## Silver Crest Co. Proving Up Mine on Saddle

The Silver Crest Mining Co., who for the past two seasons have been developing the Saddle property on Hastings Arm with such unusual success are proceeding rapidly with the construction of the aerial tramway, and are also pushing development work at the mine. It is expected that the tramway will be in operation in about sixty days. This work is in charge of A. Knox formerly construction superintendent for the Granby Co.

At the mine, nine miners are at work drifting on the ore vein on which a shaft was sunk last year. This drift was commenced at a point 900 ft. south from the shaft and will give a depth on the ore of 200 ft. below the vein outcrop.

The vein is well defined, being 5 feet between walls, and is well mineralized with galena and zinc sulphides.

The showings in the tunnel look very good and the ore will be followed for a distance of 900 ft.,

which will then be under the shaft sunk last year.

A raise will then be driven to the surface, and the blocking out of ore commenced. The future of the Saddle looks very promising.

The members of the Vancouver Board of Trade are again this year taking their annual excursion up the northern coast. This year they will visit points on the west coast of Vancouver Island which was not included last year.

They are scheduled to arrive in Alice Arm on Sunday August 26th. at 12 noon and leave at 10 p.m. A large number will make the trip up the Dolly Varden railway visiting the Toric mine. A number, however will probably desire to spend the day around town.

Everyone is requested to be on hand to welcome the visitors and to mingle freely with them, imparting as much information as possible regarding our mineral wealth.

## Surveying Town Lots On Indian Reserve Commenced

The surveying of the Indian Reserve at Alice Arm will be completed this year. Mr. F. Butterfield, who has the work in hand has commenced this week sub-dividing that part on which a portion of the town of Alice Arm is located.

All the land west of the Kitsault river will be subdivided into lots. On the east side of the river a part will be surveyed into lots and the balance will be surveyed into acreage of various sizes.

Roads are being located so that the moving of houses already built on the reserve will be mitigated as much as possible.

The Reserve joins the townsites of the Alice Arm Mining and Development Co., and the Alice Arm Freighting Co., and roads are planned to connect with existing roads on these townsites.

Although the surveying of the Reserve will be completed this year it is not expected that lots will be available for purchase until next spring. Everyone will then have an opportunity to own a piece of ground, and erect a permanent residence.

It is expected that those owning houses will be given the first opportunity to purchase ground occupied by the building.

J. E. Umbach, provincial-surveyor-general, arrived at Alice Arm on Saturday and left on Monday. His visit was in connection with the surveying of the Indian Reserve, which is now being carried on.

## Work on Billy Mac Discloses Big Ore Bodies

The success of the development work carried out this year on the Billy Mac Group has exceeded even the most sanguine hopes of the owners.

The 50 ft. tunnel driven on an ore ledge traceable on the surface for a distance of 400 feet, and having a width of 10 feet was driven in ore the entire distance. Four open cuts were also driven across the ledge. The work was done by Tony and Joe Calfa, both of whom have an interest in the property.

Close prospecting also revealed a new ore ledge, which was traced on the surface for a distance of 800 feet. The width is extensive, open cuts failing to find the hanging wall.

The Billy Mac Group is in the centre of the rich mineral zone of McGrath mountain, in the immediate vicinity of Alice Arm, and is owned by Tony and Joe Calfa, Roy McKinley, James Peacock, Jack Fraser. Ore values are in zinc, lead and silver.

## BIRTHS AT ANYOX

Born to Mr. and Mrs. R. H. Healy at the Anyox Hospital on August 7th, a daughter.

Born to Mr. and Mrs. W. B. Maxwell at the Anyox Hospital a son.

Born to Mr. and Mrs. J. A. D. Stewart at the Anyox Hospital, a son.

Born to Mr. and Mrs. Wm. Smith, at the Anyox Hospital, on Tuesday, August 14th, a daughter.

## Alice Arm Ores Win Four Prizes

Alice Arm ores captured four prizes at the Vancouver exhibition, three 1st. prizes and one second. This was done in the face of fierce competition from the whole province, and shows conclusively that Alice Arm ranks among the best mining camps of B. C. O. Evidson, president of the local Chamber of Mines received a wire to this effect yesterday.

The prizes are as follows: First prize for zinc-lead ore won by the Kitsault-Eagle Silver Mines Ltd. who are developing the Silver-Cord, Eagle and Sunrise.

First prize for molybdenum, won by Tidewater Molybdenum, and owned by G. W. Bruggy and Wm. McFarlane.

First prize for tungsten ore, won by the Esperanza Mining Co. owners of the Esperanza mine, which is also a silver producer.

Second prize for native silver ore won by the Wolf mine, and owned by J. Fiva and associates.

It should thrill everyone with pride when they realize the importance of winning four prizes in a competition against the best ores the province could produce, especially when it is taken into consideration that many camps are more fully developed and therefore able to send a much larger exhibit.

For the two previous years Alice Arm ores secured more prizes than any other camp in the province and the same thing appears to have happened again this year, thanks to the local branch of the Chamber of Mines.

## Concentrator Team Win From Elks

On Wednesday evening, the first fine night for some time, was taken advantage of when the Concentrator nine climbed still another step for winning the cup, when they defeated the Elks, the score being 5-2.

Two very good hits were poled out into the creek and stretched for 3-baggers. The hitters being Sheen for the Elks and Whitehouse for the Concentrator.

The line-up for the teams was as follows: Concentrator, Mussen, Whitehouse, Knight, Mattix, Cavalier, McColl, Dresser, Meagher, Mackay. Elks, Lazoreck, Cody, Bartmann, Sheen. Chenoski, MacDougall, Wilson, Evans, Steele.

## John D. Galloway Visits Alice Arm

John D. Galloway, provincial mineralogist, spent the week-end in Alice Arm. During his stay he visited the Toric Mine and previous to his departure on Monday he predicted a bright future for the camp.

## Good Financial Statement Chamber of Mines Meeting

A meeting of the Alice Arm branch of the British Columbia Chamber of Mines was held at the School on Tuesday. President O. Evidson presided.

The meeting was called for the purpose of making arrangements for the entertaining of members of the Vancouver Board of Trade, who will arrive at Alice Arm on Sunday August 26th. As the date for the annual election of officers was overdue it was decided to elect officers for the coming year.

The minutes of the preceding meeting were read by Secretary A. D. Yorke and adopted. The secretary also read the financial statement for the past year. It was shown that a balance of \$242.93 is on hand at the bank, compared with a balance of \$41.40 at the beginning of the year. Income for the year was \$308.74, of this sum \$90.00 was donated by the headquarters office in Vancouver, \$1.00 being given for each paid-up member and a prize of \$50.00 for largest membership of any branch in the province. It was also shown that the total cost of entertaining the Vancouver Board of Trade last year

was \$84.55

The secretary read a letter from the Vancouver Board of Trade stating that they would visit Alice Arm on their trip north, arriving on Sunday August 26th. at 12 noon and leaving at 10 p.m. A letter was also read from H. Browning, secretary of the Chamber of Mines Vancouver, in which he appreciated the splendid collection of ore sent for the Vancouver Exhibition. A letter was also read from the Prince Rupert Fair secretary requesting ore samples.

The election of officers for the ensuing year was quickly carried out. It was unanimously decided to re-elect all officers, who are as follows: Hon. President, the Honorable Minister of Mines, Hon. Vice-President, H. F. Kergin, M. L. A., President O. Evidson, Vice-President M. Petersen, Secretary, A. D. Yorke.

Considerable discussion followed in regard to the procedure of entertaining the Vancouver Board of Trade, and it was decided to elect a committee of three to make all arrangements. They are as follows: G. Anderson, T. W. Falconer, Neil Forbes.

## Esperanza Co. Starts Work Hydro-Electric Plant

Work was commenced this week by the Esperanza Mining Co. on their new hydro-electric power plant. The work now being undertaken is the construction of a dam on Falls Creek and the building of a race.

The site of the dam is 1600 feet distant from the Dolly Varden railway. The location of the power house is undecided.

The installation of the power plant will be undertaken as quickly as possible, and its completion will enable the company to mine a much larger tonnage of ore than heretofore and also expediate development work. The power plant will consist of a 100 h.p. generator and compressor.

## Toric Mill Turning Over

Advices from the Toric mine are to the effect that the concentrating mill is now being operated and that concentrates will shortly be coming down over the Dolly Varden railway.

Send your next films direct to Wrathalls Photo Finishing, Prince Rupert, B. C. Our high class photo work and quick returns will please you. We also do picture framing. Try us.

## Large Crowd Enjoys Big Dance

The biggest dance of this or any other season in the history of Alice Arm was held at T. W. Falconer's hall on Saturday evening. It is estimated that from 120 to 140 people were present. Large numbers arrived from Anyox in addition to those spending holidays here, and the spacious floor was crowded to capacity dancing to the delightful music of the Alice Arm Orchestra.

Following an appetising repast at midnight, for the excellence of which the ladies responsible are due much praise, Dick Bennett of Anyox rendered a solo, entitled, "Lay my Head Beneath the Rose". He received thunderous applause. Wm. Stephens accompanied him on the piano.

The Orchestra to whom a large portion of the evening's success was due, were: W. Stephens, piano; C. Hutchinson, clarinet; S. Jones, saxophone; F. Butterfield and Lorne Falconer, violins; E. Aubusson, traps and drums.

## Assessor Looks Over Towns

C. H. Homer, provincial assessor spent a few days in Alice Arm during the week, interviewing those who had failed to make income tax returns, and gathering other useful information, also listening to complaints, which is something unescapable in his line of business.

**Hopes for Definite Plans  
 Re Stewart Railway**

The Stewart railway scheme put forward by H. H. Stevens early in the summer is still being discussed and there are people who profess that the scheme will eventually develop into a real railway, with possibly the C. P. R. as the chief force behind it. That company has made thorough surveys of the country and it is understood they still have plans for connecting up the northern prairie country with the coast at Portland Canal.

Before leaving for the East Hon. H. H. Stevens, M. P., Vancouver, made a statement respecting the situation of the Canadian North Eastern Railway from Stewart. He announced that within a month or two there might be definite plans forthcoming for the building of the line into Northern British Columbia.

Acquired by the Vancouver Holdings, the C. N. E. Railway is now backed by London capitalists, according to Mr. Stevens.

**Stobie-Forlong Co. To Open  
 Vancouver Office**

Indicating the importance of mining in British Columbia, Stobie, Forlong & Company, with head offices in Toronto, have opened a branch office in the Commerce building, Vancouver, which will be headquarters for all wholesale dealing with other brokerage offices in the West. This company is already largely interested in B. C. mines, being behind the Kootenay-Florence, Enterprise, Consolidated and Lorne Mines. Information respecting these enterprises will be issued from the Vancouver office.

**Consolidated Co. Operating  
 In Atlin Country**

Consolidated Mining & Smelting Company has taken over and is now in charge and developing the Atlin Silver-Lead Company lode property in the Atlin district of British Columbia. A crew of 20 men is employed at the big lode mine. The Atlin Silver-Lead, commonly known as the "Ruffner property," is a lode mine of great possibilities.

The Cod-fish lays a million eggs  
 The boastful hen but one;  
 But the Cod-fish doesn't cackle  
 Over what she has gone and done.

We scorn the modest Cod-fish  
 And the boastful hen we prize  
 Which only goes to show, my friends,  
 It pays to advertise.

Mining staking in Manitoba for the first six months of this year reached a record breaking figure, according to the monthly statement of the Federal Recording Department.

**Premier Co. May Run  
 Custom Mill**

Evidently the Premier Gold Mining Co. expect to continue to operate for many years to come, judging by the excellent new buildings, now about completed, which will take the place of those destroyed by fire months ago.

The substantial character of the structures suggest that possibly the company will operate on a larger scale than ever, and to some extent strengthen the report that the Premier may not only mine the B. C. Silver property, but will also treat the ore of the Woodbine property.

The halibut catch at Prince Rupert for the month of July totals 3,176,000 pounds.

**Here and There**

(108)

Lumber companies report the greatest volume of business in Alberta since the boom year of 1912. One hundred million feet of lumber is being cut in Alberta this year but the bulk of the supplies come from British Columbia mills.

A press report from Telfordville states that the farmers are well pleased with the allocation of stations on the twenty mile extension to the Hoadley subdivision of the Canadian Pacific Railway. A large number of settlers are going into the territory which will be served by this extension and the old timers in the district are now clearing and breaking as much land as possible.

Kyohel Kato, who represents a Tokio concern, and who has just concluded a business mission to Canada, stated that he had bought 8,000,000 bushels of wheat in Canada, or about half of Japan's total importations. He explained that Japan got more for its rice than Canadian wheat cost in their market, hence the present purchase. He said, too, that Japanese were eating more wheat foods and adapting themselves to the stronger diet.

"The Maritime Provinces in particular, and Canada in general, need more commercial advertising," was the opinion expressed by Hon. J. B. M. Baxter, Prime Minister of New Brunswick, when interviewed on arrival on board the "Empress of Scotland" after a month's visit to Europe. British settlers in the Maritimes have been quite satisfactory as regards type and quality, he said, and he hoped that we will be able to obtain a great many more spread over a period of years.

Part of a litter of eight red foxes, which, together with the vixen, were captured in the Arcola district recently, have been brought to Moose Jaw by Mr. W. White, who has established a fox farm east of this city. It is many years since red fox have lived at large in their natural state in the southern part of this province, where these were captured. Mr. White intends to start raising patch foxes, a cross between red and silver or black fox, as a commercial enterprise.

Wool growing in Western Canada is increasing rapidly, according to W. W. Thomson, manager of the western branch of the Canadian Co-operative Wool Growers Limited. Up to June 30th, he pointed out, four carloads of wool had left Regina for Weston, Ontario, (for grading by Government authorities) as compared with one for the similar half year of 1927. This year's shipments represent 108,000 lbs. from 300 flocks in the provinces.

The mystic number "13" holds no terrors to the Royal Order of Jesters, an organization within the Ismailia Temple Shrine of Buffalo, who sailed on Friday the Thirteenth of July, with thirteen members in their party, from Montreal for Liverpool. The society meets on the thirteenth of each month at 6.13 in the afternoon, and is divided into courts of 13 members each. The party of Jesters sailed on the crack new Canadian Pacific liner "Duchess of Bedford" in a group of Shriners visiting the old world.

**SYNOPSIS OF  
 LAND ACT AMENDMENTS**

**PRE-EMPTIONS**  
 Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emption is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 5,000 board feet per acre west of the Coast Range and 8,000 feet per acre east of that Range.

Applications for pre-emption are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emption must be occupied for five years and improvements made to value of \$10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

**PURCHASE**  
 Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price of first-class (grable) land is \$5 per acre, and second-class (grazing) land \$2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

**HOMESITE LEASES**  
 Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

**LEASES**  
 For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

**GRAZING**  
 Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free, or partially free, permits are available for settlers, campers and travellers, up to ten head.

The Mineral Province of Western Canada  
 TO END OF DECEMBER 1927

Has produced Minerals as follows: Placer Gold, \$78,174,795; Lode Gold, \$130,651,919; Silver, \$86,689,046; Lead, \$121,850,734; Copper, \$221,501,079; Zinc, \$59,508,692; Coal, \$271,294,668; and Miscellaneous Minerals, \$53,502,301, making its mineral production to the end of 1927, show an

**Aggregate Value of \$1,048,837,828**

**Production for Year Ending December, 1927, \$60,729,358**

The Mining Laws of this Province are more liberal and the fees lower than those of any other Province in the Dominion, or any Colony in the British Empire.

Mineral locations are granted to discoverers for nominal fees.  
 Absolute Titles are obtained by developing such properties, security of which is guaranteed by Crown Grants.

Full information, together with Mining Reports and Maps, may be obtained gratis by addressing—  
**The Hon. the Minister of Mines,  
 VICTORIA, BRITISH COLUMBIA**

Practically all British Columbia Mineral Properties upon which development work has been done are described in some one of the Annual Reports of the Minister of Mines. Those considering mining investments should refer to such reports. They are available without charge on application to the Department of Mines, Victoria, B. C. Reports covering each of the six mineral Survey Districts are published separately, and are available on application. Reports of the Geological Survey of Canada, Winch Building, Vancouver, are recommended as valuable sources of information.

## Mining and Other News From Around Stewart

### Portland Canal News

More than 200 tons of Tarvia in 778 barrels arrived Sunday in the Union Freighter Chilliwack and was discharged at the Crawford dock. The shipment also included a 7-ton Packard truck mounting a truck for distributing this tar compound, and two large heating tanks for melting it prior to spraying on the road. The barrels are now being hauled by the Crawford Transfer Co. and off-loaded near the ball ground ready for the melting pots, which are already in position.

In preparation for this finishing process, which is being laid by the Barrett Roofing Company makers of Tarvia, under contract with the government, the public works department have for four or five weeks past been surfacing the highway between the government dock and town. This work has employed around 40 men, working two shifts and necessitating the use of a rock crusher, driven by a semi-diesel oil engine which has been set up at the rock crusher near the Bear river bridge.

### Big Ore Vein Found on "A & T"

The old Copper Queen vein, which intrigued oldtimers of the vintage of 1910, but which had passed into the category of "lost mines" since everyone connected with it had disappeared without leaving a trace of their discovery in the way of a trail, camp, or assessment work, has been rediscovered by Jack Howse, who is a partner with W. R. Tooth and E. A. Armstrong in the relocation. The new group consists of nine claims lying between the Indep-

dence and the Dalhousie, and is now called the "A & T". It extends from the foot of the mountain at the railway track, up to the summit. The vein was found above timber line amongst a series of precipices and narrow benches which make preliminary prospecting rather precarious. The owners, however, have put in some ropes, and are cutting steps which will eliminate the danger. Mr. Tooth has traced the vein for 300 feet along its strike and his hammer and pick samples show values of 6% copper, 60c. in gold and \$1.00 in silver. The vein is a big one, how big has not yet been determined.

### Emperor Is Humming

With twelve men employed, work at the Emperor is humming, according to Gustav Seiffert, the manager of the property, who was in this morning to help push supplies up the hill. A new blacksmith shop is nearing completion and the camp, which is considered a model for this district, has been put into the pink of condition. Mining operations are not expected to reach their full efficiency until about the 15th. of the month according to Mr. Seiffert.

### Mounted Police Will Patrol North in Boat

Canada's "Far North," that long stretch of hinterland served by the Mackenzie River and the western Arctic, is to have this year a floating detachment of ten men of the Royal Canadian Mounted Police, including a wireless operator, for patrol and other work in northern waterways.

Their home will be a 95 foot auxiliary schooner with 150 horsepower engines and a cruising speed of eight knots an hour.

## REFORESTATION

Much has been said recently about re-forestation in B. C. The present forest is the result of natural re-forestation when the human hazard was not present to defeat nature,

Natural re-stocking of cut over lands is now going on, as may be seen everywhere, and nature will again re-establish the forests if only fire is kept out.

### Losers of Effects in Gym. Fire Will be Reimbursed

All those who had property destroyed in the gymnasium fire last February and put in claims for the value of the goods lost can receive cheques for their allotment by calling at the Recreation Hall. In making the adjustment on equipment of various kinds burned up on the occasion referred to, the adjuster went into the stated value of each item and allowed what he considered would be fair under the circumstances.

### ANYOX NOTES

Miss Robertson was an arrival from the south on Friday.

Mr. and Mrs. B. M. Buck left on Friday for the south where they will spend a vacation.

T. MacIntosh, W. Lumsden, and W. Nichols were among the outgoing passengers on Monday.

Mr. and Mrs. J. Kunka and child left for Edmonton on Friday. Mr. and Mrs. W. McDonald arrived in town on Friday.

The ElDoro cigar is hand made of pure leaf tobacco. Often imitated but never equalled.

Mrs. F. Etheridge returned on Friday from holidays spent in the south.

C. H. Homer, M. Botolin and M. McKay were among the arrivals on Friday.

Mr. and Mrs. R. Dutter were arrivals on Friday's boat.

Mrs. Calderworth arrived in town on Friday.

Miss Lawrence was an arrival on Friday's boat.

Mrs. A. Morton who has been spending holidays at Alice Arm is returning home today, accompanied by her mother, Mrs. MacDougall.

Mr. and Mrs. J. Kirkland and children returned on Friday from holidays spent in the south.

Ladies Dressmaking and Embroidery work done.—Miss Luikkonen, Cabin T, Anyox, B. C. P. O. Box 405.

J. E. Umbach, Surveyor-General arrived from Victoria on Friday and left for Alice Arm on Saturday.

Miss Irene Botter was an arrival in town on Friday.

Mrs. C. W. Ruckhaber is spending a week's vacation at Alice Arm returning home this week-end.

D. McLean arrived in town on Friday's boat.

Mr. and Mrs. George Bosnich and child left on Friday for Princeton, where they plan to reside.

Mr. and Mrs. J. Neller and daughter were south-bound passengers on Friday.

Mr. and Mrs. J. Wynne and son left on Monday for holidays in the south.

Mrs. H. McInnis left for holidays in the south on Friday.

Mr. and Mrs. Cridge and child were arrivals on Monday's boat

Mrs. H. R. Patrick, accompanied by Mrs. Jas. Smith of Seattle, who is spending a vacation at Anyox, spent the week-end at Alice Arm.

Dr. and Mrs. G. S. McDonald returned on Monday from a month's vacation spent in the south.

Mr. and Mrs. J. M. Smith left on Friday for Vancouver.

C. L. Ingram left for Maple Bay on Monday.

C. H. Cameron, C. J. Keller, J. M. Hodin, were arrivals on Friday.

Mrs. M. K. Cox arrived in town on Friday, and will spend holidays with her son.

### ALICE ARM NOTES

Jack Miller of the Sullivan Drill Co. spent the week-end in town. While here he sold a stoping machine to the Toric Mines Co. Ltd.

J. Laidlaw left on Monday for Vancouver where he plans to spend the coming winter.

Leo Paulcer left on Tuesday for Anyox. He will probably continue his journey to Stewart and Prince Rupert, and plans to be absent until next spring.

Mrs. A. C. H. Gerhardi left on Friday for Vancouver after a brief visit here.

P. Leech, who spent a week here returned to Vancouver on Friday.

Mrs. W. T. Kergin and Mrs. Hardy of Prince Rupert arrived on Monday and are spending a vacation with Mr. and Mrs. H. F. Kergin.

Mrs. Marshall Smith and family left on Tuesday for Anyox where they will spend the winter. Mr. Smith left a few weeks ago.

J. M. Morrison, who has spent the past few months here, returned to Vancouver on Monday.

Norman McLeod left on Monday for the south, and plans to be away until next spring.

Eggs to the number of 1,080,000 were shipped from Vancouver, via the Panama Canal, to Glasgow on April 17th. This was the first record of shipment of eggs to Great Britain from the Pacific Coast.
