## Awards Presented To H. C. Students At Reception

Closing exercises at the High School took the form of a reception in the Elks' Hall on Friday evening when awards won by the students during the year were presented by leading citizens in the community. Guests of honor were the girls of the public school basketball team to whom Mrs. R. O. Cutler presented the vases offered by the P. T. A. for basketball competition between the schools. The young ladies were: Dora Grigg, (Capt.) Winnie Cameron, Mildred Dresser, Lillian Dresser, Dorothy Waterman, Patricia O'Neill, Marjorie Cloke, Amy MacDonald. Mr. O. G. Macintyre next presented the intermediate basketball cup and medals to the high school boys team which comprised Jack Barolay, John O'Neill Archie MacDougall, Stuart Steele, Russell McMillan, Walter Asimus, Frank Kent. Those receiving awards for tennis were Vera Eve, Kathleen Eve, Faith Cameron, Archie MacDougall, Russell McMillan, Frank Dodsworth, and Stuart Barclay. Rev. J. S. Brayfield next presented the prizes for the Community League Essay Contest to Faith Cameron, Leonard Brown, and Margaret Marriot. Principal Hartley of the Public School paid tribute to the excellent work done by Harold Eld in winning the Canadian History Medal for this inspectorate. Reference was made to the pupils who had won awards offered by the I. O. D. E. These names were previously published. A pleasing feature of the evening was the formality of the supper programme in which the students taking part in the speeches acquitted themselves very creditably. Acting as toastmaster was Archie MacDougall and toasts were offered and responded to by Miss Annie McLachlan, Miss Vera Eve and Miss Kathleen Eve. During a large part of the evening excellent dance music was furnished by the Arcadians Orchestra. The success of the affair is to be largely credited to the committee of students which included Kathleen Eve, Florence Dodsworth, Jean McDonald, Margaret Marriot, Faith Cameron, John Gillies, and Stuart Steele.

## Anyox Baseball and Football Teams' Standing

|              | Plyd. | Won | Lost |

G. N. Morris of Stewart, arrived in town on Tuesday.

## Presentation to Canon W. F. Rushbrook

St. Michael's Church of Alice Arm was filled with a large congregation on Sunday evening. It was a special occasion, it being the farewell visit of Canon W. F. Rushbrook, who has visited the camp during the past 15 years in charge of the mission boat, Northern Cross.

The theme of Canon Rushbrook's sermon was, "Love One Another" and it was very much appreciated.

On Monday evening a number of admirers of Canon Rushbrook gathered at the residence of T. W. Falconer, and presented him with a handsome club bag, inside of which was a purse of money.

The presentation was made by J. A. Anderson, coupled with appropriate remarks.

Canon Rushbrook in reply thanked everyone for their kindness, and recited several instances of the work of the Northern Cross in bringing cheer and comfort to lonely coast residents.

Refreshments were provided by the ladies, and many good-byes brought a pleasant evening to a close.

## School Children's Picnic

The Alice Arm School children were the guests of Mrs. A. Beaudin on Saturday at a picnic held on the flats near the Illiance river. Mrs. Beaudin was assisted by Mrs. F. D. Rice and the school teacher, Mr. Everett Greenaway. They were conveyed to and from the scene of festivities by Mr. G. W. Brugg. A most enjoyable time was spent.

## Inspects Operating Mines

A. Bausson, of the mining section of the Natural Resources Department, Ottawa, has, during the past week inspected the operating mining properties in the Alice Arm district. He leaves today for the south via Stewart.

## Larcom Island Trip Enjoyed

A large number of grown-ups and children enjoyed an all day holiday at Larcom Island on Sunday. The Community League, by courtesy of the Granby Company, provided transportation on the S. S. Granby.

Send your next films direct to Wrathalls Photo Finishing, Prince Rupert, B. C. Our high class photo work and quick returns will please you. Try us.

Save the Forests—It Pays.

## W. H. Moulton to Contest Riding As An Independent

The close of nominations for the coming election found three candidates in the field. H. F. Kerwin, the sitting member was the liberal nominee, while T. W. Falconer was the choice of the conservative party. The third candidate is considered an independent conservative. He is William Herbert Moulton, prospector of Anyox. On his nomination paper appear the names of J. McColl and G. Dodge.

## ANYOX NOTES

B. D. Clegg, after a stay of several days went north on Monday.

Miss Nancy Wilson left on Monday for a month's vacation in the south.

Mrs. Thorsteinsson was an outward bound passenger on Friday's boat. She will be joined at Powell River by her husband who this week is presiding over the Matriculation examinations.

Mrs. McNicholas sailed on the Prince George to spend the summer in the south.

D. M. Sinclair, local bank manager returned from his vacation on Monday. Mr. George Hamilton relieving manager, departed by the same boat.

Mrs. Arscott and her children were passengers on the Catala en route to Great Britain where they will be joined later by Mr. Arscott.

Mrs. E. Armstrong and her children sailed on Monday for a three weeks' vacation.

Theodore Arnold, until recently a member of the assaying staff, left on Friday's boat.

Constable Smith returned from Victoria on Monday.

F. F. Dowling and C. Gardiner arrived from Vancouver on Monday and registered at the Hotel.

Among the arrivals on Monday from the south were: S. W. Walker and Harry Alder of Vancouver, and D. M. Hunter and J. Spitzl of Prince Rupert.

Miss Polly Brisbane, a former resident, has returned to Anyox, and is now head waitress at the Anyox Pioneer Mess.

The Mine Club Dance on Monday night was well attended, those present enjoying a delightful evening.

## Standing of Alice Arm School Pupils

The Alice Arm school closes this morning for the summer holidays, and the children's big wish of the year for two months of freedom from school books is now realized.

Yesterday evening, the children gave a closing entertainment at the school at which refreshments were served. A large number of adults were present to witness the proficiency of the youthful artistes.

Following the school entertainment, a dance was held in T. W. Falconer's Hall, which was well attended by both adults and older children. A full report will be published next week.

Following is the standing of the pupils at the recent examination.

The first figures are number of marks obtained at the recent examination, and the second figures are the average for the year.

Grade 1 junr. Robert Beaudin.

Grade 1. 1st. Helen Anderson; 2nd. Hilda Moss.

Grade 2. Joan Trinder, 62, 70.

Grade 3. Margaret Anderson 69, 69; Marguerite Moss 54, 54.

Grade 5. Barney McGuire 61, 60; Donald Anderson 58 1/2, 62; Ellen Anderson 58, 59; Alma Evindson, 56, 54.

Grade 6. Lillian Moss 72, 71; John McGuire 54, 51.

Grade 7. Emily McGuire 69, 66.

## Kitsault-Eagle Operates Three Camps

The Kitsault-Eagle Silver Mines Ltd. now have three camps operating in the vicinity of McGrath mountain and the north-east fork of the Kitsault river.

In addition to the development work on the Silver Cord, which has been carried on uninterruptedly for two years, they have commenced development work on the Le Roy. This property has some tremendous surface showings of zinc ore and development is expected to prove up a large tonnage.

Development has also been commenced on a portion of the twenty claims recently bonded by the company on McGrath mountain. A total of fifteen men are now being employed.

The new tunnel recently commenced on the Silver Cord has encountered an ore body about four feet wide. The ore is said to be high grade.

Mrs. Cline, (nee Swanson) was an arrival on the Prince Charles on Tuesday.

## Saddle Tramway Will Cut Transportation Costs

P. E. Peterson, consulting engineer for Silver Crest, states that the aerial tramway which is being built to serve the Saddle claims at Hastings Arm will, together with the new compressor, cut operating costs on that property greatly.

"It will be possible to mine at a cost of \$15 a foot instead of \$35 as at present and supplies may be taken to the property on the tram at a cost of 25 cents a ton instead of 10 cents a pound, the price that has been paid to packers," said Mr. Peterson.

A wharf, 100 feet by 14 feet, has been completed, excavation has been made for the lower tramway terminal, the right of way cleared and cable is now being strung, the engineer reported. The B. C. Equipment Co. is handling the tramway contract.

The tram is a double jig-back 8400 feet long, suspended on ten steel towers. The interesting feature, and one very creditable to British Columbia industry, is that it was designed and built by British Columbia labor on Granville Island, Vancouver. The cable was made of British steel wound on Granville Island.

## Ore Samples Will be Taken Care Of

Ore samples brought into town to form a part of the display for the Vancouver exhibition which commences on August 8th. can be left at G. W. Brugg's old store building. The samples will be packed and shipped not later than August 1st. Bring in your samples as soon as possible. An even better display is required this year so that the big challenge shield can be won. If this is done it becomes the property of the North-western District, it having then been won three times.

## Invitations Issued for Tennis Tournament

Invitations have been extended by the Anyox Tennis Club to the Clubs at the Mine and Alice Arm to take part in the Club Tournament on Sunday July 1st.

The courts have been stained a pleasing green and higher and more substantial umpire stands have been erected.

## Bush Fire Near Anyox

The summer season again finds the sky overcast with a dense smoke cloud. A gang of men have been fighting a fair-sized fire in the neighbourhood of Bonanza Creek.

Put out your matches and save the forests.

## ANYOX

## PUBLIC MEETINGS

## ALICE ARM

T. F. Baxter of Vancouver will address meetings next week, in support of T. W. Falconer, Conservative Candidate, as follows: Anyox Mine, Tuesday night. Anyox Beach, Wednesday night, and at the Coliseum, Alice Arm on Thursday night.

EVERYONE INVITED TO ATTEND

Cecil Rhodes was one of the financial geniuses of modern times. The following expresses his view on mining investment:

"Mining has been the foundation of the world's wealth from the beginning of time. The governments rich in mineral, have always been the richest and strongest governments on the earth. The man who produces gold, silver, lead and copper is creating the raw material of wealth; every stroke of his pick every echo from his drill, adds to the wealth of everyman's business in the world. Mining has always been the quick road to fortune. A country of great mines always becomes a country of great wealth, influence and power, and what you can say for nations you can say for men.

"I believe investing money in good mining stock is the most profitable of investments, and very much the safest. And why safest? Because your security is the ore itself--the raw material of money. The security for your money in a good mining company is the money itself, actual money."

The poets have done well by June. The subject supplies inspiration enough for any rhymester to do his best.

If June is ordinarily well behaved it deserves all that the great and little poets have sung about it. Occasionally the month shows a rebellious spirit, but so rarely is this true that the exceptions may be taken to prove the poet's rule of blessedness and praise for June.

Nature perfects herself in the sixth month of the year. Perhaps some people will hold that nature's perfection comes at the harvest season which falls well forward into the hazy days. There is, however, a harvest of flowers as well as of fruits and grains, and the abundance of blossoms comes in June along with brides, girl graduates and other things pleasant to look upon.

### P. G. E. Outcome Looks Favorable

Questioned in the House of Commons in regard to taking over the P. G. E. Railway by the C. N. R. the minister of railways said "no agreement regarding the P. G. E. could be consummated without the approval of Parliament."

Mr. Dunning said the negotiations were progressing satisfactorily but beyond this he could not go. It was always possible to have an operating agreement made and in such cases it would not be necessary to come to Parliament for permission.

### Wins Community League Prize

Ben Sampson was awarded the Five dollar prize offered by the A. C. L. for the best suggestion for community welfare. Mr. Sampson's idea was that the league should construct playgrounds for the smaller children with especial attention to shallow paddling pools. The project is already receiving attention.

The Membership committee, headed by Mr. Deeth, reports excellent progress. The chairman himself has added twenty members recently, and solicitors under his direction are out after those who have hitherto neglected the opportunity of cooperating in this beneficent movement. The High School children who are now released from the classroom are expected to corral many of those who have so far dodged the issue.

### Miners Should Avail Themselves of Rebate

Free Miners are reminded that a rebate of 25 per cent. is available to the man the legitimate retail cost of powder used in the bona-fide prospecting of mining property in British Columbia, subject to the following regulations:-

Applicants prove to the mining Recorder or Resident Mining Engineer that they are bona-fide prospectors.

Rebates not allowed on more than ten cases of powder each year, except under exceptional circumstances and on written recommendation of Resident Mining Engineer.

That application shall be made on forms obtainable from the office of any Mining Recorder and shall be witnessed by a Mining Recorder, a Deputy Mining Recorder, a Justice of the Peace, or a Resident Mining Engineer of the Department of Mines.

### Rising Price of Silver Will Boom Industry

A good deal of attention is being paid to the silver market at present by mining circles in Canada. The price of this metal recently took a leap to around 63 cents an ounce, the highest it has been since August, 1926. It is now selling around 60 cents, and there is a feeling among mining men that, with world production supposedly past its peak and no immediate sources of supply in sight, and with the demand apparently increasing in Oriental countries, the silver situation may be expected to hold its recent improvement at least.

The present price of silver is about the same as it was in 1914, when the average was 59.79 cents. In 1925 it took a sharp advance, mounting to 69 cents as an average. With labor and other mining costs where they are today, operators of silver mines say the price of this metal ought to be around 70 cents, to permit similar profits to those before the war.

Rich Young Bachelor—What time is it, Jarvis?

His Valet—Eleven forty-three sir "Er—Jarvis, you might work that out for me, will you?"

### SYNOPSIS OF LAND ACT AMENDMENTS

#### PRE-EMPTIONS

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emption is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 5,000 board feet per acre west of the Coast Range and 8,000 feet per acre east of that Range.

Applications for pre-emption are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emption must be occupied for five years and improvements made to value of \$10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

#### PURCHASE

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland for agricultural purposes; minimum price of first-class (arable) land is \$5 per acre, and second-class (grazing) land \$1.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

#### HOMESITE LEASES

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

#### LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

#### GRAZING

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free, or partially free, permits are available for settlers, campers and travellers, up to ten head.

### The Mineral Province of Western Canada

Has produced Minerals as follows: Placer Gold, \$78,018,548; Lode Gold, \$126,972,318; Silver, \$80,787,003; Lead, \$106,976,442; Copper, \$209,967,068; Zinc, \$50,512,557; Coal and Coke, \$284,699,133; Structural Materials and Miscellaneous Minerals, \$50,175,407, making its mineral production to the end of 1926, show an

### Aggregate Value of \$988,108,470

The substantial progress of the Mining industry of this Province is strikingly exhibited in the following figures, which show the value of production for successive five-year periods: For all years to 1895, inclusive \$94,547,241; for five years, 1896-1900, \$57,607,967; for five years, 1901-1905, \$96,507,968; for five years, 1906-1910, \$125,534,474; for five years, 1911-1915, \$142,072,603; for five years, 1916-1920, \$189,922,725; for five years, 1921-1925, \$214,726,650; for 1926, \$67,188,842.

### Production Last Ten Years, \$429,547,755

Lode mining has only been in progress for about 25 years, and only about one-half of the Province has been even prospected; 200,000 square miles of unexplored mineral bearing land are open for prospecting.

The Mining Laws of this Province are more liberal and the fees lower than those of any other Province in the Dominion, or any Colony in the British Empire.

Mineral locations are granted to discoverers for nominal fees.

Absolute Titles are obtained by developing such properties, security of which is guaranteed by Crown Grants.

Practically all British Columbia Mineral Properties upon which development work has been done are described in some one of the Annual Reports of the Minister of Mines. Those considering mining investments should refer to such reports. They are available without charge on application to the Department of Mines, Victoria, B. C. Reports covering each of the six mineral Survey Districts are published separately, and are available on application. Reports of the Geological Survey of Canada, Winch Building, Vancouver, are recommended as valuable sources of information. Full information, together with Mining Reports and Maps, may be obtained gratis by addressing

THE HON. THE MINISTER OF MINES,  
 VICTORIA, British Columbia

### Barnum Understood How To Advertise

Barnum's most emphatic point—one which no one could accuse him of not following—was to advertise. Persistence was important. He said that when an advertisement first appears "a man does not see it, the second time he notices it, the third time he reads it, the fourth he thinks about it, the fifth he speaks to his wife about it, and the sixth or seventh he is ready to purchase.

Advertising men today would probably agree with him. At any rate, he made money by taking his own advice.

### Here and There

(81) The Duchess of Bedford, latest addition to the Canadian Pacific's fleet of passenger liners on the Atlantic, is the first of four cabin class vessels being constructed for the Canadian Pacific to be added to the company's service on the St. Lawrence route, and they will also be used for winter cruise purposes.

Winnipeg. — According to statistics recently collected from 248,162 farms, there are 6.8 horses to each farm in Manitoba and a tractor to every 4.6 farms in the province. Each Saskatchewan farm has 10.2 horses and there is one tractor to every 4.7 farms, in Alberta there are 10.8 horses to each farm and one tractor to every 7.5 farms.

Ottawa, Ontario. — Employment stood at a higher level in Canada in April, 1928, than in any April as far back as records go. Returns from 6,191 employers of labor with working forces aggregating 842,940 persons, showed the employment index standing at 101.1, as compared with 96.2 in April, 1927, and 84.1 in April, 1926.

Winnipeg.—Homestead entries in the four Western Provinces for the first quarter of the year totalled 1,816, as compared with 1,030 in the first quarter of 1927. Filings in Manitoba were 107, as compared with 138; in Saskatchewan 655 as against 513; in Alberta 982, as compared with 367; and in British Columbia 72, against 12.

Earnings and expenses statement of the Canadian Pacific Railway for the month of April, issued from headquarters of the company, show net profits up \$150,944.85 as compared with April of last year. Net profits for the four months to end of April are shown increased by \$1,802,617.71 as compared with the same period of 1927.

The English Rugby League Football team, at the present time touring Australia and New Zealand, is scheduled to arrive at Vancouver on R. M. S. Niagara, September 14, and will play a game there next day, leaving on the Trans-Canada afterwards for Montreal where another game will be played September 20, before sailing for England on the Duchess of Atholl next day.

Free scholarships to C. P. R. apprentices or employees under 21 or to minor sons of employes of the company covering five years' tuition in Chemical or Civil Engineering at the Ecole Polytechnique of the University of Montreal and four years' tuition at the Montreal School for higher commercial studies are announced by circular over the signature of Grant Hall, senior vice-president of the railway. The scholarships are two in number, one at each of the institutions of learning specified, and are decided by highest standing in competitive examination.

### Here and There

(68) Actual sales of Canadian Pacific Railway farm lands for the first three months of the year have been double those of the corresponding period of 1927. Enquiries for farm lands generally have increased in the same proportion.

Quebec, Quebec. — The mineral production of the Province of Quebec for the fiscal year ending June 30, 1928, will be well in excess of \$30,000,000 if the activity continues, according to a statement from the Provincial Department of Mines, just issued.

Saint John.—The Maritime Provinces can find a good market in South and West Africa for their manufactured and natural products, according to D. J. S. Tyrer, who recently returned from there. A vast trade, he claimed, could be worked up in salt fish.

Vernon.—For the first time in the history of bee-keeping in British Columbia one bee-keeper in the Okanagan Valley has exported a full carload of honey from his own hives. His 250 colonies gave him an average of 175 pounds of honey per colony.

### Indian Day Celebrations at Banff

Upper—The day of the parade when Indians of all tribes mass for the inspection. Lower left—Squaws receiving their food rations. Lower right—An Indian of today depicting one of a hundred years ago.

No section of Canada can claim a monopoly of Indian Summer, but, to Banff, Alta., belongs Indian Days. Indian Summer occurs in the fall and may last two or three weeks; Indian Days occur in July and are only three in number; but, for those for whom they are named, there is more real pleasure crowded into that short time than they experience during the other three hundred and sixty-two days of the year. For three days the Indian is "King of Banff". He pitches his tepees under the steep cliffs of Cascade Mountain, known to the Indians from ancestral days as "Stoney Chief". Close to "Stoney Chief" and still known by its original name stands "Stoney Squaw". The latter is a pretty mountain, much smaller than its neighbour, but with an appealing feminine dignity all its own. The reason, then, for the Indians' original choice of names is obvious to all.

For these three festival days the Indian is lord of all he surveys, and all through the village of Banff and in and around the famous Banff Springs Hotel the scene resembles a veritable monster Indian camp. The event that probably led up to the adoption of Indian Days occurred in July 1889 when rail traffic, both east and west of Banff was tied up for a period of ten days, as heavy rains had washed out the tracks in both directions. The Banff Springs Hotel, then but a small structure, was crowded with tourists who found time hung heavily on their hands.

The hotel manager at that time and Tom Wilson, the famous Rocky Mountain guide, then put their heads together and decided to invite up the whole Stoney Indian Tribe from the Morley Reserve to make friends with the visitors.

What is today the main road to the hotel was on that occasion staked off as a race track, the winning post being placed at the hotel entrance. Every form of race and sport known to the Indians was held, in addition to many suggested by the white spectators. Altogether the visit of the Indians was a marvellous success, and it ultimately led to the establishment in 1907 of an annual Indian Day, which in time grew into the continent-wide advertised Indian Days. The Indians look forward to these days with the greatest enthusiasm and early on in the year start counting "only so many days now till we go to Banff". The Indian village of a hundred tepees is, as said before, located at the foot of Cascade Mountain for this festival, and is semi-circular in form, each band of the tribe having a section to themselves. Rations are served directly the Indian village is in shape. The Government donates three buffalo annually to the Indians, and the first one of these is then shot by a game guardian and quickly cut up by the redskin butchers. So skilled and speedy are the few Indian butchers employed, that within thirty minutes after the shot is fired, there is not a vestige left of what was once a lordly animal weighing approximately one ton.

## Britannia Mining Coy. Increasing Output

Britannia Mines, the British Columbia unit of the Howe Sound Company, is now producing approximately 3,500,000 pounds of copper per month. Earnings of the company will be far in excess of what they were last year due to increased production and improved facilities for handling the ore. It is also benefitting materially from the increase in the price of copper, silver, and other metals.

Last year the record of production at Britannia was one of the best in the company's history, the total being 33,500,000 pounds of copper, 10,000 ounces of gold, 170,000 ounces of silver, and 40,000 tons of iron pyrites.

Copper production in 1926 was 33,117,288 pounds so that the increase in the past year is very considerable. As an indication of the rapid growth of this famous company's production it is interesting to note that in 1917 the copper output was only 15,780,000 pounds or considerably less than half that of any of the past two years.

One enterprising provincial mining periodical has moved the Saddle property which lies between Alice Arm and Hastings Arm up to the Marmot River, and it is now close to the Porter Idaho. Some morning we shall all wake up and find ourselves at the head of the Portland Canal if these quick moves continue.

Hon. T. D. Pattullo, Minister of Lands, will again contest the Prince Rupert seat in the interests of the Liberal party.

**Ottawa.**—A survey will be made this year for a Canadian air mail route between Montreal and Winnipeg. This will consist of determining the best routes and locating landing fields. Recent announcement of four air mail contracts between points in Eastern Canada forecast more extensive operations along this line at an early date.

**Midland, Ont.**—For the first time in the history of this progressive town, a through Canadian Pacific train left here early in May for Toronto, and the first C. P. R. through train arrived from Toronto later in the day. A bottle of champagne was broken across the fender of the C. P. R. locomotive as it pulled out of Midland.

**Ski-ing in July and August** will be a prominent feature of the combined winter and summer camp to be operated in the Canadian Rockies under the shadow of Mount Assiniboine by Marquis N. degli Albizzi. The winter sport is made possible by the fact of a huge glacier that runs down the slopes of the mountain. Summer sports of variety will also be possible at the camp, which is one of the beauty spots of that part of the Rockies traversed by the Canadian Pacific.

**Toronto.**—Premier G. H. Ferguson announces that the Government has signed a contract with the Canadian Pacific Railway for the supplying of two additional cars to be used as "travelling schools" in the outlying districts of the province. The cars will be equipped in Winnipeg and both will run out of Fort William, operating between that city and Superior Junction. At present two cars are in operation, both in Northern Ontario. Not only children of trappers and railway workers, etc., receive instructions in these travelling schools but night classes are arranged for adults.

## ATLIN ELECTORAL DISTRICT PROVINCIAL ELECTIONS ACT

TAKE NOTICE that under the provision of Section 37, sub-section 4 of the Provincial Elections Act, a special polling place for absent voters has been assigned to the Pleasant Camp Polling Division at Squaw Creek, in the said Atlin Electoral District.

Dated this 20th. day of June, 1928.

JAMES WILSON,  
Returning Officer,  
Atlin Electoral Division.

## WATER NOTICE

### DIVERSION AND USE

TAKE NOTICE that Esperanza Mines, Limited whose address is 324 Second Avenue, Prince Rupert, B. C. will apply for a licence to take and use fifteen cubic feet per second of water out of Falls Creek, which flows easterly and drains into Kitsault River, about one mile above Alice Arm town-site. The water will be diverted from the stream at a point about 3,000 feet west of the mouth of Falls Creek and will be used for Mining and Power purpose upon the Esperanza Mine described as "Aldebaron, Black Bear and I'll Chance It" claims. This notice was posted on the ground on the 11th. day of June, 1928. A copy of this notice and an application pursuant thereto and to the "Water Act" will be filed in the office of the Water Recorder at Prince Rupert, B. C.

Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B. C., within thirty days after the first appearance of this notice in a local newspaper.

ESPERANZA MINES Ltd, Applicant

By Norman Fraser, Agent.

The date of the first publication of this notice is June, 22nd. 1928.

Form No. 13, (Section 39.)

Commencing at a post planted at the North-west corner of Lot 54 thence northerly 20 chains; thence westerly 40 chains; thence southerly 20 chains; thence easterly 40 chains to point of commencement, and containing 80 acres, more or less.

WILLIAM B. BOWER

Dated May 29th, 1928.

Form No. 13, (Section 39.)

## LAND ACT.

### NOTICE OF INTENTION TO APPLY TO PURCHASE LAND

In Cassiar District, Land Recording District of Prince Rupert and situate at the head of Observatory Inlet, near Alice Arm.

TAKE NOTICE that I, Anthony McGuire of Alice Arm, occupation prospector, intends to apply for permission to purchase the following described lands:—

Commencing at a post planted at the North-west corner of Lot 4803 thence easterly 30 chains; thence northerly 50 chains; thence westerly 30 chains; thence southerly 50 chains to place of commencement, and containing 150 acres, more or less.

ANTHONY MCGUIRE

per JACOB SAUER

Dated June 12th, 1928.

## MINERAL ACT (FORM F.)

### CERTIFICATE OF IMPROVEMENTS

#### NOTICE

"Polar Bear" and "Blue Jay" Mineral Claims, situate in the Naas River Mining Division of Cassiar District, Where located: on Trout Creek, east of Trout Lake, Kitsault Valley, Alice Arm.

TAKE NOTICE, that I, Laura C. Allen, Free Miner's Certificate No. 3460D, intend, sixty days from the date hereof, to apply to the Mining Recorder for a Certificate of Improvements for the purpose of obtaining a Crown Grant of the above claims.

And further take notice that action, under section 85, must be commenced before the issuance of such Certificate of Improvements.

Dated this 22nd. day of May, A.D. 1928.

LAURA C. ALLEN.

## ALL RACES IN FRIENDLY ARENA

Upper—Ukrainian High School girls of Winnipeg form a beautiful string orchestra for the festival. Lower Left—All nations will contribute to the event. Lower Right—Doukhobor women spinning at their settlement in Brilliant, B.C.

Fine art must always be produced by the subtlest of all machines, which is the human hand. No machine yet contrived or hereafter contrivable, will ever equal the fine machinery of the human fingers.—John Ruskin.

Few countries can so readily and fully demonstrate this formula as Canada demonstrates it today, with her ever-increasing family of new Canadians from every craft-hire of ancient Europe.

They are here in their thousands to embellish the bareness of a new world with the transported skill and taste of old centres of master-craftsmanship. They are carding, and spinning, and weaving the fleece and the flax of our prairies; they are hammering our metals, moulding our clay, carving our woods, plaiting our straws, to the tune of every peasant song that has echoed down the corridors of racial history through the rural homes of Europe's people.

Here, they find a blue sky wide enough for all colors; a sweep of pregnant prairie where men of

any class and any race may sweat and eat nobly; revel at their ploughs; and revel in the sunshine. And simple hearths for winter days where Slav, and Magyar, Latin, Celt, and Scandinavian, Pole and Ukrainian, Hungarian and Roumanian, Finn and Russian, Doukhobor, Austrian, Czech, and the rest, may sit in peace, weaving their memories into lovely things which all will assemble to admire and enjoy together in the friendly arena of Canadian Folksong and Handicraft Festivals.

Confidently, the old Canadian predicts that the Canada of tomorrow will solve some racial problems which are the universal despair of today. And she will do it in great part by quietly saving and blending the missionary crafts of those beauty-loving missionary migrants who are merging themselves into her family as New Canadians. The first Canadian Folksong and Handicraft Festival is to be held in Winnipeg, June 19-23 of this year, and will present a wealth of interest.

## Know Your Province And Boost It

The large advertisement on this page showing the progress of the mining industry, is one of a series of advertisements, commenced two weeks ago. The idea of these advertisements is to bring home to the people of the province the splendid progress made in every line of industry during the recent years, and to make everyone feel proud of the province in which we live. The broadcasting of our progress should bear fruit.

"Seven years ago," writes the Secretary of the B. C. and Yukon Press Association, "the Press Association of the province took its initial step in a campaign of publicity. At that time there was prepared in the office of the Vancouver Province and its mechanical department a full-page advertisement showing the development and resources of the province. This plate was prepared and forwarded to newspaper members of the Press Association free of cost by the Province newspaper, and by them published at no cost to anyone except the publisher. This was done in the general interest of the province. It had no political significance. The newspapers recognize that the 'in' party always claims the credit for any progress made and the 'out' party always sees the country headed for the weiner factory. The Press members tried to show British Columbia's phenomenal progress in spite of political parties not because of them, and to inspire readers with the thought of rapidly developing industries, splendid opportunities offering, and wealth in untold quantity awaiting individual effort and systematic search.

The original idea went over well but at that time the Association had only a 50 per cent. membership. Since then the idea has been further developed until this year it was adopted by the Provincial Government in a commendable spirit of co-operation looking to the public weal. This week every daily and weekly newspaper in the province starts a 'British Columbia first' publicity. Not a week of it, not a month, but for all time.

"Every citizen of the province; every school girl or boy; every citizen of any other country making a living here should be interested in learning the progress and development the province is making. All must enter into the spirit of British Columbia before there can be a united British Columbia marching forward in mighty array.

# The World's treasure house!

**TWENTY** years' mining in British Columbia have yielded nearly 800-million dollars. The last ten years have increased production by 58.9 per cent.

The value of all Canada's production is \$25.70 per citizen, British Columbia's production today, if distributed, would mean \$111.96 per person annually! Our mined and treated tonnage of metalliferous ores reached a record of more than 5-million tons for 1927.

The value of the mining industry to the Province is in the distribution of money in wages, supplies, transportation services, etc. And in this respect, 1927 was a record year!

The 14,000 employees of the mining industry were paid wages totalling 23 million dollars . . . or nearly \$1,700 each . . . the highest average for any Canadian Province.

During the year, distribution of eight million dollars was made in dividends!

British Columbia mines approximately 40 million dollars worth of copper, zinc and lead, a year . . . more than the rest of Canada. In gold and silver, our production ranks second . . . in coal, third; our total annual mining production today being exceeded only by Ontario.

Sound legislation, good mining laws and low fees have encouraged this development and stimulated growth. Although the provincial

mining area has only been superficially prospected within the transportation belt, new fields are developing, new roads and trails constantly being built.

Chattering drills sink deeper and deeper into the hills . . . heavy ores rumble through the concentrators . . . fortunes come tumbling from the treasure chest of British Columbia! What was once only imagined about our mining potentialities, is now proven knowledge. Mining has become our third largest industry . . . showing over 67 million dollars revenue a year . . . proof that prosperity flourishes in British Columbia.

Capital from Eastern Canada, the United States, Great Britain, France . . . seeks investment. Our great wealth of production, developing so steadily during the past ten years, has established confidence and aroused keen interest in British Columbia's mining future the world over.

*Read these announcements and understand your province's progress . . . clip them out and send them to friends. If you desire extra copies of these announcements a note to this newspaper will bring them. Advertise your Province!*

# BRITISH COLUMBIA'S PROGRESS

**ALICE ARM NOTES**

A. C. H. Gerhardi arrived on Monday from a business trip to Vancouver.

Harry Owen, who left here last fall returned on Monday. He spent most of the winter in Vancouver, the last few months was spent on Queen Charlotte Islands.

Mrs. J. Wier, resident of Anyox for a number of years, but latterly residing in Vancouver arrived on Tuesday to join Mr. Wier. She plans to spend the summer here.

Six men arrived on Monday from Vancouver, for the Toric Mines Ltd.

H. F. Kergin left on Monday for Stewart in connection with his election campaign.

J. Wells, district road foreman of the Public Works Department left on Sunday for the Naas Valley. He hiked overland via the Telegraph Line, and will inspect progress of road work while in the valley also investigating the wants of the settlers.

Master Gordon Anderson arrived home on Monday from Prince Rupert, where he has been attending High School. He was head of his class at the recent examinations.

Miss Rose and Master Dwight Rice, arrived home on Monday from Prince Rupert, where they have been attending school, to visit their parents during the summer holidays.

T. W. Falconer left on Monday for Atlin where he will conduct an electioneering campaign. He was joined in Prince Rupert by J. C. Brady, and expects to return to Alice Arm on July 9th.

Constable Wm. Smith spent a few days in town during the week, returning today.

A new lunch counter was opened for business during the week on First Street, opposite the Pioneer Hotel. It is operated by Mrs. B. Turbitt.

R. H. Chapman, who arrived last week, and has been examining mining properties in the district in company with M. R. Bernischke, is leaving today accompanied by the latter.

W. G. McMorris is leaving today on a short visit to Prince Rupert.

Barney Turbitt of the Radio Auto Service had the misfortune to break his arm during the week while cranking up one of his Ford cars.

"Land is turning over in the Peace River district at high prices," said Hugh Allan, M.L.A., of Peace River. "In some cases the price attained was \$50 per acre. Settlement is constantly pushing out into new districts and consequently making the road question a serious one.

It takes heart as well as cash to win good-will.

Work was invented by people who are too nervous to sit still.
