Arts and Crafts Exhibition Was Huge Success

The Arts and Crafts Exhibition, held by the Anyox Community League on October 9th and 10th, in the Gymnasium was a complete success.

The number of exhibits of the handiwork of local residents, being of such quantity and quality as to make a trip to the exhibition well worth while, and everyone who went to veiw the exhibition were very agreeably surprised, and a great deal of appreciation was expressed by the public to the Committee who were responsible for the splendid success.

Fancy work, quilts, bed spreads, mats, etc., made up a large number there being hundreds of dollar's worth of goods on display, and it represented many years of work. One of the interesting features in the fancy work was several exhibits made by men, which received many favorable comments.

A very interesting collection of photographs and views, taken and developed by local amateur photographers, were on display, the workmanship being equal to anything in this line to be seen anywhere. In this section of the exhibition were also oil paintings, water colors, sketches, cartoons, and pencil drawings, which were also excellent.

Another interesting display was several miniatures in hand carved ivory, and several pieces of fancy fret-work, also a number of trays etc., of beaten copper, all of which were expertly executed.

The efforts of the Anyox Community League in putting on an event of this kind cannot be too highly commended, as it not only gives everyone something worth while to see, but also shows what can be done in our odd minutes of spare time.

The exhibitors themselves are also entitled to much praise for their fine work, as well as for their willingness to put this work on display, and help make the exhibition the real success it was.

The annual Dance of the Anyox Ladies' Hospital Auxiliary will be held on Friday, October 31st. at the Gymnasium. All proceeds are for the purpose of providing comforts for Hospital patients. A most worthy cause. Buy a ticket. It only costs one dollar.

Anyox I. O. D. E. Hold Meeting

The regular monthly meeting of the Collison of Kincolith Chapter I. O. D. E. was held in the Legion Club Room on Tuesday, October 7th at 2.30 p.m. The Regent Mrs Lang, conducted the meeting.

Committees were formed for the Cabaret Dance to be held in the Gymnasium on November 21st.

Mrs. Hill of Victoria was nominated to act as delegate for the Chapter at the coming Provincial Convention of the I. O. D. E. to be held at Burnaby.

Mrs. Hill, Provincial Councillor was a visitor at the meeting. Nominations for a captain of the Girl Guides was postponed until the next meeting.

A letter from the Legion was read, inviting the chapter to attend the annual Armistice Parade to the cemetery which was accepted.

A motion was passed that a letter of thanks be sent to the Legion for granting the chapter the use of their clubroom for the regular monthly meetings.

Tea was served by Mesdames Fricker, Evans, and Harman. The meeting closed with the National Anthem.

Renowned Artist At Tonight's Show

"The girl with the red-gold hair and the sea-green eyes," known to the musical comedy world as Jeanette MacDonald, has gone "talkie" through a whim of fate. Ernst Lubitsch, the famous director, went in search of a proper leading lady for Maurice Chevalier for "The Love Parade," the screen's first original musical romance. In New York Lubitsch attended every musical show and every show in production in search of the perfect type he desired for the role of Queen Louise.

At last he decided that Jeanette McDonald was the perfect type. She was beautiful, she was a talented actress and she could sing. She was just finishing an engagement in the Broadway show "Boom! Boom!" and was immediately placed under contract for "The Love Parade."

"The Love Parade," which brings Maurice Chevalier to the Anyox theatre on Saturday is an original musical romance. The story ia as smart and sophisticated as tomorrow's newspaper and brings a new type of picture to the talking screen.

Canadian Copper Output Shows Increase

The Dominion Bureau of Statistic's report on Canada's leading mineral products for July records increased outputs of copper, nickel, petroleum and zinc, in comparison with the production in July, 1929.

Canadian copper producers reported an output of 26,154,536 pounds, an increase of 0.2 per cent over the total for July, 1929. The production in Ontario was 10.95 million pounds; in British Columbia 7.91 million pounds, and in Quebec and Nova Scotia, 7.28 million pounds. The monfh opened with electrolytic copper quoted at 11.725 cents per pound in New York; on the fifteenth a decline to 11.025 cents was recorded, and from the seventeenth to the end of the month the price was steady at 10.775 cents per pound.

E. Ross Oatman, of the Department of Public Works, Anyox has taken charge of the Government Agents office at Anyox, since Mr. H. B. Campbell left for Kelowna. Mr. Oatman will also transact the clerical work of the Public Works Department during the winter months.

Mr. and Mrs. F. F. Brown returned to Anyox on Wednesday from Victoria. Mr. Brown recently suffered the loss of his mother at Victoria, and was hurriedly called south.

The annual dance of the Anyox Community League Tennis Club will be held on Friday next. The Tennis Club members are unequalled entertainers and an enjoyable evening is assured.

Bore: "You know, I'm funny—always throw myself into anything I undertake."

Pretty Girl: "How splendid! Why don't you dig a well?"

Catholic Ladies Hold Successful Party

On the evening of Friday, October 10th, the Catholic Ladies' Club held the second card party and dance of their winter entertainments.

As usual with these events, it was a complete success, a good number being in attendance both for the cards and the dancing.

The Prize Winners at the cards were: Ladies' First, Mrs. Kirby; Gent's First, Mr. J. Wynne Ladies' Consolation, Mrs. Gorman; Gent's Consolation, Mr. Mike Cranley.

The music for the dancing was provided by J. Peel's orchestra, and was up to its usual high standard.

The next of these enjoyable monthly events will take place on the second Friday in October. Don't forget this date. Don't forget to come along, or you will miss a very pleasant evening.

ANYOX NOTES

L. W. Laing, A. D. McGillivray and A. E. Rolston were among the arrivals on Wednesday.

V. N. Hunter arrived from the south on Wednesday's boat to take up his duties in the General Store.

Mr. and Mrs. Hill left for the south on Wednesday's boat.

Mr. George Pearson and Mr. Elmer Perrin left for Vancouver on Wednesday night.

Among the departures on Wednesday evening were Mr. C. H. Fogg, Mr. D. J. Mugford, Mr. P. Blanche, and Mr. F. B. Wetherill.

Archie Berry left for the south on Monday's boat.

C. S. Craddock and Morley Shier of the Canadian Giant Powder Co. were arrivals on Monday.

Amongst the arrivals on Monday were A. Gordon, R. Boyes, R. C. Hanley, L. Rustace and J. S. Mc Millan.

S. J. Jabour arrived on the Catala on Monday from Prince Rupert.

A. Clements, Assistant Manager of the Union Steamship Company, was a passenger on Monday's boat. He is making a tour of inspection of the Northern B. C. ports. He is accompanied by Mrs. Clements.

Mr. Steve Robston, of the Paramount Motion Picture Company, was an outgoing passenger on Monday.

Mr. H. B. Campbell, who has acted as government Agent here for some some time left on Wednesday for Kelowna. He will take charge of the Government Agent's office there.

F. Hill left on Wednesday for Vancouver.

League Council Dispose Much Business At Meeting

The Council of the Anyox Community League transacted an unusual large amount of business at their meeting on October 8th.

Although no big problems were on hand for discussion or disposal numerous small ones consumed considerable time.

It was decided to make a donation toward the Hospital Garden Association which is sponsored by Ed. Ashton.

It was also decided that organizations renting the Gym. would be charged for cleaning up after the event had been held. This decision was due to the unsatisfactory methods previously in vogue, where those renting the Gym, were supposed to leave everything clean and tidy, which was not always the case.

The annual Hallowe'en Masquerade Party given by the League to the children of Anyox will be held at the Gym. on October 31st.

Following the children's party, the annual dance given by the Ladies Hospital Auxiliary, in conjunction with the League will be held.

The Council decided that no charge would be made to members of the League participating in the physical culture classes, and new apparatus will be installed. Jerseys will also be purchased for the use of the players of the basketball teams.

In order to assist local basketball players in improving their game, it was suggested that a picture film be procured, showing first-class players in action.

Golf Championship Game Tomorrow

In the semi-final playoff of the Anyox Golf Club, S. Peters won from D. Cavalier, and C. O. Fricker won from H. C. Smith. The final between these two expert players will be held on Sunday, October 19th. This game will provide much interest among local golf players.

CARD OF THANKS

Mr. and Mrs. L. H. Wenerstrom wish to convey their sincere thanks to all their friends for the kind expressions of sympathy and beautiful floral tributes received during their recent sad bereavement in the loss of a beloved baby.

Plans Made for Disposal Of Unemployment Fund

Ottawa, Ont., October 11th; (Special to the Herald.) Co-operation between Dominion and Provincial governments to reduce unemployment will be in full swing before the advent of winter.

Five provinces have already negotiated their agreements with the Dominion as to the amount of Federal aid which will be given and the terms upon which it is to be granted. In addition the Dominion has undertaken to guarantee interest charges on branch line construction work by the Canadian Pacific and Canadian National Railways.

While four provinces are still to complete their agreements, it is estimated here that the $20,000,000 voted by parliament last month as an emergency relief measure will result in gross expenditures of approximately $65,000,000 upon undertakings that would otherwise have been delayed one, two or three years. In the type of works being encouraged the percentage paid out in primary wages will represent about $50,000,000 and this, through re-circulation is expected to exercise an important influence in reducing actual hardship.

Insofar as the provinces and are concerned works programs are being pushed ahead as last year, while the guarantee to the railways means an immediate start on a program projected for three years hence and involving an outlay of appoximately $20,000,000.

The staff of the Department of Labor has been extended to take charge of Canada's largest relief effort, for the $20,000,000 voted for the purpose in September is twenty times as great as any previous outlay for the purpose. The work involved here, however, largely devolves upon the Minister of Labor in allotting the appropriations. Actual administration of expenditures passes to the provinces and once the allotments are decided the work here becomes very largely clerical.

Dunning Joins Insurance Co.

Announcement has been made from the head office of the Ontario Equitable Life and Accident Insurance Co. that Hon. Charles Dunning, former minister of finance, has been elected a director and vice-president of the company and will be actively associated in its work.

Judge: "Have you anything to offer the court before the sentence is passed upon you?"

Prisoner: "No, me lord. Me lawyer took me last dollar."

Promotions Made In Britannia Co. Staff

C. V. Brennan, mine superintendent of Britannia Mining & Smelting Company, with a very large operation on Howe Sound, has been appointed assistant general manager of the Britannia Mining & Smelting Co. Ltd., Chelan Copper Mining Co. and other Howe Sound Company subsidiaries in this section of the Northwest.

The appointment was made because of increasing expansion of the Howe Sound Company interests in this area Mr. C. P. Browing general manager, reports.

Recently mine superintendent and chief engineer in charge of exploration work, Mr Brennan has been with the company for more than six years. He is a mining engineer, graduate of McGill University, and has had experience in both Canada and the United States.

Mr. Brennan is well known in the Alice Arm district, visiting here on several occasions in connection with the Toric mine operations.

Noranda Smelter Will Utilize Smoke

Toronto—Contracts have been closed for the erection at Noranda Mines of a special addition to the smelter which will recover precious metal's residue and by-products. The new unit will be created at the base of the smokestack and will process the smoke to recover such particles of dust or chemicals as will provide a valuable recovery apart from the regular smelting operations. Equipment for this particular operation was installed by International Nickel at its copper cliff refinery, and was the first of its kind in use in Canada.

Western Precipitation Co. of California holds the contract for the equipment necessary to this undertaking, while Disher Steel Construction Co. of Toronto will handle the steel and concrete work for the building. No definite estimate could be obtained as to the cost of this undertaking, but it is believed to be in the neighborhood of $250.000.

"Is this train ever on time?" growled the grouchy passenger.

"Oh" replied the conductor, "we never worry about it being on time. We're satisfied if it's on the track."

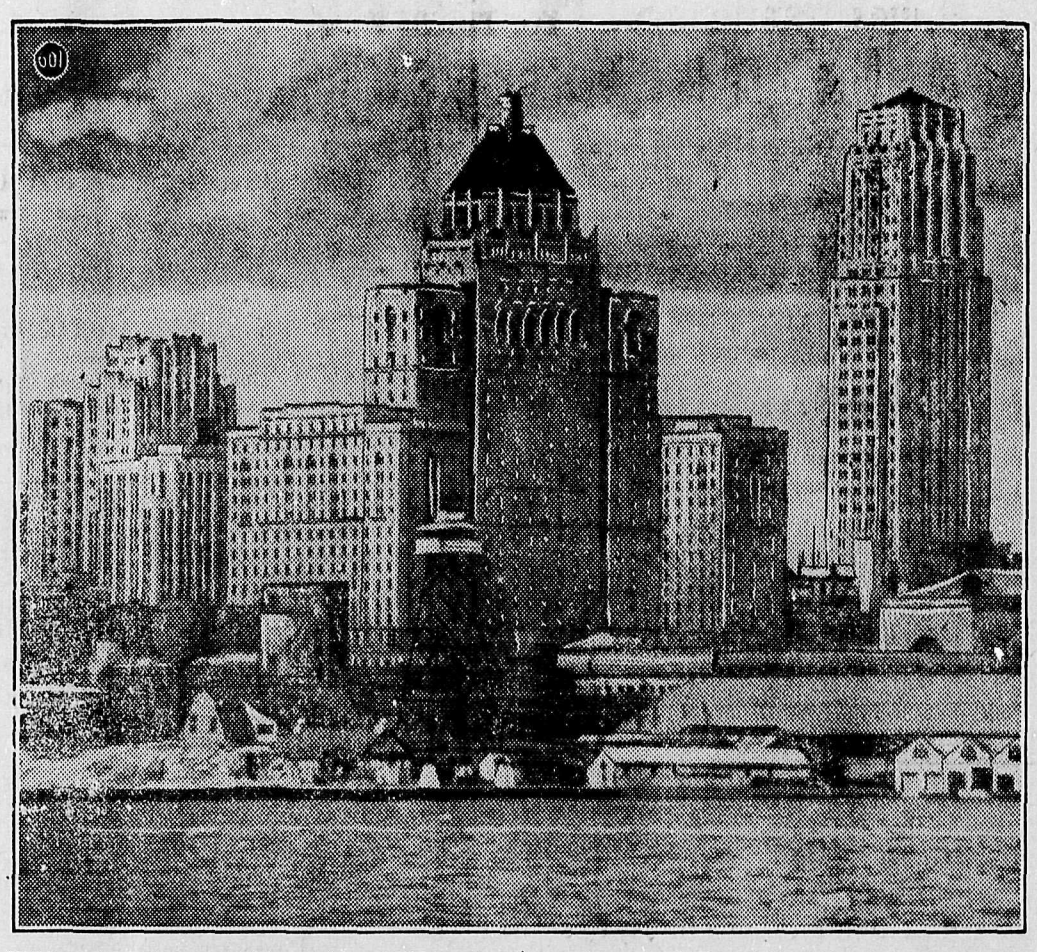
Ottawa—There are now 423,557 radio receiving licences in effect in Canada, which number is 107,589 more than the previous year.

The person who pines over his hard luck needs to spruce up a bit.

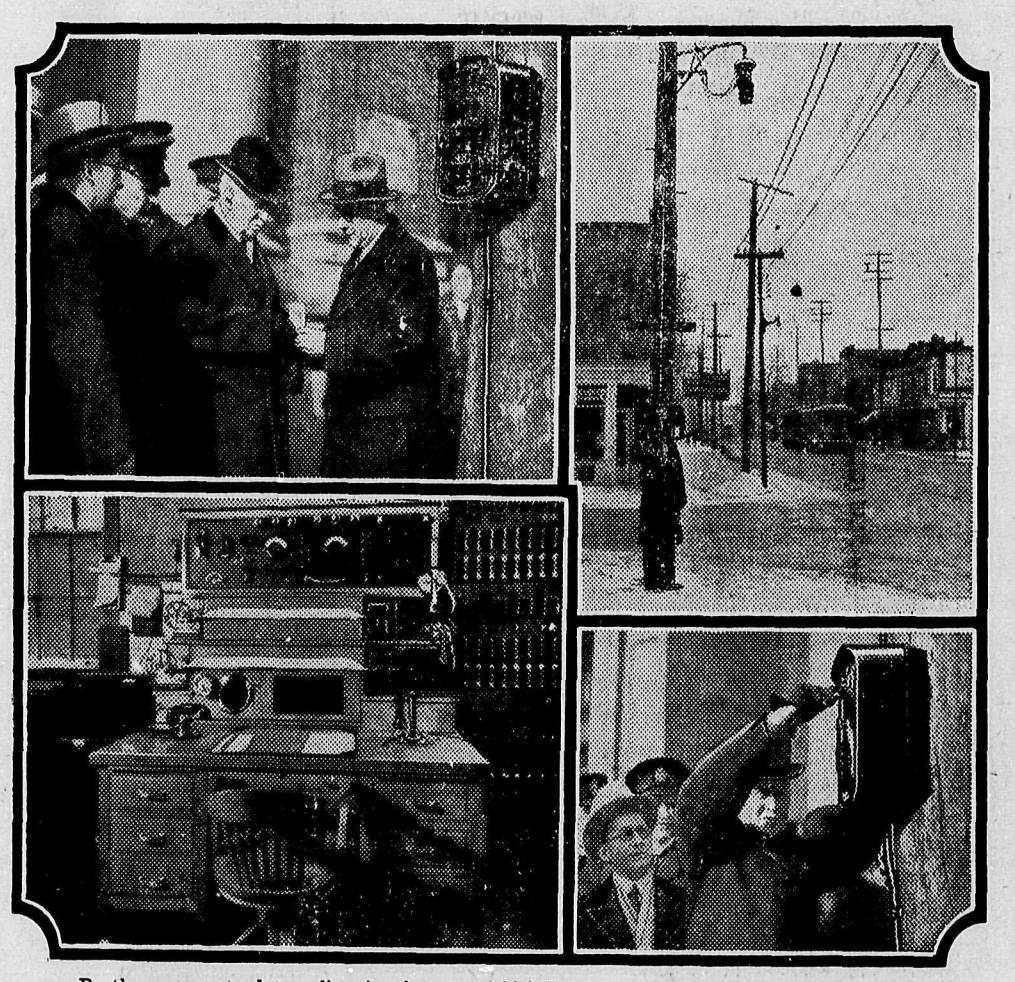
Guest: "Gosh I wish I could afford a car like this."

Owner: "So do I."

TORONTO'S FINE SKYLINE.



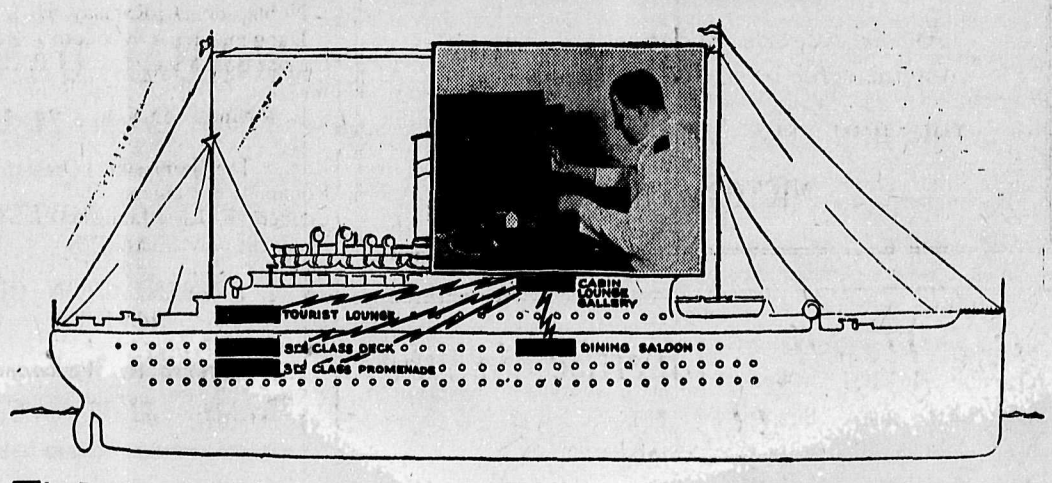
This unique close-up of Toronto's waterfront gives a vivid idea of the extraordinary growth of the city's downtown area since early in 1928. Centre of the picture is the Royal York Hotel, largest hotel in the British Empire; left is the Star office; and right the fine structure of the Bank of Commerce.



By the new, up-to-date police signal system which Toronto officially took over the other day, with considerable ceremony, the Police Department is enabled to transmit a description of a stolen car, hold-up man or bandit to every man on his beat; this new system is also available for service every moment of the night or day for the conduct of ordinary routine business and communication of orders. The system is spread over the entire 32.8 square miles of city area, and is divided into twelve police divisions.

The pictures: upper left shows former Police Chief Col. Grassett receiving the golden key from W. R. Ostrom, District Manager of the Northern Electric Company who handed the system over to the Police Department; right, typical installation at street corner showing officer turning in a call. Lower left, the main switchboard and recording instruments; right, Col. Grassett putting in the first call, Mayor Wemp and Col. Draper, Chief of Police are seen at his left.

Music from Unseen Orchestras



The Panatrope, latest development in gramophone equipment, installed on the Anchor Donaldson steamer "Athenia", sailing to Montreal. The "Athenia" is the first Canadian Service Transatlantic steamer to carry the new device, which broadcasts music from the ordinary gramophone record to six different locations on the ship with all the power of a full strength orchestra.

WHEN BUYING COAL
- REMEMBER -

Every ton of British Columbia coal used means employment for local miners and mine workers.

It means the maintenance of more homes in the Province.

It means the continued local circulation of funds which otherwise would leave the Province.

It means, if every B. C. user of coal will use local coal, that the Vancouver Island, Nicola-Princeton, and Crow's Nest Pass coal fields, whose coal workers have been struggling on half time or less for months, again will be favored with prosperous conditions.

For these reasons British Columbians should consider carefully the source of the coal which fills their bins this winter.

Annual Reports, Bulletins, etc. may be obtained free of charge, on application to

Prosperity Mine Shipping Much Ore

Four shipments from Prosperity Mine, Premier subsidiary, to the Tacoma smelter in August netted the company $40,667,67. Silver values in the four shipments were found to total 171.823.31 ounces, the gross return being $58,782.54. The price received for the four shipments averaged 35¼ cents an ounce. Assays ranged from 45.30 ounces to 96.46 ounces per ton.

Rain Cuts Down Prairie Wheat Yield

Serious decreases in the wheat yield of Western Canada are foreseen as a possible result of continued wet weather which has halted theshing in some sections. Intermittent rains in Northern Saskatchewan and Alberta, where crops were heavy, halted operations and wheat sprouting has prevented theshing in many cases. It is undoubtedly true that millions of bushels will be cut from the estimated prairie yields by the wet spell.

Necessity the Mother of Invention

The secret of making ends meet, is, not infrequently, the difference between Success and Failure. Adaptability to hard Circumstances in order to study them with a view to overcoming them, is a mere stepping-stone to the foot of the born Inventor. And, however we look at them, Inventors are "born" as well as "made".

An Inventor has the ability to step off, into Space as it were, to "take the plunge" to quote the man in the street, which more timid, or more sophisticated folk, lack.

Most Inventions come out of two desires. A desire to save labor, and a desire for better service. But an even more fundamental stage lies back of these. The period in some man's life, of Rock-bottom Necessity. And so there has come down to us from the Ancients, who were fond of putting Truths into adages the pithy statement that "Necessity is the Mother of Invention."

The Age of Necessity, is therefore the Age richest in Inventions. The inventions of a fundamental order, those that saved mankind from extinction, rather than those that spared his strength.

Regarded from this viewpoint what people more rich in Invention than the Indian? What people more capable of "making ends meet"? What people closer in spirit to the Secrets of Nature? What people so able to see possibilities, "a way out" where no way apparently exists, as these simple people of the woods, lakes, rivers, plains and mountains?

From these Fundamentalists, the Pioneer had at once most to fear and most to learn. It was this antithesis which sharpened desire to take-up the land and hold it against the veritably embodied Spirit of Circumvention. And it was when the early pioneers began to appreciate the cleverness of the Indian and the Indian began to appreciate the qualities of life as introduced by the new people, that one began to learn of the other and to prosper by exchange of experiences and by exchange of the inventions for which each stood.

The Indian and the pioneer have this in common. Both were always face to face with Necessity. Danger was clear-cut... everywhere. No getting away from it. And to some extent it is interesting to be able to decipher in most of the primitive inventions of the Indians, whether their habitat was the shores about the Great Lakes, the Prairies from the Lakes of the Woods to the foothills of the Rockies, or the Rockies themselves or the littoral of the Pacific, a certain Something, like an Atmosphere, a curious Fragrance, suggestive of Danger... a bizarre note... indicative of the presence of the sinister form or forms which originally called into existence that particular invention.

I well recall the impressions experienced the first time I saw our Indian guide of the French River, drink from his paddle. We had gone up the Murdoch and portaged to Crooked Lake. (A lake that only last year was opened up by the Canadian Pacific Bungalow Camp—above). No sooner had we got into the canoe and gone a few lengths than the guide ceased stroking and careened the paddle blade so that the clean, cool water dripped as from a clear fountain into his thirsty mouth and throat. No weight had changed, the canoe still ranged ahead from the last stroke, the guide did not change his posture, there was no sound, his eye still commanded the scene. The action was so swift and silent that without bidding my own eye ranged off to the wooded bank, searching for the imaginary foe whose mocassined feet and wary intuition may have traced the invasion by the summer camper of this hitherto undeveloped haunt of trout.

Thus swiftly did this simple act recall the time when it was first practiced. That time in the history of Canada when the Red man's foes were so numerous, when the urge of hunting so keen that even when he took a drink of water he must never lose that vigilance which kept him always on guard.

In itself a mere straw, it holds a psychological subtlety that in detail shows us to what necessity and to what finesse or inventiveness those who live right down to the elemental were driven by the combative elemental forces with which they warred for existence.

We admire these things in ancient and distant peoples, but we are given to overlook them and set little value by them when they occur at our very doors as it were.

Canada is particularly rich in "inventions" of this nature. They are not here things of the Past but of the living Present. I saw the Indian drink from the paddle only last summer. You may see him this.

Adaptation or resourcefulness in so simple acts are among these primitives, progressive after a fashion. The next time our guide took a drink of the cool lake water, he broke the deep flower of a pitcher plant from a clump that grew by the bank and made a drinking-cup of it. Not limited to one cup you see. And in the transition from the oar we can feel there was a transition in poetic fancy. It was a drink of relaxation... a sip of nectar from the flower's heart. And had he been of the Far East we should have said "See the artistic development of this Jap" but being of the West and of the Wilds, it was wholly unlooked for and evoked more of surprise than anything else. It called out on elemental feelings of lurking danger or watchful foes, but the pleasing cognizance that Art is Universal and that some of the primitive inventions follow the sweeter paths of fancy, rather than the ever-present Danger spelled of the "oar-blade" cup.—By Victoria Hayward.

"Swing High" Will Be Feature Show On Tuesday

Packed with drama, thrills color, music and unusual charm, "Swing High," a Pathe dialogue and musical circus picture featuring sixteen noted stage and screen players headed by Chester Conklin Ben Turpin, Dorothy Burgess, Fred Scott and Helen Twelvetrees, will be shown at the Anyox theatre, Tuesday. The picture, directed by Joseph Santley under the supervision of E. B. Deer, from a story written jointly by Mr. Santley and James Seymour.

"Swing High" is a love romance of a trapeze performer and a singer in a circus in 1875. There are many scenes of dramatic interest and they enable spectators to visualize a decidedly romantic period when the circus was an attraction much more in public favor than it is today. It serves to present agreeably Chester Conklin, Ben Turpin, Stephen Fetchit, Bryant Washburn, George Fawcett and other favorites in characteristic roles and to lift the production to greater heights as a screen entertainment of the finest grade. The love interest centers about Miss Twelvetrees, Mr. Scott and Miss Burgess all of whom acquit themselves with artistry.

HOW DO YOU VOTE ?

BUY BC PRODUCTS

The most practical way to induce new industries to come to British Columbia is to convince them that British Columbia people give a preference to goods made in B. C. Every time you make a purchase, you have an opportunity to vote for or against more B. C. Industries. Vote the straight ticket. Ask for B. C. Products.

B. C. PRODUCTS BUREAU
of the
Vancouver Board of Trade
