Elks Defeat Vandals In Fast Basketball Game

A good crowd was on hand at the Gym, on Monday evening last and witnessed four good tussles of basketball. A tight go between Trojans Jnr. and the Pirates resulted in a narrow win by the former of 9-8. The youngsters put up a good game and showed an excellent knowledge of the rules.

The teams: Pirates: R. Dresser 4, A. Wardrope 2, R. O'Neill 2. W. Uhich, B. McMaster, J. McMaster, Rudland. Trojans Jnr N. McDonald 4, B. Kent 5, Geo. Kent, H. Dodsworth, J. Varnes.

Rovers struck a hard snag in the Senior B game, coming out on the short end of a 36-9 score. They stuck to it gamely however, despite the odds against them. The teams: Rovers, Thompson, Summers 5, Flye 2, Kergin 5, Cloke. Foundry: Patrick 8, Scott 19. Church 7, Hamilton 2, Parsons, Deeth. Three players in this game, reached the showers in good time; viz, Kergin, Patrick and Hamilton.

The Mine Girls had an off night, in their clash with the Spooks, being unable to find the basket except with penalty shots. The Spooks however, were in good form and could not be held down.

Mine Girls: P. Arscott 1, B. Cannon 1, V. Powell, Y. Cannon 1, J Roberts, G. Bodin.

Spooks: N. Salmon 1, C. McColl, K. Eve 6, P. Campbell 1, H. Glass, Mrs. Wenerstrom 2, J. McDonald 2.

In the Senior A fixture the "antlered herd" locked horns with the Vandals, impaling them on the short end of a 24-17 score. The Elks played a sterling game and never let up until the final whistle. Vandals were minus Kulai and Horne. Watson, a recent addition to their ranks, turned in a good card. A slight inclination to roughness, was sternly checked by L. Gillies, who handled the game efficiently and resulted in six players reaching their quota of penalties and being sent to the showers. These were the Calderoni boys and Samaan for the Mine and Watson, Hamilton, and Currie for the Elks.

The teams: Vandals, T. Calderoni 7, F. Calderoni 4. Woodman, Samaan, McMillan 1, Watson 4, Gourlay 1.

Elks: Davies 3, Steele 9, Meagher 2, Phillips, McKinley 3, Hamilton 1, Dresser, Currie 6, W. Watson.

Large Number Attends Mine Masquerade Dance

Nothing ever daunts the people of Hidden Creek Mine. They have a reputation for being loyal and generous in any good cause, no matter what may be impending, and this was exemplified at the Masquerade Dance held under the auspices of the Mine Branch of the A. C. L. on Friday, December 7th. Two hundred and twenty people took the floor of the Mine Hall on this occasion, and formed a scene of color, variety, and gaiety which will not soon be forgotten.

There was a great diversity of costumes, ranging from babies to burglars. There were ballet girls, harlequins, perriots, powder puffs, robots, Victorian ladies, nurses, boy scouts, school girls, professors, and a South Sea Islander in her latest finery. There were two Father Christmases: one so realistic that he—she—took first prize!

Buntain's Orchestra supplied music that kept toes tingling; appetizing refreshments gave new life and zest, and a congenial atmosphere kept everybody in excellent mood. Prizewinners were: Best Dressed Lady, Mrs. D. P. Williams: Best Dressed Gentleman, W. Wright; Best Comic Lady, Miss H. Calderoni; Best Comic Gentleman, P. Chenoski; Best original Lady, Mrs. H. Black; Best Original Gentleman, Mr. C. Black.

During the evening the Mine Minstrel troupe entertained with some selections from their recent concerts. The proceeds of the affair were devoted to welfare work undertaken by the Mine Branch of the A. C. L.

Young People Enjoy Card Party

A Card Party was held in Christ Church Parish Hall on Monday, December 10th. by the A. Y. P. A. Whist proved to be the popular game and those who received the prizes were: Mrs. W. Boyce, Mrs. W. F. Eve, Miss Rita Henderson and Mr. H. R. Kent.

After a delightful supper, community singing was indulged in for the remainder of the very successful evening. The proceeds were added to the Christmas Tree Fund, for the Christ Church Sunday School.

What a time is in store for all the children of Anyox at Christmas! There will be an A. C. L. Children's Party at the Gymnasium on Friday, December 21st., for the children residing at the Beach, and a similar function at the Mine Hall on Saturday the 22nd, for children residing at the Mine. Santa Claus, in person will be present on both occasions. There will be everything to delight the juvenile heart—fun and frolic, games and novelties and lots of eats Be there early children and respect the wishes of those in charge and you'll have the time of your lives.

Elks Elect Officers For Coming Year

For the year 1935 the following officers were elected by the Anyox Lodge, B. P. O. Elks at their meeting on Monday evening last:

Exaltad Ruler—D. M. Campbell.
Leading Knight—W. M. Webber.
Loyal Knight—K. A. Hunter.
Lecturing Knight—T. M. Stretton.
Secretary—M. J. Sheen.
Treasurer—B. M. Buck.
Inner Guard—J. Weir.
Tyler—R. Buttery.
Trustee—M. Cranley.
Organist—Frank Allan.

Installation of the newly-elected officers will take place early in the New Year.

The Lodge is planning to make their New Year Dance a really memorable function, and expect to have a large crowd of merrymakers as their patrons on that occasion.

Elks Forego Idea Of Beauty Contest

After careful consideration, the local Lodge of the B. P. O. E. have abandoned the idea of holding a beauty and popularity contest at their New Year Dance. This is on account of the fact that such a contest would necessarily take up considerable time during the evening. It is the desire of the Brother Bills that everyone enjoy as much dancing at that popular function as possible.

This New Year Dance, to which so many Anyox people look forward each year, is definitely slated to take place. Plenty of dancing, a good floor, an excellent orchestra and a bounteous supper. Plan to go to this colorful event. You will be glad that you did so.

Two Picture Shows Will Be Held Christmas Day

As many people have requested that a picture be shown on Christmas Day, it has been arranged to show "Viva Villa." There will be a matinee at 2 o'clock and an evening show at 8 o'clock. In this way there will be no interference with the usual time for Christmas dinner.

Viva Villa is a wonderfully fine picture, it is a story of the life and loves of that colorful personage and revolutionary leader, Pancho Villa. This picture took ten months to produce, one hundred cameras were required to film it and a hundred thousand people appear in it. Color, action, and thrills throughout—a fine show for Christmas Day only.

Foreign Copper Producers May Curtail Production

It is reported that world copper producers have entered into negotiations for a meeting to be held in

B. P. O. E. and K. of P. Unveil Memorial Stone

A very interesting and impressive ceremony was performed at the Alice Arm cemetery on Sunday last when the Memorial stone recently erected on the grave of the late Mr. Patrick Clune was unveiled.

Nine members of Anyox Lodge No. 47 B. P. O. Elks, and J. J. H. Varnes, Past Chancellor of Lodge No. 40 Knights of Pythias journeyed from Anyox to perform the ceremony. They were joined at Alice Arm by several other Elks and a few visitors also attended.

The unveiling service was conducted by H. Hallcrow, Exalted Ruler of Anyox Lodge No. 47 and P. Powell, Chaplain, and the flag which covered the grave was removed by H. Hallcrow, representing the Elks and J. J. H. Varnes representing the Knights of Pythias.

The headstone which weighs over two hundred pounds, is embedded in concrete which covers the whole grave, and which will endure for centuries.

The cost was defrayed by the Anyox Elks' Lodge and Grand Forks Lodge No. 30 Knights of Pythias, of which Lodges the late Mr. Patrick Clune was a member, and both of which were beneficiaries under his will.

The Elks from Anyox attending the ceremony were: H. Hallcrow, Exalted Ruler; E. Johnson, Past Exalted Ruler; P. Powell, Chaplain J. Buntain, Esq.; J. Weir, J. Dickson, J. Bell, S. Armstrong, W. Feyer. They were joined at Alice Arm by O. Evindsen, G. Anderson, E. Moss. J. J. Varnes of Anyox, Past Chancellor of Lodge No. 40, represented the Knights of Pythias.

When Anyox Will Close Is Still Uncertain

At an extraordinary meeting of the shareholders of the Granby Consolidated Mining, Smelting and Power Company held at New York on Wednesday, it was decided to continue operations as long as it was expedient to do so and the price of copper justified it.

In view of the above decision, it seems uncertain just when operations at Anyox will cease. Everything depends on future copper prices, the grade of ore being mined and mining costs.

As in past years, the Women's Hospital Auxiliary will hold a Christmas Tree and entertainment at the Hospital for the benefit of patients at that institution. The event will take place on Saturday evening, December 22nd. The ladies of the Auxiliary will be very glad to look after any gifts which friends of patients may wish to give, and to have them placed on the tree. Such gifts should be left at the hospital prior to Saturday evening.

The Estimated Mineral Production For B.C. Shows a Great Expansion

Following is the report in part of John F. Walker, provincial mineralogist, which shows the estimated value of minerals mined in the province for this year. The report shows that there will be a decided increase in the value of all metals over the 1933 production:

The estimated gross value of the mineral production of the Province for the year 1934, based on returns for ten months, is $41,863,150, an increase of $9,260,478, or 28.4% over 1933. This is very close to the average production of $43,570,610 over the past 20 year period of rapidly changing conditions. The 1914 low of $26,388,825 in this period was nearly reached in 1921 and again in 1932; the peak year came in 1929 with a value of $68,245,443.

Though the value of this year's production is far from the 1929 peak, record volume production is indicated for these metals.

In the case of gold an all time high of 286,700 ounces lode and 21,000 ounces placer is estimated, slightly exceeding the 1913 high of 272,254 ounces lode and 25,500 ounces placer. The value of this year's production in Canadian funds is estimated at $10,480,921, exceeding last year's value record by 50.6 per cent. The average price of gold is estimated at $34.48 as against $28.60 for last year and the premium amounts to $4,197,831 as against $1,928,186 in 1933 and $556,788 in 1932.

Lead production comes next in value to gold and though the estimated value of $8,313,000 is far below the high of $18,670,329 in 1925, the estimated volume or 340,700,000 lbs. is an all-time high exceeding the 1930 record of 319,199,752 lbs. The average price of lead is estimated at 2.44 cents per pound and the gross value of this year's production will show an increase of 28% over last year.

Zinc follows closely upon lead with an estimated value of $7,674,051, considerably below the 1926 record value of $10,586,610 and in volume just above the 1930 record

Alice Arm Notes

Mrs. J. Calfa, who has been on an extended visit to friends at Calgary, returned home on Monday.

Geo. Blaney, provincial police constable, arrived from Anyox on Thursday on official duties and expects to leave again today.

J. Fiva who has been at Anyox for some time, is spending a few days at home this week.

Stuart Barclay arrived from Anyox on Monday and has spent the past week here.

The Estimated Mineral Production For B.C. Shows a Great Expansion

Continued from page 1

of 250,287,306 lbs. with an estimated production of 250,950,000 lbs. The average zinc price is estimated at 3.058 cents and the gross value exceeds 1933 by 22 per cent.

Silver, with an estimated production of 8,907,000 ounces valued at $4,197,869, shows an increase in gross value of 58.4 per cent over 1933. The all time high in volume production of silver was in 1930 with 11,289,171 ounces, valued at 38.154 cents per ounce and the record gross value of $6,675,606 was made in 1926 with silver at 62.107 cents per ounce. It is interesting to note that the past records in silver production and value, have not been due to extremely high prices for the metal and that production was fairly steady from 1896 to 1921 in spite of wide fluctuations in price. The sudden rise in the volume of silver came in 1922 with the sudden rise in the production of lead and zinc and the future of silver volume production, will depend on the markets for the base metals.

An appreciation in price will bring into production a number of small operations but the volume is not likely to be very greatly affected.

Copper production has increased 12.3 per cent over 1933 with a volume of 49,400,000 lbs. valued at $3,566,680. The estimated price of 7.22 cents for the metal is slightly below the 1933 price of 7.458 cents per pound. In view of the possibility of Granby closing down its operations at Anyox in the near future, the outlook for copper production in British Columbia is not very bright, particularly when we look back to the all time high in 1929 of 101,483,857 pounds of metal valued at $18,375,682. However, the increase in tonnage of gold-copper ores in the Rossland boundary country and the steadily increasing production of gold are likely to take its place.

Miscellaneous minerals including bentonite, bismuth, cadmium, diatomite, flux, gypsum and gypsite, iron, mica, phosphate, platinum, crushed slate, soda, sulphur content of pyrite in the manufacture of sulphuric acid, and talc show the very marked increase of 64.3 per cent over 1933, the value jumping from $633,532 to $1,041,500.

It is interesting to compare the position of the mining industry with that of agriculture and lumbering and its remarkable comeback. From the peak of production to the low point in 1932, agriculture dropped 45 per cent, mining 59 per cent, and lumbering 62 per cent. From the 1932 low points the estimated recovery this year is for agriculture, 16 per cent. lumbering 23 per cent (not official), and mining 45 per cent.

There is another side to the mining industry, namely, mining promotion, and recently some editorial writers have asked for statistics concerning it. This opens a wide field for speculative statistics, however, certain figures can be given, which may throw some light on the matter. Exclusive of 1928 and 1933 an average of 50 mining companies have been incorporated each year for the past several years. In 1928 and 1933, 171 and 155 companies were incorporated respectively.

To obtain an estimate of the amount of money raised by public companies 5 representative companies operating in different parts of the Province were studied, and it has been found that about $193,518 has been raised from the sale of 1,836,395 shares. Using this as a basis, it is estimated that the 83 public companies, have to date raised $4,709,437, or the value of 10½ cents per share on treasury stock or 5.6 cents per share on all stock issued. It is impossible to estimate the amount paid by the public, for this stock but from an average price for these stocks a figure of $12,558,500 has been obtained. These figures may be considerably at variance with the facts if they were known, but even a large percentage of error would not greatly alter the picture.

Last year four dividend-paying mining companies in British Columbia with par value stock of $30,500,000 paid $2,925,276 in dividends. In the case of one company some of this profit may be attributed to operations outside of the province. This year the same companies are paying $4,433,354. It would therefore appear that during a mining boom slightly more money is put into the ground than is taken out in dividends, but in normal years such evidently is not the case.

Mining Provides Big Railway Tonnage

The tremendous development of the gold mining industry in Eastern Central Canada during the past few years has been largely serviced by the Canadian National Railways. Freight in unusually large volumes and passengers by the thousands have rolled over "the peoples's track" to the mining fields of Quebec, Red Lake, Patricia, Sturgeon Lake, Tashota, and more recently, Little Long Lac. Dikdik, Beardmore and Sturgeon River.

Over their lines, too, have gone part way freight and people for Popcupine, Kirkland, Matachewan, Manitoba, Great Bear Lake. Supplies and equipment from points clear across the Dominion are concentrated at these centres to carry on the work at hundreds of mines and prospects.

It is difficult to accurately appraise the full measure of secondary benefits from this thriving basic industry that have reverberated right down the lines carrying inspiration and dollar business into all the larger cities and thousands of smaller places.

Gifts For Christmas!

Among our large stock of goods suitable for Christmas presents we have: Embroidered Pillow Slips from $1.25 to $1.75 per pair.

Ladies' Silk Hose, and also Silk Crepe. Full size and all latest shades from $1.00 to $1.35 per pair.

We have a large stock of goods suitable for Christmas gifts, for both men and women. Don't fail to visit us before you purchase your Christmas presents.

Good Cheer

On Draught and at Government Liquor Stores

Capilano's Second Cellar Brings You The Perfect Brew

CAPILANO Beer *must* be good. That accounts for its ever-increasing popularity. To cope with insistent demand from all parts of the Province for this good beer, more and more capital outlay has been made for additional brewing, fermenting and storage space. This necessitated the installation of a huge second cellar, where "Capilano" ages for months in great wooden casks under the most exacting conditions of cleanliness and refrigeration. This new cellar, completed months ago, now brings to the consuming public, the ultimate brew, by bottle and draught, with the added assurance of unfailing response to all who ask for "Capilano".

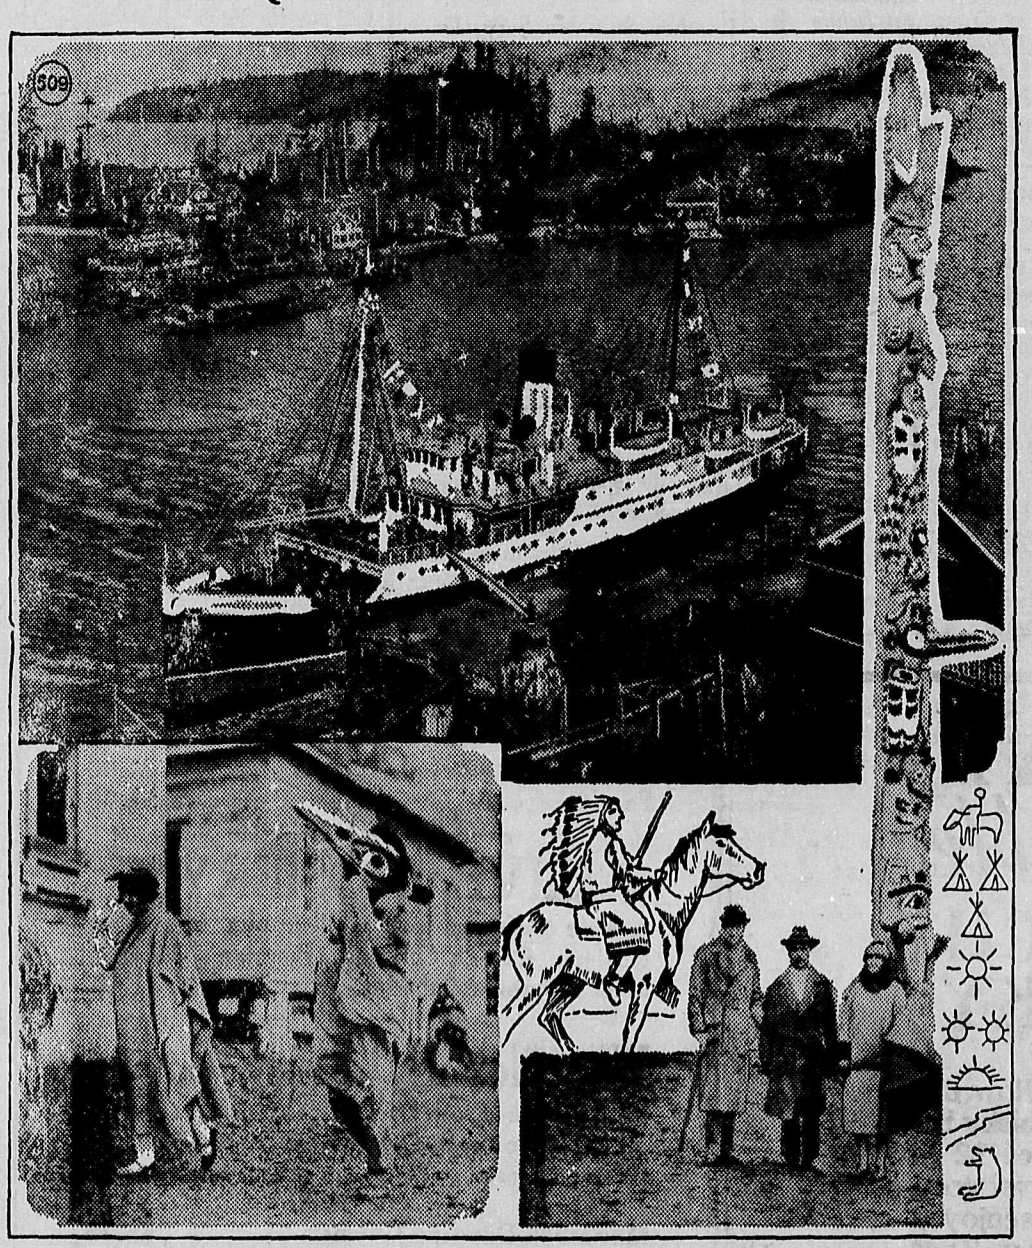
CONQUERED BY A SONG



Lands have been annexed by fire and sword, but the west coast of Vancouver Island has the unique distinction of being won by a song. The Spanish admiral who led an expedition against it in 1790, so charmed the heart of the warlike Maquinna, Lord of the Nootkas, with a theme song which he caused his merry men to sing over and over until the chief was placated, that the Indian made him welcome and gave him jurisdiction over the Sound and the Islands. Since that date the coast of Vancouver Island has become the rendezvous of tourists from all over the world. Within easy reach of Vancouver, Victoria and Seattle, it yet offers the attraction of territory quite unspoilt by industrialism and a paradise of beautiful scenery and fruitful sport. As it was when the Spaniards first sighted it, so it virtually is today. Canadian Pacific steamships of the British Columbia Coast Service travel up and down this coast, and make it easily and comfortably accessible to visitors. Lay-out shows Canadian Pacific coastal vessel "Princess Norah" sailing among the islands off the Vancouver Island coast; lower left, Indian parade in village and totem pole with Lord and Lady Willingdon and Captain Jack, Indian Nootka Chief.

A. Y. P. A. Held Very Interesting Debate

A debate of interest to all married men and prospective ones, was held by the A. Y. P. A. of Anyox, on Thursday evening, December 6th. the resolution being, "Resolved that the state of batchelorhood is more blessed than that of matrimony." Rev. A. Abraham upheld the affirmative, while Ted Kergin was for the negative. The debate was held along parliamentary lines with Miss D. Plumb acting as Speaker of the House.

The affirmative based his argument on the fact that a bachelor can go where he likes, do what he likes, and also eat what he likes. He also lives a very unselfish life, in that he is able to give more to society. It is true that the greatest men in the world have been bachelors as they have more time for study and for the helping of others.

The negative side maintained that it is the law of nature, for man to seek a life partner. He further pointed out that a married man lives longer than a bachelor does, due to the fact, that he enjoys well-cooked meals, is given the best of care for the least ailment, and his "better half" does not permit him to indulge too strongly in those recreations harmful to him. It is also true, that a married man lives a life of usefulness to mankind, in that he is assisting to raise the new generation and so his state is better than that of the batchelor's who leads a very lonesome life.

On a vote being taken, the resolution was defeated by a large majority.

Standing of Teams In Anyox Billiard League

In the Senior Billiard League three teams are taking part; viz, Elks, Mechanics and Mine. These teams are running a neck and neck race, first one forging ahead and then another, the games being most interesting. The standing as at Monday December 10th. was as follows:

	Games	Points
Mine	14	9275
Mechanics	14	9233
Elks	14	9208

Keen interest is also being taken in the Junior League, the standing of which at the date mentioned was:

Mine	14	7025
Elks	14	6862
Mechanics	14	6447

SPLENDOR SINE OCCASU

The Minerals of British Columbia

This Province offers excellent opportunities for useful and profitable investment. British Columbia has produced OVER $1,352,000,000 WORTH OF MINERALS.

The gross value of mineral production for the six months ended June 30th. 1934, exclusive of gold premium, is estimated at $18,667,691.00, an increase of 50.5 per cent. over the estimated value of the production in the corresponding six-month period of 1933.

GOLD PRODUCTION: Gold production showed a decided increase; a total return in Canadian funds to the gold producers of British Columbia during the first six months for 1934 being approximately $5,028,124.00, an increase of 81.3 per cent. over the return in Canadian funds received during the first half of 1933.

Recent Publications of the Department of Mines

Foreign Copper Producers May Curtail Production

Continued from page 1

New York about the middle of January.

The purpose of a meeting it was said, would be to discuss curtailment of copper production outside of the United States. Representatives of Canadian, South African and South American copper producers are expected to attend.

If foreign producers should decide to drastically curtail production, it would undoubtedly lead to higher prices, which would probably lengthen the life of Anyox mines, as a lower grade ore could perhaps be profitably mined.

Coming Events In Anyox

Wednesday, December 19th.—Oddfellows, Lodge Christmas Tree, Oddfellows' Hall.

Work Rushed Premier Power Plant

The Stewart News

Working three shifts, the excavation work for the power plant at Premier is nearing completion, according to advices received by the News yesterday.

That no time is being lost in replacing the power lost as a result of the fire is evidenced by the fact that the first shipment of structural steel for the new power house is expected to arrive on the next Coastwise Steamship & Barge Company freighter. On arrival this will be transported immediately to the new building site

It is understood that all machinery, consisting of three 630 h. p. Diesel engines, accessories and all necessary electrical equipment, has been ordered, also a new water-wheel to replace the one developing 500 h. p. destroyed by the fire.

The Tacoma smelter of the American Smelting & Refining Company will receive a second shipment of gold and silver ore from Russian mines in mid-December, according to W. H. Kahler of New York and S. Riaz of Moscow, agents of the Russian Amtorg Trading Company. The first shipment amounted to 5,900 tons and the second will amount to 10,000 tons.

Premier Gold Mining Company will pay its regular quarterly dividend of 3 cents on January 5th. to shareholders on record December 14th.

"How is it," asks a writer, "that widows always seem to marry again?"

It would be unkind to put forward the theory that it is because dead men tell no tales.
