the Province of British Columbia for a license to prospect for coal and petroleum upon the lands hereinafter described and commencing at a post at the southwest corner marked "C. Clark's s. w. corner post," thence eighty chains north, thence eighty chains east, thence eighty chains south, thence eighty chains west to the post of commencement. These lands are situated on the east side of and adjoining J. H. Kilby's claim, about 31 miles in a southeasterly direction from Elko, B.C., on or near the Flathead River.

Dated 24th Feb., 1903.

C. CLARK.

NOTICE is hereby given that I, W. L. Smith, intend within the time prescribed by law to apply to the Chief Commissioner of Lands and Works of the Province of British Columbia for a license to prospect for coal and petroleum upon the lands hereinafter described and commencing at a post at the northwest corner marked "W. L. Smith's n. w. corner post," thence eighty chains south, thence eighty chains east, thence eighty chains north, thence eighty chains west to the post of commencement. These lands are situated on the east side of and adjoining C. Erickson's claim, about 35 miles in a southeasterly direction from Elko, B.C., on or near the Flathead River.

Dated 23rd Feb., 1903.

W. L. SMITH.

NOTICE is hereby given that 60 days after date I intend to apply to the Chief Commissioner of Lands and Works for permission to purchase the following described lands in South East Kootenay: Commencing at a post marked "W. F. Teetzel's southeast corner," planted at D. LaBau's northwest corner post, thence north 80 chains, thence east 80 chains, thence south 80 chains, thence west 80 chains to the place of beginning, containing 640 acres more or less.

Dated the 7th day of March, 1903.

W. F. TEETZEL.

NOTICE is hereby given that 60 days after date I intend to apply to the Chief Commissioner of Lands and Works for permission to purchase the following described lands in South East Kootenay: Commencing at a post marked "J. A. Skene's northeast corner," planted on the east bank of the Flathead River, about twenty miles north of the International Boundary line, thence south 80 chains, thence west 80 chains, thence north 80 chains, thence east 80 chains to the place of beginning, containing 640 acres more or less.

Dated the 7th day of March, 1903.

J. A. SKENE.

NELSON NEWS NOTES.

August Thomas of the Lakeview hotel is laid up with a sprained ankle.

R. F. Green, M.P.P., of Kaslo, passed through Nelson on Thursday on his way to Slocan City, thence to the Coast.

Melville S. Parry is wearing a smile of extra breadth this week, the arrival of the third boy being the cause thereof. Weight upwards of ten pounds; arrived March 26th.

Mrs. J. A. Paquette left Nelson this week to join Mr. Paquette at Seattle, where he has been for three months with the Western Union Telegraph Company. There is quite a Nelson colony in Seattle, and all are doing well.

John A. Turner and Mrs. Turner are now in Toronto. Mr. Turner writes they will leave early in April and expect to arrive in Nelson about the first of May. Rev. J. H. White and Arthur Ferland were in Toronto last week.

Owners of crown-granted mineral claims forget that their lands are subject to taxation the same as are any other lands. The assessor for Nelson division this week advertises the sale of 123 of these claims for taxes. The sale will also be the burial of several of the wildcat companies of 1896-7 which mostly had their lairs in Rossland and found their victims among those eastern Canadians who thought there were quicker ways of getting rich than by selling wheat and sending their milk to the cheese factory.

In the death of sheriff Stephen Redgrave at Golden, British Columbia has lost one of her unique men. Born near Manchester, England, he lived in Australia, the United States, and Canada. Coming to British Columbia twenty years ago, he was soon appointed to the provincial police force, and from that force was appointed mining recorder and sheriff for Kootenay. When the southern portion of Kootenay began to fill up with prospectors, Mr. Redgrave was made sheriff of North Kootenay. He was a fine specimen of the man, generous to a fault, and could tell the most remarkable stories of his experiences. May the "old sheriff" go to the happy hunting ground will be the wish of all his old-time friends.

SALE OF MINERAL CLAIMS
FOR UNPAID TAXES
In the Nelson Assessment District, Province of British Columbia.

I HEREBY give notice that on THURSDAY, THE 11TH DAY OF JUNE, A.D. 1903, at the hour of 11 o'clock, a.m., at the COURT HOUSE, NELSON, I shall offer for sale at public auction the mineral or placer claims in the list hereinafter set out, of the persons in said list hereinafter set out, of which Crown Grants have been issued, for all unpaid taxes accrued due and payable on the 30th day of June, 1902, or accrued due and payable at any 30th day of June subsequent to the date of the issue of the Crown Grants, and remaining unpaid at the 31st day of December, 1902, and for the expenses of advertising this notice.

If the taxes and expenses of advertising, as set out in said list, are not paid to me on or before the day of sale, the claims may be sold to the highest bidder, and a conveyance executed to the purchaser of all right and interest in said claims legally alienated by the Crown by the Crown Grants thereof.

In the event of there being no purchaser, or if the price offered shall not be sufficient to pay the taxes and expenses of advertising, the land shall absolutely revert to the Province and the Crown Grants thereof shall be deemed void.

LIST ABOVE MENTIONED:
