VOL. 7, NO. 1 — ALICE ARM, B. C., FRIDAY, JULY 15, 1927 — 5 cents each.

Big Ore Body Being Cut Through on The Eagle

The crosscut tunnel being driven on the Eagle by the Kitsault-Eagle Silver Mines Ltd. has cut through 22 feet of ore, and the wall has not yet been reached. The tunnel is in 80 feet, and is being pushed as rapidly as possible.

The ore is composed of silver, copper and gold, and a big tonnage is being developed. This ore body is known as the No. 1. With the extension of the tunnel of an additional 80 feet it is expected to encounter another ore body known as No. 2.

Development work on the Silver Cord, which is being developed by the Kitsault-Eagle Co. is being carried on uninterruptedly. The No. 2 tunnel has been commenced. This tunnel is 150 feet lower elevation than the one driven last winter, and when driven 300 feet a depth of 250 feet will be obtained on the ore body.

The success attained in driving the upper tunnel has made it necessary to obtain greater depth, and when this has been accomplished it will be an easy matter to block out a large tonnage of ore.

The Silver Cord is a promising property. The ore carries values in lead, zinc, silver and gold. Big bodies are known to exist, and proving up these at depth will result in the birth of a big mine.

Work on the trail to the Silver Cord was suspended during the week, but as soon as an examination has been made by W. A. Talbot, *government engineer it is* expected that work will be resumed. Eight miles of trail have been built this year and two bridges built.

The amount of development work done on the LeRoy depends on what date the trail is completed. It is planned by the company to do considerable work this year if transportation facilities to the property can be secured.

Outsider and Golkeish Mines Shipped Considerable Ore

Last year the Outsider mine at Maple Bay shipped 34,729 tons of ore to Anyox smelter, which yielded 1,036,113 pounds of copper. The Golkeish mine shipped 6,212 tons of ore, which yielded 570 ozs gold and 3,418 ozs. silver. Both these properties are operated by the Granby Co.

Big Tonnage Mined Anyox

The total tonnage of ore mined at Anyox last year was 1,211,619 tons, all from Hidden Creek mine. Of this 604,398 tons were smelted and 602,015 tons milled. The ore milled produced 52,840 tons of concentrates.

E. C. Perry arrived on Monday from Prince Rupert.

ANYOX NOTES

Mrs. A. Cameron and family were southbound passengers on Saturday, to Puget Sound ports, on a short visit.

Mr. and Mrs. W. F. Eve and family, together with a party of friends, spent the week-end at Silver City and Alice Arm.

Mrs. B. Shelton and family are spending holidays at Silver City.

You are sure of a good fresh cigar when smoking an El Doro, for they are shipped direct from the factory

D. Evans, of the Mine returned on Monday from a short visit to Prince Rupert.

H. Cathro returned on Monday from holidays spent in Vancouver.

Mrs. Tamkin and family are spending holidays at Silver City.

Misses Mildred and Lillian Dresser are spending a vacation in sunny Alice Arm.

Mrs. W. F. Barclay and family are enjoying holidays amid the beautiful surroundings of Silver City.

Mrs. Gilmour and Miss Gilmour arrived on Monday from Prince Rupert.

Mr. and Mrs. G. Hamilton were arrivals on Monday from Vancouver.

Mrs. A. E. Scott and family, old residents of the camp, left on Monday for their new home at Valley, Washington.

Mr. and Mrs. Chas. Booking arrived home on Friday from the south.

Mrs. E. Armstrong returned on Friday from holidays spent in the south.

Mrs. R. H. Manzer and family are spending a vacation at Silver City.

Geo. Woodland representing the Imperial Oil Co. was a visitor in town over the week-end.

Mrs. J. Gurvich and two children of Prince Rupert arrived on Friday to visit friends here.

Our suits are made to fit. All work done on the premises, right in Anyox. A. Galy.

H. M. Selfe returned on Friday from a short visit to Prince Rupert

Among the arrivals on Monday, were: H. C. Levensaler, Miss Churchill, Miss Morris, Miss Dykeman, Mrs. A. C. Fjeostayd, Messrs. Campbell, Monture, Robinson.

E. Green, a former resident of Anyox, arrived on Friday from California to visit his sister, Mrs. F. Mattix.

Chas. Cundill left on Tuesday for Silver City, where Mrs. Cundill and family are spending holidays.

Continued on page 4

Vanguard, Copper Cliff, and Red Point all Being Developed

Homestake To Be Developed Immediately

The Victor Spencer interests, of Vancouver, who last year bonded the Red Point, Vanguard, Homestake and Copper Cliff mining properties have their year's programme of work well under way.

On Tuesday the compressor plant recently installed at the Red Point was put in operation. After a few rounds have been put in on the No. 1. body about 50 feet from the portal of the tunnel, the drill will be put to work extending the main crosscut tunnel that up to now has been driven by hand. This tunnel will be driven until the big ore body known as No. 2. has been cut which it is expected will be done at about an additional 100 feet. At the present time the tunnel is in about 325 feet.

A contract for a tunnel 100 feet in length was commenced this week on the Copper Cliff property. The contract was taken by Jens Larson, an experienced hard rock man of the district. If success is attained in the driving of this tunnel it will probably be extended for a further distance and future plans will then be made regarding development.

Development of the Homestake has not yet been commenced. An examination is being made and it is expected that work will be commenced between the 20th. and 25th of this month.

The tunnel on the Vanguard, 150 feet in length, for which a contract was recently let, is now well advanced.

Sensational Ore Strikes This Week

Just as the forms of type were being made up to be rushed to the presses, news was received at the Herald office from official sources that sensational ore had been encountered at the Esperanza mine and the Tiger.

The Esperanza ore was encountered in the old workings.

The Tiger ore was hit in the tunnel that is being driven by Ed. Pickett, and who was confident that he would locate it, after a careful study of the ground, on the surface.

Anyox Horse Shoe Throwing Contest in Progress

Something new in the line of sports is being offered by the boys down at the cement rooming house A horseshoe tossing tournament is in progress. There are quite a number of entries and the games are being run off in fine style. We will print a list of the winners upon the finish of the contest.

Advertise in the Herald

ALICE ARM NOTES

Mrs. Hanson arrived on Saturday from Stewart, on a visit to Miss Cora Teleffson. She left for Stewart on Monday accompanied by Miss Teleffson.

Mr. Murray, who has spent the past few weeks at the Esperanza mine, left on Monday for Vancouver, where he plans to stay.

Mr. and Mrs. M. W. Maxwell, who spent ten day's vacation here left on Monday for New York.

Mrs. F. D. Rice returned on Monday from a short visit to Prince Rupert.

The regular monthly meeting of the Alice Arm branch of the B. C. Chamber of Mines will be held in the Anglican Church, on Monday evening at 8 p.m. Everyone is requested to be present. Don't forget the date. Next Monday.

Miss Emma Deickman arrived on Saturday from Mankato, Minnesota on a visit to her uncle, Mr. Davidson, leaving again on Monday morning. During her stay she visited Camp 8, and was enraptured with the wild rugged scenery of the district. She will travel home via southern California.

John D. Galloway, provincial mineralogist, arrived from Victoria on Tuesday and left on Thursday morning. During his stay here he visited the Toric Mine.

P. E. Peterson, who is in charge of operations at the Saddle property on Hastings Arm arrived on Saturday from Anyox. During his stay here he inspected several mining properties.

W. B. Timm, A. H. A. Robinson and G. C. Mouture, members of the geological department at Ottawa, arrived on Saturday and left again on Monday.

Following a moist spell the weather has turned fair and warm. Those who have a strawberry patch are now filling up The crop this year is as big as ever.

The annual Sunday School picnic of the Anglican Church will be held on Saturday, July 30th. at Campers' Point. Ladies are requested to bring a basket of refreshments. Everyone invited.

Christine Nucich arrived from Anyox on Saturday to spend holidays with her mother.

F. Hunter, who operates a gasoline speeder for the Toric Mines Co. Ltd. is incapacitated for a few days. He slipped on a wet rail and in falling injured several ribs.

Seven men came down from the North-East Fork this week, where they have been building trail. Before their arrival there was not an idle man in town. That's prosperity.

The trout has commenced to run in the numerous streams around Alice Arm, and both local and Anyox anglers are enjoying first-class sport. From now on fishing will be good.

Two Feet of High Grade Silver Ore Mined at Wolf

The man who dodges from one job to another, or who scratches a little dirt from one mineral claim and jumps to another, generally finishes where he started. But those who put their heart and soul into one big idea are those who generally win.

Under the head of the latter are J. Fiva and P. Peterson, who for nearly two years have developed the Wolf mine, which is about three minutes walk from Alice Arm.

After doing considerable work on the surface incidentally taking off 11 tons of high grade ore they drove a long tunnel to reach it underground. This they did and commenced drifting on the ore to the north. They mined considerable ore, driving an upraise through to the surface, in following the ore, a distance of 70 feet.

Ventilation being provided, they changed the scene of their activities, and commenced drifting on the ore to the south. Here it was that they got real results, for the vein widened out to a width of over two feet of the finest silver ore ever encountered underground, except in a very few cases. The walls of the vein are well defined, and its persistency is shown when it can be traced on the surface a distance of 1600 feet.

The ore carries native, ruby and brittle silver and is very spectacular. After almost two years of hard muscular work, the hopes of the operators are being realized and a high grade mine right at our doors, will, through their perseverance, become an asset to the district of considerable importance.

Shower For Anyox Coming Bride

A shower was held at the home of Mrs. W. F. Eve in honor of Miss Anne Callaghan, whose marriage to Mr. Reg Cornish is to take place shortly at Nelson B. C. Cards and guessing games were indulged in, the winners being, 1st. prize at Court Whist, Mrs. J. A. Walters, 2nd. Miss Georgie McLeod Consolation, Mrs. H. Kirk. Mrs. J. Wynne was the winner in the guessing contest. There were over forty guests present, and the bride-elect was the recipient of many and varied useful gifts. Miss Kathleen Eve, in presenting the basket of gifts made a very pretty little speech.

Mogul Takes Out 468 Tons Of Copper

The S. S. Mogul arrived from Stewart on Saturday at 8 a.m. loaded with 966 tons of concentrates and 2718 tons of Premier ore. She loaded 468 tons of copper at Anyox and left for southern points at 5 p.m. the same day.

E. MOSS, Editor and Publisher.

If the Alice Arm branch of the British Columbia Chamber of Mines is to send an ore exhibit to the Vancouver Exhibition it is time arrangements were made for the collecting of specimens. At the time of writing it is problematic whether a display will be sent or not. It takes considerable labor to bring large specimens from the hills each year, but that should not be a handicap, as it is impossible to get results unless labor is expended, not only in mining but in every other business. Advertising our mineral riches with ore specimens is a necessity, but whether the best results can be obtained from a home display or shipping them out is a matter that should be settled at an early date.

The copper market is in one of its doldrums. The best informed copper men are confident, however, that the slump is not permanent, and that the red metal will soon demand prices that will place it among the most attractive metals. Meanwhile, copper companies are reducing their expenditures to the minimum, in order to tide them over the dull period. When this has passed an expansion of their activities can be confidently looked for. That the future is encouraging can be judged from the fact that large deposits are being developed at Alice Arm, Stewart and Vancouver Island, by companies who know mining and can read the future as clearly as anyone connected with the industry.

What are the future prospects of the mining industry of Alice Arm? is a question often asked us these days, often verbally and sometimes written. To which we reply: They were never better. More properties are operating this year than ever before. More money is being expended and excellent results are being attained. The prosperity of the camp will increase each year, the final result of which will be a permanent payroll of considerable dimensions. We do not anticipate a wild hysterical boom, but progress seems to be following the lines of a steady yearly improvement, built on a solid foundation. Every mining company now operating is receiving full value for money expended. The money is being invested in powder and steel instead of luxurious office suites in Vancouver. The hills of Alice Arm contain too much ore for the camp to stand still. It is bound to grow and grow fast.

Consumption of Copper Per Capita Increases

On the average each person in the United States "used" 15.31 lb. of copper during 1926, compared with 14.54 lb. in 1925, with 13.50 lb. in 1924, and only 8.49 lb. in 1921. The consumption in both 1919 and 1920 was greater than in 1921, however. These estimates are made by the American Bureau of Metal Statistics and are published in the 1926 Year Book, just off the press.

The figures in the accompanying table are derived from reports of consumers and include secondary metal as well as virgin production. In the last seven years the Bureau estimates that total manufacturers have taken 4,913,283 tons of copper whereas deliveries during the same period were 4,753,481. The apparent discrepancy is accounted for in large part by the use of secondary metal.

District's Mining Inspector Commended

Public officials who render valuable service to the community too often fail to see it appreciated. It gives us pleasure to express the esteem in which T. J. Shenton, Inspector of Mines for northern British Columbia, is held by operators in his district. While conscientious and fearless in the execution of his duties, he is ever ready to lend a helping hand in the solution of problems confronting the mines under his jurisdiction and has on several occasions shown the management how to meet and overcome difficulties met with in the course of operation of properties under their charge.—Mining & Industrial Record.

Agriculture, for so many yearsof paramount importance in Canada, has been largely supplanted by manufacturing.

SYNOPSIS OF LAND ACT AMENDMENTS

PRE-EMPTIONS

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emptions is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 5,000 board feet per acre west of the Coast Range and 8,000 feet per acre east of that Range.

Applications for pre-emptions are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emptions must be occupied for five years and improvements made to value of $10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

PURCHASE

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price of first-class (arable) land is $5 per acre, and second-class (grazing) land $2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

HOMESITE LEASES

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

GRAZING

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free, or partially free, permits are available for settlers, campers and travellers, up to ten head.

BRITISH COLUMBIA

The Mineral Province of Western Canada

Has produced Minerals as follows: Placer Gold, $78,018,548; Lode Gold, $126,972,318; Silver, $80,787,003; Lead, $106,976,442; Copper, $209,967,068; Zinc, $50,512,557; Coal and Coke, $284,699,133; Structural Materials and Miscellaneous Minerals, $50,175,407, making its mineral production to the end of 1926, show an

Aggregate Value of $988,108,470

The substantial progress of the Mining industry of this Province is strikingly exhibited in the following figures, which show the value of production for successive five-year periods: For all years to 1895, inclusive $94,547,241; for five years, 1896-1900, $57,607,967; for five years, 1901-1905, $96,507,968; for five years-1906-1910, $125,534,474; for five years, 1911-1915, $142,072,603; for five years, 1916-1920, $189,922,725; for five years, 1921-1925, $214,726,650; for 1926, $67,188,842.

Production Last Ten Years, $429,547,755

Lode mining has only been in progress for about 25 years, and only about one-half of the Province has been even prospected; 200,000 square miles of unexplored mineral bearing land are open for prospecting.

The Mining Laws of this Province are more liberal and the fees lower than those of any other Province in the Dominion, or any Colony in the British Empire.

Mineral locations are granted to discoverers for nominal fees.

Absolute Titles are obtained by developing such properties, security of which is guaranteed by Crown Grants.

Practically all British Columbia Mineral Properties upon which development work has been done are described in some one of the Annual Reports of the Minister of Mines. Those considering mining investments should refer to such reports. They are available without charge on application to the Department of Mines, Victoria, B. C. Reports covering each of the six mineral Survey Districts are published separately, and are available on application. Reports of the Geological Survey of Canada, Winch Building, Vancouver, are recommended as valuable sources of information.

Full information, together with Mining Reports and Maps, may be obtained gratis by addressing

THE HON. THE MINISTER OF MINES,
VICTORIA, British Columbia

Provincial Election May Shortly be Held

The death of Dr. Rothwell, Liberal member for New Westminster in the Legislature, has again revived the possibility of a provincial general election. The matter it is understood will be discussed by the government next week and a definite decision arrived at.

It is thought that the present time may be an auspicious one for general election as the government stands well throughout the country and supporters of the administration feel sure of it being again returned, should an appeal be taken now.

It is possible that Premier Oliver may retire before the election takes place and that the cabinet will be reorganized under a new premier but who that premier is to be is scarcely suggested. The choice seems to lie between Hon. T. D. Pattullo, minister of lands, Hon. A. M. Manson, attorney general, and Dr. McLean, minister of finance who has been acting premier during the absence of Mr. Oliver.

For some people a new money-making scheme would be the old-fashioned way of earning it.

Trail Smelter Smoke to Be Manufactured

Extensive plans are being made and construction will be proceeded with immediately of a large contact process sulphuric plant at the Consolidated Mining and Smelting Company's plant. This plant will make sulphuric acid from the smelter fumes, and the first unit will cost approximately $250,000, according to announcement made by the management.

In conjunction with this plant, an experimental phosphate fertilizer plant will be erected, using phosphate throughout from the fields in the Crowsnest district, where the Consolidated has located large beds. Any sulphuric acid which will be made and used in this connection will reduce the sulphuric dioxide in fumes to that extent and consequently will reduce smoke damage.

Consolidated Co. Declares Another Dividend

The Consolidated Mining and Smelting Company of Canada have declared a dividend of 5 per cent. for the six months ending June 30th payable July 15th. to shareholders of record on June 30th. In addition the directors declared a bonus of $5.00 per share, making the total distribution $6.25 for each share.

Mr. White, secretary to Mr. Chas. Bocking, returned to town on Friday.

It's not yet too late for your summer suit. Stan. Ballard, Anyox Tailor Shop.

Mrs. Gigot and family are spending holidays at Silver City.

J. Hill, of the General Store staff, is spending a vacation at Alice Arm.

A. Galy, spent the week-end in Alice Arm enjoying the scenery.

Mrs. E. Craggs and child left for Vancouver on Monday to join Mr. Craggs who is located there now.

Mrs. J. M. Dunn was a south-bound passenger on Monday for Vancouver.

All roads lead to the Elks' Hall on Monday evening July 25th. Big Carnival Night and Jitney Dance. Lots of good prizes, including, Indian Blankets, Bathrobes, Chappie Coats, Doll Lamps, Parasols. Don't forget the date. Doors open at 7 p.m. close at?

Mr. and Mrs. C. Brown of the Mine were south-bound passengers on Monday.

James Weir was a passenger to Vancouver on Monday.

C. E. Hill of the Draughting Office left on Monday for Vancouver.

A. Whittaker, better known as "Old Arkansaw," an old timer of the camp left for the south on Monday.

For a quiet rest try the Alice Arm Hotel. Pleasant surroundings. O. Evindson. proprietor.

Murdo Frazer, was a passenger on Monday enroute to Scotland for holidays. He will be back with us again in the fall.

Harry Kirk, left on Monday for a short trip to Vancouver.

Jack McConachie was a south-bound passenger on Monday for holidays.

Mrs. J. A. McMaster and children were passengers on Monday's boat for Vancouver.

Stan Ballard left on Wednesday for Alice Arm and returned home today.

Toric Mines on Vancouver Stock Exchange

The Toric Mines Co. Ltd. are now listed on the Vancouver Stock exchange. The stock is in great demand, latest quotations being $5.30 asked, $4.90 bid. Par value of stock is $5.00.

BIRTH AT ANYOX

Born to Mr. and Mrs. J. Jeffreys at the Anyox Hospital, on Thursday, July 7th. a daughter.

Mrs. F. Watson and daughter left on Thursday for Alice Arm where they will spend holidays.

Will an election be held this year? is the thought uppermost in the minds of leading local leaders of political parties. It is becoming the general opinion throughout the province that a general election will take place this year, and the different parties have named their candidates. Who will oppose the sitting member, H. F. Kergin in the interests of the conservatives has not yet been made public.

J. E. Merryfield, a pioneer business man of Prince Rupert, and now of Vancouver, who until recently was provincial organizer for the conservative party and now in insurance, spent several days in Anyox and Alice Arm during the week end.

The advertising columns of the Herald is the surest way of broadcasting your message, whether it is a house or phonograph for sale; a dance to be held, or anything you wish the public to know about. A dollar or two invested in advertising is the biggest dividend payer on record, especially where tickets are sold for admission to a dance or other social event. Try and be convinced. Spend one dollar and pick up ten.

It is better to be slandered by some men than to be praised by others.

WATER NOTICE

(Diversion and Use)

TAKE NOTICE, that Toric Mines Ltd., whose address is 706 Credit Foncier Building, Vancouver, B. C. will apply for a licence to take and use one cubic foot per second of water out of Tumble Creek, which flows westerly and drains into Kitsault River about 300 feet north of Kitsault Suspension Bridge, The water will be diverted from the stream at a point about 550 feet North 59° East of South-West corner of Ruby M. C. Lot 4210 Cassiar District, and will be used for wash water for concentrator purpose upon the mine described as Toric Mineral Claim Lot 935, Cassiar District. This notice was posted on the ground on the 11th. day of June, 1927. A copy of this notice and an application pursuant thereto and to the "Water Act" will be filed in the office of the Water Recorder at Prince Rupert, B. C.

Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B. C., within thirty days after the first appearance of this notice in a local newspaper.

TORIC MINES Ltd., Applicant
By Frank D. Rice, Agent

The date of the first publication of this notice is June 18th. 1927.
