5 cents each.

Development on Matilda Proving Large Ore Bodies

Development work now proceeding on the Matilda property near the Kitsault Glacier is proving that this property possesses immense possibilities, and from all indications will eventually prove that in the Matilda Alice Arm has one of its richest mines. The property is being developed by the Kitsault River Mining & Development Co., Ltd.

The majority of work done so far this year has been surface stripping and open cuts on the famous Matilda ore body. This ore body has now been traced for a distance of over 1000 feet, and the open cuts have proved that the ore is of a high quality. Samples of this ore were recently brought down, and comprises almost solid galena with yellow copper. Previous assays have shown that this galena runs high in silver and the copper also carries high gold values. The Matilda vein has a north-west and south-easterly strike, dipping into the hill towards the west at an angle of from 45 to 50 degrees.

The tunnel commenced by the owners some time ago is being extended to the foot wall of the ore vein, in order to ascertain the ore values on the foot wall and also procure the definite angle of the dip. Another tunnel fifty feet lower down the hill will be driven. This tunnel will give a much greater depth on the ore body, and eventually prove up a large tonnage of ore.

Open cuts are also being driven on an ore vein paralleling the Matilda vein, with excellent results. This vein has been traced on the surface for over 500 feet, and further development work will undoubtedly prove it to be of much larger extent. The property possesses another big fissure vein, which carries high gold values, and which will also be developed at a later date.

Oscar Flint is in charge of development work. He is a practical mining man well known in the north, and under his supervision we are confident that with sufficient funds available, the Matilda will eventually develop into a big tonnage producer.

S. S. Anyox Sinks Tug Near Vancouver

Rammed by the outbound steamer Anyox, the tug Radius, of Vancouver, sank in the First Narrows at Vancouver, at 1.30 on Wednesday morning. The crew were rescued. The Anyox is owned by the Coastwise Steamship and Barge Co. and is on the regular run between Anyox and southern ports.

The Herald job printing plant is up-to-date in every respect. We guarantee first-class work, prompt delivery, and a fair price.

Crowds Attend Circus Performance at Anyox

Seats Collapse During Evening Show

Buller's circus, whose headquarters are at Victoria, paid a visit to Anyox at the beginning of the week, and on Monday, two performances were given. The afternoon performance was well attended, and at the evening performance the seating capacity was filled, about 800 being present. The show was of a high standard and everyone attending were well satisfied with the evening's entertainment. All the old time circus stunts were there, including trapeze, and wire walking performers, trained animals, clowns, side shows, etc. This is the first time a circus has visited Anyox, and if the same show returns they can be satisfied that they will play to a full house again.

During the evening performance a regrettable accident occurred when a section of the seats collapsed, precipitating about 200 people to the ground. Mrs. Lyons, who resides at the Larcon Island sawmill, received a sprained ankle and bruises, and N. Marshall had the misfortune to break a small bone in his leg. Mrs. Lyons left for her home the following day. Mr. Marshall is progressing favorably.

The circus has visited Prince Rupert and Ketchikan, and will visit Stewart, Ocean Falls and Powell River before returning to Victoria.

They have the S.S. Otter under charter for the trip.

Anyox Shipping Notes

Griffco Takes Out 350 Tons of Copper

The S.S. Marmion arrived from Maple Bay on Monday at 5 p.m. with 250 tons of Outsider ore, and towing the barge Granby with 2000 tons of Outsider ore.

The Griffco arrived from Stewart on Tuesday with 1650 tons of Premeir ore and concentrates, and departed for the south on Wednesday with 350 tons of copper, 75 tons sulphate of ammonia, and 50 tons of benzol.

The S. S. Amur, after calling at Ocean Falls and Prince Rupert, arrived with 500 tons of coking coal from Cassidy, and left on Thursday for Stewart.

The S.S. Mogul, which was damaged through striking a rock in Grenville Channel, will be repaired and on her regular run again on September 8th.

The Prince Rupert Annual Exhibition, September 8th. to 12th. Take your exhibits and take your friends. Everything within their power is being done by the Fair Board to make such visits interesting, instructive and pleasant.

ANYOX NOTES

Mr. W. Rashleigh, accompanied by his daughter Gladys, were southbound passengers on the S.S. Prince Charles enroute to California, where they will reside.

S. Grimason, who has been manager of the Shoe Department of the Hudson Bay Co., Winnipeg, for many years, arrived on the S.S. Prince George, and will be in charge of the Shoe Department of the Granby Store.

Mr. and Mrs. Ed. Yard returned from their honeymoon at Alice Arm last Sunday.

J. G. Ellis was an arrival on the Prince Charles last Monday from Vancouver, where he has spent a month's vacation.

Don't experiment. Smoke El Dora cigars.

Mr. and Mrs. Orsborn returned on the S.S. Cardena, after spending a splendid holiday in Vancouver and Victoria.

"Jimmie" Thompson was a southbound passenger last Wednesday, on a vacation.

The weather in Anyox is beginning to have that fall feeling and the children are just rearing to get back to the school again. The rest of the community are requiring a little heat in their rooms in the evening time. Bring on the dances.

Mrs. C. H. Clay arrived home on Monday from a vacation spent in Vancouver and southern cities.

F. C. Morrow arrived on the Prince Charles on Monday, in order to complete the steam pipe system, for which he has a contract.

Mrs. F. Cross, who has been spending a vacation at Alice Arm, returned home on Tuesday.

Messrs. Bert Scott, Harry Kirk and J. Pottinger left on Tuesday night on board the launch, Chum, for a vacation which will be spent exploring the northern coast and towns. They expect to be absent about ten days, and among the places of call will be Wark Channel, Naas River, Maple Bay and Stewart.

Mrs. T. W. Falconer and family of Alice Arm, were the guests for a few days this week of Mrs. J. B. Haffner of the Mine.

Mrs. W. Pearce and family returned on Friday from a vacation spent in Vancouver.

Mrs. Raymond, who has been visiting Mrs. Ruddick, left on Friday for her home in Prince Rupert.

Dan and Mike Rappich and Mike Lulick, left on Friday for their home in Serbia, where they will spend eight month's vacation.

Robt. Moffatt left on Friday for Vancouver, where he will join his parents, who left here a short time ago.

Continued on page 4

Alice Arm Chamber of Mines Branch Hold Meeting

The monthly meeting of the Alice Arm branch of the B. C. Chamber of Mines was held at the Pioneer Hotel on Monday evening. The meeting was well attended, over thirty being present, and a keen interest was taken in the proceedings. The chair was taken by W. B. Bower.

Secretary A. D. Yorke read the minutes of the preceding meeting which were adopted.

It was decided to take steps for the forwarding of an ore exhibit to the Prince Rupert exhibition, and to have this ore display located in a permanent place in Prince Rupert after the exhibition, preferably on the C. N. R. wharf, where an ore exhibit is already located.

A. E. Haggen, mining writer for the Daily Province, who was present at the meeting was asked by the chairman to say a few words on the mining situation of the province. Mr. Haggen spoke for about forty minutes, and gave the history and production of several big mines of the province, including the Hidden Creek mine of Anyox, and the big Sullivan mine at Kimberly. He was amazed at the large attendance at the meeting, and stated that he had never seen as much interest taken in mining as at Alice Arm. He voiced his disappointment at being unable to examine the two properties he especially came to see. He was of the opinion that mining was the backbone of provincial prosperity, and while lumbering, fishing, etc. helped considerably, mining would be our chief industry.

Elks Pile Up Big Score Against The Mine Baseballers

The Elks were victorious over the Miners, in the third game of the Post-season series for the Baseball Cup, by an eleven to two score. Cecil Ferguson was in fine form on the mound for the winners, allowing but four hits, three of which came in the first inning, accounting for the loser's two runs. Jimmy Ferguson was touched for twelve bingles, but the score would not have been so bad had he been accorded any kind of support. Ray Ingram supplied the fielding feature when he made a nice running catch off Allen's Texas leaguer in the fourth inning. Ingram was also the star with the stick, getting three hits out of as many trips to the plate.

SUMMARY: Runs Hits Errors
Elks 11 12 0
Mine 2 4 5

Umpires: Olson and McIntosh

The next game will be played this evening, Monday, starting at 6.15 p.m. sharp.

Ye Ancient Game Won By Coke Plant

The Club House and Coke Plant having gained no satisfaction of supremacy upon the baseball field, have diverged to a different method of endeavour, namely, the ancient game of horse shoes. A tournament was staged at the Coke Plant on Wednesday evening, when the Coke Makers completely annihilated the men from "Our Boarding House," by taking five out of the six contests.

The scores were as follows: Sheen and Wilson, 21; Davis and Hutchings 18.

McIntosh and Gosetto, 21; Eaton and Salter, 11.

Harman and Eakin, 12; Salter and Gordon 21.

Wilson and Jones, 21; Hutchings and Davis 10.

Sheen and Gosetto, 21; Eaton and Gordon 8.

McIntosh and Harmon, 21; Salter and Gordon 3.

The Club House, however, intend to redeem themselves when they play a return match at the Club House grounds on Sunday evening. They also wish to take this opportunity to throw out a challenge to meet any organization in any of the following games: horse shoes, pool, billiards, tennis, ping-pong, croquet, checkers, chess or marbles.

Overland Trip Made From Alice Arm to Stewart and Return

To those who delight in hiking and exploring new country, a trip from Alice Arm to Stewart might meet with their approval, that this can be done in a minimum space of time has been proven by J. Nick, who returned from a round trip recently. He went by way of the Kitsault Glacier and came into Stewart via the Bitter Creek Glacier. On his return he changed his route and left Stewart by way of the Marmot river. He was away two weeks. The trip to Stewart consumed four days, and three were taken for the return trip, and a week was spent at Stewart.

J. Nick is an expert woodsman, trapper and prospector, and thought very lightly of the trip, which to some would be of considerable magnitude.

E. A. Haggen Pays Visit to District

E. A. Haggen, mining engineer and writer for the Daily Province, arrived in town on Monday, with the idea of looking over our most promising mining properties. He left on Tuesday for Anyox, where he made an examination of the big plant and left on Friday for Vancouver.

Messrs. J. Barclay, Stewart McLachlan and Ted Swanson are spending holidays at Alice Arm.

x—Have played less than 50 per cent of games.

Nicholson, of the Mine Baseball Club, carried off the individual batting honors for the season just ended with a mark of 356. Cecil Ferguson and Fred Brown of the Elks team were the only other players to finish in the charmed circle. the former with 333 and the latter an even 300.

Teddy Halverson was the leading run scorer with 15, Teddy also booted the ball the most times having 18 errors rung up against him.

Les Lane was the best man on the path with 15 thefts to his credit, far in advance of his nearest competitor, which was Halverson with 5.

"Dooley" Deane led the way in

sacrifice hits with eight Deane also finished the season with the best fielding average; having a mark of 971.

Bud Sheen was the strike-out king, he whiffed the air 16 times.

Cecil Ferguson hung up an enviable pitching record, he won nine and lost two for a percentage of 818 and an average of .039 earned runs per inning. Ferguson pitched a total of 76 innings allowing only 3 earned runs.

The Miners showed the way in fielding with a percentage of 876, closely followed by the Elks with 873.

Children Have a Big Time Elks' Flag Day

The fifth annual Flag and Children's Day, held by the Anyox B.P.O. Elks on August 15th. was up to its usual high standard of previous years. This big event for the children of Anyox had to be postponed twice owing to unfavorable weather, and the 15th. was the final day decided to hold the celebration. The Flag Day is held in commemoration of the entry of the British Empire into the world war which was on August 4th. 1914, and the event is celebrated by all Elk lodges throughout Canada.

The celebration commenced at 2 p.m. when the children formed a procession at the Elks' Home, and paraded to the Ball Grounds, headed by the Elk's clown jazz band composed of Messrs. Steele, Craggs, Wilson, Buntain, Jones, Cameron and Happle. Before starting, each child was given a squaker, balloon, flag, tickler, cane and hat, and the whole parade composed a gay scene.

Arriving at the grounds the Boy Scouts raised the Union Jack, and an appropriate address was given by Rev. C. D. Clarke, in which he traced the history of the grand old ensign, and with specialy painted cards, gave a vivid illustration of how the word "Union" came to be included in the name of the flag.

Sports were then held, and twenty-eight events were carried to a successful conclusion. Refreshments in abundance were on hand throughout the afternoon, comprising ice cream, lemonade, peanuts, etc., and evening brought to a conclusion, one of the happiest days in the lives of the juvenile population of the town, and in the eyes of all the kiddies, the "Brother Bills" of Anyox are brothers not only in name, but in deeds.

The success of the day's entertainment was due to a large extent to the following, who had charge of the proceedings: Messrs. C. Parmiter, C. Gray, C. McLachlan, H. Kirk, B. Sheen, F. Kelley, J. Buntain, D. Wilson, P. Wishart, T. Almos, E. Waterman, J. Cody, F. Brown, J. Thompson.

SYNOPSIS OF LAND ACT AMENDMENTS

PRE-EMPTIONS

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emptions is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 5,000 board feet per acre west of the Coast Range and 8,000 feet per acre east of that Range.

Applications for pre-emptions are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emptions must be occupied for five years and improvements made to value of \$10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

PURCHASE

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price of first-class (arable) land is \$5 per acre, and second-class (grazing) land \$2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

HOMESITE LEASES

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

GRAZING

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free, or partially free, permits are available for settlers, campers and travellers, up to ten head.

Anyox Union Church Shows Progressive Spirit

We notice that several improvements have been made in the United Church building in preparation for the fall and winter activities. A notice board on which the Sunday Services are announced has been erected on the front of the Church. The front steps have been reinforced. The vestibule has been furnished with a number of hat hooks. A much needed ventilator has been installed in the auditorium. Small seats have been made for the beginners and primary classes. A kitchen has been built in the basement and is provided with cook stove, sink and cupboard, also tables made for social occasions. The coal shed has been rebuilt and roofing put on.

Chalmers United Church, Vancouver has very kindly donated a generous supply of hymn books.

On the evening of September 2nd. a bee for cleaning the Church is being held, when it is expected that the men as well as the women will turn out to give a helping hand and enjoy a social hour.

The winter's programme will commence on September 6th. with a Sunday School Rally. It is expected that all the children of the Sunday School will be present at 11.30 a.m., when they will be properly graded into classes. An interesting programme is being arranged. The Evening Service will be in the interests of the Sunday School, when the minister will speak on the subject "The Child in the Midst." A class for teen age boys will be organized and will meet at 10 a.m. each Sunday.

The evening services are being made interesting and helpful. The minister, Rev. C. D. Clark, is preaching sermons on practical and common sense religion, such as are needed in this northern country.

At a recent meeting of the Church Board of Managers, it was decided to hold a social hour at the close of the evening service, on the last Sunday in each month. The men from the rooming houses are particularly invited.

It is hoped that the people will turn out and help and boost the work of the Church in Anyox.

First Ore Shipment from Porter Idaho Leaves Stewart

The first shipment of Porter Idaho ore for this season was sent out on the Amur Tuesday morning, bound for Selby smelter. The shipment consisted of 1433 sacks, totalling about 64 tons in weight. Eight hundred sacks were transferred to the ship from a scow in midstream, the balance being taken to the Stewart wharf for shipment. A storage shed is built on the beach at the lower end of the Marmot trail, from which a chute is dropped to a scow at high tide and the sacks of ore shot down with a minimum of effort. This shipment is the first of a series that will continue until climatic conditions put the pack trains out of business.

Has produced Minerals as follows: Placer Gold, \$77,382,953; Lode Gold, \$118,473,190; Silver, \$68,824,579; Lead, \$70,548,578; Copper, \$187,489,378; Zinc, \$32,171,497; Miscellaneous Minerals, \$1,431,349; Coal and Coke, \$260,880,048; Building Stone, Brick, Cement, etc., \$42,225,814; making its mineral production to the end of 1924, show an

Aggregate Value of \$859,427,386

Production for Year Ending December 1924, \$48,704,604

The Mining Laws of this Province are more liberal and the fees lower than those of any other Province in the Dominion, or any Colony in the British Empire.

Mineral locations are granted to discoverers for nominal fees.

Absolute Titles are obtained by developing such properties, security of which is guaranteed by Crown Grants.

Full information, together with Mining Reports and Maps, may be obtained gratis by addressing

THE HON. THE MINISTER OF MINES,
VICTORIA, British Columbia

N.B.—Practically all British Columbia Mineral Properties upon which development work has been done are described in some one of the Annual Reports of the Minister of Mines. Those considering mining investments should refer to such reports. They are available without charge on application to the Department of Mines, Victoria, B. C. Reports of the Geological Survey of Canada, Pacific Building, Vancouver, are recommended as valuable sources of information.

Anyox Notes

Continued from Page 1

Mr. and Mrs. Chas. Bocking returned from the south on Friday.

Miss A. Callaghan, of the telephone staff, left on Friday for a vacation, which she will spend in Vancouver.

Dr. Kinsman was a southbound passenger on Friday bound for Vancouver and Portland, Oregon, where he will spend a vacation.

Dr. and Mrs. H. A. Simmons left on Friday for Stewart, where they will spend a short vacation.

Robt. Dodge returned to town on Friday from Vancouver, accompanied by a bride.

Those returning from a vacation at Alice Arm during the week were: Mrs. F. Cross, Mrs. J. Dunn, Mrs. L. Wenerstrom, Mrs. Hallam, Mrs. Tierney, Mrs. H. Armstrong and Mrs. J. Stewart.

Mrs. J. B. Haffner and family spent a few days at Silver City during the week, returning on Saturday.

Mrs. P. Whelan and family left on Friday for Seattle, where she will join Dr. Wehan, who left for that city a few weeks ago.

George Tate spent this week-end holidaying at the Alice Arm Hotel.

Dr. Learoyd is Appointed Health Officer

D. R. Learoyd, M. D., C. M. has been appointed medical health officer for Anyox district and medical health inspector of schools at Granby Bay and Granby Bay mine in place of Paul Whelan M. D. formerly of Anyox.

Provincial Legislature Will Meet October 26th.

VICTORIA, August 24—The Legislature has been called to meet on Monday, October, 26th. Members were asked for an opinion by the Premier regarding the date, whether the session should be held, as for the past four years, in the fall or, as was formerly the practice, in the spring. The weight of opinion was for the continuance of recent practice. There is not much government legislation in prospect at the present time and it is expected that what there is to be will be ready early in the session. A bill dealing with the water situation around Vancouver is likely to be one of the chief measures before the House, and this will in all probability be in the direction of appointing a single board to manage water affairs for Vancouver and the surrounding municipalities.

Increase of Forest Fires This Year

The total number of forest fires which have been reported to the Forest Branch up to August 15 is 1913, as compared with 1621 up to the same date last year, and only 954 to that date in 1923. It was hoped that the rain that fell would have some influence in reducing the fires, but in spite of that there were 211 outbreaks reported last week. On the coast, however, the situation has eased considerably. Sixty-two fires were caused by one electric storm, and one of the worst of the coast fires, which destroyed twenty homes of settlers, was due to the snapping of a steel cable and the ignition of a dead tree by friction. The present hazardous conditions are common to the entire Pacific northwest, and in the states adjoining British Columbia great loss is being experienced. The cost of forest patrols in this Province is given by the Minister of Mines as being one-half cent per acre.

Send a copy of the Herald to your friends who are interested in mining or furnish us with their address and we will mail them a sample copy.

Panama Provides Cheap Transportation

As an instance of how the building of the Panama Canal has revolutionized business in this province it is now shown that it is possible to ship B. C. lumber to New York by the route at a rate equal to the rail rate between Vancouver and Calgary.

LAND ACT

Notice of Intention to apply to Lease Land

In Prince Rupert Land District, Recording District of Cassiar, and situate at head of Hastings Arm, on West Shore.
