DEFINITIONS OF PHYSICIAN STATUS

DIRECTORY ACTIVE PHYSICIANS

Directory active physicians are registered in British Columbia by the B.C. College of Physicians and Surgeons. On the date of record they have a B.C. address and are licenced to practice medicine. Directory Active includes physicians who are on the full and temporary registers (i.e. those who are in post-graduate training or have temporary licences).

M.S.C. ACTIVE

M.S.C. active physicians are not in Post Graduate work and have been assigned a valid billing number by the Medical Services Commission. The Medical Services Commission type of practice code indicates that these physicians are generally available to the public whether their type of practice is private, group or salaried.

M.S.C. NOT ACTIVE

M.S.C. not active physicians are directory active physicians not in Post Graduate work who are not categorized as M.S.C. Active.

POST GRADUATE

Post graduates are directory active physicians who according to the records of the B.C. College of Physicians and Surgeons are involved in post graduate work. They may be fully-registered or possibly do locums. This group therefore is comprised primarily of interns and residents.

SPECIALISTS

Specialties are determined by the Medical Services Commission specialty code. As a result physicians with two or more specialties will be included in specialty counts only once; that specialty will be the one which best represents their type of practice as reflected in their billing to the Medical Services Commission.

July, 1974.
