Anyox P. T. A. Elect Delegates For Convention

A special meeting of the Anyox P. T. A. was held in the High School on Monday afternoon. The chief purpose of this meeting was to complete the list of delegates to Federation's Convention next week. Miss Ormrod and Mr. Clark agreed to serve with those already elected. It was decided that the next meeting be held on the 28th inst. For that occasion the teachers will be requested to give short talks on their convention experiences.

In connection with some renovating the School Board is doing at the Mine School, the P. T. A. will spend up to ten dollars to establish a kitchenette.

The action of the President in arranging for the children's matinee of the "Story of Steel" was commended. Discussion was general on the advantages of motion pictures in education. Mr. Clark was requested to make investigation of a number of suggestions.

The delegates were instructed to urge upon the Provincial Federation the need of keeping in touch with outlying associations.

Saddle Tunnel Nearing Rich Ore Body

Mr. P. E. Peterson, consulting engineer for the Silver Crest Mining Co. left on Wednesday evening for Vancouver, after spending a week on the Saddle property at Hastings arm.

He made a complete examination of underground work done at the Saddle during the winter months. He was very satisfied with the manner in which the work had been carried out, and stated that the main tunnel is driven a distance of 456 feet from the portal, and 18 feet of crosscuts have also been driven. The tunnel now has a vertical depth of 200 feet from the surface. Although the tunnel has not yet reached its objective, which is the rich silver lead ore developed by sinking a shaft, the latter part cut through a form of mineralization. In several places high grade was encountered. It is expected that only a short distance is necessary before the rich ore body is broken into.

Work was suspended on account of shortage of powder, but will be resumed as soon as possible.

Alice Arm Ladies Form Church Auxiliary

A meeting of the ladies of Alice Arm was held at the Kitsault Cafe on Wednesday afternoon. It was called for the purpose of discussing plans for the raising of funds towards the Anglican Church Building Fund. Mrs. W. M. Cummings conducted the meeting.

Following discussion, it was resolved to form a Women's Auxiliary to the Anglican Church. Officers elected, were: President, Mrs. H. F. Kergin; Secretary-Treasurer, Mrs. O. Evindsen.

It was decided that the first step undertaken would be a bean supper to be given on Monday April 21st. Mrs. C. M. Smith and Mrs. L. O'Connor were elected to supervise the obtaining of refreshments. An account of which will be found in our news columns.

Lot Owners Improving Their Property

Big patches of old mother earth showed up through the snow blanket during the week around Alice Arm, and in a week or so the ground will be bare. Almost everyone is busy fencing off their lots on the former Indian Reserve and making plans for flower and vegetable gardens. The roads and streets, which are as yet in the rough, are badly in need of surfacing. Mud holes and lakes being far too prominent.

When the streets have been graded, sidewalks laid, and lots fenced and cultivated, Alice Arm promises to be a pretty spot. The town is located in a beautiful natural setting, and if everyone cultivates their lot a beautiful town will result.

Athletic Club Hold Another Card Party and Dance

A card party and dance, given by the Alice Arm Athletic Club was held at T. W. Falconer's hall on Saturday evening. As on previous occasions, it was an enjoyable evening. Bridge was played at six tables. Following cards, dancing was enjoyed for a short time. An excellent supper was served, which was kindly donated by the ladies. The proceeds of the evening amounted to \$11.15.

Miss Alice Kergin successfully carried off the ladies' first prize at cards, and Mr. T. W. Falconer led the men's score. Consolation prizes were awarded to Mrs. J. Wheatley and Mr. J. Flynn.

Golf Players Make Plans And Elect Officers For Season

Golf enthusiasts in large numbers attended the Anyox Golf Club last Friday. The officers of the club were unanimously re-elected. These are: President, W. R. Lindsay; Vice-President, F. F. Brown; Secretary-Treasurer, Frank Larson. C. O. Fricker was chosen Captain. The Committee will include Mrs. Fricker, Mrs. Lawn, and Messrs. H. Campbell, C. Cundill, D. R. Leary, G. M. Lee, and W. Simpson.

Reports, indicating that the club's affairs are satisfactory, received the approval of the meeting.

Mr. Lindsay informed the meeting that he had been assured that there would be a medal or similar trophy donated for monthly competition.

The dues were raised to three dollars for this year. A program of improvements will be begun as soon as the Committee has made a survey. Smelting activities have somewhat changed the geography of the course.

Discussion of club rules left the question of privileges for youthful golfers in the hands of the committee. At present the youngsters may accompany their parents over the course.

The caddies come in for some attention and their rules, fees, and privileges will also be defined.

A suggestion to affiliate with the British Columbia Association of Golf Clubs was approvingly received.

J. T. Mandy Visits Alice Arm This Week

J. T. Mandy, district mining engineer arrived on Monday from Anyox and left again on Wednesday. While here he examined the Esperanza mine. It was his intention to visit the Toric mine but as it was necessary to walk the whole distance, he could not spare the time.

ALICE ARM NOTES

Leo Sick left on Monday on a visit to Vancouver.

N. Sutlovich returned on Thursday from a trip to Prince Rupert.

Harold Eld arrived on Thursday from Anyox and will spend Easter holidays with Mr. and Mrs. A. Beaudin.

Anyox School Teachers Act As Delegates

The Granby Bay School Board excused the teaching staff from duty on Thursday to allow them to take Wednesday's boat south.

Most of the teachers will attend the Teachers' Convention in Vancouver at which Mr. Clark and Mr. Vogee will represent the local association. Miss Greenwood, Miss Richards, Miss Heaney, and Mr. Hartley will spend part of the week on the Island at their homes. In Victoria Miss Richards will be the local delegate to the I. O. D. E. Convention. Miss Ormrod will attend the sessions of the P. T. A. Convention on behalf of the local association. Schools will reopen on the 28th inst.

May Relieve Fuel Oil Shortage at Toric

During the week, Al. Falconer freighted twenty drums of fuel oil as far as Spring Camp for the Toric mine. In order to make full use of the frosty nights the sleighs left Alice Arm shortly after 4 a.m. The oil will be now freighted on to the Toric mine if possible. The road on the upper end is said to be bad. Horses breaking through the soft snow to the ground. It may, however, improve later when some of the snow disappears.

Bean Supper Will Be Held At Alice Arm

A Bean Supper will be held at W. B. Barrett's store building on Easter Monday April 21st. under the auspices of Alice Arm Anglican Church Women's Auxiliary. The Supper hours are from 5 to 7 p.m. Lots of luscious brown beans and all the trimmings. It is hoped everyone in town will be present. Proceeds will be devoted to the Church building fund. Adults 50c. Children 25c.

Christ Church Easter Services

Easter Sunday services at Christ Church, Anyox, will be as follows: Holy Communion, 8 a.m.

Mattins and Holy Communion, 10 a.m.

Sunday School, 2 p.m. Evensong, 7.30 p.m.

Messrs. F. E. Patton and F. C. Buckle of the Anyox mine, paid a visit to the Toric mine during the week.

Advertise in the Herald

Predicts Mining Activity For Alice Arm District

The Alice Arm district will see more life during the coming season than it has done since the hectic days when the Taylor Mining Company was tearing out ore from the Dolly Varden mine to get it to the market while the price of silver ranged between \$1 and \$1.30 per ounce, says the British Columbia Miner. We remember that when silver was at its highest level many people predicted that it would never again fall below the \$1 mark.

The Taylor Company so successfully scuttled the mine that none of the many engineers who examined it would entertain it until Britannia Mining & Smelting Company became interested in the Toric and its engineers and geologists had an opportunity to examine the Dolly Varden at leisure.

Exploration at the Toric is understood to be very satisfactory. A raise has been put up from the bottom level to the surface and a winze has been sunk 220 feet below the bottom level and exploration is now under way by crosscuts and drifts at this new level.

All the exploration is said to have been done in commercial ore, though of a low grade at present market prices, but the largeness of the deposit compensates for the lowness in grade. The development of this deposit will be continued, and, at the same time, the company will thoroughly explore the Dolly Varden and Wolf groups. The Alice Arm-Dolly Varden railway is to be reconditioned, chiefly, we understand, at the expense of the Provincial Government.

Falls Creek Dam Being Completed

The work of completing the Falls Creek dam above the town of Alice Arm was commenced two weeks ago, by the Department of Public Works. J. Graham is in charge of operations. It is expected that operations will not be completed until nearly the end of the month. When it is finished the waters of Falls Creek will be diverted into the Kitsault River. Formerly the creek flowed through the town.

N. J. Dixon was an arrival on Wednesday's boat.

 E. MOSS, Editor and Publisher.

Following one of the longest winters on record spring has at last arrived. Although all the snow has not disappeared from the streets of Alice Arm, cars are being used instead of sleighs, and a few more days will see the streets bare. Springtime has many charms. It has, however, one drawback, which is the bringing to view of the winter's refuse that has been thrown out of dwellings since last fall. Now is the time to spring clean outside the house as well as inside. In another week or two it will also be time to make arrangements for planting flower and vegetable gardens. Now that everyone own their own lots there is no excuse for any resident not having a well kept garden or at least a nice clover patch. Alice Arm will have many visitors this year, and nothing gives a better impression to visitors than well kept gardens. Invest in a few packets of seeds and your efforts will be amply rewarded.

The promoters of the Anyox Night School classes are to be congratulated upon the splendid success attained during the past winter. The classes were well filled throughout the season and a large number of men and women added considerably to their knowledge by taking advantage of the splendid opportunity offered. In these days, when efficiency of the highest order is expected, one cannot learn too much. Knowledge is essential to success. The ambitious person forges ahead and the sloth is left behind.

Attending night school classes during the winter is a profitable way to spend leisure hours. When the sun climbs high in the heavens, however, flooding the land with warmth, nature calls for outdoor exercise. Summertime is the season of the year when the youth of the nation yearns outdoor activities. The people of Anyox do not enjoy the facilities for outdoor recreation as southern towns enjoy.

Consumption of Metals Show Big Increase

British Metals Corporation, affiliated with Noranda in the erection of the new copper refinery at Montreal East, held their meeting recently in London, England. C. V. Sale, the chairman, presented some interesting figures as to the world's consumption of copper and other base metals. In the 20-year period, 1908 to 1928, metal consumption is shown to have increased greatly. Copper demand increased some 915,000 tons; tin, 71,000 tons; lead, 560,000 tons; and spelter, 680,000 tons.

Mineral Reserve Is Opened

Closed to prospectors as a mineral reserve since the early days of the great war, the copper fields of Coppermine river district, on the rim of Canada's northland, will on July 1st, this year be thrown open for staking.

Mining is unique among the industries, in that, instead of employing outside capital upon which to build prosperity, it creates new wealth. It takes ores from the ground, where they are useless, and changes them into taxes, dividends, wages and the necessities and luxuries of life for hundreds of thousands of people.

It is a major factor in the progress of related industries, and every citizen in the metal producing state, whether farmer, laborer, teacher or grocer, benefits directly from mining operations. Without mining, there would be no industries, no automobiles, telephones, stoves, surgical instruments, motion pictures or any one of millions of services and commodities we now enjoy.

In short, mining is of a great industry and an essential factor in the building of a civilization. If we, as a nation and as individuals, are to progress to the limit of our possibilities, mining must be encouraged—Nelson Daily News.

It is not possible to jump into a car in Anyox and drive far into the country. Such being the case one must take their exercise at home if they do not possess a boat. The Anyox Community League has provided every facility for outdoor recreation. Tennis, golf, baseball, football, etc. The two former sports will be well patronized and it is hoped that the two latter will rally enough enthusiasts so that leagues can be formed as in former years. Sport of some kind young men must have, and outdoor sport is far better than a poker game in a stuffy room.

WATER NOTICE

DIVERSION AND USE

TAKE NOTICE that the Granby Consolidated Mining, Smelting & Power Co. Ltd., whose address is Anyox, B. C. will apply for a licence to take and use 100 c. f. s. of water out of Anyox Creek, also known as Falls Creek, which flows South-Easterly and drains into Granby Bay, about Lot 308 Cassiar.

The water will be diverted from the stream at a point about one and a quarter miles from mouth and will be used for power purpose upon the land described as Lots 308, 479, and 898, Group 1, Cassiar District. This notice was posted on the ground on the 27th. day of March, 1930. A copy of this notice and an application pursuant thereto and to the "Water Act" will be filed in the office of the Water Recorder at Prince Rupert.

Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B. C., within thirty days after the first appearance of this notice in a local newspaper.

THE GRANBY CONS. M. S. & P. Co., Ltd. Applicant.
 By W. R. Lindsay, Agent.

The date of the first publication of this notice is April 5th. 1930.

WATER NOTICE

USE AND STORAGE

TAKE NOTICE that the Britannia Mining & Smelting Company Ltd., whose address is Alice Arm, B. C. will apply for a licence to take and use fifty cubic feet per second and to store 200 Acre Feet of water out of Trout Creek, which flows South-West and drains into the Kitsault River, about three miles north of the Toric Mine.

The storage dam will be located at one half mile from Kitsault River. The capacity of the reservoir to be created is about 200 Acre Feet, and will flood about eight acres of land. The water will be diverted from the stream at a point about half mile North East from junction of the Kitsault River, and will be used for Power purposes upon the Toric Mine, described as Toric Lot 935, Cassiar District.

This notice was posted on the ground on the 24th. day of March, 1930. A copy of this notice and an application pursuant thereto and to the "Water Act" will be filed in the office of the Water Recorder at Prince Rupert, B. C.

Objections to the application may be filed with the said Water Recorder, or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B. C. within thirty days after the first appearance of this notice in a local newspaper.

All Minerals Created Record 1929

Mining in Canada during 1929 reached a new high record at \$307,146,949 and showed a gain of 11.69 per cent. over the previous year's total, according to S. J. Cook, chief of the Mining, Metallurgical and Chemical Branch, addressing the meeting of the Canadian Institute of Mining and Metallurgy. He pointed out that this is the fourth consecutive year creating a new record, new high figures being registered for asbestos, cement, clay products, copper, gold, lime, nickel, petroleum, salt, stone and zinc.

Rush of Land Settlers Breaks Record

Once more surpassing previous records of land filings in the Peace River country, the returns from the Dominion lands offices at both Peace River and Grand Prairie show that the rush of settlement is by no means abating, but that each year is witnessing an increasing practical interest in the agricultural possibilities of the Peace River country. Total filings at the Peace River land office for the year ending March 31 were 3,058 homesteads and 147 soldier grants, a total of 3,205 quarter sections taken up for settlement, an increase of 181 over the previous 12 months.

Consolidated Co. Spent One Million on Development

The Annual Report of the Consolidated Mining and Smelting Co. states that the company is still pursuing vigorously the exploration and development of any prospects offered on fair terms in any accessible part of Canada. The directors are convinced that sooner or later this will result in the discovery of substantial producers. Approximately \$1,000,000 was spent in such exploration and development in 1929 and charged to gross revenue.

Directors of the Tonopah Mining Co. have decided to close down the old mine at Tonopah, Nev., because of the low price of silver.

Dr. Dolmage Is Optimistic

In an optimistic review of the mining industry, given before the Vancouver Gyro Club, Dr. Victor Dolmage declared that increased production will continue and it will not be many years before our mineral crop will exceed in value our wheat crop.

During the year just passed 3,116 fur seals were killed by Indians in British Columbia, an increase of slightly more than 1,000 over the number taken in 1928. Under the Pelagic Sealing Treaty none but Indians are permitted to kill seals, it is pointed out in the "Fisheries News Bulletin."

Bungalow Camping in Rockies

Spring is here, according to the calendar, though you may not otherwise have noticed it, and with the spring the thought of vacation begins to gather strength. In another month or six weeks the bungalow camps of the Rockies, famous the world over for their beauty, will have opened again for the season. Outstanding among them are the Lake O'Hara bungalow camp (lower left), just behind Lake Louise; Yoho camp (lower right), under the roar of the Tokakaw Falls; and Emerald Lake chalet (upper), by many considered to be the gem

of the Rockies, although artists and others will often contend that Lake O'Hara is a close rival. Stays at reasonable cost may be made in any or all three of these camps, since they are not very far from one another and are easily accessible. As a by no means minor part of the lure of these camps there is the attraction of trail riding on trained, sure-footed mountain cayuses over mountain passes through some of the most magnificent scenery in the world. Centre inset are the famous Twin Falls near the Yoho Camp.

Candies, Stationery, Proprietary Medicines, Toilet Articles, Etc.

Predicts Railway From Hudson to Stewart

Winnipeg, April 17—In addressing the Winnipeg Board of Trade today regarding the Hudson Bay railway, Minister of Railways Crerar emphasized the importance of that route in connection with Oriental trade. He predicted that some day there would be a line west from Churchill through the Rocky mountains to the head of the Portland Canal. This, he said, would give a direct line from Liverpool to the Far East. It would be the shortest possible route.

British Emigration to Canada Is Increasing

London, April 17—In a debate on emigration today, the House of Commons was informed that emigration to Canada had increased more than twenty-five per cent. during the past four years. Emigration, however, to British Dominions generally in that time, had shown a falling off.

Lloyd George Approves The Labor Budget

London, April 17—Lloyd George, liberal leader in the House of Commons, has given his approval to the labor budget. While he had one or two disappointments, on the whole he thought it a honest straightforward budget.

Big Coal Properties Change Hands

Victoria, April 17—The Canadian Coal and Coke Company have purchased the coal mines of the Consumers Coal Company, situated south of Nanaimo. They also re-recently bought and re-opened the Morden mine. Extensive diamond drilling will start immediately.

Anyox Choral Society Will Hold Concert

On Friday, May 9th the Anyox Choral Society are putting on their final Concert for the season. They have the best programme so far attempted and are making special efforts to eclipse all previous performances.

The programme is varied not only in regard to the voices employed, but also in musical effect.

There will also be a little of the lighter side to round off the evening and send all home pleased with themselves.
