High School Win Both Basketball Games Of Week

Cold weather, night schools, and, no doubt, lack of enthusiasm prevent much progress in the senior basketball division. The Miners declined to make the trip down on Wednesday unless for a strictly league game. Exhibition games have been rather too frequent of late.

A few devoted next-of-kin faced a winter night to see two girls' teams contend. Both Beach and High School had only five players each, but the pace was faster than usual and the points scored reached a record height, the students winning at 12-7. The teams were:

High School: L. Dresser-6, M. Cloke-2, M. Marriot-4, P. Loudon, M. Dresser.

Beach Ladies: Mrs. Harmon-2, Agnes Kruzick, P. O' Neill-2, T. Gordon-3, T. O' Neill.

The High and Ex-High opened the evening with a fair game the former winning at 30-15. Two points for the winners were the gift of Roy Dunwoodie on an unlucky rebound. Eligibility rules will likely affect the future personal of the student's team, and practice will give the Ex-High an even chance. The teams were:

Ex-High: Brown-1, Barclay-2, Gillies-6, Mikele-6, Dunwoodie, Watson, J. Cloke. Total-15.

High: Davis-6, Calderoni-11, Armstrong-6, Hill-7, Dodsworth. Total-30.

Recruits for the season of 1935 were given a chance during the intervals and may be a regular feature hereafter.

Cyril Orme Is Elected Mayor Prince Rupert

Special to The Herald

Cyril Orme was elected mayor of Prince Rupert on Thursday by a majority of 221 over Alderman Prudhomme. Sam Newton, who has been mayor of the town for about seven terms brought up the rear.

Geo. Rudderham, J. H. Pillsbury, James Black and P. F. Pullen were elected aldermen for a two year term. Theo. Collart and P. H. Linzey were elected aldermen for a one year term.

The proposal to dispense with the provincial police and revert to a city police force was defeated by 112 majority. Two money by-laws were passed.

Well Known Brokers Records Being Investigated

The Manitoba municipal and public utility board last week ordered an audit of the records of Solloway-Mills Co., Ltd., and also Stobie, Forlong, and Matthews, Ltd. The officers of each company expressed their willingness to turn their records over to the auditors. "Our object is to satisfy ourselves that things are as they should be," stated W. R. Cottingham, chairman of the utility board.

All provinces in Canada will cooperate in strict control of financial and brokerage firms under a nation-wide scheme now in process of development, it was revealed last week. by Attorney-General R. H. Pooley. Every province, he said, will shortly pass identical legislation enabling their officials to investigate any financial firm and to suspend its operations at any time. Legislation is already drafted for presentation to the British Columbia legislature. It is modelled along lines that are already in effect in Ontario, Saskatchewan and Alberta.

Anglican Ladies Hold An Enjoyable Card Party

The Anglican Parish Hall was the scene last Friday of probably the most enjoyable card party and dance yet arranged there.

Nine tables of players competed at Court Whist, the winners being Mrs. A. M. Morton and Mr. J. Munro, with Mrs. M. Eld and Rev. J. S. Brayfield claiming the consolation awards. After a nice supper Mr. John Gillies at the piano and Mr. C. B. Dennis with his violin provided dance numbers for the rest of the evening.

Owing to Sickness Herald Is Late

Owing to sickness the Herald is two days late this week. Our readers can rest assured that every thing possible was done to get the paper out on time but it was impossible.

CARD OF THANKS

Mr. Richard Deeth and family wish to extend thanks for the sympathy accorded them in their recent bereavement.

The remains of Mrs. R. Deeth who recently died at Anyox were shipped to Vancouver Monday for burial. Mr. R. Deeth and son Arthur accompanied the body south.

ANYOX NOTES

Among the arrivals from Vancouver on Monday were: A. Milne, N. H. Ryan, J. Morrison, J. Cameron, G. H. Chisholme, M. Bilyan.

Mrs. Murphy was an arrival from Vancouver on Monday.

Mrs. Geo. Sellers arrived on Monday to join her husband here.

Mrs. P. MacKaracher was an arrival from the south on Monday and will spend holidays here.

W. Bramley, H. Sanning, D. H. Anderson, E. Smith, A. Knight, T. Higood, G. Young arrived from Prince Rupert on Monday.

Mrs. Podchuck and Mrs. Stone left for Prince Rupert on Monday's boat.

E. McLean and R. L. Fox left Monday for Prince Rupert.

Mrs. H. James and sons left for Vancouver on Monday on receiving the news of the death of her brother.

Mr. and Mrs. Jenson were among the departures for Vancouver on Monday.

E. C. Stone left for Vancouver on Monday's boat.

T. A. Cloke arrived home from the south on Monday.

P. McKenzie arrived from Prince Rupert on Monday.

Mrs. Shea was a south-bound passenger on Wednesday.

R. A. Custer of the Bonanza electrical staff, left for Vancouver on Wednesday, where he will enter the employ of the Boeing Aircraft Company.

J. Warren and Cliff Carlton arrived from the south on Wednesday.

Mrs. Clay arrived from the south on Wednesday.

Mrs. Geo. Bailey arrived home on Wednesday from a visit south.

Mrs. R. A. Cowdell arrived on Wednesday from the south, and is visiting her uncle, Mr. W. F. Aylward.

J. S. McMillan arrived from the south on Wednesday.

Arrivals from the south on Wednesday, included: Mr. Lennington, W. Webber, C. A. Nord.

Alice Arm Notes

T. W. Falconer left on Monday for Vancouver where he will spend holidays with Mrs. Falconer and family.

A. Beaudin left on Monday for Vancouver. He went south in order to receive advice about his eyes.

I. O. D. E. Hold Monthly Meeting

The regular monthly meeting of Collison of Kincolith Chapter I. O. D. E. was held in the United Church basement on Tuesday January 7th.

Mrs. Lang, the Regent conducted the meeting. The meeting was opened with the prayer of the Order.

The minutes of the previous meeting were read and adopted. The reports of the various committees were duly read.

It was suggested that the Annual meeting be held in the evening to give members with families an opportunity to attend This was left for decision at the next meeting.

Mesdames, Roy, McRae and Baillie were selected as scrutineers for the nomination of officers for 1930, Mrs. Roy acting as convener.

Tea was served by Mesdames, J. A. D. Stewart, J. Smith and B. Shelton. The meeting was closed with the National Anthem.

Britannia Co. Proceed With Development

Development at the Toric mine is being pushed ahead by the Britannia Mining and Smelting Co. Good progress is being made with the shaft and raise. An excess of water in the shaft made progress slow for some time, but a new pump has been installed which has speeded up work.

The shaft will be driven a distance of 250 feet. On its completion and also the raise, the Britannia Company will be satisfied regarding extent and richness of the big ore body.

Mr. Clifton Shea of Anyox Weds

On Tuesday evening, Rev. Father Chartiez of the Roman Catholic Church, united in marriage Miss Clare Murphy of White Rock, B. C. and Mr. Clifton Shea of Anyox. The bride was attended by Miss Patricia O'Neill, and the groom was supported by Mr. John O'Neill.

Adcock Wins Billiard Tournament

The finals of the Christmas billiard handicap were played on Tuesday evening. Adcock, (plus 25) meeting Ballentine (minus 25) The former ran out at 250 to 166.

Birth At Alice Arm

A baby boy was born to Mr. and Mrs. W. M. Stephen at Alice Arm on Tuesday, January 14th.

The Vancouver Stock Exchange Big Provincial Asset

A babel of shouting voices—scurrying messengers—slips of paper passed from hand to hand—figures chalked rapidly on a great green board—millions of dollars changing hands. Such is the outwardly confused picture of one of the most perfect functioning business machines in the world—the stock exchange.

In the perfection of this smoothly operating system, has gone more than 150 years of experience—improvement born in the throes of tremendous trading—volume of business transacted which would leave in a befuddled daze, the old-fashioned leisurely broker of the English coffee house days.

Colorful History

The first stock exchange was founded in London in 1773, a century and half ago. Previous to this brokers held casual meetings in some nearby coffee house. They dealt principally in government securities.

The exchange grew rapidly. It established affiliations with the Dutch and soon assumed international importance. As volume of business grew, changes were imperative to keep pace with speeding business. Plans were tried and rejected. Other systems submitted which proved a success. The telegraph and telephone gave wings to commerce. Improved cable service speeded international trading. The ticker flashed market quotations to distant points. The London stock exchange became the focal point of international commerce. Today it deals in securities of companies in every part of the globe. The pressure of such a tremendous volume of business could only result in the evolution of an almost perfect system.

When the Vancouver stock exchange was formed in 1907, under Provincial Government charter, it started with the full advantage of those years of experience in older exchanges. There were but twelve seats. Its growth was rapid. Today it has assumed, with other great public institutions, a vital place in the commerce of Western Canada. Witness its phenominal growth. Volume of business in 1925 was $890,304.75; in 1928, $36,580,967.50, and in 1929 it was $129,748,630.16.

Continued on Page 2

The January meeting of the P. T. A. will be held on Monday evening in the United Church Hall. Among the business to come before the meeting are some proposed changes in the constitution. There will be music and refreshments. All adults who are interested in education are invited.

The Vancouver Stock Exchange Big Provincial Asset

Continued from page 1

Simple in Principal

While the ramifications of stock exchange trading are intricate and far-reaching, the basis of its operation is simple The stock exchange is a market place for the buying and selling of stocks. The client places his selling order for stock with his broker. This order is transported to the "floor" of the exchange, where it is offered for sale by the broker's representative, Should another broker hold a buying order for this stock at market, the sale is completed and recorded by the exchange. The price paid for the stock is immediately chalked up on the board and broadcast by telephone and ticker. This becomes the official quotation for this particular stock.

The prices of stock are governed by supply and demand. Buying and selling orders set the price. The investing public controls the price. When buying orders pour in and selling orders are few, prices rise. The price quotation for a stock is no more or less than what the public wills.

As an institution, the Vancouver stock exchange owns no stock in any company, sponsors no stock flotation, favors no broker, expresses no opinion about individual stocks. It accepts no responsibility for the rise and fall of prices . . . it does seek to prevent price manipulation unfair to the investors. It maintains rigid rules governing its members.

Exchange Brings Capital

When an investor buys stock, his act converts capital into mining, oil and industrial enterprises. His purchase is not merely a stock certificate. This investment stands for machinery and equipment, sinking of shafts, building of roads and camps, busy smelters, factories, payrolls. The result of such activity is the development of natural resources, the creation of new wealth with consequent stimulation to trade and the establishment of thriving wholesale houses, retail stores, farms, prosperous workmen.

The mining industry alone has invested capital in this province of $120,000,000; it spends vast sums on fuel, equipment and provisions; pays annually in wages $30,000,000, and employs 18,000 workmen. According to Bulletin No. 2, issued by the Provincial Department of Mines, the gross mineral production of British Columbia during the past year created a new high record being estimated at $70,030,976, an increase over the previous year of $4,658,393. Copper production exceeded 100,000,000 pounds, a record. Structural materials output is estimated at $3,800,000, an increase of 14 per cent as compared with 1928.

A Public Institution

The stock exchange plays an important part in diverting the flood tide of capital to British Columbia enterprises. Through its members, the facts of investment opportunities in B. C. are known throughout the world. The stock exchange makes an investment in stock a liquid asset. Stock has a marketibility impossible without an exchange.

Every stock listed on the exchange is scrutinized as to proper capitalization, reputation of the directors of the company and soundness of the enterprise. Each stock is subject to removal from the listings, should such action best serve investors.

This great public institution plays an important part in creating public confidence, in safeguarding the investor, in speeding up and improving the trading in stocks. It is an instrument controlled by the public and for the public good. It is a powerful force in increasing British Columbia's prosperity.

Government May Broadcast By Radio

National Radio Broadcasting has been recommended in Canada and if the Dominion should adopt it, one of the courses it will likely give will be that of agricultural and home economics. Canada is a farming country and it is essential that the farmers and homemakers receive a program. It is probable this program would be prepared by the Department of Agriculture and would be correlated so as to give farmers in each district technical and economic information which is locally adapted to their particular needs.

Excursion Fares Canadian National Steamships

Effective December 25th, a substantial reduction will be made in round trip fares from Anyox to Prince Rupert, Vancouver and Victoria. Fare Anyox to Prince Rupert return will be $13.35; Anyox, to Vancouver or Victoria and return $53.35. Tickets will be on sale up to February 28, 1930 with final return limit March 31, 1930. Purchase tickets from Purser on steamer.

British Columbia

Department of Mines

British Columbia, the Mineral Province of Canada, has produced approximately $1,184,200,000.00 worth of mineral products.

Mineral Production year 1928 .....$65,372,583.00

Estimated Production year 1929.....$70,030,976.00

The Preliminary Review and Summary of Mining Operations for the Year 1929

Now is available, and may be obtained, together with copies of the Annual Reports, Bulletins, etc., upon application to

THE HON. THE MINISTER OF MINES, VICTORIA, B. C.

A POWERFUL AID *to* PAYROLL BUILDING

THE Vancouver Stock Exchange is the machinery which converts capital into mining, oil and industrial enterprises employing Western Canada labor. When investors buy listed stocks, their purchases represent machinery, shafts, roads and camps, smelters, factories, payrolls. The result of such activity is the development of natural resources, the creation of new wealth, thriving wholesale houses, retail stores, farms, prosperous workmen.

The mining industry in this province alone pays annually in wages 30,000,000 and employs 18,000 workmen.

What part does the Vancouver Stock Exchange play in this activity, this enlarging of our payrolls?

The Exchange provides a ready market for securities of value. This encourages the investor to participate in those meritorious enterprises that have contributed to the development of British Columbia, her industries and payrolls.

If no such market were available, investors would be reluctant to place funds in securities which would remain "frozen." The activity of this market represents the public's desire to buy and sell securities and keeps every investor posted as to the cash value of his holdings and the success of the industries those holdings represent.

The Stock Exchange requires that every stock listed on the Exchange be scrutinized as to capitalization, directors, soundness of the enterprise.

Through members of the Exchange, British Columbia's investment opportunities are advertised, world-wide interest of capital aroused.

The Vancouver Stock Exchange thus plays its part in creating confidence and in diverting capital to British Columbia enterprises. The Exchange is a powerful force in increasing your prosperity, in building payrolls.

V.S.E. 3-2-30

This advertisement is published by Members of the Vancouver Stock Exchange in order to disseminate information concerning the functions of a Stock Exchange and the Business of Buying and Selling Securities.

DILIGENTIA CANDORE

White Civilization Kills Off Eskimos

The Department of Interior, alarmed by reports from agents in the Arctic and sub-Arctic, is studying ways and means of circumventing the threatened extinction of the Esquimo in Canada.

Six thousand Esquimo residents of Canada live along the northern coast line of the Dominion of Canada, and according to information reaching the capital, the northward march of civilization imperils their existence. The problem is difficult of solution for many ailments, considered trivial among white people, prove fatal to the Arctic native.

He turns, says a statement issued by the Department, the advantage of trade with the white people into an agency for his own destruction. Despite his kindly disposition and good-heartedness he is a great killer. With his newly acquired rifle he shoots all the game he can find and ultimately will transform a naturally bountiful country into a land of hunger.

The Esquimo is a practical as well as colourful asset to the Dominion. Stretched along the northern coast line he is increasingly impotrant as the guide and agent of the white man in an area where the white man cannot long exist on his own resources. But civilization, it is said, does one of three things to the Esquimo; it absorbs him, kills him, or drives him farther into the North.

The Home Oil Company, brought into production through the expenditure of Vancouver business men, paid its 4th dividend of 20 cents per share to shareholders of record December 31st, payable January 20th, 1930.

"Was Harold's wedding a swell affair?"

"Positively. They even used puffed rice."

Canadian Candy Bill Is Enormous

The aunual candy bill of the Dominion of Canada as issued by the Department of Commerce represents a large outlay of money for confectionery sugar products. For candy, confectionery and chewing gum the amount spent in the last year amounted to $53,128,000 and this amount is nearly the average of the past eight years. Candy and confectionery include biscuits, chocolate cocoa, ice cream, pop corn, and sugar products.

There were 12,486 employees of these manufactures and the amount spent in the wages was seven and a half million dollars. The capital invested is $50,000,000.

"Wall Street has no heart!" exclaimed the broker.

"Oh yes it has," replied his wife. "I was just reading that bonds dropped in sympathy with stocks."

New Mining Companies Are Incorporated

Incorporations last week include that of the Taku Mines Co. Ltd., with capitalization of $5,000,000 and head office in Vancouver which will operate mining properties in Taku camp and elsewhere in the province.

The Babine Silver King Mining Co., Ltd., with head office in Vancouver, was also incorporated with capitalization of three million shares at no par value.

"I hate those impromptu complexions, don't you?"

"What do you mean?"

"Those who make up as they go along."

ADVERTISE IN THE HERALD

Canadian Mineral Production Mounting Every Year

Total metal production of Canada for 1929 will amount to over $161,000,000 according to a compilation of government reports and production records available, made by the Financial News Bureau. The year 1930 will witness another large increase. The above figures take into consideration only the provinces of Ontario, British Columbia and Quebec. At present production in Canada other than in these provinces is negligible, although the Maritimes and other parts of the Dominion will, in the near future, enter the arena as mineral producing areas. These figures do not include production of such non-metallic minerals as coal, asbestos and oil building materials, etc., but refer to gold, silver and other precious metals, cobalt, copper, lead, zinc and nickel. Metal production in 1928 aggregated $128,500,000 and output of all minerals was $274,000,000.

Employment in Canada during 1929 reached a new record, the Dominion Bureau of Statistics announced in a report which listed 6700 firms employing a monthly average of 1,020,635 persons.

There were twenty thousand more employed in the Dominion on December 1 than at the corresponding date in 1928

Life can not become entirely conventional while there are country editors. Said the editor of the Timmins (Ont.) Advance in a recent issue: "The Northern Tribune of Kapuskasing started out as a very bright little paper. Recently it seems to have become red hot. It appears as if it may go to blazes."
