Rules Made Governing Anyox Basketball Games

First steps in organizing basketball for the coming year were taken on Wednesday night at a well attended meeting of those interested. Chas. Harmon, who was the only candidate who allowed his nomination to stand, assumes the presidency. Mr. V. S. McRae is vice-president and R. J. Manning has accepted the burden of the secretaryship. The meeting voted to abolish the board of former years. After some debate and voting on conflicting amendments to the constitution, it was decided to insist upon registration of players twenty-four hours before the game. Another change prevents intermediate players from playing senior even once without losing their intermediate standing. Limitation of the senior division to four teams was decided upon. This does not please those who still think of a basketball team as being composed of only five players, but it was felt that the smaller number of teams would insure extra players for all. In anticipation of disagreements the meeting decreed that protests must be lodged within twenty-four hours. A ground rule to the effect that the ball may be bounced off the ceiling was adopted. For the rest Spalding's Rules will be enforced, and the pious hope was expressed that the players would get rule books and read them. As yet little is known concerning prizes. Until the schedule is drawn up players may practise on, Monday, Wednesday, Friday, Saturday, and Sunday evenings.

Badminton Club Will be Hosts On Thursday

The badminton club will be hosts to all members of the Community League who are at all interested in the game on Thursday, Nov. 8th, beginning at 7.30 p.m. Refreshments will be served to those who attend. Bring a pair of gym shoes. Someone will lend you a racquet. The Club supplies the shuttles. The gym is reserved for badminton on Tuesday and Thursday nights from 7 to 10.30. A good deal of playing is done throughout the day. Come on Thursday and prove to yourself the attractiveness of the game.

Among the many lovely gifts to Miss Thelma Deeth, whose marriage takes place this evening, are those of the members of the Pioneer Mess who have given the bride a handsome set of table silver and a cheque for a substantial sum.

Among the arrivals from the south on Saturday, were: W. R. Bucknell, N. F. Coke, Bob Scott, R. Smith, Mr. Horsfall, Roy Gorman, F. Gillan, F. F. Clark.

Ore Reserves of Tiger Greatly Increased When Ore Struck at 415 Ft. Depth

Ore was encountered in the No. 3 tunnel at the Tiger during the week. It was struck at a distance of 200 feet from the portal, and is composed of high grade silver ore, typical of the Tiger. Ore was not expected to be encountered until an additional 50 feet had been driven, and it is considered that it is a new ore body. The point at which the ore was encountered gives a depth of 415 feet below the surface outcroppings.

The comparative ease in locating this ore at a depth of 415 feet is the outstanding event in mining development since the big ore body was encountered on its neighbor the Toric.

Latest reports from the mine state that the ore has been driven into for a distance of two feet, and crosscutting is still proceeding.

Ore has now been developed on three levels on the Tiger, which is

approaching a record for any property, as development was not commenced until July of this year.

Previous to the taking over of the Tiger, however, by the Utility Mines No. 1 Ltd., nine diamond drill holes were driven, seven of which encountered ore.

The successful exploratory underground work of the past few months and especially of the past week, indicates for the Tiger a large tonnage of ore, much of which will probably be of a high grade character.

The management therefore feel that a lower tunnel is justified. With this aim in view a site for a new lower tunnel has been chosen, and it will encounter the ore body at a depth of over 800 feet. Work on this tunnel is to start immediately. It will be commenced on the old Dolly Varden railway grade.

An interesting feature is that the

big ore body of the Toric, which joins the Tiger on the south, is still 400 feet lower elevation than the present lower tunnel on the Tiger.

The aggressive manner which the Utility Mines No. 1 Ltd. is pursuing in developing the Tiger, and the phenomenal success attained has been conducive of much favorable local comment. The company has disposed of considerable stock in Anyox and this week, people of Alice Arm, also secured a large quantity of stock.

The main bunkhouse at the mine is now practically completed, and clearing and grading is proceeding for the other buildings.

Powder and supplies of all kinds are now going in for winter use.

Operations are in charge of A. Knox, who has a wide experience, and who was formerly construction superintendent for the Granby Co.

All Supplies for Winter Taken to Toric Mine

Preparations for the operating of the Toric mine throughout the winter are proceeding apace. All food supplies for both men and horses have been freighted to the mine from Camp 8. Sufficient gasoline for the winter has also gone in. Fuel oil for power purposes is at present being taken in, and on the return trip concentrates are brought down.

Over 1000 sacks of concentrates are now landed on the government wharf awaiting shipment. It is probable that these will be shipped south on Monday.

A barn is now in course of construction at Spring Camp. This will be used as a half-way base during the winter when sleighs are in use.

All lumber has been cut locally at the Al. Falconer sawmill for putting railway bridges for sleighs. This work will be undertaken on the completion of the barn at Spring Camp.

O. G. Macintyre Retains The Tennis Championship

The Anyox men's tennis final was played on Thursday October 25th. The finalists, were: O. G. Macintyre, and G. M. Lee. They played the full route of 5 sets, and Mr. Macintyre emerged victorious. He thus retains the tennis championship that he won last year.

Following is the result of the five sets: No. 1 set Macintyre 6-4; No. 2 set Lee 8-6; No. 3 set Macintyre 6-3; No. 4 set Lee 6-4; No. 5 set Macintyre 6-2.

Former Anyox Residents Hold Re-Union In California

A happy re-union of former Anyox residents was held at Mosswood Park, Oakland, California on Sunday October 21st. The hours passed by all too quickly while the party talked over old times.

The guests of honor were Mr. and Mrs. S. A. Down, who were on a vacation trip to California.

When the party came it was resolved that this should be a yearly event.

Those present were, Mr. and Mrs. S. A. Down, Anyox, Mr. and Mrs. Wade Wetmore and son, Mr. and Mrs. J. T. Clemo, Mr. and Mrs. Walter Rashleigh, Mr. and Mrs. William Wier and children, Mr. and Mrs. J. Wood and son, Mr. and Mrs. Harold Jones, Mr. and Mrs. William Clarke and daughter Mr. and Mrs. T. Davis and children, Mr. and Mrs. E. J. Wall and son, Mr. and Mrs. Nat Tinetti, Mr. and Mrs. C. Gray, Mrs. M. F. Tinetti, Mrs. John Green, Misses Katie Zucco, Gladys Rashleigh, Messrs. L. Wetmore, Dick Wall, Walter Rashleigh junr., Jack Green, Ernie Green, John Sherman, Gravy McGammon, Robert Clemo, Erle Gray, Tom Gray, Ronald Gray and Raymond Gray.

High School Club Entertain

The Granby High School Club under the patronage of Mr. and Mrs. Campbell, entertained the new students at a delightful party in the gymnasium last Friday. The Moose Orchestra volunteered an excellent selection of music for the occasion.

Shower Given to Anyox Bride-Elect

Miss Thelma Deeth, a popular bride-to-be of next month was the raison d'etre of a delightful shower in the Oddfellows' Hall recently. The affair was arranged by a committee of ladies comprising Mrs. Kirby, Mrs. Eve, Mrs. Dunn, Mrs. Barclay, Mrs. Varnes, Mrs. Scott, Mrs. Kent, and Miss Margaret O'Neil, and Miss Lottie Pilling. Over one hundred ladies were present when Miss Deeth, to whom the proceedings were altogether a surprise, was led into a darkened room and, when the lights came on, beheld a sailing ship laden with nearly two hundred useful gifts. After the inspection of presents refreshments were served. For the dance which concluded the evening, the Peele brothers and friends volunteered an orchestra whose performance evoked great praise. Thanks due also to the Oddfellows Lodge for the use of the hall and to the following guests who sang or played: Mrs. Pinckney, Mrs. Anderson, Mrs. Dunn, Mrs. McKay and Mr. W. F. Aylward.

Drifting on Homeguard Develops Good Ore

Spectacular specimens of high grade ore brought down during the week from the Homeguard, is concrete evidence of the mineral wealth of this well known property. The specimens were taken from the drift now being driven on the big silver-gold ledge.

This ledge has now been traced by stripping on the surface for a distance of over 600 feet.

Underground work is being pushed as rapidly as possible.

Community League Are Hosts at Hallowe'en Party

Over a hundred children in costume attended the Hallowe'en party given by the Community League on Wednesday. Many more sat down to an excellent supper provided by the generosity of numerous ladies who prepared delicacies for the children's treat. The store donated apples, the Pioneer Mess gave pancakes, and the Housing Dept. furnished ice-cream. Peel's orchestra provided the music which played for dancing later in the evening. Over a score of ladies and gentlemen assisted the convenor, Capt. Cameron, in making the affair a great success. Eight excellent prizes were awarded for costumes. Best Dressed, Jean Munroe as an "old fashioned girl", and Jack Smith as "Clubman" Best Hallowe'en, Kathleen Eve as "Scarecrow", and Irene Blackburn as "Witch". Most original, Marie Thomson as "Rose", and Maxwell Patrick as "Fireman". Best Comic Mary Chambers as "Topsy" and Ted Kergin as "Loafer".

Considerable gratification was expressed on Thursday over the reduced amount of mischief from Hallowe'en pranks.

Successful Card Party Held At Alice Arm

Another successful card party was held at the school on Saturday evening. Eight tables were occupied by bridge and whist players.

Prize winners were, ladies' first prize, Mrs. J. Trinder, consolation, Mrs. J. A. Anderson.

First prize for gentlemen, T. W. Falconer, consolation, G. Anderson.

Mrs. J. Trinder drew the lucky number in the drawing, winning a box of chocolates.

John McGuire won the poster competition in which a number of children participated.

The prizes were presented by Mr. Everett Greenaway, to whose efforts the success of the evening was largely due.

ALICE ARM NOTES

Mrs. H. Nueich left on Monday for Vancouver, where she will spend the winter with her daughters.

F. Butterfield, who has completed the subdividing of the Indian Reserve, left on Monday for his home in Victoria.

Mr. and Mrs. J. McDonald, who spent the week here visiting friends left on Saturday for Vancouver.

Tom Kosich, who has been employed at the Silver Cord, left on Saturday for the south.

Letter to The Editor

October 30th. 1928.
 Alice Arm, B. C.

Editor,
 Alice Arm & Anyox Herald:

Dear Sir:

A topographical survey of the Kitsault valley and country adjacent to Alice Arm has just been completed by Mr. Bartlett and crew working for the Dominion Government. This survey being accurate it will be put on the maps as permanent geography. Names will be given to the streams and mountains and will be so recorded. The Dominion Geographical Board follows the policy of letting local names stick where they are fitting and applicable. Mr. Bartlett will designate the local streams and mountains by the names given them by Mr. Turnbull of the Provincial Mines Department, he being the first to get out a sketch map of the district. But it is very certain that very few of these names will go on the new map, and other names will be given the streams and mountains.

The streams and mountains have native Indian names, and as it is in keeping with the Dominion Geographical Board to give preference to these where applicable, the Indian names and their meaning of several of the streams and mountains of the country surveyed are herewith given. In giving these names no ethnological accuracy is maintained as to their spelling nor are they marked diacritically as to their pronunciation. They are given as they sound, and are probably divided into syllables correctly.

Beginning with streams we find that Kitsault means 'head of Inlet from inside mountains'. Falls Creek is Tcha-las-mach, which has the Indian meaning of water falls. The mountain at the head of Falls creek has the name of 'Tcha-las-mach' chmach meaning bear, the whole meaning 'holes in ice on mountain like bear.' Canyon Creek is Gnn-yet meaning 'distance spring salmon go.' Granite Creek is Gun-git-l meaning 'where sock-

eye turn red'. Paul Klaydue creek will probably retain its name and likely the mountain to the north of it will take the name of the creek. North East Fork is Chih-h-dan meaning 'salmon guts going down'. The story being that this was the only stream here where fish could be caught with hooks. Illiance river is Che-lel-ish-a-mus meaning coming from Naas divide, like Naas, that is dark muddy glacial water. Here it might be added the Naas is Lish-a-mus, 'muddy dark water' Carribou Creek is Check-walk-chit meaning 'black or brown water'. Bowman Lakes and their outlet the Tchitteen river are not known to the Indians as Tchitteen. They are called Ch-h-im-ain-ok, ain-ok meaning grease-box. The story being that once a box of grease was buried near the bank of the stream the stream rising washed the box down river, hence the meaning, 'stream that grease box washed down. Quartzite peak is known as Low-ge-ou-at-gut meaning middle mountain. Theopolis is called Gintl-g-ait-sa meaning place for killing animals, good hunting ground. The Red Bluffs are called A-nchlt-em-ait meaning place for eating berries. The story being that cooking berries could be found on the flats but good eating berries could be found only at Red Bluffs. Creeks whose names will very likely be changed are Falls Creek, Canyon Creek, Granite Creek, North East Fork and Carribou Creek.

Mountains receiving new names likewise, will be the one at head of Falls Creek, Haystack, and Quartzite. Theopolis may be retained, although he is a long way from home.

Should anyone have any suggestions for the permanent names of these streams or mountains or are interested the Chamber of Mines would gladly take the matter up with the Dominion Geographical Board in the matter of having the wishes of the camp complied with.

Copper Industry of The Province Expanding Says Report

A report published by the Minister of Mines, Hon. W. A. McKenzie, shows that the copper mining industry of the province was never in such a flourishing condition as at the present time. New properties are being developed in addition to increased tonnage mined from the older ones. Following is a portion of the report, dealing with copper mining:

Victoria, B. C. Oct. 27—Copper has been the outstanding feature of market stability during 1928, insofar as British Columbia is concerned and production for the year generally will show an advance upon 1927. During the first six months the position of lead and zinc, two leaders in provincial output, was distinctly unfavorable; the situation latterly has much improved as to lead, and cause now is indicated that zinc too will soon be on its old footing. As to copper, while few would have dared predict that it would touch the 15-cent mark, the fact is established that world demand has so surprisingly boosted prices that copper now is virtually back to a pre-war basis of London and New York quotations. This means especially much to Canada's Pacific province, although the importance of the other base metals cannot be discounted, particularly having regard to Consolidated's production. Until late years, bringing lead and zinc conspicuously forward, copper was the foundation of British Columbia mining, emphasized by the positions of Granby and Britannia in their respective operations. Copper still holds premier place and the demand for copper is the barometer of prosperity or adversity for the mining industry in British Columbia.

Copper production in British Columbia has climbed from 56,918-405 lbs. in 1916 to 89,202,871 lbs. last year, this advance being accomplished despite price fluctuations and declines to a point at which continuance operations seemed only possible with considerable loss. Fortunately, through metallurgical improvements and rigid economies at Britannia, Granby and Trail, they all have kept the flags flying and carried on, and it would now seem certain will enjoy their reward.

It is interesting to analyse the probable result should present demand for copper hold without lowering the price level. Certainly

Copper Industry of Province Expanding Says Report

Continued from Page 2

Granby and Britannia will be in a better position than for years past, and Britannia now is handling 5,000 tons of ore daily. Operations at Allenby (Copper Mountain) also have been pushed until substantial production there is now shewn. The Consolidated is opening up Coast Copper near Quatsino and the Sunloch on Jordan River, giving notable impetus to mining on Vancouver Island; and if favorable conditions are maintained, both these promising properties will be shipping during the oncoming year. As to Portland Canal properties in which Consolidated lately has become interested, not much more can as yet safely be said than that they are very promising prospects and, should economic ore be proven in sufficient volume, they too will be put on a shipping basis with minimum time loss.

The compelling feature of British Columbia's mining situation as 1929 looms on the horizon is the marked development under way of provincial copper properties. There has never before been such general interest evinced or confidence in copper been so well established. Ample financed developments are under way in the Portland Canal zone, all along the Grand Trunk Pacific line, in the Peace River sphere, in Cariboo, the Kootenays, Boundary district and on Vancouver Island and southerly Mainland—practically covering the province in its far-flung entirety.

The Family Herald and Weekly Star with its wonderful improvements is now regarded as the great Agricultural Paper of Canada and the Family Circle's best magazine.

The mosquitos have a picnic every time you do.

Will Extend the Stewart Short Line

Victoria, B. C. Oct. 27.—Planning to go north in a few days in connection with his interests in the Stewart short line, Hon. H. H. Stevens reports that clearing the right-of-way has begun and work will continue as long as the weather permit. D. O. Lewis, the railway engineer, has been looking over the line lately, going over the location through Bear River Pass to the Naas, and has approved the route through this pass. The Vancouver Holdings Co., which now owns the road proposes to push work next year, both in reconditioning the line and continuing the survey into the Groundhog areas. The sawmill at Bitter Creek is completed and will be ready with bridge timbers and ties when construction proceeds in the spring. Sir Donald Mann, original projector of the Stewart short line, also is on the coast, but intimates that his presence has nothing directly to do with constructional work of which he was the primary promotor.

SYNOPSIS OF LAND ACT AMENDMENTS

PRE-EMPTIONS
Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emption is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 5,000 board feet per acre west of the Coast Range and 8,000 feet per acre east of that Range.

Applications for pre-emption are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emption must be occupied for five years and improvements made to value of \$10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

PURCHASE
Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price of first-class (arable) land is \$5 per acre, and second-class (grazing) land \$2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

HOMESITE LEASES
Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

LEASES
For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

GRAZING
Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free, or partially free, permits are available for settlers, campers and travellers, up to ten head.

CHARLES CLAY.

C.P.R. President Visits Wheat Champion.

Herman Trelle is one of the men of foreign birth who is doing things for Canada. Born in Germany, he is now the owner of a fine farm in the Peace River country near the town of Spirit River. At the Chicago Live Stock Exhibition of 1926 he won the prize for the world's best wheat, and he is working on the development of a new early-ripening wheat which, he says, will revolutionize farming throughout northern Canada. When E. W. Beatty, and his party of Canadian Pacific directors were in the Peace River country recently they visited Mr. Trelle's farm where the important work of threshing was interrupted long enough to have the above photograph taken. Mr. and Mrs. Trelle are in the center, on the right is Mr. Beatty, and on the left is Sir Herbert Holt.

Alice Arm Notes

Continued from Page 1

O. Evidson is leaving today on a visit to Vancouver.

Mrs. N. Fraser arrived home on Monday from Wenatchee, Washington, where she visited her sister, who was seriously ill.

Charlie Gordon, accompanied by his mother, arrived on Monday, from Vancouver. He will take charge of G. W. Brugg's store during the winter.

Chris Jensen, who has spent the past few months at Stewart, arrived home on Sunday.

A. Beaudin returned home on Monday from a two month's visit to the prairie provinces.

Don't forget the big Halloween party at the School this evening.

Divine Service was held at the Anglican Church on Sunday evening. The service was conducted by Rev. Bruce Jennings, and Canon W. F. Rushbrook. The Service was very much enjoyed by a large congregation.

P. E. Peterson, consulting engineer for the Tiger mine, arrived on Tuesday, and is leaving today for Vancouver.

A. Knox, arrived on Tuesday from Anyox and has taken charge of operations at the Tiger mine.

ANYOX NOTES

Ed. R. Johnson left on Saturday for a vacation in the south.

Among the departures for the south on Saturday, were, D. W. MacDonald, D. Peake, R. Myers.

Constable W. Smith arrived home from an official trip south on Saturday.

Mrs. Gibbs and children arrived in town on Saturday from the south.

An Eldoro cigar is unquestionably the most pleasant smoke possible. That's why they are so popular.

Mrs. R. L. Healy and family left on Saturday for Vancouver, where they will join Mr. Healy.

G. M. Lee was a southbound passenger on Saturday.

George F. Winterburn left on Saturday for Vancouver.

Mr. and Mrs. Stone were southbound passengers on Saturday.

Mrs. E. Mitchell left on Saturday for Vancouver.

Mr. and Mrs. J. Swanson of the Mine left on Saturday for the south on a visit to coast cities.

Office: Opposite Liquor Store

Canada is the third largest producer of platinum among the countries of the world, Russia and Colombia, South America, holding first, and second place respectively. Last year Canada produced 11,228 fine ounces of platinum valued at \$717,613.

Henry Browning Enters Brokerage House. Has Wide Experience

Henry Browning secretary of the British Columbia Chamber of Mines since 1922 and the man whom President Frank Woodside and other officials give the most of the credit for the success of the organization, has resigned. He will enter the service of Lennard, Poisson, & Waghorn Ltd. as mining statistician and general office manager. Mr. H. N. Freeman, assistant secretary of the chamber, was appointed acting secretary at a meeting of the executive on Friday night. Mr. Browning's appointment to his new post presages extensive development by his new employers in general mining investments, following the completion of their new building at the corner of Pender and Howe.

Few men have had a more extensive training in mining than Mr. Browning. In earlier years he was engaged in gold mining in Nevada. Later he was secretary of the Ducktown Sulphur and Iron Company of Tennessee. Coming to British Columbia, he was purchasing agent and general assistant manager of the B. C. Copper Company of Greenwood. Later he was purchasing agent and assistant secretary of the Canadian Collieries Dunsuir Ltd. at Victoria and also served in the general offices of the company at New York. His next venture in the mining field was as one of the executives of the Dolly Varden silver mines in the Alice Arm district.

Mr. Browning has had business experience in London and South America. His first enterprise after leaving London was in the cattle business at Buenos Aires, from which centre he shipped cattle to the English market. As secretary of the British Columbia Chamber of Mines, the mining fraternity generally admits that Mr. Browning's faithful work and wide knowledge of mining conditions have been of unusual benefit to the province.

J. E. Merryfield Receives Appointment

Mr. J. E. Merryfield has been appointed manager for Vancouver and district of the Ontario Equitable Life and Accident Insurance Company.

Mr. C. E. Mooney, who has been in charge for the past two years has been appointed western superintendent of agencies, and Mr. Merryfield's promotion was the natural result of his fine work for the company during the past two years.

Notice of the appointment was conveyed to Mr. Merryfield by Mr. G. W. Geddes, actuary of the Ontario Equitable, who has been making a tour of the western agencies, and who left again for the East on Friday. He states that he expects that the company will write about 50 per cent more business in 1929 than in previous year, and their objective is fifty millions of insurance in force by the end of 1929.
