5 cents each.

Sensational Ore Broken Into During Mining at LaRose

The richest deposit of high grade silver ore ever found in the Alice Arm district and probably in British Columbia was broken into the latter part of last week, during mining operations at the LaRose.

A piece of this ore of considerable size, reposes in the office of Miles Donald, manager of the mine. It is composed of quartz crystals joined together with native silver, the silver in the crevices is much wider than a silver dollar, and it is estimated that the ore is composed of one third pure silver. A wonderful specimen of ore, and which gives convincing proof of the rich ore contained in the district, awaiting the hand of man to develop.

The ore was found during mining operations at a verticle depth of 140 feet, which somewhat disproves previous statements of geologists that high grade silver ore does not carry values at depth. Ore is where you find it, despite all geologists' statements to the contrary.

Mining of ore at the LaRose is being carried on uninterruptedly, on a vein varying from 6 inches to 12 inches wide at a depth of 140 feet. The vein at present is being drifted on to the north at the bottom of the raise. The vein also comprises about two feet of good milling ore, from which a handsome profit can be obtained when a mill is installed.

Nearly 20 tons of ore has been sacked for shipment, which will be shipped when 40 tons are available. By making large shipments, transportation costs can be considerably lowered.

Mining Men are Investigating Alice Arm

Bert F. Smith, superintendent of the Premier mine at Stewart, accompanied by G. G. Gilchrist, arrived in Alice Arm on Monday, and are making a general examination of the camp. Mr. Smith was here in 1919, and his visit chiefly is to mark the progress made in mining since that date.

B. M. Sharp, of Spokane, who has spent a week in camp examining mining properties, expects to leave for the south today.

W. B. Timm, of the Dominion Department of Mines was a visitor in town during the early part of the week gathering information.

Machinery for Toric Mine Arrived on Monday

A considerable portion of machinery for the concentrating mill at the Toric mine arrived on Monday from Vancouver on the S. S. Ardena, and the balance is expected to arrive at an early date.

It is the intention of the Consolidated Homestake Mining & Development Co. to have the mill operating this fall, and continue in operation throughout the coming winter.

Alice Arm Is Attracting Mining Engineers

During the present year, more mining engineers have visited the Alice Arm district than has been the case for many years. All of them represent influential mining companies. Instead of rushing over the ground and covering the whole territory in about two days, they have made a systematic examination, and in some cases their visit has extended for several weeks. This shows that they considered the district rich enough to spend their valuable time in. Although no new deals have been made to date, owners of mining properties should not be too impatient. It often takes considerable time to formulate plans for a large undertaking. The engineers are coming in; they see for themselves the possibilities of the camp, which is an assurance that the mineral wealth will be developed.

McMorris Well Pleased With LeRoy Showings

W. G. McMorris, manager of the Kitsault-Eagle Mines Ltd. returned from an inspection of the LeRoy property during the week. He was greatly enthused with the tremendous large ore deposits and predicted that a big mine will be developed there in the future. The property extends to the summit of LeRoy mountain, and the ore body traverses the highest peak.

Anyox Shipping Notes

S. S. Marimon arrived at 7.30 p.m. on Friday from Maple Bay loaded with 200 tons of Outsider ore and towing scow Pioneer, loaded with 1000 tons.

The launch Cuprite left at 10.15 a.m. on Saturday for Alice Arm, towing a scow loaded with five Dolly Varden mining cars.

S. S. Amur arrived from the south on Saturday at 7 a.m. loaded with coking coal, 65 tons of cement and 2000 cases of powder.

The S. S. Mogul arrived from Stewart at 10.40 a.m. on Monday, loaded with Premier ore and concentrates. She loaded copper and left for the south at 6.35 p.m. S. S. Amur departed for Maple Bay and Stewart on Tuesday at 9 a.m.

Makes Overland Trip to Alice Arm

W. A. Talbot assistant district mining engineer accompanied by Charlie Gordon of the Naas Valley arrived in Alice Arm Thursday evening, coming overland from the Naas Valley in two days. Mr. Talbot had been examining the roads and trails in the Valley and in order to acquaint himself with the country decided to walk out to civilization. Charlie Gordon spent a few days in town before returning home, renewing old acquaintances.

ANYOX NOTES

Mrs. H. O. Cutler returned on Friday from a trip south.

Mrs. S. Grimason returned home on Friday from a vacation spent in Winnipeg and Toronto.

Mrs. Grolund was an arrival in town on Friday.

H. Chapman was an arrival on Friday from Vancouver.

After September 1st. special rates will be given by the week, at the Alice Arm Hotel during the fall hunting and fishing season.

Chris Cane arrived on Friday from a vacation spent in Vancouver.

Among the arrivals on Friday, were: B. Matthews, F. McMillan, F. C. Bell, Mrs. Nechlezza.

Mr. and Mrs. S. C. Foster were passengers to Prince Rupert on Monday.

Mrs. H. A. Simmons and child were southbound passengers on Friday to Vancouver where they will spend a vacation.

Mr. and Mrs. J. T. North, who have been visiting Dr. and Mrs. Simmons accompanied Mrs. Simmons south on Friday.

The two leaders in smokes El Dora cigars, and Bensen and Hedges cigarettes.

Mr. and Mrs. Chapman were passengers to Prince Rupert on Friday.

Mrs. A. W. Gigot arrived from Prince Rupert on Friday.

Arrivals from Prince Rupert on Friday, were: W. Goldbloom, C. J. Killen, A. R. Davie, Stirling, Nicholas, Carson.

Morley Shier, MacKenzie, Ray, and Flewin were passengers to south on Friday.

Mrs. L. Ingram and children returned on Monday from a vacation spent in the south.

Mrs. G. Thompson was an arrival on Monday from Vancouver.

Mr. and Mrs. H. F. Noel and son returned home on Monday from a vacation spent in Vancouver and Vancouver Island points.

Messrs. Crompton and Tinman returned on Tuesday after looking over timber limits at Alice Arm.

Miss Janet Morley and Miss Rosie O'Neill left on Monday for Prince Rupert, where they will take positions of probation nurses at the General Hospital.

T. Spargo of the mining department, has vacated his position of mine surveyor, and left for Vancouver to take up studies at the B. C. University.

Geo. Lace of the General Store office staff, returned on Monday from a vacation spent in the south.

Mrs. J. A. Price and family arrived home on Monday from a trip to Vancouver.

Mrs. Garvey and family were arrivals on Monday from Vancouver.

Frank Cross arrived home on Monday from a vacation spent in Vancouver and southern points.

Among the arrivals from the south on Monday, were: R. Griffith, J. A. Bray, W. Stanford, E. R. Blakely, H. Marshall.

"The Sunshine Club" held a meeting on Tuesday, at which two new members were initiated. The two Grand Receivers present reported considerable progress since the previous meeting."

Arrangements are being made by Mr. T. Gillespie to turn over his interests at the Beach Cafe to Mrs. E. Armstrong and Mrs. B. Ellison.

Harry Earde and Geo. Gillispie are spending a vacation at the Alice Arm Hotel.

Frank Stringham left on Tuesday for Alice Arm, where he will spend a vacation at Bowman Lakes in company with Harry Selge, Al. LaFortune, and Alex Davie, who have already spent some time there.

Theodore Asimus and Frank Dresser are spending a vacation at Alice Arm.

Mrs. J. A. McMaster and children returned on Tuesday from a vacation spent in Prince Rupert.

Mrs. R. J. Manning and children returned on Tuesday from a vacation spent at Stewart.

Miss Mary Macknight, who has been spending a vacation with her parents, returned to her school duties in the south on Tuesday.

Norman Cowan was a passenger to Vancouver on Tuesday.

Cecil Parmiter was a passenger to Prince Rupert on Tuesday.

Mrs. T. Gilmour left on Tuesday for Vancouver, having received word that her mother is seriously ill.

Mr. and Mrs. R. H. Manzer and family who have spent the past seven weeks at Alice Arm, returned home on Tuesday thoroughly satisfied with their summer vacation. Mr. Manzer is a devoted disciple of Isaac Walton, and caught numerous fish from every stream in the Alice Arm district. He arrived home with a string of twenty-eight all of which he caught the evening before his departure.

Mr. Frank Stringham has sold out his business of both barber shops at the Beach to Mrs. Bryden. Mr. Stringham has been a resident at Anyox for the last 11 years, and is relinquishing his business here on account of his health.

Steve Morrison Returns from South

Steve Morrison arrived on Saturday from a trip to Vancouver. He was in attendance at the Alice Arm mineral display at the Vancouver Exhibition during a considerable portion of the time, and stated that the display was one of the chief attractions in the mining section of the exhibition.

Exhibition of Alice Arm Ores Arouses Interest in South

The Alice Arm ore display at the Vancouver Exhibition received a great deal of attention states S. Morrison, who arrived from the south last week. Mining engineers, managers of mining companies, promoters etc. evinced great interest in the ores, and a multitude of questions were asked Jack Morrison and his brother Steve who were in attendance during the exhibition.

The ore display was a great boost for the camp, and bigger results are attained by exhibiting our ores than most local people realize.

At the close of the exhibition the specimen from the LaRose mine, which obtained second prize was assayed, and gave the following high returns.

No. 1. sample; gold .10 ozs; silver 2,566.4 ozs. per ton, a total of \$1,644.50 per ton.

No. 2 sample; gold .08 ozs; silver 934.2 ozs. at total value of \$597.81 per ton.

This ore was taken out during mining operations at a depth of 140 feet from the surface.

Police Court Docket Is Heavy During Week

Several persons were convicted at the Anyox Police Court during the week charged with infringements of the Liquor Act. The charges included giving liquor to a drunken person, and supplying liquor to minors. Fines of \$50.00 and \$2.50 costs, and \$300.00 and costs were imposed.

Gow Wing, a Chinaman, appeared before stipendary magistrate R. M. McGusty on Friday, charged with supplying liquor to Herbert Martin and Oswald Alexander, both Indians, of Naas Harbor.

Accused was found guilty and fined \$100.00 or three month's hard labor, the fine was paid. Both Indians were fined \$5 each or 14 days hard labor for being drunk, the fine was paid.

Wong Hing appeared before stipendary magistrate R. M. McGusty on Thursday, charged with assaulting his brother. He was convicted and fined \$10.00 and costs.

Election of Officers Alice Arm Chamber of Mines

The annual election of officers of the Alice Arm branch of the British Columbia Chamber of Mines will be held on Tuesday evening at 8 p.m. sharp. The meeting will be held in the Anglican church building and everyone interested in the welfare of the camp are earnestly requested to be present. Other important business will be transacted in addition to the election of officers.

Alice Arm people who have recently returned from a visit south are 100 per cent. more optimistic regarding the early development of the camp upon their return than when they departed. Mining men of the south are confident that Alice Arm is next in line for big developments, and the camp is receiving a great deal of attention. Events are being watched with great interest. Alice Arm is recognized as a camp of vast mining potentialities, and its early development on a big scale will shortly be consummated. The splendid ore display at the Vancouver Exhibition of the past two years have played an important part in attracting attention, and the conservative programme of publicity being carried out by the local branch of the Chamber of Mines will keep alive the interest aroused, and also acquaint those who have not heard of our large mineral resources.

Big Ore Showings on Marmot Metals Will be Tunnelled

Portland Canal News

Angus McLeod, managing director of the Marmot Metals Mining Co., visited the property this week and reports having found very satisfactory progress being made. This season's exploration work, he said, has resulted in the location of four parallel veins, on the east end of the property, striking up and down the mountain in a large mineralized zone. Up until the last week work has been confined to tracing these out, and open cutting, though the first part of the season necessitated considerable trail building in order to get to them. One of the center veins has been traced from the top

of the mountain down over very steep ground to near the bottom of the hill, a difference in elevation of some 2000 feet. Three cuts on this vein recently sampled by a competent and thoroughly experienced person independent of the company gave the following results: \$30.50; \$15.50 and \$19.50. These three cuts varied in width from five to 15 feet. The values were in gold, silver and zinc, with the latter mineral predominating.

Mr. McLeod stated that he is increasing the crew immediately for the purpose of driving two tunnels, one on each of two veins in order to explore these showings underground as much as possible before snow flies. Both these tunnels will be in ore from the portals and will gain about one foot of depth for each foot driven. They are roughly 150 feet apart.

Mr. and Mrs. W. J. Crawford of Stewart announce the engagement of their daughter, Edith Margaret, to Mr. Louis Behnson, the wedding to take place on Oct. 4.

A man and a strange umbrella often go without saying.

BRITISH COLUMBIA

The Mineral Province of Western Canada

Has produced Minerals as follows: Placer Gold, \$77,663,045; Lode Gold, \$122,808,459; Silver, \$74,111,397; Lead, \$89,218,907; Copper, \$197,642,647; Zinc, \$39,925,947; Miscellaneous Minerals, \$1,594,387 Coal and Coke, \$273,048,953; Building Stone, Brick, Cement, etc., \$44,905,886; making its mineral production to the end of 1925, show an

Aggregate Value of \$920,919,628

The substantial progress of the Mining industry of this Province is strikingly exhibited in the following figures, which show the value of production for successive five-year periods: For all years to 1895, inclusive \$94,547,241; for five years, 1896-1900, \$57,607,967; for five years, 1901-1905, \$96,507,968; for five years, 1906-1910, \$125,534,474; for five years, 1911-1915, \$142,072,603; for five years, 1916-1920, \$189,922,725; 1921, \$28,066,641; for the year 1922, \$35,158,843; for 1923, \$41,304,320; for 1924, \$48,704,604, and for 1925, \$61,492,242.

Production Last Ten Years, \$404,649,375

Lode mining has only been in progress for about 25 years, and only about one-half of the Province has been even prospected; 200,000 square miles of unexplored mineral bearing land are open for prospecting.

The Mining Laws of this Province are more liberal and the fees lower than those of any other Province in the Dominion, or any Colony in the British Empire.

Mineral locations are granted to discoverers for nominal fees.

Absolute Titles are obtained by developing such properties, security of which is guaranteed by Crown Grants.

Practically all British Columbia Mineral Properties upon which development work has been done are described in some one of the Annual Reports of the Minister of Mines. Those considering mining investments should refer to such reports. They are available without charge on application to the Department of Mines, Victoria, B. C. Reports covering each of the six mineral Survey Districts are published separately, and are available on application. Reports of the Geological Survey of Canada, Winch Building, Vancouver, are recommended as valuable sources of information. Full information, together with Mining Reports and Maps, may be obtained gratis by addressing

THE HON. THE MINISTER OF MINES, VICTORIA, British Columbia

SYNOPSIS OF LAND ACT AMENDMENTS

PRE-EMPTIONS

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emption is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 5,000 board feet per acre west of the Coast Range and 8,000 feet per acre east of that Range.

Applications for pre-emption are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emption must be occupied for five years and improvements made to value of \$10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

PURCHASE

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price of first-class (arable) land is \$5 per acre, and second-class (grazing) land \$2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

HOMESITE LEASES

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

GRAZING

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free, or partially free, permits are available for settlers, campers and travellers, up to ten head.

Residential and Business Lots

ALICE ARM MINING AND DEVELOPMENT COMPANY

That the town of Alice Arm will become a mining centre of considerable importance within the next few years is the opinion of numerous influential mining men who have recently visited the camp. The mining industry is undoubtedly on the eve of big developments, which means a big payroll and a much larger town. Increased activity will result in placing good residential and business lots at a premium. At the present time lots can be secured at attractive prices and on easy terms.

RESIDENTIAL LOTS FROM \$200 TO \$300
 BUSINESS LOTS FROM \$200 TO \$500

Alice Arm Lots offer a sound investment. For particulars apply

S. DUMAS

Agent for the Alice Arm Mining & Development Co.

Increased Output Britannia Mine

Britannia has made some increase in production during the quarter ending June 30th over the previous quarter. Copper production was 9,016,120 lbs. A dividend of 75 cents per share was paid on July 15th.

The customs concentrator at Trail established last year by the Consolidated, is a factor in increased activity in small mines. Heretofore, zinc ores were penalized 50 cents a unit over eight per cent. Now there is a charge of only \$3 per ton for concentrating, and the shipper gets paid for both lead and zinc at the market prices. This service helps the small operator who cannot afford a concentrator.

Bullion Silver Made at Mine

Among exhibits at the Vancouver exhibition display of the B. C. Chamber of Mines were several bricks, aggregating 6000 ounces and 64 ounces gold, shown by the Horn Silver Mining Corporation, of this city. This company's property is in the Similkameen district, and has been worked for about a year by the present owners. The silver bricks shown were the first made direct from the ore without smelting in British Columbia.

Trail Operations Show Big Profit

Estimated profits of the Consolidated M. & S. Company, Trail, for the first six months of the present year are \$5,638,640. This amount is given after the regular deductions are made.

Cranby Co's Production of Copper Running High

The Granby Consolidated Mining Smelting & Power Co. reports for the quarter ended June 30, 1926, a profit of \$461,833 after expenses and interest, but before depreciation and depletion. This compares with a profit of \$429,598 in the preceding quarter and \$269,861 in the second quarter of 1925. Profit for the first half of 1926 totalled \$891,431 before depreciation and depletion, against \$465,821 in the first half of the previous year. The company produced 9,519,032 lb. of copper, an average of 3,173,011 a month, in the second quarter, against 9,390,890, an average of 3,130,296 lb. a month, in the first quarter or a total of 18,909,922 lb. of refined copper in the first half year.

Allenby production for the second quarter came to 4,374,177 lb. of copper recovered from milling 153,949 tons of copper ore. During the preceding quarter 3,822,957 lb. of copper was produced from the treatment of 144,514 tons of ore. Profits from Allenby operations during the second quarter amounted to \$86,733, compared with \$55,749 in the first quarter. These production figures and profits are not included in Granby statistics for the quarter.

Why Home-brewed Beer Can Be Bad For Your Health

BREWING beer at home, a habit that has become widespread in the United States since prohibition deprived the people of the right to purchase pure and healthful beer legally and openly, presents difficulties and dangers of which those who engage in it are rarely aware.

HOME-BREWED beer can be actually dangerous to those who drink it, for the home brewer works by rule of thumb, perforce, and usually has no acquaintance with or control over the complex physical and chemical reactions that take place in the brewing of beer. Pure beer can only be made in a modern brewery by scientifically trained brewmasters who have at their disposal the most modern equipment and who are bound by the most exacting standards.

THE same materials which, in a modern brewery, are made into pure, healthful beer, can become, in the hands of a home brewer, a raw, incompletely fermented, indigestible and harmful mixture unfit for consumption. But where an established brewery uses only the highest grade of material—malt and hops—tested for purity, the home brewer is forced to purchase in stores imported syrup concoctions of inferior malt and low-grade hop extracts frequently blended with synthetic essences. The product of such mixtures is always harmful to the stomach and digestive system and dangerous to drink for any length of time.

THE home brewer is hampered not only by lack of knowledge of the science of brewing, but home equipment does not include the elaborate plant necessary for prolonged sterilization and filtering to assure a pure, healthful beer free from bacterial infection. In beer that is the product of a perfectly equipped brewery all fermentation is complete; in home-brewed beer fermentation continues, and continues after it is consumed. It is really an explosive mixture, whether in your stomach or in the bottle, as shown by the way in which bottles explode and tops are blown off.

HOME-BREWED beers are usually higher in alcoholic content than they should be. In the beers supplied by the Amalgamated Breweries to the people of British Columbia through licensed premises or through Government stores the alcoholic strength is only 4 1/4 per cent, the most favorable strength for the stimulation of the stomach toward aiding digestion. Home-brewed beers also usually contain greater or less percentages of deadly fusel oil, from which properly brewed, stored and aged beers are free.

ANY physician can tell of the dangers of home-brewed beer, from which, happily, the people of British Columbia are free, for they have the privilege of obtaining pure, good beer made by the Amalgamated Breweries of British Columbia in plants that are equipped with every facility for the brewing of pure beer, perfectly flavored, well matured and healthful.

Visitors are cordially welcomed at the plants of the members of the Amalgamated Breweries of British Columbia: Vancouver Breweries, Limited; Ratier Brewing Co. of Canada, Limited; Westminster Brewery, Limited; Silver Spring Brewery, Limited; and the Victoria Phoenix Brewing Co. Limited.

ALICE ARM NOTES

R. D. Escombe, superintendent at the Toric arrived on Saturday from a trip to Stewart, where he visited the Premier and other mines.

A. C. H. Gerhardi, arrived on Saturday from a short visit to Vancouver

Elmer Ness was a southbound passenger on Monday for Vancouver, and will probably proceed to the Boundary country.

Fred Stork, liberal candidate at the coming election, and twice elected to represent this riding will speak in the Coliseum on Monday evening.

Harry Owen, arrived home on Saturday after spending the past few months holidaying in Vancouver.

Mrs. Roland King and son returned home to Spokane on Monday, Mr. King intends to spend a few more weeks here.

Mrs. J. Trinder and daughter Joan left on Monday for her home in Kent, England, where she will spend the winter with her parents.

Lorne Falconer left on Monday for Vancouver, where he will rejoin his mother and resume his studies.

Mrs. F. D. Rice, and family left on Monday for Prince Rupert after spending two month's vacation with Mr. Rice. Mrs. Rice will spend the coming winter in the northern metropolis.

Mrs. Al. Falconer and family returned home on Monday from Vancouver, where they have spent a vacation for the past seven weeks.

H. M. Benjamin and J. Marasky were arrivals from Vancouver on Monday.

B. Crampton arrived on Monday from Vancouver.

The log carrying barge Drumrock left for Powell River on Friday loaded with 875,000 feet b.m. of logs. She was towed south by the tug Cape Scott.

Mr. Woodcock, who has been spending a vacation with his uncle F. L. Housley, left on Friday for Vancouver, where he will take up his duties as school principal.

Election Promises to be Rather Tame

The coming election was predicted by the big dailies of the Dominion as being one of the bitterest fought in the country. We are now less than two weeks from election day, and we have not yet noticed anyone showing any bitter feelings.

Elections are becoming too frequent for anyone to embitter themselves, and the politicians are trying to flog life into a dead horse when they endeavor to create political excitement twice within twelve months. Viewed from a local angle this election will be about one of the tamest affairs in

history instead of the wildest.

The smoke will still pour from the Anyox smelter, the roar of the mill will still continue, and Alice Arm will still enjoy increased prosperity whatever party happens to sit in the seats of the mighty at Ottawa.

In 1924, British Columbia accounted for nearly one-eighth of the gold, nearly half of the silver, two-thirds of the copper and most of the lead and zinc produced in Canada.

The Herald job printing department is always anxious to cater to your wishes. Our prices are right and our work is right.

The principle apartment in a gambling house is the anteroom.

Too many marriage are for publication only and not as a guaranty of good faith.

Anyox Community League

The Council of the League meets on the Second and Fourth Wednesday of each month, in Recreation Hall, at 7.30 p.m.

WATER NOTICE

(DIVERSION AND USE)

TAKE NOTICE that The Consolidated Homestake Mining & Development Co. Ltd., whose address is 706 Credit Foncier Building, Vancouver, B. C. will apply for a licence to take and use one cubic foot per second of water out of Tumble Creek, which flows westerly and drains into Kitsault River, about 300 feet north of Kitsault River Suspension Bridge. The water will be diverted from the stream at a point about 550 feet north 50° east of south-west corner of Ruby Mineral Claim, Lot 4210, and will be used for wash water for Concentrator purpose upon the mine described as Toric Mineral Claim, Lot 985 Cassiar District. This notice was posted on the ground the 2nd. day of August, 1926. A copy of this notice and an application pursuant thereto and to the "Water Act" will be filed in the office of the Water Recorder at Prince Rupert, B. C. Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B. C., within thirty days after the first appearance of this notice in a local newspaper.
