Mining Industry of Alice Arm Will Expand During Year

Already plans are being made by owners of mineral claims in the Alice Arm district for developing, and several groups will be developed as far as the resources of the owners will allow. This year promises the execution of a much larger programme of development work than has yet been undertaken, and mining claim owners are confident that this year will witness the commencement of work by mining companies that will ultimately develop several properties into producing mines, in addition to those already producing.

The bonding of four groups of claims last October by Victor Spencer and associates of Vancouver, occurred too late for any beneficial effect, and it is expected that the fact that these claims are being developed will awaken greater interest in the camp, and that other companies will acquire ground, providing reasonable terms are given, before the choicest claims are taken up.

Viewing the future from an impartial point of view, prospects for a big expansion was never brighter in the history of the camp.

It is certain that Victor Spencer and associates will carry out a large programme of development work on the four properties bonded, with the possibility of also developing the Dolly Varden and Wolf, which they control.

Every mining company operating last year will also resume activities on a larger scale. It is very probable that plans will be matured whereby the Esperanza will again be operating. Lack of funds has been the sole cause of the cessation of operations, and with a resumption it is understood that ample funds will be available both for mining and the construction of a concentrating mill.

Zinc is a mineral for which there is an increasing demand, and the price maintains a level that makes for profitable mining. Within a few miles of Alice Arm, on McGrath mountain large deposits of this ore exists, some of which is extremely high grade. The north-east fork of the Kitsault river district also contains large deposits. These latter are at present being developed by the Kitsault-Eagle Silver Mines Ltd. who are meeting with unusual success. It is expected that big interests will also develop the McGrath mountain deposits this year. The successful operation alone of these zones would be capable of maintaining a prosperous town, and these zones are only a fraction of the rich mineral region tributary to Alice Arm.

Meanwhile work and more work is necessary by mining property owners. Mining companies, especially the big ones, prefer tonnage in sight; and don't mind paying for

Midnight Crowd of 450 at Elks New Year Dance

On New Year's Eve the Elks put on one of the most successful dances of the year in the Gymnasium at the Beach. The hall decoration was one of the outstanding features which attracted the attention of everyone upon entering the hall. The colors were purple and white, which draped the ceiling to the sides of the building in drooping ribbons closely spaced together. At the far end of the hall an electric illumination was displayed wishing everybody a Happy New Year. Those bent on spending the night in the pleasure of the Terpsichorean art began to arrive at 9 p.m. and within an hour the hall presented a very happy appearance with couples dancing to the music of the Mine Melodians Orchestra, who certainly did justice to the occasion.

By 11.30 p.m. the dancers were armed with balloons, blow-outs, fans, caps and noses and miles of serpentine was floating around the floor. As the hour approached midnight, the dancers were found welcoming the New Year by dancing and others shaking hands wishing each other the best of good wishes for the year 1927. At this hour there were over 450 present in the hall.

A very tasty supper was put on in the Banquet Hall downstairs. The Beach Cafe catered for this affair, and two sittings had to be arranged to accommodate the large number.

The dance committee consisting of W. Gibb, (chairman) J. Buntain and B. Sheen wish to thank all those who helped to make this affair such a success.

The dance finished at 3 a.m. with everybody happy.

School Inspector will Address Anyox P. T. A.

On Monday January 17th. the Anyox Parent-Teacher Association will receive a visit from Mr. H. C. Fraser, Inspector of Schools, who will address the meeting. His subject being "Recent Developments in Education," a hearty welcome is extended to everybody.

it failing tonnage they like to see surface stripping with a tunnel driven tapping the ore. All this means a big expenditure of time and money for the property owner, but it gets results, as has been conclusively proven.

Alice Arm fortunately has a fine type of miner-pro prospector, the majority of whom prefer work in the hills to beer parlor mining, and it is their tenacity that will ultimately provide them with riches, and give birth to the biggest producing mining camp on the coast, and perhaps in the province.

Alice Arm Joyfully Dances New Year In and Old Out

The old year was danced out and the new year was ushered in by a large light-hearted throng at the Alice Arm Hotel, who were the guests of Mr. and Mrs. O. Evindson.

Dancing commenced at 9 p.m. and shortly before midnight a circle two-step was commenced, in which everyone joined, and the new year was born, everyone wished everyone else a happy new year, accompanied by vigorous hand-shaking as they circled the floor. "Auld Lang Syne" was also lustily sang with everyone holding hands.

The happy throng commenced dispersing for home in the small hours, after having spent a very enjoyable evening.

Thanks are due to Mr. and Mrs. Evindson who acted as hosts and provided a very appetising supper.

The orchestra comprised Mrs. J. Graham, J. Trinder and C. Hutchinson, who were tireless in their efforts to provide the necessary punch. Although small in number, they provided excellent music, which added largely to the evening's enjoyment.

ANYOX NOTES

J. Mitchell returned from Christmas holidays spent in Prince Rupert.

Miss L. G. Andrews returned on Monday having spent Christmas holidays in the south.

Miss Fetterly teacher at the Mine School returned on Monday from holidays.

D. J. Hartley, who has been appointed principal at the Public School arrived in town on Monday to take up his new duties.

J. Hutchinson of the school staff returned on Monday from Christmas holidays spent in the south.

Miss Nicholson of Anyox General Hospital left on Monday for Vancouver. She is being relieved by Miss Dingwell of Prince Rupert.

The Cigar of Quality. The El Dorado. Fresh shipment just arrived from London Ontario.

Mr. and Mrs. J. L. Stewart arrived on Monday from the south.

Mr. and Mrs. C. A. Allen and child returned from holidays spent in Vancouver on Thursday.

Mrs. R. C. McKnight left on Thursday to join her husband who is under the doctor's care in Vancouver. Before leaving Mrs. McKnight was presented with a writing set from the Ladies Hospital Auxiliary.

On Monday January 3rd the Pioneer Mess and the Blue Bird Cafe put on a New Year's Dinner in their respective places of business and an enjoyable time was spent by the guests.

Progress Shown Annual Report Keystone Mining Co.

The annual report of Keystone Mining Company has recently been sent to the shareholders, and shows that more work has been done at the mine during the past year than ever before. On the property, which is in the Alice Arm district, a tunnel has been driven a distance of 430 feet in which rail track and ore cars have been installed, and many other additions made to the property. The new tunnel parallels a good shoot of ore, and is headed for the main ore body, which it is expected to reach within another 200 feet. Plans are already made to continue operations at the mine next spring, when it is the intention to block out ore preparatory to constructing an aerial tramway from the mine to tidewater.—B. C. Financial Times

BIRTH AT ANYOX

Born to Mr. and Mrs. J. McGuire at Anyox Hospital, on Monday, January 3rd. a son.

ALICE ARM NOTES

Wm. Stevens arrived home on Monday after spending Christmas holidays in Prince Rupert with Mrs. Stevens.

H. F. Kergin, accompanied by his son Ted, left on Thursday for Victoria. Bert will attend the present session of the Provincial Legislature, while Ted will return to his studies.

Art Beaudin left on Monday for Vancouver, where he will spend a vacation. Mrs Beaudin left a few weeks ago.

Jack McDonald who has spent the past few months at his home on Vancouver Island returned to town on Monday and has taken Bert Kergin's place on the launch Awake while he is attending the Legislature in Victoria.

W. A. Wilson left on Thursday for Prince Rupert on a short visit. The Alice Arm Meat Market that has been operated by him for several years was closed on Monday, but he expects to reopen it early in the spring.

During the winter months the big stores of G. W. Bruggy and T. W. Falconer will close at 6.30 p.m. This new schedule was put in force this week.

Owing to Canon Rushbrook not being able to visit Alice Arm during this month, Rev. J. S. Brayfield will officiate. He will hold evening service in the Anglican Church on Friday evening January 21st. A cordial welcome is extended to everyone.

Premier Co. Pays \$20,000 When Bonding Claims at Stewart

Portland Canal News

By the payment of \$20,000 cash and signing a bond to pay the balance of \$125,000 inside of three years in four payments, the Premier Gold Mining Co. has acquired a 52 per cent interest in the Prosperity group of seven claims on the north fork of Marmot river.

This, without doubt, is the finest deal made on a mining property in British Columbia in the last two decades.

The Prosperity is owned by F. R. Jancowski, Eli Watland, G. D. Davis, Geo. Mehlfield and L. E. Jancowski. It adjoins the Porter Idaho, which has been somewhat of a spectacular producer, although handicapped by having to pay \$50 a ton to get its ore to tidewater. As reported a short time ago the Prosperity owners received \$6,500 from the Trail smelter for 30 tons of ore. It is freely admitted by the owners of the property, and must have been recognized by the purchasers, that an amount of ore worth more than the cash payment has been exposed by development.

The Melyin group of five claims owned by Mr. and Mrs. N. H. Stevens of Hyder, was optioned under a holding agreement before the present deal was made. This option is for \$60,000, but the exact terms of the payments are not made public.

Owney McFadden of Stewart, George Brown, St. Francis Hotel Vancouver, and Eli Watland of Stewart have also entered into the big deal with a claim each, bonding for \$20,000.

This makes 15 claims which the Premier organization has secured in the Marmot section. What their development plan is, remains to be seen.

Anyox Basketball Teams Ready for League

Anyox basketball teams are busy lining up their players for the season's schedule. At the general meeting of the association nine teams were entered for the honors in the three leagues; Elks, Concentrator, High School and Mine in the senior group; Mine and Freshies in the girl's league; and Mine, High School and Beach Athletic Club in the Intermediate. The first games will be played at the Beach Gymnasium on Wednesday January 12th.

Besides the regular schedule this year there will be home and home games with Prince Rupert and visits from one or more Indian teams.

An invitation was received and accepted from the Kincolith Indian teams, senior and intermediate, to play a series of games during the first week in February.

 E. MOSS, Editor and Publisher.

Not only did Anyox and Alice Arm enjoy a prosperous year throughout 1926, but a perusal of newspapers from every part of the province, received at the Herald Office reveals that prosperity, was widespread. The province as a whole is marching hand in hand with prosperity, and good progress is being made in every industry. There is likelihood also of new industries being added during the present year, and given world peace and good business-like government still more rapid progress will be made as the years chase each other along. The wildwest hectic booms of a few years ago seems to have permanently passed away. The present state of prosperity is built of sounder materials that will endure for all time. Every industry of the province is shown to be in a healthy state. Lumbering, agriculture, paper making, fishing, and mining are responsible for our big exports and large payrolls, and on these hinges the prosperity of the whole population. In order that the output of these industries be increased, capital is necessary, especially in regard to mining, which requires large capital for development purposes. The mining industry is the key to increased prosperity. As new mines are opened up, concentrators, and smelters built, a market is created for both labor and material. Every other industry reaps benefits from an increased home market. The mining industry is gaining strength each year. But it should increase even more than at present. What mining means to the province is not yet understood by those living outside of mining towns. The larger our mineral output the more money is put in circulation, which percolates through the pockets of everyone.

The harbour of New Westminster is growing. Last year 180 deep-sea vessels entered that port, in comparison with 150 the previous year.

"This may hurt you a little," said the absent-minded dentist as he handed the patron a bill.

Prince Rupert on Map As Grain Port

Prince Rupert is now well on the map as a grain shipping port. Eight ocean going vessels have taken on full cargoes of grain since October 17 when the first ship arrived. This means that two million bushels or more of grain have passed through the port in that time. The average so far has not been quite a boat a week but this will probably be improved during the months of January and February. By the end of the grain shipping season it is estimated that some thirty or forty boats will have loaded.

Ontario May Become Copper Producer

Great interest continues to be shown in the copper possibilities of the region in northern Ontario lying west of the Quebec boundary. Half a dozen townships have been thoroughly prospected. Hundreds of claims have been staked and many interesting discoveries made. The southern half of Ben Nevis Township has been pretty solidly staked. The southeast part of Clifford has all been taken up, and in Pontiac, Tannahill, Dokis and Marriott active staking has been done. Good mineralization has been shown on a number of claims in Ben Nevis. The construction of the Noranda smelter has led to a revival of interest in some of the old copper properties of Ontario, where operations has been discontinued on account of the long haul to a smelter in New Jersey, which rendered production unprofitable.

College girls are taking up boxing. They wrestle, also, but it is called dancing.

Some men are able to stand misfortunes and some others have sense enough to avoid them.

Lots of men tell the truth because it is the easiest way to fool some people.

Necessity knows no laws; wealth merely ignores it.

BRITISH COLUMBIA

The Mineral Province of Western Canada

Has produced Minerals as follows: Placer Gold, \$77,663,045; Lode Gold, \$122,808,459; Silver, \$74,111,397; Lead, \$89,218,907; Copper, \$197,642,647; Zinc, \$39,925,947; Miscellaneous Minerals, \$1,594,387 Coal and Coke, \$273,048,953; Building Stone, Brick, Cement, etc., \$44,905,886; making its mineral production to the end of 1925, show an

Aggregate Value of \$920,919,628

The substantial progress of the Mining industry of this Province is strikingly exhibited in the following figures, which show the value of production for successive five-year periods: For all years to 1895, inclusive \$94,547,241; for five years, 1896-1900, \$57,807,967; for five years, 1901-1905, \$96,507,968; for five years, 1906-1910, \$125,534,474; for five years, 1911-1915, \$142,072,603; for five years, 1916-1920, \$189,922,725; 1921, \$28,066,641; for the year 1922, \$35,158,843; for 1923, \$41,304,320; for 1924, \$48,704,604, and for 1925, \$61,492,242.

Production Last Ten Years, \$404,649,375

Lode mining has only been in progress for about 25 years, and only about one-half of the Province has been even prospected; 200,000 square miles of unexplored mineral bearing land are open for prospecting.

The Mining Laws of this Province are more liberal and the fees lower than those of any other Province in the Dominion, or any Colony in the British Empire.

Mineral locations are granted to discoverers for nominal fees. Absolute Titles are obtained by developing such properties, security of which is guaranteed by Crown Grants.

Practically all British Columbia Mineral Properties upon which development work has been done are described in some one of the Annual Reports of the Minister of Mines. Those considering mining investments should refer to such reports. They are available without charge on application to the Department of Mines, Victoria, B. C. Reports covering each of the six mineral Survey Districts are published separately, and are available on application. Reports of the Geological Survey of Canada, Winch Building, Vancouver, are recommended as valuable sources of information. Full information, together with Mining Reports and Maps, may be obtained gratis by addressing

THE HON. THE MINISTER OF MINES, VICTORIA, British Columbia

SYNOPSIS OF LAND ACT AMENDMENTS

PRE-EMPTIONS

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emption is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 5,000 board feet per acre west of the Coast Range and 8,000 feet per acre east of that Range.

Applications for pre-emption are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emption must be occupied for five years and improvements made to value of \$10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

PURCHASE

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price of first-class (arable) land is \$5 per acre, and second-class (grazing) land \$2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

HOMESITE LEASES

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled, and land has been surveyed.

LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

GRAZING

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free or partially free, permits are available for settlers, campers and travellers, up to ten head.

Marmot Metals Mining Company's Position Strong

Annual Report of Manager Details Work Accomplished and Outlines Future Plans

Portland Canal News

Prospects for the Marmot Metals Mining Co. property developing into a valuable mine are extremely bright according to the report of Managing Director Angus McLeod presented at the annual meeting of the company. The directors are convinced of this and everyone who has visited the property is of the same opinion, including a number of field engineers representing operating companies, several of whom have asked whether an option for purchase could be obtained. These were given free hand to make examinations, and told to submit their propositions, which would be considered by the company.

The Marmot Metals group consists of eight claims and two fractions most of which were staked in 1911 by H. C. Magee, G. W. Bruggy and Angus McLeod. The company was organized in the spring of 1925, the capitalization being \$1,500,000 divided into 3,000,000 shares, of which the vendors took 1,000,000 in full payment for the property. This left 2,000,000 shares in the treasury, of which 320,000 have been sold, leaving the control of the company still in the treasury.

Development started in May, 1925. A tunnel was driven 183 feet on the Peach No. 2 claim, opening up two ore shoots of zinc blende and galena that averaged 200 oz. in silver. This tunnel, the manager says, should be extended 300 feet to intersect the argillite contact which carries a cross vein of galena that has been traced for 300 feet on the surface. Beyond this are two other veins that can only be opened up by the extension of this tunnel.

On the Montana claim a tunnel was driven 117 feet and a crosscut 68 feet to intersect the Montana vein. By extending this tunnel 150 feet it would have a depth of 100 feet below the old Montana workings from which shipments of high grade ore were made in 1914, '15 and '16.

Surface prospecting disclosed a number of veins all worthy of development, including an import-

ant showing of zinc ore on the Horseshoe claim.

Work was suspended in November and resumed May 1, 1926. Surface stripping on the zinc zone disclosed several veins from two to 15 feet in width and traced for distances varying from 200 to 700 feet. The predominating value is in zinc, but the ore also carries gold and silver, with some copper. Three tunnels were driven aggregating 110 feet, the longest being 75 feet. The entire face of this is in ore, with the width of the vein not determined. By extending this tunnel 650 feet on the vein a depth of 540 feet will be secured. The ore has been traced from the portal of this down the hill for a distance of 1000 feet. The ore is of good milling grade and lies in very large bodies.

Camps have been established and a great amount of trail work done, some of which was quite difficult, necessitating blasting around a very steep hillside. The most serious problem is transportation (which is no problem at all compared with what most of the leading properties have to face.) The property is reached by wagon road 2½ miles from the beach to the forks of the river, then three miles of horse trail to the foot of Marmot mountain below the property, from which the camp is reached by foot trail. The manager recommends the construction of a tramline from the camp to the foot of the glacier, a distance of 4000 feet, which could be easily reached by an extension of the present wagon road.

Under present conditions it is not practical to carry on work during the winter, but development, including the extension of tunnels and more surface exploration, will resume in the spring as soon as climatic conditions will permit.

Fire Threatens Alice Arm Logging Camp

A fire broke out at the logging camp of F. L. Housley on Saturday evening, and was raging at its worst at 11.30 p.m. At that hour it was thought that the whole camp would be destroyed, but prompt measures taken by everyone subdued the flames.

The fire started in the wash house, which was completely destroyed, and a nearby bunkhouse was badly scorched. No one lost any personal effects and the construction of the wash house was undertaken the following day.

FAMED EXPLORER MAKES TRIP THROUGH CANADA

CAPT. ROALD AMUNDSEN, famous as the discoverer of the South Pole and renowned Arctic explorer, climbed into the cab to get "shot" with Engineer Miller by newspaper cameramen during his short stop a few days ago at the Canadian National station in Winnipeg, en route to New York to sail for Europe.

Although it was his first visit to Canada, Capt. Amundsen was unable to make any lengthy stops on

his trip from the Pacific to the Atlantic over National lines on his journey to Spitzbergen, where he joins the crew of sixteen pilots and explorers on the proposed "Rome to Nome" trip by dirigible, this spring. His objective on this newest mode of exploration is to fly over the North Pole. Many of his fellow countrymen and prominent Canadians greeted him at stations along the line to wish the intrepid captain all success in his exploit.—C.N.R. Photo.
