Ore Values on the Vanguard Are Increasing

The drift being driven on the rich ore body on the Vanguard is now in 75 feet states H. W. Heidman, who is in charge of operations and was in town during the week. The drift carries a full face of ore, and values are much higher than when the ore body was encountered with the crosscut tunnel. The drift is now going through ore with the phenominal value of 15 per cent copper, and a sample of this spectacular ore was brought down by Mr. Heidman. The drift will be driven an additional 25 feet and the ore body then crosscut to determine the width.

A new tunnel has been commenced 500 feet south of the present workings. It is being driven on the same ore body and will be 60 feet in length, which will give a depth of 75 feet on the ore. Eight men are at present working on the property.

The successful development of the Vanguard is a source of great satisfaction to those in charge of operations and also to the whole district, and its success will be instrumental in greatly increasing mining activity in the district.

The main tunnel on the Red Point Mr. Heidman stated is now in 675 feet, and is being driven at the rate of 8 feet per day. The big ore body has not yet been encountered but it is expected that it will be struck within the next 50 feet.

The new tunnel which is being driven at a higher elevation is in 25 feet and has cut through a good grade of ore the entire distance. It is being driven to obtain knowledge of the ore body, which will assist in driving tunnels on the lower levels.

Says Alice Arm is First Class Mining Camp

Paul F. Brown, New York mining engineer, who spent considerable time in Alice Arm last year, and returned again this summer stated before leaving for the south today that he was convinced that the Alice Arm district was a first-class mining country, and predicted a great future for the camp. The large deposits and the fact that the ore was spread over such a large area of the country warranted such a statement. He expected to interest capital in the camp, but would not give any details. He was of the opinion that further development of the camp by small companies was necessary before the advent of the large concerns. Mr. Brown expects to leave for the south today.

BIRTH AT ANYOX

Born to Mr. and Mrs. Dan Mackenzie, at the Anyox Hospital, on Tuesday morning September 13th. a daughter.

Ore Body on Stormer Has Been Traced

An important discovery of high grade ore on the Stormer Group was recently made by J. Calvin, who on Thursday returned from the property, bringing in several fine samples. The ore runs about 5 per cent copper and similar samples taken from the ore body at a lower elevation have given returns in addition to copper values of 30 ozs. silver and $2.00 gold per ton.

The ledge from which these samples were taken is 5 feet wide, and this year has been traced on the surface for a distance of 500 feet, at an elevation of 3500 feet.

Another ledge paralleling the above mentioned one, has been located at an elevation of 3000, It is much wider and carries good copper values.

The Stormer Group consists of 4 claims and joins the LaRose on the west. It is located in a rich mineral belt and further prospecting and development will be carried on with all possible speed.

Suffers Severe Injuries from High Fall

D. Lamont, an improver employed in the Boiler Shop at Anyox, while working on a special job on the smelter roof Wednesday afternoon, slipped and took a couple of thirty foot slides to the ground. He is now in hospital suffering from a broken foot, dislocation of the elbow, bad laceration of the leg and bruises on the head. At the time of going to press there is every chance of Mr. Lamont's recovery from this miraculous fall.

Anyox Couple Married

Surprise weddings are becoming popular in Anyox. On Thursday evening September 8th. Mr. Benny Brown of the Mine and Miss Annie Hill were united in marriage at the Beach Club House by Rev. C. D. Clarke. The ceremony was performed very quietly. Both the young couple are well known in Anyox and their many friends wish them all happiness in their future life.

Body of G. W. Morley Is Shipped South

The body of G. W. Morley, who recently died at Silver City was shipped to Seattle from Anyox on Monday. Prior to the departure of the steamer Catala a funeral service was held, at which a large number of friends were present. A large number of friends of deceased went from Alice Arm and Silver City to pay their last respects to their old time friend.

Among other noted arrivals were A. A. Todd, Mr. Boyd, T. Simpson G. A. Crear, F. Griffith and Dave Docherty.

Anyox Native Sons Hosts At Dance And Banquet

Officers and members of the Native Sons of Canada Assembly No. 85, were hosts to about 150 guests on Friday evening last at the Elks' Hall. As hosts the Native Sons certainly excelled themselves and nothing but praise from everybody present was heard during the evening and ever since the party. Mr. F. F. Brown, the worthy president, spoke a few kind words of welcome during the banquet which was responded to by very hearty applause by all those who were not really too busy enjoying the wonderful spread provided by the boys.

Dancing was indulged in and much enjoyed to the music of the Moose Orchestra until the small hours of the morning.

This is the first public function offered by the Native Sons of Canada here in Anyox—and a very successful one—and great credit is due the Committee, Mr. J. Deeming, chairman; Mr. Dunc Campbell and Mr. H. E. Arnold for their splendid efforts in making the first of these affairs "nulli secundus".

Anyox Shipping Notes

The S. S. Anyox arrived from Stewart on Sunday at 2 p.m. towing scow Griff, loaded with 800 tons of Premier ore. She left at 10 p.m. on Sunday for Maple Bay and thence to Stewart to load ore.

S. S. Amur arrived on Monday from the south with 500 tons of coking coal and 400 tons of general freight. She towed the barge Lord Templeton which will load with concentrates.

S. S. Amur left for Stewart on Wednesday at 9 p.m.

S. S. Anyox arrived from Stewart on Thursday at 8 a.m. loaded with 1009 tons of Premier ore, and towing scow Independent loaded with 400 tons of Outsider ore. She left the same day for Seattle at 4 p.m. after loading 248 tons of copper here.

A. B. Morkill, Leaves for Victoria

Alan B. Morkill left on the "Prince George" on Wednesday night for Victoria, where he has been transferred to the Johnson Street branch in that city as manager. Mr. Morkill has been manager of the Canadian Bank of Commerce, Anyox, for over three years and in going away to take up his new duties we wish him every success and the best of good luck and good health. Parting is such sweet sorrow and he leaves many many friends behind. Mr. Morkill's successor is Mr. D. M. Sinclair who comes from Keremos.

FOR SALE—Good Jersey family cow, good milker, quiet, T. B. tested. Fresh in October, Price $125. Apply Arrandale Cannery, Naas River.

Public Meeting Raises School Assessment

A public meeting was held at the School House on Thursday evening for the purpose of discussing the recent ruling of the Superintendent of Education whereby Alice Arm is raised to the status of an organized district.

The chair was occupied by H. Fowler. Secretary Al. Falconer read a letter from the superintendent of Education stating that no change could be made in the decision to make Alice Arm an organized school district.

All districts having an assessment over $150,000 are now classed as organized. The Department of Education have stated that they will provide $580.00 toward the salary of the teacher and the people of Alice Arm must supply the balance, which is $820.00 and which allows for janitor work.

It was decided after much discussion to raise the assessment for school tax from $750.00 to $1350.00.

ALICE ARM NOTES

J. Wells left on Monday for Stewart.

Ed. Peterson left on Monday on a visit to Vancouver.

Mrs. Al. Falconer and family left on Monday for Vancouver, where they will make an indefinite stay.

Hand Laundry Work done at reasonable prices.—Miss B. Crawford, near Meat Market.

E. Ness arrived back on Monday from a short visit outside.

N. McLeod arrived home on Monday from a visit to Prince Rupert.

Mrs. Marshall Smith arrived home on Monday from a visit to North Vancouver.

W. A. Wilson left on Monday on a visit to Prince Rupert.

G. Strombeck returned on Monday from a short visit to Vancouver

Mrs. J. Calfa left on Monday on a visit to Prince Rupert.

Chas. Lindberg, who has spent some time in Anyox, returned on Saturday, and is now blacksmith at F. L. Housley's logging camp.

W. Shaw arrived in town on Monday from Prince Rupert.

Constable W. Smith arrived in town on Thursday from Anyox

The regular monthly meeting of the Alice Arm branch of the British Columbia Chamber of Mines will be held at the Anglican Church on Monday evening, September 19th at 8 p.m. Your presence will be appreciated.

Get the habit, ask for El Doro when ordering Cigars, quality counts.

New Ore Located on Bunker Hill is Rich

Surface stripping carried on this year on the Bunker Hill property which adjoins the LaRose mine, has been instrumental in discovering two ore veins, which are of great importance.

A vein of solid ore has been uncovered from 10 to 12 inches wide. The ore is silver-lead-zinc, carrying gold values from $5.00 to $6.00 per ton. Samples have assayed 50 per cent lead, 65 ozs. silver and $7.00 gold per ton. The work was undertaken this year by Ed. Trethewey, whose father J. O. Trethewey of Abbotsford is owner.

This new discovery parallels a vein that has been traced on the surface for a distance of 350 feet, and varies in width from 6 inches to 2½ feet an average width of 18 inches being solid ore.

Between the two veins it is composed of crushed rock, in which are many small connecting veins varying from ¼ of an inch to 4 inches wide.

Another discovery was made 75 feet higher up the hill from where ore was discovered last year, and is an exceptionally fine showing

These two discoveries add considerable value to the Bunker Hill, which is a very promising property It is expected that with the commencement of underground work considerable more ore veins will be discovered. The heavy overburden makes surface prospecting difficult. It is located in a rich mineral zone on Haystack mountain, and underground work is necessary to obtain big results.

Visitor Enjoys Stay at Alice Arm

W. A. Johnstone of Vancouver, left on Wednesday to return to his home, after a few week's sojourn at Alice Arm. He was pleased to say that he had enjoyed his stay; the delightful atmosphere; the bathing, and the genial hospitality of the citizens. The Alice Arm Hotel with its electric lighting, running water and baths, affording its guests accomodation superior to that found in many pretentious towns. The stores are stocked with all the accessories necessary to supply all requirements.

After a most pleasant experience I leave with the most sincere hope and trust that the fondest hopes of the enterprising citizens of Alice Arm may be speedily realized.

CARD OF THANKS

E. Errington of the Mine, who is at present sick in Vancouver, wishes to thank the brothers of the Elks and Moose and also fellow workmen for their kindness to himself and wife and family during their recent time of trial.

The Anyox Community League propose to operate Technical School classes in Anyox during the coming winter, and anyone who wishes to improve their knowledge either in the occupation they are following or some other line of business, will have ample opportunity. This is an age of learning, and everyone who wishes to ascend the ladder of fame, or even improve their position must study. We are living in a province whose industries are rapidly expanding, and there is lots of room at the top for those who will bend their energies toward study. It is hoped that a generous response will be made and that the various classes will be filled. Competent instructors will be provided for each class. A splendid opportunity exists for those who wish to increase their earning capacity, which no one with ambition can afford to ignore.

The salmon fishing along the British Columbian and Alaskan coasts have been a failure. The cause of the failure lies with the canneries, who in past years have taken as many salmon as possible, with no thought of the future. All the streams have been fished to the limit, and now the price is being paid. The shortage does not effect the cannery companies so much as the fishermen. The canners have received ample returns for their investment and they now can invest their money in some other line of business. A large number of fishermen, however, are in a different position. They have homes, wives and families on many islands along the coast. The money derived from fishing keeps these homes going to a certain extent, and has created many prosperous settlements. A failure of the salmon fishing spells disaster for these people. The Indians also are hard hit when the salmon fails to appear. They are the wards of the white race, who have taken their hunting grounds from them, and they must be provided for. Major J. A. Motherwell, chief inspector of fisheries, who has personally examined the situation, states, that salmon fishing will become unprofitable to both fishermen and canners, if the quantity of fishing gear is not reduced. This reduction should have been made years ago. If it had our streams would still be swarming with fish.

Lightning Rods & Lighting Fixtures Consume Much Copper

During recent years intensive efforts have been made to demonstrate the efficiency of copper lightning rods as a protection against damage by electrical storms and a substantial market has developed in a relatively short time. In the manufacture of lightning rods about 15,000,000 pounds is used each year. If complete protection by copper lightning rods were provided for all exposed buildings, it is estimated that over 200,000,000 pounds of copper would be required.

The great increase of the past few years in the number of residences wired for electricity has provided a corresponding increase in the market for lighting fixtures. Brass is the material largely used for fixtures to be placed in residences, and bronze for the more architectural type of fixtures for halls, public buildings, etc. For outdoor fixtures, such as porch and garage lanterns, and many kinds of traffic signals, sheet copper is used. The lighting fixture industry, as a whole, consumes over forty million pounds of copper per year in all forms.

Immigration to Province is Increasing

Immigration into British Columbia from the British Isles this year is approximately fifty per cent above 1926 according to F. A. Pauline, agent general in London, who predicted that the rate of increase would continue, as no other part of the empire appealed so strongly to the people of the British Isles as did this province. Most of the B. C. immigrants come from the British Isles, he said.

Predicts Great Harvest on Prairies

A western grain crop of 400,000,000 bushels is predicted by Sir John Aird, president of the Canadian Bank of Commerce. He predicted that the movement to Vancouver will be the greatest in history. The new freight rates, he believed, would benefit Vancouver as well as the east.

Ore shipments from Alaska for June show a drop to $591,167, compared with $1.200,213 for corresponding month of last year.

SYNOPSIS OF LAND ACT AMENDMENTS

PRE-EMPTIONS

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emptions is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 5,000 board feet per acre west of the Coast Range and 8,000 feet per acre east of that Range.

Applications for pre-emptions are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emptions must be occupied for five years and improvements made to value of $10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

PURCHASE

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price of first-class (arable) land is $5 per acre, and second-class (grazing) land $2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

HOMESITE LEASES

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

GRAZING

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free, or partially free, permits are available for settlers, campers and travellers, up to ten head.

BRITISH COLUMBIA
The Mineral Province of Western Canada
Has produced Minerals as follows: Placer Gold, $78,018,548; Lode Gold, $126,972,318; Silver, $80,787,003; Lead, $106,976,442; Copper, $209,967,068; Zinc, $50,512,557; Coal and Coke, $284,699,133; Structural Materials and Miscellaneous Minerals, $50,175,407, making its mineral production to the end of 1926, show an
Aggregate Value of $988,108,470
The substantial progress of the Mining industry of this Province is strikingly exhibited in the following figures, which show the value of production for successive five-year periods: For all years to 1895, inclusive $94,547,241; for five years, 1896-1900, $57,607,967; for five years, 1901-1905, $96,507,968; for five years 1906-1910, $125,534,474; for five years, 1911-1915, $142,072,603; for five years, 1916-1920, $189,922,725; for five years, 1921-1925, $214,726,650; for 1926, $67,188,842.
Production Last Ten Years, $429,547,755
Lode mining has only been in progress for about 25 years, and only about one-half of the Province has been even prospected; 200,000 square miles of unexplored mineral bearing land are open for prospecting.
The Mining Laws of this Province are more liberal and the fees lower than those of any other Province in the Dominion, or any Colony in the British Empire.
Mineral locations are granted to discoverers for nominal fees.
Absolute Titles are obtained by developing such properties, security of which is guaranteed by Crown Grants.
Practically all British Columbia Mineral Properties upon which development work has been done are described in some one of the Annual Reports of the Minister of Mines. Those considering mining investments should refer to such reports. They are available without charge on application to the Department of Mines, Victoria, B. C. Reports covering each of the six mineral Survey Districts are published separately, and are available on application. Reports of the Geological Survey of Canada, Winch Building, Vancouver, are recommended as valuable sources of information.
Full information, together with Mining Reports and Maps, may be obtained gratis by addressing
THE HON. THE MINISTER OF MINES,
VICTORIA, British Columbia

Will of late John Oliver is Probated

The will of the late Premier Oliver which was probated leaves an estate valued at $75,502,92. The beneficiaries are the widow, five sons, and three daughters.

Under the will, which was dated July 15 of this year, the widow receives a life income from the estate except a considerable portion of the Delta estate of which his son William Arthur has the free use for life.

The will mentions that Mrs. Oliver is to receive title to the family residence, at Victoria, P. G. E. debentures worth £340 and $1,000 in Dominion bonds. The residue of the estate is divided into 81 parts and to each of his sons and daughters he has bequeathed parts, stating reasons for so doing.

Sale of Indian Silver Depresses Market

The government of India has recently sold silver bullion held in the Indian paper currency reserve to an amount of approximately 9,200,000 ozs., representing the total stock of mine silver held by the government of India. As this silver ceases to form part of the currency reserve, its place will be taken by Indian government rupee securities which will be reduced as the sterling proceeds from the sale of silver are received.

The fact of the announcement having been made officially rather suggests that the Indian government has no immediate intention of operating further at the moment but nevertheless the sales have continued to depress the market.

Topley Mine at Smithers Will Amalgamate

The Topley mine which was optioned to a big company by F. H. Taylor and Wesley Banta and which was dropped recently, is now proposed to amalgamate with the Topley Consolidated Company and a meeting is to be held next week for the purpose of considering the amalgamation proposal. If the amalgamation goes through the new concern will be known as the Topley Richfield Mining Company, Ltd. The capitalization will be $1,000,000.

Halibut Scarcity Causes Investigation

The international fisheries commission has not recommended that the halibut banks be temporarily closed and has not made a report to the United States or Canadian governments." John P. Babcock, chairman, said in reply to Washington reports saying such a recommendation would be made. "In November, after the closed season begins, the commission will hold public meetings in Ketchikan, Prince Rupert, Vancouver and Seattle. A digest of the date collected will be submitted and the commission will listen to the halibut men who care to talk and afterwards the commission will draw up its first reports to the Canadian and United States Governments."

Nelson Conservatives Will Nominate Candidate

Conservatives at Nelson, after a conference with Hon. S. F. Tolmie decided to nominate a candidate to contest the constituency made vacant by the death of the late Premier John Oliver. The convention will take place October 15.

CHURCH DIGNITARIES PAY VISIT TO CANADA

FOLLOWING the Eucharistic Congress held recently at Chicago, several Princes of the Church visited Canada before returning overseas. The top picture was taken on the arrival at Montreal of the International Limited, on which the dignitaries travelled from Chicago. From left to right are: Mgr. A. E. Deschamps, Auxiliary Bishop of Montreal; Sir Henry Thornton, K.B.E., Chairman and President, Canadian National Railways; Mgr. Heylen, Bishop of Namur, Belgium, and permanent president of the Eucharistic Congress; His Eminence, Cardinal Dubois, Archbishop of Paris; His Eminence, Cardinal Charost, Archbishop of Rennes in France; Mgr. Chaptal, Bishop of Paris; Canon Tharcissus, secretary to Mgr. Heylen.

The lower photograph shows as they alighted from the C.N.R. train: Mgr. Heylen; Mgr. du Bois de la Villerebel, Archbishop of Rouen, France; Mgr. Deschamps; Cardinal Charost; Mgr. Belanger, Pastor of St. Louis de France, Montreal; Cardinal Dubois; Mgr. Grent, Bishop of Mans, France; Mgr. Laynaud, Archbishop of Algiers. — Canadian National Railways photographs.

ANYOX NOTES

Mr. and Mrs. S. Grimason returned on Monday from an enjoyable trip during the past month which was spent in Vancouver and Seattle.

Mr. and Mrs. J. A. Swanson arrived home on Monday from a trip south.

Mrs. W. R. Lindsay and son Jack returned on Monday from an extended visit in the south.

H. C. Fraser, school inspector, spent several spent days in town during the week.

Miss J. Morley, arrived from Prince Rupert on Monday and will spend a vacation with her parents. She is on the staff of the Prince Rupert Hospital.

For a quiet rest try the Alice Arm Hotel. Pleasant surroundings. O. Evindson. proprietor.

Miss Rosie O'Neill, who is on the staff of the Prince Rupert Hospital, arrived on Monday for a vacation.

Miss Mary O,Neill, who has been spending a vacation in Prince Rupert returned home on Monday.

W. Lang of the Turner Beaton Co. spent a few days in town during the week.

Miss Richard was an arrival on Monday's boat.

Harry B. Chapman was a passenger to Prince Rupert on Monday.

Rod. Chisholm was a southbound passenger on Monday.

Mrs. Coates of the Dry Goods Department left on Monday for a vacation in the south.

We can fill your requirements regarding your winter suit or overcoat Stan Ballard, Anyox Tailor Shop.

Mrs. Peters arrived from Victoria on Wednesday on a visit to her son Mr. S. Peters.

Miss White arrived from Victoria on the Prince George on Wednesday.

Dr. J. W. Lang returned on the Prince George on Wednesday from a short visit to the south.

Mrs. McMillan arrived on the Prince George from a vacation spent in Vancouver.

Mr. and Mrs. Geo. Leslie left on the Prince George for Los Angeles, where Mr. Leslie will take up a position with the Petroleum Process Company. They are old residents of the camp and a large number of friends wish them the best of luck. Mr. Leslie was superintendent of the Coke Plant, a position he filled very efficiently.

Winter recreation such as dances, parties, etc. demand a man to be well dressed. Consult A. Galy for your winter suit.

R. Brooks left on the Prince George for Edmonton where he will meet his wife who has been spending an extended visit to the Old Country.

Among others noted leaving for the south were Messrs. Alex. Yberg Hans Lundberg, D. Burton, B. Goff, Chas Swanson.

Frank Gordon left on Wednesday night for Vancouver where he will take up his studies at the University.

Dr. and Mrs. G. S. McDonald were passengers on the Prince George for Victoria.

Mr. and Mrs. J. A. Walters were passengers for Prince Rupert on the Prince George on Wednesday.

F. E. Patton was a passenger on the Prince George on Wednesday making his destination, Portland.

The El Dora, a Cigar that has been in demand for years on account of its quality.

Mr. C. S. Rankin and Mr. Fred Lagru were among the arrivals on the Prince George.

Mr. and Mrs. David Deane returned on the Prince George on Wednesday from a vacation spent in the south.

Mrs. H. Patrick and child arrived on the Prince George from the east where Mrs. Patrick has been spending an extended visit with relatives.

We have one of our nursing staff, Miss Dingwall, at present indisposed, recovering from an operation on the throat. We certainly hope for a speedy recovery and trust that she will soon be on her feet again administering to the wants of the patients in her usual cheery manner.
