Miss Edna Owen Guest Of Honor At Large Party

What is believed to be the largest party ever held in Anyox for a bride-elect, took place in the Mine Hall on Monday, March 25th, the guest of honor being Miss Edna May Owen, whose marriage takes place on Wednesday April 3rd.

Over one hundred ladies were the invited guests to this event which took the form of a shower. The numerous gifts were contained in decorated boxes and a large barrel, which latter was topped by a handsome bride, beautifully attired. The hall was darkened while the bride-elect was brought in by Miss Helen Calderoni, the wedding march being played meanwhile by Mrs. Atkinson.

A large number of people from the Beach were present. Miss Owen who has lived at Anyox since childhood, is well-known and very popular. Her father, Mr. R. Owen has been an employee of the Granby Company for many years, coming to Anyox from Grand Forks, where the Granby Company formerly operated.

Vocal solos were rendered by Mrs. J. Peel and Mrs. T. Pinckney, and a most enjoyable time was spent. A great variety of useful and handsome gifts were received by the bride-to-be. Later in the evening the gathering was augmented by the gentlemen friends of the guests and a session of dancing was held. Refreshments were served during the evening.

The conveners of the shower were: Mrs. J. T. Evans, Mrs. B. Davies, Mrs. Patrick, Mrs. Eld, and Miss Brisbane, who were assisted by many willing helpers. The decorations were in the hands of Mrs. Davies, Mrs. H. Black and Mrs. N. Roberts.

Final Juvenile Badminton Tourney Tonight

Tonight, (Saturday March 30th.) will see the last of the Junior Badminton tournaments for the season. As the Junior Badminton Club has been most successful this season it is expected that there will be a full attendance at this final tournament. As for previous similar events, the A. C. L. will provide the refreshments, and the Senior Badminton Club will look after the details of the tournament.

Fred Cadillac left on Wednesday for Vancouver.

First Aid Classes Hold Supper and Social

One hundred and fifty persons were present, at the supper held at the Gymnasium on Thursday evening, for students of the First Aid classes held during the past winter at Anyox. The number of students last winter was the largest in the history of the town.

F. S. McNicholas was chairman of the function. Following the supper, Chas. Graham, Inspector of Mines for this district, in a very instructive speech, stressed the importance of first aid and mine rescue work. W. B. Maxwell, general superintendent for the Granby Co. also spoke along the same lines, as did also Fred Graham and Ed. Ashton. Mr. Maxwell, in his remarks expressed the hope that everyone would still be in Anyox enjoying next year's function.

During the evening, songs, recitations, instrumental music and community singing was enjoyed.

Caledonian Society Hold Successful Dance

One hundred and seventy people attended the farewell dance given by the Anyox Caledonian Society in the Elks' Hall on Friday, March 22nd. The affair proved to be one of the most successful the society has held this season.

Lovers of the old time whirlgigs and steps were out in full force and spent a rare evening with the quadrilles, circassian circle, military two-step, valeta, French minuet, and what else have you.

Johnny Gillies' orchestra, with Sven Anderson on the accordion, was irresistible. Joyce Williams and Honor Warden, in Scotch costume, danced the Highland Fling, and Bessie Barclay gave the Sword Dance. Mrs. Sampson, who has a well trained soprano voice, sang: "The Piper's Song," and "I'll Sing you a Song if you Kiss me." Mr. W. R. Murdoch rendered two solos in splendid style. A delightful supper was served and dancing continued until 2 a.m.

Fatal Accident Occurs At Bonanza Mine

On Thursday evening at 7 o'clock a fatal accident occurred at the Bonanza mine, when S. Jatovich, who was employed as a chuteman's helper, met his death. Deceased was married. No further details were available at time of going to press.

This is Last Issue Of Herald For A Time

Job Printing Will Still Be Carried On

After careful consideration and viewing all angles of the situation, we have decided that we cannot continue publication of the Herald. During the past few months, due to the contemplated closing down of Anyox, our revenues have gradually shrunk until it has reached a point where publication is an impossibility except at a loss, and this we cannot afford to do. Advertising has decreased, subscriptions when they become due, are not renewed. Many of our subscribers have already left the district and many more are in arrears.

This however, will not be the last issue. We will, probably during the latter part of next month, issue our farewell number, and if the unexpected happens and the copper situation improves, we may change our present plans and recommence regular publication, but at present regular publication does not appear very likely.

We wish to assure our patrons of job printing, that we intend to carry on this part of our activities for some time to come, and every order received by us, will be given immediate attention. The closing of our job printing department will depend entirely upon the amount of work received.

Watch for the Farewell Number of the Herald.

Government Aid For Anyox Refused

Plans for government aid to keep the Anyox mine and smelter operating were rejected by Premier Pattullo in the Legislature a few days ago.

"We have no intention whatever of loaning any money to the Granby Company under the conditions existing," the Premier said, when asked by C. C. F. members about the Anyox situation.

The mining committee of the Legislature was advised recently that the Granby Company's operations at Anyox would close in June and some form of Federal and Provincial Government aid to keep the mine and smelter open was suggested. The Premier's statement does not give any hope for government assistance.

Wm. and James Horne left on Wednesday for Nanaimo.

Popular Anyox Couple Married

A quiet wedding was solemnized at Christ Church, Anyox, on Saturday evening, March 23rd, at 7:45 p.m., when Dora Grigg, youngest daughter of Mr. and Mrs. John Grigg, was united in marriage to John Gillies, eldest son of Mr. and Mrs. J. Munro. Rev. Abraham officiated.

The bride wore a navy blue jacket frock with matching accessories and carried a shower bouquet of roses. Miss Isobel Gillies was the bridesmaid and chose a rose beige crepe frock, with accessories to match and a bouquet of carnations. Mr. Kenneth McLeod acted as best man.

The young couple, who have lived at Anyox for many years, are very popular, especially in basketball circles, and they received the good wishes of a large number of friends. They will reside in Anyox.

Young Bride Is Guest At Party

Lured to the home of Miss Teresa Gordon on Wednesday evening the 27th, Mrs. John Gillies—nee Miss Dora Grigg—was surprised to find herself the guest of honor at a joyous party of girl friends. Nineteen guests were present and the affair took the form of a shower, in which a large number of useful and handsome gifts were bestowed upon the young bride. The packages were brought into the room in a prettily decorated baby buggy, cleverly made up on a boys' play wagon.

The major portion of the evening was taken up with whist, and a most enjoyable time was spent. The Spooks' Basketball team, of which Mrs. Gillies is a member, was responsible for the party, and a number of other basketball friends were present.

Engagement Announcement

Mr. and Mrs. John W. Watson announce the engagement of their only daughter, Beatrice Mae, to Mr. George Casey, youngest son of Mr. and Mrs. George Casey, of Prince Rupert. The wedding will take place in the United Church, Anyox, on Wednesday, April 17th, at 8 p.m.

The job printing department of the Herald will continue to operate after the Herald has ceased publication. Every order will be given immediate attention.

The Premier Company Increased Earnings In 1934

The rapid strides which the Premier Gold Mining Co. has made in the past year toward re-establishing an attractive earnings position is brought out forcibly in the annual report for 1934, which details results at Premier, Relief-Arlington, Toburn, and the company's interests in Africa and Australia. Since the report was written, the Premier mine has gone back on operation on full schedule after reconstruction of the power plant destroyed by fire last November.

Salient points in the report are:

Increase in price of gold and silver has brought within the range of profitable ore, a considerable tonnage not hitherto considered commercial. Ore reserves were 180,800 tons at end of 1934 compared with 87,134 at end of 1933.

Toburn paid Premier \$119,200 in 1934 and had cash on hand at December 31, of \$380,211. Ore reserves were increased.

First dividend from Tarkwa Gold Areas paid in January, 1935, brought Premier about \$17,000. Profits for 1935 are expected to considerably exceed those for 1934.

Second Relief mine earned profits of \$24,775 in 1934, before depreciation, depletion and taxes. As operating costs per ton are high on a production of only 30 tons per day, capacity is being increased to 65 tons daily. The Arlington property will be given an intensive study this season. An extension of time has been given by owners of the Western Australian property to allow more work. Premier has a 40 per cent. interest in the long term lease.

Premier has taken a two-fifths interest in four claims lying between Holinger and Dome, Porcupine district, Ontario. This is represented by 600,000 shares in Central Porphyry Contacts Ltd. of which the authorized capital is 3,000,000 shares of \$1 each, of which 1,500,000 remain in the treasury.

Net profit for 1934 was \$370,530 compared with \$248,581 in 1933.

In the report on the Premier mine at Stewart, Mr. Guess, in his statement to shareholders said:

In previous annual reports, a fairly complete description was given of the Company's Premier properties, their location, and of the mining milling and power plants, and the aerial tramway equipment leading from the mine to the wharf at tide-water.

World Still Muddling Along.

The world is still muddling along as it has done for the past five and a half years, since the present depression hit us with full force. The majority of countries are still trying to solve 20th. century problems by 17th. century legislation and finding the going hard. And as time goes on the more hopeless the situation becomes. Canada is in the forefront of those who advocate the old obsolete methods. What was good for our grandfathers is good enough for us seems to be the watchword. But why shouldn't the government pass legislation and change the system to conform with present day conditions. Premier Bennett himself has admitted that the present system has many defects and needs reforming. Why then hesitate to change it? The government was elected to govern Canada for the benefit of the people as a whole. This is an easy matter during prosperous times, when everyone is working and contented, and the system under which we live is functioning properly, but it is not so easy when the system breaks down and stays broke. It is then that men of strong character and intellect are needed in order to scrap the old worn-out machine that has ceased to function properly and replace it with an up-to-date model. How long will the present state of affairs exist and how much worse must conditions become before a change is forced upon us, is a question a good many people are asking today. One thing is certain the longer it lasts and the worse it becomes, the greater and more turbulent will be the change when it does occur. It will probably be ushered in by another uprush from the bottom, which have occurred with appalling results at different times during man's civilized state. The only alternative is a slow change and this, our leaders seem loth to start.

Premier T. D. Pattullo was emphatic in his refusal in granting any assistance in order that operations be continued at Anyox. Bridge building seems to be the pet scheme for work and wages at present by the government.

But public opinion seems to be overwhelmingly against any four to eight million dollar bridges and history teaches us that public opinion, if strong enough, always wins.

The Premier Company Increased Earnings In 1934

Continued from page 1

With gold at approximately \$35 per ounce, less government tax and silver around 50c. Canadian currency, there was brought into the category of profitable ore a considerable tonnage of broken material heretofore unprofitable, and likewise a considerable tonnage of unbroken material. This higher price per ounce coupled with an intensified program of underground exploration and development above the 6th. level to find and open up various spur and stringer veins in the hanging wall and footwall of the main ore shoot has resulted in establishing at the end of 1934 a combined broken and unbroken ore reserve in your Premier mine of 180,800 tons.

During the year 1934 there were mined and milled 154,693 tons with an average assay content of 0.25 ounces gold and 4.3 ounces silver per ton, and as the broken and unbroken ore reserves at the end of 1933 were 87,134 tons, this means that due to the higher price for gold and silver and due to the continued skilled efforts of your mining staff at the Premier there were brought into the category of new ore 248,359 tons during 1934.

Canadian Mining Up 25 Per Cent In 1934

General improvement in Canada's mining industry is revealed in the value of mineral production, which totalled \$277,492,263 in 1934, a gain of 25 per cent over 1933. According to a preliminary report issued by the Dominion Bureau of Statistics, gains were general in all groups; metals, fuels; non-metals other than fuels, and structural materials. The most striking improvement is to be found in the metals group where several new high records of production were established.

Gold mining was the outstanding feature in Canada's mining activities during 1934. Higher gold prices resulted in the development of many new mines and the re-opening of properties closed down some years ago.

Other bright spots in the mining picture were the increased outputs of lead and zinc, which exceeded all previous records. Copper production was also a record, the previous high year being 1930. Nickel production was the greatest in Canadian mining history, totalling 128,687,340 pounds compared with 110,275,912 pounds in 1929, the previous record year. Silver production was also higher. The production of metals of the platinum group was much larger than ever before.

Canadian Foreign Trade Shows Increase

One of the outstanding features of Canada's international balances for 1934, is the increase in the value of Canada's foreign trade in commodities. The gross value of this trade amounted to \$1,145,000,000 in 1934, as compared with \$925,000,000 in 1933, an increase of \$220,000,000 or nearly 25 per cent. Commodity exports and imports increased by practically like amounts so that no change resulted in the net balance arising from our international trade in commodities as between the two years.

Cancer kills as many as 9,578 Canadians in one year; heart disease has claimed as many as 13,734 Canadian lives in one year; tuberculosis kills some 7,500 Canadians every year. More than 1,100 Canadian mothers have died each year in child-birth.

There are some 10,000 students in Canadian universities. But there are 25,000 patients in our insane asylums at public expense.

THE HERALD, 2.00 A YEAR

CANADA OFFERS PARADISE TO HUNTERS

With the fall of the leaf and the tang of autumn in the air the fishing rod is laid aside and the Nimrods look to their rifles and shotguns, as the hunting season is ushered in. True to her reputation as one of the world's greatest playgrounds, Canada offers a wide range of sport, furred, feathered and horned, to all who care to penetrate its far-flung hinterlands. From coast to coast, all along the vast system of the Canadian Pacific Railway, there are countless es-

tablished points of entry into the woods and mountains, readily accessible to those in search of game. The shores of countless lakes, rivers, and creeks, abound with all varieties of duck and goose and are not infrequently the scene of the termination of successful expeditions after moose, elk and deer of all kinds. New Brunswick rivals Ontario and Quebec as moose territory, while further west, the towering Rockies offer their tribute

of bear, mountain sheep and mountain goat. Bear are also plentiful in the Ontario northland and in certain parts of Quebec. With a view to preservation, various changes have been made this year in the game laws of all Canadian provinces, but even with the new restrictions a broad period of hunting is offered and the invading army from Canadian centres, as well as from the United States, is already starting on its expeditions.

THEY BASK IN MID-WINTER SUNSHINE

Port of Spain, Trinidad. Below, Light lunch after a dip in the open air swimming pool on the deck of the "Montroyal." Inset, "You go way f'om heah."

"Why pick on me?" says the little fellow, "there are many other things which can interest you and hold your attention." And so there are, but after all the native life of the "Isles of the Blest" is worth a little study, is it not? Take this little Jamaican for instance. If you took away his shirt and his broom handle you would not leave him much other than a full tummy, yet he is a British subject, and as such has an opportunity of becoming—well—of doing pretty well for himself and of gathering enough of this world's substance to give him comfort at least in his later years. He will grow up in a ramshackle old hut on the edge of the town maybe, and learn to be jealous of his rights as a citizen; and when he comes to the age of understanding he will be more English than the English. As a matter of fact he will in all probability, speak at least two "English" languages. In one of these he might implore you to buy his fruits or lace bark souvenirs or

direct you over the fine road that form a network over the island, and in the other he will converse with his kind. This language sounds as foreign as any you will meet with in your tour of the West Indies, but if you listen intently enough you will catch an "I" and an "an" or a "Yes"; then gradually your ear will be able to distinguish all the words and you will wonder that you could not understand the dialect.

They are interesting, these people. Watch them as they swarm around your cruising vessel docked in Kingston harbor, in their tub-like canoes, and dive deep into the water for your coppers. They are a different people in every sense of the word.

Participants in the cruises to the West Indies by the Canadian Pacific S.S. Montroyal in January and February next will be afforded every opportunity to study the various peoples with whom they come in contact and will return with at least a few impressions and a better understanding of them. No matter how different they may be, they are never foreign. This is especially true of the British protectorates. If one would really get to the heart of these people he dare not patronize them. If he does this he only finds the type that he expects to find.

Trojans Down Elks To Win Trophy

After having won one game and lost the second, Trojans won the third and final game in the cup play-offs on Friday the 22nd. Elks making 23 points to Trojans 37.

Despite the disparity in the score it was a fast and exciting encounter and although the Elks were obviously outclassed they put up a splendid fight. Ill-luck dogged them in their shots. Starring for the winners, were Shields and Dresser, the former making some nice homers from mid-field, and the latter nipping in under the basket for a total of 14 points. McDonald and Bud Gillies did good work for the Trojans while Davies and Gillies performed wonders for the Elks. The game was well handled by referees Lazorek and Watson.

Elks: McBryde 5, Steele 5, Davies 6, Gillies 1, Currie 4, Phillips 2. Trojans: B. Gillies 4, H. Dresser 14, McDonald 7, Shields 10, Dodsworth 1, Gordon 1.

Spooks Win Cup In Thrilling Game

Never in the annals of basketball history in Anyox has a cup been won by so close a margin, as that for the Ladies' League, in which the play-off games were all won by only one point. Aces netted the first game 5-4, Spooks the second 11-10, and Spooks the third 19-18. And the last game played Friday 22nd, most thrilling of all.

Aces who have been winning consistently all season, were jinxed until half-time, with only 3 points to their credit, while Spooks had 8. But after the breather things happened fast, Aces opening up the play and getting in some lovely shots until they were tied with the black and whites. From then on it was nip and tuck.

Aces: L. Dresser 4, D. Rogers, P. Loudon 3, J. Pinckney 3, M. Dresser 7, A. Carrick. Spooks: K. Eve 4, J. McDonald 1, H. Glass, D. Grigg 7, T. Gordon 7, N. Salmon.

Former Anyox Residents Take Over Hotel

Two former residents of Anyox, Fred Williams and Stan Thomas have taken over the Astoria Hotel, at 147 West Hastings St. Vancouver. Fred Williams was the printer for the Granby Company at Anyox and Stan Thomas is the proprietor of the local jitney service. Their many friends at Anyox wish them every success in this important business venture.

Eight men arrived on Wednesday from Prince Rupert, and four from Vancouver.

Anyox Notes

Twelve men arrived on Monday last from Vancouver.

Mrs. J. Grigg arrived on Monday from Vancouver.

Miss Leighton, of the Anyox Hospital staff, who has been visiting her home at Courtenay, returned on Monday.

Mr. Aves, of the Provincial Income Tax Department, arrived on Monday.

Mrs. T. Buchanan and children, left on Monday for Vancouver.

Mrs. C. Cundill and Miss Joan Cundill, left on Monday for a visit to the south.

Harry Selve, one of the pioneer residents and business men of Anyox, left on Monday for Vancouver. Mr. Selve conducted an optometrist business here.

F. Garland and V. J. Southey left on Monday for Vancouver.

Mr. and Mrs. A. H. Mills and son Roy left on Monday for Trail.

Mr. and Mrs. H. S. Nye left on Monday for Hedley, B. C., where they will reside.

G. Tessaro, A. Radovich, and M. Pedersen left on Monday for the south.

J. Jerome left on Monday for the south.

Mr. and Mrs. W. E. Miller left on Wednesday for Vancouver.

Jack Verick left on Wednesday for Prince Rupert.

Stephen's Farm at Alice Arm

The soil on this ten-acre place is excellent, and difficult to find its equal anywhere. It is very productive and free of stones.

A tract of over an acre is fenced and is in a good state of cultivation. It is partly planted to fruit trees, raspberries, strawberries, other small fruits and shrubs.

Buildings consist of a small house, a 16 x 40 chicken house, goat shed, work shop and root house.

The whole being a suitable place to retire to and is capable of providing a living, and a healthy one at that.

Offers are asked for this property addressing same to the Herald Office, Alice Arm.

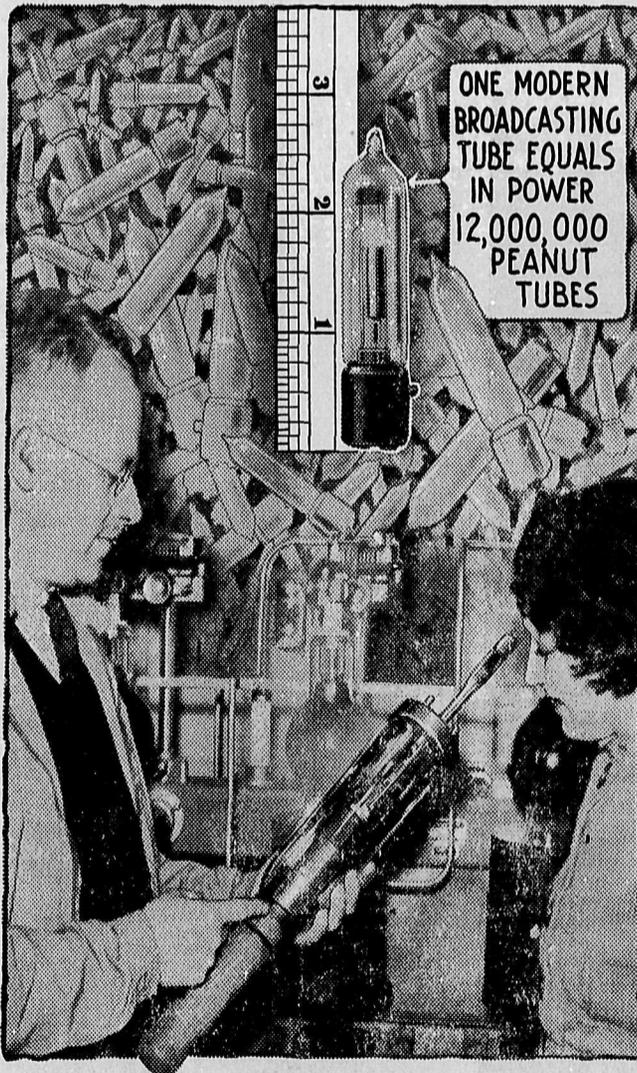

Three Games Yet To Play In Billiard Tourney

At the time of going to press there were still three games to be played in the Billiard Tournament. The winner of the game Sheen vs. Wall will play Sam Reid, and the winner of this match will meet Jack Ion, who has already played his way into the finals. Great interest is being taken in the contest, which has proved very popular.

Mr. and Mrs. W. J. Porter and son Alex., left on Wednesday for Vancouver.

Miss E. Mitchell left on Wednesday for Vancouver.

Thirteen Years of Progress

ON the third of February, 1922, the first three-element vacuum tube made in Canada was manufactured in the Montreal Plant of the Northern Electric Company, Limited. This was a repeater tube for telephone use, and was followed in May by the "Peanut", the radio receiving tube known from coast to coast, and beyond, as the "Necromantic Bottle of the Age". Today, one hundred and forty standardized types of radio vacuum tubes are manufactured in Canada, not to mention those used for telephone communication and other purposes.

Above, the peanut tube is shown beside a ruler for comparison. The bottom picture shows H. A. Robinson, Northern Electric Radio Engineer, showing to a fair visitor one of the new 35,000 watt water cooled transmitting tubes used in Canada's newest and most powerful Broadcasting Station CKY in Winnipeg. This tube equals the combined output of more than 12,000,000 peanut tubes; which serves to illustrate the gigantic steps which science has made in the past thirteen years.

Services at Catholic Church

His Excellency Bishop Bunoz will arrive at Anyox on Wednesday, April 3rd. Special Services will be held in the Catholic Church.

Thursday, April 4th.—Service at 7:30 p.m.

Friday, April 5th.—at 7:30 p.m. Sunday, April 7th.—Passion Sunday. First Mass at 6:25 a.m. Second Mass at 9:45 a.m.

The Bishop will preach at all the services. All Catholics and non-Catholics are cordially invited to attend.

Some Subscriptions Due

There are still quite a number of subscribers to the Herald, who owe us money. We would appreciate it very much if they would make payment as soon as possible.

Ted. Kergin arrived home at Alice Arm, on Saturday from Anyox, having left the smelter town.
