## Why the North Star Property Belongs to Original Owners

Last week we published a letter from Mr. O. Evindson, which stated that the North Star property does not belong to Mr. Eresch, of Kansas, but still remains the property of himself and associates, who were the original stakers and who also staked the Dolly Varden property.

The North Star joins the Dolly Varden on the north-east. Considerable development work has been done and the property is one of the most promising in the district.

Following is an outline of the history of the property:

Mr. M. P. Olson, late of Alice Arm, and now of Vancouver, was the first to get an option on the North Star, which he secured from Gustaf Pearson. On this option he paid down \$500. The option, however, lapsed, and Olsen now claims commission from that \$500.

After his option with Pearson dropped, he got Messrs. J. McAleeanan and J. Zarrelli interested and a new deal was made. On this deal Olsen was to receive ten per cent. commission from the owners, and this commission was paid to Olson on all payments made by McAleeanan. Olson in turn paid his commission back to McAleeanan so that he could retain a ten per cent. interest in the property. McAleeanan and Zarrelli found it difficult to carry out their option, and were obliged to drop the property. The North Star was then up for sale by the original owners, and an offer was made by Mr. Eresch, of Kansas, which was accepted and a payment made.

Mr. Olson then claimed commission on the new deal and action was taken to recover same, also commission on ore shipped from the property, by Mr. McAleeanan. This action was dismissed with costs. Application to be allowed to appeal this action in forma pauperis was disallowed by the court. The case was then taken to the appeal court and again it was dismissed. Olson has now appealed to Ottawa.

## Tragic Death of Stewart High School Boy

The many friends in the north of Mr. and Mrs. Angus McLeod of Stewart, will be shocked to learn of the death of their only son, Kingsley McLeod, who died on Thursday morning at the early age of 15 years.

Deceased was a High School student, and attended school on Monday. He was taken sick that day and died on Thursday, the cause of death being pneumonia.

Dr. Kergin, of Prince Rupert, who had been telegraphed for, reached Stewart shortly after the death occurred.

The body was shipped south on Thursday, for burial at Vancouver.

## Basketball Dance Held At Anyox

Those who were privileged to attend the dance given by the Anyox Basketball League, in the Gymnasium on Monday evening, March 24th, cannot but express themselves in a praiseworthy manner for the remarkable success of the evening.

This dance, the proceeds of which are to furnish prizes for the winning Basketball teams, stands out as being one of the most pleasant entertainments provided during the winter months.

The orchestra, consisting of Messrs. Cole, piano; White, violin; and Ed. Waterman, drums, situated on the centre of the dance floor, excelled themselves, much to the delight of those fond of tripping the light fantastic.

Dancing was indulged in from 9 o'clock until 2 a.m. with a brief interval during which time dainty refreshments were served.

Much credit is due to the ladies who busied themselves and made the evening a real pleasure to everyone present.

The committee in charge were: Mesdames J. Cody, H. Chapman, and Wennerstrom; and the Misses J. Moffat and Annie Scott, also secretary of the Basketball association, Crawford. Mr. F. Brown acted as master of ceremonies.

## Prominent Masons Visit Anyox

With the arrival of the S. S. Prince George, on Thursday evening, last week, about sixty passengers appeared on deck, anxiously waiting to set foot on Anyox soil. Most of them were accompanying the Rt. Wor. Bro. Geo. H. Munro, District Deputy Grand Master of Masonic Order of District 11. The party were welcomed at the boat on their arrival by a delegation of members of Enoch Lodge, who, together with the guests proceeded to the Lodge Room. After the ceremony, refreshments were served in the Elks' Dugout, where a sumptuous supper was enjoyed, toasts given and speeches made.

Included in the party, were Hon. A. M. Manson, Attorney-General, Messrs. C. H. Orme, C. Wakefield, American Consul; F. F. Henderson, G. Woodland, Dr. Kergin, Rev. Dr. Grant.

The big tide flats, which comprise a large part of the waterfront at Alice Arm, from all appearances will comprise one big booming ground this year. Three railroads will be busy dumping logs into the water, and the waterfront this year will be one of great activity.

Mr. and Mrs. McLeod have resided in Stewart since 1910. Mr. McLeod was in Alice Arm in 1912 when he did some trail work for the government.

## Logging Construction Work Around Alice Arm

Preparation work at the logging camps of the Granby Co. is still proceeding. The dining room at the camp on the Kitsault flats is nearing completion. A floating pile-driver has been engaged during the week driving piles for the booming ground on the waterfront, opposite the Police Station. This work, it is expected, will be finished today. The driver will then be moved to the east side of the Kitsault river, and will commence driving piles for the railway trestle. The length of trestle to be driven is 1300 feet. On the completion of this work piles will be driven for a booming ground.

The hauling of lumber for the construction of the camp up the Dolly Varden railway, commenced yesterday, the road now being clear for the operation of locomotives.

Plenty of labor is available in town at the present time, and no more labor will be required here until the different camps are in a position to operate to capacity, which will probably not be for another month.

## Farewell Party Given at Anyox

The Anglican Church Ladies Aid on Tuesday evening, March 25th, gave a farewell party in honor of Mrs. A. Jenkinson, at the home of Mrs. W. F. Eve.

About twenty persons were present during the evening, who enjoyed themselves playing bridge, and later partaking of the delicacies which played a prominent part in the evening's entertainment.

After supper, a presentation was made to Mrs. Jenkinson on behalf of the Ladies' Aid in token of her valuable services and the high esteem in which she has been held by all who know her, both in Church work and social circles.

Mr. and Mrs. Jenkinson and son will be leaving Anyox for Vancouver, on Thursday, April 3rd, and expect to make their home in the vicinity of that city.

## Famous Musician Leaves Anyox

Mr. George Liddell, the well known violinist who has been residing at Anyox during the past two years, received an enthusiastic farewell from the Moose Fraternity at their Lodge Room in the Catholic Hall, prior to his departure on Thursday night.

The Moose orchestra was present and after several selections had been played, Mr. F. D. Rice, who acted as chairman, in a few well chosen words voiced the sentiments of the audience, that Mr. Liddell would, ere long, be returning to Anyox. To which the latter suitably responded.

Messrs. H. Ballion, F. D. Rice, and R. Armour, of Anyox spent the week-end inspecting the Esperanza property, and locating a site for an aerial tramway.

## Aerial Tramway For Esperanza Mine

The Esperanza Mine Co. have decided to install an aerial tramway at the mine at the earliest possible date. Survey work has been completed. The tram will run from the mine to the Dolly Varden railway tracks, and the distance will be about 1600 feet.

A new ore car has arrived for the mine and will be taken up the hill as soon as possible.

Mining of ore is still being carried along at the mine and the property is looking as good as ever.

## ANYOX NOTES

friends who regret the fact that Anyox is about to lose one of its most popular residents.

Deputy District Supreme Dictator Wallstedt, of Loyal Order of Moose, was a passenger on Thursday's southbound boat, after a brief visit to Anyox Lodge, Number 1412, in his official capacity.

CONNELLY—Would some personal friend of the late Patrick Connely, of Vancouver B. C., who died at Anyox, February 6th, kindly communicate with K. M. 755 De Lepee Ave. Montreal.

## ALICE ARM NOTES

Dressmaking and Plain sewing—Mrs. Myrtle Wilson, Alice Arm.

Mr. Ed. Skoglund arrived in town on Monday from Prince Rupert where he has spent the last five months.

Mr. Sid Davis has moved into the building next to the Post Office, on First Street. It is to be converted into a First Aid station.

Mr. and Mrs. Carl Johnson arrived here from Vancouver, on Monday. They are old residents of the town, having resided here five years ago, Mr. Johnson being engaged in logging, down the inlet. They expect to remain here during the coming summer.

See Al. Falconer for Wood, Coal and Lumber.

After being closed for a considerable length of time, the Hotel dining room was again opened on Wednesday, by Messrs. R. W. Clayton, and Angus McDonald. The opening of the dining room is much appreciated by the people of the town, and especially by guests at the hotel.

Mr. Ed. Hill left on Wednesday for Anyox, suffering from blood poisoning, caused by a scratch on his hand. He received first aid treatment here, but it was necessary for his removal to the Anyox hospital.

Mrs. R. W. Clayton and family arrived on Tuesday from Anyox to join Mr. Clayton, who operates the Hotel dining room.

Mr. Jerry Omar arrived in town from Anyox, and is engaged in construction work for the Granby Company.

See Al. Falconer for Freight and Pack Horses.

Mr. John Stark, watchman at the Dolly Varden Mine was in town for a few days during the week. Mr. Stark states that there is now seven feet of snow at Camp 8.

The second radiophone to be installed in town is now in operation at the home of Mr. and Mrs. G. W. Bruggy. The first message picked up after the final adjustment on Wednesday evening, was a concert, broadcasted by the Calgary Herald.

**Down Comes****The Axe**

The federal government, in response to the Dominion-wide pleas of the people, have commenced to swing the axe in regard to curtailing of expenditure, and it is hoped that the good work commenced will be carried on vigorously, until a substantial reduction of taxation is accomplished. There have been a lot of different departments created by the federal government during the past ten years, with which we can very well get along without, until we have a larger population to support them. It is high time that the people realized that from their pockets comes the money for public works undertaken by the government. It is also time that the people took a greater interest in federal politics, especially in the western part of the Dominion.

**Boosting Gets Results**

It is the duty of everyone to boost their own town and community, for boosting really does get results. Vancouver boosted itself for grain elevators and have got them. It has boosted its scenery and climate and got the tourists.

It has boosted its harbor facilities and got the ships. Boosting is not necessarily a misrepresentation of facts, but advertising your advantages and natural wealth, much as a live merchant advertises his wares. We have, in the Alice Arm district one of the richest mineral areas in the world. This wealth is buried in the ground and there it will remain unless we do some boosting, and when we say boosting we mean getting out and rustling. The world can get along without Alice Arm ores, but we can not get along without the rest of the world.

**Educate the Child**

A good education is necessary to every child, and this fact is capped in any effort he makes for advancement throughout his life.

**B. G.'s Growth in Ten Years, 34 Per Cent**

We have every reason to be encouraged when we compare the growth of this province with the other provinces of Canada and the Pacific Coast states. During the ten years ending 1921 our rate of increase was 34 per cent. exceeded by two provinces only, Alberta with 57 per cent. and Saskatchewan with 54 per cent. The U. S. census of 1920 showed that since 1910 the rate of increase for the state of Washington was 19 per cent. Oregon 16 per cent. and much-advertised California 44 per cent. So we have not done so badly after all. From 1900 to 1920, the increase was: Washington, 120 per cent; Oregon, 63 per cent; California, 60 per cent. From 1901 to 1921 the increase for British Columbia was 194 per cent, more than three times the rate of increase in California.

**Canada's Gold Production Increasing**

Canada exported gold during January last to the value of \$2,471,920, an enormous increase over the preceding month and over January, 1923. The figures for these months were: December, 1923, \$1,881,450; January, 1923, \$396,788.

These figures include the value of all gold bullion, obtained directly from mining operations, nuggets and dust and gold bearing quartz. The whole quantity went last month to the United States.

The codfish lays a million eggs. While the helpful hen lays one. But the codfish does not cackle To tell what she has done. And so we scorn the codfish coy, But the helpful hen we prize. Which indicates to thoughtful minds It pays to advertise

becoming more pronounced every year. No child should be allowed to have an indifferent education, for a child starting out in the world to earn a living will find himself severely handicapped by having a poor education. The displacement of hand labor for mechanical appliances in the industrial world demands a fair education and for those who climb to the top a first-class education is necessary. Give the child the best education possible, so that he will not be handicapped in any effort he makes for advancement throughout his life.

The rapid depletion of the world's lead supplies, with the failure to discover new ore bodies, is likely to create a lead famine and to force the development of the complex lead-sulphur-copper-zinc ores, whose treatment has long been a metallurgical problem, state investigators of the State School of Mines, University of Utah, and the Federal Department of the Interior in Bulletin 14, just issued by the first-named institution. The whole world's future supply of lead, it is asserted, lies tied up in these complex ores, of which the Rocky Mountain district has more than its share.

GENERAL MERCHANT**BRITISH COLUMBIA****The Mineral Province of Western Canada**

Has produced minerals valued as follows: Placer Gold, \$76,542,203; Lode Gold, \$109,647,661; Silver, \$59,814,266; Lead, \$51,810,891; Copper, \$170,723,242; Zinc, \$24,625,853; Coal and Coke, \$238,289,565; Building Stone, Brick, Cement, \$36,605,942; Miscellaneous Minerals, \$1,358,839; making its mineral production to the end of 1922 show

**An Aggregate Value of \$769,418,462**

The substantial progress of the Mining Industry in this Province is strikingly exhibited in the following figures, which show the value of production for successive five-year periods: For all years to 1895, inclusive, \$94,547,241; for five years, 1896-1900, \$57,607,967; for five years, 1901-1905, \$96,507,968; for five years, 1906-1910, \$125,534,474; for five years, 1911-1915, \$142,072,603; for five years, 1916-1920, \$189,922,725; for the year 1921, \$28,066,641, and for the year 1922, \$35,158,843.

**Production During last ten years, \$339,280,940**

Lode-mining has only been in progress for about 33 years, and not 20 per cent of the Province has been even prospected; 300,000 square miles of unexplored mineral bearing land are open for prospecting.

The Mining Laws of this Province are more liberal and the fees lower than those of any other Province in the Dominion, or any Colony in the British Empire.

Mineral locations are granted to discoverers for nominal fees.

Absolute Titles are obtained by developing such properties, security of which is guaranteed by Crown Grants.

Full information, together with Mining Reports and Maps, may be obtained gratis by addressing

## SYNOPSIS OF LAND ACT AMENDMENTS

**PRE-EMPTIONS**  
Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, upon declaring intention to become British subjects, conditional upon residence, occupation, ownership and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emptions is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 5,000 board feet per acre west of the Coast Range and 8,000 feet per acre east of that Range.

Applications for pre-emptions are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emptions must be occupied for five years and improvements made to value of \$10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

### PURCHASE

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price of first-class (arable) land is \$5 per acre, and second-class (grazing) land \$2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

### HOMESITE LEASES

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

### LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

### GRAZING

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free, or partially free, permits are available for settlers, campers and travellers, up to ten head.

## Basketball Games at Anyox

Two games were staged at the Gym. on Friday last. The Colts and the Shamrocks of the Midget League, tangled in the first game, while the second encounter on the programme brought together the Tuxis and the Rovers.

The Colts took revenge for their previous defeats at the hands of the Shamrocks and emerged victorious by the score of 11 to 10. The play was fast throughout. Bob Moffatt was the scoring star for the Colts, while Cy. McDonald was the outstanding star for the losers.

The Rovers took the Tuxis into camp in the second game by the score of 34 to 30. The game was very closely contested all the way, with nothing to choose from between the two teams. All the players worked hard, the Rovers having the slight edge in combination.

The teams were:

Rovers: N. Ballion, H. Ballion, Harris, Gordon and Crawford.

Tuxis: Dean, Moore, Moffatt, Swanson and Clay.

The local Gym. was the scene of the stellar basketball game of the season, on Thursday evening, when the Smelter team, champions of the Anyox senior league, met and were defeated by the Sons of Canada, stars of the Prince Rupert league, in a game which was billed for the championship of northern B.C. It was a close game from the start till the final whistle blew. The score was Rupert 31 Anyox 30.

Balfour was the scoring star for the Rupert quintette, while York was easily the star for the local team. The Smelter team were severely handicapped by having to play the end wall as out of play, after being used to it all season.

In our opinion the local team would have easily won providing the wall could have been played in.

### Baseball Players Getting Restless

Baseball is all the talk with the boys these days, and much speculation is going on as to how many teams there will be in the league this season. To our knowledge there will be three of last year's teams namely, the Smelter, Mine, and Elks. There is rather a scarcity of players in town at present, but in the course of a month some new players should come to light.

### TO THE SHOVEL

Good old muck-stick, many a day I've pushed you through the dirt; Shovelling off the over-lay,

While sweat soaked through my shirt.

While thus employed, I often think And wonder why it's true;

That every peanut-headed gink

Turns up his nose at you,

And fears that he could not retain

His precious (?) social station,

Nor ever use his bulging brain

And wondrous education

If he but took you in his hand,

And labored in a ditch

To bring some water on the land

That makes the nation rich:

Or built a highway through the wild;

Or opened up a mine.

Oh, no!—for collar undefiled

The peanut-brained will dine.

Old muck-stick, if 'twere not for you

We'd not be civilized—

Of all the tools we use, but few

Should be more highly prized.

Without you all of us would be

Still roosting in the trees,  
Exposed to beast, and bird, and flea,  
And Winter's shiv'ry breeze.  
If peanut brains could only think,  
They'd surely call to mind:  
When mankind hung on ruin's brink,  
You were not left behind.  
When war broke out, and cannon roared,  
And shrapnel fell around,  
Old muck-stick, then you surely scored,  
For to get underground  
Was every blessed hero's thought  
The muck it fairly flew,  
And trench and dugout soon were wrought  
By heroes and by you.  
Old shovel, we have very much,  
Indeed, to thank you for;  
I'm proud to hold you in my clutch;  
You really "won the war."  
—Donald C. Simpson

### BREVITY

She called her gown a poem  
We do not wish to slam;  
But judging from its brevity,  
It seemed an epigram.

## NOTICE TO CO-OWNER

To: A. E. GARVEY, Esq.  
VANCOUVER, B.C.  
TAKE NOTICE that I, Jack Miller, have done or have caused to be done, and paid for the same, the assessment work on Royal No. 1 Mineral Claim, Royal No. 2 Mineral Claim, Royal No. 3 Mineral Claim, Royal No. 4 Mineral Claim, Royal No. 5 Mineral Claim, Royal No. 7 Mineral Claim, and Royal No. 8 Mineral Claim, all of which said Mineral Claims are situated about sixteen and one-half miles from Alice Arm, B.C. on the Kitsault river and adjacent to the Dolly Varden and David Copperfield Mineral Claims, and known as the "Royal Group," as required by the Mineral Act, Chapter 157 R. S. B.C., 1911 and Amending Acts for the years 1921-22 and 1922-23, and have recorded the same. As the owner of an undivided one-quarter interest in and to the above mineral claims, your share of the moneys paid as above mentioned amounts to \$350.00. Unless you pay your share, namely \$350.00 within ninety (90) days from the first publication of this notice, I shall apply to the Mining Recorder at Anyox, B.C. to have your interest in the Mineral Claims vested in me by Section 48 of the said Mineral Act.

Dated at Prince Rupert, B.C. this 4th day of March, 1924.
