Office of the Coordinator
Health Sciences Centre
University of British Columbia
Vancouver, B.C. V6T 1W5

Gordon E. Muir

Definitions:

1. Directory Active Physicians

Directory Active Physicians are registered in British Columbia by the College of Physicians and Surgeons of B.C. At the date of record, they have a B.C. address and are licensed to practice medicine. Directory Active includes physicians who are on the full, limited or temporary registers (temporary includes those who are in postgraduate training or have temporary licences to practice). Addresses are those selected by the physician for publication in the Directory and may be either a home or office address. If more than one office address is used, the physician is assigned to the first listed in the Directory.

2. Registration Status

M.S.C. Active¹

M.S.C. Active Physicians are not in postgraduate work and have been assigned a valid billing number by the Medical Services Commission. The Medical Services Commission type-of-practice code indicates that these physicians are generally available to the public, whether their type of practice is private, group or salaried.

M.S.C. Not Active¹

M.S.C. Not Active Physicians are Directory Active Physicians not in postgraduate work who are not categorized as M.S.C. Active.

Postgraduate

Postgraduate are Directory Active Physicians who, according to the records of the College of Physicians and Surgeons of B.C., are involved in postgraduate work. They may be fully-registered or on the temporary (educational) register.

¹ Due to changes in M.S.C. coding the definition of M.S.C. Active is only used for the 1977 Data.

3. Type of Practice

Those physicians who are M.S.C. Active are divided by the type of practice, according to a code which is assigned by the Medical Services Commission. These groups are "solo", "group", or "salaried" practice and "other" (which is primarily temporary registrants (non-educational)).

4. Specialty

Those physicians who are not in postgraduate training have been assigned to a specialty in the following manner:

The M.S.C. specialty code developed to assess patient profiles is used unless:

- 1) the physician has a certification in "Family Medicine" from the College of Family Physicians of Canada, in which case the "specialty" is coded as "Family Practice",
- 2) the physician has no M.S.C. specialty, in which case the most recent Royal College specialty will be used.

Some physicians have more than one specialty listed in the Directory. The M.S.C. specialty code is therefore followed in that it assumes these physicians are functionally performing as specialists in the group in which their personal profile is assessed.

TABLE OF CONTENTS

1. Section I

Number of Directory Active Physicians by Registration Status by Community as at September 1977.

2. Section II

Number of MSC Active Physicians by Type of Practice by Community as at September 1977.

3. Section III

Number of Non Post-Graduate Physicians by MSC Specialty by Community as at September 1977.

4. Section IV

Number of Directory Active Physicians by Registration Status by Community as at September 1978.

5. Section V

Number of Non Post-Graduate Physicians by MSC Specialty by Community as at September 1978.
