ALICE ARM, B. C., SATURDAY, JANUARY 21, 1928

5 cents each.

Much Business Transacted at Anyox P.T.A. Meeting

The regular monthly meeting of the Anyox Parent Teacher Association was held in the Public School on Monday, January 16th. when Mr. Sinclair, manager of the local branch of the Canadian Bank of Commerce, gave a very interesting and instructive talk on "Banking."

During the evening solos were very creditably rendered by Mrs. Pinckney, and Mr. J. L. Anderson, accompanied by Mrs. Kent, and were very much enjoyed by those present.

A report of the Christmas Concert was read, showing total receipts \$57.82 and total expenditures \$48.68; the largest item of this viz: \$39.20 being for materials for the various costumes. Although the proceeds were small, the concert was nevertheless a decided success and much credit was due to the pupils and also the teachers who were responsible for the training.

The association also wish to thank the many mothers and interested ladies of the Costume Committee, who, under the able convenorship of Mrs. W. F. Eve, successfully completed a great deal of work in the short time allowed.

This committee was composed of Mesdames W. Simpson, K. O. Peterson, Nellor, Hart, J. L. Stewart, B. Thorsteinsson, J. Cody, A. Cameron, Kirby, A. Gigot, D. Roy, McMillan, Shelton, Kidd, Patrick and L. Campbell; also Misses Richards, Hoadley and Hamilton, who, besides helping to train the children, also helped in the making of the costumes. For the very efficient serving of suitable refreshments to the children, after the concert, credit is due to the Refreshment Committee, under the capable convenorship of Mrs. H. Kirk and Mrs. P. MacDougall, assisted by Mrs. McMaster, and Mrs. N. McLeod.

The association wish to take this opportunity of thanking all other members who helped to make this concert a success; also the Community League and officials of the Granby Company.

The Convenor of the Sports' Committee reported that the money voted for the public school basketball teams had been expended for sweaters. The girls of the public school have thus far made a clean-up of their so called rivals from the high school; but the boys' division stands tied two games all.

Speech on Banking by Mr. Sinclair Creates Interest

A very successful meeting of the P. T. A. was held on Monday evening when Mr. Sinclair, manager of the Anyox branch of the Bank of Commerce delivered an address on "Banking" to an audience of fifty parents. The speaker touched upon the history of banking with occasional humorous illustrations from early records. He showed that modern banking practice is comparatively a recent development side by side with which still exist certain practices that flourished in medieval times. With special emphasis on banking in Canada he dwelt upon the Bank Act of which he gave a masterly analysis and an explanation of those sections which are of particular interest to the general public. In dealing with the banks as "trustees of the people's wealth" Mr. Sinclair filled the role of ambassador of the great institution which he represents most acceptably to a very appreciative audience.

Additional pleasant features of the evening were solos by Mrs. Pinckney and Mr. Anderson before and after the speech of the evening. Mrs. A. R. Kent very kindly played the accompaniments. On the initiative of the executive excellent refreshments were served.

Successful Arcadian Orchestra Dance

A good crowd attended the Dance on Friday evening January 13th. held in the Elks Hall by the Arcadians' Orchestra. The Music was excellent and everyone present thoroughly enjoyed themselves. The dancing was from 9 to 1.

Paid-up membership in the association has now risen to forty-two with promise of being further swelled in the near future. The governing provincial body has presented the local branch with a large scroll of the Wier version of "O Canada" which was unveiled for the first time at Monday's session.

The meeting passed a hearty vote of thanks to Messrs. F. M. Kelley and H. Kirk for having effected the repair of the Balopticon, an expensive projection lantern that the association some time ago presented to the schools.

Once tried, always used, none other will suit. The El Doro Cigar.

Stores-Office Team Out Of League

At a meeting of the executive of the Anyox basketball league on Tuesday it was decided to allow the Stores-Office team to be withdrawn from the Senior Division. The remainder of the schedule for second half of the season will be arranged for a three-team league. The other teams will be allowed to use the remaining players of the team withdrawn. This will overcome the necessity of calling upon intermediate players to fill in the gaps on some of the senior teams. The frequent appearance of high school players on the floor in senior games has raised some question of their status in the intermediate league but a check-up of the games played reveals no cases of ineligibility.

Teachers' Association Discuss Plans

The teachers of the Anyox Schools came together on Tuesday to discuss plans for continuing a branch of the Provincial Teachers' Federation. The President, Mr. D. J. Hartley, outlined the history of the local branch which is organized as the South Atlin Teachers' Association. Membership is open to the teachers at Alice Arm, Kincolith, Stewart, Premier and other schools in the district. The Association aims to promote the professional growth and welfare of its members, and by the interchange of ideas to advance the cause of education, and to assist in the solution of the community's education problems. The next meeting will be held on Monday afternoon, February sixth, in the Anyox School.

For a smart looking, perfect fitting suit of clothes see Stan Ballard, Anyox Tailor Shop.

ALICE ARM NOTES

Pete Anderson, who is developing his mining property on Clearwater Creek, spent a few days in town during the week, leaving on Thursday.

A. Davidson, who is developing the Wildcat property spent a few days in town during the week.

Gus. Pearson arrived from the North Star during the week. He will return as soon as possible.

Master Walter Hanson recently arrived from Stewart, and will spend the winter with Miss Cora Toleffson while his mother receives medical treatment in the East.

Alice Arm Chamber of Mines Hold Monthly Meeting

The regular monthly meeting of the Alice Arm branch of the British Columbia Chamber of Mines was held on Monday evening at the School House. President O. Evindson presided.

The minutes of the last meeting were read by secretary A. D. Yorke and adopted.

A letter was read from the Department of Mines regarding the petition for a trunk road from the end of the steel of the Dolly Varden railway to the Kitsault Glacier.

The letter stated that the proposal would be considered, and that the matter would be taken up with Mr. H. T. James, resident engineer.

The secretary also stated that a cheque for \$40.00 had been received from the head office in Vancouver. Some time ago they stated that they would give \$1.00 for every member holding a \$5.00 paid-up yearly ticket. Secretary A. D. Yorke forwarded forty names of paid members and the \$40.00 cheque was the result.

Anyox P.T.A. Will Hold Masquerade Dance

Much of the business transacted at the P. T. A. meeting was related to the dance which has become an annual institution. A series of motions passed in quick succession by the meeting endorsed the appointment of Miss Hestyr Richards as General Convenor, decided that the dance should take the form of a Masquerade, fixed the date for Monday, February 13th. and set the admission charge at one dollar a couple with fifty cents for each extra lady. As in the past the association will rely upon the goodness of its friends for donations of refreshments. Tickets will be printed and sold in advance. With numerous proposed expenditures the Association is faced with the necessity of at least equalling past records of profit on the dance, the Christmas Concert not having replenished the coffers to anything like the extent expected.

Mrs. Hilbert recently arrived in Anyox on a visit to her daughter, Mrs. L. McQuarrie.

LAUNCH "AWAKE"
Will be off the Alice Arm and Anyox run at end of January for overhaul, until further notice

Rinky Dinks, Mechanics and High School Win Basketball

At the Gym. on Friday evening the Rinky Dinks took the measure of the Concentrator Intermediates to the tune of 20-5. The losers tried hard all the way, but were helpless before their faster opponents. Tommy Cloke and C. Dresser were the top scorers for the winners with 9 and 8 points respectively.

The teams lined up as follows:
Concentrator: W. Ruckhaber 1; C. Docherty 1; Stewart 3; M. Docherty; Webber.

Rinky Dinks: C. Dresser 8; T. Cloke 9; Deeth 2; Carney 1; W. Cloke; E. Barclay.

The High School B Team with the help of Walter Asimus of the High School Intermediates defeated the Public School boys 22-14. The game was very fast throughout and the School boys put up a game fight despite the advantage their opponents had with the addition of Asimus to their lineup. Asimus with 9 points and J. Gillis with 8 were high scorers for the winners. Buddy Gillis and Sid Armstrong with 5 each were high for the losers.

Teams were:
High School: S. Barclay 5; Kent; Asimus 9; J. Gillis 8; Watson; Dodsworth.

Public School: F. Mikele; Dunwoody; Deeth 2; Davis 2; S. Armstrong 5; B. Gillis 5; Hill.

In the Senior League fixture the Mechanics had a walk-away with the Stores-Office, the score being 49-21. The winners were too fast for their opponents, scoring almost at will. S. McLachlan was the leading scorer with 23 points, closely followed by Lindgren with 17. Bartman was high for the losers with 10 to his credit.

Teams were:
Store-Office: McIntyre; McLellan; Richie 3; Bartman 10; Spencer; J. Barclay 8.

T. Asimus handled the whistle for the first two games and R. Hooper the Senior tussle.

Indian Basketball Team May Visit Anyox

At the next meeting of the basketball League executive the Secretary will present a proposal from the Kincolith Indians to stage a basketball tournament in Anyox with the Smelter City's best talent. As in the time past the visitors will provide other acceptable entertainment for the local residents.

With the progress of mining, the B. C. Chamber of Mines has an increasingly large field of usefulness, and much interest is being taken in this organization which has for its object the furthering of one of the principal industries of the Province. The annual meeting is to be held this evening (10th) when officers will be elected for 1928 and general subjects discussed.

Apart from the dissemination of information to hundreds of callers, the B. C. Chamber of Mines works along several particular lines. Perhaps principal of these is the course of lectures held weekly throughout the winter, the speakers being the resident engineers and prominent mining men. These lectures have proved highly interesting. Classes are held for prospectors, and school pupils that are interested in mining by the collection of ore samples. An important feature of the work of the Chamber is the mineral display made annually at the Vancouver Exhibition, which is developing a magnificent permanent array of ore specimens from all parts of the Province.

Ald. Frank E. Woodside, president, himself interested in mining, gives considerable of his time to the work, and with the able assistance of Henry M. Browning, the indefatigable and obliging secretary, the Chamber more and more is establishing itself as a factor in the progress of the industry. During the year, the quarters on Pender Street West have been enlarged, and the larger facilities have proved a great convenience.---Western Canada Mining News.

Automobiles Are Large Metal Users

The importance of the automobile industry as a consumer of metals is not generally realized. About a quarter of all the aluminum, tin, and nickel produced in or imported into the United States finds its way into motor cars, as well as about an eighth of the iron and steel, copper, and lead.

Pouring of Copper at Noranda Smelter Takes Place

Pouring of the first copper at the new smelter of Noranda Mines, Ltd., at Rouyn, Quebec, took place at 4 o'clock in the morning on December 16th. Ceremonies appropriate to the occasion were held and participated in by a number of the officials of the company and guests, including J. Y. Murdoch, president of the company; Messrs. Thompson and Chadbourn, of New York, managing directors and promoters of the original syndicate which bought the company; Ed. Horne, the discoverer, and members of the Tremoy Lake Syndicate which financed him; L. C. Fletcher, field engineer for Noranda Mines, who had charge of the property until 1925; A. E. Wheeler, who designed the smelter, and F. Snow his assistant; F. M. Connell and J. H. C. Waite, of Toronto; and Ernest Hibbert, the manager, and his staff, who have brought the enterprise to its present stage.

The blowing in of the Noranda smelter marks an important event in the history of mining in eastern Canada, as it is the first copper smelter in Canada to be built east of British Columbia. The plant has a rated capacity of 1,000 tons a day from two separate units rated at 500 tons each. The ore is, however, an easy one to treat, so that the rated capacity will probably be considerably exceeded.

World's Copper Output Keeps Up

Copper production for November, according to the A. B. of M. S., was at the rate of 4,730 tons a day, compared with 4,680 in October. This is based on reports from countries producing about 98 per cent of the world total. November showed the largest figure reached since last February. Mexico, Chile, and the Belgian Congo showed increases. Production from the United States was a little higher in total tons, but the daily rate was definitely lower than in the preceding month.

Forty Thousand Reindeer Rounded Up

The greatest round up in history is progressing at Akiak Alaska. Forty-thousand reindeer are being worked through a corral as a result of a gigantic consolidation of the herds. Two companies organized to supply fresh reindeer meat will install a cannery at Kuskokwim River.

SYNOPSIS OF LAND ACT AMENDMENTS

PRE-EMPTIONS
 Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.
 Full information concerning regulations regarding pre-emption is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 5,000 board feet per acre west of the Coast Range and 8,000 feet per acre east of that Range.

Applications for pre-emption are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emption must be occupied for five years and improvements made to value of \$10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

PURCHASE

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price of first-class (arable) land is \$5 per acre, and second-class (grazing) land \$2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

HOMESITE LEASES

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

GRAZING

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free, or partially free, permits are available for settlers, campers and travellers, up to ten head.

BRITISH COLUMBIA

The Mineral Province of Western Canada

Has produced Minerals as follows: Placer Gold, \$78,018,548; Lode Gold, \$126,972,318; Silver, \$80,787,003; Lead, \$106,976,442; Copper, \$209,967,068; Zinc, \$50,512,557; Coal and Coke, \$284,699,133; Structural Materials and Miscellaneous Minerals, \$50,175,407, making its mineral production to the end of 1926, show an

Aggregate Value of \$988,108,470

The substantial progress of the Mining industry of this Province is strikingly exhibited in the following figures, which show the value of production for successive five-year periods: For all years to 1895, inclusive \$94,547,241; for five years, 1896-1900, \$57,607,967; for five years, 1901-1905, \$96,507,968; for five years, 1906-1910, \$125,534,474; for five years, 1911-1915, \$142,072,603; for five years, 1916-1920, \$189,922,725; for five years, 1921-1925, \$214,726,650; for 1926, \$67,188,842.

Production Last Ten Years, \$429,547,755

Lode mining has only been in progress for about 25 years, and only about one-half of the Province has been even prospected; 200,000 square miles of unexplored mineral bearing land are open for prospecting.

The Mining Laws of this Province are more liberal and the fees lower than those of any other Province in the Dominion, or any Colony in the British Empire.

Mineral locations are granted to discoverers for nominal fees. Absolute Titles are obtained by developing such properties, security of which is guaranteed by Crown Grants.

Practically all British Columbia Mineral Properties upon which development work has been done are described in some one of the Annual Reports of the Minister of Mines. Those considering mining investments should refer to such reports. They are available without charge on application to the Department of Mines, Victoria, B. C. Reports covering each of the six mineral Survey Districts are published separately, and are available on application. Reports of the Geological Survey of Canada, Winch Building, Vancouver, are recommended as valuable sources of information. Full information, together with Mining Reports and Maps, may be obtained gratis by addressing

THE HON. THE MINISTER OF MINES, VICTORIA, British Columbia

Large Grain Shipments From Rupert

Since October 29 when the season opened some 2,270,000 bushels of wheat has been shipped to date on eight vessels for the United Kingdom or Continent from the Alberta Wheat Pool's Prince Rupert elevator. Seven vessels took average cargoes of 275,000 bushels and the eighth, the Swedish ship Sydland, had 345,000 bushels. The figures are exclusive of the steamer Teespool, now loading about 275,000 bushels.

Sign of Early Spring

Captain C. C. Graham of the steamship Admiral Watron, upon his arrival yesterday from the westward, reported that he had passed a herd of 100 fur seals off Yakutat in the Gulf of Alaska. This is unusually early in the year for seal herds to be seen in northern waters. Usually they migrate north from California in March.

Canada's World Trade Is Enormous

For the twelve months ended October 31st Canada's trade with the world was nearly two and a third billion dollars. Outside of the United States, United Kingdom, Germany and France, no country in the world can equal it.

Wealth may be a great care, but a girl naturally expects great care when she marries.

If we could see ourselves as others see us, we wouldn't believe quite all that we see.

Women spend millions and millions of dollars for beauty, but you only have to look at some of them to see they haven't spent half enough.

Follows Route of Empire Founders

1. View of the locks at the "Soo." 2. The S.S. Assinibola locking through at Sault Ste. Marie. 3. Transferring from train to ship only takes a minute or two at Port McNicoll. 4. Port McNicoll's fine harbour showing grain boats and elevators in the background.

Centuries before the railways, the automobile, the trolley car, or the aeroplane, the Great Lakes were the highways, and canoes the popular vehicles of transportation, exploration and conquest. Leaving Montreal, Quebec and other points, the great La Salle, Marquette, Hennepin, Radisson and Mackenzie, a gallant crew of explorers and adventurers, passed through the Great Lakes on their way to found Illinois, Indiana and other states of the Middle West. La Salle who went from Quebec to the mouth of the Mississippi and paddled his way back, made the Great Lakes his highway. He and his dauntless companions found and lost an empire. The hardships of these early explorers have been done away with in modern travel on the great Lakes

but glamour or their expeditions and the beauties of their route still remain. Aboard one of the Canadian Pacific lake steamers like the Assinibola or the Keewatin in the heart of the continent, the fresh water sailor leaves Port McNicoll situated on the shores of the Georgian Bay, passes the entire length, through Lake Huron and the famous "Soo" canal and locks and into Lake Superior. The journey requires only two days and is through one of the most picturesque parts of the Dominion. The Port McNicoll-Owen Sound journey, aboard the Manitoba is another delightful trip. The latter port is beautifully situated between two high walls of rock at the southern end of an arm of the Georgian Bay. This is one of the finest harbours on

the Great Lakes. The journey from here to the "Soo" is beset with scenic beauty, along the rocky coast of the Bruce Peninsula that stretches away to the north towards Manitoulin Island. The great cliffs of this peninsula rise up over 100 feet from the deep clear waters of the Georgian Bay. From Fort William, one of the greatest grain centres in the world, the traveller may proceed westward across the prairies. Few transcontinental journeys can offer such a delightful diversion in travel as the Great Lakes trip. The traveller can board the steamers at Port McNicoll, travel one fifth of the way across the continent and then resume his rail journey at the head of the Lakes.

Results Attained from I. O. D. E. Pictures

The two shows at the Beach and one at the Mine, put on under the auspices of the I. O. D. E. last week, were very successful, both from the spectators point of view and in a financial way. Mr. W. F. Eve was in fine voice at both shows at the Beach in two vocal solos. Stewart Steele and his Orchestra rendered some excellent selections before the commencement of the first performance and during the intermission. At the Mine Mr. W. R. Murdoch was well received in vocal selections and the Mine Serbian String Orchestra gave some delightful selections prior to the start of the show.

Dividend for Granby Co. Has Been Authorised

The dividend of \$432,262, declared last July and withdrawn, was again authorized by the stockholders of Granby Consolidated Mining, Smelting and Power company at a meeting held in New York. This is at the rate of \$1 a share. Also the stockholders authorized a total distribution of \$1,780,406. The dividend declared in July was withdrawn in deference to the British Columbia law which does not permit disbursements by the directors from capital unless it is authorized by the stockholders. When the \$432,262 disbursement will be made has not been announced, but in some quarters it is assumed that it will be in May. The forthcoming disbursement will increase the grand total to \$11,028,064 and will be the first payment made in many years.

Quality BEER

THE QUALITY OF BEER depends, of course, almost entirely upon the MATERIAL that is used in its composition.

The main constituents are MALT, which gives it BODY and CONDITION, and HOPS, which FLAVOR and PRESERVE it.

We are using only the finest CANADIAN MALT and the finest BRITISH COLUMBIA HOPS, blended with the best IMPORTED BOHEMIAN HOPS, thus our BEERS are fine, pure and palatable.

Our storage capacity is very large, which enables us to create in our Beer the qualities of RIPENESS and MATURITY.

We brew and bottle the famous OLD MILWAUKEE LAGER BEER, try it.

For sale at Government Liquor Stores and Beer Parlors.

We invite the public to visit our Brewery Plant, at New Westminster, where they can convince themselves of the truth of our statements.
