## New Kitsault River Co. Meets With Ready Response For Capital

The outlook for the Kitsault River Mining and Development Co. Ltd., who will develop the Matilda, Fox and Blue Ribbon group of claims, is exceptionally bright says Mr. Elmer Ness, who returned last week from Vancouver, Victoria and Seattle.

Mr. Ness, who has spent several months in the south, in connection with the company states that he has met with every encouragement. He has placed a considerable number of shares on the market and enquiries are continually being made. One individual who is connected with mining interests, and who is now going to California, requested 150,000 shares, for disposal in that state. If these are placed on the market, all 25 cent shares will be withdrawn, and the price advanced. Par value of the shares are \$1.00.

Several influential men of the south are interested in the company, and as soon as possible they will send an engineer to examine the property on their behalf.

The Kitsault River Mining and Development Co. have a distinct advantage over the average stock company formed for mining purposes, inasmuch as no payments have to be made in order to acquire the property. The owners of the property stand on an equal footing with other shareholders, as they have taken shares in payment. They are confident, however, that the property can be developed into a mine, and are willing to take their chances with the other shareholders.

Such a square and above-board proposition cannot fail to interest the investing public. Another advantage possessed by the company is that all money will be spent on the ground, under experienced supervision. The company having no luxurious offices to keep up, and no high salaried officials to lounge in easy chairs. It is these facts that are attracting substantial men to invest and which will ultimately spell success.

While in the south Mr. Ness interviewed several of the most prominent mining men of the province, and also Seattle. He was surprised at the fund of information these men had regarding developments at Alice Arm, and was assured that at least three mining engineers, representing reliable mining companies would visit the camp this year.

If you require a tough bond paper for drawing plans of mineral claims, etc. call at the Herald Office. We have in stock a wide selection of paper and card in various colors and grades. Any size you wish.

## Anyox Greets New General Manager And Says Farewell to Mr. H. S. Munro

A very pleasant evening was held on Wednesday at the Recreation Hall, under the auspices of the Anyox Community League, when everyone was invited to be present. The invitation was for the purpose of saying goodbye to Mr. H. S. Munro, late general manager of the Granby Co., and also to become acquainted with the new general manager, Mr. Chas. Bocking.

Speeches were made by the various officials of the company, and dancing and supper rounded out the evening.

Mr. H. S. Munro, who has been general manager of the Granby Co. for over five years, gave a short address in which he thanked everyone for their loyal support and co-operation during his term of office, and asked that the same spirit of co-operation which had been shown him in the past be shown to his successor, Mr. Bocking.

Mr. Haffner then made a short speech of introduction and welcome to Mr. Bocking. Mr. Bocking spoke to some length on the achievements of Mr. Munro in a business way and also of the many friends he had made here. The new general manager of the Granby Co. asked for the support and co-operation of all employees and assured them that he will try in every way to make it a fifty-fifty proposition.

After Mr. Bocking's speech, dancing was continued until one o'clock. Ice cream, cake and coffee were served cafeteria style. The music was furnished by the Elks' orchestra composing Austin, piano; Steele, trombone; Stivenard, cornet; Waterman, drums and Armstrong, violin.

## ANYOX NOTES

Mr. George Spike and family left town on Monday, bound for Prince Rupert.

Dr. Keeley and his assistant, J. Kerr, arrived in town on Monday, after an absence of over two months.

Mr. H. Speight returned from a trip to Prince Rupert last week.

Mr. Harry Kirk left on Monday for Prince Rupert.

Mr. T. Robertson of Vancouver, was a passenger south on Monday.

Mr. H. D. Southam was a passenger to Vancouver on Thursday. It is rumoured that the wedding bells will ring in his honor while in the south.

Mr. Chas. Bocking left for the south on Thursday.

Continued on page 4

## ALICE ARM NOTES

Hand Laundry Work. Moderate prices—Miss B. Crawford, Alice Arm.

Angus McLeod, who has spent the winter in the south, returned to town on Monday.

Fred Mattson arrived in town yesterday from Anyox.

Messrs. Chas. Bocking and J. B. Haffner, of the Granby Co. paid a visit to the town on Tuesday.

Mrs. N. Satilovich left on Monday for Prince Rupert. Her daughter Zorka arrived on the Cardena to escort her.

Hans Petersen, who has spent the winter in Stewart and Anyox arrived home yesterday.

See Al. Falconer for Wood, Coal and Lumber.

The children of the Anglican Church Sunday School will hold a Choral Service tomorrow at 2 p.m. Everyone invited.

Mr. and Mrs. Geo. Young and family left on Thursday for Bella Coola.

Mr. F. Brown of Anyox, arrived in town yesterday and left for the smelter town again this morning.

Sam Moran, who has spent the winter in Vancouver, was at arrival in town yesterday.

The sidewalks on First Street are being repaired by the Department of Public Works.

A general meeting will be held at the School House, on Monday evening, at 7.30 p.m. The meeting has been called for the purpose of discussing the vaccination of the children under the recent order of the Provincial Board of Health. All parents are requested to be present.

The city streets are getting more busy each day due to the arrival of those who spent the winter on the outside and thus escaped the snow. Others that follow logging and mining are also flocking in, to share in the prosperity of the coming summer.

The new addition to the Welcome Pool Room is receiving its first coat of paint.

See Al. Falconer for Freight and Pack Horses.

Over a foot of snow is lying on the ground in the upper portion of the town.

We thoroughly understand that everyone is exceptionally busy at this time of the year, that the walking is bad, and all that, but when you receive a notice that your subscription to the paper has expired don't wait until you have to wade through next winter's snow.

The town that hasn't got an organization working for its interests is DEAD.

## Dolly Varden Railway Cannot Retard Growth States Premier Oliver

### Any Company Can Operate It Who Mean Business

What position the government would take in regard to the operation of the Dolly Varden railway, in the event of any mining company wishing to operate it, has been a riddle for a considerable time. This point was recently made clear by the Premier in reply to a question by Mr. Elmer Ness, who obtained an interview with the Premier, while he was in Victoria.

During the interview, Premier Oliver stated that the government was ready at any time to do everything possible for the development of the Kitsault River district. In regard to the railway, which was the property of Mr. Wingfield and associates, he stated that if any mining company desired to use the railway, ways and means would be found whereby they could operate it. In the event of a company wishing to buy and a dispute arose with the present owners, a board of arbitration would probably be appointed to appraise the present day value of the railway and equipment and their decision would be final.

The Premier realized that the railway is the only means of communication up the Kitsault Valley and the government will not allow the development of the country to be retarded. Any company who means business and are strong enough financially to operate the railway will be able to do so.

## Construction Of New Wing Dam Commences

Work was commenced this week of the construction of a wing dam, to protect the east pier and approach of the big Kitsault River bridge, a short distance above the town of Alice Arm. The work is in charge of J. Wells and at present five men are employed. This number will be increased, however, in the near future, when the rock quarry will be worked, the rock to be used to fill the cribbing.

Owing to the soft nature of the river bank on the east side, and the tendency of the river to cut a channel behind the approach, this work has been found necessary in order to safeguard the bridge. The dam will be 160 feet in length and 10 feet wide. Cribbing will be built and this will be filled up with rock taken from the rock quarry on the west side of the river.

It is understood that the Wharf Road will be surfaced as soon as possible, as it needs building up badly. The road across the flats to connect the Illiance trail will also no doubt be completed this year.

## Presentation Made To Mr. H. S. Munro By Department Heads

A very pleasing social affair was held at the home of Mr. J. B. Haffner, assistant general manager of the Granby Co. on Saturday evening. The occasion was the presentation to Mr. H. S. Munro, late general manager of the Granby Co., of a silver water jug and tray by Mr. Geo. Warwick, on behalf of the managers of the various departments of the Granby Co.

In receiving the gift, Mr. Munro thanked all those present, for their kindness, and expressed his gratification for the loyal support given him by the managers of the different departments during the past five years. He trusted that the same support would be given to Mr. Bocking, for the success of the company's undertakings depend to a large extent upon the support of the various managers. Mr. Munro was roundly applauded for his kind remarks.

Mr. Bocking who was then called upon to respond to an address of welcome by Mr. Haffner, stated that co-operation of the employees was essential to the success of an organization, and hoped he would find in Anyox the same spirit of co-operation as had been prevalent in the past.

Mr. Chas. Wing, in a brief and breezy address took his audience back to the time when Mr. Munro arrived, when the fate of the company hung in the balance, and it was a question of whether to close down or persevere and win out. Thanks to the co-operation shown by everyone, the company is still operating, and the big payroll of over \$2,000,000 each year has helped considerably towards the prosperity of the province.

## Committees Appointed For Anyox Boy Scouts

A meeting of the fathers of the local boy scouts to appoint a committee, which would be responsible for the boy scout movement at Anyox, was held in the boy scout's hall last Thursday evening. On this committee the following were elected: Messrs. Barclay (chairman) O'Neil, Asimus and Clay.

Under the able leadership of Mr. Murdock, who is scout master, three patrols have been organized with Stewart McLachlan, Stanley Sawrey and Ed. Clay. The boys are all taking a keen interest, and passing the necessary tests with honor. Uniforms have been sent for, and we are hoping that we will soon see the scouts on parade. Mr. Alex. Crear has been appointed assistant scout master by the scout committee. Mr. Crear was interested in boy scout work in the Old Country and has had lots of experience.

We are glad to note that Mayor Taylor, of Vancouver, is opposed to the amalgamation of the Chamber of Mines, Publicity Bureau and Board of Trade. This amalgamation was suggested evidently with an idea of centring the work and reducing the expense. It might work all right with the Publicity Bureau and the Board of Trade, but the Chamber of Mines is along different lines. Any man with general experience and some ability can manage either of the first two organizations, but the Chamber of Mines requires a man with technical knowledge of mining. That organization is fortunate in having a very competent man in charge at present, and the only drawback to further efficiency is that he is handicapped by having too much to do.

"The Chamber of Mines has done splendid work under its present auspices," Mayor Taylor said, and, I think Ald. Frank E. Woodside (president) should be allowed to continue to develop the operations of the organization."

The Chamber of Mines is demonstrating its usefulness, and it may be that the provincial department, which is a main support, may see some day that it would be advisable to make the Chamber the active factor of its organization. It could well be taken over entirely by the department of mines, as it gives that branch of the government a practical service that nothing else can or does--Western Canada Mining News.

A town that never has anything to do in a public way is on the way to the cemetery. Any citizen who will do nothing for his town is helping to dig the grave. A man that curses the town furnishes the coffin. The man who is so selfish as to have no time from his business to give to town affairs is making the shroud. The man who will not advertise is driving the hearse. The man who is always pulling back from any public enterprise throws bouquets on the grave. The man who is so stingy as to be howling hard times, preaches the funeral and sings the doxology. And thus the town lies buried.

Cranbrook and Kimberley are receiving at least fifty men a day from the prairie in quest of work, which is just about fifty too many according to the Courier.

Fire alarms numbered 1022, and the fire damage amounted to \$1,117,208 in Vancouver last year.

**Annual Report of Premier Mine Shows Enormous Profit**

The Premier Gold Mining Co. Ltd. paid a dividend of \$400,000 on April 3 to stockholders. This dividend is for the first quarter of 1924, and swells the total of Premier's dividend payments to \$6,993,000.

According to the annual report of the Premier the value of the ore shipments in 1924 was \$3,857,328.52, while operating expenses amounted to \$1,082,783.70. The mine earnings for the year totalled \$2,721,605.91, while four dividends paid during the year amounted to \$1,715,000.

The report values the assets of the company at \$8,166,060.62, divided as follows: Mining property, buildings and equipment, \$6,056,657.70; investment in stock of B. C. Silver Mines, Ltd., at cost, \$129,616.76; cash on hand, \$1,289,601.32; accounts collectable, \$15,772.50; ore sold in process of liquidation, \$491,722.75; materials and supplies, \$182,689.58.

In 1924 the report states that the Premier mine produced 159,014 tons of ore containing 139,288 ounces of gold, 3,015,381 ounces of silver and 452,010 pounds of lead. The ore shipments were divided, the Tacoma smelter receiving 75,917 tons, Granby smelter, 21,132 tons and the Selby smelter 11.36 tons of precipitates.

Mr. Guess, the managing director, states that it is a conservative estimate to say that the Premier mine has 420,000 tons of ore available down to the fourth level of the present workings. Below the fourth level diamond drill indicates now the presence of 146,000 tons of ore.

This ore, according to Mr Guess, will average close to \$20 a ton in gold and silver. Above the fourth level Mr. Guess states there is a considerable tonnage of ore developed which is of rather complex mineralization which may become profitable to treat later.

In development work the Premier has been successful in opening up ore bodies in two new areas, and by so doing has kept the ore reserves about the same as a year ago. Exploration work to the south of the main workings, according to Mr. Guess, failed to find any commercial ore, while work on the sixth level has been unsuccessful to date in developing ore bodies.

**Coal Shortage at Nome is Becoming Serious**

The failure of the coal laden steamer Appollo to arrive last fall, and the sudden prosperity of native fox trappers, has created a serious coal shortage at Nome. Trappers purchased coal instead of combing the beach for wood. The coal famine is relieved somewhat by the city's purchase of 50 tons from the United States Signal Corps radio station, which was apportioned in one and six sack allotments. The situation is regarded as serious, the next coal ship is due in June, but all beach wood is exhausted for 30 miles, and the nearest forest is 70 miles.

## SYNOPSIS OF LAND ACT AMENDMENTS

## PRE-EMPTIONS

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emptions is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 5,000 board feet per acre west of the Coast Range and 8,000 feet per acre east of that Range.

Applications for pre-emptions are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emptions must be occupied for five years and improvements made to value of \$10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

## PURCHASE

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price of first-class (arable) land is \$5 per acre, and second-class (grazing) land \$2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

## HOMESITE LEASES

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

## LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

## GRAZING

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free, or partially free, permits are available for settlers, campers and travellers, up to ten head.

## Last Year's Mineral Production Shows Big Increase

When the annual report of the minister of mines of British Columbia appears this month it will show that the value of 1924 production, according to revised figures, approximates \$48,621,097 an increase over 1923 of \$8,316,777, or 17.6 per cent. This means that in two years there has been an advance of over 35 per cent, measured in monetary terms. This progress has been based on development of natural resources and a normal growing demand for the mineral products of the province. Hon. William Sloan, minister of mines, authorized the publication of these figures with much satisfaction as it has been his ambition, since assuming office, to see British Columbia's mining industry top the fifty million mark in value. It was not one and a half millions from it last year, and he is confident that the result of the year 1925 will be substantially in excess of those of the twelve-month recently closed.

## Hotelmen Threaten To Build Own Brewery

A hitch has developed in connection with the issuance of the government licences for the sale of beer. This is the effect of a dispute between the brewers and the government board over the price of beer. Shortly before the last general election the brewers succeeded in inducing the government to increase the price of beer to be paid by the liquor board to \$18 per barrel, and by way of good measure the increased price was made retroactive to cover sales which had been made for some time prior to the fixing of the increase. \$18 per barrel it was thought the limit in beer prices had been reached, but this apparently is not the view of the brewers.

In shaping up for his beer selling campaign, Hugh Davidson, of the liquor board, had arranged to turn the brewers' beer over to his licensees at \$22 per barrel, and the beer when retailed by them would be disposed of at a price to yield \$40, or a margin of \$18 per barrel. The brewers are not satisfied with the price they are getting. They do not wish to further increase the price to the consumer, but they are insisting they be given a portion of the government's profit of \$4 per barrel. The hotelmen are said to resent the action of the brewers in that it threatens to delay them in opening up the beer business for which they have been waiting since plebiscite was taken, and unless the matter is speedily arranged there is a prospect of the hotelmen of the province uniting in the purchase of a brewery which will manufacture and sell the beer to the government liquor board, which in turn will be retailed in the licensed premises of the members of their association. This action on the part of the hotelmen is expected to bring the brewers to time quicker than anything else, as it could be very readily financed.

### The Mineral Province of Western Canada

Has produced minerals valued as follows: Placer Gold, \$76,962,203; Lode Gold, \$113,352,655; Silver, \$63,532,655; Lead, \$58,132,661; Copper, \$179,046,508; Zinc, \$27,904,756; Coal and Coke, \$250,968,113; Building Stone, Brick, Cement, \$39,415,234; Miscellaneous Minerals, \$1,408,257; making its mineral production to the end of 1923 show

### An Aggregate Value of \$810,722,782

The substantial progress of the Mining Industry in this Province is strikingly exhibited in the following figures, which show the value of production for successive five-year periods: For all years to 1895, inclusive, \$94,547,241; for five years, 1896-1900, \$57,607,967; for five years, 1901-1905, \$96,507,968; for five years, 1906-1910, \$125,534,474; for five years, 1911-1915, \$142,072,603; for five years, 1916-1920, \$189,922,725; for the year 1921, \$28,066,641, and for the year 1923, \$41,304,320.

### Production During last ten years, \$350,288,892

Lode-mining has only been in progress for about 33 years, and not 20 per cent of the Province has been even prospected; 300,000 square miles of unexplored mineral bearing land are open for prospecting.

The Mining Laws of this Province are more liberal and the fees lower than those of any other Province in the Dominion, or any Colony in the British Empire.

Mineral locations are granted to discoverers for nominal fees.

Absolute Titles are obtained by developing such properties, security of which is guaranteed by Crown Grants.

Full information, together with Mining Reports and Maps, may be obtained gratis by addressing

THE HON. THE MINISTER OF MINES,  
VICTORIA, British Columbia

## Community Players of Anyox Present Three Act Comedy, entitled "The Telegram"

On Friday evening of last week, the Anyox Community Players made their initial bow to the public, when they staged a three-act comedy, entitled "The Telegram," in the Recreation Hall.

The large hall was comfortably filled and the audience were treated to a wonderful exhibition of acting by the local players.

"The Telegram" was real funny and the local artists are to be congratulated on portraying their

different parts, which augurs well for future entertainments staged by the Community Players.

The Elks' orchestra were in attendance and kept everyone in good spirits during the intermissions with several well rendered numbers.

Mr. Frank Kelley was the Director and deserve great credit for his part of the evening's success.

Following is the cast:

ARTHUR VERISHI.....(having a holiday)  
Mr. H. D. Southam  
CHRISTOPHER CROSS (a grocer but not green)  
Mr. Geo. Warwick  
MICHAEL GORE.....(once a Colonel, now—  
Mr. J. C. Hutchison  
MIKE BEETIT.....(a gentleman of leisure)  
Mr. J. Mitchell  
HERR WALTZ.....(a musical mixer)  
Mr. A. S. Nickerson  
BLUGGY DICK.....(so tough, he just growls)  
His Own Self  
OLIVE SINN.....(called original)  
Mrs. D. C. Ccle, junr.  
DRUSILLA DAY.....(looking to the future)  
Miss R. Champion  
SALLY GORE.....(Gore's better four bits)  
Mrs. H. M. Selfe  
DELLA REYNOLDS.....(on the job)  
Mrs. A. W. McTaggart  
THE BABY.....(Sally Gore's eldest)  
Its Own Self

Teaming, Freighting, Wood Coal, Pack Horses and Saddle Horses  
ALICE ARM

### Anyox Notes

Continued from page 1

Mr. J. Hutchison left for the south on Thursday on a vacation during the Easter school holidays.

Mr. and Mrs. H. S. Munroe left on Thursday. They are going to Colorado, where Mr. Munro will spend a vacation before engaging again in business.

Miss C. M. Nickerson, and Miss May Larkin arrived from Prince Rupert on Thursday. They will visit with Miss Nickerson's sister, Mrs. McMaster of the Mine, during the Easter holidays.

### New Processes Make Working of Old Dumps Possible

The Consolidated Mining and Smelting Company may install a small concentrator to treat ore on the old dump of the St. Eugene mine, which was a big producer fifteen or twenty years ago. If the new process is successful, there should be quite a revival in mining around Moyie.

M. S. Davys, Kaslo, a pioneer operating in the Slocan, is installing a mill to treat the old tailing dump of the Whitewater mine.
