## Esperanza Mines Ltd. Plan Extension Of Operations

The Esperanza Mines Ltd. will continue development work at the Esperanza Mine throughout the coming summer, states H. B. Bowyer, general manager of the company who inspected the mine this week.

Mr. Bowyer stated that it is hoped to considerably increase the working staff at the mine in the near future, when a two-drill compressor plant will be installed. The power will be supplied by a Deisel oil engine, and is expected to have everything in running order early this summer.

Development work at the mine is being concentrated on the driving of the No. 9 tunnel. The tunnel is being driven to tap an extensive vein of gold bearing ore, and it is expected that this ore body will be encountered by the driving of an additional 30 feet. During the driving of the tunnel a body of low grade ore was cut, and this will probably be utilized later when a concentrating mill is installed.

It has been decided to group the twelve claims adjoining the Esperanza, and controlled by the company, into 2 groups of 8 and 4 claims respectively. When this has been done, development work will be concentrated on the claims containing the best ore bodies.

Mr. Bowyer stated that the company is in a healthy condition, both financially and also in respect to the successful development of the mine.

Accompanying Mr. Bowyer was Robert Blance, President of the company, Angus MacDonald and Norman Fraser, directors. The latter is also foreman at the mine.

Angus MacDonald, who is well known in the district, was kept busy during his visit renewing old acquaintances.

Mr. Blance expressed himself as perfectly satisfied with operations being carried on at the mine, and will make a further examination during the late summer.

The Esperanza Mines Ltd. are to be congratulated on the resourcefulness and tenacity displayed in carrying on development work in face of the present depression, when so many mining companies have closed down. There is no doubt, however, but that their perseverance will be rewarded.

## Football Club Make Plans and Elect Officers

Members of the Anyox football clubs and their supporters held their annual organization meeting at the Recreation Hall on Sunday evening. There was a good attendance, plans were made for the forthcoming season and officers elected for the coming year.

The new officers are: President, T. Sanderson; Vice President, T. W. Pinckney; Secretary, W. J. Johnson. The executive committee will consist of the managers and captains of the three teams entered for this year's competition. The Celts, Smelter and Mine will again field teams this year and clash for honors.

Fred Williams has again signed up for the Celts. Fred is a footballer of considerable calibre and represented Wales in a schoolboy international game, prior to coming to Canada.

The Celts will have several new players in their line up, and the Mine team will also field new players. The teams are very anxious to get started, and this year's football promises to be even more attractive than last year. The playing season will commence earlier this year on account of the early spring, and a few friendly games will be played before the league matches are commenced.

## Esperanza Extension Tunnel Will Be Extended

During his visit to Alice Arm this week, Mr. Angus MacDonald made arrangements for assessment work to be done on his mining claims, the Esperanza Extension. This work will consist of extending the present tunnel, which is being driven towards the Esperanza mine, and which, when completed, will be available to tap at depth the ore deposits on the Esperanza.

They have a very promising property, with a good past record and a bright future. Its ores contain gold, silver, lead and also tungsten. It has been reported upon favorably by many mining engineers. It is also close to tidewater, thus affording cheap transportation. If some other mining companies showed the same dauntless spirit in carrying on operations during dull times many men would be employed who are now idle.

## Esperanza Mines Ltd. Hold Annual Meeting

The annual meeting of the Esperanza Mines Ltd. was held at Prince Rupert on March 27th. Plans were made for future operations at the Mine, and officers elected for the coming year. Those elected on the directorate were: Robert Blance, D. B. McDougall, Angus MacDonald, Norman Fraser and Reid McLennan.

It was decided that escrow stock would be left for a period of six months, after which it may be given to the different shareholders.

A report of operations at the mine, since they re-commenced on February 1st. was given by the superintendent, Norman Fraser.

At a later meeting of the directors, Robert Blance was elected President, and D. B. McDougall, Vice-President. E. H. Mortimer was re-elected secretary-treasurer, and H. B. Bowyer, general manager of operations at the mine.

## Anyox Tennis Club Hold Annual Meeting

The A. C. L. Tennis Club held their Annual General Meeting in the Recreation Hall on Friday, March 27, during which the following officers were elected for year 1931. Hon. President, Mr. Chas Bocking; Hon. Vice-President, Mr. R. L. Healy; President, Mr. O. G. Macintyre; Vice-President, Dr. Gordon James; Secretary, E. Ross Oatman; Executive, Mesdames R. O. Cutler and J. J. Cody and Messrs. R. F. Hill and A. E. Field.

The tennis courts have been receiving the attention of the carpenters, and play was commenced during the week. The Secretary has a limited supply of tennis balls on hand for those who intend an early start. A further supply will shortly arrive.

## Anyox Police Court News

On the 24th of March, Eustachio Facchin was sentenced to six months imprisonment for vagrancy being escorted south by Constable McClinton on the following day.

Martin Nayki was fined ten dollars and costs or ten days, on March 27th, on a charge of assaulting A. Horvotich.

## Birth at Anyox

Born to Mr. and Mrs. Richard C. Gegg at the Anyox Hospital, on Saturday, March 28, a daughter.

## The Granby Bay School Board Hosts At Home

The second annual At Home held by the Granby Bay School Board at the Gymnasium on March 30th. was well attended and a very pleasant evening was spent by those who accepted the invitation.

The chairman of the evening was Mr. Dan Macleod, who gave a short and interesting address. A short speech was also given by Mr. W. R. Lindsay in regard to advantages obtained from study of night school classes.

The exhibition of the work of the art classes attracted much attention, the work showing a high degree of skill. The first prize for this class was won by Barbara Lee and the second by Harold Dresser. All the work for competition was skilfully executed and difficulty was experienced in choosing the best two. Mrs. A. H. Stewart presented the prizes.

Both the art class and stenography classes were seen in action and their work was afterwards admired by the audience. Diplomas awarded to the students of the various classes were displayed on the walls. In the exhibition of the students of English one could easily perceive the advance made by those who took advantage of the excellent facilities provided by the night schools. Many fine pieces of work were also exhibited by students of the dressmaking class.

During the evening several pleasing selections were given by the Anyox Amateur Orchestra. Tasty refreshments were provided, following which dancing was indulged in, the music being supplied by the Vagabond Orchestra, under the leadership of Mr. Walter Stenton.

It was a very enjoyable evening and the excellence of the products shown by the students and the capable manner in which arrangements were carried out adds considerable prestige to the instructors of the night school classes, and those responsible for the social evening.

A. Davidson, who has spent the past winter in developing the Wild Cat property in the Upper Kitsault Country, was in town during the week to replenish supplies. He left again immediately to continue development work.

## Badminton Season Ends With An Amusing Tournament

About forty members of the Anyox Badminton Club excelled themselves in the art of masquerading for their final tournament and social evening in the Gymnasium on Tuesday.

The event was confined to members only, and many who would have liked to take a peep at the gay and novel tournament found the way barred. The male members were dressed in female attire. The dresses and make-ups were wonderful, and many varied characters were portrayed. The ladies attired as mere men were equally successful in their efforts.

The tournament turned out to be exceedingly comical, some playing left-handed, others kneeling on the floor, and in addition to these handicaps weighted shuttles were played with, and also table tennis or ping-pong balls were used in place of shuttles.

Some of the men found their skirts rather impeding their play, but all joined in the spirit of the novel tournament. Many of the men looked very charming indeed, and one particular member portrayed one of Dicken's celebrated characters, "Sarah Gamp" in fine style, or otherwise he was attempting to cut Marie Dressler out.

The best dressed "lady" on the floor was Mr. J. A. D. Stewart, and in the terms of one of the "male" players looked perfectly charming. The prize for the best dressed "man" on the floor was awarded to Mrs. W. G. Johnstone, whose make up almost resembled Syd. Chaplin.

Another member dressed as a country girl, with flaxen curls of wood shavings, caused much merriment; while other serious members of the community were attired in startling costumes.

All the costumes were very good and it would be hard to give adequate praise to each of those who took part.

In the terms of one of the players, it was "a large evening" and a wonderful wind-up to the Badminton Club's successful year.

The annual meeting of the Woman's Auxiliary of St. Michael's Church, Alice Arm, will be held on Tuesday, April 7th. at 2.30 p.m. at the Alice Arm Hotel. Everybody welcome.

The Hon. W. A. Gordon, Federal Minister of Mines, certainly spoke the truth when he stated at the annual convention of the Canadian Institute of Mining and Metallurgy that "the mining industry was the great trade stabilizer of Canada during adverse economic conditions." The big mining companies operate as near maximum as possible during hard times. Other industries close their doors, or work a very small staff, and the logging companies close down altogether, throwing thousands out of work, until better prices prevail. Closing down a big mine and ore reduction plant is, however, an expensive operation. Somehow, the mining company must struggle along, and in doing so it keeps thousands of men employed. Spends millions of dollars in equipment and various supplies. Supplies tonnage to the railways and steamship companies, and as Hon. W. A. Gordon stated, acted as the great trade stabilizer. It is in times of stress that the benefits of the Canadian mining industry is realized. Imagine every mine, mill and smelter closed down in British Columbia. It would create an army of unemployed that the authorities would be unable to cope with. Every encouragement should be given the mining industry for the greater it is, the less hard times bear upon us.

Henry Ford, the great car manufacturer, unburdened himself a few days ago by saying that "good times prevail, but the people do not realize it." It is pretty hard for people who have been unemployed for six or twelve months to fool themselves that times are good. Especially if the wife or children are sick, no money to pay for medical attendance, no food in the cupboard, and holes showing in the clothes and shoes. It is also hard for even the business man to realize that good times prevail, when trade is falling off, taxes increase, overhead expenses stay almost normal, a growing family to be educated and perhaps mortgages to pay off, on a dwindling weekly income.

**IN MEMORIAM**

Shed a tear o'er Mary McQueen

 She lived an old maid  
 She died an old maid  
 No runs! No hits! No errors!

It is estimated that the United States is producing 72 per cent of the world's petroleum production.

**A Review of Canada's Eleven Premiers**

Ottawa, March 28; (Special to the Herald). Canada has had eleven premiers. Two of them have been bachelors; two of them have held office twice. The shortest term was that of Sir Charles Tupper in 1896. The longest continuous term was Sir Wilfred Laurier's, from 1896 to 1911, but Sir John A. Macdonald still holds the record of having been Premier longer than anyone else, not counting his premierships before Confederation.

The average age of our Premiers when they took office is between 60 and 61 years. Sir Charles Tupper was the oldest man to become Premier and the Rt. Honorable Arthur Meighen the youngest. Eight of our Prime Ministers have been members of the Imperial Privy Council, although Sir Charles Tupper was not until long after he had ceased to be Prime Minister. Six of our Prime Ministers have been knighted; one was a baronet.

Six Premiers have been members of the bar. One Prime Minister Sir John Thompson, had been a judge. All our Prime Ministers have been members of the House of Commons; Sir John Abbott,

who had been a member for many years, was a Senator during his Premiership, and Sir Mackenzie Bowell became a Senator after he was Prime Minister.

Only two Prime Ministers have died in office, Sir John Macdonald and Sir John Thompson.

Two men became Prime Minister without having previously been members of the Government, namely, The Honorable Alexander Mackenzie and Sir Robert Borden.

All Prime Ministers of Canada, (save the first two who were of Scottish birth) and save Sir Mac-

kenzie Bowell (who was of English birth), were born in Canada: Nova Scotia leads with three, New Brunswick one, Ontario two, Quebec two. Two of the eleven Prime Ministers have been Roman Catholics.

### Mining Is Canada's Trade Stabilizer

Ottawa—The mining industry has exercised a stabilizing influence upon the country during the adverse economic conditions to an extent exceeded by practically no other single business, Hon. W. A. Gordon, federal minister of mines, told the annual convention of the Canadian Institute of mining and metallurgy.

Mr. Gordon declared the industry had the support of the federal government. It was the institute's 32nd annual gathering and delegates were from every province.

In his presidential address Dr. J. S. DeLury, mining commissioner of Manitoba, said the forging ahead of Canada as a gold producer had been one of the bright spots of last year.

### Manitoba Farmers Not Paying Taxes

Only 130 farmers in Manitoba paid income tax in 1929, it was revealed in the report of the Manitoba Tax Commission, tabled in the legislature recently. A total of 2,570 farmers made returns but only 130 paid into the government's coffers and they contributed only \$2,400.

Employees, it was shown, pay far the greater part of the provincial income tax. Over sixteen thousand employees contributed \$453,100 while 930 merchants and manufacturers were assessed \$123,900. The gasoline tax netted the government \$1,580,970 in 1929.

### More Persons Coming From U. S. A. Than Going In

Ottawa, March 21; (Special to the Herald). Nearly 3000 more Canadians and immigrants entered Canada from the United States during the first ten months of 1930 than entered the United States from Canada.

Statistics for the 10 months of the calendar year 1930 indicate that 50,558 immigrants and Canadians returning to Canada left the United States during this period as compared with 47,661 immigrants and American citizens entering the United States from Canada. These figures indicate that Canada received 2,897 more persons from the United States during this period than entered the United States from Canada.

Canada's manufactures, valued per capita, now stand at \$390, comparing with \$564 on a similar basis in the United States.

Mrs. Smith—"My husband talks in his sleep. Doesn't yours?"

Mrs. Jones—"No, and it's so exasperating. He only smiles."

### J. Strombeck Prepares For Summer's Work

J. Strombeck commenced the first stage of his mining development plans this week when he took in a quantity of supplies to the Moose in the Upper Kitsault Country. He freighted the supplies over the Dolly Varden railway to the snow, and from there will transport them by hand sleigh which is quite an undertaking. Mr. Strombeck is one of the few pioneer prospectors of the camp who has stuck through thick and thin. With his brother Gus, he located and sold the now famous Toric mine. His other interests now claim his attention, and the lure of the high grade is as strong as ever.

### ANYOX NOTES

Miss Lillian K. Reid, of the General Store Staff left for Vancouver on Wednesday. Miss Reid came from Allenby six months ago and during this period made many friends who will miss her genial disposition.

T. J. Bontell arrived in town on Monday from Prince Rupert.

John Bow of the Anyox branch of the Canadian Bank of Commerce left on Monday for Vancouver. Mr. Bow leaves behind him a host of friends who wish him every success in his future banking career. F. W. Bradshaw arrived from the south on Monday to replace Mr. Bow.

Chas. A. Pyne, manager of the Sovereign Life Assurance Co., who has spent several days here left on Monday for Stewart.

Chas. Karen, the well known wrestler left on Monday for Vancouver and New Westminster. He will probably take part in the amateur wrestling contests in the south.

Dr. T. W. Kergin arrived from Prince Rupert on Wednesday, and left again the same evening.

Tom Mitchell, left on Wednesday evening for Vancouver.

### ALICE ARM NOTES

T. W. Falconer arrived home on Monday from a short visit to Vancouver.

Robert Blance, president of the Esperanza Mines Ltd., Harry Bowyer, general manager, Norman Fraser and Angus MacDonald, directors arrived at Alice Arm on Monday in order to inspect the company's holdings and make plans for future operations.

### Decrease In Revenues Worries Government

Ottawa, March 28, (Special to the Herald). The problem of making shrinking revenues meet emergencies in a period of general depression is exemplified in the February financial statement of the Government. Covering eleven months of the fiscal year it indicates a drop of \$79,352,366 in ordinary revenue and an increase of \$21,095,076 in ordinary expenditure.

Increased expenditure is largely accounted for by relief measures and by increased pension payments.

During the eleven months ended February 28 last ordinary revenue amounted to \$322,729,407 as compared with \$402,082,773 for the corresponding period ending February 28, 1930. Ordinary expenditure totalled \$331,243,180 as compared with \$310,148,104 for the eleven months ended February 28, 1930.

The total net debt of Canada on February 28th was \$2,207,895,964. On February 28, 1930 the net debt was \$2,156,276,098.

The decline in ordinary revenue as shown by the statement is due to a reduction in receipts from customs duties, excise duties and excise tax (sales, stamps, etc.)

On the expenditure side of the financial sheet interest on public debt declined to \$106,163,925 from the previous figure this time last year of \$108,762,164. Pensions payments totalled \$37,364,942 an increase of nearly four million dollars.
