## Large Number Attend Robbie Burns' Anniversary

Celebrating the anniversary of the birth of Robbie Burns, Scotland's national poet, over two hundred people gathered at the Gymnasium on Friday, January 25th, for the annual Burns' Dinner and Dance. The affair was one of the most successful and enjoyable yet held.

The ceremonies in connection with the dinner were carried out in traditional style, and the dance included all the old-time dances so dear to the hearts of Scotch folk. For the sake of those visitors who were not versed in the old-time steps and whirls, there were several modern numbers.

Mr. T. J. Kirkwood, was chairman at the dinner and he welcomed the guests in the course of his opening remarks. Grace was said by Mr. H. R. Patrick and Mr. R. B. Wallace gave the address to the haggis. Mr. T. W. Cavers proposed the toast to the memory of the "Immortal Robert Burns," Mr. Angus McLean gave the toast to "The Lassies," which latter was most ably replied to by Mr. Patrick. The haggis was carried into the dining room with due ceremony by Mr. A. Wardrope, attended by a group of Scotch lassies in costume.

Norman McLeod was the piper at this ceremony and he also played for the Grand March to the supper. Music for the dancing was furnished by John Gillies' Orchestra. During the evening, vocal solos were rendered by Mrs. J. Salmon and Miss Salmon. Miss Barclay danced the sword dance in graceful style. Scotch dances were also given by a group of lassies in costume.

The committee in charge are to be congratulated upon their successful efforts to provide a really enjoyable celebration for this national event.

## Anyox Notes

J. Holt returned on Monday from a six weeks' holiday visit to Vancouver and southern points.

D. Carter left on Monday for Vancouver.

The steamship Southolme, arrived at Alice Arm on Sunday from Vancouver, with lumber and creosoted piling for the new float and approach at Silver City. The Southolme is owned by the Frank Waterhouse Co.

The Herald is \$2.00 a year

## Congregation Of United Church Hold Annual Meeting

The annual Congregational Meeting of the Anyox United Church was held in the Church Hall, on Thursday evening, January 24th, with Rev. E. Baker as chairman.

Reports were received from the different organizations of the Beach and Mine branches in regard to the work of the past year, which gave the financial situation of the Church in very good shape, with bright hopes for the coming year held by all in attendance.

A special vote of thanks was extended to the Ladies' Aid, also Rev. Baker and all others for their splendid help in all the year's undertakings. Stewards elected for the present year, were: W. Barclay, chairman; W. Rhead, treasurer; P. A. Ford, secretary; W. Cavers, R. Keyes, F. Ubell, T. Wilby, F. Bristow.

F. Dresser was unanimously appointed organist, and J. Peel as choir leader. The Sunday School has shown improvement both in attendance and finances.

A vote of thanks was accorded H. Spencer for his work as auditor, and for which office he was re-appointed for the ensuing year.

At the conclusion of the business meeting a very pleasant social hour was spent by all present, at which tea, sandwiches and cake was served by the ladies.

## The Elks' Lodge Install New Officers

On Monday, January 28th, the newly elected officers of Anyox Lodge, B. P. O. Elks were duly installed by Bro. M. J. Sheen, D.D.G.E.R. They are as follows:

Exalted Ruler—D. M. Campbell.  
Leading Knight—M. W. Webber.  
Loyal Knight—K. A. Hunter.  
Lecturing Knight—T. N. Stretton.

Esquire—P. Powell.  
Tyler—J. Wier.  
Outer Guard—R. Buttary.  
Secretary—M. J. Sheen.  
Treasurer—B. M. Buck.  
Chaplain—J. Kelly.  
Trustee—M. Cranley.

It was arranged that the Elks' Annual Ball be held early in March, and plans were laid accordingly. In view of the possibility that this may be the last annual event of the kind they will have the opportunity of holding, the Brother Bills propose to make this event a memorable one.

## Preliminary Report On B. C. Mining Shows Big Gain During Past Year

**Estimated Production Valued At \$42,049,019, An Increase Of \$9,446,341**

We are in receipt of the preliminary report of the Mineral Industry of British Columbia for 1934 from the Minister of Mines, Victoria. The report is the work of Dr. J. F. Walker, Provincial Mineralogist, and contains his review of the industry as a whole, as well as a summary of the important events in the Mineral Survey Districts. Dr. Walker's general remarks are as follows:

The gross value of the mineral production of the Province for 1934 is estimated at \$42,049,419, an increase of \$9,446,341, as compared with the output of 1933, or 29 per cent. This highly satisfactory increase is due in part to increased prices for gold and silver and in part to increased volume output in these metals, and particularly so in lead and zinc.

The value of the metallic mineral production (gold, silver, lead, zinc and copper) is estimated at \$34,418,463, an increase of \$8,848,439, as compared with 1933. Coal shows a slight increase in quantity and value, and miscellaneous metals and minerals a large increase in value. Structural materials showed a further decline.

Mineral production in the first half of the year showed an estimated increase of 50.5 per cent. over the corresponding period in 1933, but showed a slight decrease as compared with the last six months of 1933. The estimate issued for the last six months of 1934 is \$663,359 over the first six months of the year and slightly over the last six months of 1933. In other words, the value of the mining production of the province has remained very steady during the past eighteen months.

The tonnage of ore mined was approximately 4,732,000 as compared with 4,030,778 tons in 1933. The average price at \$6.66 per ton compared with \$5.87 per ton in 1933. This increase is equivalent to the premium on gold and the increase in the price of silver.

Gold production showed an increase of 64,542 ounces over 1933, establishing an all-time high record with a value of \$6,360,960 (gold at \$20.67 per fine ounce.) To this figure an additional estimated

## Wedding At Anyox On Saturday

A quiet wedding was solemnized at 8 p.m. on Saturday, January 26th, when Eva Irene, youngest daughter of Mr. and Mrs. Robert Johnston, West Summerland, became the bride of Mr. Frank Doumont, eldest son of Mr. and Mrs. A. Doumont, of Ladysmith, B. C.

The ceremony took place in the United Church Manse, the Rev. E. Baker officiating. Mrs. D. P. Williams was the matron of honor, and Mr. W. Gourlay acted as best man.

The bride wore a tunic ensemble of pale rose beige crepe with accessories of brown, while the matron of honor wore a gown of ashes of roses crepe with matching accessories. Both wore corsages of carnations.

After the ceremony a buffet supper was served at the home of Mr. and Mrs. A. T. Koenen.

Mr. Doumont, who has made many friends during his stay at Anyox, was showered with good wishes and the young couple received many handsome gifts. They will reside temporarily at Anyox.

## Wm. Stewart Died Monday At Aiyansh

The death occurred at Aiyansh on Monday night of Mr. W. Stewart, aged 73 years. Deceased was one of the pioneer residents of the Naas Valley, going there in 1912, and since that time was engaged in farming.

Ten days previous to his death he lost his house and all contents by fire. This was the second time such a loss occurred within three years. The cause of his death was an attack of influenza, and his loss by fire no doubt worried him considerably, thereby lowering his vitality.

"premium" of \$4,249,862 must be added to arrive at the total return in Canadian funds of \$10,610,822. The average price of gold in Canada for the year is estimated at \$34.48 as compared with \$28.60 in 1933.

Lode gold production increased chiefly because of larger tonnages from the Pioneer, Bralorne, the old Rossland camp, and a number of small operations.

Silver production is estimated at 8,907,000 ounces; an increase of 1,900,504 ounces over 1933, and an increase in value of \$1,547,149.

Copper production for the year is estimated at 49,400,000 pounds, valued at \$3,566,680 an increase over 1933 of \$390,339 or 12.3 per cent.

Continued on page 2

## Monday's Hoop Games Were Replayed Fixtures

All three hoop games last Monday were replayed fixtures from the first half of the schedule. The games were well contested and provided lots of excitement for the many fans present. In the Senior B fixture, in which Rovers met the Vandals, the game ran into overtime and was won by the men from the hill.

Continuing their winning streak, Aces defeated the Spooks 18-15 in a ding dong battle. It was touch and go all the way, with Helen Simpson clinching the games for the greens, by netting two homers in the last few minutes. The ladies' games alone are well worth the price of admission. Spooks: Mrs. Wenerstrom, H. Glass, T. Gordon 3, K. Eve 7, N. Salmon 3, N. Wenerstrom, J. McDonald 2.

Aces: D. Rogers, L. Dresser 10, J. Pinckney 2, H. Simpson 4, M. Dresser 2, A. Carrick.

Some fine basketball was witnessed in the B league game between Rovers and Vandals, the score standing 21 all when the whistle blew and an overtime session found the Vandals with a score of 25 to 22. Vandals played a sterling game, with White, Southey and Whitaker showing nice combination. Only close checking kept the flashy Rovers from running up a higher score. Thompson, Cadillac and Kergin were the shining lights, while Flye was top scorer with 7pts.

The teams: Rovers: Thompson 6, Flye 7, Summers 2, Kirby 1, Cadillac 3, Kergin 3. Vandals B: White 10, Whitaker 5, Southey 5, Powell 3, W. Horne, McDonnell, Graham 2.

The Elks put up a stiff battle against the Trojans in the A fixture although they were finally left behind to the tune of 43-26 as the final score. The game was well played and provided many exciting moments for the fans. The teams: Elks, Currie 6, Davies 8, Cadillac, Phillips 4, D. Evans, W. McBride 2, T. Scott 6. Trojans: B. Gillies 19, J. Gillies 8, H. Dresser 2, A. McDonald 14, F. Gordon, F. Dods-worth, W. Shields.

Mrs. Gillette, who has spent several weeks at Anyox returned to Alice Arm on Saturday. She expects to leave again today for Anyox for an indefinite period.

Wm. Stephen left Alice Arm on Monday for Vancouver and southern points. He hopes to locate some land in the south, on which to reside, in which case, Mrs. Stephen and family will leave here later.

## Preliminary Report On B. C. Mining Shows Big Gain During Past Year

**Estimated Production Valued  
At \$42,049,019, An Increase  
Of \$9,446,341**

Continued from page 1

Lead production established an all-time high volume record of 340,700,000 pounds, valued at \$8,313,080, an increase of \$1,817,340 over 1933, or 28.00 per cent.

Zinc production also established an all-time high volume record of 252,780,000 pounds, valued at \$7,730,012 an increase of \$1,438,596, or 22.8 per cent. over 1933.

Coal production increased from 1,264,746 tons to 1,337,000 tons, valued at \$5,682,250 an increase of \$307,079 or 5.7 per cent.

During the year the larger operations brought their production back close to capacity, and several operations increased their capacity and a number of new mills were constructed.

During the year 178 mining companies were formed of which 91 were public and 87 private organizations. Of these, 149 companies were formed for the purpose of developing gold properties with three or four exceptions, within the province. These figures compare with 153 companies in 1933 of which 145 were gold mining companies.

There was a distinct falling off in company promotions during the latter part of the year. However, it is estimated that more worthwhile work will be done during 1935 than in 1934.

Dividends for the year are estimated at \$6,753,614, as compared with \$3,075,577 in 1933.

With the close of 1934 it is evident that the mineral industry of the province is approaching more stable conditions and that an increase in 1935 comparable with that of 1934 is not to be expected. The fact that mineral production for the past 18 months has been very steady is sufficient reason for such a statement. However, to forecast future production even for the present year, is, under existing rapidly changing world conditions, a matter of considerable speculation. Such a forecast is considered to be of sufficient importance to merit the attempt which may be best accomplished by treating the major mineral industries of the province separately.

Copper production in 1935 so far as it can be foreseen is likely to show a decline of about 60 per cent., due to the announcement that the Granby operation at Anyox is to be closed down late in the spring.

Lead production is likely to remain about the same, but it is

anticipated that a slight increase in the price for the metal may be realized. The present price is low beyond reason, and while the prices of 1926 may never again be reached a reasonable appreciation in value should be attained within the next few years.

While it is anticipated that the volume of zinc will be maintained, due to a demand for electrolytic zinc, and the position which the British Columbia metal has won in world markets in spite of keen competition, it is not anticipated that any appreciable increase in the price of the metal will be realized.

It is hazardous to venture an estimate of the future value of the mineral production of the province, but sound business principles demand a long-sighted view of affairs. To arrive at a possible figure under what, at the moment, may be anticipated as reasonably normal conditions, an estimate is made based on anticipated volume production for 1935 in gold, silver, lead and zinc, and increased production in coal, copper and structural materials. Estimating the value of gold at \$40 an ounce, silver at 60 cents per oz., copper at 11 cents. per lb., lead and zinc at 3.5 cents per lb. in this attempt a figure of \$55,000,000 is obtained.

## May Build Small Smelter At Bridge River When Necessary

The Financial News

Establishment of a small smelter in the Bridge River area to treat ore and concentrates from mills at the north end of the valley, operating on complex ores, is reported to be a distinct possibility when production conditions warrant.

A prominent Ontario mining man, famous as a mine operator, has been investigating the field for such a utility and is said to be favorably impressed by the prospects of profitable operation.

Such properties as Minto, Congress, Olympic and Federal, opening substantial widths of complex ore not amendable to cyanidation, will have to ship their concentrates by road, rail and steamer to Tacoma smelter unless or until a smelter is established in the district.

Unlike Pioneer and Bralorne mines, where the values are almost exclusively gold, properties in the north end of the Bridge River field are developing ore in which silver, lead, zinc, arsenic and antimony are frequently present.

Power for a smelter would constitute no obstacle, since the B. C. Electric Railway Company, with its Bridge River diversion tunnel to Seton Lake, has a site capable of taking care of every possible local need of the Bridge River mining district.

Man—Don't you think love is absurd?

Visiting Friend—Yes. Just two silly.

A recent civil service examination question for a man to fire a marine boiler was this: "If it takes 20 men to mow a field in eight hours, how long will it take 15 men to mow the same field?"

One candidate was too smart for the inquisitors. He wrote: "As the field has already been mowed by the 20 men, the 15 men could not mow it in any case."

## The Minerals of British Columbia

This Province offers excellent opportunities for useful and profitable investment. British Columbia has produced **OVER \$1,352,000,000 WORTH OF MINERALS.**

The gross value of mineral production for the six months ended June 30th, 1934, exclusive of gold premium, is estimated at \$18,667,691.00, an increase of 50.5 per cent. over the estimated value of the production in the corresponding six-month period of 1933.

**GOLD PRODUCTION:** Gold production showed a decided increase; a total return in Canadian funds to the gold producers of British Columbia during the first six months for 1934 being approximately \$5,028,124.00, an increase of 81.3 per cent. over the return in Canadian funds received during the first half of 1933.

**Recent Publications of the Department of Mines**

Annual Report of the Honourable the Minister of Mines, for the year 1933.

# WITH CANOE AND PADDLE ON CANADA'S WATERWAYS

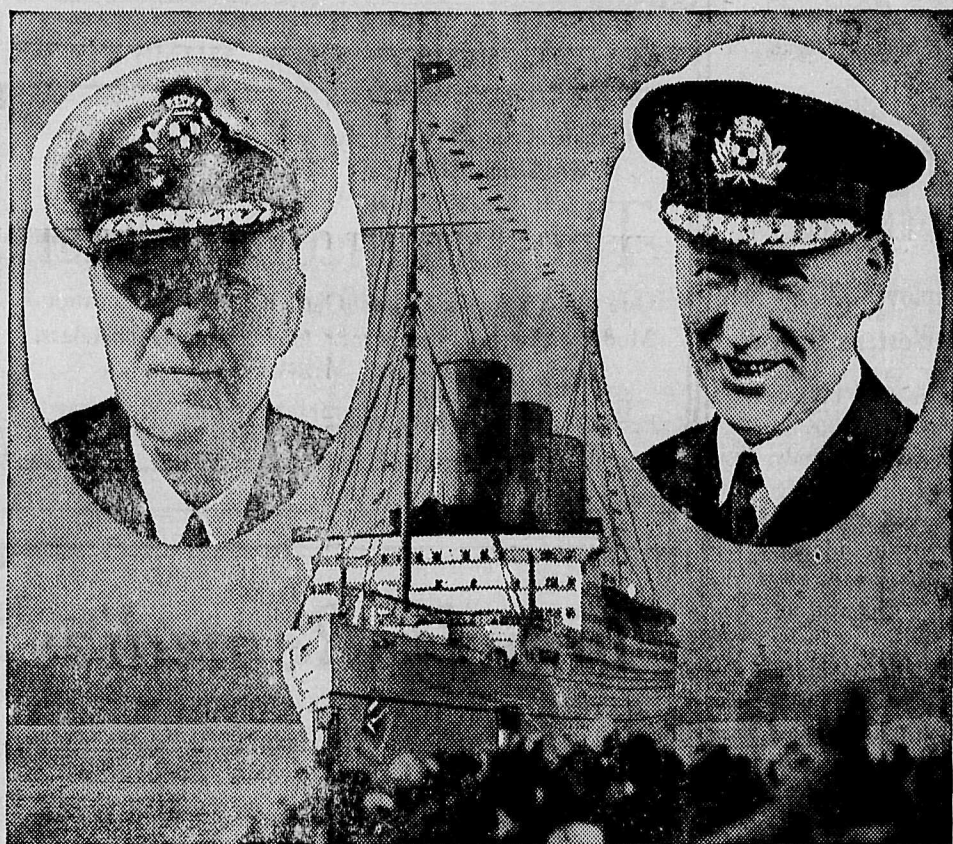

**C**HANGE is the prime essence of a vacation and a canoe trip in Canada is one method by which the stress of daily life can be exchanged for a tranquil, carefree existence. It may be for a limited time only but its effects are felt all the year round. Jostling crowds, rumble of traffic, hot pavements and vitiated air have no place in the life of the canoeist.

A large number of interesting routes are outlined in "Canoe Trips in Canada," a booklet recently issued by the National Parks of Canada, Department of the Interior, Ottawa. Following the routes described therein one can drift lazily along or relive the strenuous days of the voyageur. There are cruises which lead for a hundred miles through canal, stream and lake with alternating civilization and lightly wooded country. There are long, smooth flowing rivers and placid lakes on

which one can travel for days, and by contrast rushing streams which ever and again break into foaming rapids and thundering falls. There are adventurous trips through wilderness country along routes once followed by Indian and fur-trader, now almost forgotten so seldom are they travelled. Strange geological formations, wild life, good fishing, the charming and the picturesque await the advent of one's canoe on the numerous and varied water trails of Canada.

## "SEA CHANGE"

Captain R. G. Latta (left) and Captain R. N. Stuart. Centre photo shows a portion of the huge crowd that assembled at Wolfe's Cove, Quebec, Saturday, June 30, to wave farewell to the popular "Jock" Latta.

A famous Atlantic skipper severed his connection with the sea at the completion of voyage 44 of the Canadian Pacific flag-ship, Empress of Britain.

Captain Robert Gilmour Latta, first Commodore of Canada's big passenger fleet, first commander of the Empire's latest luxury liner, and friend of Princes, Prime Ministers, and thousands of other travellers from all parts of the world, has been retired under the pension plan of the Canadian Pacific after 30 years in passenger service between Canada and the Old Country.

E. W. Beatty K.C., President of the Canadian Pacific, said in announcing his retirement: "His departure from the sea will be a loss that is balanced only by the gain which will accrue to the land in which he takes up his residence. While it is with regret that his friends in the Company say farewell to Commodore Latta, and that his close association with us comes to an end, all, I am sure, join with me in felicitating him upon being still young enough to anticipate

many years of useful service to his community."

At the age of 62 Commodore Latta completes 38 years as a seaman. He started as an apprentice in the sailing ship "Ardencraig" in 1896, and joined the Canadian service eight years later as a Fourth Officer. He was appointed to command in 1923, and became the first Captain of the 42,500 ton Empress of Britain for her maiden voyage in May, 1931, from which date the big liner has not known the hand of any other commander in the course of travelling 320,000 miles.

### V. C. Captain Promoted.

Co-incident with the announcement of Captain Latta's retirement was the appointment of Captain R. N. Stuart, V.C., D.S.O., U.S.N.C., R. D., R.N.R., as the second Commander of the big white liner, and the second Commodore of the Canadian Pacific fleet. Captain Stuart also commenced his association with the sea in a sailing ship, and his appointment at the age of 47 as the youngest Commodore in the Merchant Service culminates 32 years of sea

service which included four and a half years in the navy during the war.

His war service is well known, and as a commander of "Mystery Ships" and Destroyers he was awarded the Victoria Cross, Distinguished Service Order and Bar, and the Navy Cross of the United States. Of him Mr. Beatty said, "Captain Stuart's record for his Country is one of the outstanding war stories of the sea, and his record with the Company is equally brilliant."

"Command of the Empress of Britain with her high speed and almost continuous service, calls for men of very high calibre, and I know that in appointing Captain Stuart to the Empress of Britain, and naming him the second Commodore of the Canadian Pacific fleet, we have chosen a worthy successor to Captain Latta."

The transfer of command took place at Southampton July 7, when Captain Stuart took over his new command, and the genial "Jock" Latta swallowed the anchor.

## Foundry Defeat Warriors and Spooks Mine Girls

Wednesday the 23rd. was unlucky for the Warriors, who stacked up against the Foundry in a B league hoop fixture and were defeated 21-16. Foundry fielded a strong team and played fast ball, while the Warriors seemed unable to get going in anything like their regular style. T. Cloke, in his first appearance at the game this season, played a good game for the Foundry, as also did D. O'Neill and D. Hamilton. The scores: Warriors, Ferguson 4, Dan. McDonald 5, Phillips 4, J. O'Neill, P. Chenoski 1, Thompson 2. Foundry; Cloke 8, D. O'Neill 5, Hamilton 1, Church 2, Deeth 1, Yelland, Parsons 4.

Spooks made a gala night of it in their Ladies' Senior fixture with the Mine Girls, the latter apparently lacking pep and getaway in some departments. In the second stanza however, the hill girls came to life and put some vigor and team work into the tussle. Spooks played a nice passing game and were quick to take advantage of scoring chances. Eve, Morris and McDonald showed up well at the net in spite of close checking. The teams: Mine Girls, H. Calderoni 2, J. Roberts, P. Arscott 3, Y. Cannon, B. Cannon 4, F. Wilkinson. Spooks: K. Eve 6, E. Morris 4, J. McDonald 6, T. Gordon, N. Salmon, N. Wenerstrom 2.

## Trojans Defeat Elks In Fast Game

Although the Elks were leading 12-11 at half time, and made it 18-11 shortly after the beginning of the second half of the game on Wednesday the 23rd. they went down to defeat by 34-24. The Elks put up a sterling battle, breaking up the fast Trojan combination time after time and losing no chances to score, and it was only in the last fifteen minutes that the Trojans uncovered their shooting ability. In

## No Mail On Wednesday From South

Anyox and Alice Arm were without mail on Wednesday last, due to the fact that the steamship Prince George, instead of making the run to Anyox on Wednesday as usual, sailed for Vancouver from Prince Rupert, conveying passengers who had come over Canadian National lines from the interior. These passengers had been unable to reach Vancouver by rail owing to slides and washouts, and were obliged to proceed to Prince Rupert and then south by boat.

Although climatic conditions in the south were almost the same in this district, the results were not nearly so devastating, in fact no damage or inconvenience was caused whatsoever. As in the south, we had a prolonged period of cold weather, followed by a fall of snow, then mild weather and a little rain. We did not experience such a heavy rainfall as the south, where much havoc was wrought.

## I. O. D. E. Will Hold Final Meeting On Monday

The final meeting of the Collison of Kincolith Chapter, I. O. D. E. will be held in the Legion Hall on Monday, February 4th. at 7.30 p.m. All members are urgently requested to be present, as it is expected that this will be the final meeting of this Chapter, and general business and affairs will be terminated.

that time, basket after basket was made with disheartening monotony, and in spite of desperate efforts by the antlered herd, to even up the score. Currie played sterling ball, as also did Steele, whose old time ability came to light in the second half. All the Trojans took a hand in the scoring and all battled well through the whole game. The fans were treated to a brilliant exhibition in a game thoroughly under control at all times. The teams: Elks, Currie 10, Steele 10, Evans 2, Hamilton, Cadillac 2. Trojans: B. Gillies 10, J. Gillies 10, F. Gordon 4, W. Shields 4, H. Dresser 6, F. Dodsworth.

## Pressing For The Alaska Yukon Highway

Survey of a proposed route for an international highway between the United States and Alaska, was proposed in a resolution introduced by Senator McNary, Republican, Oregon, in the Senate at Washington a few days ago.

The resolution would empower the President to negotiate an agreement for the survey with Canada. The route suggested would run through British Columbia and Yukon Territory.

The measure would also appropriate \$2,000,000 to construct the portion of the highway within the Territory of Alaska and \$100,000 for the proposed survey. A similar measure was introduced in the House of Representatives by Delegate Dimond, Democrat, Alaska.

Under the McNary bill the survey would determine the most practical route and the cost of the project. Previously the cost had been estimated at approximately \$13,000,000, including \$2,000,000 for the Alaska portion, which would connect with an existing route at the Yukon-Alaska border.

No money would be authorized for construction work until an agreement had been reached with the Dominion Government.

## Mining Employes 2000 Men In North-Western District

"Activity in all branches of mining has increased during 1934," stated Dr. Joseph T. Mandy, resident mining engineer for the Northwestern Mineral Survey District, in a review of mining developments in 1934, presented to the Prince Rupert Chamber of Commerce last week. "The various phases of the industry in this district are featured by business-like soundness and the absence of boom aspects. Employment has increased and about 2,000 men have been on direct payroll in about 40 separate operations, exclusive of numbers of individual prospectors and smaller outfits scattered throughout the district. Dr. Mandy stated,

"My wife always gets historical when I stay out late at night."

"Hysterical, you mean."

"No, historical. She digs up all my past."

Successful Father—Supposing I should be taken away suddenly, what would become of you?

Son—Oh, I would just be here. The question is, what would become of you?

Burglar (about to give son a thrashing)—Mind you, this is not so much for pinching the jam, but for the careless way you've left your finger prints about.

## Sell It!

If you have anything to sell, try a Classified advertisement in the Herald. Our rates are very moderate.

Someone may need that article you don't require.

A small Ad. may bring lots of \$ \$ \$ \$ \$ \$ \$ \$
