Ore Vein on Vanguard Is Almost Ten Feet Wide

The copper ore vein on the Vanguard which was encountered last week has been cut through and is proven to be 9 feet 8 inches wide. The whole vein is composed of a high grade chalcopyrite ore, and its encountering at a depth of 200 feet is a source of great satisfaction.

The vein is now being drifted on along the foot wall in order to ascertain the extent of the ore shoot The drift is now in 25 feet, and the ore is equally as rich as that encountered in the crosscut tunnel.

Development work on the Red Point which is also being developed by the Victor Spencer interests, is proceeding with all possible rapidity. A new tunnel has been started at a higher elevation than the main one, and it is confidently expected that ore will shortly be encountered. This tunnel is being driven about 100 feet below the surface showings. The main tunnel is being pushed ahead.

New Alice Arm Business Block Occupied

The big business block which has been under construction by T. W. Falconer during the summer was occupied by him during the week, the bulk of supplies being moved from the old store on Wednesday.

This block stands at the intersection of Main Street and First Avenue. It is two stories in height. The ground floor comprises the store with a room at the rear for storing surplus supplies. The upper floor contains a large hall, suitable for winter sports, meetings or dances, and also commodious living quarters.

The best of lumber was used in construction, and the whole building both interior and outside is painted and varnished, presenting a very attractive appearance. The interior is lined with cottonwood veneer painted a cream color.

The completion of this block marks another step towards more substantial buildings in Alice Arm, and also shows how one of the leading business men regard the future of the camp.

Fast Time Made Vanguard Tunnel

The contractors, who have been driving the tunnel on the Vanguard completed their contract during the week and arrived in town yesterday. They are Neil Forbes, Fred Martinson, Leo Paulcer, Jack Collins, Wm. McFarlane. Plans have been made so that underground work will go on uninterruptedly.

Record time was made in driving the 274 feet of tunnel. The total time being 56 days or an average of almost 5 feet per day. All work was done by hand.

Granby Co. Made Good Showing During Last Quarter

Granby Consolidated Mining Smelting & Power Co., Ltd., for the quarter ended June 30, 1927, reports profit of $513,591 after expenses and interest, but before depreciation and depletion, comparing with $293,948 in the preceding quarter and $461,833 in the second quarter of 1926. Stock outstanding amounts to approximately 432,000 shares.

Profit for the first half of 1927, totalled $807,540 before depreciation and depletion, against $891,-431 in the first six months of the previous year.

Granby Cons. Mining, Smelting and Power Co. in the second quarter produced 14,800,127 pounds of copper, monthly average of 4,933,-375 pounds, compared with 13,563,-591, average of 4,521,197 pounds a month, in the first quarter. Weighted average cost of producing copper at both Anyox and Allenby, before depreciation but including all operating and general expense, with precious metals and miscellaneous income credited to copper, was 9.153 cents a pound compared with 10.374 cents in the preceding quarter.

Colonel J. T. Crabbs, president, in his remarks accompanying the report for the second quarter, says there is no construction under way at Anyox and that work is progressing favorably at Allenby on the improvements which will be completed some time in the fourth quarter of the year.—B. C. Financial Times.

Very Successful Tennis Tournament Anyox

The mixed doubles handicap tennis tournament staged by the Local Tennis Club on Sunday turned out very successfully. Eleven couples took part while they were a little late in getting away, once started everything went off smoothly.

The winners were: 1st. Mr. Fred Brown and Mrs. Deane, score of 58 and handicap of 8, giving them a total of 66. 2nd. Mr. V. McRae. and Mrs. McTaggart, score of 60 and handicap of 5, total 65.

Tea was served in the afternoon and thoroughly enjoyed by all. President Townshend and secretary Stewart worked hard in the morning lining up the games and were relieved in the afternoon by Mr. T. Evans. Mr. E. R. Johnson donated the first prize for the gentlemen, the club providing the other prizes.

Benefit Dance Was Very Successful

The dance held on Friday last as a benefit for the football player hurt early this season was quite a success. There was a large crowd present despite the fact that it was boat night and also very wet. The Moose Orchestra supplied the music and left nothing to be desired.

ANYOX NOTES

Mr. and Mrs. H. Loftus and family returned from holidays in the south on Friday.

Our suits are made to fit. All work done on the premises, right in Anyox. A. Galy.

Mr. and Mrs. R. O. Cutler and family returned on Friday from holidays spent in southern cities.

Frank Hill returned on Friday from a vacation in the south.

For a quiet rest try the Alice Arm Hotel. Pleasant surroundings. O. Evindson. proprietor.

R. M. McGusty arrived back on Friday from a vacation spent in Victoria.

Arthur Todd was a southbound passenger on Friday on holidays.

Constable W. Smith was a southbound passenger on Friday.

Miss Teresa Gordon, who has been spending holidays with Miss C. Nucich, at Alice Arm, returned home on Monday.

Miss K. Considine of the Mess House staff is spending a vacation at the Alice Arm Hotel.

J. H. Ashwell of Chilliwack, B. C. Grand Master of the I. O. O. F. of British Columbia, was a visitor in town over the week-end.

Make no mistake when ordering cigars, make ElDoro your choice. Remember it is a real cigar made from the best tobacco.

Mr. and Mrs. Neill McLeod and daughter returned on Monday from a two week's vacation spent at Stewart.

Mr and Mrs. J. Hindmore and Gordon Hindmore of the Mine returned on Monday from holidays spent in the south.

Mrs. E. Blundell returned on Monday from a vacation spent in southern cities.

Mrs. T. H. Davies and Miss D. Davies returned from holidays in the south on Monday.

E. Evans and J. Evans of the Mine returned from Vancouver on Monday.

A. Armstrong and Sidney Armstrong returned from holidays in the south on Monday's boat.

Mrs. W. Smith and family returned on Monday from a vacation spent in Prince Rupert.

Continued on Page 4

Death of Anyox Baby Yesterday

The death occurred at Anyox on Thursday, September 1st. of Margaret Elsie Isabelle McDonald, aged 4 months, daughter of Mr. and Mrs. Duncan McDonald. The funeral takes place this afternoon at Anyox cemetery, Rev. C. D. Clarke officiating. Funeral arrangements were in charge of Chas. McAdie.

Alice Arm Ships Ore Samples to Prince Rupert

Alice Arm will be well represented at the mineral exhibit of the Prince Rupert exhibition held September 6, 7, 8 and 9.

On Monday G. W. Bruggy shipped samples from a number of well known properties, and these in addition to samples already shipped will make an imposing display.

The following samples were sent on Monday:

Bunker Hill, silver-lead ore. Owner, J. O. Trethewey.

From a recent big strike on the Sunrise, were several large specimens of high grade zinc ore. Owners G. W. Morley and associates.

Several specimens of the recent strike on the Vanguard taken from a depth of 200 feet, high grade copper-gold ore. Owners Strombeck Brothers and M. Peterson.

Beach Molybdenum; molybdenum ore, Owners G. W. Bruggy and W. McFarlane. This ore took first prize at Vancouver this year.

Mayflower; high grade silver-lead-gold ore. Owners G. W. Bruggy and Wm. McFarlane.

Homeguard; high grade copper-gold-silver ore. Owners, G. W. Bruggy and Wm. McFarlane.

Wolf; high grade silver ore. Owners J. Fiva and associates.

Vanguard extension; high grade copper-gold-silver ore. Owner M. Peterson.

Samples were also sent from other properties.

Esteemed Residents Leave Anyox for South Africa

L. F. Champion and daughter Rowena left on the Prince George on Friday enroute for their new home in South Africa. They will be joined by Mrs. Champion in Vancouver. They are due to sail on the Arabian Maru from Victoria on Sept. 3rd. Sailing first to Yokohama, then by rail to Nagasaki, by steamer to Hong Kong and then via the Straits Settlements to South Africa.

Mr. Champion has been manager of the Granby Stores for a number of years. He was held in high esteem, and leaves a large circle of friends, as also does Mrs. Champion and daughter Rowena, who are sorry to see them depart.

Concentrator Ball Players Easy Win

The ball game scheduled for last Friday night, but postponed owing to bad weather was played on Monday evening. The game was very ragged the Concentrator winning easily from a pickup team. Beaulieu pitched for the winners and Fred Brown for the losers. The score was 7 to 0. Walter Olson was the umpire.

Changes in C. N. Steam Ship Schedule Start Next Week

Notice of the change in the schedule of the C. N. Steamships has been received from Prince Rupert and is as follows:

"Owing to the fact that it has been necessary to drydock the S. S. "Prince Rupert" we have replaced this steamer with the S. S. "Prince Charles", which will arrive in Anyox, Friday evening September 2nd, and sail for Prince Rupert via. Stewart that evening, transferring her passengers to the S. S. "Prince George" there, which steamer sails from Prince Rupert for Vancouver Saturday evening, September 3rd.

The fall schedule will be inaugurated by the S. S. "Prince George" sailing from Anyox for Vancouver via Ketchikan and Prince Rupert on Wednesday, September 7th, at midnight, and each Wednesday thereafter until the end of September."

After this date it is expected that the boats will operate on the same schedule as last year, arriving at Anyox on Thursday and leaving for the south the same day at 1 p.m.

Returns from an Extended Prospecting Trip

A. Davidson and Gus. Pearson arrived back in Alice Arm on Tuesday from a prospecting trip that took them across the Naas River. The object of their trip was to explore a country seen by A. Davidson fifteen years ago in the Naas Valley. It however, proved barren as far as minerals were concerned. They encountered a district in the Naas composed of boulders melted together with lava rock, and brought home several small specimens. The wonderful growth of vegetables and fruit greatly exceeded their expectations. During their stay they were regaled with corn on the cob and the many fruits cultivated in the valley.

Happy Throng Attend Dance

The dance held at the Alice Arm Hotel on Saturday night, was all that could be desired. A large number were present and a first class orchestra kept the dancers busy throughout the evening. One dance followed the other in quick succession, and it was a tired but happy throng who wended their way home after the strains of the Home Waltz had died away.

Log Carrying Barges Leave for South

The tug Lorne arrived in Alice Arm on Monday and left the following morning at 4 a.m. towing the log carrying barges, Bingaman and Pazuta. Both barges were loaded with logs from the camp of F. L. Housley and are destined for Powell River.

Whether the price be twelve or fourteen cents, and without regard to production curves, new and expanding utilitarian and artistic uses for copper are increasingly apparent. Labor costs are so high that it pays to use the best material. In New York City one notes in the great "cathedrals" of the motion picture tons of doors and grill work in bronze or brass, and window framing is of pure copper sheeting. Evidently architects have belatedly come to understand that copper is one of the greatest and most versatile servants that Nature has placed under man's command. Even the window and door framing and trim in small stores and buildings is to an ever increasing extent formed by sheet copper, which many artisans have found more easily worked than other metals or wood. Publicity has helped the cause, obviously, especially in home building, but the increasing preference for copper in general building construction is based largely on a wider appreciation of the many virtues---workability, sightliness, and above all, durability---possessed by the metal in its pure and alloyed state.

Steel alloyed with some copper possesses in a large degree the excellences of both metals. Its use should expand in construction jobs of all sorts. Makers of furniture may profit by a consideration of the desirability of copper-steel as framework for chairs, tables, and beds. Its resistance to oxidation provides advantages not possessed by iron and steel frames. The natural beauty of the metal, its cheapness, and its growing popularity assure an expanding adoption for such artistic objects as candlesticks, trays, and numerous other household accessories, No matter how often the copper pitcher goes to the well, it is never broken.---Engineering and Mining Journal.

Those who find it inconvenient to leave on Monday for the Prince Rupert exhibition can avail themselves of the departure on Wednesday of the S. S. Prince Charles. This boat arrives in Prince Rupert on Thursday afternoon or evening so that one full day of the Fair and Stampede can be obtained.

Scandinavian Countries Rich in Iron Ore

One-tenth of the iron ore resources of Europe lie in the north, in Sweden, Norway, and Finland. From these countries comes about 15 per cent of Europe's iron-ore production, and within their borders are some of the largest known deposits of magnetite ore. In them the iron industry has not been greatly developed. In fact this northern iron industry is practically confined to Sweden. About 90 per cent of all of the iron ore mined in the Scandinavian countries is exported to Germany, England, Belgium, the United States, and elsewhere.

Sweden is by far the largest producer of iron ore, its production being from 5,000,000 to 10,000,000 tons annually, of which 3,500,000 to 8,500,000 tons is exported. The country produces from 500,000 to 800,000 tons of pig iron per year. Norway mines from 300,000 to 700,000 tons of iron ore each year, all of which is exported. Finland has practically no production of importance as yet.

Steamer Prince Rupert Is Injured Going South

Striking an unknown object southbound the steamer Prince Rupert sustained a broken rudder in Seymour Narrows early last week. She was assisted to a safe anchorage in Plumper Bay by the steamer Cardena on which the Prince Rupert's passengers then proceeded to Vancouver.

The Prince Rupert has gone into drydock for repairs and her place this week has been taken by the steamer Prince Charles.

Phoenix Photograph of 1906 Shows Local Men

A recent Sunday edition of the Vancouver Province published a history of the town of Phoenix. This was the town in which the Granby Co. had its big mines, and whose ore was smelted at Grand Forks. The article was illustrated with several photographs one of which was of special interest to many in Anyox. It showed the prize drilling team of 1906 and in it were J. Swanson and J. Peacock now of Anyox mine.

W. C. Cameron of Stewart Passes Away

The death occurred at Stewart on Monday evening of W. C. Cameron. Deceased was postmaster and president of the Stewart Board of Trade. He had been a resident of Stewart for the past seventeen years, and has resided on the coast for thirty years. He was born in eastern Canada, and was 52 years of age. Interment took place at Stewart on Wednesday.

SYNOPSIS OF LAND ACT AMENDMENTS

PRE-EMPTIONS

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emptions is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 5,000 board feet per acre west of the Coast Range and 8,000 feet per acre east of that Range.

Applications for pre-emptions are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emptions must be occupied for five years and improvements made to value of $10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

PURCHASE

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price of first-class (arable) land is $5 per acre, and second-class (grazing) land $2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

HOMESITE LEASES

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

GRAZING

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free, or partially free, permits are available for settlers, campers and travellers, up to ten head.

BRITISH COLUMBIA

The Mineral Province of Western Canada

Has produced Minerals as follows: Placer Gold, $78,018,548; Lode Gold, $126,972,318; Silver, $80,787,003; Lead, $106,976,442; Copper, $209,967,068; Zinc, $50,512,557; Coal and Coke, $284,699,133; Structural Materials and Miscellaneous Minerals, $50,175,407, making its mineral production to the end of 1926, show an

Aggregate Value of $988,108,470

The substantial progress of the Mining industry of this Province is strikingly exhibited in the following figures, which show the value of production for successive five-year periods: For all years to 1895, inclusive $94,547,241; for five years, 1896-1900, $57,607,967; for five years, 1901-1905, $96,507,968; for five years 1906-1910, $125,534,474; for five years, 1911-1915, $142,072,603; for five years, 1916-1920, $189,922,725; for five years, 1921-1925, $214,726,650; for 1926, $67,188,842.

Production Last Ten Years, $429,547,755

Lode mining has only been in progress for about 25 years, and only about one-half of the Province has been even prospected; 200,000 square miles of unexplored mineral bearing land are open for prospecting.

The Mining Laws of this Province are more liberal and the fees lower than those of any other Province in the Dominion, or any Colony in the British Empire.

Mineral locations are granted to discoverers for nominal fees.

Absolute Titles are obtained by developing such properties, security of which is guaranteed by Crown Grants.

Practically all British Columbia Mineral Properties upon which development work has been done are described in some one of the Annual Reports of the Minister of Mines. Those considering mining investments should refer to such reports. They are available without charge on application to the Department of Mines, Victoria, B. C. Reports covering each of the six mineral Survey Districts are published separately, and are available on application. Reports of the Geological Survey of Canada, Winch Building, Vancouver, are recommended as valuable sources of information.

Full information, together with Mining Reports and Maps, may be obtained gratis by addressing

THE HON. THE MINISTER OF MINES,
VICTORIA, British Columbia

A. F. Priestley Wins Auto

Vancouver—A. F. Priestley, storekeeper at Aiyansh, a Naas River village with 40 white persons and 200 Indians, where no motors can be used, won the auto given as a prize in connection with the exhibition here.

"We get our supplies brought 45 miles up the river by small gas boat," said the winner today. "I could not take the automobile there. I shall try to sell it."

Pacific Ports Win Freight Rate Fight

The Board of Railway commissioners after hearing arguments extending several months in respect to export rates of grain, flour and other commodities via. Pacific and Atlantic ports, have issued their judgement ordering that the export grain rate via. Prince Rupert and Vancouver shall have the same advantage as grain for export eastward to the head of the lakes.

Quebec Will Soon Produce Blister Copper

Preparations for begininng producing at the Horne smelter of Noranda Mines, Ltd., Rouyn district, Quebec, are fully up to schedule. Blister copper will be turned out in October. One of the two units is being rushed to completion by that time and the other will be finished later.

The advertising columns of the Herald is the surest way of broadcasting your message, whether it is a house or phonograph for sale; a dance to be held, or anything you wish the public to know about. A dollar or two invested in advertising is the biggest dividend payer on record, especially where tickets are sold for admission to a dance or other social event. Try and be convinced. Spend one dollar and pick up ten.

There is talk of trying out a new leaching process on the Indian mines, Portland Canal district. It is reported that leaching of Indian ore, which is lead and zinc, was successful in a laboratory test.

The Board of Trade points out that Canada, with a population of 9,300,000, has a mineral production equal in value to that of the United States when its population was 38,000,000. Our manufacturing production equals that of the United States when its population was 50,000,000.

Nearly 19 per cent of all taxes in United States are paid by mines or metals.

It was the first council meeting the new district councillor had attended, and he listened gravely to the report of the medical officer, the statistics in which frankly puzzled him. For example, owing to the typhoid epidemic the deaths for the month had been at the rate of "fifteen point five." What on earth did "point five mean?

In his perplexity he sought the advice of a fellow-councillor, whose long experiences of local government matters seemed to promise enlightment.

"Oh, that's easy enough." said the veteran. "Fifteen point five means fifteen dead and five at the point of death."

"So this baby is a girl?" beamed the rector, as he walked round the baby show.

The proud father assented.

"And this other one—is it of the contrary sex?"

His wife's eye was on him, but with no thought of the wrath to come, he replied, blithly, "Yes, she's a girl, too."

A military expert predicts that the next war will be fought by wireless. From what we heard the other night, we had the impression that it had started.

CROWN COLONY DAYS

Away back in the late sixties thousands of acres of British Columbia's timber were sold for one cent per acre, which looked like a fair price—then. To-day similar timber is worth from $150 to $200 an acre, so tremendously has timber appreciated in value within the scope of an average lifetime.

What the young growth of to-day will be worth sixty years from now is beyond computation if it is protected from fire and allowed to reach maturity.

The moral is obvious

ALICE ARM NOTES

W. G. McMorris, president of the Kitsault-Eagle Silver Mines Ltd. arrived in town on Monday from Vancouver and will spend two weeks here examining the company mining properties in the district.

Paul F. Brown, mining engineer of New York, and who spent some time here last year, arrived on Monday from the south.

Hand Laundry Work done at reasonable prices.—Miss B. Crawford, near Meat Market.

L. Forsburg left on Monday on a business trip to the interior.

F. Simpson left on Monday for Prince Rupert.

Miss Christine Nucich, who has been spending holidays with her mother, returned on Monday to Prince Rupert, where she will resume her studies.

E. Roach, representing the B. C. Equipment Co. arrived in town on Monday from Vancouver.

Alex. Davie arrived on Tuesday from Anyox and has taken a position at T. W. Falconer's general store.

F. Gigot arrived in town yesterday evening from Stewart on business.

Wm. Hutchinson arrived back yesterday evening from a visit to Anyox.

A water pipe line from Falls Creek through the centre of town has been much talked of during the week, but so far no one has taken a leading part in getting a start towards financing the project.

Success at Alice Arm Attracts Attention

Alice Arm is experiencing much activity in the mining industry this year. Properties that are extracting ore or being developed by mining companies are the Toric, Esperanza, Wolf, Vanguard, Red Point, Eagle, Silver Cord, LeRoy and Keystone. The first three are shipping mines while the others are being rapidly developed to a shipping stage. Negotiations are underway for the acquiring of additional properties in the district by influential mining companies.

The phenominal large surface showings; the success in striking these ore bodies underground and the geological formation, together with the excellent transportation system and the nearness of the district to tide water, is instrumental in a greater interest being taken in the camp by mining companies who desire value for their money.

Anyox Community League

The Council of the League meets on the Second and Fourth Wednesday of each month, in Recreation Hall, at 7.30 p.m.

WATER NOTICE

(DIVERSION AND USE)

TAKE NOTICE, that Toric Mines Ltd., whose address is 706 Credit Foncier Building, Vancouver, B. C. will apply for a licence to take and use one cubic foot per second of water out of Tumble Creek, which flows westerly and drains into Kitsault River about 300 feet north of Kitsault Suspension Bridge, The water will be diverted from the stream at a point about 550 feet North 59° East of South-West corner of Ruby M. C. Lot 4210 Cassiar District, and will be used for wash water for concentrator purpose upon the mine described as Toric Mineral Claim Lot 935, Cassiar District. This notice was posted on the ground on the 11th. day of June, 1927. Prince Rupert Exhibition And Stampede

SEPTEMBER 6, 7, 8 and 9th. 1927

BASEBALL—Stewart vs. Prince Rupert
NATIVE Football Championship Games.
GRAND PARADE—See the first cowboys, cowgirls, and covered wagon ever seen on the streets of Prince Rupert. There will be prizes for the best comic entries.
STAMPEDE—A thrill for everyone. The bucking stock are untrained buckers, raw as they make 'em, right off the ranges, fleet of foot, vicious in movement and eyes wild, white and weird. "Ride 'em Cowboy, ride 'em."
PROSPECTORS' STAMPEDE—$35.00 in prizes for the big Prospector's Race. See them make their fire, cook and eat a flap-jack, stake a claim and return to record it.
GRAND COWBOY DANCE—Friday, September 9th. in Exhibition Building.
