## The North Branch of Canadian Institute of Mining and Metallurgy

### THE ANYOX MEETING

The Anyox meeting of the North Coast Branch Canadian Institute of Mining and Metallurgy, was held on Thursday evening, June 9th. Chairman E. J. Conway presided, and Mr. G. C. Mackenzie, visiting secretary-treasurer, was asked to address the meeting.

Mr. Mackenzie explained that the policy of the Institute is to send its secretary over the country that he might come in contact with members, cast new light on Institute matters, create new interest, secure new members, and to bring the east a little closer to the west. The Institute aims to represent the mining industry, and its membership is not of any one class or profession, but it embraces everyone, who is interested in the science and art of winning ore from the ground and recovering from it materials for the use and convenience of mankind. The North Coast Branch exists for the purpose of bringing into contact, all classes of men engaged in the mining industry in this district. Its programme for the approaching year includes monthly meetings, at which talks and discussion on a broad range of mining and metallurgical subjects will be held. Arrangements are being made to secure material from other mines, such as the Hollinger, and the Sudbury and Cobalt camps.

### ALICE ARM MEETING

Saturday afternoon, the Anyox members visited Alice Arm. They were accorded a right royal welcome by C. B. Major North, councillor for British Columbia, at "The House on the Hillside." Here the Major's famous concoction "A bird in the hand" was discussed with the unanimous approval of all.

At eight o'clock the visitors were guests of the citizens of Alice Arm at a sumptuous dinner in the Alice Arm Hotel. Following this, a public meeting was held which was presided over by Major North, in the unavoidable absence of chairman, E. J. Conway. The policy and work of the Institute was outlined by Mr. Mackenzie. He said the Canadian Institute of Mining and Metallurgy was a national institution that has no politics and no religion except Canada. Its aim is to benefit the mining industry and what benefits mining, benefits Canada. The idea of its meetings is to create good fellowship among the members, to bring the prospector in contact with the engineer and capitalist, and to provide an opportunity for discussion and the exchange of information among its members.

Bert Kergin the popular member of the legislature for Atlin, was present, and discussed the relation of the Institute to legislation. He pointed out that the Institute could be an important factor in suggesting legislation and in giving advice on political questions that have a bearing on the mining industry.

Mr. Riel asked to have some additional light on the qualifications and duties of members, who are eligible. Mr. Mackenzie replied that all are eligible, every man in the industry; prospector, engineer, miner, doctor, mine operator, and metallurgist, they all have a place in the membership, and their duties are to attend meetings and to take part in the discussions.

John Stark, the pioneer prospector of the Arm, followed with an interesting description of the country, when cariboo fed on the flats at Alice Arm, and bears roamed over the outcrop of the Hidden Creek Mine. He approved the steps the government is taking in aiding the prospector in establishing roads and trails and in providing explosives at cost to prospectors. Referring to the perennial subject of a government plant for testing ores, he claimed the logical location was at tidewater, and suggested the Institute influence the government in some action along this line.

## ELK'S HOLD A SUCCESSFUL SMOKER

On Friday night, June 10th, the Elks held a very successful smoker in the Recreation Hall. Mr. Chas. Wing was the chairman and everyone had a good time. The Elk's orchestra augmented by the presence of Mr. J. Stephens, of Prince Rupert, at the piano, furnished the music. The programme consisted of boxing bouts by F. Schliehe vs. H. Downs; Al LaFortune vs. Fred Johnson; Joe Fitzpatrick vs. Jack Sherman; Ed. Wall vs. Jim Ferguson; Jim Gibson vs. Bil Gibson. Humorous stories were given by Sam Downs and George Burrell. Songs and piano selection by Geo. Thomas. Song by J. Thomson. Violin Solo by Joe Parker. Recitation by Jack Hughes, and ten minutes torture by Jim Esplin.

The feature of the boxing was the event of Jack Sherman and Joe Fitzpatrick, Sherman being knocked out in the middle of the fourth round, and did not regain consciousness until 15 minutes afterwards.

A skilful exhibition of wrestling was staged by A. LaFortune and C. Collins, resulting in a draw, both boys securing a fall.

George Jessop was in charge of the refreshments. The Bouts were refereed by Pat Ryan and Art. Andrews.

## ALICE ARM NOTES

Joe Wheatley arrived home on Thursday, from a trip to Prince Rupert.

Louis Izzo of the Silver Star, came up from a trip to Anyox, on Thursday.

See Al. Falconer for Wood or Coal.

Mr. and Mrs. George Morrow, of Anyox and Tom Gillispie, came in on Thursday. Mr. Morrow and Mr. Gillispie are going to work on their claims on the Illiance River.

Don Cameron came down from the Moose on Thursday.

The "Awake" left for Stewart, Thursday evening, Mrs. H. F. Kergin and her daughter Alice, are making the round trip.

The Anyox General Store are running a picnic to Alice Arm, on Sunday.

Mrs. D. S. Cameron and family left on Thursday, to spend the summer at her home in Vancouver.

Mr. and Mrs. F. D. Rice arrived at Alice Arm on Monday's boat.

Gus Strombeck is busy doing development on the Toric.

See Al. Falconer for pack and freight horses.

E. Hardy was fined \$15.00 and costs before T. W. Falconer, J. P., on Wednesday, for being drunk and disorderly.

Mr. G. Hanson & Mr. T. Buckle arrived in Alice Arm on Thursday, Mr. Hanson will be in charge of the party of geologists of the Canadian Geological Survey. Mr. R. W. Goronson and Mr. W. Riley arrived last week; and are camped at Trout Creek. Mr. G. Hanson will make a geological map of the upper Kitsault, and will be here until September.

Mr. George Clothier, mining engineer for the district, arrived in town on Thursday. George is well known in the Arm and was busy renewing acquaintances. He will be here a week, and will examine the Dolly Varden, North Star and Ruby Mines. Also Roundy Creek, Lime Creek and the Illiance River, to see what trails are needed to gain access to the different mining properties.

Mr. P. Philip, Public Works Engineer; Mr. T. Kilpatrick, Inspector of Bridges; and Mr. A. L. Carruthers, District Engineer, arrived in Alice Arm on Thursday, from Prince Rupert. They were in Alice Arm about five hours, and left for Stewart the same evening. From Stewart they go to Rupert and up the Skeena to the Omineca.

## ANYOX NOTES

Are you sure you are on the voter's list? Remember, Monday is the last day.

Mrs. C. J. Lowry entertained at bridge, Tuesday afternoon, in honor of Mrs. D. C. Roy and Mrs. Victor Bengston, who left on Thursday's boat to spend the summer months in Vancouver and Spokane.

Carelessness and neglect on the part of picnic parties to abide by the law in regard to extinguishing camp fires before leaving their camps, has resulted in a big forest fire at the head of Granby Bay. It seems a pity after waiting through a long winter for this beautiful weather, that the atmosphere must be polluted with smoke and ashes, when this condition could easily be prevented with just a little effort and forethought on the part of careless people.

In this connection it might be well to state that on two occasions the town and plant at Anyox was only saved by favorable winds from being wiped out as a result of fires.

A severe fire at this time would probably throw us all out of a job and work hardship on many others. A big percentage of these fires would be prevented if everyone would refrain from throwing away burning matches, cigarette and cigar stubs and pipe heels.

Mrs. H. S. Munroe was the charming hostess, at a delightful tea, on Saturday afternoon, June 11th. The occasion being a farewell linen shower for Miss Milligan, who is shortly to leave for the south. The afternoon was very pleasantly spent in playing bridge.

After partaking of the daintily served refreshments, the happy task began of opening and admiring the many handsome and beautiful gifts showered upon her.

Miss Milligan has been associated with the teaching staff in Anyox for three years, and has been a most efficient and painstaking teacher, and it will be with sincere regret that her many friends will see her leave their midst.

The wild roses are in bloom at the Arm.

Mr. and Mrs. Stephens arrived home from Vancouver on Thursday with their new baby.

Miss Smythe and Miss Wilson who have been on the Hotel Staff for the past year, have left for Victoria.

Mr. J. J. Trumbull, the popular Spanish teacher is leaving for Seattle, and will enter the state of Washington university in the fall.

Monday is the last day to get on the Voter's List. Get busy.

Mr. and Mrs Ben Selfe of Prince Rupert, returned home on Thursday

Jimmy Ferguson, formerly of the Goldheish mine it now working at the big mine.

Mrs. Percy Davis arrived home on Thursday

There is for rent at Alice Arm, by campers, one 2-roomed house, containing 2 double beds, 2 stoves, wood shed with wood, garden and good water, also 2 tents with stoves and beds, for further information regarding dates, etc., write to the Herald, Alice Arm, B. C.

## ANYOX BASEBALL

The Elk's Baseball team ride serenely on top of the table, much to the satisfaction of the bell-ringers. That "Hieland Teuch Tamson" the bell weather of the herd, with a bell in each hand and a whistle in his mouth, is great encouragement to the younger velvet horns.

	Played	W.	L.	Pts.
Elks	6	4	2	600
Smelter	6	3	3	500
Mine	6	2	4	333

## FOOTBALL

	Pld.	W.	L.	Drn.	Pts.
Smelter	5	3	0	2	8
Mine	5	1	3	1	3
Elks	4	1	2	1	3

Dillon's "Gas Eater's" football team are the only undefeated aggregation in town to date. Gas does not seem to hurt footballers.

## ALICE ARM BASEBALL

A team composed of players from camp eight, journeyed to town last Sunday, and defeated the home team by the score of 8 to 7.

The town team was minus the services of their pitching ace, Falconer, who was slightly indisposed.

George Bruggy had a narrow escape from serious injury. When trying to score, he was struck over the temple by a hard thrown ball and rendered unconscious, he revived and gamely continued through the game.

A bet was recorded at the Arm by one of the locals, that Dempsey will knock Carpentier out in five rounds, the odds were 20 to 100.

## Two New Ball Parks

Two northern coast cities are sporting new ball parks this season. Ocean Falls and Ketchikan, and Prince Rupert have the honor of being asked to send a team to both places to celebrate the opening.

**ALICE ARM MEETING OF THE CANADIAN MINING INSTITUTE**

The North Coast Branch of the Canadian Institute of Mining and Metallurgy, held a very successful meeting at the Alice Arm Hotel on Saturday, June 11th. Fourteen members from Anyox, and Mr. G. C. Mackenzie, newly appointed secretary-treasurer for the Dominion of Canada, made the trip on the Awake, Saturday evening. Major Morth, superintendent of the Dolly Varden Mine, was on hand to welcome the visitors, and under his supervision everyone was soon feeling at home.

A dinner was served at the Alice Arm Hotel, at 8 o'clock, for the visitors, and was attended by some of the citizens of Alice Arm.

The Meeting was called at 9 o'clock in the Hotel Dining Room, and in a few minutes it was crowded to the doors.

Major North was chairman of the meeting, he gave a short address, and introduced to the audience, Mr. G. C. Mackenzie.

Mr. G. C. Mackenzie, gave a very lucid address on the aims of the Canadian Mining Institute. He said the present membership was 1700 and represented every walk of life, the members including mining engineers, superintendents, shift bosses, miners and muckers; also bank managers, business men and others, who lived in mining centres, and were dependent on mining for their living. One of the aims of the Canadian Mining Institute was to see that sane laws were passed in Ottawa and the different provinces; in which mining got a fair show and was not bound down by ironclad laws that throttled the industry.

Mr. H. F. Kergin, M. L. A., was the next speaker. He took his audience back 15 years, when he first came north, and said that at that time there was't a mine shipping ore, except the placer gold of the Atlin country, and a few other scattered points. At that time there was no Anyox with its mines and smelter, no Alice Arm with its Dolly Varden and other mines, no Stewart with its Premier, and no Prince Rupert with its big fishing industry railroad terminals and drydock. Very few salmon were packed in those days, and very few white men was in the country. He predicted that the next 15 years would show far greater progress

than the past, because we have the minerals, the timber, the fish and also the cheapest transportation in the world, that is, water. The north will go ahead by leaps and bounds. We have the commodities the world needs most and no power on earth can check the progress of northern British Columbia.

Mr. John Stark in his address said it was 21 years ago, when he landed at Alice Arm, and the only white men here then was Mr. Roundy, Mr. Smith and himself. He gave a brief history of the Hidden Creek Mine, at Anyox, and strongly advocated a government testing plant in British Columbia, for testing ores, to aid prospectors.

C. P. Reel; Mr. H. Fowler; Mr. Ross; Mr. M. Peterson and Mr. H. M. Roscoe, local secretary, spoke on the different mining problems of the district, and the meeting closed with the singing of the national anthem.

The rest of the evening was given over to singing, and everyone spent an enjoyable evening.

Great credit is due to Major North in making the visit of the Anyox members as pleasant as possible, and also to Mrs. E. McCoy and staff of the Alice Arm Hotel, in preparing such an excellent banquet.

The convention of the North Coast Branch will be held in Alice Arm in the fall, and it is hoped that everyone will try and make it a success.

**New Government Wharf for Alice Arm**

Plans and specifications for the government wharf were received last Monday, and are on view at the Post Office. The wharf will be 100 feet in length and 50 feet wide. A derrick capable of lifting two tons will be placed on the wharf, and a warehouse 24 feet by 50 feet will also be built. Rock will be blasted out to make footings for piles. The two outer rows of piles to have their footings below low water level.

The wharf will be supported by creosoted piles, spaced 10 feet centre to centre in two directions. The superstructure will consist of caps, stringers, joists, planking, and guard rails, together with fender piles, bracing and tie cables anchored to the solid rock by means of anchor bolts.

**ANYOX GUN CLUB**

**Blue Rocks Escape**

The bad weather conditions and low visibility prevailing on Wednesday evening last, seriously handicapped the local trapshooting sharps, and low scores were the universal rule. Much interest is shown in the expected trip to Hyder, for July 4th, and the shooters are all getting their eyes trued up, and the kinks taken out of the gun barrels.

Following are the scores:

- Wetmore . . . 19
- Campbell . . . 14
- Roscoe . . . 14
- Champion . . . 12
- Rollag . . . 10
- Holmes . . . 10
- Mann . . . 9

**Stewart Pioneer Is Married**

Mr. J. Conway, the provincial government agent at Anyox, has received a letter from Harry Shaw, who was in Stewart in 1905, in which he states that he is alive and well. He arrived home from overseas April 1st, 1919, and that he now married and living at Hartland, N. B. He wishes to be remembered to all the boys that were in Stewart in the early days. He says New Brunswick looks pretty good to him after 20 years wandering in the west. Harry Shaw was a partner of Tom Wilson, Both men were prospectors, and were very popular members of the community in the early Stewart days.

### ANYOX SCHOOLS

That the splendid summer weather is fraught with grave risk of fire has been made plain to every member of Anyox Schools.

The call for Deputy Fire Rangers met with immediate and intelligent response. It should afford satisfaction to know that each and every Anyox School Student is alert to the real danger of fire and has undertaken to—

1. Watch for even the smallest blaze
2. Extinguish it at once if possible.
3. Report any outbreak to the nearest adult with the utmost speed.
4. Prevent all playing with fire apparatus.
5. Warn other children of fire dangers
6. Keep small children well away from any conflagration.

The approaching departure of two popular members of the staff, Miss Milligan and Miss Olsen, is causing much regret in town, which has held both ladies in deservedly high esteem. Miss Milligan's forthcoming marriage is the subject of hearty congratulations to the lucky man and of a linen shower given especially in her honor by the ladies of the town.

Miss Olsen contemplates an extended visit to the Old Country and has secured accommodation on the palatial Aquitania one of the largest and speediest vessels afloat.

She will be accompanied by the best wishes of us all for a safe and enjoyable journey.

That many a heart will break in twa will not be allowed the journey to mar.

Mr. Dow, the highly esteemed teacher of Division II., who resumed work recently was hailed with much elation by his class. This week the mine school welcomed back the numerous absentees who were by no means loth to exchange inactivity for the happy progress of their studies under the efficient management of Mr. Hartness.

Supplementary school reading matter has now been authorised and with existing loan and reference sections will furnish an attractive and useful school library.

Mr. W. H. Lambert, the principal, was confined to his home through sickness for two teaching days last week. We are glad to say that he was back at work on the 7th.

### Bridge Season Closes At Anyox Mine

The Ladies of the Mine Apartment Bridge Club closed a very enjoyable season on a week last Thursday evening, by entertaining their gentlemen friends at bridge, at the residence of Mr. and Mrs. A. Jenkinson.

After refreshments were served at half-past eleven, a beautiful flower basket was presented to Mrs. James Shepherd, by the club, for high score during the season. Mr. Shepherd being the recipient of the gentlemen's prize for the evening.

At the conclusion, a neat little surprise was sprung on the ladies, when the gentlemen presented a handsome Royal Doulton plate to Mrs. L. Morrison, who held the highest score for the evening.

## THE MAN AROUND TOWN

Are you on the Voter's List? Applications must be in the Government office, Anyox by Monday.

Colonel Crabbe left on Thursday's boat, after giving the plant a thorough overhauling. Everyone is now breathing a little more freely.

Rev. Hewitt and wife left for Hazelton after 2 years service at the Union Church here. We wish him success in his new sphere of labor.

The mosquitos are getting in their work in great old style from various accounts we have received.

The Elk's held a very successful smoker on Friday last. The star bout of the evening was between Jack Sherman and Fitzpatrick. Jack was counted out in the fourth round. We expect to see great things of Fitzpatrick one of these days.

The mothers of the town were up in arms last Wednesday night on account of the baseball rooters waking up their offsprings. Boys! take fair warning. You were babies once upon a time.

It is reported that the Community League are contemplating buying a few giraffes, so that those wishing to see the tennis games can do so without craning their necks.

Some folk have even gone so far as to suggest putting a high fence around the baseball grounds to keep the sun from the pitchers eyes.

Paddy Ryan was in the Hospital for a few days. He is about again now and doing well with the help of a cane. You cannot kill an Irishman.

Many corgoes loaded to capacity are to be seen even in our fair city these days. Drink and be merry boys, for soon will be the 15th. of June.

It's an ill wind that blows nobody any good. The jitney service are working overtime these nights.

The Vancouver Board of Trade was in our midst on Saturday for a few hours. Whilst here, they visited the smelter, mine and store, and found we were just about as up-to-date as the next fellow.

The mine and the Elk's had a battle royal at the baseball grounds last Wednesday evening. The rooters of both teams were there in full force. We even had a fog horn there to warn the boys of their mistakes.

The mine should have won the game. They had it all their own way until the 7th. innings, when the Elk's team tied the score, making it 5-5. Neither side scored in the 8th. innings, and then the Elks gobbled four runs in the 9th, and retired the mine with no further scoring. Ed. Swanson and his team wended their way up home sadder but wiser men. Evidently the inside dope which they were giving everyone previous to the game, was a bum steer. Shame on you Eddy, treating the boys that way. The atmosphere is sulphurous yet when that game is mentioned.

Ben Selve of Prince Rupert came in on Monday's boat. He visited Anyox Lodge No. 47, B. P. O. E. and gave a very interesting talk on the work the Elks are doing down in Rupert.

An exhibition game was played on the grounds, Sunday evening, between boys picked from the local teams. There was a good crowd in attendance, and Paul Armour was deadly with the ball. In fact four of them are still limping around town.

The policeman has his eye on Sam Downs these days. Look out Sam, he will get you yet for exceeding the speed limit with that darned old Ford truck of yours.

The store employees will hold their annual picnic at the Arpa, on Sunday, weather permitting. We are looking for a good time with the Alice Arm people, who are regular sports when it comes to making anyone welcome.

Monday is the last day to get on the Voter's List.

## B. C. Lightweight Championship Bout at Anyox on July 1st.

Jimmy Gibson of Anyox and Joe Farrell of Prince Rupert, will meet here on July 1st. for the B. C. title. Farrell, the present holder, comes with a good reputation, and Gibson who appeared in action with his brother, at the Elk's smoker last Friday, gave a good exhibition of skill, speed and endurance.

If Farrell intends to retain the title, he will have to go some, because Gibson is working hard in preparation for the bout. He is out to win and the Anyox boosters are behind him, and things will be interesting on Dominion Day.

## Big League Items

When Duster Mails fanned Babe Ruth his first two times up in the game pitched against the Yankees on May 16th., it was three times straight, for Mails favored him the only time he pitched to him last season.

Everett Scott, short stop of the Boston Red Sox, on May 17th. played his 700th. straight game— not counting 11 world series games—In that time, he has had 4755 fielding chances of which he had bobbed 116.

## New Wage Scale at Premier Mine, Stewart

Miners, \$5.50; Muckers, \$5.00; Laborers, \$4.75; Foreman and Shift Bosses, \$6.25; Timbermen, \$5.50; Hoistmen, \$5.50; Blacksmith and Tool Sharpener, \$5.75; Compressormen, \$5.25; Carpenters, \$6.75; Engineers, \$5.75; Teamsters 1 or 2 horses, \$5.00; four horses, \$150.00 and board.

Camp conditions have been improved, and all strikers have been reinstated. There were about 200 men in Stewart before the strike, waiting for a start, and more men are going in or every boat.

## Alice Arm, May, 1920

The following eruption was found in a prospectors cabin on the Kitsault. It is somewhat shaky, as perhaps he was, after his hike, or maybe it came after the eating of his first bannock. Anyway, it shows he must have spent many winter evenings at the old Kitsault House.

The song of the Hooter is heard in the hills, While the rise in the river marks the winter snows going. From the canyons and gulches of the hinterland vast. With their leads and lodes of native and ruby showing.

Gone are the days of the Hot Stove League. No more are the evenings when the hot coals glowed, To the tales of finding thousand ounce float. And of the rich ore the last shot showed.

Farewell, Stove, rich with wisdom of mining lore, Of formations, dips, leads, contacts and strikes. Of slips and gouge, folds and country rock. Of the nature of faults and the why of dykes.

Your door turns on an empty room, And the Prospector's shack is boarded and closed.

For the season is on and the outdoor's calls, For a summer of activity after the winter's repose.

The pack is strapped and the trail beckons on.

Tis time to mush, and each sallies forth.

Each having a hunch for a particular spot,

And each one taking a different course.

The "Bear Hunter" is hiking with the Clear Water fever.

"Hooter Bill" is off for the Glacier on the run.

"Shovel Nose" is staking along the the Illiance,

And the "Dutchman" is for Jacob's Creek with his whistler gun.

### L'Envoi

Pederson Hill has a billion tons in sight.

Eagle Bay echoes with a copper bottom sound.

McGraw mountain staggers under a mile wide lead.

While the Spanish Mine with its ruby glare lights up the town.

### BIRTHS AT ANYOX

Mr. and Mrs. Angus McLean, Anyox Mine, June 6th, a son.

Mr. and Mrs. A. R. Kent, June 7th, a son.

Mr. and Mrs. Hugh Johnson, June 10th, a daughter.

## WILLIAM SLOAN

### ASSAYER

Gold and Silver . . .	\$2.00
Copper . . . . .	1.50
Lead . . . . .	1.50
Zinc . . . . .	2.50

Price List of other Metals on Application. Mail Orders Promptly Attended to. Remit Money Order with Samples.

## ANYOX THEATRE

SHOWS FOR WEEK OF JUNE 20th.

Tuesday, at 7 p.m.

Louis B. Meyer's, "The Woman in His House"  
Educational Reel, "Pigmy Circus"  
Special Orchestra Numbers.

Thursday, at 7.15 p.m.

Kathleen McDonald in "My Lady's Latchkey"  
And a 2-reel Comedy, "A Sure Cure"  
Special Orchestra Numbers.

Saturday, at 7.15 p.m.

Douglas McLean, in "Let's be Fashionable"  
Travel Picture and Paramount Magazine.  
Special Orchestra Numbers.

## BRITISH COLUMBIA

### The Mineral Province of Western Canada

Has produced minerals valued as follows: Placer Gold, \$75,722,603; Lode Gold, \$100,272,431; Silver, \$50,432,304; Lead, \$43,821,106; Copper, \$153,680,965; Zinc, \$16,818,487; Coal and Coke, \$199,123,323; Building Stone, Brick, Cement, etc., \$29,991,757; Miscellaneous Minerals, \$786,918; making its mineral production to the end of 1919 show an

**Aggregate Value of \$670,649,894**

The substantial progress of the Mining Industry of this Province is strikingly exhibited in the following figures which show the value of production for successive five-year periods: For all years to 1895, inclusive, \$94,547,241 for five years, 1896-1900, \$57,605,967; for five years, 1901-1905, \$96,509,968; for five years, 1906-1910, \$125,534,474; for five years, 1911-1915, \$142,072,603; for the year 1916, \$42,290,462; for the year 1917, \$37,010,392; for the year 1918, \$41,782,474; for the year 1919, \$33,296,313.

**Production During last ten years, \$322,829,310**

Lode-mining has only been in progress for about 25 years, and not 20 per cent of the Province has been even prospected; 300,000 square miles of unexplored mineral bearing land are open for prospecting.

The Mining Laws of this Province are more liberal and the fees lower than those of any other Province in the Dominion, or any Colony in the British Empire.

Mineral locations are granted to discoverers for nominal fees.

Absolute Titles are obtained by developing such properties, the security of which is guaranteed by Crown Grants.

Full information, together with Mining Reports and Maps, may be obtained gratis by addressing

**THE HON. THE MINISTER OF MINES,  
VICTORIA, British Columbia**
