5 cents each.

Devlin Zinc Property to Be Developed by U. S. Capital

The Devlin Zinc property, at Alice Arm, which is situated on the North-east Fork of the Kit-sault river and only six miles from town, and which has been receiving development work for the past three weeks, is to be further developed, says Mr. J. J. Murphy, who recently made an extensive examination of the property, returning to Alice Arm on Friday.

Mr. Murphy arrived from San Francisco, via Vancouver on Monday, and left the same day for the property. He was very enthusiastic over the future prospects of the property, and after an extensive examination, had no hesitation in recommending that a 100-foot development tunnel be driven. The contract for this tunnel has been let to Messrs. Flynn, McDonald and Jacob, and agreements were signed on Saturday.

The ore is a resin zinc, and there are three ore ledges on the property, the largest of which is 12 feet wide, and which has a dip of about 45 degrees. Paralleling it is another ledge 8 feet wide, which stands almost vertical, and is only 9 feet distant. Another ledge 2 1/2 feet wide is only 5 feet distant, and it is presumed that these three ledges blend together a short distance from the surface. All the veins have a north-east and south-westerly strike.

Samples of ore taken from the 12ft. ledge have given returns of 43.20 per cent. zinc, which at seven cents per pound gives a value of \$60.61 per ton. Samples taken from the 8ft. ledge gave returns of 51.50 per cent zinc, valued at \$72.30 per ton. Two splendid samples of this ore were brought to Alice Arm, one of which was sent to the Prince Rupert exhibition, and the other is destined for the B. C. Chamber of Mines.

The tunnel now being driven will follow the 12ft. ledge and as soon as sufficient snow is available, a shipment of ore will be made to the smelter. On the completion of the tunnel, a further programme of development work will be outlined.

The Devlin Zinc property was recently purchased from J. Wells and W. J. Wells, and an adjoining claim from J. Devlin. The former was the original locator and first staked the ground many years ago. It has been purchased by J. W. Doherty of San Francisco, who made a cash payment, and thus owns the property outright, Mr. Devlin, who was instrumental in putting through the deal will be in charge of operations at the mine. A cabin 14 ft. by 16 ft. has recently been built and surface stripping of the ore bodies has been carried on during the past month, under the supervision of Mr. Devlin, who confidently expects a producing mine to be brought in at an early date.

Several interested in mining have recently visited the property, among whom were J. O. Trethewey who was greatly enthused with the fine ore showings.

Mr. Murphy left today for Vancouver, but will return at an early date in order to examine other properties in the neighborhood on behalf of J. W. Doherty, of San Francisco.

J. B. Wickham, who has been on the staff at the Toric mine for some time, left on Friday for Vancouver.

Elks' Baseball Team are Anyox Champions

The Elks, last season's baseball champions, again succeeded in lifting the silverware, when they defeated the Mine on Monday evening last in the fourth game of the play-off series. The score was six to one. Cecil Ferguson served them up for the winners and let the opposition down with four hits. Lane was on the mound for the losers and was touched for nine bingles.

The Miner's lone tally came in the fifth frame, when Stewart hit safely and scored on Lane's screaming double to right field.

The features of the game were five running catches by Moore and Ingram and a snappy double play Brown to McIntyre to Thorley.

SUMMARY:	Runs	Hits	Errors
Mine	1	4	3
Elks	6	9	3

Umpires: Olson and McIntyre.

Coke Plant Retain Anyox Horseshoe Championship

Last Sunday evening the Club House and Coke Plant met for the second time in a horseshoe pitching contest, this time at the Club House home grounds. The result was the Tar Babies were introduced to a coat of white wash when they dropped all six games.

Harman and McIntosh, 15; Salter and Lamont, 21.

Wilson and Gosetto, 15; Eaton and Davis, 21.

Jones and Eaken, 7; Armstrong and Cameron, 21.

Harman and McIntosh, 16; Salter and Lamont, 21.

Wilson and Gosetto, 15; Eaton and Davis, 21.

Asimus and Jones, 7; Armstrong and Cameron, 21.

As each team had each one win to their credit it was decided to play another tournament on Friday evening, so the boys all gathered at the Coke Plant to decide the championship of Anyox and vicinity. A prize was also offered for the leading scorer, the same being carried off by "Wasp" Davis with the large sum of fifteen. Incidentally the Coke Plant are the horseshoe kings by virtue of taking four of the six matches.

Gosetto and McIntosh, 21; Lamont and Davis, 2.

Safferin and Wilson, 21; Forsythe and Eaton, 17.

Sheen and Wilson, 21; Armstrong and Lamont, 7.

Gosetto and McIntosh, 21; Davis and Lamont, 11.

Wilson and Safferin, 18; Forsythe and Eaton, 21.

Sheen and Kerr, 14; Armstrong and Davis, 21.

Anyox Shipping Notes

S. S. Amur left Anyox on Monday, August 31st. southbound, loaded with 2,200 tons of Premier ore, taking in tow barge Riverside loaded with 3357 tons of concentrates for Tacoma.

S. S. Marmion arrived from Prince Rupert with 250 tons of Lascar coal, and towing scow Independent with 569 tons of Lascar coal, also scow Griffmet with 400 of same for the Coke Plant.

S. S. Anyox, who was in a collision with the tug Radius, of Vancouver, proceeded on her usual run undamaged. She left Blubber Bay on August 29th. with 500 sacks of cement for Prince Rupert, 500 tons of lime rock for Anyox, also powder, household coal and general freight.

Mr. McGusty of Williams Lake, arrived in Anyox on Monday.

Mr. McGusty has been appointed Government Agent here, relieving J. Conway, who will be leaving Anyox today for Cumberland, B. C. to take up the duties of Government Agent there.

Summit Property Has Numerous Big Ore Bodies

Close prospecting and development work carried on by A. Davidson on the Summit property this summer have been instrumental in discovering some more big ore showings on that property.

Mr. Davidson, the owner, who was in Alice Arm for a few days during the week, stated that an ore body 66 feet wide had been discovered this summer, and an open cut had been made clear across the ore ledge. The location of this ore body is in an almost flat country, with the ledge having a south-west and north-easterly strike, one end of which has been found on the east slope of the mountain. Present work shows that the ledge stands almost vertical.

Two more ore bodies are in close proximity to the above mentioned, one of which has been traced on the surface for a distance of 270 feet, and the other for 300 feet, but which is known to be much larger.

Still another ore body was located this summer, which intersects the big ledge, and has a north-west and south-easterly strike. In addition to this, another ore ledge is located on the summit of the mountain, and which has a strike of 35 degrees north of east. The ore is silver-lead.

Mr. Davidson is confident that the Summit property will ultimately develop into a big tonnage producer of silver-lead ore, and further development work will be carried on as soon as possible.

Mr. Davidson left town on Thursday for the Wildcat property in order to extend the development tunnel on that property.

Mrs. R. F. McGinnis Makes Overland Trip from Alice Arm to Terrace

Mrs. R. F. McGinnis arrived home at Alice Arm on Monday from an overland trip to Terrace, which was made in company with her husband, who is staying at Rosswood, at the head of Kalum Lake for a few days longer. Mrs. McGinnis is the first woman to make this overland trip, and she thoroughly enjoyed the novel experience.

Four days were taken to cover the distance from Alice Arm to Aiyansh, and two days were occupied from there to Rosswood. A stop was made at the ranch of Charlie Gordon in the Naas Valley, and Mrs. McGinnis reports that he has a prosperous ranch.

Mrs. McGinnis was much enamoured with the country and climate in the vicinity of Rosswood and Terrace, vegetables and fruit including big apples growing in profusion.

There is considerable mining activity at the head of Kalum Lake, and high values are obtained from the majority of ores. Mr. McGinnis will prospect the country at the head of Kalum Lake and return home via Terrace and Prince Rupert.

J. Morris, of Vancouver, is loading 600 tons of scrap iron purchased from the Granby Company, which will be taken to Vancouver, and then shipped to Japan.

Mr. Hutchinson was an arrival on Friday's boat.

ANYOX NOTES

Don't experiment. Smoke El Dora cigars.

Miss Sager, who has been spending the summer holidays here with her parents, returned to Prince Rupert on Monday.

Master P. Whelan and dog Prince, was a passenger south to Seattle, where he will join his Mother and Father.

Mr. R. L. Lamborne was a southbound passenger on Monday, and intends visiting Seattle, Tacoma and Vancouver.

Born on August 6th., at Victoria, B. C., to Mr. and Mrs. W. Rowlandson of Anyox, a girl.

Mr. Fricker returned from holidays spent in Vancouver, B. C., on Monday's boat.

Mr. Blaylock, general manager of Trail Smelter, was a passenger on the S.S. Cardena enroute for Stewart, B. C.

J. Stewart left on Tuesday for Alice Arm, where he will spend a week's vacation.

Mr. Farrell of Vancouver, inspector of hulls and machinery, was on his annual tour of inspection of small crafts, and left for Stewart, B. C.

Mrs. N. McLeod and daughter left on Monday for Stewart, B. C., where they will spend a short vacation.

Mr. and Mrs. R. H. Manzer and family returned on Monday from Toronto, where Mr. Manzer has been studying during the school holidays.

Mr. and Mrs. Blundell, who were recently married in Vancouver, returned to town on the Prince Charles.

A. B. Morkill, manager of the Canadian Bank of Commerce, returned from a visit to his brother at Stewart, on Wednesday.

Mr. and Mrs. F. E. Patton and family, and Mr. and Mrs. H. Talbot and family arrived home on Tuesday, from a month's vacation spent at Alice Arm.

Mr. and Mrs. Hanson and son, left on Wednesday for Prince Rupert, where they will attend the exhibition.

Capt. McCartney and wife were southbound passengers on Wednesday for Tacoma, Washington, where Capt. McCartney has been appointed to take command of the barge, Lord Templeton.

Mr. Campbell, who has been spending his vacation at Edmonton, returned on Monday.

Mr. Boyle, timber cruiser, is looking over the timber limits of the Granby Co. at Larcom Island and the head of Hastings Arm.

Mr. James Mitchell and bride arrived from Prince Rupert on Friday. The honeymoon was spent in southern coast cities.

Mr. and Mrs. Wm. Robertson and daughter returned from the south from holidays on Monday.

Mrs. E. J. Conway returned from a visit to the south on Friday

Harry Chapman, of the Hardware Department, left on Monday for Vancouver and Seattle, where he will spend a vacation.

Continued on page 4

Presentation Made to G. T. Brown at Anyox Church Social

A well attended gathering was held in the United Church on Wednesday evening, September 2nd., to say farewell to Mr. George T. Brown, who left on Friday evening's boat to join his family in Vancouver.

The meeting was held under the guise of a "cleaning bee" and social. The ladies polished the furniture and lights while the men buzzed in the basement cutting wood and cleaning up.

At nine o'clock tables were set and all sat down to a sumptuous supper of sandwiches, scones, cake and tea.

After all had partaken to their satisfaction, the minister, Mr. Clarke, made a short address welcoming the newcomers in the persons of Mrs. Dresser and Miss Dresser, Mr. Grimason and Mr. Hill. He expressed the regret of the congregation in losing Mr. Brown from the Church and community. Mr. Brown has been a faithful and cheerful worker in the Church. He efficiently filled the position of secretary-treasurer of the Board of Managers. It is with a great deal of regret that the congregation and managers part with Mr. Brown, yet he takes with him their best wishes for the future. On behalf of the congregation, Mr. Clarke presented him with a Waterman gold pencil and pen, as a small token of appreciation for his services rendered during his stay of two and a half years in Anyox.

Mr. Barclay in a short address spoke well of Mr. Brown's work in the Church and the community.

Mr. Brown, in well chosen words thanked the congregation for their kindness, and spoke of the progress which is being made in the Church work and wished them the best of success in the future.

Thanks are due to the ladies for providing those splendid eats, and to the young men for washing the dishes.

Smelters' Outing Somewhat Curtailed

The boys at the smelter, working on the shifts of Messrs. Gorman and Brewster, were highly elated on Sunday, when they boarded the good ship Azurite, anticipating a pleasant day to be spent at Alice Arm. The boat pulled out promptly at 9 a.m., with the Anyox brass band playing in the stern, but unfortunately there happened to be a little engine trouble, just as the boat rounded Granby Point, which made it impetative for the Azurite to return, but the boys were landed over at the sawmill and according to reports an enjoyable day was spent.

O. Besner of Prince Rupert Inspects Mining Properties

Mr. and Mrs. O. Besner and two daughters spent a few days in Alice Arm last week. They made the trip from Prince Rupert in their own launch. Mr. Besner made an examination of the Climax, Silver Bow and Easterly mining properties while in town, and of which he is the owner. The two latter adjoin the Toric on the east. He was particularly pleased with the ore showings recently developed on these properties.

Copper Market Healthy Says Col. D. C. Jackling

"The copper metal situation is growing considerably better. It has shown some improvement for a long time, with its down and up swing, and after the peaks have been reached, it settles down and is always a little more stable." This is the opinion of Col. D. C. Jackling, one of the great mining men of the country, than whom there are none more qualified to speak on the metal industry.

The Jackling party, escorted from Seattle by E. T. Stannard, vice-president and general manager of the Kennecott Copper Corporation, returned on the steamer Alaska, after visiting the Kennecott and Mother Lode copper mines in the Copper river area. Forming the party were Col. D. C. Jackling, a director of the Kennecott Copper Corporation; president of the Utah Copper and Nevada Consolidated; vice-president of the Ray Consolidated; president of the Bingham-Garfield Railroad Company, and a director in a score of other mining and financial concerns; Ralph Noland, mining engineer of national repute, long on the staff of the Jackling interests; A. C. Bowie, of the legal department of the Jackling interests, and C. A. Nickson, secretary to Col. Jackling.

"The world is consuming more copper now than it did even during the world war," said Col. Jackling, "with the price getting firmer and the fluctuations not so violent. Of course, there are always variations in price, but the present tendency is good, and although the metal is not as high as it might be, still at a selling price above 14 cents it is better than if below that figure. In recent weeks the takings have been greater than the production, and the industry generally is in good shape."

In speaking of conditions at Kennecott, where the Kennecott and Mother Lode copper mines are located, Col. Jackling said they were the greatest deposits of high grade ore, for the amount produced, the world has ever known, and no other mines have ever approximated them. He said the mines were well equipped with a perfect organization, the production is normal and the development very satisfying.—Alaska Weekly.

Any man who, today, can hide behind a woman's skirt must be a magician.

MINERAL ACT

NOTICE TO DELINQUENT PARTNER

TO SAMUEL MOORE

TAKE NOTICE, whereas I have done and caused to be done assessment work on the No. 3 Claim, being part of the "Midnight" Group Mineral Claims, situated at the junction of West Creek and Kitsault River, in the Naas River Mining Division of Cassiar District, for the years 1923, 1924 and 1925 and have paid for said work and recording same the sum of \$300.00. Unless you pay me the sum of \$300.00 for your share of the said assessment work of the Midnight group, together with the cost of this advertisement, I shall, at the end of ninety (90) days from the date hereof apply to the Mining Recorder at Anyox, B. C. to have your interest in the Midnight Group of Mineral Claims vested in me, in pursuance of the provisions of the Mineral Act.

Dated at Alice Arm this 15th. day of August, 1925.

ANTON SERBICH.

After having spent many a month in experimental work, the Premier Gold Mining company have decided to increase the milling capacity of their plant, by adding another unit, to 400 tons per day. The present mill, when built was constructed to handle 100 tons, though this has been materially increased.

SYNOPSIS OF LAND ACT AMENDMENTS

PRE-EMPTIONS

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emptions is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 5,000 board feet per acre west of the Coast Range and 8,000 feet per acre east of that Range.

Applications for pre-emptions are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emptions must be occupied for five years and improvements made to value of \$10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

PURCHASE

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price of first-class (arable) land is \$5 per acre, and second-class (grazing) land \$2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

HOMESITE LEASES

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

GRAZING

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free, or partially free, permits are available for settlers, campers and travellers, up to ten head.

Granby Co. is Shipping Flue Dust From Old Smelter Site

Arrangements have been made by J. W. Clark and James Poggi for the shipping of a car per day of the flue dust and ore from the old Granby smelter site, and also the shipping of a car daily from the dump of the Providence mine at Greenwood to the smelter of the Consolidated Mining and Smelting Company at Trail. Comptroller T. D. Bingay visited both properties on Sunday in company with Mr. Poggi.

Shipments of the flue dust and residue from the Granby site started Wednesday with a crew of five men at work, and it is possible the number will be increased in order to ensure the car-per-day shipment.

It is roughly estimated that there may be anywhere from 5,000 to 15,000 tons of shipping material at the old smelter site. Until returns are received from several cars it will not be possible to say how much will be shipped, but on a basis of returns from samples it is expected that daily car shipments can be continued for nearly a year.

In like manner the shipments from the Providence mine at Greenwood will be continued indefinitely, depending on the returns received. However, returns from the car shipped were more favorable than had been expected.

Mr. Poggi is in charge of the Grand Forks shipments and Mr. Clark is directing shipments at Greenwood.—Grand Forks Gazette

Forty-two regular steamship lines are now operating out of the port of Vancouver, the gross tonnage for last year being 14,473,518, which is over a million tons in excess of the 1923 figures. Remarkable strides have been made by this port during the last five years, and Vancouver is now rated as one of the leading ports of the Pacific.

New York is the most crowded community on earth. The average population per acre is 545; London is second with 268; and Tokio is third with 217.

Cranbrook went dry in a natural way last week. The brewery went up in smoke!—Blairmore Enterprise.

The deepest hole in the earth is one in West Virginia, which was bored 7,679 feet in search of natural gas.

"Too bad!" exclaimed the professor, "One of my pupils, to whom I've given two courses of instruction in the cultivation of the memory, has forgotten to pay me, and the worst of it is I can't remember his name."

Sid. Miller left on Tuesday for Anyox, after spending the past six weeks here developing his mining properties. He will spend the coming winter at Anyox.

Mr. and Mrs. J. Devlin left today for Vancouver. They expect to be away two or three weeks.

Mr. J. A. Anderson arrived home on Monday from a trip to Vancouver, accompanied by Mrs. Serjeant and child of Vancouver, who will reside with Mr. Anderson and family.

P. E. Quirk, of Peel, Isle of Man, England, was a visitor to Alice Arm during last week, arriving Tuesday and leaving on Friday. The object of his visit was an examination of the Toric mine which he visited. He was exceedingly well pleased with everything he saw, and may pay us another visit at a later date

Mr. and Mrs. Arthur Smith and family arrived on Monday from Seattle, and will make their future home here. Mr. Smith, who is connected with the Kitsault River Mining and Development Co., left here a short time ago in order to escort Mrs. Smith north. Mrs. Smith is a former resident of Alice Arm, and was surprised at the growth of the town during her absence of the past few years. They have purchased the residence formerly occupied by C. P. Riel.

J. Beaudin was a recent arrival from Terrace to Alice Arm on a visit to his brothers, Art Beaudin and Geo. Beaudin. He left his home at Seattle on July 29th., and spent two weeks at Kalum Lake near Terrace, examining a mining property there of which he is the owner. He states that mining is active at the head of the Lake, and the Black Wolf, which was recently bonded for \$40,000 is working a number of men. He owns mineral claims practically adjoining the Black Wolf, and was offered an option on the property. He brought some nice specimens of gold and galena ore out with him. He expects to remain here throughout the coming winter.

See Al Falconer for Wood, Coal and Lumber.

About the only thing that really come to him who waits are hunger, collectors and whiskers.
