Birth at Anyox

Born to Mr and Mrs. K. Mac Donald at Anyox Hospital on Wednesday, December 26th, a daughter.

A feature of the entertainment was the unfaltering manner in which every child rendered his or her part. It showed that great care had been given during the training period, credit for which is due Mr. Greenaway, and also Mrs. J. Graham who assisted.

Praise is also due to the finance committee, Mrs. H. F. Kergin and Mrs. J. Trinder who made the entertainment possible by providing sufficient funds.

Thanks are due also to many willing workers who helped in various ways, especially the elaborate decorating.

Sleighs Now Used on Dolly Varden Railway

Freight for the Toric and Tiger mines is being taken in by Al. Falconer and sleighs are now used from town to the mine. One sleigh operates as far as Spring Camp and another on the upper end. There is a considerable amount of fuel oil at Spring Camp to go to the Toric and about 200 sacks of concentrates to be brought down to the wharf.

Scoutmaster Presented With Handsome Watch

On Christmas Eve Scoutmaster Gale was called to a special meeting arranged by the Scouts and Cubs where Assistant Scoutmaster Arthur Teabo presented him with a pocket watch in the name of the Troop and Pack. It was quite a surprise to the Scoutmaster and after he had fittingly thanked the Boys they gave three rousing cheers.

High School Basketball Games at Prince Rupert

From the first toss off of the basketball game played at Prince Rupert, the Rupert girls were never pressed though the Anyox quintette battled gamely throughout the match. The Anyox girls played an excellent defence game and frequently broke up the well drilled combination of the stronger team. There was just as much playing one end of the floor as the other, but the accurate shooting of the Rupert girls enabled them to pile up the score at each evening's play.

Anyox scored first both nights and hopes ran high, but as the excitement grew our girls found the basket more difficult to locate.

The first evening the score stood 10-2 at half time. There were then a few substitutions and changes of position on both teams, and at the end of the next period the score was 14-6, Marjorie Cloke and Susie Boddie being the point getters. During the last quarter May Ness and Susie Boddie for Rupert brought the score up to 20-6.

The second evening all players entered the game determined to check more closely with the result that more personals were called. Off these our girls netted two points. At half time this evening the score was 8-6, at three quarters 12-6, the final score being 18-6.

Scoring the first night was as follows: Anyox: F. Cameron; L. Dresser 2; M. Cloke 4; M. Dresser W. Cameron; K. Eve; F. Dodsworth. Total 6.

Prince Rupert—Miss Susie Boddie, 6; Miss Julia Walters, 4; Miss May Ness, 10; Miss Margaret Gilchrist; Miss Ella Steen; Miss C. McLeod; total, 20.

Second night's play: Anyox, M. Dresser 1, Kathleen Eve, W. Cameron, Lillian Dresser 2, F. Cameron 2, J. McDonald 1, M. Cloke. Total 6.

Prince Rupert: J. Walters 4, S. Boddie 8, May Ness 6, M. Gilchrist, Ella Steen. Total 18.

The Anyox Cubs and Scouts assisted Postmaster Eve to deliver the heavy parcels. They worked under their own Leader and fellows. Cubs Senior, Billy Lindsay; Scout's Leaders, Bruce Loudon, Chas. Hill and Ivor Davies.

The First Burnaby Troop presented Scoutmaster Gale of Anyox with a framed picture "The Pathfinder" by Carlos for his services as Scoutmaster with the troop before coming to Anyox.

After January 1st. T. W. Falconer's store will be closed each evening at 6 p.m.

Before our next issue is published we will have entered upon another year. It will be a year with great possibilities for this district. The stage is all set for a big expansion of the mining industry and everyone can calmly face the future without apprehension. Looking back over the past year the district made considerable headway.

The Granby Consolidated Mining Smelting & Power Co. took over and developed the big copper property adjoining the Hidden Creek mine. They also developed the Bananza to a point where it will shortly become a producer. They have operated the big plant at Anyox continuously throughout the year without a mishap, producing millions of pounds of copper and giving employment to over 1000 men. During the past year the mining industry of Alice Arm has employed more men than at any time since 1920. The advent of the Britannia Mning & Smelting Co. Ltd. into the Alice Arm district is conclusive proof that the ore deposits are large and rich enough to undertake development work on a large scale, and its success is not doubted by anyone in the district. The coming year holds promise of being the banner year, so often predicted. Certain it is that the outlook was never brighter, or the spirits of the people higher, and we can all welcome young 1929 without a qualm as to how it will treat us.

Liquor Checks Will Shortly Be Published

The municipalities of B. C. which were worrying lately about the receipt of their annual check of Government Liquor profits for Christmas, will get their usual checks before the end of the year, stated the Finance Department.

Much Satisfaction Was Evident At Meeting Marmot Metals

Entire satisfaction with the developments in connection with Marmot Metals Co. Ltd. was expressed by the shareholders at a special meeting in Vancouver Saturday afternoon. The meeting was called so that shareholders who had any questions to ask might be fully informed of what the directors are doing.

In the absence of R. E. McKechnie, president of the company, Nichol Thompson, vice-president, took the chair. The secretary P. A. White, read the reports of the Stewart and Batten and Associates, the company's consulting engineers, covering the five properties in which Marmot Metals is now interested.

The report was considered satisfactory by the meeting. Major H. W. M. Rolston, managing director, explained the financial structure and organization, showing how the one company dovetailed into the other, with the Marmot Metals shareholders participating in the success of any one of the group. The other properties in which Marmot is now interested are the Glacier Girl, the Bitter Creek, Melvine Syndicate and Black Hill, the last two, declared Major Rolston, being two of the three most outstanding prospects discovered during the past summer.

Major Rolston explained also that it will not be necessary to sell any more treasury stock during the coming year, the company having sufficient finances for all its 1929 obligations, with nearly one-third of the stock still in the treasury.

All questions were answered and the meeting closed with the usual votes of thanks and confidence.

Government Will Discontinue Bulletin

Following the publication of the current issue of the British Columbia bulletin, Hon. W. C. Shelly announced that the government had decided to discontinue it because it carried articles of decided political complexion and in praise of cabinet ministers. "The government will not allow public money to be spent to advertise it or for partisan political purposes," the minister said.

Visitor (speaking of little boy): "He has his mother's eyes."
Mother: "And father's mouth."
Child: "And brother's trousers."

Electrical Prospecting Counts As Assessment Work

Manitoba is the latest province to count electrical prospecting of mineral claims as assessment work. British Columbia is the only other important mineral producing province that has not yet adopted this principle. Electrical prospecting has become an established method of ascertaining the ore content of claims, and that it may count as assessment work enables an owner to save much time in arriving at what his ground contains. Such surveys are greatly facilitating exploration of mineral claims.

Pattullo, former Minister of Lands; Ian MacKenzie, late Provincial Secretary, and A. M. Manson, Attorney-General in the late Liberal administration.

Capital For Duthie Mine Is Increased

Shareholders of the Duthie Mines were advertised that the funds for development were being supplied by the Atlas Exploration Company and the Mines Issues Corporation of Toronto. To provide for the necessary financing the directors will at once increase the capital to \$2,000,000 by the creation of a million new shares at \$1 each, which will be issued to the two eastern companies.

J. D. Duthie retains his full interest in the property and remains president. C. A. Banks has been appointed managing director.

A wide development program is planned to start immediately and during the work the mill operations stop for probably three months and dividend payments cease temporarily.

Senator George P. Graham is president of the Atlas Exploration Company.

THE YEAR OF HOMEGOING.

The reaper thresher garners a bumper crop, and the man of the west contemplates the golden stream as it poured from wagon to conveyor. (Inset)—On the Duchess of Atholl, homeward bound.

There has been a record crop. The West will continue to flourish. In a thousand cases, a few years of struggle with nature has been rewarded. And what will it mean? more roads, more cars, more machinery, more streets and stores and homes and radios. A brisker trade, more industrial activity in the east, more shipping and more car loadings per mile. More wheels turning all over the country.

But the man whose labours by the favour of Providence has been mainly responsible for all this. His threshing done, he has time now to think of other things than wheat and rain and frost and sun and harvesters, and the rail and steamship companies are anticipating his thought. In a few weeks now, there will be a feverish packing of bags, a collecting of the children, a donning of new hats and shoes and a rush for the trains.

This, say the transportation officials will be the year of the home-going. The English, the Jersey Islanders, the Scotch and the Irish and the Continentals too. The Canadian Pacific officials foresee so great a trek, that they have already planned many special trains out of the West, and many steamship sailings which will facilitate the movement and ensure Christmas and New Year's with the old folk and an inexpensive journey in comfort and luxury.

The Minnedosa will give the more fortunate ones a sailing from Montreal on November 28 for Glasgow, Belfast and Liverpool. On the seventh of December the Metagama and Montclare will sail from Saint John, one for Cherbourg, Southampton and Antwerp and the other for the Liverpool run. The Melita, sailing on the fourteenth, will stop en route at St. Helier with a large number of home-going Channel Islanders and the Duchess of Atholl sailing on the fifteenth will take the last of those going home for Christmas via Glasgow or Liverpool. The sailing of the Montroyal on the twenty-first is for those to whom New Year's means more.

Just to illustrate to what great extent a good western crop affects industry; one printing establishment was kept busier than usual for some time printing an extra order of Canadian Pacific travellers' cheques and money orders. These will, an official said, be sent or carried by homegoers to practically every quarter of the civilized world. Whatever the world crop conditions may be, the Canadian crop will be appreciated almost wherever men eat bread.
