Past Year's Work Of Anyox I. O. D. E. Reviewed

As the following resume of the work done will show, members of Collison of Kincolith Chapter, I. O. D. E., have given freely of their time and talents in many good causes in the last year.

On February 12th, 1934, a "Mardi Gras" was held, which proved a social and financial success, the net profit being \$170.37. In the month of April the Chapter sponsored a pianoforte recital given by Miss Ursula Malkin, who was touring the north. The Chapter benefited by this recital to the extent of \$33.19. It should be mentioned that the Boy Scouts, gave valuable aid to this affair. The usual Empire Day activities of the Chapter were conducted. A number of members visited the schools, and the children of the Public School were presented with ribbons of patriotic colors. The Rev. A. Abraham gave an interesting talk to the children on the subject: "Empire Day and its Significance."

"Rose Day" was held on July 1st, as usual, and the sum of \$102.18 was realized. On September 22nd, a Tea and Home Cooking Sale was held, the net profit being \$54.07.

Members of the Chapter co-operated with the Canadian Legion, in their activities on Armistice Day, attending the parade to, and service at the cemetery, and placing wreaths on the graves of ex-service men. On November 8th, Poppy Day, they handled the sale of poppies, as in former years.

In October the Chapter sponsored a drive for funds for the Blind of B. C., which was conducted by Major Watts, of the Canadian Institute for the Blind. The sum of \$25.00 was donated by the Chapter to this cause, and members sold tags on October 8th, by which means a substantial sum was raised.

Final figures showed that Anyox had made a splendid contribution to this most worthy cause.

Donations were made by the Chapter to the following: Canadian Legion, Anyox Branch, Anyox Boy Scouts; Vancouver Preventorium; a child of a returned soldier; I. O. D. E. Convention Fund; Susie Sorabji Memorial Fund; I. O. D. E. Endowment Fund.

The sum of \$38.00 was spent in educational work. This included an amount spent on books sent to isolated schools and \$5.00 donated to the Provincial Educational Fund. Twenty-six I. O. D. E. calendars were distributed to local and outlying schools and a subscription was made to the Sailors' Magazine. The Chapter also subscribed for copies of "The Echo" to be placed in the two Anyox Libraries.

To raise funds for welfare and relief work a cedar chest was purchased and disposed of, by means of the sale of tickets. The sum of \$63.55 was thus realized.

Rovers Score a Victory Over Warriors

The Rovers sprang another surprise in the B League fixture on Monday last, when they defeated the Warriors, though only by a solitary point, the figures being 24-23. Moreover, the glory of the victory was somewhat dimmed by the fact that there were borrowed players on the team, as Parsons of the Foundry and George Kent of the Junior Trojans, subbed for absentees. It was a willing go all the way, with Warriors doing their best to avert disaster, and Rovers playing in masterful style. George Kent, youngest player on the floor, topped the pole with 14 pts. while McDonald and Phillips netted 10 apiece for the Warriors. The teams: Warriors: D. McDonald 10, P. Chenoski 3, A. E. Phillips 10, J. O'Neill, F. Gibson. Rovers: Morgan 3, Parsons 5, G. Kent 14, Cadillac, Kergin 2.

A. C. L. Hold An Enjoyable Dance At Mine

One of the most enjoyable dances of the season, was held at the Mine Hall on Friday February 8th, under the auspices of the Mine Branch of the A. C. L. Some special features were introduced by the energetic committee which proved highly entertaining. A trio of miners composed of Messrs. Howie, Sampson and Adams, rendered some pleasing vocal numbers. O. Mandalio, the "Yodelling Swede," delighted everyone with his contributions, and Sven Anderson gave some piano-accompaniment solos which were much appreciated.

Music for the dancing was supplied by Buntain's Orchestra, and a most enjoyable supper was served during the evening. A large number of people from the Beach attended this outstanding social event.

Fatal Accident At Bonanza Mine on Wednesday

Mike Buison, an employee at the Bonanza mine, lost his life at 11.30 a.m. on Wednesday last while following his occupation as a mine. An inquest was held yesterday.

Parcels of clothing, etc. were sent to Burns Lake, Prince George and Prince Rupert. Christmas presents were sent to the three children whom the Chapter placed in Homes last year, also to the child who has been receiving regular support from the Chapter. Members of the Chapter and also ex-service men, were visited at the hospital by the Sick visiting Committee.

Collison Of Kincolith Chapter I.O.D.E. Disbanded

Due to unsettled conditions prevailing in the district at present, and the gradual depletion of its membership, the Collison of Kincolith Chapter, I. O. D. E., which has been doing splendid work at Anyox for many years, has been obliged to disband. The decision was arrived at most regretfully by the members of the Chapter, who greatly deplored the fact that existing conditions in the district made it impossible to carry on any longer.

The final meeting of the Chapter was held in the Legion Hall on Monday evening, February 4th, with Regent Mrs. J. Wynne presiding. Reports were received from all committees which had been operating, which showed that much splendid work had been done during the past year. The balance of funds on hand are being distributed among the worthy causes which the Chapter has been supporting.

A presentation was made to the Treasurer, Mrs. C. Cundill, for her untiring efforts in the work of the Chapter. Mrs. Cundill has been a faithful worker for many years.

Refreshments were served by Mesdames J. Wynne, W. R. Murdoch, W. F. Eve and A. R. Kent.

Valentine Card Party Held At Alice Arm

A Valentine Day card party was held at the Club House of the Alice Arm Athletic Association, on Thursday and it proved to be a very successful evening. Bridge was played at six tables and one was occupied by whist players.

The winners at bridge were: Ladies' first, Mrs. T. W. Falconer; consolation, Mrs. G. Anderson. Wm. McFarlane headed the score for the men and Wm. Cummings drew the consolation. Following card playing refreshments were served, which were supplied by the ladies.

It is hoped to hold another card party next month, probably on St. Patrick's day or thereabouts.

Wanted to Purchase: Esperanza Mining Stock.—Write or Call Herald Office, Alice Arm.

ANNUAL MEETING!

The Annual Meeting of the Alice Arm Liberal Association will be held at the Club House on Wednesday, February 20th, at 8 p.m. for the election of officers and other business. All interested are invited to attend.

Anyox Scouts Praised In B. C. Report

In the Annual Report for the year 1934, of the Boy Scout Association just published, reference is made to the Scouts of Anyox. The work they have carried on during the year is warmly praised. The report is in the possession of Scoutmaster R. Gale.

Troop Leader T. Kirkwood and Assistant Scoutmaster E. H. Kergin, are now carrying out the work of training the Scouts, under the supervision of the Scoutmaster. This work will qualify them to act as scoutmasters and is a valuable asset to their own training.

Lord Baden-Powell, founder of the Boy Scout movement, who will shortly visit Canada, for a Dominion wide tour, will arrive in Vancouver in April. The possibility of sending a group of Scouts from Anyox to join in the welcoming ceremonies will shortly be considered.

Jack Anderson Had Narrow Escape From Death

Jack Anderson, former road superintendent of this district and now employed at the B. C. Nickel mine, recently had a narrow escape from death.

After a snowslide had entrapped six men, completely burying them, and after digging feverishly succeeded in rescuing five. Having no knowledge of the sixth, they prepared to leave, when a small dog with the party began barking and digging in the snow. Startled by the behaviour of the dog, the men resumed their search and soon uncovered a foot. Redoubling their efforts the men were amazed to discover that they had been on the point of leaving Jack Anderson to his fate and would surely have done so had not the dog detected the presence of another man beneath the snow.—Stewart News.

Dr. D. R. Learoyd Recovering From Recent Illness

Dr. D. R. Learoyd, Medical Superintendent of Anyox Hospital is making headway towards recovery from his recent illness caused through hemorrhage. Dr. J. H. Carson, who was summoned from Prince Rupert on Thursday of last week, arrived at Anyox on the launch Daly early on Friday afternoon. Dr. Learoyd was conveyed to Prince Rupert on the launch Granby leaving Anyox at midnight the same day, arriving at Prince Rupert 10 a.m. on Saturday. Much anxiety has been felt throughout the district regarding his condition.

Good Basketball Sports Must Learn To Lose Cheerfully

In any game or contest, good sports are good losers. They are good losers because they realize that both sides cannot win, and they give credit to their opponents for being superior to themselves.

They will naturally desire to win, but if defeated they will take their beating in good spirit. That is good sportsmanship, which is admired the world over. And it is all dependent upon the mental attitude of those partaking in the sport.

Especially does this apply to basketball, as played in our midst today. What does the game mean to the community anyway? It is a means of healthy recreation for the players and a diversion for the spectators. It helps to build healthy bodies and the training necessary to observe its rules, makes for a strong and quick mentality. At the end of a season, basketball players should be all the better for the sport and fans should be able to look back upon many evenings of real enjoyment. What matters which teams win cups, trophies, or medals, so long as these results are achieved?

The present impasse in the game at Anyox is to be deplored, because the stage was all set for the finish of a brilliant season. We have splendid teams, most of them composed of real sports, who love to play for the game itself and are content to win or lose. We have a large number of keen, enthusiastic fans and we have the backing of the whole community through the officials of the A. C. L. We have a hall which would be hard to beat for size, light, warmth and accommodation. We have referees of undeniable ability, who will compare favorably with any others, anywhere. Above all, we have a persistent vision of a glorious inter-town series of games for the Championship of Northern B. C.

Let's sink our differences and forget little petty things that don't amount to a hill o' beans! Let opposing factors shake hands, start again where we left off, respect the referees and their decisions and be content to win or lose. The season will then leave a sweet rather than a bad taste in our mouths, and we will have something which we can look back upon with a feeling of real enjoyment. Let's go!

Captive Deer Is Placed On Melville Island

Melville Island, a deer sanctuary on the Dundas Island group, is now the home of the deer, which has been held captive at Anyox for the past three weeks. The transfer was made on the P. M. L. No. 8, which arrived at Anyox on Friday, the 8th, with Game Warden Martin and Inspector Fraser, of the Provincial Police.

Our Northland Lags Behind

The great northland of Canada, stretching from eastern Quebec to Alberta's western boundary, was, until a few years ago considered worthless. It was termed a cold and barren land fit only for the hardy trapper. But one day an accident occurred that eventually changed this barren land into a treasure vault. Rich silver ore was discovered in the Cobalt Country of Northern Ontario. Prospectors and greenhorns searching for minerals invaded the country. Gradually the field was extended, until today the former worthless north is pouring out millions of dollars worth of wealth, from the Noranda mine in Quebec to the Bear Lake radium-silver mines in Alberta. Without these big northern mines Canada would be in a far worse economic position than it is at the present time. Millions of dollars have poured into the Provincial and Federal treasuries in the form of ore royalties and taxes. Millions of dollars have been spent in wages, and more millions spent on supplies, and the volume is growing. You will notice, perhaps, that we did not mention British Columbia in connection with this great northern mining expansion. How could we, when there is not a big mine operating north of the Canadian National Railways—and for a good many miles south—except the Hidden Creek mine at Anyox and the Premier mine at Stewart, and they owe their existence to their close proximity to tidewater. Why has not British Columbia also developed her northland? The question is a hard one to answer, and it is harder when it is remembered that the mineral wealth of our north was known forty years ago and more. Placer miners took out millions of dollars of wealth from the Yukon, the Atlin and the Omineca countries before the prairie provinces were even settled, proving it was a rich mineralized country. It is true that the construction of roads is an expensive undertaking in many parts of the northern interior, but one big operating mine alone would more than repay money spent on roads. If there have been excuses in the past for not providing transportation in the north, there are none at present. There are thousands of strong, able-bodied men in British Columbia anxious to work. Why not give it to them in constructing the Alaska-Yukon Highway, and from it build branch roads

C. N. Railway Assists Unemployed On Land

Since the beginning of 1932 the Canadian National Railways have helped to return to the land in Western Canada, more than 3,600 settlers who were formerly unemployed or located in cities or elsewhere, where they found conditions unsuitable, says F. B. Kirkwood, writing in the current issue of Canadian National Railways Magazine. Mr. Kirkwood describes the homestead of a former unemployed trainman, who was laid off due to short service and decided to strike out with his family to make a farm home. The family of six persons have made excellent headway and had been established on the farm at an expenditure approximating \$700. Previously they had been on relief rolls of a western city.

Every Increase In Price Of Gold Has Been Maintained

"The history of gold shows that every increase in the price of the metal has been maintained," says John F. Walker, provincial mineralogist, in his preliminary report for 1934, issued under authority of Hon. G. S. Pearson, minister of mines. Dr. Walker expressed the view that the present price will in all probability hold and that an even higher price may be anticipated.

This view is particularly interesting at the present time when markets on this continent are subject to temporary unsettlement as to how the United States will handle the situation should the U.S. supreme court uphold the gold clause payments in connection with security issues.

Saddle Property At Hastings Arm Bonded

John P. McArthur, of Vancouver, announces that he has secured a bond on the Saddle claim, Alice Arm section, which was relinquished by Silver Crest Mines, Limited, the owner being Charles Clay. Mr. McArthur has capitalized his holdings at \$100,000, and is now raising funds for further development.

The general level of wholesale prices of Canadian farm products averaged approximately 15 per cent. higher in 1934 than in 1933.

into various mining districts? The cost would not be much greater than the present unemployment relief system. The government would have something to show for the money spent—which they haven't to date—and it would undoubtedly be the means of creating huge mining operations from which would eventually pour millions of dollars for wages, supplies and taxes as is now being enjoyed by Canada's other provinces from their northlands.

Earnings of C. N. R. Shows Increase

The gross revenues of the all-inclusive Canadian National Railways System for the week ending January 21, 1935, were \$2,747,949, as compared with \$2,687,453 for the corresponding period of 1934, an increase of \$60,496.

Canada's customs and excise revenue for the first nine months of the present fiscal year, shows a gain of \$22,531,097 over the same period in the previous year.

FRENCH RIVER GOLF COURSE

A BIG "MUSKIE" FRENCH RIVER

A 35-LB. MUSKIE AND HIS CAPTOR

BUNGALOWS AT FRENCH RIVER

"Now is the time for all good fishermen to prepare for that summer trip" is an appropriate slogan for disciples of Isaac Walton these balmy spring days. A successful fishing trip depends largely upon the careful selection of location, tackle and even associates, for many a party has been ruined by the last-minute introduction of a "wet blanket" to an otherwise congenial collection of sportsmen.

One of the most interesting fishing streams in North America is French River, Ontario, 215 miles north of Toronto on the Canadian Pacific Railway. This lordly river is celebrated as the habitat of the fighting muscalunge, one of the gamest fish known; huge Great Northern pike, pickerel, an abund-

ance of small-mouth and large-mouth black bass and other finny prizes. To accommodate sportsmen and their families, a fine bungalow camp—a collection of individual cabins centering around a main clubhouse—has been erected on a cliff overlooking the river. Here the fisherman and his family can "rough it in comfort," far from the cares and annoyances of a work-a-day world.

That big "muskies" are plentiful at French River is proven by the fact that one recent summer a monster muskie weighing 55 pounds was taken in the North Channel at the mouth of the Wolseley River. Also, not long ago a party of Ohio sportsmen caught, besides their daily limit of bass, pike and pickerel, no less

than seventeen "muskies" ranging from 10 to 38½ lbs. In 1926 a "muskie" of 35 pounds weight, 50 inches long and 21 inches in girth was taken in the main channel of the French, one mile from the bungalow camp.

The French River Bungalow Camp will open June 15 and remain open until Sept. 15. Jack Strathdee, its genial manager, is an experienced outdoorsman whose chief delight is coaching the uninitiated in the art of luring the fish. French River also has a fine 9-hole golf course so that devotees of the royal and ancient game who are also fond of fishing need not entirely forego the former sport in favor of the latter.

A Woman at Banff

I know God fashioned little fields
So they would be
A comfort for old homely folk
Like you and me.

Small gardens with their fences
Snug and tight,
And tiny gates to shut us
From the night.

But THIS He made with
Glory in His veins,

This solitude, where Might
Forever reigns.

Molded the hills with glad
Exultant hands,
Shaping the valleys for
Wide pasture lands.

And so this towering peak
Forever bears,
Old finger-marks upon
Its rutted stairs.

And every shining height
Reflects the glow
Of some white virgin field
Of drifted snow.

And over it he laid
With loving care,
The mantle of His peace
Forever there.

—EDNA JAGGER.

Anyox Notes

E. B. Finn and W. T. Wills arrived on Monday from Vancouver to join the Electrical Department.

V. Rowe, E. Butler, and L. Langlo arrived from Vancouver on Monday.

Mrs. W. J. Johnston and children and Mrs. McFarland and children left on Monday for Ioco.

Mrs. Claude Reid and children left on Monday for Vancouver.

Don, Cavalier left on Monday for a visit to Prince Rupert.

Frank Tautz, Wm. Prime, Wm. Fodge, H. Patrick and Nick Crlzenich left on Monday for Vancouver.

Wm. Feyer returned on Wednesday from a visit to Stewart.

F. Buckle returned on Wednesday from a visit to Vancouver and southern points.

Stewart Steele left on Wednesday for a visit to the south.

Mrs. G. Bodin was a south-bound passenger on Wednesday.

Roy Simmons returned on Wednesday from a visit to the south.

BIRTHS AT ANYOX.

Born to Mr. and Mrs. George Newton, at the Anyox General Hospital, on Sunday, February 10th. a daughter.

Born to Mr. and Mrs. Daniel Havrico, at the Anyox General Hospital, on Monday, February 11th. a daughter.

Aces Defeat Spooks By Very Narrow Margin

Only three points separated the Spooks from the Aces in the Ladies' League fixture on Monday 11th. This indicates a big improvement in the play of the black and white quintette all the more so when the lowness of the score is considered, as the Aces could only register ten points. This was chiefly due to the splendid checking of the Spooks, who harassed the scoring Aces most effectively. It was a game well worth watching. The teams: Spooks; N. Salmon 2, K. Eve 2, J. McDonald, T. Gordon 1, H. Glass 1, P. Campbell 1. Aces: D. Rogers, H. Simpson 3, L. Dresser 2, M. Dresser 5, A. Carrick.

Vandals-Trojans Game Is Stopped By Referee

Referee Gillies found it necessary to call the Senior A game between the Trojans and Vandals on Monday the 11th. due to unruly conduct on the part of some of the players. The game had progressed to the half-way mark, and up to that time had been fast and clever. Both teams were out at full strength and were evenly matched. The score stood at 13-11 in favor of the Trojans, when the referee stopped the play and declared it a no decision game.

In 1900, only 15 minerals were recognized as important—today the number is more than 200.

Basketball Is Suspended For Time Being

Hoop games scheduled for Friday last, and which were to be played on Wednesday last owing to the A. C. L. Dance in the Gym. on Friday, were cancelled for various causes.

BRITISH COLUMBIA DEPARTMENT OF MINES

British Columbia Has Produced Over \$1,373,000,000.00 Worth of Minerals

Improved base metal prices, the increased value in Gold, and the general trend toward recovery, are bringing about steadily an increasing activity in mining throughout British Columbia.

The estimated gold production for the year 1934 showed an increase of 64,543 ounces over 1933, establishing an all-time high record. The estimated value in Canadian funds of gold production for 1934 is \$10,610,822.00.

Annual Reports of the Honourable the Minister of Mines, and special reports on lode and placer mining, etc., may be obtained upon application to—
