Tiger Property to be Developed. Adjoins Toric

Has Big Ledges of High Grade

The Tiger property, which is considered one of the most promising silver properties in the Alice Arm district, will be further developed this year by Mr. Ed. Pickett, the owner, who arrived on Thursday from California for this purpose.

The Tiger joins the Toric on the north. It has had considerable development in the past, and with extremely gratifying results.

The ore ledge ranges up to twenty feet in width, and has a length of about 600 feet. It has a north and south strike, and dips west to the Kitsault River. Surface work consists of eight open cuts on the ledge. The first work this year will consist of stripping the ledge where it encounters the rock slide on the south towards the Toric. The ledge at this point was 20 feet wide, shown by the open cut on the edge of the heavy wash.

The Tiger was bonded in 1919 to Henry B. Price of Victoria, for \$140,000, who did some shallow diamond drilling on the north part of the ledge, which proved that the Tiger possesses high grade silver ore bodies, of considerable magnitude, at a depth of over 100 feet.

A tunnel 140 feet in length, with a vertical depth of 142 feet was also driven, which showed the ore ledge to be 18 feet wide, 6 feet of which ran high in silver values. This tunnel will probably be extended this year in order to encounter the high grade ore located by the diamond drill, 5 feet of which assayed 213 ozs. silver per ton.

Owing to the sudden drop in the price of silver, and the general inactivity of mining throughout the province, the bond on the Tiger was allowed to lapse, and since that time no work has been done.

It is the opinion, however, of Mr. Pickett, after making a careful survey of mining conditions throughout the continent, that the time is ripe for developing this promising property, and prove conclusively that the Tiger has high grade ore in quantities large enough to satisfy any mining company who are seeking new properties.

The Tiger is centrally located in the rich mineral zone of the upper Kitsault country. It joins the Toric on the north, whose wonderful ore discoveries are making such a sensation. On the south it joins The Three Muskateers, which was sold in 1910 to A. D. Meenack for \$75,000.

It is situated only about 1 1/2 miles from the end of the Dolly Varden railway, so that transportation problems will be negligible.

Mr. Pickett, since leaving here over four years ago, has been in-

LaRose Co. Ready to Start Tunnel

Mr. J. M. Morrison, who returned to Alice Arm on Tuesday from Stewart and Anyox, where he was successful in disposing of considerable stock of the LaRose Mining Co., states that everything is now in readiness for the driving of the tunnel on the LaRose property. There are ample funds in the treasury for the undertaking of this work, and a commencement is planned on or before June 1st.

It is estimated that a tunnel 400 feet long will be necessary in order to strike the ore at depth. A contract for this work will be let immediately to local men.

Anyox Scouts Camp at Larcom Island

On May 9th. and 10th. the Anyox No. 2 troop spent an enjoyable week-end in camp on Larcom Island. The weather being ideal the time was profitably spent in scouting and swimming. Three scouts were successful in second class tests, namely: Scout Harris of the Eagles, Scout Dwyer of the Wolves, and Scout McMillan of the Bulldogs, the tests including fire fighting, cooking, first-aid, signalling and compass.

The scouts, who slept out in the open, voted for outdoor sleeping all the time and declared that they were not the least bit cold. Arriving home at about 7.30 Sunday evening all were pleasantly tired, ready for a good night's sleep and in the pink of condition.

Another Big Log Boom Leaves For South

A tugboat arrived in port on Monday and towed out 1,500,000 feet b.m. of logs from the booms of Eric Carlson. These logs are destined for Ocean Falls, and will be anchored at Green Inlet while the tug returns for another boom on the 18th. The next boom will comprise 1,000,000 feet for Prince Rupert, and about 850,000 ft. for Ocean Falls.

Baseball on Twenty-first

The baseballers will get under way the twenty-first of this month. The Mine and Elks will be the attraction.

interested in mining, and has visited most of the camps of the western states since that time. In no place he has visited has he seen such large ore bodies of silver ore, and such a promising mineral belt as the upper Kitsault country, especially the portion extending from the Dolly Varden to the Moose, and predicts that this camp will shortly be the scene of great activity, and Alice Arm will then take her place as the leading mining camp of northern B. C.

Kitsault River Mining Co. Hold Meeting

Will Develop Soon as Possible

The regular statutory meeting of the Kitsault River Mining and Development Co., Ltd. was held on Friday evening, May 8th. at their office. A fairly large number of shareholders were present. The financial position of the company was shown to be in a very healthy state, and the future outlook of the company appears very bright. Mr. A. D. Yorke was appointed secretary to the company.

It is the intention of the company to commence active development work as soon as the snow is off the ground and supplies freighted in. Mr. O. Flint plans to visit the property in the near future, to ascertain conditions in the upper Kitsault country.

Mr. Elmer Ness will leave for the south on Monday, in connection with company business. He will visit the chief southern towns, and will probably extend his visit to Spokane.

Alice Arm Beer Parlor Opened on Thursday

The beer parlor of the Pioneer Hotel, operated by N. Sutilovich, was opened to the public on Thursday evening, who quickly availed themselves of the opportunity to indulge in a glass of beer at a nominal price. The general opinion was that the beer was good. Service was first class, and that such a place will fill a long felt want. The parlor is provided with tables and chairs, and ample accommodation has been provided to cope with any rush that may occur during the hot weather period.

Forthcoming Events

A dance will be held at the Alice Arm Hotel on Saturday May 23rd. by a party from Anyox, who will bring over their orchestra. The Townsfolk are invited to attend.

The Anyox Lodge B. P. O. Elks will conduct an excursion to Alice Arm on Sunday May 24th. and a number will stay over until the following day.

Members of the Anyox Lodge Loyal Order of Moose will pay us a visit on May 31st. They will hold a Lodge meeting in the afternoon. They hope to bring over the Anyox Band and enliven the day with some of the high class music for which the band is famous.

Builds Trestle at Toric

Messrs. T. Tavener, J. Fiva and P. Johnson, returned on Thursday from the Toric Mine, where they have constructed a trestle, which will be used for dumping waste from the mine.

Two Old Timers Back In Alice Arm

Al Miner, who is numbered among the earliest residents of Alice Arm, returned on Thursday from California, where he has spent the past four or five years. Al. is one of the successful pioneers of the camp, who was instrumental in placing Alice Arm on the map. He was the locator and part owner of the "Three Musketeers," which joins the Tiger on the north, and which was sold to A. D. Meenack in 1919 for \$75,000. Al. also owns a quarter interest in the Toric mine.

Ed. Pickett, who is another of the pioneer prospectors of the camp, arrived on Thursday from California, where he has resided since his departure four and a half years ago. Ed. is the owner of the Tiger property, which joins the Toric on the north, and which is considered one of the most promising properties in the whole Alice Arm district. He states that mining is in an extremely healthy state throughout the southern states, and is confident that the time is ripe for a revival of mining activity on a large scale in this district. He intends to do considerable development on the Tiger this year.

Granby Co. to Commence Development of Standard Next Week

It is understood that the Granby Co. will commence active development work on the Standard property on McGrath mountain next week. The original plans called for surface stripping of the ore bodies, to be followed by diamond drilling, and it is probable that this policy will be carried out. The first work to be done, however, will be repairing the trail and providing accommodation for employees.

ANYOX NOTES

Mrs. Stevens, accompanied by her daughter Mabel, left on Monday on an extended visit to Vancouver.

Mr. and Mrs. Chas. Bocking arrived in town on Monday from Vancouver.

Mr. L. F. Champion left for Vancouver on Monday, on a business trip.

Mr. Leslie Brown was a passenger south on Thursday for Vancouver.

Mr. Albert Gigot left on Thursday, via Vancouver for Copper Mountain.

Mr. A. Halferdahl of the Concentrator staff, left for Copper Mountain on Thursday.

Tennis Club Open the Season With a Tournament

The Anyox Tennis Club celebrated the opening of the tennis season on Sunday, May 10th., by holding a Progressive Mixed Doubles Tournament. Twelve couples took part in this event, each playing eleven games during the day. The brand of tennis displayed was surprisingly good for the beginning of the season, and when tennis arms are thoroughly limbered up, there is every indication that a high standard of play will be general throughout the Club.

Suitable prizes were presented to the successful contestants by Mrs. L. F. Champion, the winners being Mrs. H. Speight, with the possible score of 176 points, and Mr. F. C. Townshend, with 174.

The Club expect to hold another tournament on May 24th. This will be in the form of Mixed Doubles Handicap Tournament, and further details will be posted on the Bulletin at the Courts.

Smelter Football Team Outplay Beach

The Smelter were victorious over the Beach in Tuesday evening's football match by five goals to one. The winners had the game well in hand right from the start by virtue of superior combination. Archie Dewar scored three goals and Powell two. Dewar was the outstanding star of the evening, being on top of every play. Ray Ingram notched the lone counter for the losers. Stevens, full back for the Beach was forced out early in the game through injuries.

The Teams were: Beach: Hunter, goal; full backs, Stevens, Roberts; halfbacks, Taylor, Lavery. Brown; forwards, Ellison, Wilson, Dodd, Ingram and Crags.

Smelter: Leak, goal; Kirkland, Woodrow, McLeod, Buntain, Campbell, Mathews, S. Armstrong, Dewar, Powell, Kirkland.

Henry Ford has just signed an advertising appropriation which calls for the expenditure within a year of \$6,000,000. William Wrigley, the chewing gum manufacturer, spent last year \$3,500,000 for advertising, while there was spent in 1913 in magazine advertising alone—to say nothing of the much larger amount spent in newspapers—the following amounts by representative concerns: Campbell's Soup, \$1,460,350; Colgate & Co., \$1,184,439; Proctor & Gamble \$1,167,550. and Congoleum & Co., \$1,142,450.

It is scarcely necessary to say that these advertisers would not have spent their money if they were not getting results, and the fact that each year their advertising appropriation is larger than the preceding year speaks volumes for the value of advertising.

The lesson is here for anyone who cares to profit by it and it applies not alone to national advertisers but to local advertisers, who, if they are to keep their names before the public and develop their market, must spend money to advertise.

Anyox Mine Football Team Win from Beach

The second game of the football schedule was played Friday evening, bringing together the Mine and Beach teams. The men from the hill were in the best form and turned the Beach back three goals to nil. The Miners were superior at all stages of the game and well deserve to win. The losers, however, have the making of a fine eleven, and when the players get to understand each other's style of play, they will be a hard combination to beat.

The first goal was a gift to the Mine, when Ingram scored one against his own side in an attempt to clear from in front of the goal. Dearlove notched the other two, both from close in, the goalkeeper having no chance. Pynne was a tower of strength on the defence for the winners, always being there when wanted. Jimmie Twaddle, handled the whistle in fine style, giving satisfaction to players and spectators alike.

The Teams were: Mine: Royle, Pynne, S. Stewart, Gilmour, R. Stewart, S. Cane, Hunter, Dearlove, Peters and Jack.

Beach: Hunter, Brown, Lavery, Evans, Taylor, Hogben, Wilson, Stevens, Ellison, Ingram and Craggs.

Lecturer: "Yes, my friends, in China human life is considered of very little value. Indeed, if a wealthy Chinaman is condemned to death he can easily hire another to die for him. In fact, many poor fellows get their living by acting as substitutes."

Granby Co. Fails to Show Profit for Last Year

Depreciation Again Wipes Out Profit

The report of the Granby Consolidated Mining, Smelting and Power company for the year ended December 31, 1924, shows a deficit of \$772,373, after taxes, interest, depreciation and depletion, as compared with a deficit of \$717,287, in 1923.

Granby earned net profits before depreciation, but after interest and all operating charges of \$832,391 in 1924, compared with \$777,326 in 1923, although the average price obtained for copper in 1924 was 13.012 cents a pound against 14.848 in 1923. In every way, 1924 results were the best since the war, stated J. T. Crabbs, president.

The outstanding feature of the year was improvement in the position of the company's net current assets. Bank loans were reduced approximately \$750,000 in 1923, or a total of \$1,400,000 in the last two years. Further reduction has been made since the close of the year, so now, Colonel Crabbs states twice current liabilities.

Betterment in net quick assets has been accomplished concurrently with the completion of a large construction program, involving a storage dam, hydroelectric extension and concentrator, to which approximately \$1,340,000 of earnings have been applied to meet the bulk of the expenditure.

The company mined 928,830 tons of ore from the high-grade reserve. As diamond drill prospecting added 798,000 tons to reserve in 1924, high grade reserves totalled approximately 7,500,000 tons at the end of 1924, averaging 2 per cent. copper, decrease of only 130,830 tons for the year. Diamond drill exploration is to be continued during the coming year.

The Anyox concentrator, which started April, 1924, dressed 251,398 tons of ore averaging 1.535 per cent. copper, capacity having been brought up to 1200 to 1400 tons a day by the end of the year. The concentration ratio was 10.103 tons into 1 and the recovery of 81.396 per cent. of the copper in the feed.

With the completion of the concentrator, storage dam, and hydroelectric extensions, no further large capital expenditures are anticipated.

SYNOPSIS OF LAND ACT AMENDMENTS

PRE-EMPTIONS

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emptions is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 5,000 board feet per acre west of the Coast Range and 8,000 feet per acre east of that Range.

Applications for pre-emptions are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emptions must be occupied for five years and improvements made to value of \$10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

PURCHASE

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price of first-class (arable) land is \$5 per acre, and second-class (grazing) land \$2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

HOMESITE LEASES

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

GRAZING

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free, or partially free, permits are available for settlers, campers and travellers, up to ten head.

Work has Commenced On Porter Idaho

Portland Canal News

Work was started this week on the Porter Idaho, the contractors, Gus. Erickson and O. Cedar, accompanied by Clay Porter, president and managing director, having gone up to the property last Tuesday. They were preceded by several days by three men, who would have the camp in order and the tunnel site cleared of snow by the time the contractors arrived.

The working crew comprises some of the best miners of the camp and fast progress is expected of them in driving the 300-ft. cross-cut tunnel for which the contract calls. The ground is comparatively easy to work.

Later, when it is possible to get pack horses to the property, a second crew will be put to work under Mr. Porter's personal supervision, getting out ore from the existing tunnels and continuing them.

Yukon Telegraph Line Being Abandoned

Replaced With Radio

So far the Dominion Telegraph Service is experimenting with the radio, although the Yukon telegraph line is closed to all business. Every odd number cabin is closed, and this is probably a permanent order. Those remaining open are No's two, four, six and eight. Four of the operators are now on their way out, they being Scotty Ogilvie, Dave Hagerden, Denny Green and W. H. Larmer.

The men left on the line, it is believed, will be able to keep it open in case of emergency, until the experiments have been completed and the government decides which system it will continue in future. Protests against abandoning the old telegraph line have been sent to Ottawa from Hazelton and northern districts.

Alberta's population at the end of 1924 was approximately 640,000, according to an estimate made by the provincial government. This is an increase of 52,000, as compared with 1921, when the last official census was taken. It is also estimated that some 60 per cent. of the province's population is of British origin.

Tomato growers in the Okanagan will receive as high as \$19 a ton for canning tomatoes this year with the minimum size of 1 1/2 inches at this price.

BRITISH COLUMBIA

The Mineral Province of Western Canada

Has produced minerals valued as follows: Placer Gold, \$76,962,203; Lode Gold, \$113,352,655; Silver, \$63,532,655; Lead, \$58,132,661; Copper, \$179,046,508; Zinc, \$27,904,756; Coal and Coke, \$250,968,113; Building Stone, Brick, Cement, \$39,415,234; Miscellaneous Minerals, \$1,408,257; making its mineral production to the end of 1923 show

An Aggregate Value of \$810,722,782

The substantial progress of the Mining Industry in this Province is strikingly exhibited in the following figures, which show the value of production for successive five-year periods: For all years to 1895, inclusive, \$94,547,241; for five years, 1896-1900, \$57,607,967; for five years, 1901-1905, \$96,507,968; for five years, 1906-1910, \$125,534,474; for five years, 1911-1915, \$142,072,603; for five years, 1916-1920, \$189,922,725; for the year 1921, \$28,066,641, and for the year 1923, \$41,304,320.

Production During last ten years, \$350,288,892

Lode-mining has only been in progress for about 33 years, and not 20 per cent of the Province has been even prospected; 300,000 square miles of unexplored mineral bearing land are open for prospecting.

The Mining Laws of this Province are more liberal and the fees lower than those of any other Province in the Dominion, or any Colony in the British Empire.

Mineral locations are granted to discoverers for nominal fees.

Absolute Titles are obtained by developing such properties, security of which is guaranteed by Crown Grants.

Full information, together with Mining Reports and Maps, may be obtained gratis by addressing

THE HON. THE MINISTER OF MINES,
VICTORIA, British Columbia

Anyox Notes

Continued from page 1

Mr. Basil Fitzpatrick was a passenger south on Thursday for Vancouver.

Mr. F. C. O. Hearne of Vancouver arrived in town on the Prince George on Thursday.

Mr. J. Blackburn arrived on Thursday from Vancouver.

Mrs. W. B. Henderson and family left on Monday for a vacation in southern coast cities and the boundary country.

Both the principles in the big wrestling match (the main event at the Mine Smoker Monday night) are in fine shape and rarin' to go. A bumper crowd is expected, so come early and avoid the rush.

Mr. F. E. Gigot arrived from Stewart on the Griffco, Monday morning.

Mr. Dan McInnes sailed for the south on the Cardena last Monday.

HELP WANTED

Girl wanted by general store-keeper at Alice Arm, for book keeping and help in store during spare time. State experience if any, and wages expected. Board and room.—Apply P. O. Box 9 Alice Arm.

FOR SALE

30 ft. cabin boat "Chum," 9 ft. beam. 6-horse power Palmer engine. Both boat and engine in first class condition. Price \$500.00.

Apply to either Theo. Asimus, P.O. Box 323 Anyox, or Bert Scott, Anyox.

ALICE ARM NOTES

See Al. Falconer for Wood, Coal and Lumber.

A. H. Lund, travelling auditor for the government Liquor Board, arrived in town on Thursday and left today for Anyox.

A. McGuire returned on Thursday from Prince Rupert. He will commence logging operations on the Silver City side of the inlet and he brought up a number of men for that purpose.

Gordon Ryder, who left here last fall, returned on Thursday for a short visit. Since leaving here he has been working at the Independence mine, Stewart.

Hand Laundry Work. Moderate prices—Miss B. Crawford, Alice Arm.

Ed. Skoglund left on Thursday for southern points.

J. M. Morrison returned from Stewart on Monday. He left on the same boat for Anyox, returning on Tuesday.

R. F. McGinnis left on Monday for Vancouver.

Tommy Black arrived on Monday from Prince Rupert, after spending the winter in Vancouver and Prince Rupert. He plans to spend the summer here.

Mr. E. J. Conway, mining engineer for the Granby Co., spent a few days in town during the early part of the week.

To celebrate the completion of the Pioneer Hotel, a dance will be held there this evening. A full orchestra will be in attendance, and a good time is assured to everyone. Refreshments will be provided.

N. Sutilovich left last Friday, and returned on Thursday from a trip to Prince Rupert.

R. Gritten, deputy district forester, arrived in town on Monday to investigate the fire hazards of the district during the summer months.

See Al. Falconer for Freight and Pack Horses.

J. Conway, government agent at Anyox, arrived in town on Tuesday on departmental business. He was accompanied by Mr. Smith, the newly appointed constable at Anyox. This was the latter's first visit to our growing town, and he was kept busy getting acquainted with local affairs. They left on Thursday morning for the smelter town.

A Davidson left on Monday for the upper Kitsault country, in order to re-commence development of the Wildcat property. He was accompanied by Ed. Gustafson. It will be necessary to repair the cabin, which was damaged by a falling treetop last fall, before development work can be undertaken.

P. S. Bonny, district forester, with headquarters at Prince Rupert, arrived yesterday, on board the launch Lillian D. This boat was recently built in Prince Rupert at the government drydock. She is 60 feet long, and is a staunch craft, very suitable for the forestry department.

Copper Mountain Railway Is Being Repaired

During the week the steam shovel employed on the Copper Mountain spur completed the work clearing the first cut and made it possible for the work train to take up the timbers for the first bridge. This morning the pile driver was in position to drive the necessary piles. It is manned by the crew by the crew of the steam shovel which will necessarily be out of action until such time as the bridge is completed and it can be moved up to the next cut.

There are now 114 men employed on the work and the accommodation at the camp is somewhat overtaxed. Apart from possible trouble due to the shifty nature of the hillside, which continues to show a tendency to slump on the slightest provocation, the work promises to be completed well within scheduled time.—Princeton Star.

Out in the wilds of the Blue Ridge, Nancy Brown was in the habit of beating up her husband. One day a neighbor rushed into the old man's yard and cried:

"Hurry, Jim! A bear is down in the pasture, and he's caught a-hold of your wife."

Old Jim took a pull on his pipe and said:

"Well, that fool bear got himself into the scrap; he can get out the best he can."

ALICE ARM

Summer in Anyox Has Its Advantages

Both at work and play we appreciate the change from the rigors of winter. Weather conditions demand that we dress differently. Every spare moment is spent in the open air, either boating, fishing, hiking, at the ball game or on the tennis court

The housewife is anxious to brighten the home by perhaps replacing the old window curtains or side windows with a set of new ones. And when one stops to consider the improvement it makes for such a trifling cost, it is well worth while. For instance:

Curtain Net, 3 yards for \$1.00
Cream Madras 50c. and 75c. a yard
Cretannes at 3 yards for \$1.00
Can be had at the Drygoods Department, and while there don't forget to see the Children's Play Suits at 25c. each while they last

DENNISON'S SEALING WAX

"The Policeman of the Package"

All important documents and packages should be sealed with it

We have a grade for every use

Drug Dept.

For sport and outing wear foot comfort is most essential and when one can combine comfort with good looks at a very low figure it is well worth considering.

At the Shoe Department you will find a complete range of such lines of shoes as suggested, and in addition a few lines that will also appeal to the average man or woman.

Men's White Canvas Shoes, with leather soles and heels, specially priced at \$2.75.

With rubber sole and heel, \$2.50

Women's white oxfords, \$2.75

Women's Brown Canvas Outing Shoes rubber sole and heel, \$1.85

Anything that is new or novel in Men's Attire will always find a welcome for sport and outdoor occasions.

Tennis Shirts at \$2.50 and \$3.00

Outing Shirts, \$2.00 to \$2.75

Outing Breeches, extra quality with patent lacing, \$3.75

Golf Hose at \$1.75 and \$1.95

Pullover Jerseys, V-neck, \$2.75

With roll neck, \$3.00

Pullover Sweaters, heavy weight, with shawl collar, \$7.00

Novelty Sweaters, both Pullover and Coat Style, ranging from \$5.25 to \$10.50

Ties of all descriptions, from 50c. to \$2.50

Canadian General Electric Again in the Lead

A new and improved product of this firm is the Special "Hot Point" Iron recently put on the market to retail at \$6.75
