Riot of Color and Fun at Mine Masquerade

The big Masquerade Dance held at the Mine Hall, on Monday evening, under the auspices of the Mine Club, was one of the liveliest affairs ever sponsored by the Club.

A record attendance, far in excess of what was anticipated, in view of so much sickness in camp, crowded the floor to capacity.

The interior of the hall was a riot of color. The ceiling and walls being resplendent with multicolored decorations, and the gorgeous colors of the costumes worn by the dancers, produced on inspiring and stirring sensation.

A large number of those present were garbed in original costumes, clowns and convicts, red men and yellow men, milkmaids and other maids, princes and pierrots laughed and danced their way through the evening.

A large number of friends from the Beach were present, which greatly enlivened the evening.

The committee in charge are to be complimented on the evening's success, and even if there were not quite enough refreshments to go around, how were they to know that such a large number would be present.

Following are the prize winners:

Best dressed lady: Miss Helen Wall.

Best advertising costume, lady: Mrs. Fitch—Millbank Cigarettes.

Most original comic, lady: Mrs. Walter Jones.

Best dressed gentleman: Dr. R. P. K[illegible]han.

Best advertising costume, gentleman: Dick Stubbs—Wrigley's chewing gum.

Most original comic, gentleman: James Foxley, senr.

Miss Lena Mitchell was the winner of the "Lucky Spot" dance.

The judges were Mr. and Mrs. J. A. Swanson, Mr. and Mrs. F. S. McNicholas, and Mrs. Garton Crow.

J. T. Evans, headed the committee in charge of the dance; Mr. Garton Crow was floor manager.

The Melodians Orchestra supplied the music.

High Assays From the LaRose Mine

The LaRose mine, which has received widespread publicity during the past few months, contains values that will compare favorably with any high grade silver mine on the continent.

An ore sample was recently sent for assaying to the Colorado Assaying Co. of Denver. and the returns received gave the following startling results:

Gold .28, value per ton $5.60.

Silver 770 ozs., value per ton, $515.00.

Lead 20 % value per ton $32.00.

This gives a value per ton of $552.60.

Another sample sent to the Granby Co. at Anyox gave returns in silver even higher than the above. A total of 911 ozs. of silver per ton being obtained.

Assay returns from the low grade, which will eventually be milled at the mine, gave from 29 ozs. to 128 ozs. silver per ton.

The raise from the tunnel to the surface is still being driven, and latest reports from the mine, were to the effect that the high grade vein averages two feet in width. Over 60 feet of the raise has been driven, and another 80 feet is necessary before the surface is reached.

Young Lad Meets Death by Drowning

A very sad drowning fatality occurred at Anyox on Sunday afternoon, when Wilfred Teabo, aged 8 years met his death in Falls Creek, near the Mess House.

It appears that deceased with three other small boys were throwing rocks in the water at high tide, when he overbalanced and fell in. Some time elapsed before the alarm was given, and no trace of him could be seen, the water being muddy with the tailings from the concentrating mill.

Police constable W. Smith arrived on the scene and succeeded in bringing the body to the surface with an improvised pike pole.

Although artificial respiration was resorted to for a considerable time by F. C. Graham, first aid attendant at the smelter, and later by Dr. D. R. Learoyd, the heart could not be forced to beat.

At the Coroner's inquest held at the Court House by Coroner R. M. McGusty on Monday, the jury after listening to all available evidence, returned a verdict of accidental drowning. Those serving on the jury were W. F. Eve (foreman) J. Hutchings, M. Cranley, J. Miller, D. Adams, E. Moss.

It is regettable that so young a life should be suddenly cut off, and the heartfelt sympathy of the whole community goes out to Mr. and Mrs. F. Teabo and family in their sad bereavement.

The funeral was held in the Anyox cemetery, on Wednesday afternoon at 2.30 p.m. The body was conducted from the Morgue to the Christ Church, and six Boy Scouts acted as pall bearers. The coffin was draped with white velvet, and children's prayers were said by the Rev. J. S. Brayfield. The hymn sung was "Forever with the Lord". Just before the close of the Service the Rev. Brayfield took up his position standing behind the coffin while the congregation said the "Nunc Dimittus."

The pall bearers approached the coffin and carried the remains out of the Church to the hearse, followed by the mourners, the Boy Scouts, and the rest of the congregation, most of whom marched to the cemetery. The Service was very impressive.

The Burial Service was read at the grave by the Rev. Brayfield.

Farewell Card Party and Dance Held at Alice Arm

A farewell card party and dance was given at the Alice Arm Hotel on Saturday, evening in honor of Mr. and Mrs. S. F. D. Roe and C. Warner, of the Royal Bank staff who were leaving town.

There were six tables of bridge, and the prize winners were, Mrs. J. Trinder and Mr. Ole Evindson. A. D. Yorke won the consolation prize.

Following cards, dancing was indulged in and a very delightful evening was brought to a close at midnight.

During the evening, H. F. Kergin gave a short address in which he said how sorry they were to lose such valuable citizens and wished them all the best of good luck and prosperity in their future life.

The local Moose Lodge will in future hold their regular meetings in the Elks' Hall, which they have been fortunate enough to secure. Meetings held 2nd. and 4th. Wednesday in each month.

The Dolly Varden mine has been leased to Col. Victor Spencer of Vancouver, states the Mining and Engineering Record, published in Vancouver. Numerous reports have been circulated during the past few months, regarding early operations, but the above report is the first that has been published. Col. Spencer was one of the big shareholders of the Taylor Mining Co. Up to the present no word has been received locally as to the extent or date of operations.

Alice Arm Properties Sold in Vancouver

Although the summer season has not yet commenced, a keen interest is being taken in Alice Arm mining properties in Vancouver and southern cities.

A. McGuire returned on Monday from a short business trip to Vancouver, and during his stay in the south he disposed of three different properties.

The three properties comprise the Eagle, Le Roi and Silver Cord groups.

The Eagle is situated on Haystack mountain, near the LaRose mine, and comprises four claims. It is about 3000 feet from the Dolly Varden railway, and lies at an elevation of about 1700 feet.

The ore veins on the property vary from 4 to 30 feet in width. They have been crosscut in 13 different places and stripping has also been done. The ore carries galena, argentite silver and some copper.

Development work will shortly commence on the Eagle. The first work being, the building of a large cabin.

The Le Roi group is situated about 12 miles from Alice Arm, on the North-east fork of the Kitsault River. It comprises 8 claims, and is located in one of the most promising mining regions of the camp. Assays from samples have given returns from 17 to 240 ozs. silver per ton.

The Silver Cord of 2 claims is also situated on the North-east fork and is about six miles from Alice Arm. A good pack trail is available to the property.

The principal vein on this property is over 50 feet wide, and well defined in or on the contact of schist and altered diorite or greenstone, and traceable for almost the entire length of two claims. This big body of ore has given values of $8.00 and $10.00 per ton. It is expected that when depth has been attained that values will considerably increase.

These three properties have been purchased by W. G. McMorris of Vancouver. He originally organized the La Rose Mining Co. and is a well known mining man of Vancouver.

Fire Narrowly Averted Alice Arm

The Anglican Church narrowly escaped destruction from fire on Sunday morning, when the attic caught fire, due to defective stove pipe. Wm. Burke was the first on the scene and his prompt action saved the building from being destroyed.

Badmington Popular Anyox Winter Sport

A large number of Anyox people are enjoying a new indoor sport this winter, badmington being the game which is holding them in its thrall.

The game came into existence about Christmas time and quickly proved exceedingly popular. It commenced with only four or five members, but at the present time its devotees number over 50.

Games are played by both sexes at the Community League Gymnasium during the following hours: Monday and Saturday, 6.30 to 10.30 p.m. Tuesday Thursday and Friday from 1.30 to 3 p.m.

Recently the rules governing the game have been changed and the new rules permit a much more strenuous game, than was formerly the case.

A ladder series has been conducted during the past two months. Games being played with mixed doubles. Six games have been played, and four more will complete the series.

The new game is affording a lot of healthy exercise, and its originators are to be congratulated on introducing another winter sport in camp. Badmington, with its new rules is becoming a popular indoor sport throughout Canada and the United States.

Following are the scores of the games played on Wednesday afternoon.

Mixed Doubles: Mrs. M. Bryden and F. Brown, 14; Mrs. H. Selfe and Mr. Watson, 15.

Ladies' Doubles: Mrs. Roy and Mrs. Kirby, 13; Mrs. Deane and Mrs. Evans, 15.

Ladder games played: Mrs. Crone and F. Brown won from Mrs. Self and J. Wilson 13-15 Miss McGillary and Mr. Rudland won from Tommy Cloke and Mrs. Kirby 12-15. Mrs. H. Armstrong and J. Grigg lost to Mrs. Bryden and W. Robertson, 8-15.

High tea was served at 4.15 p.m. by Mrs. B. M. Buck, assisted by Mrs. D. Deane and Mrs. Evans. Play was then continued until 5 p.m.

ALICE ARM NOTES

See Al. Falconer for Freight and ack Horses

Mrs. B. Turbitt was a passenger to Prince Rupert on Monday.

A. McGuire returned home on Monday from a business trip to Vancouver.

Bert Kergin left on Monday for Stewart, and returned home yesterday.

C. Warner of the Royal Bank staff left on Monday for Vancouver.

Mrs. J. C. Hanna was a passenger south on Monday for Vancouver, where she will undergo an operation.

Mr. and Mrs. S. F. Roe left on Thursday for Vancouver. Mr. Roe was manager of the Royal Bank, and their departure from town is sincerely regretted.

See Al Falconer for Wood, Coal and Lumber.

BIRTH AT ANYOX

Born to Mr. and Mrs. S. Pamplin, at the Anyox Hospital, on Monday, March 1st. a daughter.

Anyox High School Defeat Prince Rupert

The results of the Anyox-Prince Rupert High School Basketball series, were that the Prince Rupert High School girls won on points, and the Anyox High School boys on games.

In the recent games played, at Prince Rupert, the Rupert girls won the first contest 17-9. The second night the Anyox girls playing a hard game throughout won a well deserved victory 10-7, The line ups of the girls' teams were:

Rupert: L. Frizzell, E. Dolby, J. Walters, M. Kergin, V. Smith, J. Grieves, H. Sims, A. Menzighorr.

Anyox: J. Morley, T. Deeth, J. Calderone, B. Chapman, M. O'Neill — Calderone.

In the boys' games the first night's game was halted early in the half because of the lights going out. The Rupert boys were leading 18-11 when the play stopped.

In the second game the Anyox boys playing a steady combination game won a 23-14 victory over the Rupert squad. The Katsuyame brothers turned in wonderful exhibitions at guard, only two baskets scored against them in both games by Anyox forwards.

Rupert: A. Mitchell, H. Walker, B. Matheson P. Baisler, C. Thompson, Y. Katsuyame, I. Katsuyame.

Anyox: E. Clay, S. Asimus, S. LcLachlan, A. Lindgren, J. Lazorek, T. Swanson.

All games were played in the Exhibition Hall, with Eddie Mann handling the whistle.

Both nights between games twenty Rupert High School girls with Alex Mitchell as instructor put on a physical drill which was very well executed.

By way of entertainment a dance was held on Friday evening, a house party on Saturday night and a banquet on Sunday afternoon, the Anyox players sailing on Sunday night on the Camousun.

Esperanza Ore Gives Good Returns

Smelter returns of ore shipments from the Esperanza Mine, which were recently made to Anyox, have been received by V. Stella, T. Mack and associates, who made the shipments.

A total of 12 tons of low grade and 1¾ tons of second grade ore were shipped. The low grade realized $47.37 per ton, and the second grade $131.46 per ton.

These figures are very encouraging, and as much ore as possible will be mined up to the end of May, when the present lease on the property expires. A nice vein of high grade ore is being mined in the No. 3 tunnel.

CARD OF THANKS

Mr. and Mrs. Frank Teabo wish to take this opportunity of thanking their many friends for sympathies extended them during their recent sad bereavement.

The re-election of all officers of the Anyox Community League, at their recent annual meeting, is indeed gratifying. This result clearly defines the fact that the officers of the League have given the members satisfaction, and it eloquently shows that the good management attained last year has been appreciated by the members. It also emphatically determines that good judgement has been shown in discussing problems that has arisen, and that no single one holds any malice against another on account of non-agreement of certain points while being discussed. The present council was the most smooth running that has yet sat in office. The best of good feeling prevailed, and consequently, good results were attained which otherwise, would not have been the case had constant bickering been the chief business at the meetings. This happy state of affairs will again be the case this year, which greatly assists the secretary in his manifold duties, and which will again add materially to the popularity of the League.

We frequently hear, both in the press and from public speakers, criticism regarding the non-enforcement of a number of our laws, especially the laws regarding the sale of liquor. We also hear the same thing from individuals in our everyday life, but although an enormous amount of energy is wasted in idle talk, no one takes any public actien to help remedy this laxity. It does not matter what. Act is passed by the legislature, if the big majority of the people are against enforcement it is impossible for the law to be strictly enforced. Moral conditions in any town in British Columbia are mainly as the majority of the residents desire them to be.

Britannia Company Had Good Copper Output Last Year

Britannia property of Howe Sound Co. in 1925 sent to mill 994,113 tons of ore averaging 1.65 per cent copper and 0.17 ounces silver a ton, from which were recovered 143,517 ounces of silver and 29,208,580 pounds of copper, so that the ore yielded $4.39 a ton in recovered metals. This compares with 843,987 tons in 1924, averaging 1.8 per cent. copper and .017 ounce silver a ton, from which were recovered 125,687 ounces of silver and 26,398,539 pounds of copper, ore yield being $4.32 a ton in recovered metals.

All that totters is not old.

Californian Publication Speaks Well of B. C.

The following article appeared in the Southwest mining News published in Los Angeles. It shows that our American cousins are alive to the vast possibilities of the mining industry of B. C. This is the kind of publicity that obtains results.

"The mining industry of British Columbia is in better position than at any previous time in its history due in very large measure to the fact that initiative of the individual is encouraged and every possible governmental aid extended to those who endeavor to increase the output of the province. There the small operator and the prospector are classed among most valuable citizens, just so long as they conduct their efforts honestly. When they do not, the criminal laws are set in motion, without delay and without respecting persons, and prosecution is prompt and entirely to the point. As a result, the industry is conducted upon a cleaner basis than in any state on this side of the international line, where foolish, unjust, destructive and sumptuary laws have abrogated constitutional rights and paralyzed the spirit that must be encouraged if the mining industry is to prosper.

Last year, Canada—and that means British Columbia—produced ten per cent of the world's lead and seven per cent of its zinc from the great plant of Consolidated Mining & Smelting Co. at Trail. By far the greater part of that output was derived from the Sullivan mine in the East Kootenay, owned outright by the smelting company. There is unanimity of opinion that this is the greatest property of its kind in the world and it is very certain that for many years to come—surely many decades—it will continue to keep the province in the front rank of producers of those metals."

Last Year's Wheat Crop Second in History

Canada's wheat crop of 416 million bushels in 1925 was the second largest in her history, and much more than in 1921. Canada is now the world's chief wheat exporter, and holds the key to the food supply of the world. Canada's average wheat yield for 23 years, of 17.8 bushels, heads all countries; the United States being next with 14.1; Argentine, 10.6; Russia, 9.4. Canada's wheat crop value for 1925 of $1,230,500,000, was 235 millions over 1924.

Geo. Clothier Will Lecture on Mining

Geo. A. Clothier, district mining engineer for the North-western mining district, will give an address at the Vancouver Board of Trade Hall, on Friday, March 26th. His subject will include Alice Arm, Stewart and Atlin districts, also the Gold Pan area of the latter district. The address will be given under the auspices of the B. C. Chamber of Mines.

Canada's silver production has been the greatest within the Empire for two decades.

Copper Export Co. Plans to Raise Price

Formation in the United States of a Copper Export Association with the view of controlling and stabilizing conditions in the foreign markets, is likely to have a beneficial effect on the mining of the brown metal in British Columbia.

Representatives of practically all American producers, including those from custom smelter companies and some European and South American operators sat in on the discussions preliminary to the formation of the association.

It is regarded as possible to raise the price of copper about one cent a pound by the operation of such an association, from 15 1-4 to 15 1-2 cents being the new prices suggested as likely.

Notwithstanding that for the past two years world's consumption of copper has been greater than world production price of copper averaged only 13 1-4 cents a pound delivered in 1924, and 14 1-2 cents in 1925.

With a price of 15 1-2 cents a pound, 10 per cent. more copper would be recovered from practically all ore bodies now being operated than is economical to save with price of copper averaging less than 14 cents a pound.

An increase of one cent a pound would represent a gain to the industry in British Columbia of $750,000. The 1925 copper production in this province was approximately 80,156,000 pounds, and if there is an increase in price, such as is suggested, coupled with the normal annual increase, the production of the current year may reach the 100,000,000 pound mark.

Where Canada Leads

The bankers' Trust Company of New York says that Canada is the only country where income per capita is now greater than before the war, having risen from $250 to $251, while those of Great Britain and the United States have fallen.

Canada's death rate is one of the lowest in the world.

Hints for Basketball Players

"Get rid of the ball!" is good advice, because basketball is a teamwork game, boys. The ball invites trouble and many games are lost because the ball is held too long before passing. The short, fast passes are one of the most interesting features of the game.

Holding the ball will be eliminated if the quick pass game is played but it means that the players will have to "keep loose" from a guard and keep moving. Pass the ball in such a way that your player can reach it before the opponent—if possible, so your man is between the ball and his opponent.

Pass it also in a way that the player may make his next move quickly, without awkwardness. Do not pass it in such a way that time must be lost in catching, or so that the one who receives it must slow up to get it.

The two handed snappy pass is better than the one-handed pass. It ensures accuracy and can be made more quickly since the ball can be received and passed on with the same motion. It is passed with a wrist and elbow movement from the chest.

A one-handed pass may be made longer and with greater force, but the quick pass is far more in use. If there is a real good chance to use this long pass do not hesitate to do so. Do not let the long pass become a habit, however.

SYNOPSIS OF LAND ACT AMENDMENTS

PRE-EMPTIONS

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emptions is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 5,000 board feet per acre west of the Coast Range and 8,000 feet per acre east of that Range.

Applications for pre-emptions are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emptions must be occupied for five years and improvements made to value of $10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

PURCHASE

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price of first-class (arable) land is $5 per acre, and second-class (grazing) land $2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

HOMESITE LEASES

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

GRAZING

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free, or partially free, permits are available for settlers, campers and travellers, up to ten head.
