Climax Looking Good

That the Climax is a valuable property and worthy of considerable development work has been proven by Messrs. J. Seaton and Jens Larsen, who have been doing development work there. They have made a cut 30 feet wide across one ore ledge, and have not yet found either wall. The ore is galena, and carries good values. They also located five ore ledges where it was thought that only one existed. The Climax consists of 2 claims and joins the Moose property on the north, and the Silver Horde on the west.

Rich Ore Strike Made On Toric Property

Another strike of high grade silver ore has been made on the Toric property, by Mr. J. Strombeck, who has been developing the property during the past few weeks.

Two years ago the Toric was considerably in the limelight, when a strike of exceptionally high grade ore was made, and this latest strike proves still more conclusively that the Toric hill is rich in high grade silver ore and only requires development work to prove the extent and richness of the different ledges.

The new strike was made at a distance of only 150 feet from the trail to the Wolf property, and 50 feet south of the strike that was made two years ago. The ledge has been proven to be six feet wide and the ore is composed of ruby, native, and brittle silver, the ore also carries galena. Samples will be sent out for assaying.

As soon as it is possible to get in supplies Mr. Strombeck will return and intends to do considerable development work.

Each year there are rich ore ledges uncovered in the Kitsault Valley, and judging from all appearances, this year promises to be even better than former years, this being the second big strike made.

New Ore Discovery on Silver Horde

Mr. A. Davidson recently uncovered a ledge of silver ore on the Silver Horde property, while doing development work. The ledge is 12 feet wide, and carries good silver values.

Popular Young Anyox Lady Weds

A very pretty wedding took place on the morning of Thursday, July 10th, when Myrtle Sable, youngest daughter of Mr. and Mrs. John Swanson was united in marriage to Dr. Arthur M. Gee, of Victoria. The ceremony was held at the home of the bride's parents. Rev. J. Herdman officiating.

The bride looked very charming in a navy travelling suit and carried a bouquet of pink roses. She was assisted by her sister, Miss Edna Swanson, who acted as bridesmaid and carried a bouquet of pink and white carnations. The groom was supported by Mr. E. Swanson, the bride's elder brother.

The Wedding March was played by Mrs. E. Swanson, and during the signing of the register, "Oh Promise Me" was sung by Miss Dill, accompanied by Miss McConkey at the piano.

The house was beautifully decorated with evergreens with contrasting colors of pink and white streamers. and a large wedding bell in the centre.

After the ceremony, a buffett supper was served and later the bridal party and guests motored to the dock, where the happy couple bid farewell to their many friends and relatives as they sailed away on the S. S. Prince George on their honeymoon.

After a brief stay at Vancouver Dr. and Mrs. Gee will make their home in Victoria.

They were the recipients of many beautiful gifts.

Anyox Ball Team Lose To Alice Arm

A team of baseball stars from Anyox spent a very pleasant afternoon playing ball here with the local professionals, last Sunday. After the smoke of battle had cleared away the score keeper announced a score of 22 runs to 5 in favor of Alice Arm. The Fitzpatrick boys were the pick of the visitors, tho from the comments of the large crowd of rooters that were present it looks as if Anyox will have to send up a stronger team, for our nine sure are playing in First league style.

Jas. McAleenan made a satisfactory umpire.

The teams lined up as follows:

Anyox: Barney Fitzpatrick, Basil Fitzpatrick, C. Seworrly, J. James, H. Hogben, F. Gordon, A. D. York, O. Flint, D. Roberts.

Alice Arm: Sherman, Burmeister, T. W. Falconer, Lee Intermelia, Barney Gray, M. Smith, Geo. Bruggy, Al. Falconer, H. Mann.

The Granby Company's men are busy in the Smelter end of the town, replacing the plank roads with crushed stone and gravel finishing with a thick layer of slag on top. When finished, the road has quite a good appearance and is much safer and more substantial than the plank, and at the same time minimizing the fire hazard in that part of the town.

Anyox Baseball

Smelter Defeat Mine

Local baseball got under way again on Monday evening, when Smelter met and defeated the Miners in a rather loose game, by the score of eight runs to three. Ferguson on the mound for the losers was only touched for six hits but was accorded poor support in the pinches. Fitzpatrick was also nicked for six safe hits but kept them fairly well scattered. Cecil Ferguson was the big man with the stick getting three hits out of four trips to the rubber. By virtue of their win the Smelter pulled themselves up on a level with the Elks at the top of the league. They each have now won four and lost three. While the Mine have won three and lost five.

The teams were, Mine: Clark, Ferguson, Anderson, Lane, Kirk, Allen, Dean, Lewis, W. Kirk.

Smelter: McKeown, Fitzpatrick, McDougall, Chenoski, Dow, Wells, Cole, Stewart, Loeske.

Umpires Olsen and Greenwell.

Local Players Lose to Ketchikan

The local aggregation of ball tossers made the trip to Ketchikan and lost both games of a double header, to the Alaskans. The scores were, nine to nothing and four to three. The first game was good baseball right up to the eighth inning, but in this frame Fitzpatrick weakened and six runs were chased across the plate. Four scattered hits was the best the local boys could do off Kolonan's delivery.

Cody was on the mound for Anyox in the second encounter and held the opposition scoreless right up the last inning, in this inning however the team went to pieces; five errors and a base hit gave the Yanks four runs and the game. Four hits, all of them made by Ellensburg, was the extent of Ketchikan's efforts off Cody's slants, while the Anyox boys gathered four off Brant, who was on the mound for the winners.

The visitors were shown a thorough good time during their stay in the Alaskan town, seats were reserved for them at the boxing smoker, the evening of their arrival, Five good bouts were witnessed with interest. Immediately after the smoker a banquet was held in their honor at the Poodle Dog Grill after which the entire party retired to the dance.

Afternoon game, Ketchikan: Ireland, Kolonan McIntosh, Tracy, Lijestand, Harris, Ellensburg, McCloskey, Miller.

Anyox: Cody, Fitzpatrick, Lame, Wells, Brown, Greenwell, Down, Campbell, Hall.

Evening game, Ketchikan: Ireland, Brant, Hill, Bennet, Liljestrand, Harris, Ellensburg, Peck, Blackman.

Umpires W. Olsen and Stakpole.

Keystone Co. to do Development Work

The Keystone Mining Co. who have an option on the Sunset property on Roundy Creek, have decided to develop the property this year. Mr. G. Stenfelt arrived from Seattle on Monday, and will have charge of operations. Development work will consist of driving a tunnel on the ore ledge. A new building will also be erected at the mine, and the trail improved so that supplies can be taken in.

Prevent Forest Fires--It Pays

Alice Arm Building Boom Continues

If the building boom at Alice Arm continues for the next few years at the same pace as it has during the past three years, there will be at the head of the Arm a town of considerable proportions.

Several buildings are in the course of construction and several more are planned to be built before the next snow flies.

The new home of Mr. H. F. Kergin on Sea View Heights, midway between the town and wharf, is well under way, and the interior finishing is about all that remains to be done.

Mr. James . McAleenan's new store building in the down-town business section of the town, is also being rushed to completion, and is now open for business.

The commodious new residence of Mr. Morris Peterson, near the Tennis Courts, is fast nearing completion, and will shortly be ready for occupation.

Mr. N. P. Wickstrom is erecting a bungalow on River Drive, near Falls Creek, and several smaller residents have been built on the Island between Falls Creek and the Kitsault River.

Messrs. Dick Roberts and Marshall Smith are planning to build a residence on the Island in the near future, and a business block will shortly be erected by Mr. Melton in the business section of the town.

If the prosperity of a town can be judged by the number of buildings under construction, Alice Arm is among the most prosperous towns in the province.

Many a bad egg is married to a girl because she doesn't like to drop it.

Rev. Father Buck Gives Lecture at Alice Arm

Rev. Father Buck, of Salem, Oregon, gave a lecture in the Coliseum last Sunday evening to a fair sized audience, which was thoroughly enjoyed by all present. His subject was, "The Catholic Church and the Bible." He dwelt upon the value everyone places on man's prerogatives, reason and free will, which place him above all earthly creation, and make him like unto God's image and likeness. He showed how man, through the abuse of these gifts, disobeyed God, and was justly doomed to punishment. Then he spoke of the opportunity man has through the merits of Christ to regain sonship of God by exercising his rational nature. Father Buck spoke of Christ's being wiser than man, and therefore having a plan for the redemption of man, and that Christ founded a Church into which He placed all those things necessary for redemption, if man would use his prerogatives and cooperate with the grace God willingly gives. An interesting point in the lecture, whether we agree with Father Buck or not, was the principal of the Catholic and Protestant churches. The latter take the Bible and self interpretion for the basis of their faith, while the Catholics, who compiled and declared which books belong to the Bible and which are inspired, take the Bible and tradition, since the Bible was not always available to all, and all interpreted by the Church which Christ founded, for their principle. He also gave a short history of the Bible. Father Buck is a pleasing speaker and held his audience throughout,

SYNOPSIS OF LAND ACT AMENDMENTS

PRE-EMPTIONS

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emptions is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 5,000 board feet per acre west of the Coast Range and 8,000 feet per acre east of that Range.

Applications for pre-emptions are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emptions must be occupied for five years and improvements made to value of $10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

PURCHASE

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price of first-class (arable) land is $5 per acre, and second-class (grazing) land $2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

HOMESITE LEASES

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

GRAZING

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free, or partially free, permits are available for settlers, campers and travellers, up to ten head.

BRITISH COLUMBIA

The Mineral Province of Western Canada

Has produced minerals valued as follows: Placer Gold, $76,962,203; Lode Gold, $113,352,655; Silver, $63,532,655; Lead, $58,132,661; Copper, $179,046,508; Zinc, $27,904,756; Coal and Coke, $250,968,113; Building Stone, Brick, Cement, $39,415,234; Miscellaneous Minerals, $1,408,257; making its mineral production to the end of 1923 show

An Aggregate Value of $810,722,782

The substantial progress of the Mining Industry in this Province is strikingly exhibited in the following figures, which show the value of production for successive five-year periods: For all years to 1895, inclusive, $94,547,241; for five years, 1896-1900, $57,607,967; for five years, 1901-1905, $96,507,968; for five years. 1906 1910, $125,534,474; for five years, 1911-1915, $142,072,603; for five years, 1916-1920, $189,922,725; for the year 1921, $28,066,641, and for the year 1923, $41,304,320.

Production During last ten years, $350,288,892

Lode-mining has only been in progress for about 33 years, and not 20 per cent of the Province has been even prospected; 300,000 square miles of unexplored mineral bearing land are open for prospecting.

The Mining Laws of this Province are more liberal and the fees lower than those of any other Province in the Dominion, or any Colony in the British Empire.

Mineral locations are granted to discoverers for nominal fees.

Absolute Titles are obtained by developing such properties, security of which is guaranteed by Crown Grants.

S. S. Mogul has been at Stewart all the week loading Premier ore.

Homestake Co. Repairing Trail

The Homestake Mining Co. are engaged in repairing the pack trail from the end of the Dolly Varden railway to their property at the Kitsault Glacier. As soon as the trail is made passable, the compressor etc. that was left at Trout Creek last fall will be taken in and development work on the property will be undertaken. It is expected that underground work this year will prove the existence of considerable bodies of ore.
