James Smith Drowned In Bay At Anyox

About 6.30 p.m. on Monday, Sept. 12th. James Smith, aged 53, was drowned at Anyox near the buildings east of the slagpile. Deceased was on the gas boat Alida, while his partner, J. E. (Deafy) Forsman was busy unloading lumber from the gas boat to a row boat and taking it ashore. Smith was observed to leave the gas boat and plunge into the water, Forsman promptly started towards him in the row boat. When about a hundred and fifty feet from him, however, Smith went down, and was not seen again.

The police were promptly notified and dragging operations commenced at once, but owing to a strong wind and rough sea these were unsuccessful. They have been continued every day since.

Smith came to Anyox with Forsman about two weeks ago, and they went fishing together. He was formerly a tent and sail maker at Prince Rupert, conducting his own business.

He was an ex-service man, having served in the 35th. Battalion, Canadian Infantry, as Quarter-master Serjeant. Smith is well known in Prince Rupert, being the ex-president of the Prince Rupert branch of the Canadian Legion. For about three weeks prior to his death he was in a very despondent mood. He leaves a wife and two children who are believed to reside at Vancouver.

Zelipha Is Newest Addition To Local Fleet

A graceful sturdy and compact launch recently arrived at Alice Arm from Prince Rupert, where it was purchased by Harry Williamson. It is named the Zelipha, and is 30 feet in length, with a beam of 8 feet. Power is derived from a 7 h. p. Vivian gasoline engine, which gives a speed of 7½ miles per hour. The Zelipha is equipped with a fish and ice hold and will be used for fishing by the owner next summer.

It was built at the McLean boat building plant Prince Rupert, and has many conveniences.

J. Gillies Wins Hidden Creek Tennis Club Championship

In between the showers on Sunday the 11th. the two finalists in the Championship Tournament of the Hidden Creek Club; viz, J. Dixon and J. Gillies, played the deciding game. After an interesting struggle, in which some fine tennis was witnessed, Gillies won 3-6, 6-2, 6-4, 6-5.

Dr. Geo. Hanson Completes Geological Survey Work In District

Dr. G. Hanson, of the Department of Geological Survey, who has been making extended surveys in this district during the summer months, left on Wednesday for Ottawa.

Dr. Hanson's work this year consisted of a geological survey of the district surrounding Anyox and various parts of the Lower Portland Canal District.

This will probably complete his work in this section, which has taken several years and includes the entire Alice Arm, Stewart, Anyox and Naas Valley districts. The full report of Dr. Hanson's work together with maps will be published.

It is very likely, however, that it will not be ready before 1934.

Finals of Mixed Doubles Was Played On Sunday

In between showers and in anything but tennis temperature, the semi-finals for the Anyox Mixed Doubles Championship between Mrs. J. Smith and O.G. Macintyre, and Miss M. Dresser with Angus Cavers, was played on Sunday afternoon last, resulting in a win for the latter pair 6-4, 6-3. Mrs. Smith and her partner played a steady, consistent game, while the winners were at the top of their form. They took three love games and served only two double faults. Their game in the final against Miss D. Grigg and A. McDougall should be very interesting.

Ross Oatman Tennis Cham- pion For Fourth Year

Taking advantage of a temporary spell of dry weather on Monday the 5th. O. G. Macintyre and E. R. Oatman played the final for the Open Tennis Championship of Anyox. The game was won by Oatman in three straight sets. After the first set "Gerry" put up a strenuous opposition and some splendid tennis was witnessed. The scores were 6-1, 9-7, 8-6. This is the fourth consecutive year in which Oatman has won the Anyox Open Championship, and he received the congratulations of a number of friends on the achievement.

Alice Arm Notes

H. F. Kergin left on Wednesday for a visit to Stewart.

Miss Alice Kergin left on Monday for Prince Rupert where she will take a commercial course at the High School there.

Advertise in the Herald

Activities of Anyox Golf Clubs

In the Ladies' Open Championship tournament the semi-finals have now been reached, Mrs. Simpson and Miss M. Cloke having reached this stage. The final will probably be played within the next day or two. As with other out-door sports, the inclement weather has caused much delay to golf tournaments.

The Handicap Tournament for the President's Prize, played over 18 holes, is now in full swing. Following are the results of the games between the sixteen players who qualified.

H. Lindgren beat J. McConnachie. J. McColl won from R. C. Gegg, W. Henderson defeated A. W. Gigot, S. Peters was defeated by F. C. O. Edwards, R. O. Cutler accounted J. Moffatt, F. Person won from D. McKenzie and W. Moffatt defeated L. Wenerstrom, H. R. Taylor won from D. McLeod.

If Jupe Pluve is in a kindly mood on Sunday the 18th. a Flag Tournament will be played.

William Lazorek Missing For Nearly Three Months

Considerable anxiety concerning William Lazorek of Anyox is being felt by his parents and friends. What has happened to him is somewhat mysterious. He left Silver City almost three months ago for a hike across country, with the intention of eventually reaching Hazelton. Since he left Silver City with a very small stock of food and a .22 calibre rifle no one has seen him. He has not arrived at Aiyansh, Terrace or Hazelton, and it is now assumed that he is lost or injured in the woods somewhere between Alice Arm and the Naas River.

It is reported that his name is carved on a log on the second cabin on the government telegraph line. Search parties are being formed to locate him.

Launch Granby Returned To Anyox on Sunday

After a stay in Vancouver waters of several weeks, during which time they made various business and pleasure trips, the M. S. Granby once more graces the Anyox dockside. The Granby left Vancouver at 10.45 a.m. on Sunday the 11th. Captain Johnston reported running into very rough weather while crossing Millbank and Queen Charlotte Sounds, otherwise the trip was a pleasant one. Those returning were: Captain and Mrs. Johnston and family, S. Down, Harry Young and Wong Jah.

Elks' Card Party and Dance On October 7th.

Hard times are not allowed to interfere with the social plans of the Brother Bills, and they are planning that their Card Party and Dance on October 7th. will be a real-top-notch-er and one that everyone can enjoy. It will be the opening event of the social season. Whist as well as bridge will be indulged in, there will be one of those delightful suppers for which the fraternity is famous, and a splendid dance till 1 a.m.

T. Stretton Called To Winni- peg By Death of Father

Receiving a cable on Sunday that his father had passed away at Winnipeg, T. Stretton caught the Catala on Monday en route for that city. The funeral will be held over until his arrival. Tom, who is an only son, will probably be away about a month and intends bringing his mother back with him to Anyox.

ANYOX NOTES

Mrs. R. Lavery returned on Monday from a visit to Vancouver.

Misses Edith and Nina Postlewaite arrived on Monday from New Westminster. They will spend a holiday here as the guests of Mrs. J. Jeffrey.

Mrs. S. Davies returned on Monday from Merritt. Her daughter, Miss Dorothy Davies, is remaining at Merritt for the present.

Master A. Edwards returned on Monday from a vacation spent in Vancouver.

Mrs. A. McDonald returned on Monday from Vancouver, where she has been recuperating from a recent illness.

Mrs. J. Wynne returned on Monday from Vancouver.

Rev. J. S. and Mrs. Brayfield returned on Monday from Victoria Beach, Manitoba. Mrs. Brayfield is fully recovered from a recent illness.

C. Graham Mine Inspector, passed through Anyox on Monday en route for Stewart.

W. Watson and Alex McDonald returned on Monday from a holiday spent in Vancouver.

Mrs. D. McDougall arrived on Monday from Vancouver.

Mrs. H. A. Young and children returned on Monday from Vancouver.

J. Buntain returned on Monday from a holiday visit to Vancouver. Mr. and Mrs. A. Seaton returned Monday from a vacation spent at Vancouver and the south.

Miss P. Healy left on Monday for the south, where she will resume her studies.

Continued on Page 4

Elks' Ladies May Form Royal Purple Lodge

For over thirteen years the Order of the Royal Purple, well known for its distinctive-charitable and sociable work, has been existent in Canada. An auxiliary lodge to the B. P. O. E., the Royal Purple is growing rapidly. Some lodges are extending their benevolent work beyond the confines of their own territory, and the spirit existing between the members and the Elks is a particularly happy one. The thirteenth Annual Convention of the Order was held in Edmonton in July and was the most successful yet held by the Order. Delegates from various lodges throughout the Dominion were in attendance.

The Ladies of the Royal Purple have no special cult or creed. They work in a quiet, unobtrusive manner. Their watchwords, like those of their brothers the Elks, are simplicity itself. In the field of charity they exercise a feminine contact and sympathy the value of which is difficult to estimate. Its own special color—purple—is regal and distinctive and gives to this splendid Order a prominence and character all its own. The greatest friendship exists between the members of the various lodges, as well as between the lodges themselves. It follows therefore that social events sponsored by the Ladies of the Royal Purple are always successful.

The Anyox Lodge of the B. P. O. E. have recently concluded a campaign for the institution of a Lodge of the Royal Purple, and there is every possibility that in the near future a Charter will be applied for.

High Water In Kitsault River Cause Floods

The continuous deluge of rain during the past week, has resulted in transforming the Kitsault River into a raging torrent. Yesterday the water was almost level with the wing dam that protects the town of Alice Arm. All the gardens in the vicinity of the dam are under water, the worst sufferer being W. B. Bower, who had about 18 inches of water on his garden.

The culverts on Victoria and McBride streets were far too small to take care of the excess water and ditches were cut across the streets to allow the water free passage. No danger to the town is felt as the wing dam last night was standing solid and the long retaining wall is keeping the water from overflowing along the west bank.

Magnetic Ore Locators Prove Great Success

Valuable minerals that are themselves magnetic can be located by the tiny magnetic forces which sometimes characterize the rock formations in which the ore deposits are found. Heretofore magnetic prospecting for minerals has been confined for the most part to the use of comparatively insensitive instruments such as the miner's dip needle in the investigation of iron ore deposits. In recent years the development of more precise instruments has opened up an almost new field of prospecting.

Investigations with these instruments by the dominion observatory, department of the interior, have shown that it is possible in certain cases to determine accurately the positions of fractures and other peculiarities lying concealed in the rock formations at considerable depths below the surface. In co-operation with the geological survey investigations are at present in progress at Thetford, Quebec, for the purpose of investigating the use of the instruments in locating new deposits of asbestos.

Big Increase In Canada's Gold Production

British Columbia mines produced 18,686 ounces of gold in June, as against 17,234 in the preceding month, according to the bureau of statistics.

Manitoba's output amounted to 8,053 ounces, or 7.9 per cent, below the May total. The Yukon recorded the usual seasonal advance in June to 4,704 ounces.

Gold production through the whole of Canada continues to increase.

In June the Canadian output of 270,526 ounces, with a value of \$5,591,778, established a new high monthly record.

Trappers Create Enormous Canadian Wealth

Although the buffalo, from a commercial standpoint, is gone forever and the beaver and the marten are slowly following, the fur trade of Canada is in no immediate danger of extinction, according to the Natural Resources Department of the Canadian National Railways. With its extensive trapping industry and fur farming increasing on a large scale, Canada may be regarded as the last great fur preserve of the world.

Between them the United States and Great Britain take practically the entire production of fur in Canada. In 1931 raw furs exported from Canada had a value of \$13,544,088. Of this amount the British market absorbed \$7,456,594 worth and the United States took the balance.

"TRANSATLANTIC" SATURDAY, SEPT. 17th.

With Edmund Lowe, Lois Moran, John Halliday, Jean Hersholt, Greta Nissen, Myrna Lov.

Never was more value for your money than in this wonderful Fox Picture. Exciting mystery of three million dollars' theft in mid-ocean! A floating palace of spendthrifts and sirens, swindlers and scapegoats. Love above decks, intrigues between, and violence below. The madness of moonlight and the glamour of gambling for fortunes, hearts and lives. Swift and swanky drama throbbing with intensity. From the time of Anchors aweigh in America to the moment of arrival in Europe this picture will hold you spellbound. An all-star production don't miss it Saturday.

"GIRL OF THE RIO" TUESDAY, SEPT. 20th.

This comedy-drama is from the David Belasco stage play "The Dove", with Delores Del Rio and Leo Carillo sharing first honors, and sharing it equally. Don Jose Maria Lopez Y Postado, self-styled "best caballero in all Mexico" comes to the inn where Dolores is an entertainer. The Don's swaggering boastfulness fails to impress "The Dove"; whereupon he insists that she accompany him to his hacienda, his idea being that "a good girl is no good unless she's bad." There is a plot to take off Johnny Powell, but Johnny who operates the dice table, is first to the draw. Wine, plots, captures, rescues, firing squads, and a pardon make up the rest of this absorbing picture. See it Tuesday.

Canada's Favorable Trade Balance Continues

Canada is maintaining her favorable foreign trade balance, according to figures covering the twelve months ended July 1st. last.

With a total trade for the period of \$1,043,255,092, Canada exported \$36,097,814 worth of goods more than she imported from other countries.

Total trade for the same period a year ago was \$1,511,199,490, and at that time Canada had an unfavorable balance of \$65,000,000.

Total imports from the United Kingdom during the year ended with July last were \$96,592,409 as compared with \$136,604,882 the previous year. Exports to the United Kingdom for the same periods were respectively \$167,150,287 and \$204,449,909.

Pioneer Gold Mines of B. C. Ltd. have declared a quarterly dividend of 3 cents per share payable October 1st. to shareholders of record Sept. 12th. This is the regular quarterly payment at the annual rate of 12%.

British Coal Shipments To Canada Heavy

Imports of British anthracite during the six months ending June have broken all records, the amount to date being 389,931 tons. In the same period last year the import of that commodity was 318,760 tons.

In the last six months the import of United States anthracite was 867,785 tons as compared with 1,150,984 tons in the same six months of 1931.

Values in relation to retail costs are interesting. The average value of the British anthracite imported this year, according to the records of the Dominion Bureau of Statistics is \$5.25 per ton, while the average value of the United States anthracite imported this year was \$7.92 per ton. The Dominion Fuel Board estimates that eight tons of Welsh anthracite in heat production.

Canada Supplies World With Canned Lobster

More than 90 per cent of the world's supply of canned lobster is produced in Canada and the largest proportion of this percentage comes from Nova Scotia, according to the Natural Resources Department of the Canadian National Railways.

Of the fish caught in Canadian waters, more than 80 per cent is exported each year, the largest consumer being the United States. The per capita consumption of fish in Canada is estimated at 20.7 pounds annually and the per capita production is 120 pounds.

Canadian Eskimos Prosperous and Progressive

There are approximately 7,000 Eskimos in Arctic and sub-Arctic Canada, including the Hudson Bay area. They are progressive and some even have radio receiving sets and sewing machines in their igloos. Many Eskimos own their own schooners with auxiliary gasoline engines, and at Aklavik, near the mouth of the Mackenzie River, as many as twenty-five of these schooners will be anchored at one time in the summer.

"GREAT" said her husband — "How Your Cooking Has Improved"

HE won't work late at the office—not he. He does not remind his bride of mother's cooking any more. What has made the amazing change?

She read about a little book called "The Good Provider" and a marvelous way of making delicious things with St. Charles Evaporated Milk. Now her cakes are a joy to see—and taste. Her soups and creamed dishes would change any man's mind. And here's what she writes about Borden's

—and so that you may enjoy proving it too, just write for your copy of "The Good Provider." It has 80 pages illustrated in full color and will prove a treasure-house of cooking wisdom.

It's better and you can prove it

Winter No Bar to Golf in Canada

Photograph taken February 23, 1928, of the course on which the contest is played, with gallery watching players. Lower left—Teeing off—player wearing light clothes shows mildness of climate in February at Victoria. Lower right—E. W. Beatty Challenge Cup with miniature reproductions of the cup for the winners in men and women competitions.

The process of snatching the laurels from the brows of California is going right on in Canada. "Our Lady of the Snows" is belying her name in the mild climate of Vancouver Island, British Columbia. Announcement has been made recently that the second annual Empress Hotel mid-winter golf tournament at the Colwood course, Victoria, will be held from February 17 to 23 inclusive, a time when the country north of the 49th parallel is popularly supposed to be feet deep in snow. Photographs included in above lay-out will show this popular belief to be a fallacy as far as the Victoria course is concerned.

The mid-winter tournament was placed in the Canadian sport calendar last February under the auspices of the Canadian Pacific Railway and proved a great success. The Victoria fixture is a purely amateur affair, handicap, of course, open to men and women, competing in their own sections. The main trophy is the E. W. Beatty challenge cup, at present held by T. L. Swan and Mrs. Hew Paterson, of Victoria, although a large list of other prizes is being posted. The competition is open to all Victoria clubs and also to any visitors in that city, and in view of the size of the entry list all links in the vicinity of the city will be pressed into service.

We will gladly write your advertisement for you, if necessary, and display it to the best possible advantage

B. C. Is Third Manufacturing Province

British Columbia holds third position in manufactures among the provinces of Canada. Ontario is the leader in value of industrial output while Quebec comes quite close in second position. Among British Columbia manufactures the largest production of a single industry is that of sawmills, with fish second and pulp and paper third. Sawmills and pulp and paper together give wood and paper products the leading position among the various

industrial groups of the Pacific province. This group accounts for 35 per cent of the total value of manufactures in the province.

W. S. Gilbert of opera fame was always accompanied by his wife when he attended rehearsals of his comic operas. One day when he was conducting a preliminary performance of "The Mikado" he suddenly missed the good lady. "Have you seen my wife?" he asked abruptly of the chorus. "She's round behind," said one of the three little maids from school. "Yes" replied the librettist, "I know that; but where is she?"

Good Profit In Ore At 76c. Per Ton

Alaska Juneau Mining Company made an operating profit in July of \$102,500, although gold recovery dropped to 76 cents a ton. P. R. Bradley, consulting engineer for the F. W. Bradley enterprises, is quoted in the Juneau Empire as saying that mining and milling of ore from the 1,000-foot level below the Alaska Juneau's present main haulage level will start as soon as the two shafts to the deep level ore body have been connected.
