## Elaborate Plans Made For Dominion Day Celebration

At the Council meeting of the Anyox Community League held last week, the chief business was the coming celebration on July 1st.

Arrangements were made for an attractive number of events for the Annual Sports on July 1st. The usual children's races will be run and there will be events for various distances for all ages. The Ladies' races which were popular last year will again be carried out.

The marathon race this year will be better in many ways. The course will be a circular one, longer and somewhat harder than last year's trot to the Mine and back. The race will start and finish at the Ball Ground. The route planned being up to the road at the 150 level, along the mine road past the bank down to the flats and home along the pipe line, finishing with one lap of the track at the Ball Park, this should make the race an event well worth watching.

Tug of war struggles will again be witnessed and it is hoped to put this event over as big as last year's successful contest.

The parade will be held in the morning and prizes will be given for several classes of entrants. The comic entries promise to be better than ever.

The Inter Departmental Relay race will be another exciting item on the long programme. Relay racing is always an attractive event in track contests. Every Department should enter a team.

Putting the shot, jumping events, sack races and bicycle races will also be included in the day's programme.

In the evening a dance will be held in the Gym, when prizes will be presented to the winners of the races. Everything will be done to put this sports day over big, and the committee will be glad to receive entries early.

## Anyox Scouts Assisting The Forestry Department

This year the Anyox Boy Scouts are co operating with the Forestry Department in the work of preventing forest fires. They have posted notices regarding fire prevention at all the known camping places of picnicing and fishing parties round about the Anyox district.

## Presentations Made To Boy Scouts At Social Evening

An interesting gathering of the Boy Scouts was held in the Gymnasium on Friday evening the 12th, the occasion being the annual Memorial presentation to the Scouts by the Canadian Legion.

The cheque handed over this year will help the funds for the annual camp outing which is so popular with the boys.

The president of the Legion, Mr. W. F. Eve, when making the presentation, took the opportunity to make one on his own behalf this presentation being a handsome flag, the King's Colors. He stated that this was in recognition of the services of the Scouts to the community in general, when they so ably and willingly assisted in distributing parcels from the post office during the Christmas rush. Mr. R. Gale, the Scoutmaster, voiced the appreciation of the boys for both gifts. The Scouts gave an exhibition of First Aid, and also demonstrated some Scout games. Refreshments were served by the Scouts (with, we suspect, Mrs. Gale in the background as general fac totum) and the evening was thus brought to a pleasant close.

## Alice Arm Athletic Assoc. Hold Card Party

Another of those popular card parties which have been given at frequent intervals during the past few months by the Alice Arm Athletic Association, was held in the Club House on Saturday evening.

There was a good attendance and bridge was played at every table. The winners were: ladies' first prize, Mrs. J. Larson; consolation, Mrs. E. Moss. Men's first prize, Gus Pearson; consolation, J. Larson. Following the card playing, appetising refreshments were served.

## Bishop Rix Will Visit Alice Arm on 28th.

The Rt. Rev. G. A. Rix, Bishop of the Diocese, will visit Alice Arm on Sunday, June 28th, accompanied by Rev. J. B. Jennings. They will arrive during Sunday afternoon and will hold a confirmation service in addition to the regular evening service.

## George Hunter Hero Of Football Game

The high standard of football was maintained by the Smelter and Mine team in a well-fought league game played at the Ball Ground, Thursday, June the 11th. before a large crowd.

Hard kicking; long passing and fine goal-keeping featured the play.

The Mine scored their only goal in the first half following a scramble in the goal mouth. A penalty kick enabled the Smelter team to draw level and soon afterward Jack Buntain scored with a fast shot following some neat passing. The Miners fought hard to equalize and their forwards came very close to scoring, Jim Dixon just missing the goal by inches on two occasions with fast shots.

George Hunter, the classy custodian of the Smelter goal provided the fans with a real thrill, with three minutes left the Mine team were awarded a penalty, Morrison took the kick and sent in a speedy drive which kept low, George made a fine dive for it and effected a wonderful save.

This game put the Smelter on a level with the Mine with seven points each.

## Boy Scouts Will Attend The Stewart Celebration

It has been decided that the Boy Scouts will attend the International Celebration to be held at Stewart on July 18. For this reason their annual camping holiday this year will be at Stewart, the dates set being from July 10th to the 28th.

## Jury Returns Accidental Death Verdict

An inquest was held at the Anyox Court House on Monday, in connection with the death of the late Mr. Stephen Franovich, who was killed at the Mine on June 11th. A verdict of accidental death was returned.

## Alice Arm Birth

Born to Mr. and Mrs. J. Graham of Bruce Street, Alice Arm, at the Anyox General Hospital on Saturday morning, June 13th a son.

Harold Viokerson Tensing, who is well known as a guide to many big game hunters in the Cariboo country is now prospecting in the Hastings Arm section and will spend the season in this vicinity.

## Large Number Attend Funeral of Late S. Franovich

The largest and most impressive funeral held for any one person was probably that on Sunday last, when the body of the late Stevo Franovich, who died as the result of an accident in the Hidden Creek Mine, was interred. Members of the Canadian Legion, the Boy Scouts, and the I.O.D.E., as well as a great number of men from the Mine and the Beach, turned out to pay their last respects to a man who was held in high esteem, and whose loss is greatly regretted. Stevo Franovich served in the Allied Forces under the Serbian flag, and a large number of returned men were present to pay their last tribute. The "Last Post" was sounded at the grave side by Mr. Ross Oatman, the familiar and impressive notes carrying clearly and distinctly in the morning air. There were many beautiful floral tributes, and each of the returned soldiers placed a poppy on the casket. A funeral service was held at the Anglican Church, the Rev. J. S. Brayfield officiating at the service and at the graveside.

## Road To Alice Arm Cemetery Being Built

Repair work on the Dolly Varden railway was completed this week by the Department of Public Works. Only temporary work was done, so that it will be available for prospectors wishing to take in supplies by gasoline speeders.

At the conclusion of repair work on the railway, work was commenced on the cemetery road. Formerly only a trail existed from the North-east Fork road to the cemetery. This is now being made wide enough to allow cars to go through to the cemetery, and a turning place will be made at the top of the hill near the cemetery.

## 57 Alice Arm Men Dependent On Government Work

A check up of the number of unemployed throughout British Columbia is being made by the Provincial Government. The compiling of these figures shows that there are 57 men in Alice Arm who are dependent upon the government this year for a livelihood.

The government is conducting an investigation of the number of unemployed so that plans can be made this summer for relief measures next winter.

## Close Games Witnessed At Anyox Tennis Tournament

A very successful tennis tournament was held by the A. C. L. Tennis Club on Sunday. The weather cleared up fine and enabled the players to get through their games in good time. The ladies' doubles were evenly matched and the handicapping worked out very satisfactorily. In this section of the tournament there were three couples with high scores and a playoff was necessary. In the playoff Mildred and Lillian Dresser drew a bye, and played Mrs. Simpson and Miss K. Eve who defeated Mrs. Wenerstrom and Mrs. Kirby. In the final the Misses Dresser won by 4 games to 3. The consolation prizes went to Mrs. McRae and Miss Leighton who had the lowest score. 7 games were played in each match.

The men's section handicapping did not work out as well as expected. Many of the games were worth watching, but most of the players seemed affected by the handicaps. E. R. Oatman and A. E. Field had the best score and lost only one game. They were closely followed by Gordon James and Jerry Macintyre. The consolation prizes went to Frank Hill and W. H. Rudland.

Tea was capably served by Mrs. J. J. Cody assisted by several of the members during the afternoon.

Everybody enjoyed the day's tennis and made the most of the opportunity to get some outdoor exercise. Another tennis tournament will be held this month.

## Wedding Bells For Anyox Couple

Milk drums and toy saxaphones—in fact anything that would make a noise—were substituted for wedding bells in Anyox on Saturday evening last, when John Curti was united in marriage to Mrs. S. Mikeli.

The ceremony was performed in the Catholic Church, the Rev. Father Wolfe officiating. After the wedding a reception was held at the bride's new home. John Curti has been a resident of Anyox for many years, and his many friends foregathered to start him off well on his matrimonial voyage.

The people of Canada are beginning to realize that they are grossly over-governed. In has been pointed out on several recent occasions that Canada with a population of about ten million people, supports ten parliaments and 784 legislators, not including the Senate, which numbers over seventy. Each province, moreover, supports a Lieutenant-Governor, with his routine, in addition to the Governor-General at Ottawa with his princely court. We are often told by political spellbinders during election times of the vast wealth and prosperity of the Dominion. It seems as though we need to be wealthy in order to afford the expensive luxury of paying nearly 900 persons to pass our laws each year.

A very illuminating article recently appeared in "The Miner," published in Vancouver. It stated that a certain firm of jewellers in their advertisements are drawing the attention of their patrons to the unprecedented low price of silver, and advising them to make their purchases of silverware during the present low price period. What the jewelry firm did not state, however, is that the price of bar silver is around 27 and 28 cents an ounce, and that as soon as it is transformed into spoons, forks, etc. the price is boosted to \$1.30 an ounce. These table tools can be pressed out, finished and polished by machinery just as easily as those made of baser metals. The price of silver evidently will not improve by the efforts of the jewellers to foster trade.

The B. C. Chamber of Mines is sending out invitations to prospectors to send in ore samples as soon as possible to the Vancouver headquarters for exhibition purposes at the Vancouver Exhibition which is held from August 22 to 29. Specimens weighing about 5 pounds are most suitable. Alice Arm prospectors can not afford to let such an opportunity pass in order to advertise their wares. In order to succeed, advertising must be carried on in dull times as well as bright times. The Alice Arm district, has, on several occasions led the province in the number of prizes secured. Other districts are already sending in specimens, and if we intend to keep on the map as a mining district we must follow suit or pass out.

It is very probable that the hold-

## Destroying of Silver Was a Crime

(Karl J. Stackland in the Outlook). A far greater population has used silver for thousands of years, whereas gold, only a few centuries ago, came to share its function as a medium of exchange. Nor is silver any more of a commodity than gold. It is more correct to state that gold fluctuates in value as measured in the commodities of the world than that the latter are fluctuating, for the simple reason that they and not gold actually carry an intrinsic value.

Silver is now bobbing up again for the very good reason that we, the western nations, can no longer get along without it. We have just awakened to the fact that we not only committed a crime when we destroyed silver as an international money, but that we have destroyed two thirds of our markets, so that now we simply can not resume industrial activity and commerce sufficiently without reinstating silver as a basic money for the whole world, and thus again attain an absolute necessity for our own lives and prosperity for the future.

## Manufacturers Don't Practice What They Preach

North Dakota has a law compelling all state buildings to burn North Dakota lignite. With abundance of good coal in British Columbia, a similar regulation for the Province is urgently needed.

Many people that are now urging the use of Canadian manufactured goods and articles are using foreign fuels instead of practising their own philosophy by using British Columbia coal.—The Miner, Vancouver.

## Making Cigarettes From B. C. Tobacco

At the banquet in connection with the recent convention of Canadian Manufacturers in Victoria the guests were supplied with cigarettes all made from B. C. tobacco. They came as a gift from the Markets Branch of the Department of Agriculture and were well appreciated.

ing of sweepstakes for the benefit of Canadian hospitals will become law in the near future. The measure will come before parliament during the present session and there is no just reason why it cannot be placed on the statute books. The majority of people are no doubt in favor of Canadian sweepstakes. We are paying enough to the 800 odd legislators to govern us, and the least they can do after forcing us to swallow the bitter pill of increased taxes is to drop the sugar plum of lawful sweepstakes into our lap.

## Mr. Sam Jabour Leads Western Canada

Sam Jabour, northern agent of the Sun Life Assurance Co., has been advised that his net club total of insurance writing led Western Canada during the past month. A telegram from the head office of the company congratulates Mr. Jabour on the fine showing which qualifies him for the company's "Fifteen Club."

## Police Will be Stationed At Telegraph Creek

The Royal Canadian Mounted Police will establish a post at Telegraph Creek this summer. The post will be in charge of Inspector Sandys Wunsch, assisted by Sergeant Brice and Constable Ball.

Mrs. Brown: (reading the newspaper) "John, it refers here to some gunmen taking a man for a ride. What kind of a ride?"

Brown: "A slay ride, my dear."

The Ottawa government has voted an appropriation of \$294,600 for harbours in British Columbia.

## Have you enough Life Insurance?

No matter how large or how small your estate, it will suffer heavy deductions before it reaches your wife or family. Doctors, nurses, hospitals, undertakers, lawyers, etc., not to mention succession duties, if the estate be considerable, will reduce the net amount payable to your heirs by anything from 10% to 25%.

Take your pencil and try a simple sum in arithmetic, using an actual case as an example:

	Typical Case	My Case
Total face value of all my life insurance policies.....	\$5,000	\$.....
Estimated value of my real estate, securities and other assets.....	\$2,000	\$.....
Total.....	\$7,000	\$.....
Less 15% as indicated above.....	\$1,050	\$.....
Total estate (net).....	\$5,950	\$.....
Invested in good securities at 5% this should yield my family an annual income of.....	\$297.50	\$.....

## Settlers Are Going Into Peace River

Pouce Coupe, June opened in what may prove to be a record month for homestead entries at the Pouce Coupe Land Office, when 42 homesteads were filed on June 1.

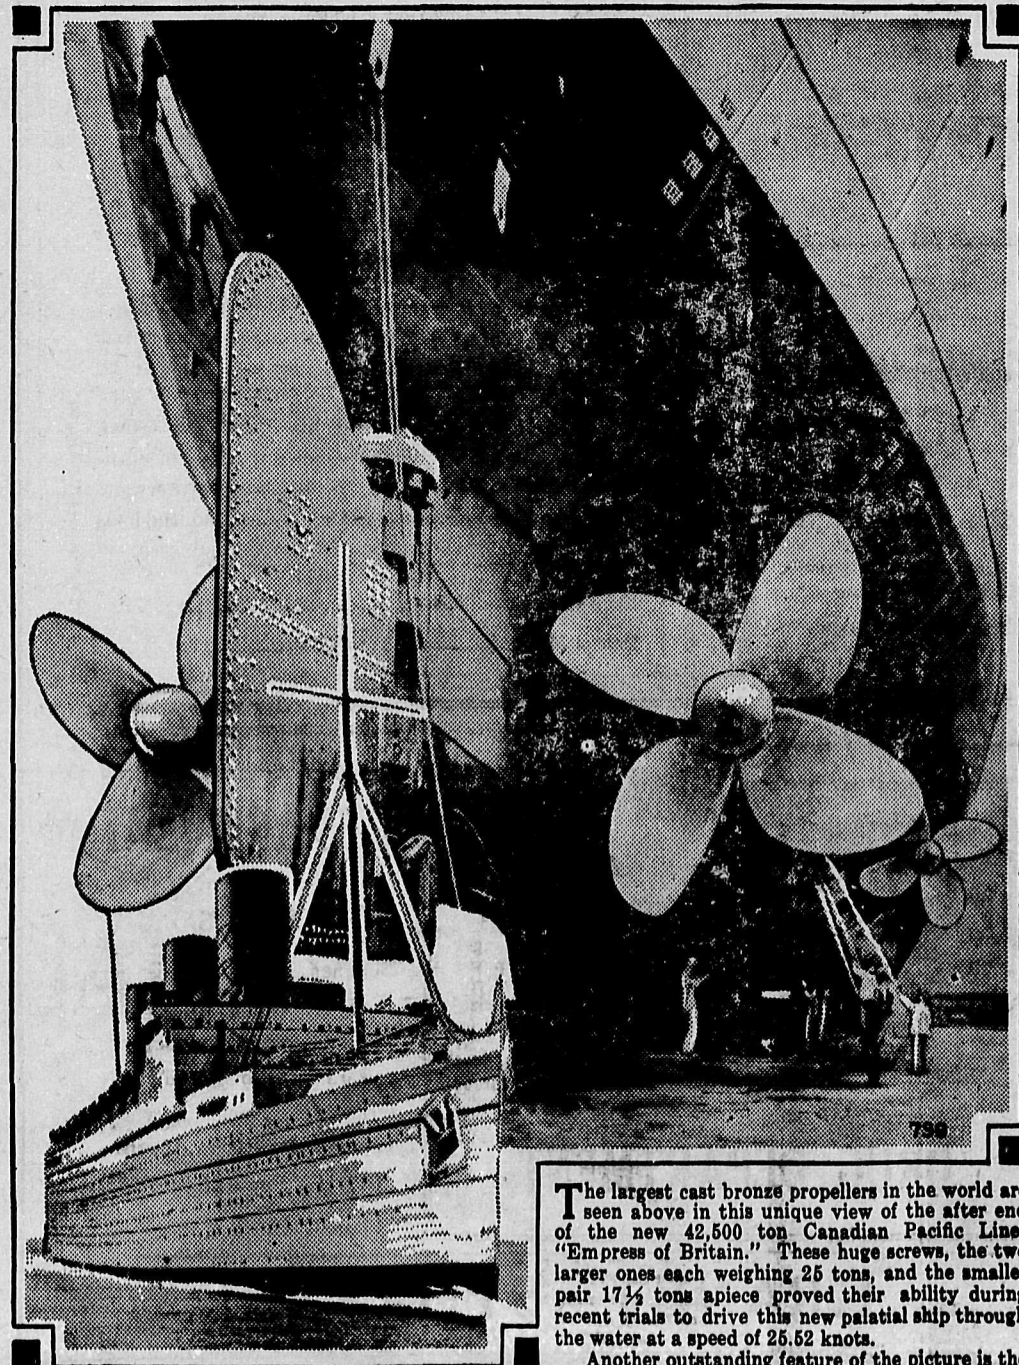

The recent heavy rush has shown that the district is getting a very fine class of settlers, the largest majority being from the prairie provinces, with quite a number from Vancouver and district.

Up until the first of the month, 57 carloads of settlers' effects had arrived over the Northern Alberta Railways.

## Low Metal Prices Cause Of Improved Methods

In a time of depressed conditions and low metal prices, when operating profits are necessarily reduced, it is always noticeable that extraordinary efforts are put forth not only to lower mining and millings costs, but also to improve metallurgical efficiencies. Results obtained this year along these lines by several of the larger companies of British Columbia have been impressive; and one benefit to the industry is that when metal prices improve in the future, lower grade ore reserves may be profitably treated.

## Drive 42,500 Tons at 25½ Knots

The largest cast bronze propellers in the world are seen above in this unique view of the after end of the new 42,500 ton Canadian Pacific liner "Empress of Britain." These huge screws, the two larger ones each weighing 25 tons, and the smaller pair 17½ tons apiece proved their ability during recent trials to drive this new palatial ship through the water at a speed of 25.52 knots.

Another outstanding feature of the picture is the huge rudder, which weighs 67 tons. This huge helm

had to be transported to the builders' yard on a specially constructed truck. It was preceded during the journey by a construction gang which removed telephone poles and other obstructions encountered on the English roads.

Lower left is an insert of the Empress of Britain as she steamed over the measured mile at the fastest speed developed by a new British liner since the war.

The Empress of Britain sails from Southampton May 27th, and is due to reach Quebec five days later.
