RICH STRIKE OF HIGH GRADE ORE

Has Been Made Near Kitsault Glacier

A rich strike of high grade ore carrying good values in gold, silver and copper, has recently been made by John Hauber and William McLean on the Lucky Strike and Cascade Falls mineral claims. The lead is 16 feet wide and has been traced on the surface the full length of two mineral claims. Open cuts have been made on the surface for a distance of about 400 feet and it is the intention of the owners to drive a tunnel 50 feet in length early next spring to crosscut the ore body at a depth of 100 feet.

The property is situated two claim lengths south-west of the Homestake mine and consists of the Lucky Strike, Cascade Falls, Silver Crown and Sunyside mineral claims. Samples taken last month across a width of 16 feet averaged $140.00 in gold and silver per ton, the values being about equally divided between the two metals. The ore also runs high in bornite and yellow copper. A sample of the ore is on view in Bruggy's Store and is well worth an inspection.

A smaller vein has also been located on the Silver Crown, which is higher up the hill. This vein is about one foot wide and samples taken last year assayed 35 ozs. silver and $8.00 in gold per ton.

The property is owned by Wm. McLean and John Hauber and was staked by William McLean in August, 1912. They are both old residents in the district and are to be congratulated on their recent find.

A more sysmtematic system of prospecting has been done in the vicinity of the Kitsault Glacier since the Homestake mine has been operating and some exceptionally fine bodies of ore have been expos on several properties. The ore in nearly all cases in this locality carries high gold values in addition to the silver and copper values. The whole country is highly mineralized and there is no doubt that further big bodies of ore will be located in the near future.

New Discovery of Ore at Anyox

Mr. W. Hanna made a new discovery of ore on his claims joining the Hidden Creek Mine at Anyox, last week. The strike was made on the Emma claim and is situated 1200 feet north from the showings uncovered last June. The extent of the new discovery is not yet known, but work will be done as quickly as possible to ascertain the extent of the ore body.

TOBACCO GROWN IN NAAS VALLEY

Was Brought To Alice Arm This Week

It is a crying shame that a rich and fertile valley like the Naas should be allowed to stand idle. Gus. Webber visited Alice Arm this week, and brought from the Naas several bundles of native grown tobacco leaf, which compare most favorably with any grown in B. C. With soil and climate producing and ripening tomatoes, corn and fruit, what more could be desired. We are informed that the valley is absolutely free from disastrous summer frosts which visit so many of the other districts that have been thrown open to land seekers. We are asked why it remains stagnant and has not been settled up. As in so many cases the means of transportation is lacking, due to the fact that not even a trail leads into the valley from tidewater. Just think, from Alice Arm where the boats call regularly a wagon road could be built over a route eighteen miles in length and positively free from a greater than a three per cent grade.

If this was costructed or even a trail slashed out, stock and supplies could be transported in and out and there is no doubt it would only be a short time until a healthy settlement of prosperous farmers would spring up. Let us get together and persist in our endeavours to bring this matter to the attention of the government.

THERE are 700 quarter sections of land of 160 acres each, making a total of 112,000 acres, laying idle in the Naas Valley. This land is all surveyed. The soil is rich and the climate is perfect. Average snowfall is from two to three feet. No summer frosts, as the valley has a low elevation. This land is laying idle for the lack a road to tidewater. Alice Arm is the nearest point on tidewater for the Naas Valley. Let us urge upon the government the necessity of a means of communication between Alice Arm and the Naas Valley, so that it will be possible to cultivate this vast and fertile tract of land,

Meeting of the Anyox Community League

The Recreation Hall was almost filled to capacity on the evening of Sept. 23rd last, when a meeting of Community League took place. Mr. Robert Armour occupied the chair which was rather a difficult proposition owing to the fact that, with the exception of two, all the members of the Council had resigned, and as four councillors are necessary to form a quorum, someone suggested that the meeting was unconstitutional. However, it was a members' meeting and it clearly showed that no small portion of the citizens are interested in community affairs and are anxious to see the league continue.

Dr. Bancroft briefly outlined the position of the company with regard to the league, and he hoped that the citizens would continue to administer community affairs, as the management had no desire to deprive the league of that privilege.

It was then decided to take a vote by ballot of the members as to whether the Community League continue or turn the community and wellfare business over to the company; the vote to be taken on Wednesday, Sept. 28th, and a committee of ladies were appointed as scrutineers to handle the ballot, viz.: Miss Reader, Mrs. Bromley, Mrs. Robbins, Mrs. Barr, Mrs. Lambert and Mrs. Hollinrake, representing the beach; and Mrs. Jenkinson, Mrs. Lowrey and Mrs. McKay, representing the mine.

British Columbia has 60 New Communities

The new Wrigley directory of British Columbia, just published, states that sixty new communities have come into existence in the past year, bringing the total number up to 2209.

The following is a fairly accurate list of the population of the leading mining towns and towns in northern B. C.

Anyox	2000
Britannia Beach	2000
Fernie	4500
Nanaimo	10000
Nelson	8000
Ocean Falls	2000
Prince George	3000
Prince Rupert	8000
Rossland	2000
Trail	4500

Anyox in Favor of Community League

Majority Votes in Favor of Present System

The vote on continuation of the Anyox Community League on Wednesday, Sept. 28th last, was a decided victory for the "Keep the League alive movement."

In spite of the wet weather there were 216 members who turned out to vote.

The ladies who acted as scrutineers are deserving of great praise for the efficient way they handled the ballot. Mr. John Conway, Stipendary Magistrate, acted as umpire at the counting of the vote.

The result of the three polling booths was as follows, viz.:

	For	Against
Mine	15	5
Beach Mess	79	31
Library	69	26
	154	62

Majority in favor of continuing league, 92.

The vote proves that the Community League is popular in Anyox and that the majority of the members have enough confidence in their ability to conduct community affairs. All movements of a public nature have their opposition, but in this case for every two votes cast against it there were five in favor of the league.

It is now the duty of the members to get busy in the selection of candidates for the council, and there should be no difficulty in getting enough level-headed, enterprising and progressive men and women in Anyox to carry on the good work.

The organizing and developing of the league's activities to their present standard are the results of many hours of hard work put in by a small number of painstaking, conscientious and public-spirited citizens whose only incentive for their efforts was the desire to accomplish something which would be beneficial to the community within which they lived, and it would be a crime to allow the fruits of their endeavors to be thrown to the winds.

Skating Rink at Alice Arm to be Operated

Policy is Outlined for the Coming Year.

In response to the notices posted relative to the meeting held last Friday evening a good representative gathering convened in the office of the Alice Arm Freighting Company for the purpose of discussing matters pertaining to the operating of the skating rink this coming winter.

A brief review of last year's financial statement was presented to the meeting, and in view of the fact that the year's deficit of practically $390.00 had to be paid out of the coming season's receipts, it was decided to go ahead with only the absolutely necessary improvements. These will cost in the neighborhood of possibly $200.00 and will cover the installation of a water system which will dispense with the laborious task of flooding the ice by means of the hand pump which was used last year, and also provide for the reinforcement of the roof, which will render it capable of withstanding any exceptionally heavy falls of snow. In all, a total sum of $250.00 will have to be raised this winter from the sale of season tickets and gate receipts in order that at the end of the year a clear balance sheet may be shown. The matter of the best and fairest charge to be made in regard to the price of season tickets was discussed at length, and it was finally decided that the following schedule be adopted: All local people over fifteen years of age to pay $10.00 per ticket; all fifteen years and under, $5.00 per ticket; out-of-town patrons, $5.00 per ticket. It was also decided that there would be no free skating this season as was prevelant last year. Only those holding tickets or paying a regular entrance fee will be allowed on the ice. At these rates it was felt that possibly we could carry on without going into debt. As the running of the rink is purely for the purpose of offering amusement and good, wholesome exercise during the long winter months, and not a money-making proposition, everyone is urged to give their support and patronage in order that this season may surpass last year in affording everyone a good time.

Patrons of the skating rink are much indebted to Mr. A. D. Hallett, who voluntarily performed a very arduous task in the levelling of the floor of the rink. Mr. Hallett has always been one of the first to volunteer for anything of this nature, showing the true community spirit at all times. Those who assisted last year in the flooding of the rink will fully appreciate the good work Mr. Hallett has done.

The Anyox Community League.

The people of Anyox made it decidedly plain last Wednesday that they were in favor of the Community League system of conducting the social affairs of the town instead of turning the work over to the company and going back to the old style of having six or seven different organizations operating, each one independent of the other and all in financial difficulties. It is now up to the citizens of Anyox to select their representatives to serve on the Council, and it is hoped that a wise choice will be made. There has not been a Council yet that has worked in harmony together and it is to be hoped that the next Council will be an improvement in that direction. Of course, nearly all of us have different opinions on various subjects, but the different problems arising should and can be threshed out in a friendly spirit. We have all got to give and take a little and if any person on the Council do not get the unanimous support of his colleagues at all times, he should not lose his temper and act like a spoilt child. The Council are the representatives of the people who elected them and they are therefore their servants, and should, if it is possible carry out the wishes of the majority of the members.

It has been said during the past year that there is not enough room in Anyox for two organizations, namely, the Community League and the B. P. O. Elks. The people who cultivate that opinion must be very narrow-minded and who can not see further than the tip of their nose. They should raise their heads and sweep a higher and broader vision. There is in Anyox today, room for twenty-two organizations such as the two now in existence, both are doing good work in the way of healthy sports, recreation, amusements and learning, and when you have those kind of organizations in your midst you can not get too many of them. It is up to the two organizations to work in harmony at all times; to cultivate a friendly spirit and to co-operate with each other whenever it is possible. If such a policy is carried out it will go a long way toward making Anyox the happiest mining town in British Columbia.

Let us hope the next Council of the Community League will use good, sound judgement and make the League still more popular than it has been in the past

WEARY, WATCHFUL WAITING

We're the pioneers of the last great west,
Sons of the Empire and some of the best,
We're the salt of the earth so Honest John said,
Strong in the back and strong in the head.

We've waited patiently years upon years.
With curses deep and with bitter shed tears,
For a road into the rich valley of the Naas,
But the Lord only knows when it'll come to pass.

The land is the finest that can be found,
From the Yukon down to Puget Sound,
No summer frosts cut down our crops,
And we're protected from rain by the mountain tops.

A wonderful rich valley that's going to waste,
Will the government please show a little haste,
And have a road built at once so that we,
Can carry our produce down to the sea.

To Alice Arm it's only eighteen miles,
And the road would'nt have to be built upon piles.
A firm road-bed can be made all the way,
And a road once built would be there to stay.

God speed the day when it will come to pass,
That a road will be built into the Naas,
And fill up the country both good and full,
With livestock and grain, but nix on the bull.

A. FARMER.

Oil Boom Hits Central British Columbia

The entire country from the head of Kalum Lake to the foot of Lakelse Lake, a distance of approximately 35 miles has been staked for oil by Mr, Cameron, representing an oil syndicate, in which it is rumored British capital is interested. The syndicate which is stated to control unlimited capital, is expected to start drilling somewhere in the vicinity of Terrace in the course of a few weeks.

An oil boom seems to be developing over the whole of central B. C. Oil claims are being staked all along the G. T. P. Railroad, and also in the district of the Francois and Burns Lakes. Gas explosions under some of the lakes have been reported, the water being blown high in the air.

The total indemnity which Germany agrees to pay the Allies is 200,000,000,000 gold marks (about equal to $50,000,000,000) as against 226,000,000,000 gold marks demanded by the Allies in their Paris terms,

Coal Property to be Sold to Pay Wages and Govt. Taxes

Hon. John Hart, minister of finance is protecting the rights of some 550 miners and other workmen, who are employed by the Pacific Coast Coal Mines, Limited, and has secured judgements on their liens against the company, to an aggregate of $71,326.71.

Under these judgements the sale of the property was some time ago authorised by the courts and is to take place on November 1st, and the very valuable Morden and Suquash properties of the big coal company will be put up for sale to satisfy the claims of the lien holders.

The company is a delinquent tax payer on its provincial taxes, and the properties mentioned were to be put up for sale on October 12th, next. As the rights of the lein-holders might be adversely affected if the tax sale were to be held prior to the sale ordered by the court, and as there is no authority for withholding any delinquent property from tax sale, Hon. Mr. Hart has instructed the collector at Nanaimo to hold the sale on December 1st, instead of October 12th.

A judgement and execution for $4500 obtained by the Workmen's Compensation Board is also protected by this postponement.

Discoverer of Yukon Gold is in California

George Carmack, discoverer of gold on Bonanza Creek, is now engaged in placer mining at Forest Hill, California. It was on August 17, 1896, that Carmack and a small party of Indians struck gold in what afterwards turned out to be the richest claims in the Klondyke.

GETTING RICH QUICK

Somebody put the following advertisement in a New York newspaper recently.

GLORIOUS OPPORTUNITY TO GET RICH QUICK—INVEST NOW

We're starting a cat ranch in California with 10,000 cats.

Each cat will average twelve kittens a year.

The cat skins will sell for 30 cents apiece.

One hundred men can skin 5000 cats a day.

We figure on a net profit of $10,000 a day.

Now, what shall we feed the cats?

We will start a rat ranch next door with 1,000,000 rats. The rats will breed twelve times faster than the cats. So we'll have four rats to feed each day to each cat.

Now, what shall we feed the rats?

We will feed the rats the carcasses of the cats after they've been skinned.

Now get this:

We feed rats to cats and cats to rats and get the skins for nothing. The shares are selling at five cents each, but the price will soon go up.

Invest now while opportunity knocks at your door.

The above was a fake and was done with the intention of steering New Yorkers away from the wildcat oil companies, in which they have about as much chance to make money as the cat ranch.

Copper Mine being Opened in Great Britain

Extensive bodies of high grade copper have been located in the Shetland Islands, which are situated north of Scotland. The Lodes thus far proved give a high percentage of copper and already half a million tons of ore are in sight.

Experts and engineers are installing a plant and mining is expected to commence next month.

SYNOPSIS OF LAND ACT AMENDMENTS

Minimum price of first-class land reduced to $5 an acre; second-class to $2.50 an acre.

Pre-emption now confined to surveyed lands only.

Records will be granted covering only land suitable for agricultural purposes and which is non-timber land.

Partnership pre-emptions abolished, but parties of not more than four may arrange for adjacent pre-emptions with joint residence, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and make improvements to value of $10 per acre, including clearing and cultivation of at least 5 acres, before receiving Crown Grant.

Where pre-emptor in occupation not less than 3 years, and has made proportionate improvements, he may, because of ill-health, or other cause, be granted intermediate certificate of improvement and transfer his claim.

Records without permanent residence may be issued, provided applicant makes improvements to extent of $360 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained in less than 5 years, and improvements of $10.00 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years are required.

Pre-emptor holding Crown Grant may record another pre-emption, if he requires land in conjunction with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, title to be obtained after fulfilling residential and improvement conditions.

For grazing and industrial purposes areas exceeding 640 acres may be leased by one person or company.

Mill, factory or industrial sites on timber land not exceeding 40 acres may be purchased; conditions include payment of stumpage.

Natural hay meadows inaccessible by existing roads may be purchased conditional upon construction of a road to them. Rebate of one-half of cost of road, not exceeding half of purchase price, is made.

PRE-EMPTORS' FREE GRANTS ACT.

The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under the Act is extended from for one year from the death of such person, as formerly, until one year after the conclusion of the great war. This privilege is also made retrocative.

No fees relating to pre-emptions are due or payable by soldiers on pre-emptions recorded after June 26, 1918. Taxes are remitted for five years.

Provision for return of moneys accrued, due and been paid since August 4, 1914, on account of payments, fees or taxes on soldiers' pre-emptions.

Interest on agreements to purchase town or city lots held by members of Allied Forces, or dependents, acquired direct or indirect, remitted from enlistment to March 31, 1920.

SUB-PURCHASERS OF CROWN LANDS

Provision made for issuance of Crown grants to sub-purchasers of Crown Lands, acquiring rights from purchasers who failed to complete purchase, involving forfeiture, on fulfillment of conditions of purchase, interest and taxes. Where sub-purchasers do not claim whole of original parcel, purchase price due and taxes may be distributed proportionately over whole area. Applications must be made by May 1, 1920.

GRAZING

Grazing Act, 1919, for systematic development of livestock industry provides for grazing districts and range administration under Commissioner. Annual grazing permits issued based on numbers ranged; priority for established owners. Stock-owners may form Associations for range management. Free, or partially free, permits for settlers, campers or travellers, up to ten head.

ALICE ARM NOTES

Mrs. H. Carney is now agent for the Amateur Finishing Co., of Vancouver for Developing, Printing and Enlarging all kinds of Photographs. Prices on Application.

A public meeting will be held to-night, at 7 o'clock in the old School for the purpose of discussing the forwarding of a petition to the government in regard to making some kind of a connection between Alice Arm and the Naas Valley. Everyone is requested to be present so that this important matter can be fully discussed.

Mr. Craddock and Morley Shier, representing the Giant Powder Co. was in town last week.

Surfacing the Wharf Road is now just about completed.

See Al Falconer for Wood or Coal

Mr. E. Armstrong, who has been visiting in town for the past two weeks returned to Stewart on Thursday. Ernie was formerly a resident of Alice Arm and was busy renewing acquaintances.

Mr. F. C Townsend is installed at the Dolly Varden mine, as accountant. Mr. Townsend was acting in the same capacity last year.

Mr. Wm. McLean, who sprained his shoulder some time ago is progressing favorably, and in a short time will be ready for a trip to the hills.

Mr. Wm. T. Allinson, representing the Confederation Life Association, arrived in town on Thursday. Mr. Allinson, who is a friend of the Editor, and having spent several years in the printing business, naturally gravitated to the Herald office. He was a welcome visitor, for he took off his coat and spent yesterday in helping us publish this week's edition. Mr. Allinson will leave on Tuesday for Anyox, and plans to spend a week in the smelter town.

The big sawmill building owned by Mr. C. P. Riel is now completely roofed. The big hall above the saw mill is 30 by 100 feet and will be a great improvement and a benfit to the town.

See Al. Falconer for Freight and Pack Horses.

Mr. Wolf has been busy remodelling his residence during the past few weeks. He now has a neat little building which looks the more pleasing on account of the addition of several coats of paint.

Mr. W. MacDonald sprained his foot some time ago and later it developed to paralysis. Walter spent about two weeks in Anyox Hospital, but is now back home and is able to walk around with the aid of a stick.

Geo. Graham appeared before T. W. Falconer and C. P. Riel, J. P.'s last week. He was released on suspended sentence.

Mr. Jake Hawkins, who opened the first restaurant in Alice Arm, is taking over the King Edward Cafe at Stewart. It is also his intention to open a butcher shop, the first shipment of meat coming direct from the Nechaco Valley.

Paul Jacobs is in the Anyox Hospital suffering from stomach trouble.

Mr. C. Gordon, formerly of Alice Arm, is now watchman at Arrandale Cannery on the Naas River.

Mr. H. F. Gordon, who was telegraph operator at Alice Arm for a considerable time and who is now at Maple Bay, is the father of a baby boy.

Mr. Otto Johnson appeared before Mr. T. W. Falconer, J. P., last Saturday, on a charge of being drunk. He was fined $50 and $2.50 costs.

Mr. L. J. Mathewson, representing the Canadian Ingersoll Rand Co, Ltd., arrived in town on Thursday.

Mr. W. S. Bacon, mining engineer, arrived in town on Monday. He examined the David Copperfield and also mining properties on Roundy Creek.

Mrs. G. Williscroft and child, of Camp 8, arrived home from Vancouver, on Thursday.

Mrs. Martin left on Thursday, for her home at Stewart, after spending ten weeks here.

Mrs. C. Gustafson left on Monday's boat for the south.

Mr. C. W. Calhoun, who has been here for the past two weeks examining the mining properties of the Alice Arm Holdings Co., left on Monday for Vancouver.

Mr. and Mrs. J. Anderson and baby, arrived home from Prince Rupert on Monday.

Mr. Sconseng arrived in town on Tuesday. He has just recently made a business trip to Usk and states tnat the oil boom in the interior is in full swing. He is planning to work on his claims on Homestead Creek.

There are a few Chess enthusiasts around town who are anxious to pit their strength againt any followers of the game. It is rather inclined to be rough sport, but if afforded proper protection should help considerably towards putting in the long winter evenings very pleasantly.

ANYOX NOTES

Among those leaving on the boat on Thursday, were Mr. and Mrs. O. Lennon and family, who will reside at Trail; Mr. and Mrs. J. Jeffreys and daughter, who are going to England; Mr. and Mrs. R. Heath and family; Mrs. Davis, who is out on holidays; Mrs. Round and family, who will reside in Vancouver; Jimmie Ferguson, to Vancouver; Dick Greenwell and George Greenwell.

Among the arrivals on Thursday's boat, were Mr. Geo. Kinrade and bride; Mrs. J. G. Buchanan; Mr. and Mrs. McLeod; Mr. and Mrs. W. Campbell; A. Adams and J. Dempsey.

The cheery smile of Mrs. Lennon at the Community League lunch counter, will be missed by the boys who used to call in there for a night lunch when going on or coming off the midnight shift.

Mr. and Mrs. Phil McFarlane and Mr. and Mrs. Geo. Warwick, returned from their two week's hunting trip on the "Philmac." They were at the Prince Rupert Fair. While hunting on Porcher Island they bagged two deer and several grouse.

Mr. Wm. McIver left last week for his home in Scotland, where he will spend the next two years. He has been in Anyox for the past eight years and has seen the construction of the whole camp. He is interested in mining properties at Alice Arm and is known as a real good fellow in both camps.

Mrs. Archie Campbell and baby arrived from Vancouver last week.

Don't wait until you are asked to subscribe to the Herald. Do it now.

And 2-Reel Mack Sennet and Nature Picture.

BRITISH COLUMBIA

The Mineral Province of Western Canada

Has produced minerals valued as follows: Placer Gold, $75,944,203; Lode Gold, $102,753,823; Silver, $53,668,284; Lead, $46,637,221; Copper, $161,513,864; Zinc, $19,896,466; Coal and Coke, $212,573,492; Building Stone, Brick, Cement, etc., $32,168,217; Miscellaneous Minerals, $1,037,408; making its mineral production to the end of 1920 show an

Aggregate Value of $706,192,978

The substantial progress of the Mining Industry of this Province is strikingly exhibited in the following figures which show the value of production for successive five-year periods: For all years to 1895, inclusive, $94,547,241 for five years, 1896-1900, $57,605,967; for five years, 1901-1905, $96-509,968; for five years, 1906-1910; $125,534,474; for five years, 1911-1915, $142,072,603; for the five years, 1916-1920, $189,922,725.

Production During last ten years, $331,995,328

Lode-mining has only been in progress for about 25 years, and not 20 per cent of the Province has been even prospected; 300,000 square miles of unexplored mineral bearing land are open for prospecting.

The Mining Laws of this Province are more liberal and the fees lower than those of any other Province in the Dominion, or any Colony in the British Empire.

Mineral locations are granted to discoverers for nominal fees.

Absolute Titles are obtained by developing such properties, the security of which is guaranteed by Crown Grants.

Full information, together with Mining Reports and Maps, may be obtained gratis by addressing

THE HON. THE MINISTER OF MINES,
VICTORIA, British Columbia
