Granby Company Cuts Wages 10 Per Cent

Continued Low Price of Cop- per Forces Reduction

Notices were posted in Anyox on Monday morning that all wages and salaries of employees of the Granby Consolidated Mining, Smelting and Power Co. Ltd. would be reduced 10 per cent. The reduction to become effective on the following day, Tuesday, September 1st. Over 1000 men are affected.

The decision to cut wages was made following a meeting of all department heads with Mr. Chas. Bocking, president and general manager of the company.

Naturally none of the employees of the Granby Co. felt very friendly toward a cut in wages. It was not altogether unexpected. The difficulties of the company in operating the big plant at the present time was fully recognized, and every man displayed his co-operation by being at his post the following day.

The Granby Co. depreciates the necessity of reducing wages, but due to the unusual low price of copper and a stagnant market, even at the present low price—which is the lowest in history—they had no other choice, except extreme measures, and it was felt that the present wage out would entail far less hardship than any extreme measure. The Granby Co. appreciate the loyalty of their employees both in the past and during the present crisis and there is no doubt they will not forget the present loyalty of their employees when happier times again prevail.

For many years wages at Anyox have been on the sliding scale. Wages rising and falling with the price of copper; remaining stationary at 12 cents a pound and below that figure. This arrangement has given satisfaction, but it was unbelievable that the price of copper could drop and maintain a price level of 7½ cents a pound as is now the case.

The present low price of copper has completely paralysed the copper industry of North and South America. Several big copper mines and smelters have closed down in the United States and many others are working extremely short time. It is a relief for the people of Anyox to know that the present economic depression will not affect them so much as it will many other industrial centres.

The death took place at Anyox on Wednesday, August 26th. of Catherine Kavalir, daughter of Mr. and Mrs. Kavalir. The baby, who was ten months old, had been ill for about four months. The burial took place at Anyox on Thursday.

Anyox Win 1st. Football Game With Rupert 5 Goals to 4

The Anyox football team which journeyed to Prince Rupert on Tuesday to play a series of games during Exhibition week, met and defeated the pick of Prince Rupert teams in the first game on Wednesday. The score was: Anyox 5, Prince Rupert 4.

Prince Rupert opened the game with a burst of speed, and piled up three goals before the Anyox players could find the net.

Following the scoring of the home team's third goal, Anyox realized that in order to avert disaster they must extend themselves to the limit. The result was they banged the ball between the posts twice in succession. Prince Rupert again scored, but the visitors were now confident of themselves and they placed two more goals to their credit, while Prince Rupert, despite strenuous efforts, could not penetrate the Anyox defense. Buntain scored two goals for Anyox, while MacConnachie, Dyer and Yglesias obtained one each. A downpour of rain continued throughout the game.

The Anyox team were: Horner, Yglesias, Morrison, Del Rio, Currie, Williams, Field, Buntain, Dixon, MacConnachie and Dyer.

Wet Weather Delays Tennis Championship Games

Owing to the weather it was impossible to complete the tennis championships by Sunday, but some excellent preliminary games were played during the week. Miss K. Eve entered the finals of the Ladies' Single Championship by defeating Miss Leighton 6-1, 6-4. In the Men's Consolation Singles W. Cavers, Jr. beat Jim Dixon 4-6, 6-2, 6-3, but was later defeated by Frank Hill 6-2, 5-7, 6-4. Johnny Gillies qualified to meet Frank Hill in the final by defeating Bud Sheen 7-5, 6-8, 6-0.

The final games will be played as soon as weather permits.

Anyox Golf Notes

The golf bag which was presented by Mr. R. Stewart, manager for British Columbia of the Canadian Explosives Ltd., was played for in a Ladies Handicap Match Tournament, and was won by Mrs. J. L. Stewart after a play-off game with Mrs. R. O. Cutler.

The Sun Life Cup for the month of July was won by Mrs. R. O. Cutler.

A 2-ball foursome was played by the ladies of the Anyox Golf Club on Wednesday, August 26th, and was won by Miss Marjorie Cloke and Miss Wilma Powell, with a net score of 64. The prizes were donated by Mrs. D. C. Roy.

ALICE ARM NOTES

Miss Agnes Wardrope who has been spending holidays at the Alice Arm Hotel expects to return to Anyox next week.

Mrs. A. Crerar, and Mrs. Wardrope who have been spending holidays here returned to Anyox on Tuesday.

J. Trinder arrived home on Thursday from the Naas River, where he has been engaged in fishery patrol work during the summer.

Miss Lillian Moss left on Friday for Prince Rupert, where she will attend High School.

Miss Ellen Anderson, left on Friday for Vancouver, where she will attend High School.

Mrs. C. W. Ruckhaber who spent a few days holiday here left for Anyox on Friday.

Miss Annie McLachlan, who has been spending holidays here left on Friday for Anyox.

Mr. Ellison, who has been conducting a survey of the Illiance-Naas road left on Friday for Prince Rupert. He was accompanied by W. Gwyer who has been working on the survey.

Gordon Anderson, who has been employed on the survey of the Illiance-Naas road left on Friday for Anyox.

Mrs. G. W. McGowan and child, arrived on Monday from Vancouver and will reside here. Mr. McGowan is in charge of operations at the Esperanza mine.

A. E. Ironside arrived on Monday from Nanaimo and will be in charge of the local school for the coming term.

Mrs. S. Fraser and family arrived home on Monday from a visit to her parents at Prince Rupert.

A. Beaudin, who has spent the past week here, left again on Monday for Terrace, where he will spend the winter.

Mrs. O. Evindsen and son Ronald left on Monday for Vancouver, where they will spend a vacation.

A. Knox, formerly superintendent at the Tiger mine arrived on Monday and left again on Wednesday. During his stay he visited the Tiger property in connection with the shipping of the compressor plant which was made some time ago.

Let's all unite and exhibit as much as possible at the Exhibition. The success attained this year will determine the extent of the future exhibitions, which it is hoped will grow bigger and better each year.

Send your films direct to Wrathall's Photo Finishing, Prince Rupert, B. C. We use the best materials in a modern plant. Careful work and quick service.

Anyox Win 2 Football Games From Rupert At Home

A crowd of nearly four hundred witnessed the first of the two games held at Anyox with Prince Rupert. It was first-class football throughout the whole ninety minutes of play, and the crowd were impartial in their appreciation of the clever football displayed.

Right at the start Rupert pressed around the Anyox goal and looked like scoring, but the local boys broke away finally and found their stride. A few minutes after, from a corner-kick, Webster scored for Rupert. After some fine open play which was beautiful to watch the Anyox forwards got possession and managed to pass the stalwart defence, MacConnachie passing to Horner, who scored. Soon after this Horner got another from pretty well the same recipe, and just before half-time Colussi sent in a lovely high shot which beat Hunter.

The third for Anyox was nicely headed in by Buchanan from a shot by Steve Peel which struck the cross bar, and Horner notched the fourth. Dickens, centre-forward for Rupert, completed the trio for his side, and Jim Dixon, from a pass by MacConnachie, made it five for the locals. Both sides showed excellent judgment in passing and kicking, and the game was full of clever touches which delight the fans.

Conditions were totally different for the second game between Prince Rupert and Anyox. Heavy rain fell steadily, making the ball hard to control and the ground very treacherous. In spite of the bad weather an excellent crowd attended, and were delighted by the fine football played by the two teams. There were several changes in the Anyox line-up, Buntain, Donaldson, Dyer, Field and Yglesias coming into the team.

Horner, who starred as centre-forward in the previous game, played a brilliant game in goal. Prince Rupert again opened the scoring, from a high dropping shot which was partially cleared by Horner, who was then beaten by the Prince Rupert inside-left. Fast play ensued, both teams showing strength in defence. Dixon equalized for Anyox, and shortly afterwards Buntain notched one from a pass by MacConnachie. Dixon got the third after some nice passing. Tony Yglesias netted the fourth for Anyox, and Jack Buntain completed the scoring with a dazzling effort.

For the losers Dickens, Webster, and Egdecombe played splendid throughout the game. Jack Evans was the referee.

Mr. Day and son were south-bound passengers on Wednesday.

Plans Made at Meeting For Holding First Exhibition

A public meeting was held at the Kitsault House, Alice Arm on Saturday evening for the purpose of making arrangements for the holding of the first exhibition of garden produce in Alice Arm.

The meeting was fairly well attended and a mass of business was transacted. E. Moss was elected chairman of the meeting.

Following a short discussion it was decided to appoint a committee to determine the number of each variety of vegetables, etc. to be exhibited. The committee appointed were: Wm. Stephen, H. Smith, E. Moss.

It was decided to enlarge the scope of the Exhibition, and in addition to vegetables exhibited there will be flowers and fruit, canned fruits and vegetables grown in Alice Arm, home-made bread, cakes and cookies, and potted house plants, also wheat, barley, oats and rye.

All exhibits must be in place not later than 10 a.m. on Monday, September 7th, so that the judges will have ample time for their work. The exhibition will open at 1 p.m.

The Kitsault House will be open on Sunday afternoon for those who wish to place their exhibits.

It was also decided that sports be held during the afternoon, followed by a dance in the evening. A sports committee, consisting of H. Fowler, T. W. Falconer and J. Graham were appointed. Mrs. H. F. Kergin and Mrs. J. Larson, were appointed refreshment committee for the dance. A committee, consisting of Mrs. H. F. Kergin and Mr. Harry Smith was appointed to superintend the placing of exhibits.

It was the general opinion of the meeting that no membership fee be charged this year. All necessary work would be done voluntary and material would be loaned for tables for exhibits. Mr. Harry Smith, who first suggested the holding of the exhibition, stated that he would be responsible for the placing of tables, etc. and that everything would be ready.

At the time of going to press no decision had been made in regard to the judges. It is sincerely hoped that judges from Anyox can be procured however.

A list of the number of each variety of vegetable and fruit exhibited has been posted at the Kitsault House.

It is hoped that everyone will attend the Exhibition dance held on Labor Day in T. W. Falconer's hall, Admission is \$1.00. Let's ALL co-operate and have a jolly time.

Copper Situation Not So Bad As Pictured States An Authority

Reprinted from Financial News
 Recovery in copper prices is of such vital importance to the mining industry of British Columbia that the views of a well-posted authority on the world copper situation are of special interest to Western Canada. It will mean a great deal to British Columbia when major operations such as Britannia and Granby are able once more to operate at or near full capacity, while improvement in copper prices would make possible the bringing into production of Coast Copper on Vancouver Island and allow development companies to finance for renewed operations. In view of these circumstances it is encouraging to hear from Philip W. Wilson mining engineer connected with American Metal Company, that the statistical position of the metal does not indicate the climb to improved price levels will be so prolonged or so difficult as might appear on the surface.

Mr. Wilson, in an interview in the Wall Street Journal, points out that many times in the past the outlook for copper has been as gloomy as it appears today. Each time, however, increased consumption brought new life and renewed prosperity to the industry.

Mr. Wilson brings out in the first place that although stocks of refined copper in North America increased by 26,943 tons in July, the world stocks of refined and blister copper are equal to only 3.86 months supply at the 1928-9 rate of consumption and to 5.32 months supply at the average rate of consumption the first half of 1931. He points out that for 36 years copper stocks have averaged 3.84 months' supply.

Among the comparisons which the mining engineer makes with previous copper market depressions is the situation in 1886. Copper at that time dropped to 10 cents per pound and London economists predicted that the world would never absorb the flood of cheap copper coming on the market from Africa. They proved to be wrong, consumption going up to such an extent that the price in 1890 held in the vicinity of 17 cents.

Again in the middle of '90's, when additional supplies of copper from Montana and elsewhere began to cause supplies to accumulate the price dropped to 9 cents and again dire predictions were made.

Again increasing consumption came to the rescue and in 1899 copper was selling at 17 cents and averaged over 16 cents in 1900 and 1901. Several times during subsequent years the same experience was repeated until today with the price at a new historic low and stocks at a new historic high the

utter ruin of the copper industry is currently forecast.

"However, looking at the situation dispassionately, what are the facts?" asks Mr. Wilson. "Visible copper stocks are the highest they have ever been but invisible copper stocks, those in the warehouses and plants of fabricators and consumers all over the world, probably are at as low a level as they have ever been. The moment that confidence returns and the price stiffens and turns upward in a convincing way, consumers are sure to resume their former policy of carry larger stocks at their plants. Perhaps if they are far-seeing they will take advantage of the really absurdly low price of the metal and over-stock.

"Any such return to a condition of more nearly normal stocks in consumers' hands would certainly cause visible supplies to decrease substantially. These published figures, too, represent all physical stocks of copper, including all held by the refineries for the account of consumers (and that held on consignment by the refiners for future delivery). They are hence considerably larger than they would be if all copper already sold and paid for or held on consignment were deducted."

Mr. Wilson goes on to say that in the last three depressions it took only two or three years after the

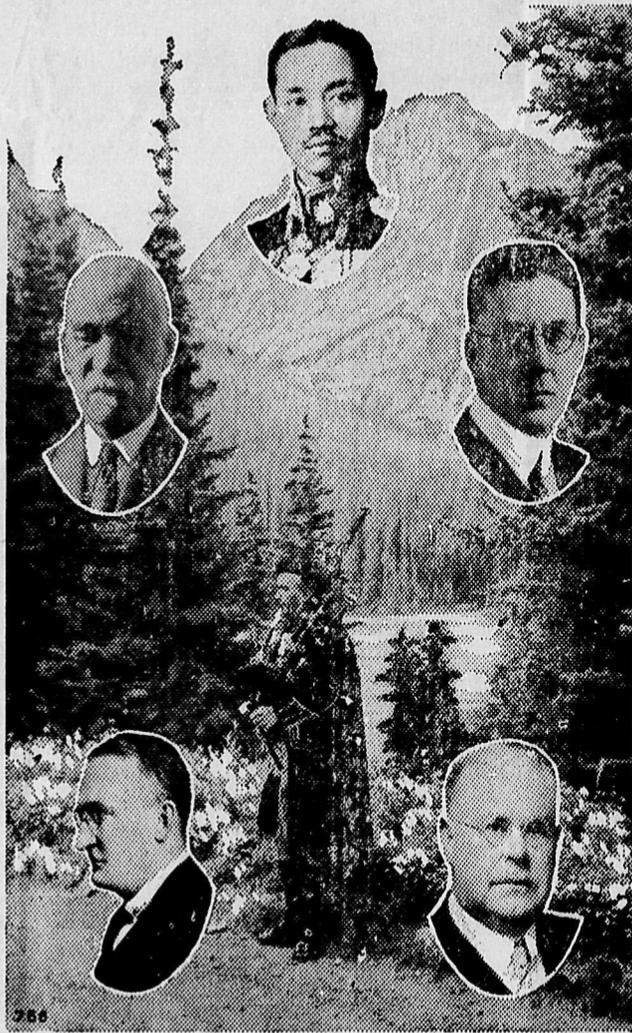

crisis had passed for increasing consumption to assert itself and reduce stocks to their proper relationship to consumption. If production has not been reduced forcibly and sufficiently through voluntary curtailment, the result has been just as effectively though more painfully attained through the functioning of the inexorable law of supply and demand, which has carried the price down to a point where enough high cost production has been forced out of the picture to assure the return to normal conditions.

Mr. Wilson summarizes his conclusions as follows:

"If, as some assert, the world's consumption of copper has passed its zenith and the curve from now on either slopes downward or at best continues horizontally, then the outlook, with new production in sight, is indeed hopeless.

"If on the other hand, the countries of the world emerge from this as they have done from past depressions and if the five per cent. and six per cent. cumulative annual increase in copper consumption again asserts itself as there is every reason to believe it will, then the copper industry has every right to anticipate in the future prosperity comparable with any that it has enjoyed in the past."

Princes, Governors and Premiers

The three Lieutenant-Governors of the Prairie Provinces and the Premier of Alberta have officially notified their acceptance of invitation to attend the Annual Highland Gathering and Scottish Festival to be held at Banff, Alberta, under the auspices of the Canadian Pacific Railway, from August 27 to 30. They are Mr. Justice W. L. Walsh, Lieutenant-Governor of Alberta; His Honor James Duncan McGregor, Lieutenant-Governor of Manitoba; Lt.-Col. H. E. Munroe, Lieutenant-Governor of Saskatchewan; and Hon. J. E. Brownlee, Premier of Alberta. These acceptances, added to the fact that H.R.H. Prince Sukhodaya, of Siam, will formally open the Gathering, will make the event one of the most brilliant of recent years. A feature of the programme this year will be the

inter-regimental piping competition between representatives of the seventeen Highland Regiments in Canada and there will also be the other bagpipe contests and displays, as well as dancing and Highland Games. The Gathering is placed in one of the finest scenic settings in the world, the beautiful Valley of the Bow River, encircled by mountains, and having, as the centre of hospitality, the famous Banff Springs Hotel built in Scotch baronial style, fitting in ideally with the general scheme of the Festival. Lay-out shows, left to right, top, the Lieutenant-Governor of Alberta; H. R. H. Prince Sukhodaya, of Siam; the Premier of Alberta. Lower left to right, the Lieutenant-Governors of Saskatchewan and Mani-

Glaciers In B. C. Getting Smaller

The general retreat of the glaciers of the Rocky Mountains is ample evidence that Canadian winters are becoming milder, according to Arthur C. Wheeler, Victoria, Honorary President of the Alpine Club of Canada and Canadian Representative of the International Commission on Glaciers who passed through Jasper recently on the Canadian National "Continental Limited" enroute east following a study of the mighty Robson Glacier.

Speaking of the Robson Glacier, which forms a silver crest on rugged Robson, highest peak in the Canadian Rockies, Mr. Wheeler declared that the huge ice field has retreated 790 feet during the last twenty years.

At one time the water flowing from the Robson glacier divided into two streams, one flowing north to the Arctic Ocean and the other flowing west to the Pacific. Now, however, the ice has retreated so far that all the water flows to the Pacific.

Ice Pack Is Heavy At Point Barrow

The heaviest ice pack in the past twenty years, according to a Nome dispatch, has prevented four vessels from reaching Point Barrow. Among the ships is the coast guard cutter Northland, with mail, hospital supplies and a nurse for the Far North Village. The trading motorship Patterson from San Francisco, the Hudson Bay British steamship Baychimo, bound for Herscheal Island; the sailing schooner C. S. Holmes of Seattle and the motorship Trader of Nome are all icebound. They are riding in open water within forty miles of Barrow.

Fort St. John — During the month of July 167 new settlers took up pre-emptions in the Peace River Block north of the Peace River.

All of Montana's production of phosphate rock is used by Consolidated Mining & Smelting Company at Trail, B. C., in the manufacture of phosphate fertilizer.

Prince Rupert Football Team Entertained

The visiting Prince Rupert footballers were entertained by the local footballers and the Community League at a dance held in the Mine Hall on Wednesday last. A large crowd attended, and the spirit of the revellers was in keeping with the occasion. With their characteristic thoroughness the mine hosts and hostesses provided the best of everything, and the result was a most enjoyable time for everybody. Harry Ward's famous orchestra provided excellent music, and Mr. Collussi, a member of the Rupert football team delighted the crowd with some splendid numbers on the piano-accordion. Over-time play was finally decided on, making it quite late before the whistle was blown.

The final for the Challenge Cup of the Anyox Football Association will be played on Labor Day, Monday, September 7th., between the Celts and Smelter. This will be a great event among the football fraternity in Anyox, and if the weather is fine a capacity crowd is expected.

C. N. Steamships Commence Fall Schedule

On Tuesday, September 1st. the Canadian National Steamship Prince Charles arrived at Anyox for the last time this year.

On Wednesday, September 2nd. the Steamship Prince Rupert arrived at Anyox at 11 p.m. on Wednesday, leaving at 12 midnight. This fall schedule will be effective until November 16th. when the winter schedule will come into force.

Effective September 5th, SS Prince John will operate a fortnightly service from Vancouver to the Queen Charlotte Islands leaving at 4 o'clock every other Saturday afternoon. This ship will give a full service to Queen Charlotte Islands ports.

The Anyox Football Team and several supporters travelled south on Tuesday for Rupert, the following players making the trip: Arthur Horner, Donald Morrison, Joe Taylor, Freddy Williams, W. Currie, Del Rio, Jim Donaldson, George Dyer, Bert Field, Doug. MacConnachie, Jim Dixon, J. Buntain, Tony Yglesias. W. Watkins accompanied the team as manager.

ANYOX NOTES

Thos. L. Mitchell, who has been employed at Anyox for some considerable time, left on Monday for Vancouver, where he will reside.

Mrs. Pamplin returned on Monday from a visit to Vancouver.

Mrs. Hilliard and daughter returned on Monday from Vancouver after spending holidays in southern cities.

Mrs. F. Dodsworth and sons Harold and John, arrived home on Monday from a vacation spent in Vancouver.

Sid Armstrong arrived home on Tuesday from an enjoyable vacation spent in Vancouver.

D. J. Hartley, who has filled the position of principal of the Granby Bay Public School for several years, returned on Monday to resume his duties. He was accompanied by his son and daughter, who plan to spend the coming year at Anyox.

Mrs. E. Yard returned on Monday from Vancouver where she has spent a vacation.

Miss Dorothy Plumb returned on Monday from holidays in the south.

Dr. H. T. James arrived from Vancouver on Wednesday from holidays spent in southern cities.

Rev. Father Allard, who has been visiting Rev. Father Wolfe, returned south on Wednesday's boat.

Mr. Charles Bocking, President of the Granby Company, arrived Friday from Vancouver, accompanied by Mrs. Bocking.

C. B. Mason was a southbound passenger on Wednesday.

T. K. Davis, arrived on Monday from Vancouver, Mr. Davis is the principal of the Granby Bay High School for the coming term.

T. J. Shenton, mining inspector, arrived on Monday from Prince Rupert.

F. Mikeli and R. H. Locke arrived in town from Prince Rupert.

Mrs. F. Person returned on Monday from a visit to Prince Rupert and Port Simpson.

Mrs. J. R. Carr arrived home on Monday from a visit to relatives at Port Simpson.

Mrs. W. R. Lindsay and son and Master E. Healy arrived home on Wednesday from a vacation in the south.

Mrs. Stewart and son arrived home on Wednesday from holidays spent in Vancouver and southern cities.

Ed. Blundell arrived home on Wednesday from a vacation in southern cities.

Miss K. J. O'Brien of Alert Bay, and the Misses M. B. O'Brien and Joan E. H. O'Brien of Hampshire, England arrived on Monday on a visit to Mr. S. Hoskins. They left again on Wednesday evening.

Mrs. M. Bridger arrived on Monday from Prince Rupert.

Miss Ormrod arrived on Monday from the south and has resumed her duties of teacher at the public school.

Mr. and Mrs. P. Curti left on Monday last for a holiday in Prince Rupert.

C. S. Williams, representing the B. C. Equipment Co. spent a few days in town during the week.

John Anderson, Government Road Superintendent left on Monday's boat for Prince Rupert and returned on Wednesday.

Ernest Barclay left on Monday's boat for a vacation to be spent in Vancouver and Victoria.

Mr. and Mrs. D. McKay arrived from Anyox last week-end and are spending holidays here.

Mrs. W. Selwood returned on Friday from a visit to Victoria.

Mrs. B. Perks arrived Friday on a visit to her mother, Mrs. D. B. Harrington.

Mrs. R. Cutler and children returned on Friday from Terrace.

Mr. M. Macintyre returned on Friday from a visit to his family at Queen Charlotte Islands.

Mr. Dan McKenzie left on Friday for a holiday in Vancouver.

Production of silver in Canada in 1930 was 14 per cent. more than in 1929, despite the low prices.

The death took place recently at Nelson of Fred A. Starkey, prominent in mining and industrial circles in the Kootenay.

Record Time Across Two Oceans

A round half the world in 17 days, London to Yokohama by way of Canada and Honolulu is the record of Miss D. Bewley, of London, en route to join her uncle Allan Cameron, Oriental manager of the Canadian Pacific, Hong Kong, who left Vancouver July 18 on the Canadian Pacific liner Empress of Canada. Miss Bewley, in company with Lady Lindley, wife of Sir Francis Lindley, British ambassador in Japan, and other through passengers, left Southampton July 8 arrived in Quebec July 13 on the new Empress of Britain, was rushed to Montreal by boat train where she boarded the Imperial Limited for Vancouver. Reaching Vancouver July 18 at 8.15 she boarded the Empress of Canada, thus obtaining direct connection to the Orient. Combination of the Empress of Britain's fast time across the Atlantic and the Empress of Canada's fast time over the Pacific makes this the fastest trip on record between London and the Orient by way of Canada and Honolulu.
