Ore Body on Tiger Will Be Crossscut Three Levels

The winter's programme of development work at the Tiger mine is now well under way. At the present time work is being concentrated in the number two tunnel, During the summer the ore body in this tunnel was encountered. It was not, however, cut through. This is now being done, and at the beginning of the week the ore had been crosscut a distance of five feet, with the opposite wall not yet in sight. Two shifts are being worked in number two tunnel.

When the ore has been crosscut in number two tunnel, development work will be resumed on number three. Early in the fall a blind lead was encountered in this tunnel, at a distance of 200 feet from the portal, but the main body had not been reached. It is expected that an additional 80 feet will have to be driven before the main ore body is encountered. When it has been reached on this level and crosscut to determine its width and richness the work of driving the main tunnel will be commenced.

The main tunnel, will, when the ore is encountered give a depth on the ore of 800 feet below the surface. Ore will then have been developed on three levels, and when this has been done raises will be driven and the blocking out of ore commenced.

The compressor plant, which arrived a short time ago is now at the mine and will be installed early in the spring. All winter supplies for a full crew are also at the mine. The new 2-story bunkhouse built this fall is now being occupied, and is capable of providing accomodation for forty men.

Climax Group

In our last issue we published a report of the acquisition of the Climax Group by the Utility Mines No. 1 Ltd. who are developing the Tiger. We gave a short account of development work to date, but during the week we have received full data regarding development work on this property.

The ore ledge on which development work was done by O. Besner of Prince Rupert, the recent owner, is traceable on the surface for a distance of over 500 feet. This ore ledge was drifted on along the foot wall for a distance of 50 feet. The ore was then crosscut to the left a distance of 25 feet which showed the ledge to be 22 feet in width. The ore is composed chiefly of galena and argentite silver. Engineers who have examined the property state that the ore is primary and should carry present values to a great depth.

In addition to underground work the ore ledge has been developed by several surface cuts.

Lying south of the above mentioned ledge is another big ore body having a width of 50 feet. A short tunnel 8 feet in length has been driven on it. It has never been seriously developed, but is worth a considerable amount of investigation.

Big Cargo Leaves Anyox For South

The Steamship Amur arrived from Stewart at 5 a.m. on Sunday. She had on board 1500 tons of Premier ore and concentrates. She loaded at Anyox 500 tons of blister copper, 50 tons of liquid ammonia and solvent naphthalene, and 100 tons of machinery for Allenby, leaving at 11 p.m. the same day for Vancouver.

The Steamship Mogul left on Sunday for Stewart at 8 p.m.

Capt. A. Cameron left on Thursday to take charge of the Steamship Griffco.

High School Girls Win From Mine Ladies, Narrow Margin

The Mine ladies lost a well contested game to the High School girls last Friday by the narrow margin of one point. They were played off their feet by the youngsters and lacked reserve power to make a final effort. On Monday they came down with six players and swept the Beach ladies over 19. Accuracy on the basket is what the latter need most.

Alice Arm Debate Set For January 5th.

A public meeting was held at the Alice Arm School on Wednesday evening for the purpose of conducting a series of debates during the winter months.

Following a protracted discussion it was decided that the first debate be held on Saturday, January 5th in T. W. Falconer's hall. The subject to be debated: "Resolved that a truck road to the Upper Kitsault Valley would be more beneficial to the Alice Arm district than a railroad."

Affirmative speakers will be: E. Greenaway, C. Gordon, E. Moss. Negative: J. Trinder, T. W. Falconer, M. Petersen.

Following the debate it is probable that the evening's entertainment will conclude with a dance, or some other form of entertainment.

In addition to the above six speakers, there are many others in the camp who, it is hoped will consent to take part in the future debates. Will those interested kindly inform E. Greenaway or E. Moss so that plans can be made for future debates.

Anyox Cubs Will Hold Guest Night

Anyox Wolf Cubs are holding a guest night in the Gymn on Dec. 15th. when each Cub will bring along a boy who is not a Cub and entertain him. The Pack has made good progress, all Cubs having passed the examination.

At a "Court of Honor" held to discuss the Christmas good turn it was decided to carry out the plan suggested by Mrs. Hugh Patrick viz: to assist people to carry heavy parcels from the General Store and Post Office.

The past two months have been spent by the Cubs and Scouts collecting toys, etc. for the Scout repair shop at Vancouver, and as a result, two large packing cases were forwarded on Thursday's boat.

The Cubs and Scouts wish to thank all who have so kindly given them assistance.

Anyox and Rupert Girls Will Mix at Basketball

The staffs of Prince Rupert and Granby Bay High Schools are arranging a series of games between the girls' basketball teams of their schools. The local games will be played probably on Thursday and Friday, December 27th. and 28th.

Tickets are now on sale giving admittance to the program for both nights which includes other contests beside the feature games. The sale of tickets is the girls' only way of meeting the expenses of the trip. Purchase of a ticket assures the holder of two evening's entertainment and a chance to win the lucky prize.

ANYOX NOTES

M. R. Redman arrived from Vancouver on Monday.

Wm. Stormont arrived in town from the south on Monday.

D. Campbell was an arrival on Monday from Prince Rupert.

Among the arrivals from the south on Monday, were: J. Larson, B. Larson, W. H. Benholt, J. Bell, Capt. Living, G. A Donally, W. McCasso.

M. C. Earlwin left on Monday for the south.

W. Simpson was a southbound passenger on Monday.

A box of ElDoro cigars specially packed for the Christmas trade makes an ideal gift for the festive season.

R. A. Cowdell left town on Monday. He has taken a position with a mining company operating in northern Manitoba.

Continued on page 4

Junior Sports' Club Is Making Fine Record

The Alice Arm Junior Sport's Club under the leadership of Mr. E. Greenaway, have, during the past two months shown what results can be attained when energy, foresight and diplomacy judiciously mixed are brought into play.

Commencing last month a number of Saturday night card parties were held. The total receipts were $92.-50; expenditures were $31.30; leaving a balance in hand of $61.20.

After paying for swings and seesaws for the school playground, and the purchase of fifty plates, cups, and spoons for community use, there will still be a balance left of $15.00.

The Club meets every other Friday afternoon and business is conducted along parliamentary rules. Officers are: President, Florence Studdy; Secretary, Emily McGuire; Treasurer, Barney McGuire.

It is proposed to hold further card parties in order to provide for a piano for school and community use.

Successful Card Party Held Alice Arm

A card party was held at the School on Saturday evening. It was under the auspices of the Alice Arm Junior Sports' Club, and was, as on previous occasions another brilliant success.

Bridge was played exclusively. The ladies' first prize was won by Mrs. H. F. Kergin; second, Mrs. E. Moss: consolation, Mrs. G. Anderson. Gentlemen's first prize, Mr. J. Trinder, consolation Mr. H. Fowler. The drawing of the evening, prize for which was a large Christmas cake was won by Mrs. E. Moss. This party concluded the Club's social activities until the middle of January.

Toric Mill Closed Down During Week

Operations were suspended for the winter at the Toric during the week. The close-down was due to the freezing of the water main which carries water to the concentrating mill. The majority of the staff have arrived in town.

It is not expected that the mill will be operated until next spring. Whether development work will be carried on in the mine is not at present known.

Anyox Canadian Legion Elect Officers

The local post of the Canadian Legion has elected the following officers for the coming year:

President, Dr. Lang; First Vice-President, Mr. Kidd; Second Vice-President, Frank Hill; Treasurer, J. L. Stewart; Secretary, C. O. Fricker.

Concentrator Team Win Two Games Of Basketball

Last Friday and again on Monday the Concentrator basketballers achieved victory but only after strenuous efforts. In their first game against the Beach they were lucky to win by 30-28. Two of their men were off for peronals and two others needed only one more violation for banishment. The Beach put up a an excellent game, McLachlan counting fourteen points. On Monday luck was with the ore-crushers again. Mechanics were always within striking distance, being only one point behind in the second half. Evans and Deane were lost to them early in the game but Stewart Steele was useful assistance. With a long season ahead the winning team is hard to choose.

I. O. D. E. Vote Money To Deserving Organizations

Kincolith Chapter, I. O. D. E., held its December meeting on Tuesday afternoon, in the gymnasium lounge room Mrs. Brayfield and Mrs. Cody were hostesses. Money was voted to the Province Santa Claus Fund and to the Queen Alexandra Solarium.

The sewing done by members for the Alexandra Orphanage in Vancouver was collected.

Vocal numbers by Mrs. Pinckney were enjoyed. For the next meeting Mrs. Cameron and Mrs. Campbell will be hostesses.

Mrs. Baillie and Mrs. Kidd were appointed a committee to visit hospital patients and sick members.

Anyox Indoor Baseball Season Opens

The schedule for indoor baseball opened with two games on Wednesday evening, Mr. Lindsay pitching the first ball. A feature of the game is the racket that the spheroid makes when a husky clout drives it into the end wall.

In the first game the Beach overwhelmed the Smelter 22-7 and then the Elks matched drives with the Concentrator to win 19-16.

BIRTHS AT ANYOX

Born to Mr. and Mrs. Frederick Snyder at the Anyox Hospital, on Sunday, November 11th. a son.

Born to Mr. and Mrs. Arthur Kirby at the Anyox Hospital, on Sunday, November 25th. a daughter.

Born to Mr. and Mrs. Adolf Bopp at the Anyox Hospital, on Monday November 26th. a daughter.

Born to Mr. and Mrs. W. Earl Godfrey at the Anyox Hospital, on Wednesday November 28th. a daughter.

Debates on live modern subjects is a form of recreation that cannot be over indulged in. A Debating Society was recently formed in Anyox, and this week saw the formation of a similar organization in Alice Arm. Here, in both towns, is a golden opportunity for anyone to improve their public speaking, or for the novice to break the ice and learn to speak in public as well as in private. The acquisition of the art of being able to express ones views to an audience, whether large or small is an achievement of paramount importance. Oftimes an opportunity presents itself for a person to express his views to an audience, but lack of self-confidence holds him back, and he is forced to keep his opinion to himself or at the best impart it to a few intimate friends. It is hoped that the Debating Society in each town will receive wholehearted support, and that sufficient speakers will be forthcoming to carry on throughout the winter.

Sixteen more days and Christmas will be here again, with its festivities and merry-making. Christmas means unlimited mirth to the majority. It is also a nightmare for the average store clerk, postmaster and postal assistant. The latter is due to the last minute rush and in the case of the Postal Service if the safety margin is overstepped, a breakdown results and letters and parcels to friends arrive too late for the purpose intended. Mail your letters and parcels in ample time. It is much better for your friends to receive them a few days before Christmas than a few days after. Postal workers are not superhuman. There are also only 24 hours a day.

Small Boy—Daddy, what do you call a man who drives a car?

Father—It depends on how close he comes to me.

British Interests Develop North Coal Fields

Plans of the powerful British interests reported backed by the Mond Nickel interests to develop large coal fields around Telkwa and produce petroleum and other by-products were made known last week, following the recent sale of Telkwa Collieries and Copper River coal fields to an unnamed purchaser.

The program calls for the erection of large plants to use the Bussey low temperature carbonization process for the manufacture of coal into many commercial products after the extent of the coal holdings around Telkwa have been determined.

That the application of the Telkwa Kitimaat Railway Company to the legislature for a private bill granting a charter to build a railway from Telkwa west and south to tidewater at Kitimaat is closely related to the development of the coal areas, is believed.

No Abolition of Income Tax Says Robb

In addressing the Canadian Club at Vancouver recently, the Hon. James Robb said: "Some gentlemen in the east have had the idea that the income tax will be removed. I submit to those gentlemen who hold tax exempt bonds which mature in 1933, and I want to say that the government will not issue any more tax exempt bonds, who is going to pay interest on the bonds which are refloated to refund these securities? Income tax will be lighter as conditions permit, but income is going to remain in Canada for a long time."

The minister asked the audience to compare the Canadian taxes with other countries of the world. "When compared with some of the states in the country to the south, the Canadian had little reason to grumble," he said.

Enormous Turnover Prairie Wheat Pool

A total gross turnover of $323,847,282.41; total wheat handlings of 215,489,563 bushels and total coarse grains handlings of 18,319,009 bushels, are some of the outstanding figures in the Annual Directors' Report of the Canadian Wheat Pool for the crop year 1927-28, which has just been released.

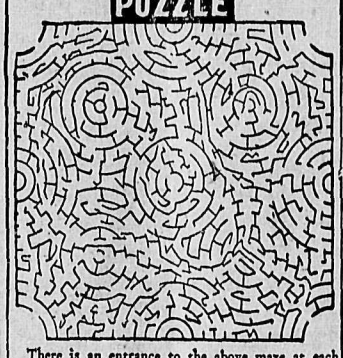
LOOK $200.00 GIVEN AWAY IN CASH

FIRST PRIZE $50.00
SECOND PRIZE $40.00
THIRD PRIZE $30.00
FOURTH PRIZE $20.00
FIFTH PRIZE $10.00
TEN PRIZES OF .....$5.00 each

Below will be found a Puzzle that may appear to be simple, but is not so simple as it looks. Try it, and if you solve it correctly, and will sell for us 8 boxes of HOME SALVE at 25 cents per box you have an excellent opportunity to win a CASH PRIZE, ranging in value from $5.00 to $50.00.

HOME SALVE is a Household Emergency Remedy that is easily sold. Housekeepers need it, and use it. It is becoming more popular every day.

PUZZLE



There is an entrance to the above maze at each corner. One of these entrances leads you into and around the maze, (but not through the centre) then out again at the corner at which you started. Find this path and trace it with a soft pencil and you will have the outline of a popular fruit.

Cut out the Puzzle and write your name and address plainly on a sheet of paper, together with the words "I have solved the Puzzle and find the fruit to be a . . . . . (state the fruit that you find it to be). We will then notify you immediately if you are correct, and if so, will send you, at our risk and expense 8 boxes of HOME SALVE to be sold at 25 cents per box.

The First Prize is $50.00 in Cash, the Second Prize $40.00 in Cash and so on down the list until all the Prizes are exhausted.

WE HAVE GIVEN AWAY THOUSANDS OF DOLLARS IN CASH PRIZES TO PERSONS WHO CORRECTLY SOLVED OUR PUZZLES AND SOLD HOME SALVE.

We see no reason whatever why you should not be a Cash Prize Winner. Is it not worth your while to try? Send you answer to-day. Don't fail to write the words we mention neatly, and state what the fruit you found is, as in the event of ties, writing and neatness will be considered factors.

New Company Develop Stewart Properties

Portland Canal News

The Gold Standard Mining Company has been organized under the laws of Alaska to take over and develop the Engineer and Banded Mountain groups of mineral claims located near the head of the west fork of Texas creek. Capitalization is $3,000,000 with par value of the stock 25 cents, 8,000,000 shares remaining in the treasury and 4,000,000 going to the vendors in full payment for their interests, this vendors' stock being voluntarily put in escrow for two years.

The Engineer group adjoins the Hyder Lead group on the east and consists of eight claims. Four veins have been located on the property which have been partially prospected by means of open cuts and short tunnels, and encouraging values have been found, assays running as high as $150 in gold, silver and lead. The principal development work to date consists of a tunnel 35 feet long which has a full face of ore, and another which is a crosscut and is in 90 feet, with from 20 to 25 feet needed to hit the vein.

The Banded Mountain group consists of 12 claims and is 1½ miles west of the Engineer. So far as is known it contains five veins, two of which are from 40 to 60 feet wide and have been traced the full length of the property.

Big Increase In National Railroad Earnings

The net earnings of the C. N. R. will exceed $60,000,000, as compared with $3,000,000 in 1922, Sir Henry Thornton announced recently. He was firmly convinced he said that the profits of the Canadian National Railway were criterions of the nation's advance.

Sir Henry said that the Dominion's immigration policy should be rigorous, but sane, and that new arrivals should be made to feel at home. Above all, they should see national resources developed by, and for, the people, and avoid exploitation.

There may be too much optimism sometimes and not enough facing bare facts.

IN THE LEGISLATURE

NOTICE IS HEREBY GIVEN that an application will be made at the next Session of the Legislature of the Province of British Columbia for an Act to incorporate a company under the name of Provincial Telephone Company with an authorized capital of five million dollars with its head office in the City of Vancouver and with the following powers:

To operate telephone, wireless telephone, radio-telephone and similar services, including services for the transmission of sound, pictures, writing or signals; to hold and dispose of lands, tenements and hereditaments of any description; to provide and maintain all such buildings, works, plant, apparatus, materials, offices and exchanges as may be necessary for its business: for the purposes of its business to provide and operate steamships and other vessels; to acquire and use any privilege granted by any Federal, Provincial or municipal authority; to acquire and use patent rights; to advance money to any corporation, company or person for providing building or operating any telephone system; to do anything as contractor for others which it might do for its own purposes; to invest and deal with its surplus funds; to enter upon and break up highways, streets, and public bridges and to construct telephone lines along, across or under the same, or in, under or over watercourses, rivers and lakes, subject to the approval of the city or municipal council where the proposed works are to be situated within a city or municipality, and in other cases subject to the approval of the Minister of Lands; to construct works on its own property; subject to obtaining consent under the Navigable Waters Protection Act of the Dominion of Canada, to construct, lay and operate submarine telephone cable or cables in any lake, river or water to which that Act applies, also between any islands in British Columbia and between such islands and the mainland; to cut a passage for its lines where such lines pass through woods subject to compensating the owners thereof for damage, and to trim trees on or extending over highways in order to prevent interference with good telephone service; to purchase the whole or any part of the undertaking of any other company having objects in whole or in part similar to those of the company, or to amalgamate with such other company, and to transfer to the company or to the amalgamated company, as the case may be, all or any of such franchises or statutory powers as may be possessed by such other company; to enter into and carry out any agreement with any company whose undertaking is purchased as aforesaid in the nature of assuming the payment of or guaranteeing the payment of principal and interest, or either, on bonds, debenture stock or debentures, or assuming or guaranteeing the carrying out of its obligations or any part thereof; to enter into agreements for connecting its system or lines with those of other telephone operators; to expropriate lands under the powers of the Lands Clauses Act; to make regulations for its internal management; to fix from time to time a tariff of charges for its services, and to collect, sue for and recover the same; to borrow money; to issue preference shares, debentures or debenture stock either redeemable or irredeemable; to issue shares with or without nominal or par value; to change its name pursuant to the Companies Act, and other incidental powers.

DATED the 1st. day of November 1928.

Copper Again Leading Metal In Value Of Province

The outstanding factor in metal prices has been the recent rapid rise in copper. With a 16 cent copper market well established and a firm outlook for this price to be maintained, copper mines are prospering, and a renewed stimulus is given to the development and equipment of copper properties in the province.

World lead and zinc prices have been weak and unsatisfactory during most of the year. The statistical position of lead is however good, and the outlook for the future is fairly satisfactory. The best that can be said for zinc is that the price seems to have reached bedrock and that no further decline is imminent.

It is expected our copper output this year will approximate 100,000,000 lbs. With the increased production and a higher average price, copper comes back to its old position in having the highest yearly value of the province of any mineral produced.

This year that value will be slightly over $14,000,000.

Lead production will amount to about 300,000,000 lbs., an increase of about 20,000,000 lbs. over 1927.

Zinc output will probably be the same or very slightly higher than in 1927. For several months the zinc plant at Trail could not be worked to capacity owing to lack of power, or undoubtedly a considerably larger zinc output would have been made.

Silver production will show a decline of nearly a million ounces as compared with 1927, when 10,470,185 ounces were produced. The cause of this decrease is not yet apparent and later figures may materially change this estimate.

Lawyer (on telephone): "Yes, dear, I'll meet you at the restaurant for lunch. Twelve? Yes, but please don't be later than one as I have an appointment with a woman client at three and can't wait any longer than two if I'm to meet her at four."

MINERAL ACT
(Form F.)
CERTIFICATE OF IMPROVEMENTS
NOTICE

"Lion," "Tiger," "Plutus Fraction," and "Del Norte Fraction," Mineral Claims, situate in the Naas River Mining Division of Cassiar District.

Where located: on East Side of Kitsault River, about 18 miles from Alice Arm.

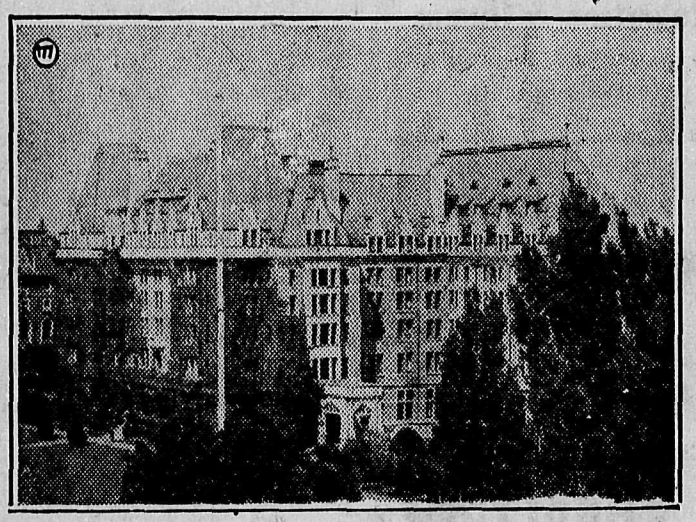
TAKE NOTICE, that I, E. C. Pickett, Free Miner's Certificate No. 11553-D, intend, sixty days from the date hereof, to apply to the Mining Recorder for a Certificate of Improvements, for the purpose of obtaining a Crown Grant of the above claims.

And further take notice that action, under section 85, must be commenced before the issuance of such Certificate of Improvements.

Dated this 15th. day of October, A. D. 1928.

E. C. PICKETT.

Mediaeval Mystery Play Revived



The Empress Hotel, Victoria, the beautiful grounds of which will be brilliant with holly berries during the season of rivalry, being arranged as an old English Christmas festival.

Imagine Christmas in England in 1328, 600 years ago. The dawn of the Reformation was all but breaking, but the Church still held place of power in state as in religion, and had been for centuries the fount of all learning. A primitive age—rough and relentless, and its people were primitive to a degree hardly conceivable in this age. Rough, hard living was lightened by rough hard play and such church festivals as Christmas were celebrated in carousing and high revels by those as could command the means for such employment. Religious teaching came to the mass of the people only by word of mouth, and as a means of making the New Testament stories living and understandable, incidents of the Bible story were presented in simple plays as primitive as the understandings of their audiences. They were called Mystery Plays and one of the first of them, and, therefore, perhaps, the first of all plays to be performed in England was the story of the adoration of the shepherds and the Magi, written by Randall Higden, a monk of Chester Abbey and first performed at Christmas in the year 1328, just six hundred years ago.

From that day to this is a long time, but there has been a revival of interest in the beautiful things of mediaeval days, and a few years ago the Chester Mysteries were brought to Canada and presented for the first time in America at Hart House Theatre, Toronto University. There they met with instantaneous success, and for several Christmases were a feature of Toronto's holiday celebration. Later they were presented as part of a Christmas service in the chancel of the church of St. Mary Magdalene, Toronto. It will next be seen at Victoria, B.C., as part of the old English Christmas celebration that is being arranged to take place at the Empress Hotel there this year.

It will be the central feature of a notable revival of the Christmas customs of England dating from the middle ages down to the time of Dickens and Mr. Pickwick. In the costumes of that periods, singers, actors and musicians will, between Christmas and Twelfth Night lead the revels and the entire celebration will wind up with a costume ball. Victoria is already famous as a winter resort. Its mild, pleasant weather permitting golf and motoring practically every day and its wonderful salt-water swimming baths have made the most English city in North America an ideal place in which to spend the winter, and with the programme of Christmas revels it is likely that the number of visitors to that city from the prairies and from some of the western states will be unusually large.
