Prince Rupert Win From Anyox in Basketball Game

The Prince Rupert and Anyox senior basketball teams met on Thursday evening at the Gymnasium when the Rupert team won a close and exciting game by the score of 34-3I.

The S. S. Prince George did not arrive until 11.00 p.m. and the game did not start until 11.20 p.m. Although a large number of people had gome home, a big crowd of spectators were present and were well rewarded by witnessing one of the most thrilling games ever staged at the Anyox Gymnasium.

In the first half of the game Prince Rupert were the only team on the floor, and it seemed as though they were in for an easy win when at the end the score was: Prince Rupert 18 Anyox 5.

In the second half, however, Anyox commenced to warm up and get busy. They played a good game of ball and at the end of the game the score was Prince Rupert 34, Anyox 31.

W. Mitchell was the high score man for Prince Rupert. On the Anyox team, Fred Brown was the star performer.

The Prince Rupert team were: forwards, W. Mitchell, D. Balfour; centre, H. Menzies: guards, Vic Menzies and E. Smith. Subs. G. Mitchell and J. Mitchell.

Kitsault River Bridge Will Be Imposing Structure

Plans for the new Kitsault river suspension bridge, arrived at the office of the Public Works Department yesterday.

The plans show that the bridge will have a single span of 230 feet. The cables carrying the bridge are of galvanized plow steel and will be 2¼ inches thick. The cables will be anchored to solid blocks of concrete. The hanging rods, which carry the bridge from the cables will be spaced 11ft. 4⅓ins. apart. Two towers will be built for carrying the cables, and these will be constructed of timber, resting on a pile foundation.

The present wing dam will be extended to protect the west pier and will also help to protect the town.

Approaches to the bridge will be constructed on each side, and will be built on piles. Each approach will be approximately 200 feet in length and will have a 5 per cent grade.

The width of the bridge will be 8 feet between guards, and 10 feet over all, and will stand 15 feet above high water.

The completion of the bridge will fill a long felt want. It will be finished early in the spring, so that it can be used throughout the coming summer.

Moose Ladies Hold Another Dance

The Ladies Chapter Loyal Order of Moose gave another Saturday night dance last week, and the hall was packed. The orchestra, consisted of Mrs. Pynn, piano; Mr. C. McMillan, violin; and Mr. E. Waterman, drums; gave infinite satisfaction, and they were assisted at a later hour by Messrs. Liddel and Haesler.

There will be two more Saturday night dances at the Catholic Hall viz: tonight, February 16th. at 9 p.m. prompt and February 23rd. Prices as usual 50c. Ladies free. We understand the Moose Lodge intend if possible to run these Saturday Dances every week and negotiations are proceeding to obtain another hall after February 23rd. as the Catholic Hall cannot be booked for March or April.

St. Valentine's Dance Held at Anyox

The St. Valentine's Masquerade Dance given on Monday evening at the Recreation Hall was one of the best dances held in Anyox for a long time.

The Dance was under the auspices of the Parent-Teacher Association and was given for the purpose of providing funds for school equipment. Over three hundred and fifty people were present and some gorgeous costumes were worn by the dancers. Prizes were given for the best costumes.

The orchestra was composed of was composed of Messrs. Haesler piano; Liddle violin; Stivenard, clarinet; Varnes, euphonium, and Cameron, drums.

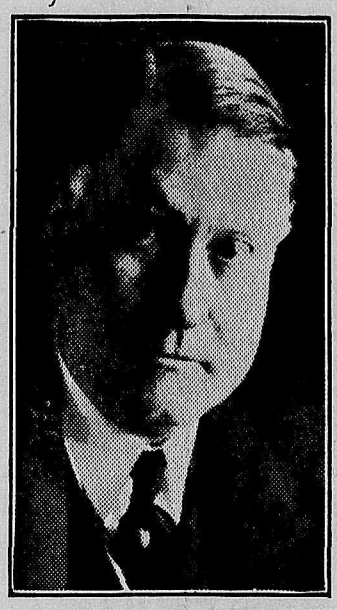
Lantern Slide Entertainment at Alice Arm

On Friday evening of last week the citizens of Alice Arm, and especially the children, were given a treat, when Rev. J. Herdman of Anyox gave an entertainment with his stereopticon. at the Alice Arm Hotel. The pictures shown were views of Scotland showing both city and country scenes.

The programme was commenced by Rev. J. Herdman who sang. "The Friar of Orders Grey." Mrs. T. W. Falconer and Rev. Herdman rendered a duet, "A little bit of Scotland," and Mr. T. Black sang "Bonny Mary of Argyle." "Coming through the Rye" was sang by the entire audience during the showing of the pictures.

The pictures were concluded with twelve slides of Annie Laurie, and the well known song "Annie Laurie was sang by Mr. T. Black. Rev. Herdman explained the pictures as they were shown, and they were of special interest to a number of people who are acquainted with that part of the world.

At the conclusion of the programme Mr. T. W. Falconer ran off some reels on his moving picture machine. It was in the nature of an experiment and was very satis factory.



SIR HENRY W. THORNTON, K.B.E.
President and Chairman of the Board of Directors, Canadian National Railways

Sir Henry will visit Prince Rupert and probably Anyox early in the spring.

The S. S. Amur is Aground on Reef

The Coastwise Steamship and Barge Co's. steamer, Amur went ashore on a reef, at White Cliff Island, 30 miles south of Prince Rupert, in a howling gale at 4 p.m. last Friday morning, on her way north to Anyox from Vancouver loaded with coal.

The Amur is well known in Anyox, where she has been engaged in carrying ore and copper south and coal etc. on her trip north.

Latest reports from the scene of the wreck state that the Amur is hard and fast on a reef, but the barge Griff, which she was towing, and which went adrift, has been towed to Inverness Cannery.

The S. S. Marmion was dispatched from Anyox to stand by the Amur and render assistance, but the arrival of the S. S. Tees has relieved her.

As soon as the weather moderates the coal cargo on the Amur will be taken off. and when lightened it is believed that no difficulty will be experienced in refloating her.

All the crew are still aboard. The vessel has steam up and is operating her own pumps.

Hockey Teams Formed at Stewart

At the general meeting of the Stewart Winter Sports Club last evening considerable business connected with the rink was dealt with but the big event of the evening was the decision of the club to go in more for fostering skating and assist the formation of a Stewart hockey team for which 24 sticks, gloves, protectors etc. have been received and more ordered. It is hoped that the weather will harden up, so as to afford better ice on which the teams can practice, prior to a possible game against Alice Arm at a later date.—Portland Canal News.

Get on Voters' List Before Next Saturday

The government has decided that a plebicite shall be taken in the spring or early summer as to whether beer shall be sold by the glass in hotels or not. In order to vote on this measure your name must be on the voters' list. The voters' lists are now open for those whose names are not on, and next Saturday, February 23rd. is the last day you can register.

Applications for registration can be made to all government agents, mining recorders, notary publics, postmasters and constables.

If you desire to vote on this measure, get on the voter's list on or before next Saturday, February 23rd.

ANYOX NOTES

The S. S. Cardena arrived on Monday with a rather light passenger list.

Mr. and Mrs. Curzon were arrivals in Anyox on Monday's boat.

Messrs. D. Brown and L. W. Brown arrived in town on Monday.

Mr. H. S. Munroe left on Monday for the south.

Mr. T. J. Shenton, inspector of mines, was a south bound passenger on Monday.

Mr. E. J. Conway, government agent, left on Monday on a visit to Prince Rupert.

Mr. "Red" Robertson left on Monday, for Portland, Oregon, where he will reside with his wife. He carries with him the best wishes from a coterie of friends he has left behind.

By-the-way, Bill Westwood, please take note. Don't worry about shipment of snow to Mine. All is well again. Supply of snow proved to be more than sufficient, in fact, more than was needed. Thanks all the same for proffered assistance.—Subscriber.

We gather from a reliable source that two new speed boats will make their appearance this coming summer. The "Wayward Girl" will have to look out. One of these new boats, is, we believe, engined with a 25-30 H. P. Ford. The other has not yet arrived in Anyox, but has a Fairbanks-Morse 4½ H. P., but with sundry stunts conceived by the owner it is confidently expected she will do her twelve knots.

If the skipper of the Edrona reads the above, it is quite within the bounds of reason that he will take the Edrona off the ferry service to the Saw Mill and surprise Capts. Eve and Selfe by competing with the Awake on the Alice Arm run. Winter has wrought many changes.

Among the incoming passengers on Thursday's boat, were; Messrs. T. Robinson, C. A. Allen, J. E. Sederington, G. Mitchell. R. Dugwistle and A. Morrison.

ALICE ARM NOTES

The Granby Company commenced logging operations this week with a crew of six men, who are engaged in falling and bucking logs.

Latest copies of the Vancouver Province, Sun and World, for sale at W. M. Cummings, Post Office,

Mr. R. A. Gorman, representing the Giant Powder Co. was in town during the early part of the week.

See Al. Falconer for Freight and Pack Horses.

Everything is now in readiness for the commencement of logging operations, and the disappearance of the snow is the only thing needed to start the loggers on the war trail.

Owing to an outbreak of scarlet fever in town the school has been closed throughout the week.

Mr. W. M. Meehan was a visitor in town during the week from Anyox.

The logging industry adjacent to the town will take care of itself, but the mining industry will have to be fostered. There is lots of money ready for investment, and some of it will be ours if we go after it. The world loves a fighter and hates a quitter. What are we going to do, wait until someone comes along or go after them?

Mrs. T. Gorman of Anyox is a guest at the Alice Arm Hotel. Mrs. Gorman was married in Prince Rupert on January 15th. and will shortly reside in Anyox where Mr. Gorman holds a position of forman at the smelter.

Dressmaking and Plain sewing—Mrs. Myrtle Wilson, Alice Arm.

Mr. A. D. Yorke can not be included in the lonely bachelor class any more, for a well trodden trail leads to his door. The radiophone has a charm few can resist.

A telegram was sent to Stewart yesterday inviting over their hockey team. Anyox is expected up tomorrow.

Mr. Frank Gallagher arrived on Monday from Vancouver, and is staying with his nephew, Mr. S. Dumas. Mr. Gallagher plans to remain here through the coming summer.

Mr. J. B. Robertson an old resident of the camp, arrived on Monday from Prince Rupert on a week's visit.

Continued on page 4

The Manse which is being erected for the Union Church, is expected to be ready for occupation early in March.

Our Anyox correspondent system broke down somewhat this week. Please excuse us for curtailment of news.

E. MOSS, Editor and Publisher.

In this issue of the Herald we publish an account of the activities of the now world famous Premier mine, and after reading it one is apt to wonder how many more Premier mines this district contains. The truth is being gradually forced home, even to the most pessimistic, that this northern district holds out wonderful opportunities to the bold adventurer. For years the Premier was bonded and thrown up by mining companies, and turned down cold by others, and property owners in the immediate neighbourhood could not get a nickel for development work, and the general opinion was that what ore there was in sight did not go down. The knockers ruled supreme. Such were conditions at the head of the Portland Canal a few short years ago, and these conditions seem, to a certain extent, to prevail at Alice Arm at the present time. Since the Dolly Varden mine closed down it seems to be the general impression that all ore bodies in the district evaporated. The Premier and the Dolly Varden are similar properties. Both have produced very rich ore, and had the Dolly Varden been fortunate enough to possess as efficient management as the Premier, and the absence of law suits there is no doubt that the property would be a big producer today. The "wise one's" ridiculed the idea of large ore bodies being located on the Premier, even after high grade ore was found, but latest reports tell a different story. The same has been said of the Dolly Varden, but who knows what ore is in the Dolly Varden hill until efficient development work has been done. No one dreamed from the low grade surface showings when work was first commenced, that such enormous wealth was hidden a few feet below, and no one knows the extent of the wealth still hidden in the famous hill. Also, no one dares to predict the extent of the wealth that will eventually be derived from the Kitsault valley. Since the closing of the Dolly Varden it has been difficult to get sufficient capital interested in the district to do a large amount of development work, and the camp is marking time waiting for operations to re-commence at the Dolly Varden. It is, perhaps, a fatal mistake to wait until the property is again in operation before earnestly endeavoring to attract capital. Concerted action on the part of property owners of the Kitsault valley may help solve the problem. There is lots of money ready for investment in mining properties in British Columbia, but it will have to be sought, and when capital has been attracted and ready to invest, conditions should be made as easy as possible. We have got to start at the bottom again and work up, and in order to get a start it may be necessary for someone to make a sacrifice.

Pulp and Paper Mill For Prince George District

A paper and pulp mill for Northern B. C. is now assured, according to the statements of Hon. T. D. Pattullo, who has returned from Montreal, where he has been in negotiation with Messrs. Frank Jones and Angus McLean, representing Eastern capitalists and holders of timber leases in the Prince George district.

Previous negotiations for a paper and pulp mill for Prince George came to naught, owing to the refusal of Hon. Mr. Pattullo. Minister of lands and forests, to grant a fixed royality. The minister took the view that, with the growing world scarcity of timber and pulp, it was unfair to posterity to grant a fixed royalty. In the recent negotiations between the Minister of Lands and the eastern capitalists, certain concessions were granted to the applicants, who have withdrawn their demand for a fixed royality. Commencement of construction will be made in the present year.

Green—Did you see Jones when he came in from fishing?

Brown—Yes, I was pretty close to that boat.

Were there any fish lying about him?

No, but he was lying about the fish.

Spanish Copper Mine is Big Producer

The Rio Tinto mine of Spain is one of the greatest copper mines of the world, and is also one of the oldest. It has been worked almost since the dawn of civilization, being worked both by the Phoenicians and Romans. The mine contains immense ore bodies, some being over 800 feet wide. At the present time 23,000 tons of copper is produced annually.

Light Snowfall in Manitoba

For the first time in the history of Manitoba, old timers declare not one snow-plough or flanger has traversed the lines of the Canadian National Railways in that province for the first two winter months. The light snowfall so far this season means a saving of many thousands of dollars for the National System.

Record Gold Production From Northern Ontario

North Bay. Feb. 6th,—The gold mines of Northern Ontario broke all previous records in the month of January when they produced approximately $2,100,000 based on preliminary reports obtained from the mines, according to a special despatch to the North Bay Nugget from Timmins Ont.

BRITISH COLUMBIA

The Mineral Province of Western Canada

Has produced minerals valued as follows: Placer Gold, $76,542,203; Lode Gold, $109,647,661; Silver, $59,814,266; Lead, $51,810,891; Copper, $170,723,242; Zinc, $24,625,853; Coal and Coke, $238,289,565; Building Stone, Brick, Cement, $36,605,942; Miscellaneous Minerals, $1,358,839; making its mineral production to the end of 1922 show

An Aggregate Value of $769,418,462

The substantial progress of the Mining Industry in this Province is strikingly exhibited in the following figures, which show the value of production for successive five-year periods: For all years to 1895, inclusive, $94,547,241; for five years, 1896-1900, $57,607,967; for five years, 1901-1905, $96,507,968; for five years, 1906-1910, $125,534,474; for five years, 1911-1915, $142,072,603; for five years, 1916-1920, $189,922,725; for the year 1921, $28,066,641, and for the year 1922, $35,158,843.

Production During last ten years, $339,280,940

Lode-mining has only been in progress for about 33 years, and not 20 per cent of the Province has been even prospected; 300,000 square miles of unexplored mineral bearing land are open for prospecting.

The Mining Laws of this Province are more liberal and the fees lower than those of any other Province in the Dominion, or any Colony in the British Empire.

Mineral locations are granted to discoverers for nominal fees.

Absolute Titles are obtained by developing such properties, security of which is guaranteed by Crown Grants.

SYNOPSIS OF LAND ACT AMENDMENTS

PRE-EMPTIONS

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emptions is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 5,000 board feet per acre west of the Coast Range and 8,000 feet per acre east of that Range.

Applications for pre-emptions are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emptions must be occupied for five years and improvements made to value of $10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

PURCHASE

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price of first-class (arable) land is $5 per acre, and second-class (grazing) land $2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

HOMESITE LEASES

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

GRAZING

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free, or partially free, permits are available for settlers, campers and travellers, up to ten head.

Premier Mine is World's Wonder

Dividend cheques for the last quarter of 1922 have been received by the shareholders of the Premier Mine. This payment of $400,000, or 8c. per share for that quarter brings the total disbursements in the form of dividends in two years up to $5,000,000 or 100 per cent. on the capital of the Company.

The first Premier dividend ($400,000) was paid on December 31st. 1921, and every quarter thereafter a dividend has been distributed. The largest payment being made on June 30th. 1922 when cheques aggregating $800,000 were received by the shareholders.

No other mine in any part of the world has made the record of this British Columbia property, which is even more remarkable when the heavy cost of development is taken into consideration, the whole of which has been paid out of profits The ore shipped has paid for the longest tramway in the world, driving tunnels, the building of bunkers concentrator, hospital, mine buildings, hydro-electric development and all operating costs.

Three ore bodies have been developed, two parallelling one another at a distance of fifty to one hundred feet apart with the other intersecting at an angle of fifty degrees. Other ore bodies as yet undeveloped occur both north and south of this and also on the Northern Light group of claims which the company has under bond and on which it has made two payments on its option.

Preparations are now being made for extending the company's operations on Cascade Creek which will more than double the ore output. Extensive additions to its hydro power development are being made and a new power house is being erected. As soon as weather conditions permit work will commence on the building of a large concentrator at the portal of the traffic tunnel being driven from the level of the old Bunting tunnel near Cascade Creek along the course of the northwest vein, which will develop large bodies of ore located by diamond drilling.

Results from diamond drilling operations during 1923 have given great satisfaction to the owners and have proven the mine much better than expected from the developments a year ago. The ore bodies have widened somewhat to the present bottom levels and at the present rate of mining the life of the mine has been extended for twenty five years, although the drilling operations have not as yet discovered the boundaries of the ore.

New ore shoots have been picked up from No. 3 level; one is from fifteen to forty feet wide and has been traced for nine hundred feet in length, carrying ore values from fifty to three hundred dollars per ton. It is estimated that this one shoot will yield at least $6,000,000.

Ancient Mining

The Roman miners of many centuries ago mined their ore by building fires against the ore bodies and then poured water on it to crack and break the rock.

Twenty Buffalo For Yukon

Twenty head of Buffalo from the Wainwright Park on the main line of the Canadian National Railways will be shipped into the Yukon shortly to form the nucleus of a buffalo herd to be established at White Horse. The purchase was executed by Robert Lowe of White Horse.

Reported Process for Hardening Copper

A blacksmith in New Brunswick has discovered a system of hardening copper to the hardness of steel. His discovery is investigated by experts and if it proves to be practicable, as is generally believed it will an immense new market will be created for copper. One of the important uses to which hardened copper will be put is the construction of marine boilers and storage tanks in pulp mills. If the discovery can be put into use it will be one of the foremost discoveries of the age.—Omineca Herald.

Considering the manner in which some towns and cities are clamoring for roads and sometimes getting them. It wouldn't be a bad idea perhaps, to agitate for an auto road from Anyox to Alice Arm, then through to the Naas Valley, and Hazelton, so that we can connect up with the proposed Yukon—Hazelton road. Then the tourists would come here by the million for we would be the seaport of Dawson. Yes that's the kind of stuff they pull off all over the province. That is what is called boosting.

Great men are they who see that mental force is stronger than material force; that thought rules the world.

Alice Arm Notes

Continued from page 1.

Alice Arm never yet has experienced hard times. Some years are better than others, and this is going to be one of the better ones.

See Al. Falconer for Wood or Coal

Mr. J. O. Trethewey left on Monday for Vanconver.

Hand Laundry Work. Moderate Prices—Miss B. Crawford, Alice Arm.

Mr. F. J. Bishop, arrived on Monday from a vacation spent in Tacoma. Mr. Bishop is the proprietor of the Kitsault House, and the old established rendezvous for miners and loggers is again open for business.

Mr. J. J. Phillips left Thursday for his home in the Naas Valley. He is travelling by way of the government telegraph line, and expects to snowshoe over in two days.

As there have been no more cases of scarlet fever in town during the week, it has been decided to re-open the school on Monday. The school trustees, however, request parents who have children ailing, to keep them at home, until they are quite sure of the nature of the ailment.

Support home industries. We can handle all your laundry. Suits cleaned and pressed. All work done at home.—Harry Wilson, Alice Arm.

Mr. J. McAleenan, accompanied by Miss Thorsen arrived from Prince Rupert yesterday. Mr. McAleenan accompanied the Rupert basketball team to Anyox on Thursday. He is one of the old residents of the camp, and is busy renewing acquaintances.

Mr. Al. Falconer, who operates the Alice Arm sawmill has been awarded the contract of supplying the lumber for the Kitsault river bridge.

Mr. S. Dumas received word yesterday of the death of Mr. James R. Moore, who was a resident here last summer. Deceased worked here as a carpenter and lived with Mr. Dumas, who was an old friend Mr. Moore died at Glacier B. C. on February 9th. the cause of death being smallpox. He was 42 years of age, and was born at Windsor Ont. He was a man of a quiet pleasing disposition and his many friends in Alice Arm will be sorry to hear of his death.

Mr. Harry Smith, arrived on Monday, from California on a visit to his son, Mr. Marshall Smith. Mr. Smith is not a stranger to Northern B. C. He conducted the largest department store in Stewart in the boom days, 14 years ago, but during the past ten years he has been connected with the oil industry in California.

A Skating Carnival will be held at the Arena this evening, commencing at 8 p.m. prompt. Speed races will predominate the programme. Races for everyone. Bring your cup and spoon.

A lot of men think the world is hard on them because they can't land a soft berth.

At least in aviation there won't be any detour signs, nor any chickens nor cows in the roads.

The Herald $2.25 a Year Anyox & Alice Arm

LEGAL NOTICE

In the Matter of the MINERAL ACT and FORFEITURE of INTEREST of Co-Owners who have failed to Contribute.

To W. J. VanHouten of Hollywood, in the state of California, U. S. A. and W. G. H. Campbell of Port Haney, in the Province of British Columbia.

WHERAS you the said W. J. VanHouten and W. G. H. Campbell are each a holder of an undivided one-quarter interest in the "Big Strike" Mineral Claim situated in the Portland Canal District, Alice Arm, B. C. located the 8th day of June 1919 and recorded at Anyox, B.C. upon the 19th day of June 1919.

AND WHEREAS Douglas R. Shewan and Robert T. Colquhoun are each a holder of an undivided one-quarter interest in the said Mineral Claim.

NOW you the said W. J. VanHouten and W. G. H. Campbell are hereby given notice that the said Douglas R. Shewan and Robert T. Colquhoun have made the whole expenditure upon the said Mineral Claim for the year ending the 19th day of June 1923 as required by Sections 48 and 51 of the Mineral Act.

AND that if you the said W. J. VanHouten and W. G. H. Campbell shall fail or refuse to contribute your proportion of the said expenditure required by the said Sections 48 and 51 of the Mineral Act together with all costs of advertising on or before the first day of March 1924 your respective interests in the said Mineral Claim shall become vested in your Co-owners to wit; Douglas R. Shewan and Robert T. Colquhoun (who have made the required expenditure, pro rata) on filing with the Mining Recorder of the Division in which the said claim is situated, this Notice in full and on fulfilment of the requirements of Sections 28 of the Mineral Act: and do you the said W. J. VanHouten and W. G. H. Campbell govern yourselves accordingly.

FRANK C. SAUNDERS, Solicitor for Douglas R. Shewan and Robert T. Colquhoun, whose address for service and place of business is 402, Dominion Building, Vancouver, B. C.
