Disastrous Fire Sweeps Alice Arm Business Section

Early Morning Blaze Wipes Out Eleven Buildings

The most disastrous fire that has ever visited Alice Arm, broke out in the early hours of Saturday morning. It destroyed eleven buildings, and threatened to totally destroy the whole business section of the town. The Alice Arm Meat Market was blown up with dynamite after it had caught on fire and with this building levelled to the ground, fire fighters drenched the Welcome Hotel with water and held the flames in check.

The buildings destroyed were the Pioneer Hotel and the adjoining Pioneer Cafe building and a residence at the rear, all owned by N. Sutlovich; The Sunset Hotel owned by J. Thomas; The Blue Front Rooming House, and residence at rear, owned by Geo. Beaudin; The Alice Arm Meat Market, owned by W. A. Wilson who resided in the same building; residence owned by Geo. Young of Powell River; small store building owned by the Alice Arm Freighting Co; railway shed owned by the Dolly Varden Mines Co., and an unused log cabin, built by Frank Roundy in the early days of the camp.

It is estimated that the fire loss on buildings is over \$20,000. Very few personal effects were saved and this loss runs into a high figure. Very little insurance was carried on the buildings. The Sunset Hotel was insured for \$4,500, the Pioneer Hotel for \$3,000, Geo. Young's residence \$500. The engine used for the refrigerating plant at the Meat Market was the only thing insured there. It is understood that the effects in the Dolly Varden railway freight shed, which included two compressor plants were insured. Everything else was a total loss to the owners, and it is a blow from which they will take a long time to recover.

The fire broke out at the front of the Pioneer Hotel, or between the Hotel and Cafe buildings, which were very close. Its origin is unknown. Mr. and Mrs. W. MacDonald who resided at the rear of the buildings were the first to notice the blaze about 1 a.m. It was then out of control. They aroused the sleeping neighbors and so quickly did the flames gain headway that in a few minutes the two buildings were a seething mass of flames, and nothing could be saved.

The intense heat immediately set fire to the adjoining Sunset Hotel. The inmates Mr. and Mrs. J. Thomas and family, after saving a few personal effects, escaped partially dressed down the already burning outside stairway.

Four buildings were now a flaming inferno, and the glare of the

Alice Arm Ladies Hold Successful Sale of Work

The Sale of Work and Home Cooking organized by the Woman's Auxiliary of St. Michael's Church, Alice Arm, which was advertised for Saturday afternoon, was postponed until Monday. The reason for the postponement was the big fire on Saturday morning which left everyone's nerves in a jumpy condition.

The sale, however, did not suffer from the postponement for as soon as the doors were open the building was thronged with anxious buyers, and by the evening very few articles were unsold.

There were stalls for needlework and knitted goods, home cooking, vegetables, ice cream, cake and coffee, and a fish pond, and all did a thriving business.

During the evening all unsold goods were auctioned off by Mrs. J. Wheatley. W. M. Cummings held the lucky number for the centre piece, and W. Buckley was the winner of a dressed doll. The latter desired that it be re-drawn until won by some child, the winner being Bobby Benton.

The total receipts for the day amounted to \$100.15. Some expenses, however, have to be paid. This money will be devoted toward the Church building fund.

The officers and members of the auxiliary are to be complimented upon the wonderful success achieved, and for which they deserve great credit.

Dalhousie Co. Tunnel Still Driving In Ore

Development work at the Tidewater Molybdenum property is progressing very satisfactory. The Dalhousie Mining Co. are pushing work as rapidly as possible. A crosscut tunnel is now being driven from the main tunnel. It is being driven in a good grade of ore, and before being completed will cut through several ore bodies of the same character of ore.

Enough ore has now been developed to warrant the installation of a compressor plant. Before this is done, however, the trail up the hill must be improved, and it is hoped that this will be done as soon as possible.

A fine display of molybdenum ore was sent to the Vancouver exhibition by the Dalhousie Mining Co. It again won first prize, as has been the case for several years. The display received very favorable comment in the southern press. A display of ore will also be sent to the Prince Rupert exhibition, which will be held next month.

2nd. Round. Men's
McDougal awarded match against F. E. Patton by default.

Towgood beat James 7-5 6-1.

F. Gordon beat Kent 6-2 6-1.

Lee beat Hodgson 6 1 1-6 6-3.

The match between Towgood and James was the best yet seen in the men's championship. Both players giving a fine display of tennis.

Ladies' Singles. 2nd. Round
Miss Leighton beat Miss Cloke 6-1 6-0.

Semi-Final
Mrs. Cutler beat Mrs. J. Smith 7-5 8-6. This match was very closely contested, both playing forceful tennis.

Celts and Mine Play a Dazzling Game Of Football

Meeting the Mine in a League Football game on Monday the 18th, the Celts managed to get by with an even score—2 all. It was an extraordinary game. The Mine had out a good team and played superbly—clean, fast, and with nice combination,—but the Celts were packing horse shoes and rabbit's feet in every pocket. Their stalwart opponents had nothing but ill luck. They simply could not get the extra goals they so richly deserved. Morrison played centre-forward for the Mine, and shone like a shooting star. Time and again he missed by inches, or slipped with the ball at his feet and an open goal shouting to him. The Celts, though apparently blanketed, stuck to it doggedly, and worked like Trojans to avert defeat. This was especially true of their full-back and captain, Jimmy Elliott. Musser, in goal for the Celts, played a top-notch game. Just when the situation seemed hopeless—and it did several times—he was right on the job. Bob Archer was in control and gave all-round satisfaction. It was the best football game ever seen on local ground, and the spectators got the thrill of their lives. One Scotchman was heard to remark that he would readily have given two bits to see a game like that, so figure it out for yourselves.

Canoeists Beat Boatmen In Race by Lengths

An interesting race took place Tuesday evening between a Canoe paddled by Elmer Perrin and George Pearson, and a boat rowed by A. Shipp and H. Kent. This event attracted much attention and many varied bets were laid on the result. The course was from the wharf to and around the Granby Point buoy. The Perrin-Pearson combine was victorious by several lengths.

Football Benefit Dance Well Attended

A large number of dancers took the Gymnasium Floor Saturday night and made the most of the good music provided by Peel's Orchestra. The financial result was very satisfactory and the Benefit Fund will reap a considerable amount.

Football Teams Play a Draw

On Friday, August 15th. the Mine and Smelter teams played a league game resulting in a draw. The score being 1-1.

The big fire which threatened to wipe out the town of Alice Arm on Saturday morning brought out many weaknesses of our system of fighting a big fire. It showed that one or two picked men should be in charge of operations, to direct affairs and see that everyone is working so that he is 100 per cent. efficient. When a fire occurs in the middle of the night a plan should be in force whereby everyone is awakened. Water barrels should be handy, so that they can be filled and quickly transported to the scene of the fire by auto truck or sleigh. The fire was held in check after eleven buildings had been destroyed only by the heroic efforts of the fire fighters and the water bucket brigade, plus a perfectly still atmosphere. Had there been a wind blowing, so that the burning shingles which went straight up in the air and extinguished, were instead blown onto the roofs nothing could have saved the town. If another fire occurs we may not be so lucky in holding it. We should be ready to fight a fire in a systematic manner. We can not afford to have another fire as big as last week's

Mounted Police Leave For Arctic Stations

Ottawa, August 16: (Special to the Herald.) Laden with supplies and carrying 11 members of the Royal Canadian Mounted Police for two years duty in the Northland, the steamer Beothic has sailed on an 8,000 mile round trip to the eastern Arctic Archipelago.

In addition to a number of scientists among those on board were Inspector A. H. Joy, on his regular trip to the Arctic posts, and A. Y. Jackson and L. Harris, artists who will paint northland scenes for the government.

The expedition is in charge of Captain George P. MacKenzie, of the Yukon, and it will return about September 25th.

Ottawa Civil Servants Voted Strong for Liberals

Ottawa, August 16: (Special to the Herald.) Election aftermaths are curious. For example Ottawa turned against the Conservative party by an almost unprecedented majority and yet it is more simple to find the proverbial needle in a haystack than to locate anyone—apart from the active and violent partisans—who voted against the Bennett candidates. The civil service is already preparing its memorials in favor of more pay from the new government.

Copper Prices May Drop Lower If Production Not Curtailed

New York—Prices for copper still lower than the present 11-cent level are expected in the near future by the Brookmire Economic Service Inc. Its latest report on the copper situation continues: "The reason for low copper prices is obvious. Producers, despite their curtailment agreements, have not faced the problem and reduced output in line with the 33 per cent reduction in demand. Stocks have continued to mount. On July 1 stocks of refined copper were reported at 317,000 tons, the largest since September, 1921, and comparing with 83,000 tons a year ago.

"It is doubtful, however, whether strict curtailment by the big domestic producers would bring about anything more than temporary improvement in the copper situation. High copper prices, following restriction agreements in recent years, have stimulated increased production in Canada and South Africa. Other new mining projects still under way in both of these territories will add to the output over the next few years. The maintenance of high prices has therefore resulted in bringing in new production which will result in a lower price basis for several years. So far as the near future is concerned still lower prices are expected. Eventually some of the high cost mines will close up and the basis will then be laid for price stabilization."

Canada's Population Nearly Ten Millions

Ottawa, August 16: (Special to the Herald.) Canada's population on June 1 has been estimated at 9,934,500 by the Dominion Bureau of Statistics. This represented an increase of 137,700 over the 1929 estimate.

Changes in operating organization on Canadian Pacific western lines are announced as follows:— J. H. Chown, superintendent of Saskatchewan southern lines, transferred from Regina to Edmonton; J. M. MacArthur, superintendent, Medicine Hat division, transferred to Regina; G. J. Fox, in charge of Edmonton division, transferred to Medicine Hat. These transfers are made in accordance with the company's policy of enabling its officers to broaden their experience in railway matters.

American golfers beat British players because they are more interested in the scientific angles of the game and generally speaking try harder, according to Don Moe, University of Oregon wizard, interviewed at Vancouver, travelling Canadian Pacific from the western Open at Chicago and the American Open tournaments at Minneapolis. He described English golfers as the best sportsmen he had ever encountered.

Seven hundred Americans, about two-thirds women, toured Nova Scotia recently by Dominion Atlantic Railway, after arrival at Halifax aboard S.S. California on "A Cruise to Nowhere," the larger part of which is spent at sea outside the 12-mile limit. There were three of these cruises during July and August from New York.

Five more new bridges are to be constructed on New Brunswick highways, tenders having been called for by Hon. D. A. Stewart, Minister of Public Works, for modern structures to be built with attendant improvement of roadway alignment. One of them will be an 80-foot span across the Little River at Grand Falls.

Since July 1 the wild rose is officially the floral emblem of Alberta, the Act passed by the Legislature at the last session, going into effect on Dominion Day.

A quantity of cocoons will be brought to Montreal in their natural state for the purpose of demonstrating the process of weaving silk and converting it into the finished product at the National Product in Canada Exhibition to be held in that city November 3-8 next.

Canadian entries in the overseas section of the British National Egg-Laying contest are holding their own with the world's best egg producers. Reports received by F. C. Elford, Dominion Husbandryman, show that Canadian pens hold third and fourth positions in the international contest. First place is held by France and second by Ireland.

Market prospects for fruit growers of Nova Scotia are encouraging because the British Isles must look to Nova Scotia for the bulk of their barrelled apple supply until November 15, as a result of the embargo on barrelled fruit from the United States.

Last year a British artist publicly declared Canadian women to be the most beautiful in the Empire and now another Britisher — this time a newspaper man — claims they are the Empire's greatest travellers. It appears that a check-up on railway travel in summer reveals that eighty per cent. are females.

Disastrous Fire Sweeps Alice Arm Business Section

Continued from page 1
building fell an easy prey to the flames. There was no hope of their being saved, and no time to save any personal effects. Everything was consumed. The owner Geo. Beaudin was unfortunately in Anyox at the time as was N. Sutlovich, owner of the Pioneer Hotel and Cafe buildings.

Heat and sparks ignited the empty building of the Alice Freighting Co. across the street, which added to the awe inspiring scene. The residence of Geo. Young, which was vacated by tenants a few weeks ago, and adjoined the Blue Front burst into flame. The Alice Arm Meat Market caught fire at the rear, and as the heat made it impossible to extinguish it, it was decided to dynamite it in an endeavor to save the rest of the town.

The fire was now at its height. It was a quiet night and the flames and sparks and burning shingles were rising hundreds of feet in the air, when with a mighty roar the earth shook as the dynamite exploded and scattered the Meat Market over the landscape. It was a never-to-be-forgotten scene.

With the levelling of this building, fire fighters rushed in, and drenched the walls of the Welcome Hotel with water. Owing to the intense heat, it was a question for some time if their efforts would be successful, but they won out and the fire was held in check from spreading any further into the town. While this fight was going on, however, the railway freight shed and an old log cabin near the railway track caught on fire, and

were consumed before measures could be taken to extinguish them.

The bush on the hillside was also on fire, but fire fighters were holding it in check, from spreading to the big timber higher up the hill. Had it got out of control it would have become a serious menace to the town.

At four o'clock the fire was well under control, and all danger to other buildings had passed. One could then view the desolation and

thank themselves that the fire, although bad had not destroyed the whole town.

The roof of the Welcome Hotel, owned by A. Beaudin was damaged by falling lumber from the blowing up of the Meat Market, and the concussion destroyed a large quantity of crockery and glassware. The explosion also destroyed many windows in the vicinity, including the large plate glass windows in T. W. Falconer's new store.
