Atta Boy! Anyox, July 1st. Monster Celebration

Dominion Day Celebration will be the biggest and best ever held in the history of the town. Turn out in your thousands and have a good time, and give our visitors a time they will never forget. Celebrate, and celebrate right. Sports will commence in the morning with Marathon Races, Football, Water Sports, Speed Boat Races, and a Tennis Tournament. Afternoon Sports: Baseball, Trap Shooting and Field Sports. Evening Sports: Boxing, Billiard Match, and an Open Air Concert by the Greenville Brass Band. A Ball will be held in the Recreation Hall at 9 p.m. and will be carried into the next day, the music will be supplied by the Community League Orchestra. The Community League is straining every nerve to make this a day that will go down in the history of Anyox, as the best celebration that was ever held. Prince Rupert is bringing up Baseball, Football, Trapshooting, Billiard and Tennis teams, a boxer, who will battle for the light weight championship of B. C. with the local lad, and a speed boat that will try and wrest the championship of northern B. C. from the Wayward Girl. Get behind the Community League citizens of Anyox, and help them to entertain our visitors. Forget your troubles and celebrate the day as it should be celebrated.

ANYOX BASEBALL

The mine team has again hit their stride and by winning two games this week, they are now level with the other two teams in the League. Ed. Swanson is wearing a smile so big that he has'nt time to shout through his megaphone. Even at that the rattling of the Elks horns, and the fumes of the Gas Eaters cannot stop the good work of the ground hogs.

All three teams, Smelter, Mine and Elks, stand the same. Played 8. Won 4. Lost 4.

The all-star team which will play against Prince Rupert on Dominion Day is as follows:

P. Ferguson & Draudson
C. Geo. Greenwell
S. S. F. Brown
1st. B. J. Cody
2nd. B. G. Thomas
3rd. B. Cy. Greenwell
L. F. H. Down
C. F. J. Sherman
R. F. F. Mealey
Spares; Ben Fitzpatrick and F. Mattix.

FOOTBALL

Dillon's Gas Eaters are still undefeated, and with their lead of six points over the other two teams, they say they have driven in their stakes on the top of the League.

Following are the standing of the teams.

	Pld.	W.	L.	Drn.	Pts.
Smelter	7	3	0	4	10
Elks	5	1	2	2	4
Mine	6	1	3	2	4

Anyox Community League Dance.

The Dance held by the Community League, in the Hotel Ball Room, on the evening of June 22nd., was a huge success. It was attended by a large crowd who had the pleasure of dancing to the music of the new orchestra of the Anyox Community League, whose playing earned the applause of all present, and they are popularly declared to be an acquisition to Anyox. The League are to be congratulated on the find of such an aggregation of first class musicians.

ALICE ARM BASEBALL

In the best game of the season, the local team defeated camp eight by the score of 11 to 9. In the last of the ninth innings, with the camp leading by two runs, Williscroft lost control for a moment and soaked home-run McCauley, which paved the way for a batting rally by the home team. An error by Morrison, the Camp's star first baseman prevented the game going an extra innings.

See Al. Falconer for Freight and Pack Horses.

ANYOX TENNIS NOTES

None of those who play tennis and entered the Mixed Doubles one Day Tournament on Sunday, regretted their action in having done so. It was impossible to foretell which couple would be the winners until the last game was played, but our promising young star, Stepney, and Mrs. Munroe, managed to win first place by a margin of one point from Miss Milligan and Harold Davis, who were followed by seven other teams with only 14 points between them.

Everyone of the players without exception, enjoyed themselves to the limit, and apart from the sociability engendered by the fact that every couple had to play every other couple, some very interesting games were witnessed and enjoyed.

Unfortunately Mrs. Manning was forced to retire early in the game owing to her foot giving out, and Mrs. Parsons very sportingly agreed to play in her place. From then on, Hughie's ambition was to smash his opponents averages, and in many cases he gave lots of them nervous prostration.

Mrs. Cutler's ambidexterous feats have a weird effect at times, and on many occasions she left her opponents gasping at the unexpected angles taken by her returns.

Mrs. Rudland played particularly good tennis, and in the next tournament if allowed the same handicap ought to do very well.

George Lee, after a particularly strenuous week of ladder games combined with the fact that his ankle played him false, was not quite his brilliant self, and Miss Stone in view of her profession could'nt do other than she did and play sympathetically.

Mrs. Highway is gradually getting more confidence in her play, and is developing nicely, while her partner has a particular fancy for serving doubles—just a little mental weakness—he thinks that in playing doubles, he ought to serve doubles.

Miss McMillan and Ted Mahon played surprising tennis, with the accent on the surprising, but their total score topped the 200 just the same.

At the conclusion of play, Mrs. Turner presented the prizes to the winners, and Mrs. Munroe voiced the wishes of all the players in suggesting that a tournament be held once a month.

Mr. Lewis called for a vote of thanks to the secretary and committee, which brought to a close the most popular and successful tournament of the year.

The Romantic History of the Esperanza Mine

The mine, locally known as the Spanish or Esperanza Mine, was located in 1903, by Mr. Frank Roundy and partners. For some years Mr. Roundy worked on the property, and finally he was the sole owner, with the exception of a 3/16 interest in the Alderbaron claim, which Mr. W. Vaughan, of Vancouver, had acquired from one of the partners, in settlement of a small debt.

In 1912, Capt. John Irving and associates, acquired an option to purchase the interest held by Mr. Roundy in the property, and started development work. Mr. Roundy received $15.000 in cash and there was about $10.000 spent on development work, when Capt. Irving got into financial difficulties, with the result that the property was sold by auction, by the Sheriff, at Prince Rupert. Pedro Salinas and his brother Baldereno (locally known as Baldy) who had been working on the property, and had about $275.00 wages due, attended the sale, and bid $200.00, which was the only bid made, and for which sum they secured the property.

Pedro Salinas and his brother then came back to Alice Arm, and started to do a little development work. In the meantime they had sold a 14 per cent interest in their holdings to Mr. Loftgrin, who afterwards worked with them at the mine.

They worked for about eight months, with no success as far as finding any shipping ore was concerned, so they decided to quit, and started to gather their tools together when they struck a small shoot of good ore on the surface. Within six weeks they had taken out over $8,000 worth ore from this shoot. They continued development work and succeeded in finding several other ore shoots, from which they eventually extracted an additional $15.000 worth of ore.

About this time the property looked very promising, and the Granby Consolidated Mining, Smelting & Power Co., Ltd. made an examination of the property, and secured an option to purchase the mine for $100,000, with $10.000 cash. While negotiations were going on prior to the date on which the cash payment was due, Pedro and the men who were working for him were making special efforts to get as much of the ore in sight taken out of the mine and off the property before that date. Pedro was not giving the Granby Co. any more than he could help. They succeeded in doing what they tried to do in taking all the ore in sight, with the result that when the Granby Co. sampled the property thoroughly, the sampling gave very low returns and they decided not to buy.

For some time after this, no work was done and Pedro went to Spain for a holiday. While he was away Baldy decided to drive a cross cut tunnel on a small quartz stringer, and after driving 67 feet, he struck a shoot of very high grade ore. This shoot, so far has a length of over 100 feet, and averages about 8 inches in width. After striking this ore and doing considerable work, he was taken sick and went to Prince Rupert Hospital. One evening, he walked out of the hospital and disappeared. His bank book and some papers were found on the wharf, and it is presumed that he was delirious and walked over the wharf. Pedro was cabled for and came over from Spain immediately, and took charge of his brother's affairs. Pedro was named sole heir in his brother's will, and on the will being probated, became owner of 80 per cent interest in the mine. He started sorting and sacking the ore Baldy had taken out, which amounted to 17½ tons. This ore was shipped to the Tacoma smelter and netted practically $3,000. Pedro made several attempts to sell his interests but was unsuccessful. J. O. Tretheway offered him $16,000 cash, or $10.000 cash on a $30,000 option last November. Pedro hesitated too long and lost the opportunity. However, he recently sold out his interest to Mr. E. Elge and his associates for $15.000 cash.

He has bumped into the usual climax of a mining deal however, as he is now being sued 10 per cent commission by Vancouver brokers.

The property is ideally located, being only twenty minutes walk from the town of Alice Arm, and is very promising looking. Development work has now been started, and there will soon be another shipping mine, added to the list of Alice Arm mining properties.

Such is the history of the Esperanza mine. A property that was bought at a sheriff's sale for $200.00, from which was extracted $26.000 worth of ore and was finally sold for $15,000 dollars cash.

Why we want a Citizen's League.

The defunct Alice Arm Commercial Club is to be resuscitated and brought to life under the title of The Alice Arm Citizen's League. The Association died a natural death some time ago, through lack of interest and moral support of the citizens of Alice Arm. It was inaugurated by a few public spirited citizens, and after vainly trying to arouse local interest, they got disgusted, and the association quietly and peacefully passed away. To a person living on the outside in a live community such a condition of affairs would be unbelievable, but we are sorry to say that such is the case. A live mining town with such a bright future as Alice Arm has got, is bound to have a Citizen's League to further the interests of the town. Their duty is to meet at least once or twice a month, and discuss problems as they arise, for the welfare of the town. An instance can be given of the necessity of forming a League, in regard to the government wharf this summer, if a few of the citizens of the town had not called a meeting and forwarded telegrams to Ottawa, reminding the government of their promise to build a wharf the chances are, that there would not have been any wharf built here this summer. Numerous problems are arising all the time, and more will arise in the future. There is the question of the Indian reserve to be taken up with the Federal government, and an understanding arrived at, so that we can have a town like any other civilized community, with straight streets, sidewalks, electric light, water and sewerage systems. All these problems will be handled by the Citizens League, and the quicker they are handled the better for us all, or Alice Arm for the most of us will be just a pleasant memory. Prince Rupert has its Board of Trade, Stewart has its Citizens League, Anyox has its Community League, and it is up to the citizens of Alice Arm, if they have the brains of a louse and the backbone of a jelly fish to organize a Citizens League that will be second to none on the northern coast. A public meeting, which will be duly adverti-ed, will be called shortly, and everyone living in Alice Arm will be expected to attend. Alice Arm is just like any other small town or big city, it has got to be advertised if it is going to live. If advertising is not good for a city why does the cities of Philadelphia and Seattle advertise in the leading journals on the other side of the line.? We are living in an age of publicity, and Alice Arm has got to have its share or drop behind. We cannot stand still, we either have to go forward or backward, and it is up to the citizens of Alice Arm themselves to a great extent, what they do in that respect. It is the duty of everyone to help push the town ahead, by standing on one side you are pulling back, for you are throwing the whole burden on a few shoulders, which you know that sooner or later is going to break down, and then comes the inevitable "I told you so." Citizens of Alice Arm, your duty is plain, get behind the League, for unity is strength. United we stand, divided we fall.

The Alice Arm Police Station.

As will be seen in the other columns of this paper, tenders are being called for the new Police Station. Up to the present the plans and specifications have not arrived at Alice Arm, nor has it been advertised in any of the local papers that tenders were being called for. Here is something we hope to see explained in the near future. Local men are ready to tender on the building, provided they can examine the plans and specifications. Local lumber is also cut here that could be used to a great extent in the building.

Dominion Day Celebration at Anyox.

On Dominion Day, July 1st., the Anyox Community League is holding the biggest celebration ever held in the history of the camp. We wish them the best of weather and sincerely hope that success will crown their efforts. The Anyox Community League has become a live organization, and are doing a lot of good for the citizens of Anyox, both in sports and education.

New Court House and Police Station for Alice Arm

Tenders are being called for the new court house and police station at Alice Arm. At last we are going to have a police station that will be located in town, instead of being a mile along the railroad track. No more will our worthy constable have to escort his unwelcome guests over railway bridges, piles of rock, and ties for nearly a mile, before he can tuck them safe in bed. We have waited for a police station a long time, and we have finally got it. We are still waiting for lots of other things and we hope they too will come in the near future.

Rich Strike of High Grade Ore on Kitsault

A rich strike of native and ruby silver has been made on the Second Thought claims on Clearwater Creek by George Casey, while doing development work. The strike is reported to have been made 1000 feet above the tunnel which was driven two years ago, and in which native and ruby silver was found. The lead has been traced from the tunnel to the new strike. More work will be done on the property this summer, and it is expected that a big body of high grade ore will be shown up. The property is owned by Jack Graham of Alice Arm and George Casey of Prince Rupert.

ANYOX GUN CLUB

Eight members of the Anyox Gun Club, attended last Wednesday's "twilight shoot" and a marked improvement over the previous week was evident. The shoot scheduled for June 29th. will be postponed until Friday, July 1st, when a trapshooting competition will take place as a part of the sports programme of the Anyox Community League's Dominion Day celebration. The competition, which is open to everyone, will consist of two events, each of 25 birds, one for the more expert shooters, as determined by the club handicapper's records, and one for the less expert. Valuable and handsome prizes are offered for each event.

Following are the scores made last Wednesday:

Wetmore	21
Champion	20
Beckett	18
Campbell	13
Round	13
Holmes	13
Mann	10
Rollag	9

Development Work at the Moose Mine

Development work at the Moose Mine is proceeding rapidly. Crosscutting has now commenced, and high hopes are entertained by the owners of striking a big body of ore in the near future.

A COMPLAINT FROM ANYOX

Mister Editor:

In a spirit of righteous indignation I take up my pen to invoke your aid in the righting of a grevious wrong to us unfortunate bachelors of Anyox.

Need it be said that our trouble is with the canvas barrier which shrouds the tennis courts from our longing eyes. I ask you Mister Editor, is it right or fair that we should be thus cruelly debarred from gazing on the beauteous faces and sylph-like forms of the fair devotees of the game. Formerly, no excuse was too trivial, if it but gave us the opportunity of passing Round's hotel, where we might linger for a moment to gaze and listen—even as Peris outside Paradise. Now, all is changed; a gloom has descended on our town and all because of the jealousy of a few benighted blighters who want the whole show to themselves.

Do what you can, Mister Editor, to help us, for if you don't I'll be driven to stop Mister Munroe the first time I meet him on the street and demand justice. I came near doing it the other day, but there was a look in his eye I did'nt like, so I passed him the time of day instead.

Yours sorrowfully;
GAS EATER.

BRITISH COLUMBIA

The Mineral Province of Western Canada

Has produced minerals valued as follows: Placer Gold, $75,944,203; Lode Gold, $102,753,823; Silver, $53,668,284; Lead, $46,637,221; Copper, $161,513,864; Zinc, $19,896,466; Coal and Coke, $212,573,492; Building Stone, Brick, Cement, etc., $32,168,217; Miscellaneous Minerals, $1,037,408; making its mineral production to the end of 1920 show an

Aggregate Value of $706,192,978

The substantial progress of the Mining Industry of this Province is strikingly exhibited in the following figures which show the value of production for successive five-year periods: For all years to 1895, inclusive, $94,547,241 for five years, 1896-1900, $57,605,967; for five years, 1901-1905, $96-509,968; for five years, 1906-1910; $125,534,474; for five years, 1911-1915, $142,072,603; for the five years, 1916-1920, $189,922,725.

Production During last ten years, $331,995,328

Lode-mining has only been in progress for about 25 years, and not 20 per cent of the Province has been even prospected; 300,000 square miles of unexplored mineral bearing land are open for prospecting.

The Mining Laws of this Province are more liberal and the fees lower than those of any other Province in the Dominion, or any Colony in the British Empire.

Mineral locations are granted to discoverers for nominal fees.

Absolute Titles are obtained by developing such properties, the security of which is guaranteed by Crown Grants.

Full information, together with Mining Reports and Maps, may be obtained gratis by addressing

THE HON. THE MINISTER OF MINES,
VICTORIA, British Columbia

ALICE ARM NOTES

Mr. W. Cummings, who dislocated his knee some time ago, still has it in splints. He is very restless under his enforced idleness, and hopes he will soon be able to get around again.

Everything points to a bumper strawberry crop this year. The berries are all set and some are already turning red. Everybody has 'em.

See Al. Falconer for Freight and Pack Horses.

Miss Dumas left for Vancouver on Thursday, after a visit of four weeks to her brother.

Mrs. Don Cameron, who has been to Prince Rupert to meet her daughter Frances, from Seattle, arrived home with her on Thursday

Mr. Buckley and Mr. Shamback arrived in the Arm on Thursday, after an extended visit on the outside.

Mrs. Williscroft and child of camp eight, left on Thursday for holidays in Vancouver.

Steve Dumas has renovated his store on Main street. He has put in a ceiling, added new fixtures and painted it throughout., and is now ready for business.

See Al. Falconer for Wood or Coal.

Work is being pushed on the Government bridge over the upper Kitsault, and will be ready for traffic on the 28th. Work will then commence on the Glacier trail.

The Anyox Store Baseball team will not be up on Sunday, owing to inability to secure a boat.

Mr. F. D. Rice and Mr. Yorke are surveying the Hill Billy claims on the upper Kitsault.

George Clothier, District Mining Engineer, left on Thursday's boat.

BIRTH AT ALICE ARM

Born to Mr. and Mrs. Al. Falconer, at Alice Arm, on Tuesday, June 21st., a daughter.

Government Work on Roads and Trails

Work on the Illiance trail commenced last week, under the supervision of Joe Wells, and will consist of general repair work commencing eleven miles up the trail.

Work started on the Kitsault trail this week, under the supervision of George Williscroft. Work will consist of general repair work to the present trail and extending it from Clearwater creek to the Kitsault Glacier.

THE MAN AROUND TOWN

Miss Olsen of the teaching staff left on Thursday's boat for Rupert and Vancouver Then she is going to her home in Sweden on a visit.

The Elks went down to defeat on Wednesday last. They had the game on ice, but that's another story. There were no complaints against the bell-ringers that night. All was quiet when they went home in the hush of the evening. It was TOO DRY to play good ball anyway. Pete pitched for the Elks and Fitzpatrick for the Smelter, while Salmon umpired the game in a creditable manner.

There is distress at the house of Mann's these days. Harry did dig up his garden diligently, and sow it with onion, radish and lettuce seeds, and it grew and yielded abundantly, and it was a source of pleasure to himself and a joy to his family.

But alas and alack, one day the gate to his garden was left open, and a herd of goats browsing in the neighbourhood, espied that which to them was a great luxury, and they therefore made a raid on the said garden, and in the twinkling of an eye, yea, even before the neighbours could give an alarm, all was waste and desolation. That was one time the goats got Harry.

Martin Zucco and family arrived in town on Thursday, and is shaking hands again with old friends.

They have just returned from a trip to their old home in Italy, being away from here about a year. However, Anyox looks good to them.

The smelter gas seems to hold no terrors to the plants which Mr. Champion has in his hot house. They are just lovely, and reflect great credit on someone who evidently is no mere amateur at the game.

We have got a new jazz orchestra in the town, playing at the picture show. They hail from Prince Rupert, and their music sounds good.

George Burrell left for the south on Thursday's boat.

Mr. Stepney, of the Bank of Commerce staff, is taking his vacation. He left on Monday's boat for Duncan, Vancouver Island.

The Smelter and Elks played another draw game on Friday in the football league. Alec Seaton packs horse shoes with him all the time.

On Sunday, the tennis enthusiasts held forth. The game has got quite a hold in town and the committee working for this end of the sport are to be congratulated on the manner in which the handicap games are played.

Blue Monday for the Elk's. They went down to defeat to the mine, and Eddie Swanson is now wearing a smile that won't come off. By the way, Thomas of Alice Arm caught for the mine, and he held that position down with great credit to himself and also his team. In our humble opinion, a readjustment on the Elks line-up might help the team considerably. They need a catcher. Use Cody in that position, then play Harry Downs, on 2nd, and Thorley on 1st. Keep Pete Draudson pitching, and the rest of the team as they are at present. They could not do any worse than the way they showed up at Monday's game. Apart from their poor playing, the base umpire gave a decision against them the first half of the game which should make him quake in his shoes if he has the right kind of sporting blood in him. Such decisions do far more harm than good, and too, why does the umpire argue with the players.? The manager of the team is the one who questions his rulings. If the umpire rules off the field the players who persist in argueing, (which is entirely within his jurisdiction) then we shall see better baseball all round. Try it out boys, for the sake of the game.

A certain family that we are acquainted with in town, had a surprise party paid them whilst they were on business bent. Unfortunately, the doors of the house were left open, and in walked Mr. and Mrs. Goat and one of their offsprings, and took possession for the time being. Fortunately their stay was short, as they had several calls to make that day, but in the words of the song writer, "They are Devils in their own home town."

Quite a run on the cider these days. But it is not quite HARD enough.

It has been suggested that the Smelter team try out one of our city pets. They say they are good bunters.

The Mine Boosters club held a very successful dance last Friday evening. The music furnished by the Elk's orchestra, was up to its usual high standard, and the crowd had a good time.

Plans for the New Police Station Arrived

Plans and specifications for the new court house and police station at Alice Arm, were received on Thursday, by Constable D. S. Cameron. The plans show a very imposing building of two stories. Tenders are to be at the Public Works Department, Victoria, by July 4th.

Alice Arm Pack Trains Busy

The Pack Trains of the Alice Arm Freighting Co. are busy packing in supplies to the Moose Mine on the upper Kitsault, and the Geologists camp on Trout creek.

The pack trains of Al. Falconer are also busy on the Illiance River taking in supplies for the government road camp, and the Bellevue and Silver Star mines.

ANYOX NOTES

Mr. D. Stewart, of the Great West Life Association, left on Monday's boat for Prince Rupert. Dan reports business very good in his line.

Miss Jean Gamblin has taken up duties as nurse at the Hospital. She has had lots of experience, having served overseas during the late war.

Mr. J. S. Stephens returned to Prince Rupert on Monday, having completed the enumeration of the census for Anyox.

Our population is in the neighbourhood of 2000. Let's hope they don't all order liquor from the Government Vendor in Prince Rupert at the same time.

Among those leaving on the boat on Thursday, were Mrs. Archie Berry, for holidays in Vancouver. Mrs. MacIntyre on holidays. Mr. and Mrs. J. Kirkland, who is leaving town, and Miss L. Thomas of the Hotel staff, for holidays in Vancouver.

Miss Milligan, the popular school teacher, left on Thursday's boat and will shortly be married. A large number of her friends were on the wharf, and three cheers were given for her as the boat pulled out.

Mr. Ed. Hannan left on Thursday, for Brantford, Ontario, and rumor says he may bring back a bride.

Mr. G. Heidman, of the quartz quarry across the bay, went south on Thursday.

There is for rent at Alice Arm, by campers, one 2-roomed house, containing 2 double beds, 2 stoves, wood shed with wood, garden and good water, also 2 tents with stoves and beds, for further information regarding dates, etc., write to the Herald, Alice Arm, B. C.
