Large Throng Attends Popular Tennis Dance

The Elks' Hall was taxed to capacity last Friday, when the Anyox Tennis Club entertained at their annual dance. Music was furnished by the Novelty Six orchestra, whose performance drew many compliments.

A pleasing ceremony was performed during the evening when cups were presented to the champion lady and gentleman tennis players of the season. The ladies' cup was won by Miss Mildred Dresser and the gentlemen's by Mr. Ross Oatman. The presentation was made by Mrs. Cavers. Along with the large cup, which is retained for the year, was awarded a miniature, which remains the property of the winner.

Winners of the tournament held on the Hidden Creek club court also received prizes. The winner was Mrs. M. Thompson. The cup this year was donated by Mr. F. Dresser, which Mrs. Thompson retains permanently. Miss Marjory Cloke, as runner-up, received a bon-bon dish.

Prizes were won for novelty dancing, by D. Dean and Miss Doris Carter and Geo. Bailey. The lucky ticket was held by L. Bond, Mrs. C. Reid also obtained one of the lucky prizes.

Throughout the evening, Mr. D. T. Evans acted as Master of Ceremonies. The catering of the supper was of a high order. Credit for the excellent arrangements made and carried on is due to a committee comprising Mrs. W. F. Eve, Mrs. R. O. Cutler, Messrs. Cavers, Field and Stevens.

Still Driving In Ore On Saddle Property

The tunnel at the Saddle property is still being driven in ore, stated Mr. A. Knox, general manager, who was in Alice Arm during the week. All outside work has been completed for this year. The tunnel, however, will be pushed ahead. A contract has been let by the Silver Crest Co. for 400 feet of tunnel work this winter.

During the past few days the ore has increased in richness and the future of the property is very bright.

Community League Will Be Hosts To Children

The Community League will be hosts to the young people at the Gymnasium on Thursday next, Hallowe'en night. This is a masquerade and Councillor Gourlay, who is Chairman of the Committee, intimates that no pains will be spared to make it an attractive entertainment.

League Council Holds Short Session

The Anyox Community League Council held a short session on Wednesday. Plans to equip a wash room in the Beach pool room were approved. In the absence of Mr. MacDougal, Mr. Clark reported progress on the provision of curtains for the Library and the Dining Room in the Gymnasium.

The President reported that all recommendations to the Finance Committee had been approved, including the payment of $11.65 to the Scouts to defray the deficit remaining from the Annual Camp. Mr. McKay reported some progress in organizing basketball, and it was agreed by the Council that the purchase of two sets of basketball sweaters and socks be recommended. Mr. Dunwoodie reported that he was still working on details connected with the kindergarten project. The Council discussed the arranging of a regular series of card parties but decided that there seemed to be sufficient of these already provided. Mr. Gourlay reported arrangements well in hand for the children's masquerade party on Hallowe'en.

Enjoyable Card Party Held At Alice Arm

On Saturday evening a very enjoyable card party was held in T. W. Falconer's hall. It was given by the Alice Arm Athletic Club, and was the first of a number that has been planned for the winter months.

Bridge was played at every table. The winner of the ladies first prize was Mrs. J. Trinder; consolation prize, Mrs. D. C. McKechnie. Gents first prize, D. C. McKechnie; consolation, J. Graham. Conveners of the affair were Mrs. H. Kergin and Mrs. O. Evindsen, assisted by Mr. Al. Falconer. Previous to the departure for home refreshments were served.

Profits derived from the card parties will be used to make the annual payments on the lot purchased last month for sport purposes. Also to defray expenses for a tennis court, and if sufficient funds are available in the future to erect a new skating rink.

Veterans Will Hold Banquet And Dance

Local veterans of the Great War, who served in the allied forces will celebrate the signing of the armistice. A banquet will be held at the Beach Gymnasium, Anyox on Saturday evening, November 9th. for veterans. A dance, which is open to the public will be held at the Gymnasium on Monday evening, November 11th. Both of the events are being sponsored by the Anyox branch Canadian Legion British Empire Service League.

Will Develop Mohawk This Year If Possible

Dave Thompson, president of the Winnie Mining Co., W. C. Arnett and F. Brown left on Monday for Vancouver. They spent several days in Alice Arm and made an examination of the Mohawk property which is controlled by the Winnie Mining Co.

As a result of their examination, it has been decided to surface strip the ore vein this fall if weather conditions permit.

ALICE ARM NOTES

F. D. Rice, B. C. L. S., left on Monday for Prince Rupert. Mr. Rice has spent the past few weeks here surveying mineral claims.

S. Briggs, who has spent the summer in the Naas Valley arrived on Tuesday. He left on Wednesday for Vancouver where he will spend the winter months.

Mr. and Mrs. D. McKechnie left on Monday for the south. Mr. McKechnie has been examining mining properties here on behalf of the Consolidated Co.

G. W. McMorris, president of the Kitsault Eagle Silver Mines Ltd., left Monday for Vancouver. While here he made an examination of development work at the Sunrise Group on McGrath Mountain.

P. LaFrance, who has spent the summer in the Naas Valley was a recent arrival in town.

Wm. McGillviary, an old resident of the camp, arrived on Saturday from Anyox.

Mr. and Mrs. A. Knox of the Saddle mine. Hastings Arm were visitors in town during the week. They will shortly leave for Vancouver where they will spend the winter.

Chas. Lee, who has been in charge of road work in the Naas Valley during the summer, returned on Tuesday.

J. A. Anderson, district road superintendent spent a few days in town during the week making plans for the clearing of the new streets.

N. Fraser, manager at the Esperanza mine, arrived on Thursday from a business trip to Prince Rupert.

Rev. W. B. Jennings will hold Harvest Thanksgiving Service at the Anglican Church tomorrow at 7.30 p.m. Holy Communion will be held at 10 a.m. and Sunday School at 11 a.m.

Miss Verna Wilson, who has spent several months here with her father, returned last week to Vancouver via Smithers and Jasper. She was accompanied by her brother, John, who will spend a vacation in Vancouver.

Teams Lined Up For Basketball Season

The third meeting of those interested in Basketball was held on Monday night and the business of organization went ahead somewhat. There will, apparently, be a good list of men's teams. Entries seem fairly certain from the Concentrator, Coke Plant, Boiler Shop, Mechanics, Electrical Dept., and probably from the Mine. It is not likely that there will be an intermediate league.

As matters now stand the senior league teams will be manned by many who are comparative beginners at the game, but the balance of power seems to be well distributed. Nothing definite has been heard from the ladies.

The Executive is now engaged in allotting the gymnasium for practice.

Good Ore Vein Struck On Moose

A vein of good ore has been encountered on the Moose property in the Upper Kitsault Country by J. W. Strombeck, who owns a half interest in the property. The strike was made during close prospecting. The vein is from 4 to 5 feet wide and is composed of high grade galena ore, carrying good silves values. Mr. Strombeck is now engaged in driving a tunnel on the ore in order to ascertain values at depth.

Schedule For Use of Gym. Drawn Up

The Anyox Community League has approved a tentative schedule for the use of the gymnasium. This gives Tuesday, Thursday and Saturday to the Badminton Club and the remaining four nights of the week to Basketball games and practice. The Elementary school children are allotted Monday and Thursday afternoon and the High school Tuesday and Friday afternoon. Children who are not attending school will not be included with those who are.

New Orchestra For Anyox

The Novelty Six Orchestra which made its debut at the Tennis Dance is composed of Manager T. M. Stretton, cornet; Mrs. McKay, piano; L. McKay, banjo; F. Gordon, banjo; W. Stenton, violin and vocal; F. Wray, traps and novelty music.

During the week heavy rains were the cause of several slides on the Dolly Varden Railway. Traffic was held up for two days. Gangs were rushed to clear the track which is now open to the end of steel.

Mr. Clark Addresses Anyox P. T. A. Meeting

To the Anyox P. T. A. on Monday evening Mr. Fordyce Clark submitted an explanation of the revised high school curriculum. Enlarging upon the announcement of the Department of Education, the speaker revealed something of the psychological and sociological bases of crriculum-making, and of the educational philosophy in the light of which these should be interpreted. Outlining the objectives defined by the Committtee on Reorganization of Secondary Education and by later writers, Mr. Clark indicated that the new curriculum approximated more closely to the ideal of planning a curriculum with the emphasis on the child and in terms of objectives rather in terms of subject-matter.

In regard to the time to be spent in school he suggested that it might be possible to save time some where in the earlier school grades. Another adjustment might be made in the adoption of the semester organization in high schools and the promotion of pupils by subjects rather than by grades.

Matriculation will, he indicated, receive less emphasis and the success of a high school will be judged not so much by the success of a few students, but by the service the school performs in giving a larger number of pupils the opportunity to take a complete course along lines best adapted to individual development and social efficiency.

In concluding, the speaker intimated that further adjustments below the high school grades would have to be made, notably in the provision of junior high school curricula for younger adolescents. For the teaching profession, he said, the changes will bring satisfaction to those who are prepared to work with the new subject-matter and to follow the methods of up-to-date educational science. A higher standard of teaching service is necessary and will have to be paid for but the profit in a better school product will far exceed the expense.

The meeting was held in the United Church Hall with Miss Ormrod presiding during the absence of the president, Mrs. G. M. Lee.

Will Hold Card Party

The Women's Auxiliary to the Anglican Church will hold a card party in the Parish Hall on Friday, November 8th.

The annual dance of the Hospital Ladies' Auxiliary will be held on Monday next October 28th. Buy a ticket, it is for a worthy cause.

E. MOSS, Editor and Publisher.

The mining laws of British Columbia are among the best of any country in the world. The government gives all possible publicity to mining. It encourages any company large or small to develop prospects. It safeguards the investor in exposing fraudulent companies and its inspectors see that working hours and conditions for the miners are not too long or dangerous. Many States to the south of us have passed blue-sky laws. They were designed to protect the fool investor. They have succeeded, but they have strangled the industry. This situation was thoroughly reviewed at the recent meetng in Spokane of the American Institute Mining Engineers. John D. Galloway, provincial mineralogist explained how mining was encouraged in British Columbia, and at the same time the investor was protected. Several American representatives condemned the blue-sky laws in force in some states. Stewart Campbell, mine inspector for Idaho, during the somewhat heated debate said: "So long as a man is honest, and is digging a hole, let him dig. What is mining but a difference of opinion? Don't pit another man's opinion against his, let him dig." In other words why should a mining engineer be allowed to condemn another man's efforts because his opinion differed. Mr. Campbell's opinion is worthy of consideration. Don't stop a man from digging. Let him dig. His opinion is as good probably as the other fellow's. The Toric ore body was found by letting men dig. So was the Premier and the Dolly Varden, and so will many more. We need lots of good honest diggers. They are not all successful, but neither is every banker, farmer, business man or manufacturer.

Last week we published an article dealing with Anyox Night Schools. Everyone is now thoroughly conversant with the different classes that will be operated during the winter months. They also know how much knowledge can be acquired by attending any class teaching the subject they are interested in. Knowing the benefits accruing, can anyone who has any ambition to succeed, neglect this opportunity? There are many young men in Anyox who are commencing their career in life. It is primarily for these that the night schools are operated. Now is the time for them to learn, while the mind is free from cares and is therefore more receptive. A few months spent in study will acquire knowledge that cannot be lost or stolen. It is yours for all time to use for your benefit and advancement. No one can learn too much, whether he be young, middle aged, or advancing in years.

Clay Porter Bonds The Kenneth Property

Stewart News

The Kenneth group of seven claims near the head of the south fork of Glacier Creek, owned by H. P. Gibson and Louis Legge, has been bonded by Clay Porter, prominent and successful mining man of the district, who located, financed and put the Porter Idaho into production, finally disposing of the control to the Premier Gold Mining Company.

In financial circumstances and at an age when most men would be thinking of taking things easily and letting the other fellow do the work, Mr. Porter is looking for more worlds to conquer. He is not the retiring kind. No man in the district is more competent to judge the value of a prospect or a partially developed mining property, and when he had thoroughly examined and sampled the Kenneth, little time elapsed until he had secured the property.

African Copper Will Not Upset Market

The world consumption of copper last year was slightly in excess of 2,000,000 tons. It showed an increase of fourteen per cent over that of the year before, but this was abnormal. The increase in 1927 was only two per cent; and in 1926, three per cent, but in the two years before that it was twelve per cent. For the last nine years, since the World War, the average increase has been about nine per cent. If this nine per cent annual increase continues, the world will require in 1939, not the 2,000,000 tons it used last year, but 5,000,000 tons. Of this, Africa, according to the authorities, may be expected to produce 500,000 tons.

Canadians Abroad Will Be British Subjects

Steps will be taken by the federal government at the earliest opportunity either by means of legislation or through the next census to establish clearly the difference between British subjects born in Canada and those from other parts of the Empire or from foreign countries, stated the secretary of state. Canadian nationality will take into account that citizens of this country are part of the British Empire and that, as such, wherever they go in foreign countries they can be considered only as British Subjects.

Here and There

(404)

Differences in the price of wheat at Chicago and Winnipeg and retarding of the wheat movement in western Canada is due to the view of Canadian wheat owners that its good quality justifies holding it for higher prices while British and continental buyers believe they can obtain their present requirements from the Argentine and the United States, is the explanation of this condition given out in a statement recently issued over the signatures of E. W. Beatty, chairman and president of the Canadian Pacific Railway and Sir Henry Thornton, president of the Canadian National Railway. Until the present impasse between buyer and seller is adjusted there will be a practical stoppage in the movement of grain with consequent serious effects on gross and net earnings of both the rail and water carriers.

Travelling 300 miles north of Edmonton over the waterways branch of the Northern Alberta Railway to Waterways and Fort McMurray, E. W. Beatty, chairman and president of the Canadian Pacific Railway, accompanied by a number of directors of the railway, inspected the salt wells and tar sand deposits of the region. Experts of the Canadian Pacific and Canadian National Railways are at present examining these deposits which Mr. Beatty said he was satisfied would be a great asset to Alberta.

Delegates from the Canadian Chambers of Commerce who have been travelling extensively in the west of Canada, mainly over Canadian Pacific lines, have through their national committee reiterated their stand in favor of a continuance of assisted immigration of selected British settlers of a desirable type to Canada.

Charles Reid, of the Banff Springs Golf Club, won the Prince of Wales golf trophy, famous and coveted prize of golfdom, from a field of 427 competitors recently. His score was 144 net, his handicap being 17. This is the first time in the history of the competition that the cup has gone to a Banff player, Calgary golfers having taken it to that city on each of the four former competitions.

Canada's reindeer industry takes a big forward step this year with the trek of 3,000 northern animals from Alaska into the Dominion. In November this herd, secured by Canada from the United States herds in Alaska, will begin a trek which will take 18 months and will land the animals in 1931 on the Arctic coast east of the Mackenzie river.

Australians are "fiercely loyal" so far as Empire Trade is concerned, and buy, for example, 98 per cent. of their automobiles from Canadian manufacturers, Sir James Murdoch, member of the Legislative Assembly of New South Wales, told the Vancouver Canadian Club recently. Sir James had just returned from a cross-Canada tour by Canadian Pacific lines and was on his way back to Australia.

Settlers in the Peace River country have a definite uniformity of outlook regarding the progress of the country as a whole, said Col. J. S. Dennis, Chief Commissioner of Colonization and Immigration of the Canadian Pacific Railway, who has been inspecting the northern part of Alberta over the Northern Alberta Railways. He was astonished at the readiness of the Boards of Trade and individual business men to take a large view even where it might work temporary hardship locally.

No Consolidated Smelter At Powell River

The possibility of Consolidated Mining & Smelting Company's coast smelter being established on Vancouver island, tributary to Campbell River, emerged clearly before the provincial water board when the mining concern abandoned its plan to build a smelter on Lois River near Powell River. This left the Powell River Company assured of control of Lois River, which it desires to use to make power for the large paper plant.

Canada has become dominant in the wheat trade, supplying, before the war, 11 per cent. of the world's supply, now over 50 per cent. Canada supplies three-fifths of the world's barley and one-third of the world's oats.

Will Stop Foreign Dumping

The new special dumping clause to prevent foreign goods being dumped on the Canadian market at prices below the cost of production, which is to be invoked in every case, is expected to have a far reaching effect in increasing protection to Canadian producer.

The regulation will still be much less drastic than the one in the United States. The Canadian clause applies only to reductions up to 15 per cent of what is considered a fair market value. Reductions above that amount are not affected, whereas in the United States the clause goes up to 75 per cent reduction.

Grave uuemployment is a result of the tie-up which now exists among railway workers in Canada, according to J. A. P. Haydon, representing "Labor," the publication of the railway labor unions.

Only choice leaves grown at high altitudes go into the blending of Blue Ribbon Tea. That is why its flavour is so uniformly excellent. Insist upon getting it from your grocer—refuse substitutes of inferior quality.

Fine Sport on French River

371

Expert anglers from Chicago, New York and other United States cities, as well as Canada, are just now in the throes of the big fish contest at the French River Bungalow Camp which has been one of the major prizes of anglers on this continent for the past few years. To date the lead has been taken by a 30-lb. muskie, but there is still time to beat even this monster. A point of great interest to anglers is the fact that the Camp is on the main line of the Canadian Pacific Railway and is accordingly easily accessible to sportsmen from the large cities. In addition to fishing facilities of the highest kind there are also ample opportunities for canoeing for hundreds of miles over some of the finest streams and lakes in the north, through country almost untraversed by white men.

Churchill Is Canada's Northerly Port

At a bottle-shaped natural harbor on the western shore of Hudson Bay, 500 miles from the Arctic Circle, gangs of workers are putting up railway sheds, deepening the narrow channel with dredges and making ready for the construction of a dock. The scene of this activity is historic Fort Churchill, terminus of the Hudson Bay Railway, now officially styled Churchill, without the fort, for the sake of brevity.

Churchill's permanent population consists of a mounted police unit, a Hudson's Bay Company agent and the caribou, coyotes and foxes that are the natural denizens of the North. In three or four years it will be a busy seaport. In a generation it may rank with the Dominion's chief centres of export trade. The laying of steel from the settled praries to their nearest seacoast, bringing Europe 1,200 miles closer to the wheat-growing plains, has changed Churchill's status.

Construction contracts awarded throughout Canada during August amounted to $58,622,000—the largest total ever recorded for that month in Canada.

Granby Co. Is Showing Good Profit

In the third quarter of the year, earnings of Granby Consolidated Company compare favorably with record-breaking earnings of the second quarter.

Net income applicable to dividends for that period will reach about $1,125,000, equal to $2.50 a share.

This will compare with $894,998, or $1.98 a share in the 1928 quarter. This will bring the total for the first nine months to $3,230,178, equal to $7.18 a share, or 82 cents within the year's dividend requirements of $8.00 a share.

E. G. Davidson arrived in town on Monday. While here he examined the Elkhorn Group on Hastings Arm. where the recent strike of gold ore was made.

ANYOX NOTES

E. S. H. Thynne. Dr. Bastin and Miss Dickie of the Workmen's Compensation Board arrrived on Monday and returned on the same boat.

A. Fortier was an arrival from Vancouver on Monday.

Among the arrivals on Monday from Prince Rupert were: M. Conisburg, K. Mark, C. S. Williams, S. H. Bartman, L. Lightstone, W. Bramby, G. Chrisholme, C. Mc Fayle.

Mr. and Mrs. J. Anthony were arrivals from Prince Rupert on Monday. They left again on Wednesday.

Mrs. Parker of Prince Rupert arrived on Monday to display dresses, coats and hats in the Dry Goods Department of the Granby Stores, leaving again on Wednesday.

Mr. and Mrs. W. Fayer arrived on Monday.

L. and A. Spring left for Prince Rupert on Monday.

E. W. Howe was among the departures Monday.

Mr. and Mrs. A. Stewart were south-bound passengers on the Catala on Monday.

Mrs. P. McDonald left on Wednesday for the south.

Mrs. J. Dewar left on Wednesday for a visit to Prince Rupert.

Mr. Peterson, Mr. Bramley and W. L. Stamford left on Wednesday for the south.

Mrs. Wm. Patterson arrived in town on Wednesday.

W. Buckle, mining engineer for the Granby Co. arrived from the south on Wednesday.

Among the arrivals from the south on Wednesday were: Louis P. Rhodes, H. O. Fearn, Angus Chisholm, C. W. English, J. C. Millichamp.

Throw that evil smelling cigar away, Jack, and try an El Doro. The best cigar obtainable in Anyox.

Geo. M. Lee returned on Monday from Prince Rupert. Mrs. continued her journey east.

Alberta Owns Worlds Richest Oil Sands

Recently C. A. Fisher, internationally famous consulting geologist of Denver, made the statement that the province of Alberta had within its boundaries the largest known outcrop of saturated oil sands in the world, the McMurray tar sands covering an area of approximately 4000 square miles.

Seven per cent of the world's production of lead is made at Trail, B. C.

TENDERS WANTED

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Wharf, Glenannan, B. C.," will be received until **12 o'clock noon, Tuesday, November 19, 1929,** for the construction of a wharf, at Glenannan, Skeena District, B. C.

Plans and form of contract can be seen and specification and forms of tender obtained at this Department, at the offices of the District Engineer, 119 Baker Street, Nelson, B. C.; Victoria Builders Exchange, 2509 Prior Street, Victoria, B. C., and The Building and Construction Industries Exchange, 615 West Hastings Street, Vancouver, B. C., also at the Post Offices, Prince Rupert, B. C.; Prince George, B. C.; Vanderhoof, B. C.; Burns Lake, B. C.; Fraser Lake, B. C. and Glenannan, B. C.

Tenders will not be considered unless made on printed forms supplied by the Department and in accordance with conditions contained therein.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Minister of Public Works, equal to 10 per cent of the amount of tender. Bonds of the Dominion of Canada or bonds of the Canadian National Railway Company will also be accepted as security, or bonds and a cheque if required to make up an odd amonnt.

Note.—Blue prints can be obtained at this Department by depositing an accepted cheque for the sum of $10.00, payable to the order of the Minister of Public Works, which will be returned if the intending bidder submit a regular bid.

By order,
S. E O'BRIEN,
Secretary.

Department of Public Works,
Ottawa, October 15, 1929.

At a meeting of the joint committees of the Board of Trade and City Council in Prince Rupert recently, acting Mayor Collart presiding, it was decided to form a Prince Rupert -Peace River Outlet Association for the purpose of carrying on the work of interesting the country in the westerly rail route from Peace River and to counteract the north and south movement which is being pressed so vigorously in the south. It is planned to secure the co-operation of all the towns and villages through which the railway passes, because all are interested in building up traffic on the C. N. R. as a means of encouraging general prosperity. Peace River people will also be asked to become part of the organization.
