## Colts Hold Beach Down To a 2-0 Win On Sunday

You couldn't ask for nicer baseball than was dished up last Sunday in the pitching duel between Ferguson and McInnes. These two southpaws worked to perfection. The Beach nicked McInnes for one hit, and the Colts got to Ferguson for three. The two runs credited to the Beach came from errors that proved costly for the Red Caps. Errors that have marked the season's play so far, were not as abundant as usual, but the large attendance got their action out of these. McColl was absent from the Faulkner ranks. This brand of ball deserves the support of all the fans.

## Alice Arm---Anyox Mail Service Changes Next Week

Owing to the change in the schedule of the Canadian National Steamships next week, the local mail service between Alice Arm and Anyox will also necessarily be changed. Mail will leave Alice Arm for Anyox every Tuesday morning at 9 a.m. and also every Friday at 2 p.m. Mail for Alice Arm will leave Anyox every Tuesday at 3 p.m. and every Saturday at 10 a.m.

## Mine Footballers Will Hold Dance Next Friday

With the object of fostering the excellent spirit of good fellowship which prevails at the Mine, the footballers of that community are holding a dance on Friday the 23rd. in the Mine Hall. The reputation established by the people of the Mine for providing real enjoyable dances will be maintained by the soccer fraternity, and all visitors are assured of a thoroughly good time on Friday evening next.

## ALICE ARM NOTES

Wm. McFarlane, who spent the past winter months here left on Monday for Vancouver. He will join Geo. Bruggy there and they will proceed to the Cariboo Country where Mr. Bruggy has a mining property in the vicinity of Barkerville.

Dr. D. R. Learoyd arrived on Tuesday from Anyox on board the launch Cuprite. He made a medical examination of the school children, and owing to numerous patients in the Anyox hospital was forced to return immediately after the examination.

H. F. Kergin, M. L. A. left on Saturday for a business trip to Stewart, returning on Thursday.

Constable Geo. Blaney arrived from Anyox on Thursday on departmental business and expects to return this morning.

J. Calvin, a former resident and prospector arrived on Wednesday from Prince Rupert. He covered the entire distance in a row boat, leaving there on the 8th. Owing to rough weather it was not possible to prospect the coast on the trip north as he had intended.

Miles Donald and A. McPhail returned on Wednesday from Hastings Arm, where they have spent about ten days looking over the mining claims owned by J. Flynn.

J. Strombeck, who has been doing development work on the Moose property in the Upper Kitsault country returned to town on Wednesday. This will complete his mining activities in the district for this year as he intends shortly to make a trip into the Cariboo Country, including the Bridge River and Barkerville sections. This will be the first time in twenty-five years that Mr. Strombeck has failed to carry on development work on his mining claims during the summer months.

## Golf Tournaments Are Being Continued

The following games have been played in the Cup Flight of the Ladies' Open Golf Championship: Mrs. Wenerstrom won from Mrs. Sheen 2 and 1; Mrs. Fricker won from Miss Cloke 6 and 5; Mrs. Cundill won from Mrs. Smith 5 and 3; Mrs. Roy won from Mrs. Simpson 7 and 6.

In the First Flight Mrs. Gorman won from Miss Shields 3 and 2.

In the second round of the Men's Open Championship Geo. Lee won from W. Cavalier 4 and 3, and in the third round W. Henderson defeated F. Persin. This match went to nineteen holes.

## Anyox Battlers Provided Many Thrills For Sport Fans

Easily the best fight card ever staged in Anyox, took place in the Gymnasium on Friday the 9th. under the auspices of the Community League. There was a good crowd; the accommodation was excellent, and the whole affair was well managed. All the scrappers mixed it freely, and handed out fare which was entirely to the liking of the fans.

In the main bout, Deeth vs. Windle, the latter got a well-earned decision, the bout ending in a technical knock-out in the sixth round. Deeth battled gamely and cleverly and showed a greatly improved style over his previous appearance in the local arena. The judges were R. Gale and W. Patterson, and Dr. G. James was timekeeper. The fights were under the capable control of J. Coggins.

A smart exhibition bout between Eddie Phillips and Jock Watson proved a good opener, and the scrap between the Britannia Kid and Charlie Beck ended in a draw. Tiger Boulter, whose smiling face entirely belied his name, mixed it freely with Tommy Demarco for four rounds. These lads were well matched and showed lots of action, and the bout ended in a draw. Bert Boud and Tommy Graham, both of Vancouver, next met in a four-round decision match, and gave a good exhibition, which ended in Boud's favor. Graham started off well but faded somewhat after the second round, taking much punishment from an aggressive and clever opponent.

The main bout provided some real thrills. Deeth, who weighed in, at 138, and Windle, who scaled 143, had previously met at Prince Rupert, Windle earning the decision on that occasion. The local lad forced the fight from the start, and was eager and willing to trade punches all the time, while Windle showed superior ring tactics and kept a cool head throughout. In the first round, honors were even and also in the second until just before the gong, when a right to the head sent Deeth down on one knee. Coming back in the third round, Deeth went strongly after his opponent, clever footwork and real boxing resulting. A stiff left to the jaw sent Deeth down for the count of nine. In the fourth round Windle's cool and masterly style began to tell, though Deeth's vitality and cleverness stood him in good stead. A severe punch on the

## Standing of Shares of Toric Mines Co. Explained

The question of the value of the shares of the old Toric Mines Co. Ltd. is often discussed by people in this district. Such a question appeared in a current issue of the Financial News, Vancouver, and the reply published in that paper is as follows:

"Toric Mines holds 750,000 shares in Torbrit Mining Co. Ltd. representing a one-quarter interest in the property known as the Toric mine consisting of four claims covering 98 acres on Kitsault River, 18 miles from Alice Arm. Control of the Torbrit is held by Britannia Mining and Smelting Co. Ltd. which formed this subsidiary as a holding company for the Toric, Wolf, Dolly Varden and other holdings in the Kitsault River District. Chief values are in silver with lead and gold values as well. While the outlook is improved somewhat by the recent increase in the price of silver it is believed that resumption of operation will not be considered until silver stabilizes at a still higher level. Development at Toric was continued up to April 1930 and results were described by Dr. Mandy, resident government engineer for the district, as very encouraging. There is very little trading in the shares, most of the holders apparently holding in anticipation of improved conditions."

## C. N. Steamship Schedule Changes

The summer schedule of the Canadian National Steamships will commence next week. The Prince Rupert or Prince George will arrive at Anyox on Friday evening June 23rd. at 10 p.m. instead of Wednesday. This schedule will be continued during the summer months.

Due to sickness among the players, the game scheduled for Monday last between the Celts and Rangers had to be postponed. It will, however, be picked up at a later date.

Frank D. Rice, well known land surveyor of this district for many years is at present engaged in surveying the mining properties of the Reward Mining Co. near Barkerville.

head sent him to the mat towards the end of the session. In the fifth and sixth rounds Windle easily had the edge, but could not get in the knock-out blow for which he watched and waited. It was a fast and interesting scrap, with both boys in the pink of condition and willing to give the fans a real showing. The A. C. L. are to be congratulated in providing a memorable evening's entertainment.

## Beach Baseballers Trim Cubs By 15 to 6 Score

The Mine Cubs fumbled their way through seven innings last Friday that netted the Beach boys fifteen runs and gave them their third straight victory. Neither team was so hot in the field, the errors totalling fourteen. Lewis and Ballentyne helped the boys fatten their batting averages when the Beach got eleven and the Cubs nine hits. George Allen, the hard-hitting Beach infielder, continued his batting streak and looks good for League honors.

## Celts Win From Mine By Narrow Margin

The game between the Celts and Mine on Thursday the 8th. ended in a win for the Celts by 3-2. There were a number of changes in the line-up of each team, the Mine working in some new players, all of whom made good showings. Up to half time the Mine held down the Scotsmen with a two-goal lead, but on the resumption the Celts came back strong and made the score two all. Both teams tried hard for the winning counter, and it was not until the last few minutes that the Celts turned the trick, being awarded a penalty kick and Horner making no mistake in sending it in. A few warm evenings would see some good crowds to witness these games, in which keen interest is being taken.

Developing, Printing and Enlarging. All work returned on following boat. Wrathall's Photo Finishing, Prince Rupert.

**The Economic Conference  
 And Its Local Effect**

The eyes of the world are turned toward the World Economic Conference now in session at London, including the people of Anyox and Alice Arm. The decisions reached at the conference will have a direct result on the lives of everyone in this district. If the conference is a success and world trade increases, higher prices for copper will result, and everyone in Anyox will be happier. If the nations of the world accept bi-metallism and place silver on a parity of 16 or 20 with gold, Alice Arm will boom; a large payroll will result and everyone will again display their old-time pleasant smile. If the conference fails to achieve any tangible results the future will be dark indeed, not only for all of us in this district, but everyone throughout the world. That the leaders of the world's nations realize the gravity of the present situation is shown by the fact that sixty-six nations are represented at the conference. If they meet each other with a give-and-take attitude, many problems that retard world trade can be adjusted. If, however, the old blustering and threatening, mistrust and jealousy is indulged in no substantial good can be attained. We believe much good will result from the Conference. It is unthinkable that the nations will break up the conference without righting the wrongs that confront mankind. If such, however, was the case and things allowed to drift, it would mean the breakdown of our present form of civilization in the near future. The world's statesmen realize this. That is why the conference was called and that is why a solution to our present problems must be solved.

**Sports For All**

Sport in Anyox is proving popular these days. Everyone possessing even a small amount of pep and vim is provided with an outlet for their energies. Included in the list of recreations are: boxing, wrestling, baseball, football, tennis, golf, gardening, wood-cutting, boating, hiking fishing and swimming. This list is formidable when all placed in rows as above. If you need exercise take your choice. No one can truthfully say there is nothing to do when the day's work is over. Good outdoor exercise is essential to good health. A good sweating opens the pores of the skin and ejects body poisons. Spend as much

**New Money Pours Into  
 B.C. For Development  
 Of Mines**

British Columbia gold stocks at Toronto and Vancouver are up to high levels on the standard issues, carrying with them other stocks lesser known but actively traded in. Every new list of B. C. companies contains new gold mining ventures, and optimism has broken through listless depression trading to make new ground on all listed issues. It is fair to say that little new development has taken place at the mines in the same period, so that buying is largely the measure of an awakening confidence in the issues, together with influx of outside capital to seize on B. C. opportunities.

The final test of a mine is what comes out of the ground, and this will eventually control the worth of the different B. C. ventures. Most of the present buying appears to be on account of international forces bearing on the gold values in currency, anticipating some future move which would make gold more valuable. Whatever the cause, the effect has been a tremendous stimulation in B. C., which is overflowing into other lines with some resulting benefit all round.

**Summary Report Of Barker-  
 ville and Quesnel Mining  
 Areas Published**

In recognition of the extensive activities in the Barkerville and Quesnel Forks areas, Cariboo District, British Columbia, the Geological Survey, Department of Mines, Ottawa, has issued a special Summary Report (Part AI, 1932) on these two areas. The report is in two sections, namely, Placer and Vein Gold Deposits of Barkerville by W. A. Johnston and W. L. Uglow (a reprint of part of Memoir 149 now out of print) and Geology and Placer Deposits of Quesnel Forks Area, by W. E. Cockfield and J. F. Walker.

Early in April, the Geological Survey published a reprint of a map of Barkerville area, showing the geological features. Demand for this map has been exceptionally keen and there is every indication that the present report will be equally popular.

Copies of Summary Report 1932, Part AI may be obtained from the Director, Geological Survey, Department of Mines, Ottawa, or from the British Columbia Office of the Survey, 508-512 Winch Building Vancouver.

time as you can outdoors when the sun shines. A long sunless fall and winter will follow the short summer, and a coat of tan is good medicine.

## Rocky Mountains Are Ideal Holiday Land

**B**eauty unrivalled, health-giving altitudes, all the comforts that modern ingenuity can devise and "something to do" all the time await the army of travellers from all over the world, which annually invades the glorious Canadian Rockies through the Banff Springs Hotel and the Chateau Lake Louise. These stately up-to-date hostleries, which open on May 15 and June 1, respectively, are not only key-points to the most beautiful mountain territories in the world, but are, themselves, located in settings of a beauty which has to be seen to be truly appreciated. On the main line of the Canadian Pacific Railway, which owns and operates them, they are equipped not only to be "homes from home" to the travelling public and holiday-seekers in the generally accepted sense, but to furnish entertainment for their guests in many and varied ways. Auto drives, trail-rides, boating, fishing, swimming, golf, tennis, hiking and mountaineering, to say nothing of the famous Indian Days and the Highland Gathering, are all part of programs which years of experience have brought to perfection. Experts in all lines are in attendance to be of service to the hotels' guests and real cowboys, red-coated "Mounties" and true Stoney Indians lend color to a hundred variations of uniquely picturesque scenes. There is never a dull moment at Banff or Lake Louise. There is something for every taste and the rounding off of full days by dancing in cool and spacious ball-rooms, to smart orchestras, is not the least of the attractions offered.

The pictures show: (1) the Banff Springs Hotel; (2) a typical Stoney Indian; (3) the Chateau Lake Louise.

## Championship Fish from Ontario Waters

628

Results are out for the three major fishing competitions held in Ontario each year at French River, Nipigon River and Devil's Gap Bungalow Camps, all three contests being sponsored and trophies awarded by the Canadian Pacific Railway Company.

They were: a 49 1/2 inch muskalunge taken from the French River by F. R. Spotts, of Houston, Texas, weight, 85 pounds, seven ounces, girth, 25 inches. It took nearly three-quarters of an hour to land this beauty. A six pound speckled brook trout from the Nipigon River caught by Edward Pohlman, of East St. Louis, Ill., 22 1/2 inches long and 14 inches in girth. A black bass from the Devil's Gap Bungalow Camp,

Lake of the Woods, four pounds, 1 1/2 ounces in weight, just over 21 inches long and 18 3/4 inches in girth. It fell to the rod of J. C. Jones, of St. Louis, Mo. Each winner was awarded a framed certificate signed by the judges of the contest and were also given gold lapel buttons. Fishing was exceptionally good this year in these sections and the winners were up against the stiffest kind of competition.

Lay-out shows, centre top, J. C. Jones, winner of Devil's gap contest; left, top, Lake of the Woods Black Bass specimen; right top, Nipigon River speckled trout specimen; lower centre, record head of muskalunge taken at Devil's Gap.

## THE PICTURES

### "A Farewell To Arms"

SATURDAY, JUNE 17th.

With Helen Hayes, Gary Cooper, Adolphe Menjou. This Paramount Picture, adapted from Ernest Hemingway's world-famous story, tells of two who began in passion's reckless abandon, with a love that grew until it heeded neither shame, danger nor death. It is the inspiring record of two souls that were lost for love's sake. Into the giant tapestry of a world in turmoil is woven the most tumultuous romance yet written or screened. As you read it in the book, so you will see it on the screen. Splendid acting and thrilling scenes make this the most exciting picture you've seen.

### "Skyscraper Souls"

TUESDAY, JUNE 20th.

This Metro picture features Warren Williams, Maureen O'Sullivan, Anita Page, and Norman Foster. It is the story of a man whose life's accomplishment is the building of a gigantic skyscraper—his ambitions, failings, loves, passions—the power of his name and the shallowness of his character. There's drama, romance, comedy, spectacle, human interest and flamboyant sex. The audience goes into the stock market, watches shares soar to heights and drop like plummets. Lavishness in settings keeps this picture two steps ahead of the parade. From Faith Baldwin's famous story "Skyscraper Souls" that ran in the Cosmopolitan some time ago. A picture for everyone—see it Tuesday.

### ANYOX NOTES

Mrs. Forde and daughter Audrey left on Monday for a holiday visit to Vancouver.

Miss Patricia Healy arrived on Monday for the summer vacation.

A. H. Stewart left on Thursday for a holiday visit to Victoria.

T. A. Barnard, President of the Dominion Executive of the Canadian Legion, B. E. S. L., arrived on the Prince George on Thursday.

Angus McLean left on Thursday for a holiday visit to Vancouver, Victoria, and Kamloops.

Mrs. T. Buchanan and her sister, Mrs. A. Campbell, arrived on Monday from Scotland. Mrs. Buchanan returns to Anyox after an absence of fourteen months, during which time she visited her people in Ayrshire. Her baby daughter is nine months old. Mrs. Campbell, who has a boy of nine years and a girl of six years, is visiting her brother, Mr. W. Ballentyne.

Frank Woodside, manager B. C. Chamber of Mines, has returned to his duties after a session at Harrison Hot Springs for treatment of rheumatism.

### Booze Profits This Month

Final cheques for liquor profit distributions will be sent out to B. C. municipalities by the Government sometime this month, as the last contribution from these funds for the year.

Two gas shovels are working on the Quesnel-Barkerville road. The road will be widened in as many places as the \$10,000 special appropriation will permit. Trucks are at work gravelling the mudholes.

### Contracts Let For Diamond Drilling On Georgia River

Work on Georgia River gold mine, Portland Canal district, is to be prosecuted with vigor this season. Wellington Beaton, president of Georgia River Gold Mines, and director in Helena Gold Mines, which will now carry on the operation, left Vancouver on the 14th. instant for the property, and will personally direct the work.

Diamond drilling contracts have been let for surface drilling and also for drilling from the present faces

### B.C. Gold Mining Still Booms

British Columbia's gold boom continues apace, with spectacular advances on listed shares on the market, and more favorable cause for encouragement in the actual results on the ground. Ordinary company incorporations for April and May eclipsed the record for the corresponding periods of last year by a comfortable margin, while new mineral concerns set a new record in such incorporations.

of the drifts, and at the same time, tunnelling and other underground work will be carried on.

\$48.85 (Season Limit)

From Vancouver... by steamer to Prince Rupert and by rail to Jasper Park. Go either way, 600 miles on a palatial steamer through the "Fjords of Canada"... 1300 miles overland through Skeena River, Rocky Mountain and Fraser Valley countries.

Half way is Jasper Park (world's largest) with golf, fishing and almost every known sport... the climax of what you'll say is the trip of a lifetime!

Illustrated folder and information  
H. McEwen, D. F. and P. A.  
Prince Rupert, B. C.
