Crowded House Enjoy Fine Concert By Choral Society

The members of the Anyox Choral Society created an enviable reputation for themselves on Thursday, April 30th when they staged their closing concert of the season at the Recreation Hall before an audience that crowded the hall to the doors.

Every item on the programme was admirably rendered and the large audience showed their appreciation by loud applause and demands for encores.

The programme opened with a part song "Hail Smiling Morn" sung by the whole Choir, and this number was well received by the large audience, although it was evident that the singers were a little nervous at first, but they very quickly recovered.

The second number was a duet entitled "Stars Brightly Shining," by Mesdames Plumb and McMillan who sang very well indeed, and earned a round of applause for their efforts. Mrs. Redman being the accompanist for this tuneful duet.

A special number, one of the brightest items on the programme was a solo by Mrs. F. Allen of Prince Rupert, who was a visitor to the town during the week, and accepted the invitation to sing at the concert. Mrs. Allen has a very pleasing voice and her song "A May Morning" received such hearty applause that she was obliged to give an encore.

Another pleasing number was the rendition of the "Cradle Song" by the Ladies' Chorus.

The feature of the evening was, of course, the Operetta, "Penitent Pirates," and the brilliant manner in which this operetta was put on, showed that it must have taken a considerable amount of work on the part of the members of the Choral Society, to make it the success they did.

Mrs. J. L. Anderson, as leading lady in the role of "Marguerite the Optimist" was excellent and her voice was heard to advantage in the various songs. Miss Mary Dodsworth, as "Peggy the Pessimist" was also a great success, and her part was brilliantly carried out. William Pinckney, as the leading man in the character of the pirate chief, "General Henry" was

Celts Defeat Smelter In First Football Game Of League

Who offended the weather man? He provided atrocious conditions for the opening clash between the Celts and Smelter on Tuesday the 5th. Special medals for bravery are being prepared for the gallant players, referee, linesmen, managers, and a handful of spectators whom apparently nothing will squash. Yet in spite of an evil wind, lowering clouds, bog holes, and a heavy, slippery ball the game was a good one. Smelter's defeat was somewhat unfortunate for them, as they played one man short. They put up a valiant fight and made their opponents "go some" to win. For the Celts, George Allen notched two goals, McColl one and Doug McConnachie one, while Jack Buntain and Tom Buchanan scored one each for the Smelter. Jim Ferguson handled the game very satisfactorily. George Hunter took a header into a convenient swimming pool, but apart from this most of the players managed to keep fairly dry, and the game was otherwise clean throughout.

Tennis Tournament Will Be Played Tomorrow

The tennis tournament will start at 9.30 a.m. tomorrow (Sunday). A large number of entries having been received it will be necessary for everybody to be on hand early to get through the number of games in good time. The Club House has been decorated inside and a new cupboard installed, and many improvements have been made to make the place like a Club House should be. Given fine weather, the tennis enthusiasts should have a very enjoyable day tomorrow.

Alice Arm Notes

Mrs. H. Nucich, P. Williamson and J. McDiarmid left on Monday for Prince Rupert. They have been summoned for duty as petit jurors for the spring session of the Supreme Court Assizes.

Neil Forbes, who has spent the winter here left on Wednesday for the Taku Country. He will spend the summer there developing his mineral claims adjacent to the Taku river on which persistent gold values occur over a large area.

Anyox Gardeners Are Beautifying Grounds

A walk around Anyox reveals the fact that many gardens will be cultivated this year, School Street promising to be very brilliant. Many gardens not previously cultivated are in very good shape.

James Murdoch, whose garden was very beautiful last year, has something up his sleeve this season, and it is probable that before long many people will walk up the Mine Road, specially to see this fine display.

Mr. Ashmore's large garden is also receiving attention, and promises to be as attractive as in previous years.

The consignment of plants received at the Granby Stores were quickly snapped up by local gardeners.

In the Beach area, many of the gardens are very tidy, and neat beds have been set out for flowers. We hope the gardeners will get results from their splendid efforts towards a brighter Anyox.

In regard to sport, it was noticed that the Ball Ground is in fine shape. Both goals have been receiving the attention of carpenters, while the dressing rooms and walks to the ground have also been attended to.

ANYOX NOTES

Laughlin Gillies arrived on Monday from Vancouver.

A. E. Rolston arrived in town on Monday from the south.

T. J. Shenton, mining inspector, arrived on Monday from Prince Rupert.

Elks, Presents the
MUSICAL COMEDY

"The Beauty Shop"

Thursday, Friday, May 14-15th.

RECREATION HALL

The biggest thing of its kind ever attempted here, featuring a cast of forty local artists.

GENERAL ADMISSION
\$1.00

Curtain Rises 8.15 p.m.

Dress Rehearsal Of The "Beauty Shop" Will Be Given

If many days and nights of hard work, an abundance of pep and enthusiasm, and a determination to do things right mean anything, then the forthcoming production of "The Beauty Shop" should be an overwhelming success. Members of this large cast and chorus of more than fifty ladies and gentlemen may be heard any day between the hours of noon and midnight going through their paces in the Elks' Hall and those in charge promise the public the most pretentious and most pleasing affair of the kind ever attempted in Anyox.

After witnessing some of the rehearsals recently, a prominent citizen was heard to remark that if every song, every dance, the chorus with their fetching costumes and color were eliminated it would still be a "whale of a show" inasmuch as the clever lines and dialogue are alone sufficient to provide a wonderful evening's entertainment. But with a real "Beauty Chorus," hundreds of costumes, many charming singing and dancing numbers, patrons may be assured of something far out of the ordinary in local theatricals.

On Wednesday evening a preliminary performance will be given in the nature of a dress rehearsal at which tickets will be sold to all school pupils at a price of twenty-five cents. A complete performance will be given starting at seven-thirty.

Thanks Given by Christ Church W. A. & Guild

The officers and members of the above Guild wish to sincerely thank their many friends who so generously contributed to their Sale of Aprons, Home cooking and Afternoon Tea recently held in the Parish Room. Needless to say, the affair was an unbounded success in every department. Mrs. T. Pinckney, Mrs. J. McMillan and Mrs. Cormier added greatly to the afternoon's enjoyment by the rendering of musical numbers.

In our last week's report of the Christ Church Variety Concert, the names of Mrs. McMillan and Mrs. McKay were omitted. Both these ladies acted as accompanists and a large part of the success of the concert was due to their efforts.

Alice Arm Prospectors Call a Meeting To Redress Wrongs

A public meeting was held at the old Bank Building on Thursday evening. It was called by a number of prospectors of the town for the purpose of criticizing the method of work done here by the Public Works Department, and also the small amount of employment given to prospectors.

M. Peterson was appointed Chairman of the meeting and A. D. Yorke acted as secretary. The building was filled to capacity.

In opening the meeting the Chairman made a few remarks stating that dissatisfaction had prevailed for some time among the prospectors of the town. They felt that as pioneers of the district they had not been fairly dealt with when men were hired for work undertaken by the government.

He stated that a petition would be laid on the secretary's table for anyone to sign, if they felt inclined after it had been read.

The petition, which was addressed to the Department of Public Works, Victoria, and was somewhat lengthy, was then read.

It stated that it was the general opinion of the prospectors of Alice Arm that it was unnecessary to spend any further money in the town of Alice Arm. That the money to be expended would benefit the government to a greater extent if it was spent on road work in the Upper Kitsault Country, where several potential mines were partly developed. It also stated that the prospectors of the district were not given a fair share of government work, those employed being a small circle.

An investigation of work done was also asked for.

The petition was then laid on the table for signatures, following which the Chairman stated discussion would be undertaken.

It was proposed from the floor that discussion be undertaken before the petition was signed. The Chairman, however, stated that anyone wishing to discuss it could do so after the signatures had been completed.

Following the signing, the meeting closed as discussion then seemed futile.

Arrivals on Monday from Prince Rupert included E. Stone, C. H. Hosking, C. Elleson, W. Guire.

The Truth About Silver

Reprinted from the Mining and Industrial Record

"The stabilization and remonetization of silver has been the subject of much discussion in the West for many months, and the advantages which would result from such action have been stressed. These are evident to all who live in the silver producing and silver using countries. The advent of even 50 cent silver is apparent to British Columbia.

"Can it be done? The answer to this question is in the affirmative. It could. By international agreement, only. But when the question is—Will it be done? Or shall it be done? the answer is not so decisive.

"As a mild tonic to our Western optimism, we quote here a recent opinion of the Northern Miner, of Toronto, which is not without interest. The Northern Miner says:

"We would like to see 50 cent silver, for the sake of our Canadian operators in that metal. We would be glad to have our northern miners in the silver camps working full time and the old line companies making money for shareholders. But there is no use in trying to dodge the truth. The outlook for improvement in the price is slim. What about the various conferences the nostrums and remedies proposed in recent months? American producers have interested Washington authorities and the latter have canvassed the possibility of getting the support of Great Britain to a scheme whereby the sale of Indian silver would be restricted; in fact, she attempt proposed was to interest all the principal silver using countries in stabilizing the price.

"There will be no conference, Great Britain will not agree to one, for the simple reason that she faces the facts. Even if the nations did confer, nothing would come of it.

"The blunt truth is that the British Empire is a buyer of silver and United States is a seller. It is not to the interest of the former to listen to the selling talk of the latter. India is the British Empire unit which is most concerned and India is anxious to maintain a free market on this metal. The wealth of the great bulk of the population of India is in the form of silver and strange as it may appear to a producer, the natives of that country have no objection at all to receiving two pieces of silver where they took in one before.

"It is not possible for stabilization or any other measure to break down in the mind of eastern peoples the inbred belief that silver is valuable.

Actually, the abundance and cheapness of the metal in the east has increased business, particularly imports. A higher price would have the unexpected and perhaps

Prospector's Don't Take Losses Seriously

Suicide of an Oklahoma publisher who lost his fortune in Wall Street calls attention to the statement before a Senate sub committee that 2100 suicides from this cause have been reported by a single insurance company in the year following the panic of 1929. Which leads us to this question, asked not in idle curiosity: Has any reader ever heard of a suicide caused by loss in a legitimate prospecting enterprise that failed to find ore?—Mining Truth, Spokane.

Fifteen thousand two-year old fir trees from the Government's nursery at Vancouver were recently planted on logged off land, near Campbell River, where a thousand acres have been reserved for reforestation.

Vernon and District Prospectors' Association has been formed as a branch of the B. C. Chamber of Mines to assist prospectors in the Vernon district. H. J. Fallow is president and A. A. Dennys, secretary-treasurer.

The provincial government is seeking a reduction in the price of beer from \$16.50 to \$15.00 per barrel. This would mean a saving of \$250,000 annually.

Lawyer—"Don't you think you are straining a point in your explanation?"

Witness—"Maybe, I am, but you often have to strain things to make them clear."

"Don't you love the sweet moan of the saxophonist?"

"I'd rather hear his death-rattle."

unreasonable effect of cutting off imports, thus hurting world trade. Why should Great Britain prejudice her interest in this way?

"India considers that silver is selling at a bargain and so does China. In spite of the fact that India has gone on the gold basis and, owing to the low price of silver, much of the coinage of the country is being turned into bullion, her imports of the metal have gone up thirty per cent in a year. It is plain that the people like it at current quotations.

Governor-General Settling Down at Ottawa

Ottawa, May 2; (Special to the Herald). The Governor-General of Canada is rapidly becoming acclimatized in his new home and has already been made a regular member of the Canadian Legion, patron of the Red Cross Society, Honorary Chief of the Boy Scouts, and patron of numerous other societies. Her Excellency the Countess of Bessborough, is an honorary regent of the Imperial Order of the Daughters of the Empire as well as vice-president of the Canadian Red Cross Society.

Here and There

Production of newsprint paper in Canada in 1930 totalled about 2,500,000 tons, a production considerably greater than that of any other country.

Canada will have a large and attractive exhibit at the Buenos Aires Exhibition, March 14 to April 27. Canadian manufacturers will also be exhibiting their products in the Canadian section.

Hotel accommodation in the Prairie Provinces, according to the latest computation, is arrived at as follows:—In Manitoba, 285 hotels; in Saskatchewan, 400; and in Alberta, 419.

Portugal is the latest recruit to the forthcoming World's Grain Exhibition and Conference to be held in Regina in the summer of 1932. Eleven other countries have so far notified their intention to show.

Oil production in Alberta is decidedly on the upgrade, according to provincial government figures recently compiled. Total output in 1930 was 1,433,844 barrels compared with 999,152 in 1929.

Placement of 1,600,000 salmon fry and 1,000,000 trout has been made throughout different sections of Nova Scotia, a generous percentage of which went to the brooks and streams of Annapolis Valley.

Life, fire, accident and other insurance companies collected a total of \$10,366,636 in annual premiums on policies in force in Nova Scotia during the past fiscal year. This represents an increase of nearly \$1,000,000 over the previous year.

A combination of high speed at sea, special rail facilities at Quebec—including a tunnel under the famous battlefields—and special trains to New York and Chicago will shorten the time between London and most Canadian and United States cities by from one and a half to two days.

Freight transportation requirements of the United States are equivalent to hauling 400 billion tons one mile every year and there is no other instrumentality that can handle more than 20 per cent. of these requirements, it was stated recently in an address in New York City.

C. B. Andrews, of Winnipeg, has been appointed district passenger agent at Saint John, N.B. in succession to George S. Beer. Mr. Andrews joined Canadian Pacific service in 1910 and has worked his way up from a clerkship in the superintendent's office at Souris, Manitoba.

Co-operative associations in Canada numbered 1,095 in 1930 with a total membership of 690,685. In 1929 there were 936 of these organizations which reported 512,835 members. They include grain growers, dairy farmers and fruit and vegetable growers in the eastern provinces.

Enrollment in the Saskatchewan Government's correspondence school has now passed the 5,000 mark, according to information received from the office of Premier J. T. M. Anderson, Minister of Education. Applications are still coming in, as many as 43 being received in one day, and up to the present the department has been able to handle all applications.

Parliamentary Business Is Piling Up Ottawa

Ottawa, May 2; (Special to the Herald). Conclusion of the debate on the Speech from the Throne witnessed an unprecedented accumulation of parliamentary business.

No less than 44 pages of the order paper were filled with 233 question direction to the government. There were another 106 notices of motion for production of papers and dozens of other notices of private members.

All these things have to stand until the Throne Speech debate is ended. In addition a large volume of government legislation is ready for consideration, including the estimates.

Interest, however, has mainly turned to the approaching budget. In its tariff charges and probable departures in taxation it is expected to prove the most far reaching presentation of recent years.

"I thought you said you were going away for a holiday?"
"Yes, but I was let off with a fine."

Manitoba Mines Now Marketing Metals

Winnipeg, Man., May 2; (Special to the Herald). A 23-car train was necessary to carry the largest shipment on record of made-in-Canada electrolytic zinc which is on its way from a large smelting plant in Northern Manitoba to London and Hamburg. The train carried the shipment to Halifax. Fifteen cars were billed to London and the remainder to Hamburg. Since the first shipment left the smelting plant at Flin Flon last November, no less than 247 cars of blister copper and zinc have been shipped. Of this total 99 cars have been blister copper, and 148 have been zinc. Most of the shipments have been consigned to eastern Canada centres and to the United States.

Domestic consumption in 1929 was about 46,000 tons of lead and 32,000 tons of zinc, which is far below the output. Canada roughly produces four times as much lead and three times as much zinc as it consumes. Production is on the eve of increase.

The Musical Crusaders at Work

Judging by the letters being received, countless thousands of Canadians and dwellers in the United States tune in every Sunday afternoon to hear the Musical Crusaders of the Canadian Pacific Steamship Company in their descriptive program based on the Empress of Australia's round-the-world cruise. The above illustration shows the Crusaders at work under the leadership of Alfred Heather. They are in the newly fitted out radio studios CPRY at the Royal York Hotel, Toronto. These studios are among the finest in North America being equipped with the very latest devices developed for perfect broadcasting. There are two of these studios in the Royal York and from them, week by week, programs are broadcast throughout the length and breadth of Canada over the Canadian Pacific Railway Company's telegraph wires and chain of broadcasting stations.

Crowded House Enjoy Fine Concert By Choral Society

Continued from Page 1

outstanding among the men, but he was closely pressed for honors by some of the other players, to go into full details, however, would take up a lot of space, but one must say that it was a good opera, with each member of the cast acting splendidly in the various roles called for.

Special mention must be made of Mr. Ray Roberts and Mr. Redman. Mr. Roberts, as director of the play, carried a big responsibility, but in addition to these heavy duties he also painted the excellent scenery for the second act of the show. Mr. Redman, a musical director, found his hands full, but on top of his strenuous task, it was found that suitable orchestration of the songs could not be obtained so he went ahead and wrote them out for the local orchestra, a task of no mean proportion. The local orchestra did full justice to the orchestrations, and proved that Mr. Redman has considerable musical ability in writing the various instrumental parts.

The local Orchestra composed of Mrs. J. McMillan, Miss Wilma Powell, Messrs. Stuart Steele, E. Ross Oatman, Sid Armstrong and P. Powell entertained the very appreciative audience with a musical selection in the first half of the programme as well as during the changing of acts.

The ladies had extra work to do making the costumes, in which they were very ably assisted by Mrs. Dunn and Mrs. Salmon who also made the extra costumes required by the men. The dresses of the ladies were colorful and blended well, while the men were attired as very fierce looking pirates.

Behind the stage Mr. Roberts was capably assisted by Messrs. J. Plumb, Jim Barclay and Frank Kent and all carried out the changing of scenery very efficiently.

Mrs. J. McMillan, who has worked very hard as accompanist for the Choral Society, played in her usual fine style.

Messrs. J. Dunn and W. E. Barclay, assisted by two of the local Boy Scouts, at the door had a difficult task in coping with the crowd that attended this very successful Concert, and were very efficient in this direction. The Choral Society take this opportunity to thank everybody who helped in any way to put this show over so big.

Athletic Association Hold Card Party

A very enjoyable card party was held at the New Club House on Saturday evening by the Alice Arm Athletic Association.

Six tables of bridge were played. T. W. Falconer succeeded in winning the men's first prize, and J. Larson secured the consolation prize.

The ladies' first prize was won by Neil Forbes, who, owing to the shortage of ladies was playing a female part, and Mrs. C. Ripley won the ladies' low score prize.

Appetising refreshments were supplied by the ladies.

Mr. and Mrs. Morton Enjoy Life in Rhodesia

In a recent letter to Anyox friends, Mrs. Archie Morton writes from Northern Rhodesia telling of the wonderful gardens cultivated in the Nkana Mine District. Prizes were awarded for the best gardens, and Mrs. Morton was successful in winning second prize for her beautiful garden. The Herald congratulates Mrs. Morton on this achievement accomplished in so short a time. In addition to her gardening success, Mrs. Morton was awarded prizes on two occasions at fancy dress dances held at Nkana, both being first prizes.

Shoe Department

New Shoes for Old

Don't be too proud to have your Hurlbut's rebuilt at factory.

They will come back to you about like new.

They will be enlarged a size to keep pace with the growing feet.

HARDWARE DEPARTMENT

Be on time. Use an Alarm Clock. We have the Big Ben Family Alarm Clocks ranging in price from \$2.00 up to \$5.50.

MEN'S DEPARTMENT

-- Combination Underwear --

Men's Merino combinations made with short sleeves and ankle length. The ideal garment for present wear. Made in Sizes 36, 38 and 40. Price \$1.25. Only 24 pairs Black Denim Working Pants in size 40. Slightly soiled. Regular price \$2.00. Sale Price \$1.00 per pair.

DRUG DEPARTMENT

-- Cedar Naptha Flakes --

The odor from cedar wood drives moths away. The vaporization of naphtha kills both moths and their larvae. By the use of both in a combined form, you get complete protection from the depredations of these vicious insects. Use Cedar-Naptha freely in those clothes which you intend to lay away.
