5 cents each.

A. C. L. Discusses Many Business Matters At Meeting

Will Improve Ball Park Walk

At the meeting of the Beach Council of the Anyox Community League held on June 13th. a large amount of business was transacted. Miss Isobel Gillies was appointed ticket seller in the upstairs booth at the picture show.

A community lawn mower is to be provided for the use of members of the League. This desirable machine will be kept at the home of Mr. F. Dresser, to whom application will be made by members for its use.

It was reported that the walk to the Ball Park from the Flats was in poor shape and in need of repair. It will be given attention at once.

It was decided to utilize more space in the weekly house-to-house sheet, "The Notice Board," so as to give more publicity to sports, etc.

It was reported that another volunteer working party had been busy on the softball grounds and were putting them in good shape. The efforts of these volunteer workers were much appreciated.

Millers and X-Rupert Teams Win

Grinders Wern't In Picture

Suffering their first defeat at softball this season, Bonanza were put through the mill by the Millers in a league fixture on Monday evening last. It was one of the fastest and closest games of the season, featured by splendid pitching and fielding on both sides. The final score was 3-2.

The same evening a game was played between Grinders and X-Rupert, but was called in the fifth inning with the score 26 to 1 in favor of the fishing town boys. The game was played in a drizzling rain.

The amounts realized at collections taken at these games are encouraging to the committee.

The Beach Softball League Standings of Teams

	P.	W.	L.	Ave.
Millers	2	2	0	1000
Bonanza	2	2	0	1000
X Rupert	4	3	1	750
Adanacs	4	3	1	750
Roustabouts	3	1	2	333
Foundry	3	1	2	333
Grinders	4	1	3	250
Waterfronts	4	0	0	000

A general view of Alice Arm, showing the Alice Arm Hotel on the hill to the left. This picture was taken before the present roads were surveyed and buildings moved to conform with them. Every summer many Anyox people spend holidays here, and this year the number promises to exceed any previous year.

Conditions On The Golf Course Are Ideal

Total of 42 Take Part In Tournament

Weather that is unfavorable for other outdoor sports is often ideal for golf, as exemplified in the showery cloudy spell just experienced. Conditions on the golf course have been just right, and golfers have taken every advantage of this. On Sunday the 17th. a Mixed Two-ball Foursome Tournament was held, in which 14 ladies and 28 men took part, and although the weather was stormy all entrants played and enjoyed the competition.

Tomorrow (Sunday the 24th.) there will be a men's tournament, match play against par. Details are posted round the plant and it is expected that a large number of members will take part.

A keen battle was witnessed in the final of the Anyox Ladies' Golf Championship, played on Thursday the 14th. between Mrs. Goater and Mrs. Wenerstrom, the latter winning 12-11.

In the First Flight Mrs. Todd won from Mrs. Gorman 6-5, and in the Second Flight Mrs. Peters won from Mrs. Capt. Johnstone 6-5.

Mrs. Goater was the winner of the Hidden Hole tournament played on Wednesday the 13th. Mrs. Cody winning the low medal score.

Herald Is Now Published On Friday

Owing to the change of dates in the mail service between Alice Arm and Anyox during the summer months. The Herald, will, commencing this week be published on Friday instead of Saturday. The newspapers will arrive at Anyox each Friday afternoon at 4 p.m. instead of Saturday morning.

Ray Hardy Returns From Vacation With Bride

No small stir was caused in Anyox on Monday last on the arrival of the Catala, when it was found that Mr. Raymond Willis Hardy, son of Mrs. W. Hardy, had returned with a bride. The marriage took place in Vancouver on June 8th. the bride's maiden name being Miss Norma Coltart, eldest daughter of Mr. and Mrs. W. R. Coltart, of Fairview, Vancouver. Mr. Hardy, who has been a resident of Anyox for several years, received the congratulations of a large number of friends.

Popular Anyox Couple Wed In Vancouver

At eight p.m. on Thursday, June 14th. in the Greek Orthodox Church at Vancouver, the wedding took place of Miss Alice Abramson and Mr. John Lazorek, of Anyox. These young people are well known in Anyox where Mr. Lazorek is popular in sports circles. They are at present spending a holiday with Mrs. D. Lazorek, at 2547 Trinity St. Vancouver, and plan to return to Anyox about the middle of July.

Trout at Alice Arm Are Beginning To Bite

The trout fishing season at Alice Arm has commenced earlier this year than formerly. While no big catches have been made, local anglers have hooked a few good meals. July and August are the best fishing months, and visitors from Anyox delight to fish in the streams adjacent to Alice Arm, and many visit the celebrated Bowman Lakes where good fishing can generally be obtained.

Gingham and Overall Dance Was Success

Many Original Costumes In Evidence

"Whatever is worth doing is worth doing well" is the slogan of the enterprising Mine Branch of the A. C. L., and this applied particularly to the real old fashioned country dance which was held in the Mine Hall on Friday the 15th. The costumes and the whole atmosphere of the old barn spelt "Hick" in caps, and made the function unique and most enjoyable.

Many realistic country dresses and suits were in evidence, and not a few were quite original and smart. Mrs. Ed. Gibb and Mr. Smathers secured the first prize for the most original costumes, Mrs. Harold Black and Mrs. Mills carrying off the second prize as "Two Little Girls in Blue Gingham." Mr. C. Black in a true hick outfit also secured a prize, and for the guessing of the titles of old-time dance numbers played by the orchestra, Miss Frances Wilkinson was the winner.

The Revellers surpassed themselves with the quality of the music rendered. A most enjoyable supper was served and the evening was voted a real success. Congratulations to the energetic committee in charge.

The damp weather of the past week is reminiscent of the summers of 1932 and 1933.

The Anyox Community League have purchased a lawn mower for the use of its members. It will perhaps be used also by members of the Golf Club when the greens need mowing.

Big Celebration On July 2nd. Being Planned By Com. League

Starts at 9:15 a.m. Monday And Finishes -- a.m. Tuesday

Like the celebrations in a big city will be the doings in Anyox on Dominion Day, Monday July 2nd. The vast program prepared by the Beach and Mine Branches of the A. C. L. and which will be carried out according to schedule, and will provide fun and sport for young and old. There won't be a dull moment all day.

The Grand Parade is timed for 9.15, but long before that time the smoke will be rising from countless chimneys while hasty breakfasts are being prepared, and finishing touches will be given to floats and faces. Sharp at 9.30 the parade will advance from the bridge near the public school. This is the great event in which the children delight. Everything on wheels that can be decorated will be seen in that parade. Adults, also, will figure in the colorful ribbon of vehicles etc., as many of them are secretly preparing to spring surprises upon the citizens. From marathon, bicycle, and skipping, races and boxing contests to a grand baseball game, and a Dominion Day Dance in the Gym, the program moves right along.

Alice' Arm Notes

Mrs. D. Cleal and family arrived on Tuesday from Anyox and are spending holidays here.

Mrs. G. Allan, who is spending a vacation here, arrived on Tuesday from Anyox.

Mrs. C. McLachlan arrived on Tuesday from Anyox, and is spending a vacation with Mrs. J. Wier.

Sid. Davis arrived in town on Saturday from Anyox and is spending a week's holiday here.

Mrs. W. B. Bower who left here in April to visit her son at Vancouver and daughter at Kamloops, returned home on Monday.

Rev. W. A. Delap of the Anglican Church Mission launch Northern Cross will hold Evening Service at St. Michael's Church on Sunday evening next at 7.30. Sunday School will be held at 11 a.m.

Mrs. J. McConnachie arrived from Anyox on Tuesday, in order to supervise the examinations of high school and entrance class pupils of the local school.

High school examinations commence today and entrance class on Wednesday next.

Prosperous North Makes Prosperous South

After a lapse of several years the Vancouver Board of Trade visited the northern B. C. coast this month and saw for themselves how the north had weathered the depression, and how optimistic everyone was of the future. They inspected the pulp and paper mills at Ocean Falls, employing approximately 1000 men. They saw the centre of the B. C. fishing industry at Prince Rupert, and sailed on the magnificent harbor. They viewed the mines, smelter, concentrating mill, etc. at Anyox and marvelled at the extent of operations there that employed over 1100 men continually throughout the year, and were surprised to learn that during the past five years when payroll reductions were widespread no curtailment whatever had been made at Anyox. They visited the Premier and other mines at Stewart, and were amazed when told what wealth had been taken from the ground at the Premier. A good many of the visitors realized for the first time how much business Vancouver derives from the northern industries, and there is no doubt that the visitors from the south understand how important a prosperous north is to Vancouver.

It will be noted that all the places mentioned above, with the exception of the Premier, are located on tide-water.

For lack of railways and truck roads the development of the north above Prince Rupert is limited to the coastal area. Perhaps, however, before the next visit of the Vancouver Board of Trade a railway will be built or building from Stewart to the interior, and in addition to coastal industrial centres, the visitors will be able to view interior towns supporting industries equally as large as they saw this month. It is also quite possible that they will be able to step into a train or auto at Alice Arm and speed to the Kitsault River Glacier, for the Kitsault Valley has a vast potential mineral wealth that eventually will be fully developed.

C. N. Railways Revenues Show Increase

The gross revenues of the all inclusive Canadian National Railways System for the week ending May 21st, 1934, were \$3,377,389, as compared with \$2,883,262 for the corresponding period of 1933, an increase of \$494,127.

The Herald is \$2.00 a year.

Real High Grade Ore At Columario Mine Near Usk

Ore to the value of \$800.00 per ton was encountered about the middle of May at the Columario Consolidated Gold Mines Limited at Usk, and there is great rejoicing at head office in Toronto, as well as at the mine at Usk, says the Hazelton Omineca Herald.

Three samples of ore were sent to Toronto on May 30th. where they were assayed. The first sample was from across a four foot vein and it gave a return of 24.24 ozs. of gold and 55.94 ozs. of silver. This was from raise 349.

Another sample from raise No. 3410 gave a return of 1.76 ozs. gold and 1.36 ozs. silver. This was across five feet.

Another great feature of recent discovery is of two veins on Columario claim having the same dip and strike as the other veins, and at approximately an elevation of 1000 feet below the haulage tunnel and between the mine and the mill and thus proving a downward continuation of the veins and ore bodies above.

Consulting Engineer Batten of Vancouver was at the property last week and the new features were most encouraging to him.

About seventy men are employed at the property and all the work is going along in fine shape. Four power drills working two shifts are employed. The tramway, having a capacity of 100 tons per eight hours will be completed before the end of June. The water system to the mine and mine camp has been completed and the electric lighting system installed.

United Empire Mine To Have Longest and Highest Single Span Tramway

The United Empire mine at Stewart will have the longest and highest single span aerial tramway in the world when it is completed. The span will stretch from the upper terminal at the mine and crossing Bear River to the lower terminal and ore bunkers on the Bear River valley road three miles above town.

The span will be 5500 feet in length, the longest span in the world. The Yankee Mine in Utah held this distinction in the past. In addition to its great length, the span will be the highest. It is estimated where crossing Bear River the height will be 1500 feet. Altogether, from a transportation point of view, it will be a novel system.

During the past couple of weeks, no less than half a dozen persons have been adjudged insane in the Peace River Block and ordered sent to mental hospital.

"I know what you are thinking about," he said.

"Well, why don't you?" she whispered. "Nobody's looking."

Stubbles—Do you guarantee this clover seed?

Dealer—Guarantee? I should say we do. If that seed doesn't come up you can bring it back and we'll refund your money.

Where Four Centuries Meet

Uniting the sixteenth and twentieth centuries as typified in the lower left hand and the upper right hand corners of this group, stands the lordly Manoir Richelieu, the fashionable holiday resort at Murray Bay on the north shore of the St. Lawrence and the site of the activities of the "One Hundred Associates" of New France. The Casino, shown at the upper left, designed after the famous Chateau de Ramezay built in Montreal in 1705, now houses one of the most complete sound and talking picture installations on this continent.

Acoustic engineers of the Northern Electric Company have been working for some time with engineers of the Canada Steamship Lines, to effect the necessary treatment for the perfect reproduction of the best products of the moving picture studios, thus affording visitors to the Manoir Richelieu still another addition to the many attractions of this famous pleasure paradise.

Wild Animals Friendly on Banff-Windermere Highway

MAMMA BEAR AND KIDS, LAKE LOUISE

BIGHORN SHEEP STOP CARS NEAR BANFF

BOZO BEAR TRAFFIC COP

CINNAMON BEAR NEAR BANFF

"The Friendly Road," by David Grayson, which is well-known to many lovers of nature, depicts incidents and friendliness of people along country roads and in the rural districts. There is, however, a road in the Canadian Rockies the friendliness of which is not due to mortals as in Grayson's book, but to the friendliness of animals. Animals termed wild, but in this instance a word that cannot be applied to those on the Banff-Windermere Highway. There is possibly no more beautiful road than this which runs from Banff to Lake Windermere, in the Columbia River Valley. The distance of 104 miles is spectacular and the scenes are constantly changing. The views from the high passes looking down into valleys, thousands of feet below, tiny lakes surrounded by al-

pine meadows, rivers crossed and recrossed, and glimpses of cascades tumbling down slopes from dizzy heights are intriguing and beautiful.

To this natural beauty is added that of seeing the animals in their natural haunts. Rocky Mountain sheep are seen on the road along Vermilion Lakes not far from Banff. They are so tame that often motors have to slow down as they will persist, almost to the point of danger, in standing in the middle of the highway.

Bozo, a black bear, is a friend to many motorists on the Banff-Windermere road. He comes out on the highway as if he had sole right to it. He does not resent these invaders in the least and really wishes to

show his friendliness. Sometimes he has lunches handed to him and the remarks of "nice old chap, fine old fellow," please him tremendously, and he will try to come even nearer. Bozo no doubt had many dreams during the winter of summer tourists, and possibly has figured out in true bear fashion just how to get the most out of the tourist season.

Deer are seen, also, on this famous highway, though not as often as other animals. They are regular visitors to Banff, and are frequently seen on the streets of the village. There are hundreds of miles of smooth motor roads through the Canadian Rockies, and devotees of the open road are visiting this region in increasing numbers annually.

Predicts Increased Mineral Production For Present Year

Report of Minister of Mines Optimistic of Future

With the close of 1933, it is quite definite that the mineral industry of the Province has entered upon a period of renewed activity and that the decline of the depression years has given way to a distinct upward trend, says the Summary of the Provincial Report of the Minister of Mines for 1933. The chief cause of this upward trend is the greater production of gold, and the extensive exploration and development work being done in connection with the search for gold mines. It is estimated that a production of lode and placer gold valued at \$6,800,000 is quite likely to come from the mines of the Province in 1934. To this sum an extra \$4,700,000 as "premium" may be received by the producers, making the gross value in Canadian funds, \$11,500,000, an increase of approximately 65.0 per cent. over 1933 production valued in the same way.

Other forms of mining are beginning to show renewed activity, and the stepping-up of production from the Sullivan and the reopening of the Monarch mine will materially increase the outputs of lead and zinc in 1934. Leasers and some companies are devoting attention to silver properties.

The copper industry, which has developed extremely low costs and remarkably efficient mining and metallurgical practice during the lean years, is in an excellent position to take advantage of any slight increase in the market prices received for copper.

Therefore, in view of the above, the mineral production in 1934 should considerably exceed that recorded for 1933. Employment in the mines, smelters, and concentrators, which increased 8.0 per cent. in 1933 as compared with 1932, should continue to increase during 1934. A great deal of indirect employment will also be provided in the industries intimately associated with the mining activity and in the aggregate much new wealth will be produced and a large part of it will be retained and circulated throughout the Province for the purchase of labour, supplies, transportation, and miscellaneous services. In the aggregate, the mining plants and personnel of the industry are efficient and advantage is being quickly taken of the distinct upward trend now apparent in metal prices.

Premier T. D. Pattullo states that there is no likelihood of a session of the Legislature this fall.

Herald Thirteen Years Old This Month

No Growth, But Flourishing

Thirteen years ago this month the first edition of the Herald was published. Since that time, week in, week out, the Herald has given the people of Anyox and Alice Arm the news of the district in a concise and breezy manner. Similiar to all other weekly newspapers, the Herald has experienced its ups and downs, but it has managed to survive. The size of the Herald has not increased during its life of thirteen years, but this is entirely due to the limited amount of local advertising available. We have, to the best of our ability given our readers as much news as is possible and we are gratified to know that our efforts have been appreciated as we still have a number of people on our subscription lists whose names were there in 1921.

No Baseball News This Week

We regret to inform our sports readers that the copy for the report of the baseball games failed to reach us this week. This no doubt was due to the change in the local mail service. Accidents are bound to happen sometimes, as the old adage says, "Even in the best regulated families."

Government Mineral Laboratories Well Equipped

Canada's mineral laboratories, which have been described by the Honourable W. A. Gordon, Minister of Mines, as probably the best equipped on the continent, are proving an important factor in the development of Canada's mineral resources. A recent report for 1932 shows that in that year 64 investigations were reported, which is the greatest number for any one year since laboratory facilities were provided for this type of work. The activities in gold mining are indicated by the fact that just half of the total investigations were related to gold ores.

BIRTH AT ANYOX

Born to Mr. and Mrs. R. Ballentyne, at the Anyox General Hospital, on Saturday, June 16th. a daughter.

If your subscription to The Herald is in arrears will you please make an effort to pay as soon as you can conveniently do so?

Owing to the change in the local mail service this week, which necessitated The Herald being published one day earlier, the amount of local news is not as large as usual, but next week we hope to be at par again.

No Dominion Tax Levied On Placer Gold

No Dominion tax is being levied on placer gold production in British Columbia. This statement is made definitely from authoritative sources. Its purpose is to clear up some misunderstanding apparently in the minds of miners and some of those who have been marketing their gold. Reports have reached the Provincial Mines Department that this misconception of recent Dominion imposts, and their effect on placer gold mining, has let merchants and others who have been buying the precious metal to collect deductions altogether too heavy in light of the facts, in order to adequately protect themselves. The result has been an injustice to the miner and for this reason an official statement has been thought proper.

The charges made in connection with the marketing of gold through the Dominion Assay Office, Vancouver, are set out in a pamphlet issued from the Royal Canadian Mint, Ottawa. This gives details which may be summarized to indicate that charges collected for assaying and refining on ordinary small deposits of the kind submitted by placer miners will not exceed \$3.00. Full premium is added, from which is deducted a handling charge of \$1.00 per fine ounce, which in the case of deposits exceeding 50 oz. fine each, is reduced to 25c. per fine ounce. Settlements are made in full on completion of assays, in the order of receipt; owing, however, to the greatly enhanced price of gold and the consequent increase in the number of deposits being received at the Dominion Assay Office, Vancouver, some delay is occasioned in issuing returns.

"Can you forgive me and love me still?" said the new made bride, when I confess that my teeth are artificial?"

"Thank goodness!" cried the groom as he snatched off his wig, "Now I can cool my head."
