5 cents each.

## Construction Work Being Pushed by Silver Crest Co.

The Silver Crest Mining Co., who, for the past two seasons have developed the Saddle property on Hastings Arm so successfully, are well advanced with outside construction work. Underground work is also being vigorously prosecuted.

A new camp has been established at an elevation of 2500 feet and all material for an aerial tramway and upper ore bins is now at this level. Crews are now engaged in putting in the towers on the upper section of the tramway. It is expected to have the tramway completed before any snow difficulties are encountered.

The new drift, which was commenced recently, has been driven a distance of 60 feet. The ore vein is still as strong as ever, being from 4 to 6 feet wide, and having good free walls.

The best results from this drift is expected when it has been advanced an additional 300 feet. At this point the drift will be under the high grade surface showings which were developed by shafts and open cuts last year.

One of these open cuts put in by C. Clay, showed 22 inches of solid ore, which assayed 62 per cent. lead, 48 ozs. silver, 3 per cent copper and \$4 gold per ton.

## Fire Fighters Respond To Two Fires On Saturday

Two calls for fire fighters occurred at Alice Arm last Saturday. Both were responded to with alacrity, and except for the burning of the Government telegraph office no serious damage was done.

The first call occurred during the afternoon, when a stiff breeze fanned the flames burning the logged-off land on the Kitsault Flats and seriously threatened the residence and large chicken house of Wm. Stephens. Volunteers quickly controlled the fire, but not before a number were partially blind from the dense smoke which obscured everything in the vicinity.

The second call occurred at 11 p.m. when some good citizens were nicely tucked in bed, anticipating a night of unbroken repose. Others were engaged in indulging in the terpsichorean art at the Alice Arm Hotel, resplendent in glad rags and shaven chins, when the dread alarm was sounded. The building was a seething mass of flames inside when the fire was first discovered, and nothing was saved. The building was of log construction and was in a delapidated condition. Its destruction was not regretted by anyone in Alice Arm.

The efforts of the fire fighters successfully prevented the fire spreading on the hill side, and endangering the residence of S. Dumas.

The origin of the fire is unknown no one being in the building since 6.15 p.m. nearly five hours before the fire.

Luckily no wind was blowing to endanger nearby buildings.

## Saturday Evening Dance Much Enjoyed

A very enjoyable dance was held at the Alice Arm Hotel on Saturday evening. Quite a number of Anyox visitors were present in addition to Alice Arm folk, and everyone thoroughly enjoyed themselves. This dance was the last of a series that have been held on Saturday evenings while Anyox week-end visitors have been in town.

## Will Build New Camp

Preparations are on foot for the building of the new camp at the Tiger property by the Utility Mining & Financing Co. A full report of which, together with mine development will be published in next week's issue.

## No Demand for Siliceous Ores Closes Outsider Mine

The Granby Consolidated, Mining Smelting & Power Co. Ltd. have relinquished their bond on the Outsider mine, which is situated on the Portland Canal, and are now taking out all equipment and machinery.

Since 1923, the Outsider has been held by the Granby Co. by a bond under royalty payments on ore tonnage mined. Last year 13,695 tons of ore was mined, and in 1926, 34,729 tons.

The ore was mined for the silica it contained, which was required at the smelter for fluxing purposes. It also carried copper values.

The reason for closing the mine is that there is no present demand

for silica at the smelter and copper values were not sufficient to make mining profitable.

Part of the machinery now being taken out will be used at the Bonanza mine and the balance absorbed by the Anyox plant.

The Outsider was the oldest shipping mine on the north coast, and was operated by the Brown-Alaska Co. in 1906, who shipped several thousand tons of ore to Hedley smelter, Alaska.

Mr. and Mrs. P. McKaracher, who have been spending a vacation at Silver City, expect to return home this week-end.

## Change of C. N. Steam Ship Schedule

Commencing this week, the steamship Prince George will arrive at Anyox on Saturday at 10 p.m. and leave for Prince Rupert and Vancouver, via Ketchikan at about midnight. This schedule will remain in force until November 17th. when the winter schedule will be inaugurated.

On Tuesday next September 11th. the steamship Prince Charles will leave Anyox for the south, and this will be her last trip until next summer.

## Anyox Golf Players Hold Meeting

Devotees of golf held an organization meeting recently at which Mr. W. R. Lindsay was elected president of the newly formed Anyox Golf Club. About a score of players have been exercising on the four hole course on the slag pile and it is felt that conditions warrant an extension to a nine hole course. Mr. Sid Peters is Secretary.

## New Commander Appointed For Girl Guides

The first meeting for the Girl Guides Company was held in the English Church Hall on Friday afternoon. In the absence of the company leader, Mrs. M. L. Campbell, Miss (Lieut.) Daisey Hoadley will be in command.

## Future Activities of Community League Outlined

At the last meeting of the Anyox Community League Council further business relating to the opening of the new gymnasium was dispatched. For the first dance on October 8th. the Arcadians orchestra has been engaged. Preparations are being made for a Klondyke fete later in the month.

## ALICE ARM NOTES

Mr. and Mrs. H. Morden, who have been visiting Mr. and Mrs. N. Fraser left on Monday for their home in North Vancouver.

Mrs. Midburst, who has been visiting her sister, Mrs. G. Anderson, left on Monday for Prince Rupert.

Mrs. J. Calfa left on Monday for a week's visit to Prince Rupert.

A scow load of lumber was shipped during the week by Al. Falconer, who operates the Alice Arm sawmill. The lumber was sent to the Saddle property at Hastings Arm and will be used in construction work, by the Silver Crest Mining Co. who are developing the mine.

The destruction of the government telegraph office necessitated new quarters, and at present these are located in the office adjoining J. C. Studdy's residence. Mr. Studdy purchased Mr. Al. Falconer's residence upon his arrival from Aiyansh last week.

## Storm Drives Launch Ashore Lumber Scow Saved

The launch, Willena May of the Silver Crest Mining Co. had the misfortune to run into a heavy storm off Way Point on Thursday, when towing a scow load of lumber from Alice Arm to the Saddle mine on Hastings Arm. The launch was beached and it is thought that very little damage was done. The lumber and scow was saved and has been taken to Hastings Arm.

## ANYOX NOTES

Mr. and Mrs. J. Wynne returned on Monday from a vacation spent in the south.

Mr. and Mrs. B. M. Buck returned on Monday from a two month's vacation spent in the south.

Rev. and Mrs. J. S. Brayfield returned on Monday from the south where they have been spending holidays.

G. Price arrived in town on Monday from the south.

Mrs. W. J. Wells arrived on Monday from Vancouver to join Mr. Wells here.

J. C. Martin was an arrival from the south on Monday's boat.

When in need of half an hour's perfect contentment, smoke a cigar but it must be an El Doro.

Peter O'Neill was a passenger to Prince Rupert on Monday.

Mr. and Mrs. Critch and family left for Vancouver on Monday. Mr. Critch has been relieving at the Customs Office.

Sid Peters is relieving at the Liquor Store at Alice Arm, while Chas. Hutchinson is on holidays.

Morley Shier, representing the Canadian Giant Co. who handle all kinds of explosives, left on Friday for Prince Rupert.

C. T. King left for Prince Rupert on Friday for a brief visit.

T. W. Bailey was a passenger to Vancouver on Friday.

Mr. P. Gordon and son left on Friday for Vancouver.

Continued on Page 4

## Wins 6th. Prize in Empire Competition

Richard Owen of the Mine won a silver watch (6th. prize) in an overseas fretwork competition. This contest was open to all in the British Empire with the exception of the British Isles. These entries were sent to Durham, England to be judged. In spite of a handicap by not having the required finishing nails, the excellent workmanship of the boy is well merited, and if the required material had been on hand, the boy would have attained a higher standard in the contest.

## P. T. A. Reception For New Teachers

The Anyox Parent Teacher association will begin the new year with a reception to the new teachers on Monday evening. The Nominating Committee will report and the election of officers will be proceeded with. All residents interested in the advancement of education are invited to become members.

## J. Sauer Enlarges Ranch By Additional Purchase

J. Sauer, who is successfully operating a dairy farm and truck garden on the east side of the Kitsault Flats has extended his holdings.

He recently purchased 150 acres from the Abbotsford Lumber Co. in which is included some fine hay land. The newly acquired land adjoins Mr. Sauer's ranch on the west.

## NOTICE TO HUNTERS

I will not allow any hunting to be done on my land without my consent. This includes 150 acres of land in Lot 51.

J. Sauer.

It is expected that the new gymnasium under construction in Anyox by the Community League will be completed by October 1st. and that shortly after that date will be again available to the public for winter sports of all kinds. The devotees of badminton, basketball and gymnastics, will, in spite of the fire, not lose an opportunity of indulging in their favorite sport, and the fans, who delight in witnessing feats of skill and endurance will be provided with many thrills throughout the coming winter. In addition to the above-mentioned sports the hall will also be available for dances and other social gatherings, and will undoubtedly again be in demand during the winter season of social activities. The gymnasium is one of the greatest assets possessed by the people of Anyox and the Anyox Community League is to be congratulated for the energetic manner in which commenced rebuilding, so that it would be available at the beginning of the season. The rebuilding, however, has drained the financial resources of the League to the limit. It has cost much more to replace the building than what was derived from the fire insurance company-- which is always the case. It is nice to have a fine large gymnasium. It is nice to be able to use it, but it must be remembered that it costs a lot of money. If everyone in Anyox were to show as much energy and willingness in supporting the League by being a member, as the League did in rebuilding, all would be well. It doesn't take much courage to step up and help, and you'll feel better when it is done.

This week witnesses the commencement of the autumn schedule of the C. N. Steamships, and the Prince Rupert or Prince George

will arrive each Saturday evening at 10 p.m. The arrival of mail at Anyox on Saturday evening means that it will not be sorted on that day. Sunday, of course, is a holiday, when a portion may be sorted or it may not. Certainly the Post Office will not be open until Monday morning. Each Monday the Catala of the Union Steamship Co. arrives at 8 a.m. and unloads another batch of mail. The public not having received Saturday's mail, a reply to a letter can not be sent out until the C. N. boat arrives again the following Saturday. The same thing applies also to Alice Arm. This congestion of mail every week-end is a serious problem, and is an insult to the towns of Anyox and Alice Arm. An enormous amount of correspondence is carried on between Anyox and Alice Arm and outside points, some of which is very important. It means that Anyox with a population of 2,200 people and Alice Arm with five mining properties operating, are cut off from the rest of the world for a whole week, except by telegraph. We don't believe such a condition of affairs exists in any other part of the Dominion, and it is the duty of the postal authorities to investigate at once and relieve an intolerable situation. We are only a six hours' steamship run from Prince Rupert, and yet a district such as this with a payroll of \$2,000,000 per year, and as much more spent in buying supplies, is limited to practically one mail per week. When an injustice is being done it should be resented, and if the people of Anyox and Alice Arm voiced their opinion on the matter we believe that the present condition would be speedily remedied.

"I want to be excused," said the worried-looking juryman, addressing the judge. "I owe a man five dollars I borrowed, and as he is leaving town today for some years I want to catch him before he gets on the train, and pay him the money."  
 "You are excused," returned the judge. "I don't want a man on the jury who can lie like that."

**SYNOPSIS OF  
 LAND ACT AMENDMENTS**

**PRE-EMPTIONS**  
 Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emptions is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 5,000 board feet per acre west of the Coast Range and 8,000 feet per acre east of that Range.

Applications for pre-emptions are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emptions must be occupied for five years and improvements made to value of \$10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

**PURCHASE**  
 Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price of first-class (arable) land is \$5 per acre, and second-class (grazing) land \$2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

**HOMESITE LEASES**  
 Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

**LEASES**  
 For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

**GRAZING**  
 Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free, or partially free, permits are available for settlers, campers and travellers, up to ten head.

The Mineral Province of Western Canada  
 TO END OF DECEMBER 1927

Has produced Minerals as follows: Placer Gold, \$78,174,795; Lode Gold, \$130,651,919; Silver, \$86,689,046; Lead, \$121,850,734; Copper, \$221,501,079; Zinc, \$59,508,692; Coal, \$271,294,668; and Miscellaneous Minerals, \$53,502,301, making its mineral production to the end of 1927, show an

Aggregate Value of \$1,048,837,828

**Production for Year Ending December, 1927, \$60,729,358**

The Mining Laws of this Province are more liberal and the fees lower than those of any other Province in the Dominion, or any Colony in the British Empire.

Mineral locations are granted to discoverers for nominal fees.

Absolute Titles are obtained by developing such properties, security of which is guaranteed by Crown Grants.

Full information, together with Mining Reports and Maps, may be obtained gratis by addressing—

**The Hon. the Minister of Mines,  
 VICTORIA, BRITISH COLUMBIA**

Practically all British Columbia Mineral Properties upon which development work has been done are described in some one of the Annual Reports of the Minister of Mines. Those considering mining investments should refer to such reports. They are available without charge on application to the Department of Mines, Victoria, B. C. Reports covering each of the six mineral Survey Districts are published separately, and are available on application. Reports of the Geological Survey of Canada, Winch Building, Vancouver, are recommended as valuable sources of information.

**NOW BEING DEVELOPED**

Utility Mines No. 1 Limited have taken over the Tiger and Kitsol Groups in the Upper Kitsault Valley, and an intensive program of development work has been inaugurated.

For Full Information apply to the Fiscal Agents:

 830-831 Rogers Building, Vancouver, B. C.

### Canada's Gold Output Will Soon Equal That of United States

The last ten years have brought a radical shift in the sources of North American gold output. Ten years ago the United States accounted for nearly three quarters of the continent's total gold production. But since 1917 the gold output of the States has been cut almost in two, falling from \$4,000,000 ounces to little more than 2,000,000 ounces. The output for 1927 touched the lowest level in more than thirty years.

Mexican output during this decade has remained fairly constant the figures for 1927 being slightly less than those for 1917.

With United States production declining, and that of Mexico virtually stationary, Canada has rapidly assumed a position of much greater relative importance. Compared with the figures for 1927 Canada's gold production for last year showed an increase of nearly 150 per cent. The Dominion has outdistanced Mexico as a gold producing country and has been steadily closing upon the United States. Amounting to less than one-fifth of the United States production in 1917, Canada's output last year fell only 15 per cent short of that of the States.

During this ten-year period the gold production of North America, as a whole, shows a substantial decline. Were it not for the manner in which the Canadian output has leaped forward, North America's relative importance among the gold producing continents would have been severely reduced.

Among the books with unhappy endings are check books.

### Big Railway Building Program Outlined

Railway plans of construction for the next two years in Canada are the most comprehensive of the Dominion's history. This announcement comes from C. P. R. sources with the statement that "there is every reason to believe that more building will take place in that time than in the past ten."

The increase in the next two years is placed at forty five hundred miles, at a cost of \$250,000,000. In 1906, 21,423 miles was the total steel in Canada, by 1926 the mileage had risen to 40,353.

It is 4,778 miles from Halifax to Vancouver by rail and the next two years' mileage estimated to be under construction will exceed that distance by 700 miles. This estimate includes all railway building in the Dominion.

### Front Page Correction Made of C. N. Boat Schedule

On the front page of the Herald an error was made this week in regard to the C. N. Steamship Schedule. On Tuesday last September 11th, the Prince Charles made her last call of the season. The Prince George will arrive at Anyox at 11 p.m. Saturdays instead of 10 p.m.

The front page paragraph was meant for last week's issue, hence the error.

### Anyox Notes

Continued from Page 1

W. F. Watson was a passenger for Vancouver on Friday.

Mrs. Pitt and family left for Vancouver on Friday.

Wm. Hanna left on Friday's boat for a short visit to Prince Rupert.

H. W. Wall and G. W. Taylor left on Friday for Vancouver.

Miss Alice Kergin, Ted Kergin, and Gordon Anderson, of Alice Arm are enrolled this year at the Granby Bay High School.

Wm. Thomson arrived in town on Monday from the south.

Among the arrivals from the south on Monday were: R. Green, F. G. Kelley, M. C. Salcove, G. Alderson, C. E. Armison, A. G. Young, and T. C. Tracy.

H. W. Brown was a passenger to Prince Rupert on Monday.

Mrs. A. E. Robertson and family left on Monday for Prince Rupert.

Mr. and Mrs. F. Lew Lun were passengers to Prince Rupert on Monday's boat.

J. H. Lewis left on Monday for Vancouver.

Mrs. Bertha C. Donovan of Toronto was an arrival on the Prince Charles on Tuesday.

### Mine Official Visits Camp

P. E. Peterson, consulting engineer for the Utility Mining & Financing Co., who are developing the Tiger, spent several days in Alice Arm during the week, making plans for construction work, and further mine development.

### Herald Will Be Again Published on Saturday

The changing of the C. N. Steamship schedule necessitates the Herald returning to Saturday as the day of publication. In future the Herald will reach Anyox on Saturday afternoon about 4 p.m.

### CARD OF THANKS

Mr. and Mrs. Wm. Stephens wish to thank everyone who assisted in fighting the fire on Saturday when their home and outbuildings were threatened.

It is understood that a fatal accident occurred at Anyox mine during the week. Details, however are not yet obtainable.

### Northern Pioneer Dies At Stewart

M. R. Jamieson, known through the north as "Bob" died at Stewart Hospital on Sunday, September 2nd, after an illness of two weeks. During the first Stewart boom of 16 years ago, he was the proprietor of the Northern Hotel, and was one of the best known men of the camp. He later conducted a hotel at Hyder, and spent several years in the Yukon before going to Stewart. His body has been sent to Vancouver for cremation.

For the past year he had been associated with Arthur J. Brown and the Portland Canal Brokerage Co. in Vancouver. He came north to open a branch office in Stewart.

He was taken ill on the boat, but continued the trip and entered Stewart Hospital shortly after his arrival.

Mr. Jamieson was a native of Australia, but had been in B. C. and Alaska for thirty years or more.
