Annual Report Granby Co. Shows Increased Earnings

The Annual Report of the Granby Consolidated Mining, Smelting and Power Co. Ltd. for the calendar year of 1928 has been recently published. It shows that the company enjoys a very favorable position, and that the future is full of promise. The whole report is very interesting reading. It is our pleasure to be able to publish such a favorable report, which is the best for many years. The report in full—except for a few minor items—is printed below:

"Herewith is submitted the annual report of the President, covering the operations of your properties for the calendar and fiscal year ended December 31st, 1928, together with financial statement and balance sheet approved by your Auditors.

"The financial results as stated reflect improvement in both operating efficiency and benefits derived from higher average metal prices prevailing in the copper market over those of 1927.

"The statement of operations show that the total income for the year, exclusive of depreciation and depletion, for which there was no cash outlay, amounted to \$2,971,071.39, representing earnings at the rate of \$6.60 per share of stock outstanding at the end of the year, as compared with the results for the previous year of \$1,428,579.50 or \$3.21 per share. As the result of the improved conditions in the financial affairs of your Company, quarterly distributions were made amounting to \$1,344,515.10 for the year.

"At the close of the year your Company was in excellent financial

condition and the prospects for the coming year are most promising. On February 1, 1929, distribution to shareholders was increased from the rate of \$4.00 to \$6.00 and on March 26, 1929, to \$7.00 per share per annum, and with the continuance of a copper market approximating present prices this rate is expected to be maintained. The year closed with net quick assets of \$5,053,858.38, of which \$3,024,105.70 was in cash.

"During the year, new ore was developed, amounting to 3,044,427 tons, being 748,053 tons in excess of the tonnage mined and treated during that period. With the development and operation of the Bonanza ore body, further work will be carried on in order to delimit the present known ore body.

"Plant improvements in progress at the end of the year consisted of changes in mill equipment, which are now in operation and have materially raised recoveries. At the Allenby mill, a new type of cell is being substituted, from which improvement in operating efficiency is expected.

"Several options were taken during the year on new properties in British Columbia and exploratory work conducted thereon. The showings encountered, however, were insufficient to justify further development and the options were cancelled. The policy of keeping engineers in the field will be continued and examination will be made of any new properties of interest which may be brought to the Company's attention.

Anyox Daughters Of Empire Meet

Kincolith Chapter I. O. D. E. met on Tuesday when Mrs. O. G. Macintyre and Mrs. Chas. Macintyre were hostesses. Mrs. Dunn was admitted as a new member.

It was decided that the Regent, Mrs. Lang, should attend the National Convention to be held shortly. The Chapter subscribed for corporate membership in the League of Nations Society, and will donate the literature received to the Elementary School.

Plans were prepared for ceremonies in connection with the presentation of portraits of His Majesty to the High School and Elementary School on May 23rd. The order is likewise preparing a campaign for the celebration of Brown and Alcock's airplane crossing of the Atlantic. The day appointed is June 14th.

Three Teams To Enter Baseball League

Baseball got away to a good start with a well attended meeting on Friday, May 3rd. The former vice-president, A. Pynne was installed in the Presidency. E. G. Brown was chosen vice-president and Geo. Winkleman consented to act as secretary.

Three teams will take part in the schedule which begins on May 17th. The teams are: Concentrator supported by the Community League and managed by W. Henderson; Elks under the tutelage of Mike Chenowski; and the Mine guided by C. Swanson. Two umpires will control the games, J. Cody and M. Thompson. A. Pynn has been appointed groundsman by the Community League and will have every assistance in fixing up the diamond.

Births at Anyox During Months of April

Born to Mr. and Mrs. Chas. Docherty, at the Anyox Hospital, on Monday April 1st., a son.

Born to Mr. and Mrs. James C. Dandy, at the Anyox Hospital, on Friday April 5th., a daughter.

Born to Mr. and Mrs. Olaf Olson, at the Anyox Hospital, on Monday April 8th., a daughter.

Born to Mr. and Mrs. Matthew Thompson, at the Anyox Hospital, on Sunday April 28th., a son.

Anyox Legion Donates Fifty Dollars to Scouts

The Anyox post of the Canadian Legion has given fifty dollars to the local scouts. This constitutes a memorial to the fallen. It will probably take the form of an annual gift in commemoration of those who gave their lives during the Great War.

Pretty Wedding Takes Place Anyox

A very pretty wedding was solemnized in Anyox during the week when Miss Julia Calderoni and Mr. Norman Harris Roberts were united in marriage.

The bride was given in marriage by her father Mr. V. Calderoni. Miss Helen Calderoni, sister of the bride, acted as bridesmaid, and the ushers were Alfred and Antonio Calderoni.

The bride wore a gown of white canton crepe trimmed with rhine stone buckles and a conventional bridal veil. She carried a shower bouquet of pink carnations, white irises and maiden hair fern.

The bridesmaid wore a gown of poudre blue georgette trimmed with velvet, featuring the pointed scallops. Her large picture hat was of gold mohair matching the gold trimmings on the gown and her bouquet was composed of rose colored carnations with maiden hair ferns.

Mrs. N. R. Redman played the wedding march and during the signing of the register Mrs. T. M. Ethridge sweetly sang "Because".

The church and home were nicely decorated with white streamers and bells and ferns.

Following the ceremony a reception was held at the home of the bride's parents where a large number of friends attended to extend their congratulations and good wishes to the newly weds.

The couple received many beautiful gifts from their friends. The groom's gift to the bride was a brown fox fur and the bride's gift to the groom was a diamond tie-pin. The soloist and organist received onyx rings. The bridesmaid received an alligator skin hat-box and the groomsmen received white gold cuff links.

Among the visiting guests were the groom's parents Mr. and Mrs. J. Roberts and Mr. C. A. McIlroy of Cessford Alberta, and the bride's sister and brother-in-law, Mr. and Mrs. C. Ciccone of Port Clements, B. C.

The happy couple left on the C. N. R. Steamer enroute for Alberta where they may locate.

Professor Soward To Address Anyox Audience

Kincolith Chapter I. O. D. E. has arranged with the Extension committee of the provincial university to have Pro. Soward deliver a lecture in Recreation Hall, on Monday May 20th. at 8 p.m.

Prof. Soward's subject will be "Canada's New Responsibilities in International Affairs." The address is free to the public and everyone is invited. It is of vital interest to every intelligent Canadian.

Mr. and Mrs. Stone were arrivals on Saturday's boat.

Homeguard Ore Ledge Looks Promising

The Homeguard property, which is being developed by the Dalhousie Mining Co. of Victoria, is showing up well under development work.

At the present time, an ore ledge which is known to carry good values in gold, silver and zinc is being developed. This is being done by open cuts, and the ore has been traced a distance of 200 feet up the hill. It is of a high commercial grade, having a width of from 3 to 5 feet. The ledge in which the ore is found, however, is about 16 feet wide.

Some fine samples of ore, taken from different cuts, were recently brought down, and were sent out to the head office of the Dalhousie Co. for assaying.

The above-mentioned ledge is located in close proximity to the Dolly Varden railway. It is independent of the big copper showings existing on the property, from which the chief values will probably be obtained when the property is more fully developed.

Following present preliminary work, it is planned to thoroughly explore the property this summer by radiore prospecting.

Angus McLeod, general superintendent for the company is expected at an early date, in order to make a further examination of the property.

The big cabin has been converted into a bunkhouse, thus affording accommodation for a larger crew.

The Dalhousie Co. are to be congratulated for the manner in which they have conducted operations throughout the past winter, and it is expected that development work this summer will prove the Homeguard to be a big tonnage mine.

Two Fatal Accidents At Anyox During Week

Injured accidentally at the Concentrator last Saturday, George Westgarth passed away on May 5th. The deceased who was in his 30th. year, is survived by a brother, Colin, in Anyox, and by his mother at Chopwell, Durham, England. Interment was in the Anyox Cemetery on Wednesday afternoon when a large number of friends of deceased attended.

The victim of injury at the Mine on Saturday, May 4th., Marco Blazevich passed away shortly after being admitted to the hospital. The mortal remains of the deceased who was in his twenty-eighth year were interred in the Anyox Cemetery, following service on Thursday afternoon, from the Catholic Church.

Inquests as to the cause of death in both cases were held, and in both instances a verdict of accidental death was returned.

Council of Community League Met On Wednesday

At a meeting of the Council of the Anyox Community League held on Wednesday it was decided that the League operate the Red Parrot ice cream parlor during the summer. An expert attendant will be engaged at once.

Plans for improving the ball grounds were discussed at length, and a plan to make necessary repairs was authorized.

It was also decided to allot the sum of \$25.00 a month for the purchase of new books for the circulating library, and that only members of the League to be admitted to the Reading Room.

A meeting will be held on Monday evening next, at 7.30 p.m. in Recreation Hall to discuss the advisability of the construction of a tennis court on the flats. An attempt will be made to provide a programme of sports for May 24th.

Ample Funds Available For Tiger Development

The working force at the Tiger mine will be increased as soon as possible. The Utility Mines No. 1 Ltd. have ample funds at their disposal for the developing of the property during the summer.

Development work at the mine has reached an interesting stage, ore having been proven on three levels, and the tunnel on the fourth level is now being driven.

A compressor plant is already on the ground, having been taken in last fall and will be installed as soon as possible. Development work will then be speeded up, and as soon as the ore body is encountered in No. 4 tunnel, which is expected at a depth of 800 feet, the blocking out of ore will be carried on by raises and drifts.

Mr. and Mrs. Ciccon arrived in town on Monday from Prince Rupert.

Annual Report Granby Co. Shows Increased Earnings

Continued from page 1

"In conclusion, it is a sad duty to record the death at his residence, in New York City, on March 11th, 1929, of Colonel Joseph T. Crabbs, who, at the time of his decease, was President and a member of the Board of Directors of this Company.

His passing brings a deep sense of loss and sorrow to the Board and to all those who were his associates and friends."

The year's operations are presented by Mr. Bocking and are as follows:—

Production and Sales for 1928

| | Anyox | Allenby | Total |
|----------------------------|------------|------------|------------|
| Copper sold, lbs. | 35,637,267 | 25,373,815 | 61,011,082 |
| Copper produced, lbs. | 36,134,026 | 21,387,728 | 57,521,754 |
| Silver produced, ozs. | 279,885 | 150,775 | 430,660 |
| Gold produced, ozs. | 5,821 | 5,268 | 11,080 |

"The average cost per pound for copper produced after allowing credits for precious metals and miscellaneous income, but exclusive of bond interest, depreciation, depletion and income taxes, was 9.188 cents as compared with a like figure of 9.971 cents for 1927.

"There was no property acquired during the year.

"At the Anyox plant there was a small amount of construction consisting principally of the completion of the extension of the concentrator building and the installation of flotation equipment.

"The major item of construction carried on during the year was the equipping and preparation for opening up the Bonanza property, which was practically completed by the end of the year.

"This work was finished by the end of February. Development work was started the latter part of the year and by the end of February progressed to the extent that a limited amount of ore was moving

from this property to the Anyox concentrator.

Mining Department: Development work at the Anyox plant, including Bonanza, but exclusive of diamond drilling, amounted to 4,792 feet, and at the Allenby plant, 14,273 feet, or a total of 19,065 feet.

Diamond drilling at the Anyox plant amounted to 6,969 feet, and at the Allenby plant, 14,520 feet or a total of 21,489 feet.

The tonnage of ore developed during the year, including the Bonanza ore body, which has not heretofore been included in the ore reserves, amounted to 3,044,427 tons.

The tonnage of ore mined at the Anyox plant was 1,410,763 tons, and at the Allenby plant, 885,611 tons, or a total of 2,296,374 tons.

Ore reserves at the end of the year were 14,713,132 tons as compared with 13,965,079 tons at the beginning of the year, or an increase of 748,053 tons.

Comparative Statement of Operations for Years Ended

| | December 31st. 1928 | 1927 |
|--|---------------------|----------------|
| Gross revenue from operations | \$9,942,397.13 | \$8,411,949.18 |
| Operating costs | 6,691,169.86 | 6,597,482.24 |
| Gross profit from operations | \$3,251,227.26 | \$1,814,466.94 |
| Insurance, Taxes, Adm. expens, etc. | 521,294.71 | 332,239.17 |
| | \$2,729,932.55 | \$1,482,227.77 |
| Add dividends from investments | 253,258.57 | 71,796.00 |
| | \$2,983,091.12 | \$1,554,023.77 |
| Deduct interest on bonds to date of redemption | 12,019.73 | 125,444.27 |
| Net profit to surplus | \$2,971,071.39 | \$1,428,579.50 |

The Granby balance sheet shows inventories of \$2,344,642. This includes copper, silver and gold on hand at smelter, at refineries and in transit, metals in smelter process in concentrates and ore, and materials, supplies and merchandise. Accounts receivable stand at \$95,506, and

cash at \$3,024,105. Mines, mineral and timber lands stand at \$4,633,999. Original cost was \$16,683,413, with a depletion charge of \$12,049,414. The plant and equipment, including buildings and real estate, stand at \$7,406,167, which represents

NOTICE

Mining Company officials are asked to note the provisions of Section 16, "Mineral Survey and Development Act," which are quoted herewith, and to govern themselves accordingly.

"(1). Where a corporation, other than a private company under the 'Companies Act,' acquires an interest in, or title to, or engages in work on any mining property situate in a mineral survey district, it shall forthwith notify the Resident Engineer of that district and the Provincial Mineralogist, and file with them full particulars thereof, and shall also file with them, as soon as it is issued, a copy of every prospectus or statement in lieu of prospectus which is required by the 'Companies Act' to be filed with the Registrar of Companies.

"(2). Where a corporation, other than a private company under the 'Companies Act,' issues, publishes, or distributes, or causes to be issued, published, or distributed, any pamphlet, bulletin, circular, advertisement, or publication relating to any mining property situate in the Province in which the corporation has any interest or on which the corporation is engaged in work, the corporation shall forthwith file a copy of the pamphlet, bulletin, circular, advertisement, or publication in the office of the Resident Engineer of the mineral survey district in which the mining property is situate, and shall also forthwith file three copies of the same in the office of the Department of Mines at Victoria.

"(3). If a corporation makes default in complying with any requirement of this section, it shall be liable, on summary conviction, to a fine not exceeding twenty-five dollars for every day during which the default continues, and every director and every manager of the corporation who knowingly and wilfully authorizes or permits the default shall be liable to the like penalty.

For Information Regarding British Columbia mines apply to the Department of Mines, Victoria, B. C.

Special Bulletins, Annual Reports, etc. furnished free of charge on application.

Annual Report Granby Co. Shows Increased Earnings

Continued from Page 2

sents an original cost of \$17,019,010 less depreciation of \$9,612,843. Shares in other companies are \$579,056 and deferred and prepaid charges, \$85,308. Deficit is shown at \$3,250,657, making total assets of \$21,419,444.

Liabilities shown in addition to capital stock of \$21,009,047 with 450,000.65 shares of \$100 par outstanding, only accounts and wages payable \$271,052, and accrued liabilities estimated at \$139,343, making total of current liabilities of \$410,496.

The surplus account shows a deficit represented in the asset side of the balance sheet, of \$3,250,657. This deficit arises out of severe charges of depreciation and depletion and does not involve any cash outlay. The adjusted deficit at the end of 1927 was \$2,026,593. Depreciation charge last year was \$1,418,877, and the depletion charge was \$776,257. From this deficit is deducted the net profits of \$2,971,071, which carries forward the deficit at the end of the year to \$3,250,657. If the present price of copper is maintained for the balance of the year, it is likely that the accounts for the present year will convert this book-keeping deficit into a surplus.

Bottom Thought To Be Reached in Copper

MONTREAL.—Another decline took place last week in the price of copper and is now beginning to be thought that the bottom of the present drop has been temporarily reached. Copper at 18 cents compared with its peak of 24 cents reached last month looks as though it had had a pretty severe hammering.

It will probably be found, however, that during the first quarter of the present year the average price has ranged around 18 cents, which is considerably higher than the average for last year.

Copper experts point out that the situation is so complex that it is as yet impossible to speak with certainty as to what the bottom will be. The prevailing opinion seems to be that the price will be stabilized between 18 cents and 19 cents.

The suddenness of the break in the past two weeks has probably caused a bearish view of the future and has undoubtedly hurt stock market sentiment in stocks like Noranda and International Nickel.

Trading on Exchange Continues High

Trading in the Vancouver Stock Exchange continues in large volume with interest still centred chiefly in the oil issues.

The total turnover in April was slightly over 17,000,000 shares, which had a market value in excess of \$18,000,000 as compared with the March value of \$25,000,000.

It is hardly likely that the March record will be broken again for several months, since the tendency is for trading to ease off in the summer season.

May Drive Tunnel George Property at Stewart

Driving of a tunnel at the George Copper mine is expected to be undertaken as one of the first steps following the taking over of management by the Consolidated Mining & Smelting Company. At the annual meeting this week it was reported that drilling has been proceeding in

Here and There

286

The contract for a new fast steamship to ply between Saint John and Digby, Nova Scotia will shortly be awarded by the Canadian Pacific Railway, it has been announced by E. W. Beatty chairman and president of the company. The ship will be of the highest standard, 340 feet in length, capable of carrying 500 passengers, and having 44 state rooms for night service. There will also be accommodation for 50 motor cars. The speed of the vessel will be 2 knots, an unusually high speed for a short trip.

The sap ran freely this spring, but it will have to go some to surpass the record for last year when there was an increase of four million pounds of maple sugar registered by government statisticians. The output was valued at over two million dollars, and Quebec headed the list of provinces as producer, followed by Ontario.

The daily pay-roll of the Canadian Pacific is \$267,000; the daily outlay for material and supplies is \$220,000, and the daily tax bill over \$20,000.

Prince George, Duke of Gloucester, third son of His Majesty, will early in June officially open the great Royal York Hotel of the Canadian Pacific Railway in Toronto, it has been announced by E. W. Beatty, K.C., chairman and president of the company. The building is the tallest in the British Empire, towering 23 storeys above the pavements of the "Queen City."

In a recent Calgary high-school oratorical contest in English candidates in the finals were born respectively in Canada, England, Lithuania, Roumania, and Russia. Of three Edmonton candidates one was of French, one of German, and one of Scotch extraction.

Few souvenir-hunting travellers have bagged as fine a prize as Viscount Willingdon, Governor General of Canada, who was presented with one of the biggest Totem Poles on the Pacific coast during his recent cruise in the Princess Norah, latest addition to the fleet of the British Columbia Coastal Steamship services of the Canadian Pacific Railway. His Excellency was given an insight into the activities and potentialities of Vancouver Island and was much impressed by the beauty of the coastal scenery.

A party of immigrants who with in a short time are expected to multiply in large numbers and become thoroughly Canadianized, arrived in Montreal recently via the Canadian Pacific Express. They were rabbits—brown rabbits—sent from Germany to points in Ontario for breeding purposes. They appeared to be none the worse for their long journey and constantly nibbled at lettuce offered them by admiring expressmen.

ore of 2 and 3 per cent. copper content. There was a substantial volume of ore of this content encountered. It was mentioned that the drilling programme of last summer will be continued.

Meeting Held to Support League of Nations

Impetus was given the drive for members of the League of Nations society at a public meeting on Wednesday evening. The chief speaker was the Rev. J. Dewar, who gave an interesting outline of the objects and achievements of the League of Nations. Selections by the Victor Orchestra and by Mr. Corran accompanied by Mrs. Anderson were much enjoyed. Following the address, the Chairman, Mr. Fordyce Clark, outlined proposals for the formation of a local branch of the society. Rev. J. Dewar was the enthusiastic and unanimous choice of the meeting for the office of President, with Mr. Barclay as Treasurer, and Mr. Clark, secretary. Committee Members will be Mrs. McMaster, Mrs. Lang, Mrs. Eve, and Mrs. A. S. Baillie, with Messrs. B. Buck, Fred Graham, and T. J. Kirkwood.

Local residents will be approached by these workers to take out membership in the society. The cost is one dollar and the benefits are, firstly, literature which keeps one abreast of world movements for international harmony, and secondly, the consciousness that one is doing one's bit in the cause of peace and goodwill.

Tidewater Molybdenum Being Developed

The Tidewater Molybdenum property, which is situated down the inlet about four miles from Alice Arm, is being developed by a small crew of men who are doing assessment work.

It is owned by G. W. Bruggy and Wm. McFarlane, and is estimated to contain one of the best molybdenum deposits on the continent.

ALICE ARM NOTES

Jack Collins, an old resident of the camp, arrived from Prince Rupert on Monday.

J. Peacock left on Monday for a short visit to Prince Rupert.
