Christ Church Concert at Anyox Great Success

A most successful concert was held in the Recreation Hall, on Monday evening, under the auspices of the Anglican Church. The hall was comfortably filled and the programme was of a high order.

The children's dances, arranged by Mrs. F. M. Kelley were extremely pretty, and met with a hearty reception. They reflect great credit on the children as well their instructor.

The Fantasy, entitled "Wealth," composed and produced by Mr. Ed. Yard, was a masterpiece, and makes Mr. Yard a dramatist of the front rank. He was ably assisted by Mr. Geo. Warwick, as "Death," and the Misses Florence Kelly, May Barclay, Doris Greig, and Frances Kelley, as the Fairies.

The Sketch, "With the Wits," specially written for the occasion by Mr. F. M. Kelley, was a new departure on the stage at Anyox, and fully justified the venture. This item was rendered by Mrs. E. Menzies, and Miss Rowena Champion, who added another laurel to their crown, as exponents of the dramatic art, before the local footlights.

The Reading, "Gunga Din," by Mr. George Warwick, was well received, as was also the one by Miss Helen Cook, entitled, "Caleb's Courtship."

The violin solo, by Mr. George Liddel, was up to his usual high standard, and called for a well merited encore. Master Arthur Teabo also rendered a violin solo very acceptably, which called for an encore.

It is always a pleasure to listen to Dr. Harper at the piano, and the two items given by him were thoroughly enjoyed by everyone, and brought forth thunderous applause from the audience.

Following is the programme:

1. Violin Solo. Mr. G. Liddell.
2. Song. "Asleep in the Deep." Mr. J. K. Hay.

3. Dance. "The Sailor's Hornpipe." Misses Dora Grigg, Jean Robertson, Joan Whelan.

4. Song. "My old Shako." Encore, "Come to the Fair." Mr. J. Hegarty.

5. Reading. "Gunga Din." Mr. Geo. Warwick.

6. Song. "The Voice of Home." Encore, "Otherwhere." Mrs. E. Morning.

7. Dance. "Strathspey Reel." Kathleen Eve, Edna Herrin, Florence Kelley, Frances Kelley.

8. Coon Song. "When the Moon shines on the Moonshine." Encore, "The loving Sheik of Alabama." Mr. E. G. Craggs.

9. Song. "When I dream of Old Erin, I am dreaming of You." Encore, "My Heart is Thine." Miss V. McKay.

10. A Fantasy, entitled "Wealth." Messrs. W. E. Yard and G. Warwick, and Misses Florence Kelley, May Barclay, Dora Grigg, Frances Kelley.

11. Pianoforte Solo. Dr. Harper.

12. Reading. "Caleb's Courtship." Encore, "Them is my sentiments too." Miss Helen Cook.

13. Dance. "The Four Sons." Olive Selfe, Isabel Thompson, Patricia O'Neill, Vera Eve.

14. Violin Solo. Master A. Teabo.

15. Song. "The Raft." Encore

Granby Co. Preparing for Logging Operations at Alice Arm

Mr. W. M. Meehan, who has charge of all logging operations for the Granby Company, arrived in Alice Arm on Monday, accompanied by Mr. Dan Clanaghan, who will have charge of logging operations here.

Mr. Meehan stated that two more sets of fallers had been started in the woods this week. The saw-mill at Larcom Island was now engaged in cutting 200,000 feet of lumber for the camps, and that construction of the camp up the Dolly Varden railway track would probably commence next week. This camp will be 2½ miles up the track and close to the railway. The other camp will be built back of the camp of the Abbotsford Logging Co.

Mr. Meehan stated that six engines will be operating in the two camps. Each camp will be equipped with a Washington yarder 2-speed engine, with extended firebox also a loader and a engine that will be used for high rigging. The Marion will bring the yarder engines over from Queen Charlotte Islands, and Mr. Clanaghan will leave on Monday, to superintend shipping.

The work of preparing a booming ground will probably commence next week, piles and boom sticks are now being logged down the inlet for this work, at Fred Miller's camp. At the conclusion of this work the outfit will be moved to the camp across the river on the flats. Mr. Meehan estimated that from 100 to 125 men would be employed in logging operations here.

Dance at Alice Arm

An enjoyable dance was held at the residence of Mr. and Mrs. O. Gray on Friday evening of last week. The younger set of the town were there in full force and thoroughly enjoyed themselves dancing to the strains of an orchestra composed of Miss Virginia Riel, piano; Mr. J. Fiva, guitar; and Mr. L. Johnson, accordian. A dainty supper was provided by the ladies and the dance concluded in the wee small hours.

Dance Given by Anyox Mine Club

A very enjoyable evening was spent on Thursday last week at a dance given by the Mine Club. About fifty persons were conveyed from the Beach to the Mine by means of the electric train, which added to the already large gathering. Refreshments were served in the old dance hall at 11:30, after which dancing was resumed and continued until 2 a.m. A full orchestra was in attendance.

"Lassie O' Mine." Mr. W. F. Eve.

Basketball Games at Anyox

There were three games of basketball at the Gym. on Friday last. All of which proved to be very close and exciting. The first game brought together the Coke Plant and the Rovers, in an Intermediate League fixture, the Coke Plant annexing this game by a slight margin of two points. The score at the finish being 22 to 20. Ballantyne and Hogben played well for the winners while Harris and Gordon starred for the losers.

The teams were:
Coke Plant: Watson Thompson, Hogben, Smith and Ballantyne.
Rovers, H. Ballion, N. Ballion, Harris Crawford and Gordon.

The second game was between the Bluebirds and the Pats, the former winning by the score of 13 to 10. The Pats came from behind to win. The game was very rough throughout, some very hard checking being the order of the play. The Pats are now the undisputed champions of the first half of the schedule. Next week should see the teams away on the second half of the schedule. The winners of the second half to play the winners of the first.

The teams lined up as follows:
Pats: Miss P. McMillan, Miss H. Calderone, Miss R. Champion, Mrs. H. Chapman, Miss R. Moffat and Mrs. Winnerstrom.

The final game of the evening was that between the Smelter and the Elks in a scheduled league game, the Smelter being declared the winners after forty minutes of good basketball. R. MOSS, Editor and Publisher.

Two vital questions are affecting Canada at the present time. They are immigration and the lessening of taxation. The people of Canada are commencing to take an interest in these two questions, for with the solving of these two problems, the prosperity of Canada is assured. We have, in Canada, immense undeveloped tracts of land, minerals, timber and other natural resources in abundance, but these are useless to us unless developed, and to be developed properly we must increase our population. In order to increase our population we must make it attractive for immigrants and prove to them that Canada is the best country in the world to live in. But can we do this with our enormous burden of taxation? In order to build up our population we will have to reduce our taxes, and until this is done, a large increase in our population can not be expected.

Canada is one of the countries of the world that needs filling up. The United States is restricting immigration, and now is the time for Canada to turn the tide that formerly rolled to that country. If we do not get them, they will go to South American countries, Australia or South Africa and we shall plod along the same old way, a small population in a big country, paying taxes equivalent to a population twice the size, and meanwhile losing a large proportion of our best citizens to other countries.

Until a few months ago the two old political parties of the province were energetically engaged in that exhilarating sport of trying to tie the knot to each other's tails, much to the amusement of the electors. They were experts at the game and knew the ropes. But times have changed since the Provincial Party has been formed--and also misinformed. The new party,

Dunwell Mine Showing Up Good Ore

Portland Canal News

There is something new every day on the Dunwell. Just before last week's paper came out, samples containing free gold were brought down, and this week some of the finest specimens that a person would want to look at, containing free gold, native silver and argente, have come down every day.

Specimens, of course don't make a mine, but the fact that free gold and native silver are prominent at a depth of 500 feet on the dip of the vein, is at least significant.

Outside papers received yesterday reveal the fine work of the chippy reporter, such as the Vancouver daily papers employ. They have the gold in great nuggets, and silver in slabs that must be peeled off the rock. That, of course, is all Tommyrot.

The high-grade ore shoot is ten feet wide in the north crosscut in the No. 3 tunnel and five feet wide in the south crosscut. The ore is rich enough, and speculation is now rife as to what No. 4 tunnel will show up, since No. 3. is so much better than No. 2, which established the status of the Dunwell as a real mine.

Big Gold Production of Northern Ontario

Hon. Charles, McCrea, minister of mines for the province of Ontario declared in a recent public address at Windsor, that Northern Ontario was the "world's greatest treasure box." He estimated that the production of precious metals in Northern Ontario this year would total \$25,000,000 in value. Referring to the nickel industry Mr. McCrea said that 85 per cent. of the nickel supply was being taken out in the vicinity of Sudbury. There was an inexhaustible supply of this mineral. In 1911, when mining at first began in Northern Ontario, \$48,000 worth of gold was taken out. Last year more than \$22,000,000 in gold was produced in the district.

Tax collector leads a hard life. Every man he sees is mad.

who have shown a lamentable lack of experience have taken on the job of tying the knot to both parties at the same time. They have failed in their onslaught, and have not yet convinced the electors that they are the chosen ones appointed to lead the people of British Columbia out of bondage.

Big Salmon Pack Last Year

Victoria.—The salmon pack of this province, according to figures issued by the board of trade, was 1,341,681 cases in 1923, or about 50,000 cases in excess of that of 1922. Unusually heavy runs in the northern streams account for the larger pack, canneries in the north having been taxed to their capacity to take care of the fish. The total pack will give the packers more than \$10,000,000, if all the cases are marketed at the ruling prices.

SYNOPSIS OF LAND ACT AMENDMENTS

PRE-EMPTIONS

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emptions is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 5,000 board feet per acre west of the Coast Range and 8,000 feet per acre east of that Range.

Applications for pre-emptions are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emptions must be occupied for five years and improvements made to value of \$10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

PURCHASE

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price of first-class (arable) land is \$5 per acre, and second-class (grazing) land \$2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

HOMESITE LEASES

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

GRAZING

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free, or partially free, permits are available for settlers, campers and travellers, up to ten head.

Anyox Moose Growing

The Anyox Lodge No 1412, L. O. M. numbering nearly 250 continues to grow, there will be another big class of candidates in the next week or two whilst the Ladies Legion are actively pursuing their useful work, and their Saturday night dances are undoubtedly very popular.

A NEW FISH YARN

Charged with keeping liquor for sale Ed. Hall was recently brought before the magistrate at Hazelton. Evidence brought out by the police was to the effect that Hall had been receiving large consignments of liquor every few days. Hall swore that none of the stuff had been offered for sale, but that he had been a jolly host for two big parties, one a salmon party and the other a herring party, which naturally made the guests thirsty. This the prosecution claimed, was dragging a herring across the trail with a vengeance, but in the evidence submitted as to actual sale the magistrate gave the defendant the benefit of the doubt and dismissed the case.

Gold Property at Terrace To Be Developed

For the development of the Portland group of claims on the west side of Kalum lake, about twenty miles from Terrace, the Kalum Lake Mines Limited has been organized at Terrace. The company comprises a number of the business men of Terrace who know the property, which is described as one of the most promising prospects in all that district. The Portland group was staked by C. A. Smith two years ago and in the development a three-foot ledge was opened up which has given up very high values in free milling gold. It is the intention of the company to undertake an extensive development programme immediately.

Russia Has Immense Iron Ore Deposits

The great mass of iron revealed in Russia by its effect on the compass has been estimated by M. Sazareff, in a note to the Paris Academy of Science, to contain sixteen times the quantity of this metal existing in all other known deposits. It occurs in two bands, 125 miles apart. Exploration has shown ore at a depth of 500 feet, containing 40 per cent of iron, and at greater depths the ore removed has proven to have an increasing percentage of metal.
