5 cents each.

Concentrates From Toric Mine Piling Up On Wharf

A daily stream of concentrates from the Toric Mine is coming down over the Dolly Varden railway at the rate of six or seven tons per day. Over one hundred tons will be brought down before a shipment is made.

A quantity of lumber arrived from the south on Monday for the mine, and will be used for construction of a new bunk-house and for other purposes.

Molybdenum Samples Again on Display

A new bunch of ore samples from the Tidewater Molybdenum property owned by G. W. Bruggy and Wm. MacFarlane were brought to town during the week to replace those sent to the Vancouver exhibition. The Molybdenum ore from this property again carried off first prize at the exhibition, and makes the fifth consecutive year it has done so.

Experts have pronounced the Tidewater deposits as being the richest in the Dominion. It is the intention of the owners to develop the property as soon as possible, and a company will probably be formed for this purpose.

Preparations Made To Entertain Visitors

All preparations are being made by the Alice Arm branch of the British Columbia Chamber of Mines to make the visit of the members of the Vancouver Board of Trade as interesting as possible during their stay here next Sunday.

Plans have been made by A. C. H. Gerhardi general manager of the Toric mine to convey as many as possible over the Dolly Varden railway to view the mine and concentrating mill. Gasoline speeders and trailers will be on hand at the wharf for this purpose. The majority of the visitors are expected to visit the Toric.

It is understood that a large number are making the trip north this year and every available stateroom will be occupied. The steamer Princess Alice has been chartered for the purpose.

Final Count of Atlin Vote

The official count of the Atlin constituency has been completed with the exception of one or possibly two absentee votes from Clinton to be received. The figures are as follows:

Kergin.....	587
Falconer.....	542
Moult.....	33

ANYOX NOTES

Bruce McMaster arrived on Friday from Vancouver, where he spent his holidays.

Miss May Barclay returned on Friday from holidays in the south.

J. J. Dore, L. A. Goldblod, R. Custer were among the arrivals on Friday.

Mr. and Mrs. R. C. Bray returned on Friday from an extended holiday in the south.

L. L. Hunter, D. McLeod, E. Kitchen, were arrivals on Friday from the south.

The El Doro cigar is hand made of pure leaf tobacco. Often imitated but never equalled.

Mrs. W. A. Boyce arrived on Friday from the south.

M. Shepherd, S. Benton, M. Carlson were among the arrivals on Friday.

L. Wenerstrom left on Friday for the south where he will join his wife.

Miss J. Morley left on Friday for Prince Rupert after spending holidays with her mother.

R. Mazzi, W. B. Timm, C. W. Homer were outbound passengers on Friday.

Mrs. B. Pilling left on Friday for the south.

Mrs. A. G. Card and daughter returned on Monday from holidays in the south.

Ladies Dressmaking and Embroidery work done.—Miss Luikkonen, Cabin T, Anyox, B. C. P. O. Box 405.

P. McDougall arrived on Monday from the south.

R. Hopkins, J. A. Hal, C. H. Fog arrived in town on Monday.

C. R. Cox returned on Monday from Prince Rupert where he accompanied his mother, Mrs. M. K. Cox, on her trip south.

Mr. and Mrs. A. L. Pynne and son returned on Monday from holidays spent in the south.

P. Odor, A. Knight, P. A. Oranstrom, arrived in town on Monday.

Mrs. Rilite was an arrival on Monday from the south.

A. Strand left on Monday for holidays in the south.

Mrs. L. Dodd and son were south bound passengers on Monday.

R. McMillan left on Monday for Vancouver.

Born to Mr. and Mrs. Wallace Henderson at Anyox, on Friday, August 10th., a daughter, still-born.

Ore Samples Will Be Displayed

For the convenience of the visiting members of the Vancouver Board of Trade, samples of ore from various properties will be on display on Sunday at G. W. Bruggy's old store building. Owing to the recent big exhibit sent to the Vancouver Exhibition the number of samples in town are limited, but a number of well known properties are represented which will give the visitors some idea of our mineral wealth. The building will be open throughout the day.

Large Number Enjoy House Warming Party

A highly enjoyable house-warming party was held at the home of Mr. J. Stark on Wednesday evening when thirty-three guests were invited to celebrate the finishing of the host's new residence on Valley View Heights.

The host spared no effort to make the evening as enjoyable as possible for his guests.

The evening's entertainment commenced with a banquet, and platters piled with roast chicken disappeared without any apparent effort, together with all the sidelines that go to round out a substantial meal. The host's health was proposed by A. C. H. Gerhardi and drank with enthusiasm.

Following the repast a concert was held in which everyone took part, a number of choruses were also sung.

It was one of the most delightful evenings spent by those present for a long time, and Mr. Stark, was the recipient of many congratulations for his hospitality. His new home was also much admired.

Dancers Entertained By Moose Orchestra

A very enjoyable dance was held in the Elks' Hall on Friday evening August 17. A large crowd thronged the hall from 10 p.m. until 2 in the morning. The Moose orchestra was in attendance which means that everyone enjoyed the good music, which was responsible for a great deal of the success of the evening.

Send your next films direct to Wrathalls Photo Finishing, Prince Rupert, B. C. Our high class photo work and quick returns will please you. We also do picture framing. Try us.

ALICE ARM NOTES

J. Wheatley left on Monday on a business trip to Prince Rupert.

S. Moore left on Monday for Anyox where he will spend the winter months.

Miss Jean MacFarlane left on Monday for her home at Port Hammond, after spending summer holidays with her aunt, Mrs. J. A. Anderson.

N. Sutlovich left on Monday for Anyox where he plans to spend the coming winter.

J. J. Dore, superintendent of government telegraph lines, with headquarters at Prince Rupert, spent the week-end in town, leaving on Monday morning.

Wm. Talbot, assistant district engineer arrived in town yesterday.

Divine Service will be held at the Anglican Church on Sunday by Rev. Jennings at 7.30 p.m. Sunday School at 11 a.m.

Mr. Sheppard arrived on Monday and has joined the staff of the topographical survey party under the direction of Mr. Bartlett.

G. Strombeck returned last week from Anyox Hospital where he was receiving treatment for an attack of influenza.

Mrs. W. T. Kergin and Mrs. Hardy, who have been visiting Mrs. H. F. Kergin, returned to Prince Rupert on Friday.

S. Benton arrived on Saturday from Prince Rupert and is relieving at the Government telegraph office. Before coming to Prince Rupert, where he stayed a short time he was stationed at Telegraph Creek. Mrs. Benton and child will arrive on Monday next.

W. G. McMorris, president of the Kitsault-Eagle Silver Mines Ltd, arrived in town on Monday and will spend about two weeks here.

Mrs. J. Thomas arrived home on Monday from Vancouver, where she attended the marriage of her sister.

J. C. McCutcheon, who for the past two months has been at the Toric Mine left today for Vancouver.

Constable W. Smith of Anyox arrived in town on Monday and left again on Tuesday.

Don't forget the big dance at the Alice Arm Hotel tomorrow night.

Alice Arm Birth

Born to Mr. and Mrs. Wm. Stephens of Alice Arm, on Wednesday August 22nd, a son.

Elks Win Two Games Of Post League Series

The first ball game of the post-league series was played on Monday last, when a large number of fans attended.

The Elks, who are a good many games ahead, were again victorious with a score of 8-4. This game gives the Elks the first game of five in the series.

Whitehouse still seems to be able to pole out 3-base hits without any apparent effort. Evans for the Elks had some bad luck when he sustained a blow on the mouth from a thrown ball.

The line-up of the teams was, Elks: Lazoreck, Chenoski, Cody, Bartmann, Sheen, McDougall, Barclay, Wilson, Evans. Concentrator, McColl, Whitehouse, Knight Cavalier, Mattix, Musser, Dresser, Mackay, Meagher.

The second game of the post-league series was again chalked up to the credit of the Elks, when they repeated their former victory over the concentrator. The score was close, being 5-4. The line-up of teams was, Elks: Lazoreck, Cody, Bartmann, Sheen, Chenoski, MacDougall, Steele, Wilson, Evans. Concentrator: McColl, Whitehouse, Knight, Cavalier, Mattix, Musser, Dresser, MacKay, Meagher.

Excursionists Spend Day Larcom Island

A large number of Anyox residents spent a very enjoyable day at Larcom Island on Sunday. The weather was ideal, and the opportunity was taken advantage of by the Anyox Community League, who had charge of arrangements for conveying the picnickers back and forth.

The Granby Co. kindly loaned the launch Granby for transporting those who wished to go, and the courtesy was greatly appreciated. Praise is also due to the officials of the Community League for the efficiency shown in handling the large number.

Dr. Hanson Completes Survey

Dr. Geo. Hanson and his assistant, Mr. Goranson, of the Dominion Geological Survey Department, have completed the geological survey of the Upper Kitsault Country and arrived in Alice Arm yesterday.

Loses Pack Horse on Trail

While moving camp for the Dominion topographical survey party, a misfortune befell Al. Falconer when a horse stumbled off the mountain trail pulling another with it. One horse sustained a broken ankle and was shot, and the other was badly cut up but is expected to recover.

BIG LABOR DAY DANCE

The Big Dance of the Fall Season will be held on Monday, September 3rd, at the Elks' Hall, under the auspices Loyal Order of Moose. Dancing from 9 to 2. Moose Orchestra. Refreshments. One Dollar a Couple.

Will Re-pay War Loans In Cash

Fifty-three million dollars of Dominion of Canada war loans, which mature in October, will be paid in cash. Hon. J. A. Robb, minister of finance, states that these obligations would be met out of money in the treasury.

Here and There

(117)
The Maritime Livestock Market was organized in March, 1927, to market Maritime livestock—chiefly hogs, lambs and some cattle—for 7,000 members of over eighty clubs in the three Maritime Provinces. The report of the first year shows \$552,637 received for 29,417 lambs, 19,918 hogs, 20 calves and 414 cattle.

An extension to the air express services maintained by the Canadian Pacific Express Company has been announced, and a new air line will be opened early in September between New York, via Albany, and Montreal. Lines are already operating between Rimouski, Montreal, Toronto, and Ottawa.

A name of unusual distinction will be added to the Canadian Pacific's Royal Family of ocean steamships when the fourth 20,000 ton vessel of the new "Duchess" class is launched in Scotland. She will be named the "Duchess of York," and will be christened by Her Royal Highness the Duchess of York herself, the ship's name being recently changed from the "Duchess of Cornwall."

Despite the doubts of nervous tourists, the grizzly bear is more attracted by the sight of a huckleberry bush or a stream full of fish than the prospect of a juicy specimen of humanity, and the splendid crop of huckleberries now in British Columbia will probably contribute to a successful hunting season during the month of September and the early part of October.

Fort William, Ontario. — Three grain elevator corporations with large interests at the Head of the Lakes are involved in a merger of several powerful Canadian terminal and line elevator companies, the new company being known as the Canadian Consolidated Grain Company. A total of 12,000,000 bushels of elevator capacity will be owned and operated by the new company.

Betty and Buster Bruin, two little black bear cubs, have sailed from Montreal for Italy where they will be presented to the Marquis de Pinedo, the famous Italian round-the-world flier. They are woolly babies, scarcely larger than a child's toy teddy bear, and of an amiable disposition. They were obtained by Mr. E. Roncarelli of Montreal, through the General Tourist Department of the Canadian Pacific Railway, and are similar to the little bears sent over by him a few years ago to Mussolini.

The Dominion Government is going in for pigeon breeding with the object of training these birds for purposes of communication. The Department of National Defence is to have charge of the work. The Civil Service Commission has announced an open competitive examination for a pigeon-loft manager in connection with the civil Government air operations of the Department of National Defence, to organize and administer a pigeon communication service.

The Canada Goose makes remarkable migratory flights but it is not generally known that civilization has so far effected his habits that sometimes he travels by railway. A pair of wild geese enjoying this modern luxury passed through the Windsor Station, Montreal, under the proverbial wing of the Canadian Pacific Express in a specially constructed crate. There are a number of bird sanctuaries throughout Canada and the United States where pinioned geese are kept to reassure their comrades that all is safe and secure for them to stop and rest on their flights north and south.

Stocks of Copper Are At Low Level

Available supplies of copper are now light with the result that prices are maintaining a high level, according to the Brookmire Economic Service. It is true, it adds, that the rate of production has expanded both in the United States and abroad but there has been a further decline in refined stocks to a very low level. Moreover, further reductions in stocks in British official warehouses occurred.

Consumption is receiving its largest impetus abroad rather than in America although some misgivings are felt over trade prospects in Germany. This is offset by recovery in countries, such as France, which have been lagging.

In the United States the outlook in the electrical, building and automotive lines favors continued high domestic distribution.—The Financial News.

Dr. MacLean Will Consider Re-entering Politics

At a dinner recently given in Vancouver at which Premier MacLean was the guest of approximately 25 of the leading members of the party on the lower mainland the most the Premier would say in response to the plea of his followers that he would continue at the head of his party was that he would consider it.

The investment in the operating mineral enterprises of Canada is now over 706 millions of dollars, and the net income annually from sales of products of the mines exceeds one-third of the total investment. During the past five years \$128,000,000 has gone into the mining industries of Canada.

REFORESTATION

Much has been said recently about re-forestation in B. C. The present forest is the result of natural re-forestation when the human hazard was not present to defeat nature,

Natural re-stocking of cut over lands is now going on, as may be seen everywhere, and nature will again re-establish the forests if only fire is kept out.

The increase of Canada's population by immigration is a problem that has taxed the brains of Canada's leading statesmen for a great many years. At the present time the problem seems far from being solved. The latest scheme is to bring out from Great Britain many thousands of men to work as harvesters, and these will shortly arrive. While the majority may find work in the harvest fields during the next two months, what will happen to those who don't and what is going to happen to these thousands when the harvesting is finished? The prairie is an inhospitable country for an out-of-work stranger to be in during the winter months. With no money, friends, or home, or work what is he to do, except to accept charity or starve? While every good loyal Canadian wishes to see our empty spaces filled with a prosperous population we do not believe that it will be done by bringing men here in the fall of the year. If immigrants are to be encouraged they should be given encouragement during the spring, when they have a chance to make good before the winter commences.

The mining boom in British Columbia shows no signs of abating, and those who are in close touch with the industry throughout the province, emphatically state that a boom does not exist, but that the mining industry is still in its infancy. The reason that mining has engaged the attention of the public recently is the fact that the people of British Columbia are commencing to realize the enormous extent of the mineral wealth of the province and the fruitful field it offers as an investment. It is well known that a large number of the biggest fortunes ever made were due to mining. The men who made their money in mining were willing to take a chance on a promising property. They backed a winner and won a fortune. What has happened in the past is happening today and will continue long after we have finished admiring the high grade along the celestial highways. Mining in British Columbia is stepping right along. We now have 126 shipping mines and the number is increasing. British Columbia is now the world's third largest producer of zinc and fourth of lead. She is Canada's largest producer of copper, and follows Ontario a close second in the production of

Mining News From The Stewart Camp

Good Ore Reported George Copper

Portland Canal News

If the report which we have on pretty good authority is correct, development of George Copper property would appear to be reaching a very interesting stage, a condition, in fact, that presages extensive development by the Consolidated Smelters, who are now doing the work. The report, which is accepted as pretty much of a fact on the streets of Stewart, is to the effect that the drills which recently started work again have cut a 50-ft. body of copper ore, and while the story gives nothing as to values, it is said to be good looking ore.

If correct, this is one of the most important events to the upper Bear in many months, as it will mean greater development and enhances the chances of a large operation in that section.

High Grade at Premier

The report circulated in the district to the effect that new high-grade ore has been located in the Premier Mine is probably based on the breaking of new high grade ore in the stopes as development work is carried on. According to authoritative information received this week by the News, the report as to the breaking and shipment of new high grade is correct.

Increase on This Year's Salmon Pack

To date the British Columbia salmon pack is in advance of what it was last year, for the same period. The total is 324,076 cases, according to a bulletin issued a few days ago by the Dominion Fisheries Department. The corresponding total for last year was 280,319 cases. There is a decrease of sock-eye and spring salmon, but more of the coho, pink and chum varieties. In the north it is expected the run of humpback will be large.

silver. The province of British Columbia covers a large area, and some districts naturally obtain a lead on others in development work. But every promising camp will ultimately be developed, and among them Alice Arm, which has the reputation of being one of the richest camps in the province.

SYNOPSIS OF LAND ACT AMENDMENTS

PRE-EMPTIONS

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emptions is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 5,000 board feet per acre west of the Coast Range and 8,000 feet per acre east of that Range.

Applications for pre-emptions are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emptions must be occupied for five years and improvements made to value of \$10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

PURCHASE

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price of first-class (arable) land is \$5 per acre, and second-class (grazing) land \$2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

HOMESITE LEASES

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

GRAZING

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free, or partially free, permits are available for settlers, campers and travellers, up to ten head.

BRITISH COLUMBIA

The Mineral Province of Western Canada

TO END OF DECEMBER 1927

Has produced Minerals as follows: Placer Gold, \$78,174,795; Lode Gold, \$130,651,919; Silver, \$86,689,046; Lead, \$121,850,734; Copper, \$221,501,079; Zinc, \$59,508,692; Coal, \$271,294,668; and Miscellaneous Minerals, \$53,502,301, making its mineral production to the end of 1927, show an

Aggregate Value of \$1,048,837,828

Production for Year Ending December, 1927, \$60,729,358

The Mining Laws of this Province are more liberal and the fees lower than those of any other Province in the Dominion, or any Colony in the British Empire.

Mineral locations are granted to discoverers for nominal fees.

Absolute Titles are obtained by developing such properties, security of which is guaranteed by Crown Grants.

Full information, together with Mining Reports and Maps, may be obtained gratis by addressing—

The Hon. the Minister of Mines, VICTORIA, BRITISH COLUMBIA

Practically all British Columbia Mineral Properties upon which development work has been done are described in some one of the Annual Reports of the Minister of Mines. Those considering mining investments should refer to such reports. They are available without charge on application to the Department of Mines, Victoria, B. C. Reports covering each of the six mineral Survey Districts are published separately, and are available on application. Reports of the Geological Survey of Canada, Winch Building, Vancouver, are recommended as valuable sources of information.

Mining Engineer Inspects Properties

D. C. McKechnie, mining engineer for the Canada Consolidated Mining & Smelting Co. arrived in Alice Arm on Monday and left on Friday. While here he examined mining properties on the North-East Fork of the Kitsault river in company with W. G. McMorris. During his previous visit of a few weeks ago he examined properties on McGrath mountain.

Apples Flourish at Alice Arm

Apple orchards in Alice Arm will be among the future attractions of this mining town nestling among the mountains at the head of the inlet, judging from the display of apples on the trees at the Alice Arm Hotel. The apples are of good color and a fair size, and last season were of an excellent eating quality.

Californians Take Interest In North Mining

People in California are taking a greater interest in mining in British Columbia, states Mr. Forrest L. MacDonald, president of the Utility Mining & Financing Co. who recently returned from a trip to San Francisco and other Californian cities. Those in the south are becoming more acquainted with our vast mineral riches of the north, and the financing of companies who are developing a meritorious property is becoming easier than formerly.

The Utility Co. is at present developing the Tiger property with outstanding success, a report of which appeared in the Herald two weeks ago.

Mining Companies Want Men

The prosperity of the province, especially the northern portion is shown by the shortage of labor that is now prevalent. Several mining companies are unable to obtain sufficient help to complete their outside work before the winter sets in.

During the week a telegram was received by H. F. Kergin, M. L. A. from the Premier mine requesting the services of any idle men around Alice Arm. A telegram was also received from Atlin asking for men.

The Granby Co. also are placing men whenever they can be secured.

Apparently everyone will have a chance this year to make a stake before the winter snow hits this section of the province.

Buffalo Meat Sent to Eskimos

With the final shipment of buffalo from Wainwright Park to the reserve, on the northern edge of Alberta, the number has reached 1,088. Pemnican, prepared from the flesh of buffalo slaughtered last year, is being shipped to an eastern port, for transportation to the natives, in the eastern Arctic. Pemnican has also been sent by water to Eskimos in the vicinity of Akalvik.

Great Britain Still Leads As World's Creditor

In a report to the Economic Committee of the League of Nations at Geneva, some remarkable figures were disclosed. Although the United States are certainly growing in importance, Great Britain is still the world's greatest creditor; her foreign investments are roughly given as £4,000,000,000. The United States investments are given at £2,800,000,000.

VISITING CANADA

The three daughters of the Rt. Hon. J. Ramsay MacDonald, former Premier of Great Britain, who are visiting Canada with their father. The photograph, taken aboard the Canadian Pacific liner "Empress of France" shows: Joan, who is a second year medical student; Isabel, eldest daughter—the youngest member of the London County Council; and Sheila, the youngest, who is still at school.

Mr. Ramsey MacDonald and daughters are now visiting in Vancouver and Victoria, and on Friday next will be in Prince Rupert on their way east.
