Elks Baseball Team Heads the League

In an exciting game before a large crowd of fans, the Elks baseball team on Thursday evening defeated the Smelter by the score of 2 to 0.

Both teams had a strong line-up, but the "Brother Bills" showed a marked superiority over the Smelter at the bat. The Elks have a fine aggregation of batters and this fact won them the game. Fitzpatrick for the Elks and McKeowan for the Smelter both pitched good ball. This win places the Elks on top of the League, and if the Mine or Smelter entertain any hopes of lifting the cup this year, they will have to swing a little heavier on the ball.

During the game, a section of the grand stand collapsed. Fortunately, only a small crowd numbering twenty occupied this section. Considerable excitement prevailed, but happily there were no casualities.

Win for Smelter Football Team

On Tuesday evening the Mine and Smelter football teams waded into each other in a hot and furious struggle. They played the full time, but all the efforts of the two teams were futile, neither side could place the pigskin in the nets, each team had to be content with one point each.

Intermediates Play Good Ball

The Intermediates are showing some big league stuff. On Wednesday the Smelter won from the Elks, the score being 10-9.

Baseball Players Batting over 200. Up to and including June 5th.

BIRTHS AT ANYOX

Born to Mr. and Mrs. R. H. Manzer, at the Anyox Hospital, on Friday, June 1st. a son.

Born to Mr. and Mrs. S. Bell, at the Anyox Hospital, on Sunday, May 27th, a son.

Mining and Logging at Alice Arm

Copper Creek Property Looks Good

Mr. Morley who was in town yesterday states that his property on Copper Creek is showing up exceedingly well under the development work now being carried on.

The work now being done consists of driving a tunnel, which is in 15 feet. Recent assays from this tunnel gave values of $44.00 in gold, silver and lead. The mineralized zone on which the tunnel is being driven is 72 feet wide, and owing to tne flat nature of the country at the tunnel, it is the intention to sink a shaft on the hanging wall. The Copper Creek property is only a distance of 6 miles from tide water, and at an elevation of 600 feet.

Ore Uncovered on War Dance Group

Messrs. A. McGuire and L. Paulcer arrived in town on Monday from the War Dance property, where they have been engaged in development work. The War Dance property is situated on the north-east fork of the Kitsault river and looks promising. The work done this year consists of surface stripping. Some new showings have been uncouvered including a six foot lead of galena ore. The majority of ore on the property carries gold silver and copper.

Yarder Arrives for N. C. S. M. Ltd.

The Logging camp of the North Coast Spruce Mills, Ltd. at the Quartz Quarry, will, in a few days be pulling logs from tne woods. A yarder donkey engine arrived from Anyox yesterday for this purpose. Mr. F. Miller, who is in charge of the camp states that 15 men are at present employed and that this number will be considerably increased in the near future. It is planned to work another engine as soon as possiale.

Camp Producing 50,000 Feet a Day

Logging operations at the camp of the Abbotsford Logging Co. is proceeding smoothly. Abost 1,500,000 feet of lumber is now in the water, and logs are being taken out at the rate of around 50,000 feet per day. This figure will be considerably increased when the additional yarder donkey engine arrives and the high lead system of hauling the logs is instituted About 45 men are at present employed.

Alice Arm is Ideal Place for Holidays

Alice Arm is now in its summer dress, with the trees in full leaf and the summer flowers coming into bloom. Ths town lying as it does in a basin surrounded by mountains is conceded by all who have seen it to be one of the beauty spots of the Pacific Coast.

That the beauty of the town and surrounding country is appreciated by the people of Anyox, is shown by the number of visitore who journey from the smelter town to spend holidays in this pleasant spot. Some of the visitors spend a day or two, others a few weeks, while others settle down for the summer, but each year the numbers increase, and it is expected that this year will see the largest influx of Anyox visitors yet recorded.

For those who require perfect rest and quietness, big shady trees beside the gurgling brooks are there a-plenty. For those whose pleasure it is to land the wily trout the Kitsault and Illiance rivers afford some of the best fishing obtainable. While for those who love hiking there is the Dolly Varden railway 18 milas in length, and the Illiance river trail 11 miles in length. For the Alpine climbers there are all kinds of mountains, from the real small ones to the white-capped giants. Added to these sports, one can go boating, or play tennis on the local courts.

For the convenience of those who are not familiar with the boat schedule between the two towns, we wish to say that the launch Awake leaves Anyox every Tuesday, Thursday and Saturday, at 3 p.m. and very often special Sunday excursions are run during the summer. The trip itself on the boat is well worth the effort of leaving town for a day or two.

Living expenses at Alice Arm are at a par with Anyox. Three general stores are ready to supply your needs, and of rooming houses there are a number to choose from. If you wish to spend an inexpensive holiday and enjoy the fresh air and God's green earth then Alice Arm is the place for you.

The best advertising Alice Arm has received, is from those who have spent holidays there. They always come again.

Mr. J. Wheatley Commences to Pull Logs

Mr. J. Wheately commenced pulling logs from the woods on Monday last. A crew of eight men are at present employed, but this number will shortly be increased.

ANYOX NOTES

Union Church Services, Sunday, June 10. Sunday School 11 a.m. Evening Worship, 7.45 p.m. We extend a welcome to you.

Mr. Fred Bell arrived in town on a business trip.

Mr. Donald Gray arrived in town on Monday from Paisley, Scotland He is a brother of Mr. J. Gray of the Meat Market

The Local Baseball League gets more interesting every day. Each of the three teams having defeated their opponents twice. Each team thereby having two wins and two loses, with a percentage of 500. The bally-hoo bird is doubtful as to who it to be on top.

Rev. J. and Mrs. Herdman and family returned on Monday from a visit in the south. Rev. Herdman has been attending the Methodist Convention recently held at New Westminister.

Mr. H. S. Munroe, is on a visit to Vancouver, where he will meet Col. J. T. Crabbs, executive Vice-President of the Granby Company. They will inspect the Copper Mountain property, and the Cassidy coal mine.

On Friday, May 1st, the Elks' football team won from the Mine with a score of 3 to 2. A tight, hard game all the way through.

Sam Brogan, on Wednesday, pleaded guilty before stipendary magistrate J. Conway to a charge of being drunk in a public place. He was fined $50.00 and costs or thirty days. He will serve the thirty days, constable Logan of Prince Rupert arrived on Thursday and escorted him south.

Miss Flo. Eld returned on Thursday from holidays in the south.

Mr. R. B. Roach, of the electrical department, left on Thursday for Copper Mountain.

Rev. J. Herdman while in Vanconver attended Dr. Price's Meeting having a seat on the platform, witnessing the cures. Mr. Herdman will have something to say regarding the subject at the Union Church Sunday night.

Mr. Jack Kelly, who has been shift boss at the smelter for a number of years, left the employ of the Granby Co. and was a passenger south on Thursday.

Mr. Martin Wells returned on Thursday from an extended visit to the south.

Mrs. L. H. Wencrstorn returned on Thursday from a visit to the south.

Mr. and Mrs. P. Clarke left on Thursday, for holidays in the south. They will visit several southern cities including Grand Forks.

Mr. Rudland left on Thursday en route to Copper Mountain.

Mrs. Chas. McLachlan left on Thursday for holidays in the south.

During the dry weather, be careful where you throw your lighted matches or cigarette ends, for a fire now started may lead to a serious conflagation.

Mrs. J. M. Davis has disposed of the Bluebird Cafe business. Mrs. Bryden having taken it over. Mrs. Davis will leave Anyox in about two weeks.

The price of copper is getting to be real interesting these days.

It seems to be painfully slow in going up, but the coming down resembles a meteor.

ALICE ARM NOTES

See Al. Falconer for Wood or Coal

Cleaning and Pressing—Mrs. P. Nordi.

Mr. Jaur, mining engineer, left on Saturday for Stewart, after inspecting several properties in the district. Mr. Jaur hopes to return later in the summer.

Mr. and Mrs P. McDougall of Anyox, arrived on Saturday last, and will spend several weeks enjoying the fresh air and scenery of the town.

Mr. E. J. Conway, mining engineer for the Granby Co. spent a few days in the district during the week.

Be careful of fire! A fire started at the present time may have disastrous results.

Wm. Bunting and Elmer Ness came down from the Horseshoe property during the week, where they have been locating a trail to the property. Mr. Bunting left on Thursday for a two week's trip to Vancouver.

Hand Laundry Work. Moderate Prices—Miss B. Crawford, Alice Arm.

A Davidson left on Tuesday for, the Wildcat property, in order to continue development work.

E. Skonsing, an old timer of the camp, arrived from Anyox on Monday, and left on Wednesday to spend the summer on his mining properties in the Kitsault valley.

Mr. J. Stronbeck left on Thursday, to commence the summer's operations on his mining properties in the Kitsault valley.

See Al. Falconer for Freight and Pack Horses.

Dan Kean, the well known pioneer trail builder at Alice Arm, left Prince Rupert last week headed

It is time that British Columbians awoke to the fact that the best field for investment in right in their home province. In the past, the people of this province have sent millions of dollars to the United States, for investment in bunk oil-stock, and numerous other get-rich-quick schemes in answer to the appeals of professional promoters and salesmen. They are now realizing that 9-10ths. of these companies were frauds, and in looking around at home they have found that nearly all the producing mines are controlled by foreign capital. The only reason for this state of affairs is that our neighbors from across the line realized the productivness of our mineral wealth and while the natives were feverishly buying real estate at inflated prices, foreign oil-stock, etc. these astute gentlemen were quietly going about their work, developing the mineral resources of the province which, had they been left to the people of B. C. to develop, would very probably be still lying undisturbed in the ground, and the busy mining camps dotted over the coast portion of the province would be the hunting grounds of the Indian. It is time the people of British Columbia realized the importance of their own province as a field for investment.

Be Careful with Fire

Now that the dry season is here again it behooves everyone to be careful with fire. To date 100 bush fires have occurred in the province and large areas of valuable timber land in the east are being swept clean of all vegetation, leaving a barren wilderness behind. Last year was the most disastrous year for forest fires in the history of the province. It is up to everyone to try and reduce this tremendous waste of our wealth as much as possible. Use extreme precautions at all times, for a small fire often leads to an enormous conflagation, causing a large loss of property and untold hardship to your fellow beings.

Anglican Church Ladies Hold Card Party and Dance

The Ladies Aid of the Anglican Church held a very enjoyable Card party and dance in the Elks Hall, on Friday, June 1st. The hall being beautifully decorated for the occasion by Mesdames Kelley and Eve, assisted by Miss Owens, Messrs. Ryan and C. Gray.

In the Bridge and whist drives prizes well worthy of the best efforts of any player were donated by Mrs. J. Tuttle, Miss M. Tassic, Messrs. L. F. Champion and H. Speight, The winners were for whist: Miss M. Macknight and Mr. W. Olsen. For Bridge: Mrs. C. McLachlan, Mr. H. Armstrong.

The Ladies Aid of the committee who served an excellent Lunch were Mesdames Krib (convenor,) Macknight, Foxley, Rice, Booth, Selfe, Watson, Henderson and Jenkinson.

The Ladies Aid wish to extend thanks to all those who assisted in making the affair such a success, especially the Elks who gave the Hall and every kindness possible.

Granby Company Bonds Mining Properties

An option has been taken on the B. C. Pyrites property, situated on Ecstall Creek, at the mouth of the Skeena River. This property has been previously bonded by the Granby Co. when they did extensive diamond drilling. The property is owned by the Dunsmuir Estate of Victoria, and the ore is composed chiefly of low grade copper.

The Granby Co. have also taken an option on the Lucky Four, group which is situated near Jones Lake, access to this property is by way of Chilliwack.

Dr. George Hanson of the Geological survey addressed the mining bureau of the Vancouver board of trade last week. He predicted that the Premier mine would be the centre of mining activities for some years to come. He is also optimistic over prospects for silver mining in the Alice Arm district. Though some of the properties are too small to be developed separately, he suggested that a consolidation of them might bring great results. Victor Dolmage, newly appointed geologist for B. C., and W. A. Carlise former provincial geologist, and later manager of the Rio Tinto copper mine in Spain, addressed the bureau.

Victor Dolmage, newly appointed in charge of the B. C. branch of the Dominion Geological survey has a long and meritorious record as a geologist. He graduated from the University of Manitoba in 1912. and then spent two years teaching in B. C. In 1917 he took a doctor's degree at the Massachusettes Institute of Technology, following which he again spent some time in B. C. before going to Ottawa in 1920.

Granby Co. to Develop Property on Skeena River

A deal is pending for a good prospect on Boulder Creek, ten miles from the railway and a few miles east of New Hazelton, between the Granby Co. and the owners, A. R. McDonald and Jos. Hicks, both well known in this north country. Eight claims are included in the deal, and if it goes through will mean a big boost for the mining industry of this district.

The Granby Co. has an option on the eight claims and this summer and fall will do considerable work on them to ascertain the depth. At the present time A. R, McDonald is doing the assessment work and after the snow is all gone the Granby people will send in an engineer to make an examination Last summer their engineer went over the property and sampled it. The results of the assay were very favorable, and, acting on his report, the company decided to investigate further and to spend some money in prospecting at depth.

The ore is a grey copper, with the chief values in silver. It is an exceptionally good ore for smelting and the surface showings are good.

The report published in the daily press on the coast during the week was very much garbled, but if the work to be done before the snow flies again proves satisfactory there is no doubt but that the big company will mine at Boulder Creek on a large scale.—Omineca Herald.

An optimist is a man who can enjoy the smell of limburger cheese.

BRITISH COLUMBIA
The Mineral Province of Western Canada

Has produced minerals valued as follows: Placer Gold, $76,542,203; Lode Gold, $109,647,661; Silver, $59,814,266; Lead, $51,810,891; Copper. $170,723,242; Zinc, $24,625,853; Coal and Coke, $238,289,565; Building Stone, Brick, Cement, $36,605,942; Miscellaneous Minerals, $1,358,839; making its mineral production to the end of 1922 show

An Aggregate Value of $769,418,462

The substantial progress of the Mining Industry in this Province is strikingly exhibited in the following figures, which show the value of production for successive five-year periods: For all years to 1895, inclusive, $94,547,241; for five years, 1896-1900, $57,607,967; for five years, 1901-1905, $96,507,968; for five years, 1906 1910, $125,534,474; for five years, 1911-1915, $142,072,603; for five years, 1916-1920, $189,922,725; for the year 1921, $28,066,641, and for the year 1922, $35,158,843.

Production During last ten years, $339,280,940

Lode-mining has only been in progress for about 33 years, and not 20 per cent of the Province has been even prospected; 300,000 square miles of unexplored mineral bearing land are open for prospecting.

The Mining Laws of this Province are more liberal and the fees lower than those of any other Province in the Dominion, or any Colony in the British Empire.

Mineral locations are granted to discoverers for nominal fees.

Absolute Titles are obtained by developing such properties, security of which is guaranteed by Crown Grants.

SYNOPSIS OF LAND ACT AMENDMENTS

Minimum price of first-class land reduced to $5 an acre: second-class to $2.50 an acre.

Pre-emption now confined to surveyed lands only.

Records will be granted covering only land suitable for agricultural purposes and which is non-timber land.

Partnership pre-emptions abolished, but parties of not more than four may arrange for adjacent pre-emptions with joint residence, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and make improvements to value of $10 per acre, including clearing and cultivation of at least 5 acres before receiving Crown Grant.

Where pre-emptor in occupation not less than 3 years, and has made proportionate improvements, he may, because of ill-health, or other cause, be granted intermediate certificate of improvement and transfer his claim.

Records without permanent residence may be issued, provided applicant makes improvements to extent of $360 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained in less than 5 years, and improvements of $10.00 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years are required.

Pre-emptor holding Crown Grant may record another pre-emption, if he requires land in conjunction with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, title to be obtained after fulfilling residential and improvement conditions.

For grazing and industrial purposes areas exceeding 640 acres may be leased by one person or company.

Mill, factory or industrial sites on timber land not exceeding 40 acres may be purchased; conditions include payment of stumpage.

Natural hay meadows inaccessible by existing roads may be purchased conditional upon construction of a road to them. Rebate of one-half of cost of road, not exceeding half of purchase price, is made.

PRE-EMPTORS' FREE GRANTS ACT.

The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under the Act is extended from for one year from the death of such person, as formerly, until one year after the conclusion of the great war. This privilege is also made retrocative.

No fees relating to pre-emptions are due or payable by soldiers on pre-emptions recorded after June 26, 1918. Taxes are remitted for five years.

Provision for return of moneys accrued, due and been paid since August 4, 1914, on account of payments, fees or taxes on soldiers' pre-emptions.

Interest on agreements to purchase town or city lots held by members of Allied Forces, or dependents, acquired direct or indirect, remitted from enlistment to March 31, 1920.

SUB-PURCHASERS OF CROWN LANDS

Provision made for issuance of Crown grants to sub-purchasers of Crown Lands, acquiring rights from purchasers who failed to complete purchase, involving forfeiture, on fulfillment of conditions of purchase, interest and taxes. Where sub-purchasers do not claim whole of original parcel, purchase price due and taxes may be distributed proportionately over whole area. Applications must be made by May 1, 1920.

GRAZING

Grazing Act, 1919, for systematic development of livestock industry provides for grazing districts and range administration under Commissioner. Annual grazing permits issued based on numbers ranged; priority for established owners. Stock-owners may form Associations for range management. Free, or partially free, permits for settlers, campers or travellers, up to ten head.

Attorney-General Addresses Retail Merchants Association

More faith in the natural wealth of their own country instead of blind investments in foreign securities peddled by glib salesman, would have meant a saving of millions of dollars to the people of British Columbia during the past three or four years, Attorney General A. M. Manson declared when addressing a meeting of the Retail Merchants Association.

"British Columbia is the last country in the world that can afford to lack business initiative," he said. "We are commencing to experience a period of wide spread industrial re-adjustment and yet we find that many of our most promising enterprizes, based on the natural wealth of the country, are passing into the control of foreigners. Have we no wealthy business men, or do they simply lack initiative and a pioneering spirit?"

Redistribution For B. C.

Premier Oliver and his cabinet have commenced the heavy task of redistribution of seats in the Legislature of British Columbia, and it is expected that at the next session of the House, which must commence by December 15 and probably will start in October, a bill will be introduced providing for a rearrangement of provincial representation. At the last general election there were less than 1000 votes cast in several ridings, while large electoral districts in some instances have only one member. No decision can be given out as to what changes will be made but Premier Oliver declares he is determined to solve the problem in such a manner that as to provide the fairest representation possible for every part of the province.

Mine Win Baseball Game, on Monday

The baseball game on Monday evening, between the Mine and Smelter was full of thrills from start to finish, the large crowd being held in suspense until the last inning was played, when the Mine scored the winning run, and won from the Smelter by a score of 4-3.

The Mine scored one run in the 1st. inning and the Smelter two. Neither team scored in the second, but the Smelter brought up their score to 3 in the 3rd. inning. This lead however, was not long-lived, for the Mine secured a run in both the 4th. and 5th. innings, thus tieing the score. It was now an exhibition of dropping flies, and overthrowing the bases, in fact a regular fiasco, with the Smelter making the most pitiful showing allowing the Mine to score the extra run in the 7th. inning. A lead which the Smelter could not overcome. The Gas Eaters lost through their play being poorer than their opponents, who took the long end of the 4-3 score.

The teams were:

Mine		Smelter
C. Ferguson	P.	Lee and McKeowan
G. Greenwell	C.	McKeowan
Olsen	1st. B.	Sinclair
Corckle	2nd. B.	McKeowan
J. Ferguson	S. S.	Brown
Mealey	3. B.	Mathewson
Allen	R. F.	Sheen
Stewart	C. F.	Cole
Anderson	L. F.	Mattix

Umpires: W. Olsen and G. Williscroft.

Big Mineral Production Predicted for this Year

Hon. William Sloan, minister of mines, has returned from the International Mining Convention, held at Spokane, where he delivered an address on mining in B. C., past and present. A special mineral display was taken to Spokane and no little was thus created in the great mineral wealth of this province. The minister claims that this will be the banner mining year in British Columbia, with a total production of from forty to fifty million dollars. British and American capital is becoming interested, while local investors are realizing that the finest investment opportunities on the continent are found within the borders of their own province.

Fur Industry to be Revived

The declining prosperity of the fur industry will be revived by strict enforcement of the game laws, according to Mr. Jackson, K. C. Chairman of the game conservation board. Plans are being matured to encourage fox farming. There are several iu the province, on Vancouver Island and the northern mainland. The cross fox is the most profitable breed to raise in B. C.

During the Last year Canada imported from the United States 18,101,620 tons of coal; exported 1,987,266 tons and produced 14,942,418 tons, valued at $4.97 per ton.

FOR RENT—at Alice Arm two tents 12ft. by 14ft. with board sides and floors; cook stove, beds, tables, chairs, etc. Ideal location for campers. $5.00 per week for the two.—Apply Herald Office.

FOUND—A scow, 12 ft. by 26 ft. with a depth of 42ins., floating adrift in the inlet of Alice Arm. Owner can obtain possession of same by applying to Mr. J. Wheatley, Alice Arm, after paying for cost of advertising and care of scow.

Atlin Electoral District

NOTICE IS HEREBY GIVEN that I shall, on MONDAY the 18th. day of June, 1923, at the hour of ten o'clock in the forenoon, at the Government Office, Anyox B. C. hold a Court of Revision for the purpose of revising the voters' list of the above named electoral district, and of hearing and determining any and all objections to the retention of any name or names on the register of voters for the said district.

Dated at Anyox, B. C. this 7th, day of May, 1923.

JOHN CONWAY.
Registrar of Voters,
Atlin Electoral District.

Alice Arm Notes

Continued from page 1.

for the Dease Lake country in Cassiar. Dan has spent the last two years in the hospitals of Ketchikan and Prince Rupert, following the breaking of his leg while alone in the wilds of Cassiar. The story of his misery while crawling through the bush to an Indian villiage, and his delay in reaching the coast is well known. Dan walks with a limp, but otherwise is O. K.

Those engaged in logging operations etc. across the inlet, have of late been put to considerable inconvenience through petty thieving from their boats at the float. Boats have also been taken during their absence and tied to gas boats the consequence being that the row boat was taken to another camp. Mail sacks have been tampered with, and it is the opinion of those having row boats at the float that this thing has gone far enough and unless these depredations stop some one is going to suffer. If anyone wishes to use a boat at the float, they should obtain the permission of the owner and if they are wise they will, in the future leave anything in the boats strictly alone.

Mr. N. Fraser of Anyox, who is interested in the Esperanza Mine, arrived in town on Thursday.

The total production of Petroleum in Canada during 1920 was 196,251 barrels of which 180,071 were from south western Ontario, and the remainder from New Brunswick and Alberta.

When Anyox Miners Play Football

BY A SPECTATOR

Last week, in the absence of thousands of spectators, myself and another unfortunate fellow who conldn't resist the lure of a game called (combination) were the sole witnesses of a most spectacular exhibition, between the underground, commonly known as (Ground-hogs) and the surface, more popular known as (Find-em-if you-can) Which after three hours strenuous play inevitably resulted in a six all tie.

It would be impossible to give you a correct line-up as there didn't seem to be any special order, there seemed to be an endless supply of reinforcements we counted as many rs 16 on one team and it was every body for himself it was kick-bite gouge and swallow the ball if you could get it, which brought loud wails of protest from the railway track as there happened to be a train passing at the time. Right from the commencement of the game it was plainly to be seen that the spectators were going to get their money's worth, and up till the time that some of the more venerable Gentlemen were beginning to tire, one could hear all sorts of murmurs of wonder and surprise, and we fully expect that the management of the regular Football team will experience much difficulty in choosing thr right line up in the future.

The game was in progress when we arrived at the grounds having been delayed at the approach to the grounds by the multitude clamoring for admission, but on entering the first big surprise we got, was to see J. Wholesome, (the doughnut artist) guarding the nets for the Hogs, there was much speculation as to how he came to be there, some were inclined to think that he had got over excited and had wandered into the arena by mistake, but he soon settled all doubts as to what he was doing there, one glance at the advancing line, and behold the Peckers are coming fast and furious, and then we were treated to our second big surprise, A SHOT! BANG, and away goes the ball sailing into midfield. Jack has cleared beautifully and from then on it was DING-DONG with the ball out of play most of the time.

Another promising star was also seen in action by the name of L. McBull (more popularly known as a dollar he doesn't point) who after playing a brilliant game in the first half at Full-back for the Hogs retired to the goal for the remainder of the game, on the referee awarding the Peckers a penalty kick after much altercation and ultimately getting the mob behind the line! A. Pin was seen to be rushing at the ball with a terrific kick, but it was of no avail, Mac. was seen to make a spring which resembled a kangaroo doing the African war dance, and Zoie, saved; which brought forth tremendous applauses and another star became famous.

Mr. Lunge was also seen in action, who started at outside-left for the Hogs, but later on moving back to the defence, who had to be warned several times for the desperate lunges he made at some of his opponents, he gave one the impression that he was trying to

Lack of space cuts this dead,
We can't print half he said.

Annual joke: A corn on the cob is worth two on the toe.

The skull and bones of a man have been found on Hudson Bay Mountain, near Smithers. It is thought that the remains are of a man named Dow, who was acting as timekeeper on one of the construction gangs when the G. T. P. Railway was being built, and who mysteriously dissapeared.

FOR SALE

Three-roomed House and Lot at Silver City, completely furnished with beds, springs, mattresses, chairs, tables, cook stove and heater, cooking utensils, garden tools, etc., also garden with berry patch, and wood shed. Price $600.00, with terms. A bargain.—Apply Herald Office.

The change of season makes necessary a change of clothing

The secret of good beer lies in purity---

That's why Cascade Beer has for 35 years been British Columbia's favorite health beverage. No expense has been spared to ensure purity. It has cost a million dollars to build a plant to accomplish this. But after testing Cascade Beer, you agree that it has been worth it.

Insist Upon CASCADE

Did You Think

What the Smoke-filled valleys meant to you last year?

What the timber charred, burned, and blackened means to YOUR future?

That the wages paid last year for the tie crop along the Grand Trunk was approximately $383,000?

That the forest will remain a source of revenue to you if kept green?

Then be careful with fires. Do not destroy your own livelihood.
