Annual Meeting Anyox Community League

Officers Are Relected

The Annual Meeting of the Anyox Community League was held in the Recreation Hall, on Wednesday, February 24th, at 8 p.m. At this meeting the financial statement and balance sheet for the year 1925 was presented to each individual present. The chairman then asked the secretary to read the minutes of the last Annual Meeting, which were adopted as read. The secretary was then called upon to read the secretary's statement for the year 1925. At the conclusion of this reading the secretary thanked the councillors, on behalf of the community at large for their untiring support they had shown in connection with community matters. The meeting was then declared open for the nomination of new councillors.

Mr. R. H. Manzer made a motion that the councillors who served on the League during the year 1925 and who had accomplished so much good, be relected to office providing it met with their approval. This was seconded by Mr. G. E. Warwick, and the motion carried unanimously.

The officers for the Anyox Community League for the year 1926 are as follows: Mr. Chas. McLachlan, President; Mr. Fricker, 1st. Vice-President; Mr. A. B. Morkill, 2nd. Vice-President; Messrs. G. E. Townshend, A. Nickerson, F. Dresser, H. E. Hogben, J. Hutchison.

Mr. John McCallum was relected to office as the Beach representative for the Anyox Hospital Board. Mr. G. E. Townshend moved a vote of thanks complimenting the League secretary Mr. F. Kelley for the manner in which he had carried out his work during the past year and also during the previous years. The members of the League appreciated the fact that they were fortunate to have such a man as Mr. Kelley as secretary of the League. Mr. McGusty emphasized that he had not been in Anyox very long, but he had found Mr. Kelley a man of sterling worth, conscientious in his duties, and a gentleman, and he took great pleasure in seconding the motion.

Appeal for Funds Meets with Great Response

On Sunday February 7th, an appeal was made in the United Church for a special fund of \$400. Two hundred of which is for the Maintenance and two hundred for the local building debt.

The response to the appeal is most gratifying particularly when the unsettled condition of the camps is considered. The objective has been reached. The Minister's comment is "The result exhibits very honest giving and shows the interest which the people are taking in the Church."

Alice Arm Branch Royal Bank Closes Today

The Alice Arm branch of the Royal Bank closes its doors today, and its business is being transferred to the Canadian Bank of Commerce at Anyox.

The branch was opened during the days when the Dolly Varden was pouring out its high grade. Numerous other properties were operating and continued activity was anticipated by the residents of the town.

The Dolly Varden closed down, and several other properties followed suit. During the following years the mining industry of the town was marking time. The Bank remained open expecting each year that the Dolly Varden would again operate. As this has not yet occurred the officials of the Royal Bank have decided to close.

It is regrettable that they have arrived at this decision, especially at the present time, as the outlook for mining is more promising than since the Dolly Varden closed, and it is probable that a considerable number of men will be employed at the various mines during the coming summer, and it is almost certain that this number will be increased each successive year.

During the past few years a number of Canadian banks have gone into liquidation, and others, who found themselves in straightened circumstances, have been absorbed by the stronger banks, and consequently the keen competition prevalent a few years ago, has, to a large extent been eliminated.

It is the present day policy to avoid unprofitable competition. During the last few years a large number of unprofitable branches have been closed down, especially in towns where too many banks were doing business to afford a profit for all.

Arrangements are made whereby one bank will close down in a certain town, where two banks are doing business, thus leaving the field to one concern. The other bank will do the same thing in another town. This policy gives each bank an open field. Each does as much business, with 50 per cent less overhead expense.

The Royal Bank is leaving the Alice Arm field to the Canadian Bank of Commerce, who are closing in another town, leaving the Royal Bank in control. This explains why the Alice Arm bank has been closed.

High School Basketballers Leave for Rupert

The Anyox High School Intermediates left Anyox on Thursday to play a series of basketball games with the Prince Rupert High School teams, and will return on Monday.

Those making the trip, are: Thelma Deeth, Margaret O'Neill, Annie McLachlan, Bonny Chapman, Jeanette Morley, Julia Calderoni, Theodore Asimus, John Lazoreck, Edward Clay, Austin Lindgrin, Ted Swanson, Stewart McLachlan.

Cabaret Near Anyox Burns to Ground

The residents of Anyox were awakened from their slumber on Sunday morning at 4 a.m. by the shriek of the fire alarm. A fire having been reported at the Cabaret on the west side of the smelter. It is reported that the son of F. Lew Lun was the first to raise the alarm. A volunteer fire squad was quickly organized under Fire Chief Martin, but owing to the distance to be covered the fire had got a firm hold on the building by the time they arrived and as the water service at this point is inadequate for a fire of this kind their task was hopeless. The roof of Lew Lun's store started to scorch with the heat and it was thought necessary to remove some of the more valuable merchandise from the store for safety. It is regretted that most of this stock was spoilt by the weather. No lives were lost, but the Cabaret building was an entire loss.

Assistant Mine Superintendent Leaves Anyox

Mr. and Mrs. W. J. Coulter and family were passengers on Monday's boat, for the south, Mr. Coulter has severed his connections with the Granby Co. as assistant mine superintendent which position he has held for a number of years. He has been appointed mine superintendent for the Pecos mine, Vally Ranch, New Mexico. A very pleasant party was staged on his behalf at the Mine on Saturday February 20th, at which all his friends gathered to wish him success in his new undertaking.

Union Church Holds a Special Service for Grandparents

Sunday last was Grandparents' Day in the Anyox United Church. In spite of the snow and sleet, quite a number of the grandparents attended the Evening Service, which was especially arranged for them. The hymns and Scripture readings were the old favorites. Mr. W. R. Murdock rendered a solo. The Minister preached the sermon, and took for his subject: "The Abiding Presence of God." In these days when great emphasis of the Church is upon the development of child life by the great programme of Religious Education we are liable to forget those who have gotten well on in the journey of life. Yet we have much to learn from them. The years have brought to them a "richness of experience, a ripeness of character, a breadth of charity and a mellowness of disposition." All young people would do well to cultivate their friendship in order to imbibe these finer characteristics.

A Service of this type affords the people an opportunity to show their honor and respect for the grandparents of the community and it is hoped to observe grandparents' day annually.

ALICE ARM NOTES

See Al. Falconer for Freight and Pack Horses

J. Taylor, who was a frequent visitor here when logging operations were being conducted by J. O. Trethewey, arrived in town on Monday from Vancouver, and left on Thursday. During his stay he made an inspection of the LaRose mine.

A. F. Smith was a passenger south on Monday in connection with business of the Kitsault River Mining and Development Co.

A. B. Morkill, manager of the Anyox branch of the Canadian Bank of Commerce, and F. C. Townshend of Anyox spent the week-end in town last week.

J. Calvin was a southbound passenger on Monday for Prince Rupert. He returned yesterday.

Ed. Trethewey arrived home on Monday from a trip to Vancouver.

T. W. Falconer left on Thursday for the south. He will visit Mrs. Falconer at New Westminster, they will then proceed on an auto trip which will take them to the Mexican border. He expects to be absent about six weeks.

A farewell card party and dance will be held in honor of Mr. and Mrs. S. F. D. Roe and C. Warner, at the Alice Arm Hotel, the evening at 8.30 p.m. A good time for all.

See Al. Falconer for Wood, Coal and Lumber.

Close Scores Feature Anyox Basketball Games

Port Simpson Defeat Elks

A surprise was sprung in basketball circles on Monday, when a basketball team from Port Simpson arrived in town looking for a game. It was decided that the Elks should play the visitors at the Beach gymnasium at 8 p.m. The games at the Mine Hall being cancelled.

The visitors started the game with a rush, and secured an early lead, which they increased as the half progressed. At half-time the count stood 17-9 in favor of Port Simpson. Upon the resumption of play the Elks settled down to overcome the lead and came within two points of doing it, but the final whistle blew with Port Simpson on the long end of a 25-23 score. For the Simpson team a little forward, Sankey shot baskets from any angle, scoring 16 points. All of the visitors checked closely and played fine combination at times. For the home team J. Mitchell raided the loop for 10 points. H. Downs played a whale of a game at guard.

Port Simpson: Sankey-16, Alex-see-6, Mather, Johnson-1, White-2, Wesley, Grun.

Elks: Hogben-3, Sheen, Peters, J. Mitchell-10, B. Mitchell-2, Buntain-2, Downs 6.

There were three games scheduled to be played at the Beach gymnasium on Friday night but the Store team withdrew from the League, so the Store-Concentrator tilt was called off. In the High School-Bluebirds game the High School girls forfeited the game but using A. Scott of the mine team played an exhibition game with the Bluebirds which resulted in an easy win for the latter, 19-2.

High School: A. McLachlan, B. Chapman, M. O'Neill-2, H. Wall, A. Scott.

Bluebirds: Mesdames, Cutler-6, McTaggart-3, Cody-2, Dwyer-4, Roy-2, Smith-2.

The Senior contest which resulted in a win for the Elks 29-27 was the fastest and cleanest game played up to date in Anyox League games. The Gophers got away to a good start, but the Elks rallied and the half ended, 15-14 in favor of the Gophers. Immediately at the beginning of the second half the Elks secured a narrow lead which they held until the end of the game. Staines and B. Mitchell were high scorers with 10 points each. Dupuis for the Gophers and Downs for the Elks were towers of strength on the guard line.

Elks: B. Mitchell-10, Sheen, Hogben-6, Peters-3, Downs-4, J. Mitchell-4, Buntain-3.

Gophers: Hill-8, Staines-10, Stewart-1, Helpley, Dupuis, Bell-6, Bruce-2.

Gophers Defeat Port Simpson

E. MOSS, Editor and Publisher.

The Portland Canal News of Stewart in their issue of February 5th. published a front page article, over a column in length, dealing with the activities of the Matilda property, which is being operated by the Kitsault River Mining and Development Co. The article also dealt with mining conditions in general in the Alice Arm district. We wish to extend our appreciation to the editor of the News for his broad-minded principle, and we assure him that his action will be reciprocated by us. Alice Arm, Anyox and Stewart are three thriving mining camps situated in the same mineral zone, and the progress of any single one stimulates the growth of the other two. The News has, in the past published mining news relative to the district, and we have done likewise in regard to Stewart mining news, but a still larger exchange of news could be effected with benefit to both districts.

The closing of the Alice Arm branch of the Royal Bank of Canada came unexpected to everyone. Although this eventuality has been mooted for the past three years, it was expected, that with the assurance of increased mining activity this year, the bank would remain open until the end of the summer at least. The chief officials have however decided to close. They are removed a long distance from Alice Arm, and probably do not realize the big events transpiring. The loss of the Royal Bank will not retard our growth one iota, nor will it cause very much inconvenience to depositors, who can conduct their banking business at Anyox without unusual delay.

We wish to again impress upon our readers the desirability of their forwarding us news items, whenever they have the opportunity. We are ready at all times to publish news, regarding any public or semi-public affair, or any news that may be of general interest to the community, or also our subscribers on the outside. Send us any news items you wish published, or inform our Anyox correspondent of the fact. If you are a resident of Alice Arm call and see us. We spare no effort to carry the news of all local happenings each week. Sometimes, however, an event may occur of which we are ignorant. To ensure its publication and also authenticity acquaint us of the fact. We'll do the rest.

Saltchuck Palladium Is Worth \$80.00 Per Oz.

Alaska's only palladium mine, the Saltchuck near Ketchikan, is now producing about 350 tons of ore per day. The mine has been in production since the fall of 1923, or since the concentrating plant was placed in operation. It was mined on a limited and intermittent scale before that time.

The Saltchuck's chief metal content, or rather the most valuable part of the metal content, is a palladium ore which belongs to the platinum group. Saltchuck now produces between 4000 and 4500 ounces of palladium per year, worth about \$80 per ounce. The ore is concentrated at the mine and the concentrates are shipped to Irvington, N. J., for final treatment. Besides palladium, the ore carries copper, gold, and silver.

Saltchuck is the biggest producer of palladium ore on the American continent. Mineralogists who have visited and inspected southeastern Alaska believe it is a country likely to contain many deposits of palladium ore. The Saltchuck is controlled by J. E. Chilberg, former Seattle banker, who now stays on the property and manages it. Other Seattle men are interested.

Canada Controls World Nickle Supplies

Not only is Canada by far the largest producer of nickle in the world, says a report of the Bureau of Statistics, but the reserves of nickle ores are vastly greater than those of any of her possible competitors and this, together with the many other advantages she possesses, gives her a predominant position in the world's nickle trade that is well-nigh unassailable. At the present time the Mond Nickle Company account for practically all of Canada's output—in round figures some 35,000 short tons, valued at \$19,000,000, containing over 80%.

Canadian Paper Markets are Steadily Expanding

While Canadian newsprint has been invading the world's paper markets the, higher grades of Canadian paper have been more slowly securing a foothold. Canadian book and writing papers are now being supplied to Mexico, New Zealand, Australia, China, Japan and other countries in ever increasing quantities. Selling agencies are being established and connections made in these outside markets, which bid fair to develop into a very considerable export trade.

Merchants urged to Advertise in Local Paper

A great mercantile company says: "Never hesitate as to what medium to use when country trade is wanted. There is but one which will accomplish the purpose; the local weekly newspaper. It is read thoroughly by everyone in the town and district. It has more influence with its own people than all the dailies combined."

Deaths from smallpox since February 1 stand at 44 at Los Angeles.

The fellow who flies into a rage is generally thrown out.

Little Ada: "Mother, shall I run out and post this letter?"

Mother: "No, child, certainly not. It's pouring in torrents, and not fit to turn a dog out of doors. Let your father go."

Tin Is Becoming Scarce and Price Rising

London Controls Price

The elasticity of the price of rubber is in the keeping with that physical characteristic of the commodity itself. Will the "cry of tin" reach such high notes as to cause a similar disturbance in the tin market as has been experienced in the rubber market? The United States is as destitute of tin as it is of rubber. Great Britain produces or controls about 70 per cent of the world's production of each, and London dictates the price.

The world's annual production of tin is about 133,000 tons, of which the United States requires at least 75,000 tons, or about 57 per cent, to meet the demands of commerce. For many of its uses there is no known substitute in adequate supply, especially in bronze and solder and certain uses to which tin plate is put. Tin deposits are limited in extent, known mines are becoming exhausted, and the demand for tin is increasing. The average price of tin in New York in 1922 was 32 5-10c. per pound; 1923, 42 6-10c.; in 1924, 50 2-10c.; and the average for December, 1925, was 61 6-10c. per pound. It is not difficult to believe that tin eventually may sell much higher.—Engineering and Mining Journal Press.

Alberta Farmers Turn to Dairy Farming

It is estimated that during the past year 60,000 cases of eggs and 5,000,000 pounds of poultry were exported from Alberta to eastern Canada and the British Isles. It was only a few years ago that Alberta was a fairly extensive importer of eggs and poultry, but active campaigns by the provincial government and other interested bodies have reversed this situation.

How to Save Gasoline

The following paragraph, which is "going the round" may prove of interest to most of the local car owners. An automobile owner installed a new-fangled carburetor that was guaranteed to save 20 per cent in gas. Then he put in special spark plugs that were guaranteed to save another 20 per cent of the precious fluid, and an intake heater to save still another 20 per cent. Next he put in a patented rear axle—to save another 20 per cent—retired with a set of tires guaranteed to save 20 per cent; refilled his crank case with oil to increase his mileage 20 per cent. Now with a fuel economy of 120 per cent, the owner has to stop every hundred miles and bail out the gas tank to keep it from flowing over. With the price of Fords still going down, everybody can afford a car at that rate.

SYNOPSIS OF LAND ACT AMENDMENTS

PRE-EMPTIONS

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emptions is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 5,000 board feet per acre west of the Coast Range and 8,000 feet per acre east of that Range.

Applications for pre-emptions are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emptions must be occupied for five years and improvements made to value of \$10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

PURCHASE

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price of first-class (arable) land is \$5 per acre, and second-class (grazing) land \$2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

HOMESITE LEASES

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

GRAZING

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free, or partially free, permits are available for settlers, campers and travellers, up to ten head.

slipped over a win on the visiting Port Simpson squad on Wednesday evening, by the close margin of two points. The final score standing 17-15. The game was featured by close checking by both teams. The first half ended with the visitors leading 6-4. It was anybody's game during the second half, with the score a tie at 15 all. Jack Hill scored the winning basket two minutes before the final whistle.

Alexcie and Sankey were the stars for the visitors, the former scoring six points. Staines played a whirlwind game for the local squad, heading the scoring list with eight points. Stewart and Dupuis were towers of strength on the defence, breaking up play after play started by the opposition. Don McLeod handled the whistle in a highly satisfactory manner.

Port Simpson: Sankey-5, Alexcie-6, Mather, Johnson-1, White-3, Green, Wesley,

Gophers: Staines-8, Hepley, Stewart, Dupuis, Bruce, Hill-6, Bell-3.

As a preliminary to the feature match, the Concentrator won an Intermediate league fixture, from the Smelter squad, by a 24 to 18 count. The rejuvenated Smelter team put up a game fight and were bombarding the basket in the final stages. Pollard was the leading scorer for the winners with 14 points. Beaulieu was high for the losers with 8, Don McLeod was the referee.

Smelter: Clay-3, Cloke, O'Neill, Groves-5, Thompson-2.

Concentrator: Pollard-14, Moffat-4, Thomson, McConachie, McTaggart-2, Campbell, McDonald-6.

Esperanza Continues to Ship Ore

Shipments of ore from the Esperanza mine continue to be made with frequent regularity to the smelter. On Monday, 200 sacks of second grade ore was shipped to Anyox, and on Monday next four tons of high grade will be shipped to Trail smelter. The shipment last Monday was the fourth to be made this month. These shipments are made by V. Stella, T. Mack and associates, who have a lease on the old workings. Mining of ore at the mine still continues.

Annual Meeting of General Hospital Held

The Annual Meeting of the Anyox General Hospital was held in the Court House on Monday, at 8 p.m. At this meeting the Annual report was submitted. There was a fair attendance.
