Outsider Property to be Developed

The Outsider property, which is situated on the Portland Canal will be developed during the year by the Granby Company, said Mr. H. S. Munroe, in an interview with the Herald during the week.

Mr. Munroe said that the property is looking good and that 50 or 60 men would be working there in about another month, and that most of these would be working underground. At present about 25 men are employed. The pile-driving crew is already on the job and preparations are being made for the building of the new wharf. The slashing of the right-of-way for the aerial tram from mine to wharf has been completed, and a contract has been let to the Riblet Co. of Spokane, to build the tram line. The Riblet Co. built the long tram at the Premier Mine at Stewart. The tramline at the Outsider will be about 6000 feet in length, and work will be commenced as soon as equipment can be assembled on the ground. A Rogers' compressor will be installed, and also a water driven 100 k. w. generator for the purpose of generating electric power for the motors.

Mr. Palmer J. Cook, formerly of the Midas Mine at Valdez, Alaska, a property operated by the Granby Co, will be in charge of operations.

The Outsider is the oldest shipping property on the north coast and was operated by the Brown-Alaska Company in 1906, who shipped several thousand tons of ore to Hedley smelter, in Alaska. The ore is pyritized quartz which runs high in silica and which is needed by the Granby Co. for mixing with the Hidden Creek ores for fluxing purposes at the smelter.

Dance at Alice Arm Coliseum

A dance was held on Friday May 11th. at the Alice Arm Coliseum, to celebrate the opening of the Hall for the summer. A good number of people were present and a very enjoyable evening was spent. The proprietors, Messrs. W. McDonald and V. Johnson were the hosts A first class supper was served, of which there were lots of good things to eat, and lots to spare. Dancing was carried on until the early hours of the morning, and everyone voted the opening dance of the Coliseum a great success.

Ore Shipped Last Year by the Esperanza

The Esperanza Mine shipped last year, 231 tons of ore, from which the following values were obtained. Gold 22 ozs; silver 12, 128 ozs; copper 404 pounds; lead 1285 pounds. It is expected, however that this year's shipments will exceed last year both as regards tonnage and value of ore.

Weekly Meeting of Anyox Community League Council

The regular weekly meeting of the Community League Council was held in the Recreation Hall on Friday, May 10th. Present: President Lewis, Vice-President Callanan, Secretary-Treasurer Townshend, Councillors Mrs. Dwyer Mrs. Cloke, Dr. Harper and Mr. Simpson.

The minutes of the preceding meeting were read and approved on motion of Dr. Harper, seconded by Mr. Callanan. The Secretary's report stated that Mr. Moss of Alice Arm, would print the sport schedule for the privilege of advertising on the back of the schedule. Mr. Jack Smith had promised to make estimate of ventilator installation in the Recreation Hall, and Mr. Geary had been along the same lines. An invitation had been received from Stewart requesting the League to send baseball and football teams to Stewart for the 24th. of May. New football nets have been ordered from Vancouver.

The matter of supplying lemons, etc. to the football players was discussed, the final decision being to leave the matter to the Finance Committee. In connection with the ventilation of the picture show, Mr. Geary had given the Secretary an approximate estimate of the cost of installation of 24in. fan with the motor. Mr. Selfe also had some figures, and had made some investigations. The Council decided to wire the Canadian Westinghouse Company, Vancouver for prices on two fans, one twenty-six and three quarters inches, the other thirty-two inches.

In connection with the dance advertised by the Elks in the Recrecreation Hall for the night of the 23rd. of May, Mr. Townshend stated that he had been requested to take the matter of changing the show date from Tuesday to Monday, up with the Council, so that there would be a chance to put up the decorations. The Council did not see their way clear to do this, and thought that these decorations might be done on Monday night.

Mr. Callanan mentioned the matter of fixing the footpath across the creek on the trestle carrying the pipe-line. A great many sport fans used this way to the ball grounds, and if this wasn't in repair they wouldn't attend. The Council decided that as the Company had no objection to the people going this way, that the League should undergo the expense of repairing it.

Mr. Simpson told of what excellent prospects there were for first class football during the present season, and asked that first aid outfit be always on ground. The Secretary replied that the groundsman had been instructed to have bandages, etc., always on the ground.

A report from Mr. Bardwell, who audited the books of the Community

Prosperous Times for Alice Arm Camp

All signs point to a busy season for Alice Arm this summer. The logging camps are commencing to open up, and considerable more men will be required for this industry, as the scope of operations are widened, which will now be only a matter of a few days.

While no big mining operations have yet commenced it is highly probably that next month will see several companies undertaking development work. While no word has yet been received regarding the plans of the Dolly Varden Properties Ltd. it is expected that company which was recently formed, will operate the property this year. Other mining companies are becoming interested in the camp, and this year should witness a renewal of mining activity of considerable proportions.

A new bridge across the Kitsault River will be built this year by the Provincial government, which will employ a big crew of men for some months. Anyox trippers will visit Alice Arm this year in increasing numbers, now that our wonderful climate, scenery, fishing etc. are better known. So that taking all these things into consideration Alice Arm will be, this summer, a live and prosperous town.

ALICE ARM NOTES

Mr. Sid. Davis, the Anyox photographer, arrived on Thursday on a short visit.

Hand Laundry Work. Moderate Prices.—Miss B. Crawford, Alice Arm.

Howard McInnis arrived from Anyox on Tuesday, and will operate the donkey engine at the logging camp of Mr. J. Wheatley this summer.

See Al. Falconer for Freight and Pack Horses.

Mr. J. Wheatley expects to be ready to pull logs at the camp next week. Falling of timber has been going on for some time, this work being done by contract by J. Sexton and J. Gray. The new building to be used as living quarters for the men is now finished, and logging operations will soon be in full swing.

Fred Miller is getting out a number of timbers about three miles down the inlet. These timbers will be used by the Granby Co. at Anyox for trestle work. Timber falling is steadily proceeding at the Quartz Quarry and the pulling of logs will shortly commence.

Carney & Co. are making a good showing at the hand logging camp at Way Point. A six ton hand winch will shortly be installed for pulling logs.

A. Davidson and C. Gustaffson arrived down from the Wild Cat property during the week, where they have been driving a prospecting tunnel. Chas Gustaffson will remain down for a few weeks.

Mr. Henderson who arrived last week from Vancouver, left during the week to work on his claims up the Kitsault Valley.

Mr. Julius Wilson, an old-timer of the camp arrived in town on Thursday.

Mr. A. McGuire is busy painting his new residence, which adds considerable beauty to the building.

See Al. Falconer for Wood or Coal

Mrs. E. M. McCoy appeared before stipendary magistrate J. Conway on Tuesday evening on a charge of selling liquor in contravention of the Liquor Act. Accused was remanded for eight days and granted bail of $3,000 which was forthcoming. She was requested to appear at Anyox on Thursday, and was remanded for a further eight days on bail of $3,000,

Owen Loftus and Mr. Wallace arrived from Anyox on Tuesday. and work is again proceeding on the Esperanza high grade.

The Lone Maid property is, according to latest reports, looking very good. The tunnel is being driven on a white quartz vein which carries good silver values, and the owners are very optimistic regarding the future of the property.

We were always under the impression that the special men employed by the Liquor board, to enforce the law, were a swift bunch, who blew into a town, and nabbed all the males and females who were selling liquor and then blew out like a young cyclone before any harm came to them. But since we have had a close-up view of their work our opinion has somewhat changed. It took them ten days in Alice Arm in order to get enough evidence to convict one house, and this house, by the way, is the only hotel in the town. If the Alice Arm Hotel is closed for the next six months, and there is a possibility of this being done, a great hardship will be worked upon the town. We are now at the commencement of a busy summer and travellers arriving will have no place to stop. Anyox trippers will be barred from staying overnight in our town, and the negotiations now being made by the Anyox Community League for the use of the building for camping purposes will fall through. If this is the kind of work these special law enforcers pull off, no wonder they are treated with contempt by their fellow men.

Last week we published a statement that Mr. E. P. Matheson, formerly of the Anaconda Copper Co. had accepted an appointment as consulting engineer on the staff of the Granby Co. Since our last issue we have learned that Mr. Matheson is not on the staff of the Granby Co.

ANYOX NOTES

Union Church Services, Sunday, May 20. Sunday School 11 a.m. Evening Worship, 7.45 p.m. We extend a welcome to you.

Ralph Ingraham, who has been in the Hospital for the past two weeks with stomach trouble is coming along nicely and hopes to be around again shortly.

Fred Holland and Wm. Brown were each fined $50.00 and costs or in default, 30 days hard labor before stipendary magistrate J. Conway, for being drunk in a public place. Prisoners were sent to Prince Rupert to serve time.

Geo. Graham appeared before stipendary magistrate J. Conway last week on a charge of theft. Fined $25.00 and $2.00 costs.

Mr. John Swanson, who is foreman at the Mine, left on Monday for a month's visit to Norway.

Jack McLeod left on Monday for Prince Rupert and Stewart.

Anyox is assuming quite a fresh appearance in a new spring coat of paint. A host of painters are now busy in the store district at the south end of the town. The Hospital and General Offices are now finished.

The ladies of the Catholic Church held a very enjoyable whist drive and dance, in the Catholic Hall, on Friday evening, May 11th.

The prize winners at the whist drive were; Mrs. F. D. Rice, and Mr. Chas. Bright.

A dainty supper was served after the cards, including ice cream, which was greatly enjoyed by everyone. The latter hours of the evening were devoted to dancing. The ladies of the committee who deserve credit for such an enjoyable affair are, Mesdames Harrington, Dillon, O'Neill, Phippen, Stivenard and Loftus.

Mr. E. Cameron and daughter, Mrs. E. Morning returned from a visit to Vancouver on Thursday.

Mr. J. B. Williams, who left Alice Arm three years ago for Europe, returned on Thursday.

Messrs, J. S. Jones and A. McDonald returned on Thursday, from a two week's trip to Vancouver.

Mr. and Mrs. L. R. Clapp and family were south bound passengers on Thursday for Vancouver. Mr. Clapp in visiting Vancouver on business.

Mr. D. L. Pitt, general manager of the Premier Mine, was a visitor to Anyox on Thursday.

Mrs. P. Whelan returned on Thursday, from Menomonie, Minnesota.

Miss Teddy Haslett arrived home on Thursday, from Vancouver, where she has been attending the B. C. university.

A few weeks ago two stool pigeons of the government liquor board arrived in Alice Arm, and registered at the leading hostelry. They stayed around for ten days, having a whale of a time, and gave it out that they were waiting for the new dam at Anyox to commence operations. After their departure they laid information against three members of the hotel staff, and convictions have followed. Any man who for a monetary consideration will endeavour to make his fellow men break the laws for the purpose of informing on them is deserving of all the contemptable things one can say against him. The fact that these creatures are touring the province at the public expense, which must be considerable---if their visit to Alice Arm can be taken as a sample---is a public disgrace. If the law cannot be enforced without using such despicable men and means to enforce it, we surely must be degenerating instead of advancing. Prevention is better than cure, and if the law had been strictly enforced when government control was first instituted, the inexcusable low-down methods of obtaining convictions would not exist.

Hon. E. D. Barrow, minister of agriculture, reports that the total number of cattle in British Columbia at December 31st. last was 105,070 but there were not sufficient cows to supply all the milk consumed in the province. Every encouragement is being given the industry by the minister and his officials and a marked increase in the number of cattle is looked for this year.

The provincial forest branch reports the revenue from the sale of timber, timber licences, timber leases and scale and royality for April amounted to $225,776, as against $145,000 for the same month last year. Hon. T. D. Patullo reports the timber business in a flourishing condition and predicts a banner year for 1923.

Victoria May 14th.—Hon. Dr. Sutherland, minister of public works, will leave Victoria in two weeks for an inspection of the highways of British Columbia, having in mind particularly the planning of $200,000 worth of settlers' roads. The minister favors the plan of encouraging settlement through the provision of adequate transportation facilities and many short roads to serve the newer districts will be constructed.

Matters of interest and representations from sportsmen and trappers from all over B. C. are before the Game Board, which will, in due course, present a report and recommendations before the Attorney-General.

Anyox Baseball Season Opens

The Anyox Senior Baseball League opened on Monday evening in the presence of some 500 spectators. The contesting teams being the Mine and Smelter. The Smelter were the first team to bat.

The President of the Baseball League, Dr. D. R. Learoyd, being a medical man, performed the operation of opening the season. The Doctor did not consider a serious operation necessary as baseball had only been suffering from inerta since last season, which was quickly relieved by the administration of a pill. The first ball over the plate. Mathewson, the first man to bat knew that the Doctor would only ask him to take what was good for him. It was a strike, and Matheson met it on the nose, making first base. The Doctor then turned over the pitching to Jimmy Ferguson, D. Greenwell being behind the bat for the Mine.

Curly McRowen was the Smelter second man to bat, and Brown followed with a bunt, bringing Matheson home. Cole hit next, McRowen home; Sinclair hits Brown home, the Smelter tallying three runs in the first innings, these being all they made during the game.

The Mine went to bat, Curly McRowen pitching and his brother Charlie catching. Mealy led off for the Mine, making 1st. Greenwell with a two bagger assisted by wild throw to the catcher brought Mealy home, tallying the only run for the Mine during the game.

The pitchers both seemed to be in good form, holding the batters down that only ciphers appeared on the score board after the 1st. inning.

The teams were:

Mine		Smelter
J. Ferguson	P.	McRowen
D. Greenwell	C.	Chas. McRowen
C. Olsen	1st. B.	Sinclair
C. Ferguson	2nd. B.	S. McRowen
Kornichenko	3rd. B.	Matheson
Mealy	S. S.	Brown
Stewart	R. F.	Cole
Halverson	C. F.	Sherman
Anderson	L. F.	Roberton

Cheshire replaced Sherman last inning
Umpire No. 1, W. Olsen.
Base Umpire, J. Stevens.

The whole question of the fisheries may be opened up between the United States and Canada. The matter is of great importance to Prince Rupert and elesewhere on the coast of B. C.

Dr. W. T. McDonald, provincial livestock commisioner, is inspecting dairy herds in the Fraser Valley. He says there is not enough milk to supply the needs of B. C., and it is probable that steps will be taken to encourage dairying.

B. C.'s mining production during the past year is estimated at more than thirty-five millions.

Vancouver, B. C.

Special to the Herald

Copper

Most producers are holding at 16 7-8 cents a pound delivered but one important producer is quoting 16 3-4 cents and others would be willing to sell moderately at that price. Second hands have besn cutting price somewhat and have sold at prices equivalent to slightly under 16 5-8 cents delivered Connecticut valley point. Actual sales have been made at 16 3-8 cents refinery in last two days, while copper has been bought aside ship at 16 1-2 cents and slightly under.

All this second-hand offering is of little importance and is due mainly to the small amount of copper that each month gets into the hands of speculative interests upon which they must either make payment by end of this month, or specify destination by tenth of next month. Total amount of under-market offering is probably not much more than 2,000,000 pounds as a liberal estimate. Largest individual secoud-hand sale this week has been 350,000 pounds, and most sales that are being talked about so much are in a carload lots of around 25 to 30 tons or 50,000 to 60,000 pounds.

Boston—Lever Bros. Co. earned in 1922 after charges £4,625,000 which at exchange rate of $4.65 means $21,500,000. Share capital being $235,000,000, earnings figures something more than 90 per cent. on stock, Inventory item dropped from $16,800,000 to $13,200,000 while notes and accounts payable were reduced from $22,000,000 to $4,000,000 largely made by sale of $4,000,000 of additional debentures.

Montreal—Annual report of Price Bros. & Co. for year ended February 28th. last, shows gross profit of $2,338,933, compared with $1,327,332 in previous year. After interest and special depreciation of $700,095, there remains available for dividends $1,217,862.

Anyox Mine Baseball

On Sunday, teams representing underground and surface workers at the Mine played a baseball game, just to settle an argument, and although the surface men came off victors, the undergrounds are not satisfied to accept the decision, so they will have their revenge at a later date.

The game was fast and furious at times, the surface winning by 7 runs to the underground's 5.

The undergrounds excused themselves by the fact that the surface men are more used to daylight.

The teams were:

Surface		Underground
E. Swanson	P.	E. Wall
D. Deane	C.	A. Ployart
W. Olsen	1st. B	Lipsky
O. Lee	2nd. B.	Anderson
D. Stubbs	S. S.	Wilson
Ted Swanson	3rd. B.	Spears
D. Manning	R. F.	Kemp
Dr. Zeigler	C. F.	Lane
T. Mahon	L. F.	Valpy

Umpire—C. Olsen.
Bases—McMillan.

B. C. will have the opportunity of tendering for 3,000,000 feet of lumber for a San Francisco firm of brokers who want it for delivery in the Hawaiian Islands. Owing to the high price in the United States attention is being attracted to the Canadian lumber market.

A bill to limit the importation of liquor into the wet provinces of B. C. and Quebec passed its third in the House of Commons this week. Sir Lomer Gouin who introduced the bill said it was aimed to prevent bootlegging by prohibiting the importation of Liquor by private persons. Hon. Mr. Manson, Attorney-general, B. C. has declarnd that the Senate alone was responsible for border liquor running out of B. C. because it failed to give the province the power to prohibit as well as regnlate the liquor traffic.

Clay from Port Hanley will be used in the new pottery established by C. E. Joseleyn in Vancouver.

Mining News of the Stewart Camp

The new tunnel to be driven at the Premier mine, will be 8 by 9 feet and will give a depth of 500 feet below the present deepest workings. The tunnel will be 2400 feet in length. It is unofficially stated that a second mill will be built somewhere near the portal of the tunnel. A new bunkhouse containing over 100 rooms has been started at Camp 4. An assembly hall and tennis court will also be built. The concentrating mill at the mine is now treating 150 tons of ore per day.

The Stewart Consolidated Gold Mines, Ltd. has been organized with a capitalization of $3,000,000. Sixty mineral claims situated in the Bear river valley are under the control of the company, and present plans call for the expenditure this season of $100,000 for development work.

The Silver Bell property which joins the Silverado, will be developed this year by Mr. Riebe, consulting engineer of the Silver Bell Company.

The Bromide property will be developed by the Cronholm-Bartholf Mines Ltd. who expect to spend $30,000 on the property.

Through the instrumentality of Premier Oliver the custom of the Federal Government to charge duty on Canadian goods manufactured in Canada but shipped to other points in the Dominion through foreign territory has been discontinued. Premier McKenzie King was telegraphed by Premier Oliver to this effect recently.

SYNOPSIS OF LAND ACT AMENDMENTS

Minimum price of first-class land reduced to $5 an acre; second-class to $2.50 an acre.

Pre-emption now confined to surveyed lands only.

Records will be granted covering only land suitable for agricultural purposes and which is non-timber land.

Partnership pre-emptions abolished, but parties of not more than four may arrange for adjacent pre-emptions with joint residence, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and make improvements to value of $10 per acre, including clearing and cultivation of at least 5 acres, before receiving Crown Grant.

Where pre-emptor in occupation not less than 3 years, and has made proportionate improvements, he may, because of ill-health, or other cause, be granted intermediate certificate of improvement and transfer his claim.

Records without permanent residence may be issued, provided applicant makes improvements to extent of $360 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained in less than 5 years, and improvements of $10.00 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years are required.

Pre-emptor holding Crown Grant may record another pre-emption, if he requires land in conjunction with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, title to be obtained after fulfilling residential and improvement conditions.

For grazing and industrial purposes areas exceeding 640 acres may be leased by one person or company.

Mill, factory or industrial sites on timber land not exceeding 40 acres may be purchased; conditions include payment of stumpage.

Natural hay meadows inaccessible by existing roads may be purchased conditional upon construction of a road to them. Rebate of one-half of cost of road, not exceeding half of purchase price, is made.

PRE-EMPTORS' FREE GRANTS ACT.

The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under the Act is extended from for one year from the death of such person, as formerly, until one year after the conclusion of the great war. This privilege is also made retrocative.

No fees relating to pre-emptions are due or payable by soldiers on pre-emptions recorded after June 26, 1918. Taxes are remitted for five years.

Provision for return of moneys accrued, due and been paid since August 4, 1914, on account of payments, fees or taxes on soldiers' pre-emptions.

Interest on agreements to purchase town or city lots held by members of Allied Forces, or dependents, acquired direct or indirect, remitted from enlistment to March 31, 1920.

SUB-PURCHASERS OF CROWN LANDS

Provision made for issuance of Crown grants to sub-purchasers of Crown Lands, acquiring rights from purchasers who failed to complete purchase, involving forfeiture, on fulfillment of conditions of purchase, interest and taxes. Where sub-purchasers do not claim whole of original parcel, purchase price due and taxes may be distributed proportionately over whole area. Applications must be made by May 1, 1920.

GRAZING

Grazing Act, 1919, for systematic development of livestock industry provides for grazing districts and range administration under Commissioner. Annual grazing permits issued based on numbers ranged; priority for established owners. Stock-owners may form Associations for range management. Free, or partially free, permits for settlers, campers or travellers, up to ten head.

Anyox Notes

Continued from page 1.

Mr. and Mrs. C. Hauge and family returned home on Monday from a visit to Vancouver.

Mr. Fred Hatch, who left here two years ago for Peru, South America, returned last week. While in Peru he worked as a pipe-fitter at a mine 15,000 feet above sea level.

Bishop E. M. Bunoz, returned to Prince Rupert on Thursday, after spending a week at Anyox and Alice Arm. The Bishop conducted morning and evening Mass at the Catholic Church on Sunday, when large congregations were present.

Mr. W. D. Jenkins who has been visiting friends here for the past week left on Thursday, for Vancouver. Mr. Jenkins was formerly safety-first engineer for the Granby Co. and under his supervision this department was brought to a high stage of efficiency. The number of accidents being reduced from over 200 to 45 a year.

Mike Dumbovich was admitted to the Hospital during the week, suffering from a fractured shoulder and collar bone, received by falling from a scoffold at the New Dam.

An All Star baseball and football team will leave here on the evening of the 23rd. for Stewart. The manager of the baseball team will be Fred Brown.

Geo. Graham and F. Garnham appeared before stipendary magistrate J. Conway yesterday, on a charge of selling liquor at the Alice Arm Hotel, in contravention of the Liquor Act. W. O. Fulton, of Prince Rupert was the prosecuting attorney. Each man was found guilty and sentenced to serve six months in Okalla prison. F. Lew Lun was also sentenced to serve six monts for selling liquor.

Anyox Community League Meeting

Continued from page 1.

League for the three months period ending March 31st., was read. Mr. Bardwell had found everything in order, but made several recommendations. He suggested that a physical inventory of all the League's equipment be made, and set out under proper headings, and the Council so agreed. The matter of building costs, etc., was left to the Finance Committee to dispose of. Mr. Bardwell suggested also that a different arrangement for the handling of petty cash should be instituted in the form of an impress cash account.

The Chairman thanked Mr Bardwell for his report and the suggestions accompanying the same, which the Council made unanimous.

Mr. Callanan brought up the matter of the summer camp, the Secretary replying that he had no further information on the matter at present.

It was decided to switch the meeting night from Friday to Wednesday the next meeting to be held on Wednesday, May 16th.

A Good Time for everyone

Annual Report of Minister of Mines

The Annual Report of the Minister of Mines, which has been recently published, is, as usual a comprehensive record of the mining industry of the province for the year 1922. The report in 374 pages, gives complete statistics of mining in all its phases, and a perusal of its pages is especially interesting to the people of this district who depend to a very large extent upon mining for their livelihood-

Mr. Geo. Clothier resident engineer for this district, gives an exhaustive and detailed account of the mining operations in the north-western district, for the past year which is by far the largest mining division in the province, totalling a length of over 700 miles, and in the north including the full width of the province.

In his report of the Alice Arm district Mr. Clothier gives a good description of numerous properties in the neighborhood including Lime and Roundy Creeks, Kitsault and Illiance Valleys, etc.

Construction of Anyox Dam

Construction work on the New Dam is now in full swing. About 100 men are now employed, composed chiefly of concrete men and carpenters. The work of pouring concrete commenced the latter part of last week.

In a whirlwind game on Thursday evening, the Smelter baseball team beat the Elks by the score of 2-1.

Atlin Electoral District

NOTICE IS HEREBY GIVEN that I shall, on MONDAY the 18th. day of June, 1923, at the hour of ten o'clock in the forenoon, at the Government Office, Anyox B. C. hold a Court of Revision for the purpose of revising the voters' list of the above named electoral district, and of hearing and determining any and all objections to the retention of any name or names on the register of voters for the said district.

Dated at Anyox, B. C. this 7th. day of May, 1923.

JOHN CONWAY.
Registrar of Voters,
Atlin Electoral District.

Dated 5th February 1923

JOSEPH OGLE TRETHEWEY

The secret of good beer lies in purity---

That's why Cascade Beer has for 35 years been British Columbia's favorite health beverage. No expense has been spared to ensure purity. It has cost a million dollars to build a plant to accomplish this. But after testing Cascade Beer, you agree that it has been worth it.

The Mineral Province of Western Canada

Has produced minerals valued as follows: Placer Gold, $76,542,203; Lode Gold, $109,647,661; Silver, $59,814,266; Lead, $51,810,891; Copper, $170,723,242; Zinc, $24,625,853; Coal and Coke, $238,289,565; Building Stone, Brick, Cement, $36,605,942; Miscellaneous Minerals, $1,358,839; making its mineral production to the end of 1922 show

An Aggregate Value of $769,418,462

The substantial progress of the Mining Industry in this Province is strikingly exhibited in the following figures, which show the value of production for successive five-year periods: For all years to 1895, inclusive, $94,547,241; for five years, 1896-1900, $57,607,967; for five years, 1901-1905, $96,507,968; for five years, 1906 1910, $125,534,474; for five years, 1911-1915, $142,072,603; for five years, 1916-1920, $189,922,725; for the year 1921, $28,066,641, and for the year 1922, $35,158,843.

Production During last ten years, $339,280,940

Lode-mining has only been in progress for about 33 years, and not 20 per cent of the Province has been even prospected; 300,000 square miles of unexplored mineral bearing land are open for prospecting.

The Mining Laws of this Province are more liberal and the fees lower than those of any other Province in the Dominion, or any Colony in the British Empire.

Mineral locations are granted to discoverers for nominal fees.

Absolute Titles are obtained by developing such properties, security of which is guaranteed by Crown Grants.
