Esperanza Mining Co. To Expand Their Operations

At a recent meeting of the directors of the Esperanza Mining Co. it was decided to purchase a compressor plant and power drills, and to install the same as quickly as possible.

This decision was reached owing to the favorable indications in No. 2 tunnel, and the amount of milling ore in the mine that can be profitably worked. The installation of a compressor plant will expediate work in the No. 2 tunnel, so that the main ore body, for which the tunnel is being driven, can very shortly be reached.

Following the installation of the compressor plant, the next thing undertaken will be the erection of a concentrating mill so that the second grade ore bodies can be mined. Geo. A. Clothier, former resident mining engineer, after sampling the mine and dumps recommended the installation of a mill on the property. The mine dumps have been sampled several times and are expected to yield a nice profit. Nine tunnels have been driven on the property, numbered from No. 1 to No. 9. The shortest is 50 feet in length and the longest 460 feet. Ore is showing in every tunnel except Nos. 6 and 9, which is probably a record. No. 5 tunnel is the lowest and is being driven to strike the ores in the upper tunnels at greater depth. This will be done as soon as the compressor is on the ground.

At the present time work is being proceeded with in No. 2 tunnel. It has been driven 62 feet and a shoot of ore 2 feet wide is being developed, and indications point to an increase in values.

The Esperanza ores carry silver, gold, lead, copper and tungsten. The former predominates in values. Ore shipped to the smelter has given values as high as $425.00 per ton.

A feature of the mine is the presence of quantities of tungsten ore In No. 1 tunnel a shoot of this ore 40 feet long and 3½ feet wide has been developed. It occurs in the scheelite form and has repeatedly carried off first prize at the Vancouver exhibition against all British Columbia.

Dr. George Hanson, Dominion Government geologist, examined the Esperanza in 1927, while in the Alice Arm district. His report which was recently published is lengthy and space does not allow its publication in full, following, however, is an extract:

"The main ore body is a quartz vein which for the most part lies in a fault fracture. The fault fracture is curved and strikes from southwest to west and finally northwest, in which direction it coincides in strike and dip with the country rock and tends to lose its identity. The fault fractures dip southeast and south and the strata dip southwest. The vein that occupies the fault fracture and its apparent extension along the sedimentary beds is, then, in the form of a southerly plunging anticline. The vein is in some places as much as 6 feet thick but in most of the stopes is 1 to 3 feet thick. It has its greatest proved length in No. 4 tunnel, where it is 320 feet long. Its dip length is known to be greater than 500 feet. The vein anticline is complicated somewhat by normal faults of small throw. Some of them follow the bedding planes of the argillite and in these cases the western side of the faults has been downthrown 2 to 12 feet."

"Several quartz veins 1 to 6 feet wide join the main ore-bearing vein. One of these branch veins has been exposed in tunnel No. 4A. It lies parallel to the enclosing rocks. Four other quartz veins are exposed in tunnels Nos. 6, 7 and 8, several hundred feet south of the most southerly exposure of the main vein. The two veins in tunnels Nos. 7 and 8 are exposed for a distance of 50 feet in each case. They are 1 to 3 feet wide and are ore-bearing. No connection has been established between these two veins, but they may be parts of a single vein. Two bed veins 1 to 2 feet wide are also exposed in No. 2 tunnel."

In addition to the Esperanza, which comprises 3 claims, the company also controls 16 adjoining claims, included in which is the Alice Group and R. Ingraham's claims. The whole 16 claims are in the mineralized zone and when developed should produce a big tonnage of both high grade and milling ore.

The Esperanza Co. possess many advantages not enjoyed by many companies. There is sufficient water available for all power purposes in the adjacent Falls Creek. The close proximity of the property to the Government and Dolly Varden wharfs is also another asset of considerable importance.

Anyox Canadian Legion Elect Officers

The annual general meeting for the election of officers of the Anyox Command Canadian Legion took place on November 29th. in the basement of the United Church. The following were elected for the ensuing term: President, C. O. Fricker; Secretary, J. A. D. Stewart; First Vice-President. E. Ashton: Second Vice-President, Fred Pearson; Treasurer, H. B. Porteus. Executive Committee, Dr. D. R. Learoyd, Fred C. Graham, Frank Hill. and Jas. Varnes. Relief Committee, Dr. J. W. Lang, T. J. Kirkwood, Jas. Varnes, and Ed. Johnson. Auditors, T. P. O'Brien and W. Selwood.

Votes of thanks were accorded the retiring officers for their work during the past year and congratulations were in order over the healthy condition of the Command's finances and the steady increase in membership.

Voting On Reservation Of Books At Library

In accordance with a recent decision of the Community League Council voting is now going on at the Library to determine the wishes of the patrons in regard to reserving works of fiction. The members are being given this opportunity to settle the question definitely.

Schools Will Close On 18th.

To allow some of the local teaching staff to make the trip south on Wednesday's boat, the school board has given permission to close the schools on Wednesday, December 18th. Schools will reopen on Monday, January 6th.

Sixty Players Attend Odd Fellows Whist Drive

The local lodge I. O. O. F. were hosts to sixty whist players last Friday night. Many more came in for the dance which followed supper. Those playing for the dancing were Messrs. F. Dresser, Steve Peel, Fred Wray and Duncan Campbell. The prize-winners were; Ladies first, Mrs. Hardy; Consolation, Miss T. O'Neill. Gentlemen's first, Mr. J. Shields; Consolation, Mr. Geo. Adams.

Mr. D. T. Evans Addresses Radio Club

Members of the Anyox Radio Club held a meeting on Friday last. Many interesting problems were discussed. A feature of the evening was a very instructive and interesting address on matters of technical interest, given by Mr. D. T. Evans. The Club has decided to send out for a testing apparatus, and when a silent night is arranged will test local sets.

ANYOX NOTES

Mr. and Mrs. Kydd left on Wednesday on a three month's visit to their home in the Old Country.

Mr. and Mrs. H. G. Cook left Anyox on Wednesday for the south.

Mr. Patton, of the mine left on Wednesday for the south, and will spend holidays with Mrs. Patton and family.

Departures for the south on Monday, included J. Bell, S. Gaton, Mr. Donnelly, W. Laing.

Miss R. Kirby arrived from the south on Wednesday.

Mrs. W. Blackburn and daughter arrived home on Wednesday from a visit to the south.

Mrs. E. Brown and son arrived from the south on Wednesday's boat.

T. J. Shenton, mine inspector, arrived from Prince Rupert on Wednesday.

Mrs. Campbell and son were arrivals from the south on Wednesday.

S. Raymer and C. H. Brehant arrived in town on Wednesday.

The spirit of the festive season radiates from a box of El Doro cigars. It is the most acceptable gift for your male friend.

Father L. M. Chartiez, formerly Parish Priest at Prince George, arrived recently in Anyox and is now the new resident Priest at the Catholic Church.

The C. N. Steamship Prince Charles will not call at Anyox after this week. The Prince Rupert will maintain her regular run, arriving from the south each Wednesday evening and leaving at midnight.

Torbrit Mines Limited Will Operate Toric

A new company, known as the Torbrit Mines Ltd. has been formed to operate the Toric, Dolly Varden, Wolf and other properties acquired in the Upper Kitsault Country by the Britannia Mining & Smelting Co. The new company will be controlled and managed by the Britannia Co.

Card Party and Dance Held Alice Arm

A very successful card party and dance was held at T. W. Falconer's hall on Saturday evening. It was held under the auspices of the Alice Arm Athletic Club. Six tables of bridge were played. The winners of the evening, were; Ladies' first prize, Mrs. J. C. Studdy; consolation, Mrs. E. Moss. Gents first prize, E. R. Oatman; consolation, Ted Kergin.

Following supper. dancing was indulged in for a short time. Music was supplied by the Alice Arm orchestra.

New Dam Alice Arm Near Completion

The new dam above the town of Alice Arm has been completed from the big dam to the railroad. This dam will connect the water of Falls Creek with the Kitsault River. An opening in the big dam for this purpose is now being made.

The new dam will be strengthened before work is completed. The old dam will also be strengthened by big rocks at a point where the main stream of the Kitsault strikes it.

A. Davidson Will Develop Wildcat Property

A. Davidson spent a day or two in town during the week and is leaving again for the Wildcat property. He will spend the winter crosscutting the mineralized zone. This crosscut was driven 30 feet last winter and will be coutinued until the width of the big ore ledge is determined. The Wildcat contains large bodies of copper ore, some of which is of a high grade running from 3 to 8 per cent copper.

Killed By Falling Into Crusher At Bonanza Mine

On Thursday afternoon the remains of Mr. A. J. Hosking were laid at rest in the local cemetery, Rev. J. S. Brayfield officiating. The deceased was accidently killed at Bonanza on Monday, December 2nd. when he slipped into a rock crusher. He was affiliated with the I. O. O. F. and during the Great War served with the Yukon Machine Gunners.

Officers Elected For Athletic Club

About fifteen young men met on Monday evening to organize an athletic club, subsidiary to the Anyox Community League. Officers elected were: President, Wm. Ring; Vice-President. C. Karen; Secretary, D. Wilson. It was decided to attempt the formation within the club of groups for boxing, wrestling, floor work, apparatus drills, etc., and the members are scouting for leaders for the activities.

Considerable discussion of needed material was heard, a mat being unanimously voted a first necessity. The executive was charged with ascertaining the cost of such ropes, rings, wall-bars, as can be obtained locally.

Speaking for the League Council, Vice-President Dresser assured the club of sympathy aud suggested holding the first work-out next Sunday. All interested will, accordingly, be welcomed at the gymnasium at 7.30 p.m.

Anyox Badminton Club Hold Tournament

The badminton club held a very successful tournament last Saturday night, eighteen couples taking part. Play lasted from seven o'clock until after midnight, a buffet supper serving to strengthen the faltering. The players were divided into two groups, the winners of Group One being Mrs. McRae and Mr. T. Cloke. In Group Two Mrs. Smith and Mr. Goedbloed came out ahead. The club now has fifty-two members with the prospect of more entrants after Christmas.

Prospects Brighter For Basketball Games

New life was injected into the basketball league at a meeting on Wednesday. The prospects are now brighter for a worth while senior league, a good intermediate division and a competition between two ladies teams. A readjustment has been made in the executive. R. Deeth remains as president; John Lazorek is vice-president and Geo. Winklemann is secretary. The outlook for one game a week is fairly certain. Arrangements to hold a game every three weeks at the mine seem to be satisfactorily arranged. Hopes of an inter-city contest with Prince Rupert are being entertained.

Billiard League Games

Another match in the local Billiard League was played on Wednesday night, bringing together the Concentrator and the Machine Shop.

Scores were:

Concentrator

1. Bates 91
2. Cavalier 150
3. Vine 150

Machine Shop

1. D. Wilson 150
2. A. Crearar 148
3. Chenoski 139

One game remains to be played.

On Saturday November 23rd. the Conservative Party of British Columbia held their convention at Kamloops. Three years ago S. F. Tolmie was named leader of the party at a convention also held at Kamloops. Since that time he and his leadership brought victory and changed the political complexion of the government at Victoria. Fifteen months ago Premier Tolmie named his cabinet and took over the reins of office. On Saturday, November 23d. Premier Tolmie and his ministers assembled at Kamloops in the same hall, to give an accounting of their stewardship to the delegates of their party, and through them to the 500,000 citizens of the province.

Following is a section of the business that came before the convention:

Following the reading of expressions of regret from the Hon. R. B. Bennett and others, President O'Brian reported a total of 313 associations within the party in the province. The success of the party, he said, was most complete from the point of community service. Tribute was paid to the close co-operation of the association and he thanked all officers and members for the loyal support given the leader and his ministers.

The Constitution Committee brought in an interim report forming a Peace River-Fort George Association, so as to seat Delegate Stevenson who had spent five days on the road coming to the convention.

Growing out of the business of the last annual convention the various ministers reported the work undertaken by their departments.

Minister of Mines McKenzie reported that there had not been a mining trail or road recommended by a mining engineer requiring work to be done on it that had not been attended to. All mining trails would be cleared in the spring and kept open as soon as practicable after the snow is gone. The Cariboo delegate reported more money spent on trails and roads in his district than had been spent in 12 years, giving entire satisfaction to the miners.

The attorney-general reported the inadvisability of amending the Compensation Board regulations permitting appeals from the decision of the Board. If the workers were allowed to appeal from the Board's decision, the same rights would have to be given employers. He had looked into the matter and reported that every labor organization interviewed opposed opening the Board's decision to appeals.

The attorney-general warned against setting up a county court at Stewart. "If we start at Stewart where are we going to end?" There are 47 county courts provided in the province against two in the province of Quebec. "We must use good judgment and at the same time consider finances."

The minister speaking in answer to a resolution urging that beer licenses be confined to hotels, said that carrying out of the motion would mean a complete reorganization of the present system, but that the government would consider it when the Griffith's report was under review. The report had not yet been made.

The minister of education, replying to a resolution regarding school taxation, reported after full investigation that he had reached the conclusion that the matter had been referred to the wrong department, and should have gone to the Department of Finance.

Minister Lougheed, speaking for the department of public works in connection with a resolution referred to his department, said it would be difficult to enumerate all the work that had been undertaken.

The general policy of his department had been, first, to make and maintain better general traffic and industrial roads before building new roads, working from the villages each way with the object of eventually making complete linked-up highways throughout the province.

A resolution from Prince Rupert asked for the completion of an auto road. Referred to the Department of works.

A resolution favoring a school tax on every male and female over 21 years of age, not paying any other provincial tax, was referred to the minister of education, and the convention went on record in favor of the policy adopted by the minister.

Thos. H. Kirk, M. L. A. of Vancouver, was unanimously elected president succeeding Clarence O'Brian, K. C., who declined renomination.

The other officers elected were: first vice-president, Lindley Crease, K. C., of Victoria; second vice-president, Colonel W. W. Foster, Vancouver; third vice-president, Mrs. B. Wagget, Kamloops; fourth vice-president, John Bennett, Nanaimo; fifth vice-president, F. Hassard, Enderby; sixth vice-president, J. J. Kirkpatrick, Penticton; Treasurer, Charles Welsh, New Westminster; Honorary secretary, Donald Anderson, Vancouver.

C. N. R. Will Spend Twenty Million Dollars

Confidence in the soundness of business conditions in Canada was expressed in the policy adopted by the Canadian National Railways of going forward for the next year with the purchase of equipment for the Canadian lines to the extent of $20,000,000, only slightly under the purchases and construction carried out in 1929.

Next year's program, in addition, will include the continuation on a substantial scale of branch line construction in Western Canada. Announcement of this was made recently.

Protection of Bears Removed In Alaska

Action to solve the brown and black bear protection question has been initiated by the Alaska Game Commission, it was announced by Dr. W. H. Chase, President of the organization.

Briefly, the Commission has recommended to remove protection from the big brown and grizzly species, except in certain definite areas, and from the black bears all over the territory. Limited protection for the big brown and grizzly bears is given in areas where industrial and commercial development is either nonexistent or backward.

Construction Contracts Make Record

The value of constuction contracts awarded in Canada in September was higher than for any previous September on record and the total for the first three-quarters of the year reaches the impressive figure of $441,643,900, or $62,000,000 higher than for the same months of 1928, when $379,503,300 worth of contacts were recorded.

Dunwell Mill May Be Used For Custom Ore

Diamond drilling on the Dunwell, started some time ago, had to be discontinued because of snow conditions. Results were not as satisfactory as expected. Drilling will be resumed in the spring, as elcctrical survey showed good conductors. Effort will be made to operate mill, using custom ore from small properties in the Bear river section of Portland Canal district.

Matters That Require Legislation

During the next session of the Legislature two matters of interest to the mining industry might well be given attention. First of these, unless health insurance is brought into general effect, is the provision for vocational diseases to come under the Workman's Compensation Act. The second is the placing of a bounty on bear, which are becoming more numerous and destructive every year and obtaining more human victims than ever.

Vancouver Board of Trade Increases Membership

The admission of 118 members into the Vancouver Board of Trade the other day increased the membership to 1600 and made this organization the third in point of numbers among the boards of trade in the Dominion. Toronto holds first place and Montreal second.

C. N. R. Will Spend Twenty Million Dollars

Confidence in the soundness of business conditions in Canada was expressed in the policy adopted by the Canadian National Railways of going forward for the next year with the purchase of equipment for the Canadian lines to the extent of $20,000,000, only slightly under the purchases and construction carried out in 1929.

Next year's program, in addition, will include the continuation on a substantial scale of branch line construction in Western Canada. Announcement of this was made recently.

Protection of Bears Removed In Alaska

Action to solve the brown and black bear protection question has been initiated by the Alaska Game Commission, it was announced by Dr. W. H. Chase, President of the organization.

Briefly, the Commission has recommended to remove protection from the big brown and grizzly species, except in certain definite areas, and from the black bears all over the territory. Limited protection for the big brown and grizzly bears is given in areas where industrial and commercial development is either nonexistent or backward.

Construction Contracts Make Record

The value of constuction contracts awarded in Canada in September was higher than for any previous September on record and the total for the first three-quarters of the year reaches the impressive figure of $441,643,900, or $62,000,000 higher than for the same months of 1928, when $379,503,300 worth of contacts were recorded.

Dunwell Mill May Be Used For Custom Ore

Diamond drilling on the Dunwell, started some time ago, had to be discontinued because of snow conditions. Results were not as satisfactory as expected. Drilling will be resumed in the spring, as elcctrical survey showed good conductors. Effort will be made to operate mill, using custom ore from small properties in the Bear river section of Portland Canal district.

Matters That Require Legislation

During the next session of the Legislature two matters of interest to the mining industry might well be given attention. First of these, unless health insurance is brought into general effect, is the provision for vocational diseases to come under the Workman's Compensation Act. The second is the placing of a bounty on bear, which are becoming more numerous and destructive every year and obtaining more human victims than ever.

Vancouver Board of Trade Increases Membership

The admission of 118 members into the Vancouver Board of Trade the other day increased the membership to 1600 and made this organization the third in point of numbers among the boards of trade in the Dominion. Toronto holds first place and Montreal second.

"The Divine Lady," A Picture That Thrilled Millions

A Love Romance of The Great Lord Nelson

One of the greatest and most romantic loves of history is the theme of "The Divine Lady," First National's epic production starring Corinne Griffith which fills its local engagement at the Beach Theatre, Saturday, December 7th.

Lady Hamilton, the role played by Miss Griffith, rose from obscure birth—her father was a blacksmith—to become a world famous beauty, the wife of a great diplomat, and a real power to be reckoned with in international affairs.

Lord Nelson, at the same time, was becoming England's great naval hero, the saviour of his nation and the first man to defeat Napoleon in any sort of engagement.

The meeting of the two in Naples began an idealistic romance entirely sanctioned by the aged Lord Hamilton which the world did not understand.

"The Divine Lady," from the historical novel by E. Barrington, is the biggest production First National plans this year, and under the direction of Frank Lloyd, tells a pictorial story of those dramatic days that is epic in its sweep.

H. B. Warner, Victor Varconi, Ian Keith, Marie Dressler, Montagu Love, Dorothy Cummings and others of equal renown are in the cast.

"The Divine Lady" is truly a masterpiece in film art, and thousands have viewed it three or four times. A love romance of Britain's great admiral, Lord Nelson. See it tonight at the Beach Theatre.

Swallows can keep up a speed of 90 miles an hour.

LAND ACT

Notice of Intention to Apply to Purchase Land

the Alice Arm Division of the Recording district of Prince rt and situate about two miles e North-east Fork road from Arm, adjoining the North-east of the Kitsault River.

notice that I, Cornelius all Smith of Alice Arm, B. C., tion, miner, intend to apply for sion to purchase the following bed lands:—

mencing at a post planted at orth-west corner of Lot 57, Kit- Flats, thence 20 chains westerly; e 20 chains southerly; thence 20 s easterly; thence 20 chains herly and containing 40 acres e or less.

RNELIUS MARSHALL SMITH ted November 25th. 1929

ALICE ARM NOTES

Mrs. H. F. Kergin returned on Monday from a short visit to Prince Rupert.

E. R. Oatman, of the Public Works Department, Anyox spent the week-end in town on business.

G. W. Bruggy left on Wednesday for Vancouver where he will spend holidays with Mrs. Bruggy and family.

A. McPhail has secured the contract for the placing of concrete round the base of the new piles recently placed at the government wharf.

The new streets of Alice Arm are being cleared of logs, stumps and general rubbish by the Department of Public Works. The streets are gradually presenting a more attractive appearance. The majority of houses have been moved to conform with new conditions but several more must be moved before grading can be done or sidewalks laid.

WATER NOTICE

USE AND STORAGE

TAKE NOTICE that Britannia Mining and Smelting Co. Ltd., whose address is Alice Arm, British Columbia, will apply for a licence to take and use 50 cubic feet per second and to store 200 acre feet of water out of Trout Creek, which flows South West and drains into Kitsault River, about three miles North of Toric Mine.

The storage dam will be located at about 500 feet in elevation above the Kitsault River. The capacity of the reservoir to be created is about nine million cubic feet, and it will flood about eight acres of land. The water will be diverted from the stream at a point about one half a mile above the Kitsault River, and will be used for mining and power purposes upon the Toric Mine, described as Lot 935, Cassiar District.

This notice was posted on the ground on the 29th. day of October, 1929

A copy of this notice and an application pursuant thereto and to the "Water Act, 1914," will be filed in the office of the Water Recorder at Prince Rupert, B. C.

Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B. C., within thirty days after the first appearance of this notice in a local newspaper.

BRITANNIA MINING & SMELTING CO. LTD., Applicant.
By John Sleeman, Agent.

The date of the first publication of this notice is November 9th. 1929.

Rio Tinto mine in Spain was opened by the Romans and Carthagenians and is still being operated.
